☐ IF NECESSARY, PLEASE INCREASE MY BIDS BY ☐1 ☐2 ☐3 INCREMENT(S)*Lots will be purchased as much below top bids as possible.*☐ I WANT TO LIMIT MY BIDDING TO A TOTAL OF \$

at the hammer amount for all lots listed on this bid sheet. I am aware that by utilizing the Budget Bidding feature, all bids on this sheet will be affected. If I intend to have regular bidding on other lots I will need to use a separate bid sheet.

Do you want to receive an email, text message, or fax confirming receipt of your bids?

☐ Email ☐ Cell Phone Text ☐ Fax

Payment by check may result in your property not being released until purchase funds clear our bank. Checks must be drawn on a U.S. bank. All bids are subject to the applicable Buyer's Premium. See HA.com for details.

I have read and agree to all of the Terms and Conditions of Auction: inclusive of paying interest at the lesser of 1.5% per month (18% per annum) or the maximum contract interest rate under applicable state law from the date of auction.

REFERENCES: New bidders who are unknown to us must furnish satisfactory industry references or a valid credit card in advance of the auction date.

(Signature required) Please make a copy of this bid sheet for your records.☐ I HAVE PREVIOUSLY BOUGHT FROM HERITAGE AUCTIONS☐ I HAVE A RESALE PERMIT – please contact 800-872-6467

Non-Internet bids (including but not limited to, podium, fax, phone and mail bids) may be submitted at any time and are treated similar to floor bids. These types of bids must be on-increment or at a half increment (called a cut bid). Any podium, fax, phone or mail bids that do not conform to a full or half increment will be rounded up or down to the nearest full or half increment and will be considered your high bid.

Current Bid	Bid Increment	
\$10,000 – \$19,999	\$1,000	
< – \$10	\$1	\$20,000 – \$29,999 \$2,000
\$10 – \$29	\$2	\$30,000 – \$49,999 \$2,500
\$30 – \$49	\$3	\$50,000 – \$99,999 \$5,000
\$50 – \$99	\$5	\$100,000 – \$199,999 \$10,000
\$100 – \$199	\$10	\$200,000 – \$299,999 \$20,000
\$200 – \$299	\$20	\$300,000 – \$499,999 \$25,000
\$300 – \$499	\$25	\$500,000 – \$999,999 \$50,000
\$500 – \$999	\$50	\$1,000,000 – \$1,999,999 \$100,000
\$1,000 – \$1,999	\$100	\$2,000,000 – \$2,999,999 \$200,000
\$2,000 – \$2,999	\$200	\$3,000,000 – \$4,999,999 \$250,000
\$3,000 – \$4,999	\$250	\$5,000,000 – \$9,999,999 \$500,000

7 Easy Ways to Bid

1 Internet

Simply go to www.pearsoncmg.com

Simply go to www.HA.com, find the auction you are looking for and click "View Lots" or type your desired Lot # into the "Search" field. Every lot is listed with full descriptions and images. Enter your bid and click "Place Bid." Internet bids will be accepted until 10:00 PM CT the day before the live auction session takes place.

2 e-Mail

You can also e-mail your bids to us at Bid@HA.com. List lot numbers and bids, and include your name, address, phone, and customer # (if known) as well as a statement of your acceptance of the Terms and Conditions of Sale. Email bids will be accepted up to 24 hours before the live auction.

3 Postal Mail

Simply complete the B

Simply complete the Bid Sheet on the reverse side of this page with your bids on the lots you want, sign it and mail it in. If yours is the high bid on any lot, we act as your representative at the auction and buy the lot as cheaply as competition permits.

4 In Person

Come to the auction and view the lots in person and bid live on the floor.

5 FAX
Follow t

Follow the instructions for completing your mail bid, but this time FAX it to (214) 409-1425. FAX bids will be accepted until 12:00 p.m. CT the day prior to the auction date.

6 Live By Phone

Call 1-800-872-6467 Ext. 11

Call 1-800-872-6467 Ext. 1150 and ask for phone bidding assistance at least 24 hours prior to the auction.

7 Live using HERITAGE Live!®
Auctions designated as "Heritage Live Enabled" have

Auctions designated as "Heritage Live Enabled" have continuous bidding from the time the auction is posted on our site through the live event. When normal Internet bidding ends, visit HA.com/Live and continue to place Live Proxy bids. When the item hits the auction block, you can continue to bid live against the floor and other live bidders.

Because of the many avenues by which bids may be submitted, there is the real possibility of a tie for the high bid. In the event of a tie, Internet bidders, within their credit limit, will win by default.

Dear Bidder:

Welcome to Houston! Our Official Auction of the Money Show of the Southwest has thousands of U.S. coins for a wide range of collectors. Whether you are looking for a 1909-S VDB cent or an 1879 Flowing Hair Stella in PR65 Deep Cameo, you can find it in these pages.

This auction has two named collections, *The Parcfeld Collection* and *The Moore Coin Collection*, and two Featured Collections. We invite you to read about them below:

The collection of Donald E. Bently, sold for the benefit of the Bently Foundation

Christopher Bently has decided to sell the collection of Donald E. Bently to build a new legacy of creativity, sustainability, and animal rights in the Bay Area and Northern Nevada communities with Bently Foundation.

Donald E. Bently was founder, owner and Chief Executive Officer of Bently Nevada Corporation, and President of Bently Pressurized Bearing Corporation. He pioneered technology that created the foundation of a new discipline of Mechanical Engineering, the Diagnostics of Machinery Malfunctions.

Donald's tradition of innovation, sustainability, and community development are carried on by his son Christopher through the Bently Foundation. All proceeds will go to the Bently Foundation and help bring Christopher Bently's forward thinking vision — one of community and local sustainability — into reality.

The Ole Miner's Collection

The Ole Miner's Collection has considerable variety alongside a concentration in U.S. gold coinage, particularly commemorative pieces and those from Southern and Western mints. The collection accounts for 10 lots in the Premier Session, including an 1840-D half eagle with Small D reverse, MS61 NGC.

As always, you have seven ways to win in this Heritage auction. Before the event, we will accept bids through our Web site, HA.com, and by mail, fax, and e-mail. Real-time remote bidding is available on our proprietary online platform Heritage LIVE!™ and over the telephone. If you can join us in Houston, of course, we would love to see you there. Visit our booth on the Bourse, review the coins you want at our in-person lot viewing, and win them right on the auction floor.

Good luck!

Sincerely,

Greg Rohan
President

Todd Imhof
Executive Vice-President

COLONIALS

1652 Pine Tree Threepence, VF30
Ex: Hessberg, Noe-36

- 3001** 1652 Pine Tree, No Pellets Threepence VF35 PCGS. Noe-36, W-640, Salmon 2-B, R.4. Ex: Hessberg. 18 gn. No Pellets at trunk. All letters are clear on this unblemished middle grade cream-gray Pine Tree threepence, with the sole exception of the tops of the SA in MASATHVSETS. The obverse rosette is indistinct where a bend caused uneven wear. The tree, date, and denomination are sharp. An elusive late die state with a horizontal line (as made) through the beaded circle above the tree and minor engraving differences on portions of the left-side obverse design. Listed on page 39 of the 2014 *Guide Book*.
Ex: Edward Hessberg Collection (Stack's, 6/1991), lot 1257, which realized \$1,045. PCGS# 21

1652 Pine Tree Shilling, VF20
Small Planchet, Noe-29

- 3002** 1652 Pine Tree Shilling, Small Planchet VF20 PCGS. Noe-29, W-930, Salmon 11-F, R.3. This silver-gray representative has a bold tree, date, and denomination. The surfaces are unmarked but moderately granular. The obverse border is softly impressed between 12 and 3 o'clock on the obverse and opposite from 9 to 12 o'clock on the reverse. A lamination affects several beads near the 1 in the date. Listed on page 39 of the 2014 *Guide Book*. PCGS# 24

Small Planchet Pine Tree Shilling
VF30, Noe-17

- 3003** 1652 Pine Tree Shilling, Small Planchet VF30 PCGS. CAC. Noe-17, W-840, Salmon 3-B, R.3. 69.29 gn. A pleasing gunmetal-gray shilling with unmarked surfaces and good centering. The sharpness is consistent except for softness near 7 o'clock on the obverse and opposite at 5 o'clock on the reverse. Small die breaks are evident near the O in DO. Listed on page 39 of the 2014 *Guide Book*. PCGS# 24
- 3004** (1670-75) St. Patrick Farthing Fine 12 PCGS. CAC. Breen-208. Nothing below king. The brass splasher is ideally centered on the crown. This unmarked and moderately granular example is evenly defined except for weakness on the R in REX, caused by a slightly misaligned obverse die. Listed on page 41 of the 2014 *Guide Book*. PCGS# 42
- 3005** (1694) London Elephant Token, Thick Planchet — Struck 10% Off Center — VG8 NGC. Hodder 2-B, W-12040, R.2. Off center toward 2:30 with a portion of the collar visible near 9 o'clock of each side. The pachyderm is nicely defined, as is the right-side reverse, though much of the reverse is featureless. A flan flaw is noted on the center-left reverse. Listed on page 46 of the 2014 *Guide Book*. PCGS# 55
- 3006** 1773 Virginia Halfpenny, Period MS64 Red PCGS. CAC. N. 24-K, W-1570, R.1. Predominantly pumpkin-orange, though the high points are deep gray. Unabraded and moderately prooflike with good eye appeal. Listed on page 45 of the 2014 *Guide Book*. Population: 34 in 64 Red, 1 finer (10/13). PCGS# 242
- 3007** 1773 Virginia Halfpenny, No Period MS63 Red and Brown PCGS. CAC. N. 6-X, W-1610, R.3. Peach-gold peers from protected areas of this nicely struck and unmarked halfpenny. Sea-green and plum-red drape the high points and fields. Listed on page 45 of the 2014 *Guide Book*. PCGS# 244
- 3008** 1787 Massachusetts Half Cent — Improperly Cleaned — NGC Details. Unc. Ryder 3-A, W-5920, Low R.5. A lustrous example of this rare die pairing. Recolored, though the steel-gray and golden-brown toning is deceptive. Careful rotation reveals a cluster of pinscratches on the right obverse field. Listed on page 59 of the 2014 *Guide Book*. PCGS# 296

3009 1786 New Jersey Copper, Date Under Plow, No Coulter VG8 PCGS. CAC. M. 12-G, W-4790, R.4. A circulated but problem-free walnut-brown New Jersey type coin. Minimally abraded and only lightly granular for the grade. Most legends are clear though portions of PLURIBUS are faint. Listed on page 69 of the 2014 *Guide Book*. PCGS# 494

3010 1786 New Jersey Copper, Narrow Shield, Straight Plow Beam AU53 PCGS. M. 14-J, W-4810, R.1. A tan-brown and steel-gray New Jersey type coin that has an even strike and attractive surfaces. Somewhat off center toward 2 o'clock, but all letters are intact. Listed on page 69 of the 2014 *Guide Book*. PCGS# 45423

3011 1786 New Jersey Copper, Bridle VF30 PCGS. M. 18-M, W-4890, R.2. The "Bridle" variety is named after the vertical die crack beneath the snout of the horse. This glossy golden-brown representative is smooth aside from a nick on the lower right shield border. Listed on page 69 of the 2014 *Guide Book*. PCGS# 501

**1787 Serpent Head New Jersey Copper
XF40, Maris 54-K**

3012 1787 New Jersey Copper, Serpent Head XF40 PCGS. CAC. M. 54-K, W-5295, R.3. The neck of the horse has unusual length for the series and inspires the "Serpent Head" moniker, established by Maris in the 19th century. Perhaps "Giraffe Head" is more appropriate. A well centered and unblemished state copper with some softness of strike near 3 o'clock on each side. The light brown surfaces exhibit a slight lilac-red tint. Listed on page 70 of the 2014 *Guide Book*. Population: 4 in 40, 6 finer (10/13). PCGS# 518

3013 1786 Vermont Copper, VERMONTENSIVM VF30 PCGS. RR-7, Bressett 5-E, W-2025, R.3. This moderately granular steel-gray example is smooth aside from a mark on the right border of the sun and rim imperfections at 1 o'clock on the obverse and 7 o'clock on the reverse. Usual die state with obverse die failure near the top of the plow. The reverse is moderately misaligned toward 4:30, though the legends are intact. Listed on page 72 of the 2014 *Guide Book*. PCGS# 545

3014 1787 Fugio Cent, STATES UNITED, 4 Cinquefoils, Pointed Rays XF40 NGC. N. 11-X, W-6790, R.4. This unabraded walnut-brown representative appears sharper than the designated grade, though each side has several slender laminations, as made. Struck from clashed obverse die. The reverse has faint gray spots near 4 and 5 o'clock. Listed on page 87 of the 2014 *Guide Book*. PCGS# 883

3015 1787 Fugio Cent, STATES UNITED, 4 Cinquefoils, Pointed Rays AU58 PCGS. CAC. N. 12-X, W-6820, R.3. A deep golden-brown example with glossy and moderately prooflike surfaces. No wear, abrasions, or flan deficiencies are readily evident. A charming Fugio copper that likely emerged from the Bank of New York holdings. Listed on page 87 of the 2014 *Guide Book*. PCGS# 883

**1787 Fugio Cent, Newman 8-X, MS63 Brown
STATES UNITED, Pointed Rays**

3016 1787 Fugio Cent, STATES UNITED, 4 Cinquefoils, Pointed Rays MS63 Brown PCGS. N. 8-X, W-6750, R.3. Newman Die State E/C with a heavy vertical break affecting the central obverse exergue. Well-struck and unabraded with glimpses of fire-red in protected areas. The open fields and high points are olive-brown. One flan flaw noted at 9:30 on the reverse. The high grade and 'X' reverse die suggest a Bank of New York origin. Listed on page 87 of the 2014 *Guide Book*. PCGS# 883

**Rhode Island Ship Token, Choice AU
Copper, No Wreath, W-1730**

3017 1778-1779 Rhode Island Ship Token, No Wreath, Copper AU55 PCGS. CAC. Betts-562, W-1730, R.3. A medium brown representative that shows light wear on the ship and the extremities of Rhode Island. Lightly granular, as usual for the variety. Void of relevant abrasions. As nearly always, VLUGTENDE was removed by the maker prior to issue. Listed on page 50 of the 2014 *Guide Book*. PCGS# 579

**1789 Mott Token, MS62 Brown
Engrailed Edge, Thick Planchet
Breen-1020, Rulau NY-612**

3018 1789 Mott Token, Thick Planchet, Engrailed Edge MS62 Brown PCGS. CAC. Breen-1020, Rulau NY-612. Most Mott Tokens are either plain edge, or thin planchet, or both. Rulau lists the engrailed edge variety as Rarity-8 but does not distinguish between thin and thick flans. The present token has an unusually thick flan and is essentially a piedfort. The die state is early, though the obverse field is buckled, typical for the issue. An impressive chocolate-brown example. Listed on page 74 of the 2014 *Guide Book*. Population: 2 in 62 Brown, 0 finer (10/13). PCGS# 606

3019 1789 Mott Token, Thin Planchet, Engrailed Edge AU55 PCGS. CAC. Breen-1025. A golden-brown and steel-gray token. An early die state with no indication of the eventual break from the clock corner. The reverse die is misaligned toward 7 o'clock. The line above the eagle is from a planchet scratch made prior to the strike. The engrailed edge variety is much scarcer than its plain edge counterpart. Listed on page 74 of the 2014 *Guide Book*. Population: 5 in 55, 9 finer (10/13). PCGS# 607

3020 (1792-94) Kentucky Token, LANCASTER Edge MS63 Red PCGS. Breen-1156, W-8810, R.5. Much scarcer than the usual Plain Edge variant. The Kentucky token, or "Starry Pyramid" as Breen referred to it in his 1988 *Encyclopedia*, was struck in England. This unmarked and lustrous brick-red example is well struck except on the A in CAUSE. Listed on page 75 of the 2014 *Guide Book*. PCGS# 625

3021 1794 Talbot, Allum & Lee / John Howard Mule AU55 NGC. Breen-1049, W-8720, R.4. PAYABLE IN LONDON edge. The New York TAL tokens were struck in England. The maker retained the obverse die and paired it with unrelated reverses to create scarce Conder token varieties. John Howard, who died in 1790, was a prison reformer. A lightly circulated dark brown halfpenny with pleasing surfaces. PCGS# 976

1783 Unity States Washington Cent Baker-1, MS63 Brown

3022 1783 Washington Unity States Cent MS63 Brown PCGS. Baker-1, W-10130, R.1. An uncommonly lofty grade for this popular Washington variety, which is usually encountered between VF and AU. Light to medium brown toning with the peripheral roller marks (as made) endemic to the issue. Listed on page 80 of the 2014 *Guide Book*. Population: 2 in 63 Brown, 2 finer (10/13). Ex: Orlando FUN Signature (Heritage, 1/2009), lot 115, which realized \$2,760. PCGS# 689

1791 Washington Cent, MS62 Brown Large Eagle, Baker-15

3023 1791 Washington Large Eagle Cent MS62 Brown PCGS. Baker-15, W-10610, R.2. A sharply struck chocolate-brown Washington copper with moderately prooflike fields. Smooth save for a mint-made lint mark near the nose and an obverse line at 3:30. A flip is included for lot 108 of the Bowers and Merena auction of the May 1992 Somerset Collection, though that coin was a Voce Populi copper. Listed on page 81 of the 2014 *Guide Book*. PCGS# 702

HALF CENTS

3024 1793 — Damaged — ANACS. AG3 Details. C-1, B-1, High R.3. Manley Die State 3.0, "very rare." A rim die break is present on the reverse border between 1:30 and 2:30. Among the last examples struck from the first half cent dies. A lavender-brown piece with a burnished and smoothed obverse and a granular reverse. Our EAC grade Poor 1.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2222, PCGS# 1000

3025 1795 Lettered Edge, Punctuated Date VG10 NGC. C-2a, B-2a, R.3. This dark brown representative is minimally abraded. Most legends are bold though HALF CENT shows softness. Moderately granular except for a narrow area at the top of the neck. Our EAC grade Good 6. PCGS# 1015

3026 1797 1 Above 1, Plain Edge XF45 NGC. C-1, B-1, R.2. Manley Die State 4.0 to 5.0. The obverse die was sunken between 12 and 3 o'clock, causing weakness of strike within that area, as well as on the reverse between 4 and 6 o'clock. A splendid half cent consistent walnut-brown toning and no detracting marks or spots. Our EAC grade VF30. PCGS# 1042

3027 1803 VF35 PCGS. CAC. C-1, B-1, R.1. Manley Die State 3.0. The late die state with a crack through the EN in CENT. A nicely detailed chocolate-brown Draped Bust type coin. The obverse field displays abrasions beneath the toning. Our EAC grade Fine 15. NGC ID# 222E, PCGS# 1060

3028 1803 AU55 PCGS. C-1, B-1, R.1. Manley Die State 2.0, "very scarce," without the usually seen diagonal die crack through the EN in CENT. Mostly toned golden-brown and olive with glimpses of plum-red on the motifs. Minor abrasions are noted on the fraction numerator. Our EAC grade XF40. NGC ID# 222E, PCGS# 1060

3029 1804 Crosslet 4, Stems MS61 Brown PCGS. CAC. C-9, B-8, R.2. Manley Die State 2.0. Mostly golden-brown, though the high points display gunmetal-gray. Nicely struck and only minimally abraded. Carbon is minimal and the eye appeal is attractive. Our EAC grade AU50. NGC ID# 222F, PCGS# 1069

1804 C-10, B-9 Half Cent, MS63 Brown Crosslet 4, Stems, Late Die State

3030 1804 Crosslet 4, Stems MS63 Brown NGC. CAC. C-10, B-9, R.1. The upright Crosslet 4 on the obverse and the heavy ridge or crack through the R in AMERICA identify this variety. Manley Die State 3.0, the usual die state with no visible border details on either side. This olive-brown and steel example has cartwheel luster with considerable mint frost. Our EAC grade AU55. NGC ID# 222F, PCGS# 1069

3031 1806 Large 6, Stems AU58 PCGS. C-4, B-4, R.1. Manley Die State 1.0. Due to the quantity of surviving examples, the 1806 Large 6 half cent is often the choice of collectors seeking a single example of the date or design. A lovely piece, this near-Mint example retains attractive surfaces and pleasing mahogany color. Our EAC grade AU50. Population: 31 in 58, 43 finer (10/13). NGC ID# 222J, PCGS# 1099

3032 1833 MS64 Brown PCGS. CAC. C-1, B-1, R.1. Manley Die State 2.0. A fully struck and coruscating Choice half cent that possesses superior eye appeal. No marks or spots are readily discerned, and even the veteran collector will be pleased. Housed in a green label holder. Our EAC grade MS60. NGC ID# 222Z, PCGS# 1162

3033 1834 MS64 Brown NGC. CAC. C-1, B-1, R.1. Manley Die State 2.0. Medium brown overall with glimpses of the initial orange-red in design recesses. Pristine save for a minor mark above the F in HALF and a subtle spot on the cheek near the nose. Well struck except on the EN in CENT. Our EAC grade MS60. NGC ID# 2232, PCGS# 1165

3034 1857 MS65 Red and Brown NGC. C-1, B-1, R.2. Satiny and unabraded with a suitable strike and rich forest-green centers and orange-gold margins. The high-points are plum-red. A low mintage date though a number were set aside upon issue. Housed in a former generation holder. Our EAC grade AU55.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26Z3, PCGS# 1240

LARGE CENTS

1793 Wreath Cent, XF Details Popular 'Sprung Die' S-6 Variety

3035 1793 Wreath Cent, Vine and Bars — Burnished — NGC Details. XF. S-6, B-7, R.3. A sharp example of the fleeting Wreath cent type, coined for only a few months during 1793. The lavender-brown surfaces are moderately glossy and lightly granular. A few dull, thin marks are noted near ONE CENT and the ribbon. The obverse is unabraded aside from a line near the jaw. Our EAC grade VF20.

3036 1793 Wreath Cent, Lettered Edge AG3 PCGS. CAC. S-11c, B-16c, Low R.3. Presumably S-11c, the lettered edge variety with a single leaf after DOLLAR. The edge is not accessible within the holder. Most of LIBERTY is clear, and the date is discernible. The portrait is nicely outlined. A tan-brown example with moderately granular surfaces. Small rim nicks are at 7:30 on the obverse and 3 o'clock on the reverse. Our EAC grade Fair 2. NGC ID# 223J, PCGS# 1350

3037 1794 Head of 1793 — Environmental Damage — PCGS Genuine. VF Details. S-19b, B-3b, R.4. The Edge of 1794 has an upturned leaf after the word DOLLAR. This dark olive-brown and steel example displays moderate obverse pitting and porosity with lighter granularity on the reverse. Our EAC grade VG10. NGC ID# 223N, PCGS# 1362

1794 S-31 Cent, Choice VF Head of 1794

3038 1794 Head of 1794 VF35 PCGS. S-31, B-13, R.1. An example of the "Marred Field" variety, named for its die lumps on the left obverse field. The medium brown surfaces show ample design detail and are virtually void of verdigris. Moderate marks are noted near CENT, the eye, the O in OF, and the I in AMERICA. Our EAC grade VF20. NGC ID# 223P, PCGS# 901374

3039 1798 Second Hair Style VF30 NGC. S-166, B-32, R.1. The heavy reverse crack between 5 and 9 o'clock identifies this collectible Sheldon variety. A gunmetal-gray representative with pleasing, minimally abraded surfaces. Our EAC grade Fine 15. NGC ID# 2244, PCGS# 1434

3040 1798 Second Hair Style VF35 PCGS. S-186, B-39, R.2. Breen Die State VII. A heavy reverse die crack between 3 and 6 o'clock confirms the Sheldon marriage. A well defined walnut-brown cent with good eye appeal despite occasional small rim nicks and minor granularity near the STA in STATES. Our EAC grade VF20. NGC ID# 2244, PCGS# 1434

3041 1798 Second Hair Style — Environmental Damage — PCGS Genuine. XF Details. S-166, B-32, R.1. The familiar variety with a heavy diagonal crack across the lower right reverse quadrant. A richly detailed deep brown cent with evenly and moderately granular surfaces. Minimally abraded. Our EAC grade VF20. NGC ID# 2244, PCGS# 1434

3042 1801 100/000 Fine 15 PCGS. S-221, B-5, R.2. The only 1801 die marriage with a corrected fraction, S-221 thus receives a separate *Guide Book* listing, though five other Sheldon varieties for the date express the fraction as 1/000. This example is well defined for the designated grade. The mildly glossy medium brown surfaces display scattered small marks. Our EAC grade VG8. NGC ID# 224D, PCGS# 1467

3043 1802 XF40 NGC. S-232, B-12, R.1. S-232 has a cud over the AT in STATES. The T in LIBERTY is over a Y. A medium to deep brown representative with pleasing sharpness and a few delicate pinscratches on the obverse field below the chin and above the ribbon. Our EAC grade VF30. NGC ID# 224E, PCGS# 1470

3044 1803 Small Date, Small Fraction — Burnished — NGC Details. AU. S-247, B-5, R.3. Clashed dentils through the denominator and LIBERTY help attribute this richly detailed Draped Bust cent. A die break beneath the chin adds further interest. The strike is soft only near 10 o'clock on the reverse. Inoffensively wiped at one time, but this deep brown example will please most collectors. Our EAC grade VF35.

**1804 Cent, VF30 Sharpness
S-266c, Two Cuds**

- 3045 1804 — Corroded — ANACS. VF30 Details. S-266c, B-1, R.2.** The late die state with cuds over RTY and MERIC. A midgrade example of the famous 1804 cent. Just one die variety was used to coin the date. This mahogany-brown example is mildly glossy. Evenly defined save for softness on the second S in STATES. Portions of the reverse are moderately granular and show traces of verdigris. The obverse is smooth save for a minor spot at 4 o'clock. Our EAC grade Fine 15.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 224H, PCGS# 1504

- 3046 1805 XF45 NGC. S-267, B-1, R.1.** Noticeable luster shimmers in protected areas of this steel-blue Draped Bust cent. The reverse has a minor rim ding at 9 o'clock and a horizontal hair-thin mark is noted above Liberty's neck. Our EAC grade VF35. NGC ID# 224K, PCGS# 1510

- 3047 1812 Small Date — Smoothed — PCGS Genuine. AU Details. S-290, B-2, R.1.** This cent has little actual wear, but was whizzed to pass as Uncirculated. Retoned steel-gray and golden-brown. The Classic series is readily obtained in dark, well worn condition but high grade pieces are elusive. Our EAC grade VF20. NGC ID# 224W, PCGS# 1561

**1814 Large Cent, AU53
Plain 4, S-295**

- 3048 1814 Plain 4 AU53 PCGS. S-295, B-2, R.1.** No cents were minted in 1815 and the design was changed in 1816, making the 1814 Classic Head an important issue for type purposes. Only two die varieties are known, with this coin representing the S-295 variety, easily recognized by the Plain 4 in the date. This Choice AU specimen displays smooth brown surfaces with just a few minor abrasions and light wear on the design elements. Our EAC grade XF40. NGC ID# 224Y, PCGS# 1576

- 3049 1819/8 Large Date MS63 Brown PCGS. CAC. N-1, High R.1.** A well struck early die state example that has satin luster and smooth surfaces. Medium brown overall with sea-green and lilac-red undertones. Our EAC grade AU50. Population: 10 in 63 Brown, 4 finer (10/13). NGC ID# 2255, PCGS# 1612

- 3050 1820 Large Date MS65 Brown PCGS. N-13, R.1.** A triple-punched L in LIBERTY, along with bold obverse peripheral cracks and a recut N in CENT, combine to attribute the familiar Randall Hoard variety. Semiprooflike and unabraded with deep chocolate-brown and sea-green toning. Our EAC grade MS60. NGC ID# 2256, PCGS# 1615

**1823 Restrike Cent, MS64 Brown
N-3, Early Die State**

- 3051 1823 Restrike MS64 Brown NGC. N-3, R.2.** The rusted and broken dies were initially sold by the Mint as scrap metal. A Newcomb-2 1823 obverse die was muled with an S-293 1813 reverse and privately struck prior to the Civil War. An early die state without any cracks. The obverse cud has been tooled away, likely as issued by the maker. Toned primarily sea-green with glimpses of the initial orange-red at the obverse margin. Certified in a former generation holder. Our EAC grade MS60. PCGS# 81627

- 3052 1826 MS62 Brown NGC. N-4, Low R.2.** A walnut-brown representative is smooth except for faint marks near the O in ONE and the C in CENT. The strike is typical and carbon is inconsequential. A mildly granular area is near the first star. Our EAC grade AU50. NGC ID# 225G, PCGS# 1645

- 3053 1835 Small 8 and Stars MS63 Brown PCGS. N-6, R.1.** Hints of fire-red linger within the wreath, but most of this lustrous Select cent is gunmetal-blue. The stars are typically brought up but both sides are smooth aside from a hair-thin line near the ER in AMERICA. Our EAC grade MS60. PCGS# 1717

- 3054 1841 MS64 Brown PCGS. N-6, R.1.** Grellman Die State a. The obverse is chocolate-brown, as is the reverse border. The field inside the wreath is gunmetal-blue. Smooth aside from minor contact on the lower cheek. Our EAC grade AU55. NGC ID# 2267, PCGS# 1832

- 3055 1846 Small Date MS65 Brown NGC. N-8, R.1.** Grellman Die State a-b. A magnificent Gem with glossy, smooth surfaces. Iridescent lime-green and lilac toning contributes further to the eye appeal. Well struck save for a couple of star centers. Our EAC grade AU55.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 226C, PCGS# 1865

**1847 N-19 Cent, MS64 Red
Possibly Finest Known**

- 3056 1847 MS64 Red NGC. N-19, R.1.** Grellman Die State b. The date is repunched, visible inside the 8 and along the upper edge of the crossbar in the 4. The usual late die state without die lines on the central reverse. This lovely near-Gem exhibits orange mint luster with splashes of faded brown patina on each side. It ranks high in the condition census, and may be among the finest known. It is clearly finer than either the Ted Naftzger MS60 called fifth finest known, and it is finer than the Dan Holmes MS62+ example, said to be "CC#4 behind a trio of very slightly finer examples in the Grellman Census." Our EAC grade MS63. PCGS# 1879

- 3057 1851 MS66 Red and Brown NGC. N-10, R.1.** Grellman Die State b. Fire-red and steel-blue alternate across this lustrous and beautiful Premium Gem. Essentially devoid of contact. The portrait is well struck though the stars and dentils show occasional softness. Our EAC grade MS63. NGC ID# 226H, PCGS# 1893

**1857 N-4 Small Date Large Cent
MS65 Red and Brown**

- 3058 1857 Small Date MS65 Red and Brown NGC. CAC. N-4, R.1.** Apparently a late die state, this piece has a short point from the inner hair bun, but no evidence of the reverse clash marks associated with that die state. The surfaces are smooth with frosty brown luster showing faint blue overtones, and retaining considerable orange mint color. A lovely specimen for a date or type collector. Our EAC grade MS63. Census: 17 in 65 Red and Brown, 2 finer (10/13). PCGS# 1932

FLYING EAGLE CENTS

- 3059 1857 MS63 PCGS.** A well-detailed Select specimen of the iconic Flying Eagle cent, with original red color around the devices and light brown patina in the open fields. Only minor contact marks are evident. NGC ID# 2276, PCGS# 2016

- 3060 1857 MS64 NGC.** A lovely walnut-brown near-Gem, this coin exhibits sweeping luster and smooth surfaces. Closer examination reveals orange and red color, primarily on the obverse. The shallow strike-throughs near the denomination are of mint origin. NGC ID# 2276, PCGS# 2016

- 3061 1857 MS64 PCGS. CAC.** Predominantly peach surfaces are luminous with a few areas of deeper color mostly at the margins. Though softly struck, particularly on the knot of the wreath, this near-Gem is pleasingly preserved. NGC ID# 2276, PCGS# 2016

- 3062 1857 MS64 NGC. CAC.** Peach and salmon shadings prevail on this near-Gem from the first official small cent issue. Though not fully struck, the degree of design detail is pleasing. A few tiny flyspecks are present. NGC ID# 2276, PCGS# 2016

- 3063 1858/7 AU50 NGC. FS-301.** The upper right corner of the underdigit 7 is evident northeast of the second 8. A die lump, diagnostic for the coveted *Guide Book* variety, is nearly equidistant between the eagle and the first 8. A tan-brown example with a faded field mark above the tail and minor carbon near the crest of the front wing. NGC ID# 2TYC, PCGS# 2022

- 3064 1858 Large Letters MS64 PCGS.** High Leaves, Closed E in ONE. Both sides have splendid golden luster with bold design elements. Wispy die cracks are present near portions of the outer edges on both sides.
Ex: FUN Signature (Heritage, 1/2009), lot 299. NGC ID# 2277, PCGS# 2019

**1858 Large Letters Cent, MS65
Well-Struck, Multicolor Toning**

- 3065 1858 Large Letters MS65 NGC. CAC.** Low Leaves, Closed E in ONE. Lime-green, rose-red, and ice-blue with the deepest shades on the reverse. This well-struck Gem has strong mint luster and minimal signs of contact. The reverse displays a few minute flecks. A popular and briefly struck type that becomes scarce at the MS65 level. In a prior generation holder. NGC ID# 2277, PCGS# 2019

INDIAN CENTS

- 3066 1859 MS64 PCGS. CAC.** Wheat-gold color and pleasing luster add to the eye appeal of this near-Gem representative. An as-made strike-through is present near the T in UNITED. Scattered tiny flyspecks of carbon appear on both sides. NGC ID# 227E, PCGS# 2052

1861 Cent, Conditionally Scarce MS66 Boldly Struck

- 3067 1861 MS66 NGC.** The 1861 copper-nickel issue is available through Gem condition due to Civil War hoarding. Premium Gems such as the present offering are scarce, however, and finer examples are extremely rare. Uniformly toned tan coloration adorns both sides, and a bold strike characterizes the design features. Impeccably preserved surfaces are devoid of mentionable contacts or spots, adding to the coin's pleasing eye appeal. We mention a minute mark on the Indian's cheek, one to the left of the chin, and another under the right stand of the N in ONE solely for identification purposes. Census: 45 in 66 (1 in 66+, 4 in 66 ★), 3 finer (10/13). NGC ID# 227G, PCGS# 2061

- 3068 1864 Copper-Nickel MS65 NGC.** A beautiful apricot-gold Civil War Gem. Lustrous and unabraded with a crisp strike and only microscopic carbon. An outstanding copper-nickel type coin. *Ex: Peach State Sale (Mid-American, 9/1988), lot 22. From The Ole Miner's Collection.* NGC ID# 227K, PCGS# 2070

- 3069 1867/67 XF45 PCGS. Snow-1, FS-301.** Among the most popular repunched date varieties within the Indian cent series. The date was initially entered with an upward slant, then repunched in the proper position. A moderately circulated medium brown cent with pleasing surfaces for the grade. PCGS# 92088

- 3070 1869 MS64 Red and Brown NGC. CAC. Snow-2.** Per Snow, "this is a fascinating variety with a multiple repunched date and extra digits in the denticles. It seems to be quite scarce." Sharply struck, mark-free, and lustrous with steel-gray toning on the cheek and left obverse field. A spot is on the 9 in the date. NGC ID# 227T, PCGS# 2095

- 3071 1870 MS64 Red and Brown PCGS.** Shallow N. Mostly light to medium-orange with a few brown spots and minor carbon. All-around pleasing with good luster, a decent strike, and no abrasions of particular significance. NGC ID# 227U, PCGS# 2098

- 3072 1870 MS64 Red and Brown PCGS. CAC.** Shallow N. The hues on the obverse range from light orange to mahogany, while the reverse remains largely unturned. Decently if not fully struck and an all-around pleasing near-Gem. NGC ID# 227U, PCGS# 2098

1870 Indian Cent, MS65 Red Eagle Eye Photo Seal

- 3073 1870 MS65 Red PCGS.** Shallow N. An Eagle Eye Photo Seal sticker adheres to the slab, although the accompanying grading card is no longer present. This splendid Gem has rich orange mint luster that is faded at the centers. The strike is sharp and the surfaces are exceptional for the grade. Population: 38 in 65 Red, 5 finer (10/13). NGC ID# 227U, PCGS# 2099

1871 Cent, Appealing MS66 Red and Brown A Significant Condition Rarity

- 3074 1871 MS66 Red and Brown NGC.** Bold N in ONE. The 1871 cent is one of the rarest dates in the Indian Head series as most were melted. Those escaping the melting pot circulated for a long time and are consequently found in very low grades. NGC has seen fewer than 400 Mint State pieces in all three color designations. This MS66 specimen is one of only seven Red and Brown coins certified by NGC (the finest Red-certified examples graded by that service are four MS65s). Both sides display considerable orange-gold luster and sharply struck design elements, including the feather tips and the four diamonds. There are no mentionable marks or spots. Pleasing technical quality and aesthetic appeal. Census: 7 in 66 Red and Brown, 0 finer (10/13). NGC ID# 227V, PCGS# 2101

- 3075 1873 Closed 3 MS65 Red and Brown PCGS. CAC.** The mostly original red surfaces of this attractive Gem show hints of light brown in places, with vibrant mint luster and sharply detailed design elements. Population: 32 in 65 Red and Brown, 1 finer (10/13). NGC ID# 227X, PCGS# 2110

**1875 Indian Cent, MS65 Red
Well-Preserved, Lustrous Surfaces**

3076 1875 MS65 Red PCGS. CAC. Eagle Eye Photo Seal. The design elements of this attractive Gem show crisp definition throughout and the original red surfaces radiate vibrant mint luster. No large or distracting surface marks are present and there is no trace of carbon. Eye appeal is outstanding. Population: 34 in 65 Red, 6 finer (10/13). NGC ID# 2282, PCGS# 2123

3077 1877 Fine 15 ANACS. All letters of LIBERTY are visible if weak. Deep brown surfaces have a blue overtone on the obverse and a more reddish reverse. Glossy and appealing. NGC ID# 2284, PCGS# 2127

3078 1877 Fine 15 PCGS. An attractive circulated example of this sought-after key date that retains all major design elements in outline and shows much interior detail as well. The surfaces are free of large or distracting abrasions. NGC ID# 2284, PCGS# 2127

3079 1877 XF45 NGC. A lovely Choice XF example of the key date in this popular series. Both sides are well detailed. Scattered marks are present, consistent with the grade. All the letters of LIBERTY are legible, and most of them are sharp. A perfect coin for the collector who is finally ready to add this important coin to their collection. Ex: *Denver Signature (Heritage, 8/2006), lot 254.* NGC ID# 2284, PCGS# 2127

3080 1886 Type One MS66 Brown PCGS. CAC. The Type One cents are slightly more plentiful than the Type Two but are still conditionally rare, with this piece serving as the single MS66 Brown example at PCGS, with none finer (10/13). Areas of red, lavender, and light yellow-green are among the colors present on this lovely piece displaying a sharp strike. NGC ID# 228D, PCGS# 2154

3081 1893 MS66 Red PCGS. Colors range from pale apricot in the centers to yellow-orange and ruddy at the margins but never fall into the Brown shades. A well-defined Premium Gem. Population: 23 in 66 Red, 1 finer (10/13). NGC ID# 228M, PCGS# 2186

3082 1900 MS66 Red PCGS. CAC. The fiery red surfaces of this Premium Gem are brightly lustrous and the design elements strongly impressed. A great coin without singularly mentionable marks. Population: 82 in 66 (7 in 66+) Red, 6 finer (10/13). NGC ID# 228V, PCGS# 2207

**1902 Cent, MS66+ Red
Above-Average Strike**

3083 1902 MS66+ Red PCGS. Vibrant luster emanates from both sides of this high-end Premium Gem, and each exhibits well-struck design elements, including the dentils, feather tips, and shield, elements that tend to be weakly struck on this issue. Well-cared-for surfaces further enhance the coin's eye appeal. Fully Red specimens can be found through MS64, but higher-grade coins are difficult to locate, especially in MS66+ Red and finer. Population: 2 in 66+ Red, 9 finer (10/13). NGC ID# 228X, PCGS# 2213

3084 1908-S MS65 Red and Brown PCGS. CAC. The low mintage 1908-S is the first branch mint cent. The present lustrous Gem has an orange-gold center with ruby-tinted margins. No marks are visible and carbon is inconsequential. Encapsulated in a green label holder. NGC ID# 2296, PCGS# 2233

3085 1908-S MS65 Red and Brown PCGS. CAC. A luminous piece that offers a roughly equal balance between faded orange and olive hues. Struck well and clearly of Gem quality, an appealing example of this elusive initial S-mint cent issue. Ex: *Houston Signature (Heritage, 12/2010), lot 3219.* NGC ID# 2296, PCGS# 2233

3086 1909-S MS64 Red and Brown NGC. Both sides of this Choice Mint State Indian cent key exhibit lustrous surfaces with reddish-orange mint color and splashes of iridescent toning. A splendid example for a specialized collector of Indian cents or San Francisco Mint type coins. NGC ID# 2298, PCGS# 2239

3087 1909-S MS64 Red and Brown PCGS. Pale apricot and deeper tan and mahogany shadings mingle on this Red and Brown near-Gem key with a partial woodgrain pattern. Lustrous with minimal carbon. NGC ID# 2298, PCGS# 2239

**1909-S Indian Cent, MS65 Red and Brown
Sought-After Low-Mintage Issue**

3088 1909-S MS65 Red and Brown PCGS. CAC. This well-detailed Gem represents the last date of the Indian design, with a small reported mintage of just 309,000 pieces. The original red surfaces have mellowed to light brown in some areas but no mentionable surface flaws are evident. Satiny mint luster adds to the considerable eye appeal. PCGS has graded three numerically finer examples (10/13). NGC ID# 2298, PCGS# 2239

3089 1909-S MS63 Red PCGS. The 1909-S Indian cent claims the lowest mintage of the series, at a meager 309,000 pieces. Caramel-gold color provides this Select example with an attractive appearance. Numerous carbon flecks appear on both sides. NGC ID# 2298, PCGS# 2240

3090 1909-S MS64 Red PCGS. This well-detailed Choice specimen shows lustrous red surfaces that have mellowed to crimson and light brown in some areas. The 1909-S is a low-mintage issue from the final date of the series. NGC ID# 2298, PCGS# 2240

**1909-S Indian Cent, MS64 Red
First Generation Holder, Eagle Eye Photo Seal**

3091 1909-S MS64 Red PCGS. CAC. Eagle Eye Photo Seal, card included. Pumpkin and wheat shades alternate across this lustrous and unmarked near-Gem. A good strike with slight blending on the feather tips. A few pinpoint flecks are of little import. The lowest mintage regular issue small cent. Encased in a first generation holder. NGC ID# 2298, PCGS# 2240

PROOF INDIAN CENTS

3092 1859 PR64 NGC. CAC. This stunning near-Gem exhibits a hint of Cameo contrast on its golden-tan surfaces with splashes of iridescent toning to enhance the eye appeal. NGC ID# 2299, PCGS# 2247

3093 1862 PR63 PCGS. The 1862 is one of just five years of Variety Two (Copper-Nickel with Shield) Indian cents issued, with a small mintage of approximately 550 proofs. Shades of yellow, gold, orange, and red add to the eye appeal of this Select representative. Minute carbon flecks are present. The left obverse field reveals moderate hairlines. NGC ID# 229C, PCGS# 2259

3094 1864 Copper Nickel PR64 Cameo NGC. The 1864 Indian Head, Copper Nickel cent boasts a low proof mintage of 370 coins. Areas of blazing orange color add to the visual appeal of this lovely near-Gem representative. The degree of cameo contrast is pleasing on this example exhibiting a sharp strike. Census: 9 in 64 Cameo, 18 finer (10/13). PCGS# 82265

3095 1869 PR64 Red PCGS. Snow-PR2. The peak of the 9 is repunched. A well-struck and beautifully preserved near-Gem with dusky peach color and only a hint of carbon in the upper left obverse field. Full Red cents from this year are decidedly scarce. Population: 22 in 64 Red, 17 finer (10/13).
Ex: Central States Signature (Heritage, 5/2004), lot 5473; Long Beach Signature (Heritage, 6/2006), lot 294. NGC ID# 229M, PCGS# 2296

**1869 Indian Cent, PR65 Red Cameo
Only 600 Pieces Struck**

3096 1869 PR65 Red Cameo NGC. From a proof mintage of just 600 pieces, the 1869 Indian cent is seldom encountered with Cameo surfaces. This impressive Gem displays sharply detailed frosty devices that contrast boldly with the reflective fields. The copper-red surfaces show a few highlights of lilac and no mentionable distractions are evident. Census: 2 in 65 Cameo, 3 finer (10/13). PCGS# 82296

3097 1872 PR65 Red and Brown NGC. Bold N. An outstanding Gem example displaying attractive color, this piece reveals a number of shades when examined closely under a light source. Among the hues present are red, plum, kelly-green, pink, and violet. The reverse is arguably the more appealing side in terms of toning. The coin exhibits a sharp strike and minimal carbon. Census: 44 in 65 Red and Brown, 9 finer (10/13). NGC ID# 229R, PCGS# 2304

3098 1885 PR66 Brown PCGS. A lovely shade of blue-green color envelops the surfaces of this Premium Gem representative, with hints of violet beneath. The coin exhibits a sharp strike and virtually pristine surfaces aside from a few flyspecks of carbon on the reverse. Population: 63 in 66 (2 in 66+) Brown, 13 finer (10/13). NGC ID# 22A6, PCGS# 2342

3099 1889 PR66 Red and Brown PCGS. CAC. Vibrant red, pink, orange, and copper colors provide this Premium Gem example with immediate eye appeal. Hints of yellow and violet are also present. The obverse reveals several tiny as-made lint marks. Population: 5 in 66 Red and Brown, 0 finer (10/13). NGC ID# 2732, PCGS# 2355

3100 1896 PR65 Red PCGS. CAC. Snow-PR1. The 6 in the date is lightly repunched. This intricately struck orange-red Gem displays cartwheel sheen and is devoid of contact. Microscopic flecks deny numismatic perfection. Population: 7 in 65 Red, 4 finer (10/13).
Ex: Joseph P. Gorrell Collection (Heritage, 1/2003), lot 4514, which realized \$1,955. NGC ID# 22AJ, PCGS# 2377

3101 1898 PR65 Red NGC. CAC. This delightful Gem displays reflective original red surfaces with few signs of contact. The design elements are sharply detailed and eye appeal is terrific. Census: 10 in 65 Red, 9 finer (10/13). NGC ID# 22AL, PCGS# 2383

**1899 Indian Cent, PR67 Red and Brown
Exceptional Registry Set Example**

3102 1899 PR67 Red and Brown PCGS. The deeply reflective original red surfaces of this spectacular Superb Gem show highlights of magenta and light brown on the reverse. The design elements are sharply detailed and no mentionable distractions are evident. Eye appeal is terrific. Population: 6 in 67 Red and Brown, 0 finer (10/13). NGC ID# 22AM, PCGS# 2385

3103 1900 PR66+ Red NGC. A coin with a tremendous degree of visual allure, this high-end Premium Gem representative exhibits lustrous surfaces and vibrant orange-copper color. Closer examination reveals a large area of red and orange color surrounding a few spots near the U in UNITED. Census: 9 in 66+ Red, 5 finer (10/13). NGC ID# 22AN, PCGS# 2389

3104 1903 PR66 Red PCGS. Blazing orange and red color is present on both sides of this Premium Gem example, with the reverse also including shades of yellow, pink, and faint lime-green. A few scattered marks and flyspecks of carbon provide little distraction if any on this piece exhibiting a sharp strike. Population: 31 in 66 Red, 11 finer (10/13). NGC ID# 22AS, PCGS# 2398

3105 1908 PR66 Red and Brown NGC. A Premium Gem representative, this piece features shades of orange, red, pink, denim-blue, emerald-green, and violet. Areas of reflectivity remain beneath the patina on this example exhibiting a sharp strike. Census: 34 in 66 (1 in 66+ Red and Brown, 2 in 66 ★) (10/13). NGC ID# 22AX, PCGS# 2412

3106 1908 PR66 Red and Brown NGC. The surfaces of this Premium Gem reveal blazing orange and red colors. The reverse also includes small splashes of blue, green, and violet. A pleasing strike adds to the appeal of this piece. Census: 34 in 66 (1 in 66+ Red and Brown, 2 in 66 ★). NGC ID# 22AX, PCGS# 2412

3107 1908 PR65 Red PCGS. A lovely pumpkin-gold Gem that has glimpses of jade-green on the portrait high points. The obverse is exemplary and the reverse has three tiny spots in obscure locations. Certified in a green label holder.
Ex: Orlando FUN Signature (Heritage, 1/2004), lot 4583, which realized \$862.50. NGC ID# 22AX, PCGS# 2413

LINCOLN CENTS

3108 1909-S VDB XF40 PCGS. An attractive circulated example, this piece retains a pleasing level of design detail, including the VDB initials. Medium brown color is present overall, with large areas of colorful toning including shades of violet, yellow-gold, orange, and pink. Aside from a few hair thin marks on the obverse, there are no marks worthy of mention. NGC ID# 22B2, PCGS# 2426

3109 1909-S VDB — Altered Color — NGC Details. Unc. This unabraded and lustrous key date cent is recolored but the butter-gold and olive-green shades would fool many collectors. The strike is good though the cheekbone shows slight incompleteness. NGC ID# 22B2, PCGS# 2426

3110 1909-S VDB MS64 Red and Brown PCGS. Hues of yellow, gold, and orange appear on this near-Gem representative. The piece exhibits a sharp strike, including the designer's initials. Scattered flyspecks of carbon appear on both sides. NGC ID# 22B2, PCGS# 2427

3111 1909-S VDB MS64 Red and Brown PCGS. This key-date Lincoln cent exhibits lustrous copper-gold surfaces that are imbued with traces of crimson, yellow-green, and a scattering of light tan flecks. All of the design elements are well brought up, and a few minute marks on the reverse are not disturbing.
Ex: FUN Signature (Heritage, 1/2007), lot 1719. NGC ID# 22B2, PCGS# 2427

3112 1909-S VDB MS64 Red and Brown NGC. CAC. The distinctive luster of the 1909-S VDB cents resembles a wood-grain pattern, and appears here as mellow orange mint luster on the obverse and olive-brown patina on the reverse. A few scattered spots appear on the surfaces of this popular issue. NGC ID# 22B2, PCGS# 2427

1909-S VDB Cent, MS65 Red and Brown First-Year Series Key

3113 1909-S VDB MS65 Red and Brown PCGS. CAC. The original red surfaces of this important first-year key have mellowed to light brown in some areas, but no mentionable surface flaws are evident. The design elements are well-detailed and the initials are bold to the naked eye. PCGS has graded 32 numerically finer examples (10/13). NGC ID# 22B2, PCGS# 2427

3114 1910-S MS66 Red NGC. The lustrous copper-red surfaces of this impressive Premium Gem show no mentionable signs of contact and the sharply detailed design elements add to the outstanding eye appeal. Census: 46 in 66 Red, 4 finer (10/13). NGC ID# 22B6, PCGS# 2440

3115 1911-S MS65 Red and Brown PCGS. CAC. The surfaces of this lovely Gem displaying a sharp strike reveal intermingled shades of color, including red, yellow, gold, and green. A few minuscule carbon spots are not distracting. Population: 60 in 65 (1 in 65+) Red and Brown, 0 finer (10/13). NGC ID# 22B9, PCGS# 2448

3116 1914-D — Whizzed — NGC Details. AU. Though lightly whizzed, this key date cent has retoned in attractive and blended peach-gold and apple-green shades. The fields lack relevant contact or carbon. The motifs display satin luster. NGC ID# 22BH, PCGS# 2471

3117 1914-D AU58 NGC. The pleasingly smooth surfaces display glossy deep red-brown toning and are virtually mark-free, save for a few trivial nicks in the fields, and faint highpoint wear is limited to Lincoln's portrait. A beautiful near-Mint example of this important key date in the Lincoln cent series.
Ex: Palm Beach Signature (Heritage, 3/2006), lot 179. NGC ID# 22BH, PCGS# 2471

**1914-D Cent, MS63 Red and Brown
Smooth and Close to Full Red**

- 3118 1914-D MS63 Red and Brown NGC.** The obverse is lilac-red, the reverse is orange-gold, and both sides approach a Red designation. Boldly struck and lustrous with blushes of powder-blue on the obverse margin at 2 o'clock and 3:30. An unabraded and impressive example of this low mintage Denver Mint key. NGC ID# 22BH, PCGS# 2472

- 3119 1919-D MS65 Red and Brown PCGS. CAC.** The reverse is rose-red and the obverse displays jade-green and apricot-gold shades. Lustrous and unabraded with minor carbon. A conditionally challenging early branch mint issue. Housed in a green label holder. NGC ID# 22BZ, PCGS# 2517

**1922 No D Cent, AU53
Strong Reverse, FS-401**

- 3120 1922 No D Strong Reverse AU53 PCGS. FS-401.** Die Pair 2. The Philadelphia Mint failed to strike cents in 1922 since the facility was too busy coining silver dollars. However, the Denver mintmark was inadvertently lapped away late during one die's life, creating the present rarity. This is a nice medium-brown AU53 example of this popular key Lincoln issue, attractive in its own right, and more sharply detailed on the reverse, as usual. NGC ID# 22C9, PCGS# 3285

- 3121 1923-S MS64 Brown PCGS. CAC.** Hints of green and orange are present on this near-Gem example. The coin exhibits a sharp strike. Minor marks held this lovely piece from a higher grade. Population: 25 in 64 Brown, 1 finer (10/13). NGC ID# 22CB, PCGS# 2546

- 3122 1930-D MS66+ Red PCGS. CAC.** A sharp strike and brilliant orange luster characterize this frosty Premium Gem. A few trivial spots fail to diminish the eye appeal of this beauty. PCGS has only certified eight finer full Red examples (10/13). NGC ID# 22CY, PCGS# 2608

- 3123 1937 MS67+ Red PCGS. CAC.** A high-end Superb Gem, with original red surfaces that show no visible signs of contact and blazing mint luster on both sides. The design elements are sharply detailed and eye appeal is terrific. PCGS has graded only one numerically finer example (10/13). NGC ID# 22DH, PCGS# 2659

**1941 Lincoln Cent, MS66 Red
Doubled Die Obverse, FS-101**

- 3124 1941 Doubled Die Obverse MS66 Red PCGS. CAC. FS-101.** The FS-101 is one of the best known Doubled Dies in the series and has been studied by specialists for decades. The doubling is most obvious on the letters in LIBERTY and IN GOD WE TRUST. This sharply detailed Premium Gem displays well-preserved original red surfaces and vibrant mint luster throughout. Population: 4 in 66 Red, 0 finer (10/13). PCGS# 37780

- 3125 1943-D/D MS65 PCGS. FS-501.** The mintmark is widely and clearly repunched southwest on this popular *Guide Book* variety. A sharply struck steel cent with light butter-gold toning near the rims. Faint field grazes determine the grade. Population: 38 in 65, 32 finer (10/13). PCGS# 2715

- 3126 1944 MS67+ Red PCGS. CAC.** One of only two examples to reach the MS67+ level at PCGS, with none finer (10/13). As expected, this piece is gorgeous. Splashes of vibrant orange color along with rich luster add to the visual allure of this sharply struck example. NGC ID# 22EA, PCGS# 2722

**1944-D/S FS-512 Cent, MS65 Red
Rare in Full Red**

- 3127 1944-D/S MS65 Red PCGS. FS-512.** Not to be confused with the *Guide Book* FS-511 overmintmark, which shows much of the S mintmark above the D. The present variety, FS-512, shows the curve of an S on each side of the upright of the D. A well struck orange-red Gem with vibrant luster and infrequent pinpoint flecks. Population: 9 in 65 Red, 2 finer (10/13). PCGS# 37837

- 3128 1952-D MS67 Red PCGS. CAC.** Blazing copper-gold surfaces and strong luster provide this Superb Gem example with a pronounced degree of eye appeal. Neither PCGS nor NGC has awarded a higher numeric grade to a single example (10/13). NGC ID# 22F7, PCGS# 2800

- 3129 1954-S MS67+ Red PCGS.** The impeccably preserved surfaces of this spectacular high-end Superb Gem display blazing mint luster and even original red color. The design elements are sharply rendered and PCGS has graded no coins in finer numeric grades (10/13). NGC ID# 22FE, PCGS# 2821

**1955 Lincoln Cent, MS67 Red
None Certified Finer at PCGS**

- 3130 1955 MS67 Red PCGS. CAC.** Close inspection with a loupe reveals only the most insignificant surface flaws on the original orange-red surfaces of this spectacular Superb Gem. The design elements are well-detailed and especially vibrant mint luster adds to the outstanding eye appeal. Population: 14 in 67 Red, 0 finer (10/13). NGC ID# 22FF, PCGS# 2824

- 3131 1955 Doubled Die Obverse — Improperly Cleaned — NGC Details. AU. FS-101.** A briefly circulated but sharp example of the famous and dramatic doubled die variety. Recolored but partly retoned sea-green with orange-red clinging to design recesses. One slender mark noted beneath AMERICA. NGC ID# 22FG, PCGS# 2825

- 3132 1955 Doubled Die Obverse AU58 PCGS. CAC. FS-101.** The most dramatic of all doubled die varieties, the 1955 FS-101 caused a sensation when examples first appeared in circulation. This lightly worn chocolate-brown cent has ample satin luster and minimal carbon. The fields display infrequent minor marks. NGC ID# 22FG, PCGS# 2825

- 3133 1955 Doubled Die Obverse MS62 Brown NGC. FS-101.** This boldly struck key date cent offers blended golden-brown and sea-green toning. The satiny surfaces are minimally abraded. Carbon is confined to a fleck above the IB in LIBERTY. NGC ID# 22FG, PCGS# 2825

- 3134 1956 MS66+ Red PCGS. CAC.** A high-end Premium Gem example, this coin displays attractive copper-orange and red colors along with rich luster and a pleasing strike. The obverse reveals a number of small, wispy die cracks. Population: 6 in 66+ Red, 14 finer (10/13). NGC ID# 22FK, PCGS# 2836

- 3135 1960-D Small Date MS67 Red PCGS.** A remarkable Superb Gem, this Denver Mint 1960 Small Date cent has frosty mint luster with fully brilliant and rich orange mint surfaces. An important condition rarity among Lincoln Memorial cents. Population: 17 in 67 Red, 0 finer (10/13). NGC ID# 22FX, PCGS# 2869

**1962-D Lincoln Cent, MS67 Red
Rich Orange-Gold Color**

- 3136 1962-D MS67 Red PCGS.** Blazing orange-gold surfaces provide this Superb Gem representative with strong visual appeal on both sides. The strike is sharp, adding to the attractiveness. A die crack appears in Lincoln's hair and extends behind his ear. Population: 1 in 67 Red, 0 finer (10/13). NGC ID# 22G4, PCGS# 2881

**1972 Lincoln Cent, MS67+ Red
Prime Registry Set Candidate**

- 3137 1972 MS67+ Red PCGS.** The 1972 Lincoln cent is easily located in Mint State, but Registry Set collectors know the issue is extremely rare in MS67 condition, with the Plus designation. This high-end Superb Gem exhibits razor-sharp definition on all design elements and the original red surfaces radiate vibrant mint luster. No mentionable distractions are evident, even on close inspection. Eye appeal is incredible. Population: 2 in 67+ Red, 0 finer (10/13). NGC ID# 22GT, PCGS# 2953

- 3138 1984 Doubled Die Obverse MS67+ Red PCGS. FS-101.** Lincoln's ear, neck, and bowtie are widely die doubled. Well struck and highly lustrous with unabraded rose-red, orange, and sun-gold surfaces. Tiny air bubbles are trapped beneath the copper plate, as made and customary for the variety. NGC ID# 22HZ, PCGS# 3062

- 3139 1995-D MS68+ Red PCGS.** Vibrant orange surfaces displaying potent luster provide this piece with outstanding eye appeal. The coin exhibits a sharp strike as well, adding to the attractiveness. Population: 1 in 68+ Red, 1 finer (10/13). NGC ID# 22JT, PCGS# 3130

PROOF LINCOLN CENTS

- 3140 1909 PR65 Red and Brown PCGS.** Gorgeous color appears on both sides of this Gem example. The hues include red, orange, and yellow. The coin exhibits a sharp strike, adding to the appeal. A few tiny spots and flyspecks of carbon are present. NGC ID# 22KS, PCGS# 3304

**1909 Lincoln Cent, PR66 Red
First-Year Matte Proof Issue**

- 3141 1909 PR66 Red PCGS.** A fully struck matte proof with contact-free orange-gold and fire-red surfaces. Essentially perfect aside from a tiny spot above the I in LIBERTY. Far scarcer than its business strike counterpart, especially in full Red. Housed in a green label holder. Population: 41 in 66 Red, 6 finer (10/13). NGC ID# 22KS, PCGS# 3305

- 3142 1913 PR65 Red and Brown PCGS.** The obverse in particular displays rich toning on this Gem example. The colors include shades of red, pink, yellow, green, and lavender. The colors are softer on the reverse and include intermingled hues of yellow, green, orange, and red-pink. Adding to the appeal, the coin exhibits a sharp strike. Population: 77 in 65 Red and Brown, 19 finer (10/13). NGC ID# 22KW, PCGS# 3316

3143 1936 Type One — Satin Finish PR65 Red and Brown NGC. A flashy rose-red Gem that possesses an intricate strike and exceptional eye appeal. Carbon is virtually absent. Satin finish proofs were only struck in 1936, though brilliant finish pieces were also coined that year. NGC ID# 22L2, PCGS# 3331

3144 1939 PR67 Red PCGS. CAC. Potent luster and blazing orange surfaces provide this Superb Gem with a strong degree of eye appeal. Splashes of deeper orange, red, violet, and bright blue are present on the obverse and a few tiny splashes of bright blue appear on the reverse. A beautiful, well struck piece. Population: 27 in 67 Red, 0 finer (10/13). NGC ID# 22L6, PCGS# 3344

3145 1942 PR65 Red Cameo PCGS. Bold copper-orange luster has lemon accents. Moderately contrasted and immensely appealing for this proof Lincoln cent issue, the last until 1950. Population: 9 in 65 Red Cameo, 6 finer (10/13). NGC ID# 22L9, PCGS# 83353

1950 Lincoln Cent, PR67 Red Cameo Only One Finer Coin at PCGS

3146 1950 PR67 Red Cameo PCGS. The design elements of this magnificent Superb Gem are fully struck and display a frosty texture that creates intense cameo contrast with the deeply mirrored fields. The original red surfaces show no mentionable signs of contact and eye appeal is tremendous. Population: 9 in 67 Cameo, 1 finer (10/13). NGC ID# 22LA, PCGS# 83359

3147 1970-S Small Date PR68 Red Deep Cameo PCGS. FS-1402. Bold reddish-orange fire gleams in the fields, while the devices have light but distinct frost. A pleasing example of this more challenging level-top or Small Date variant. Population: 21 in 68 Red Deep Cameo, 1 finer (10/13). NGC ID# 22LZ, PCGS# 93426

1970-S Small Date Cent, PR69 Ultra Cameo Near-Perfect FS-1402

3148 1970-S Small Date PR69 Red Ultra Cameo NGC. FS-1402. The old FS-030.2 number appears on the NGC holder. The proof 1970-S Small Date cent is highly desirable and in great demand, especially when the finest certified piece is offered. NGC and PCGS have combined to certify four of these in PR69 Ultra or Deep Cameo, with none graded finer. This amazing coin has bright orange luster with exceptional contrast. An interesting aspect of this example is microscopic doubling that is visible on IN GOD WE TRUST. NGC ID# 22LZ, PCGS# 93426

3149 1970-S Large Date PR69 Red Deep Cameo PCGS. Boldly contrasted and near-perfect. The obverse has a pale orange hue, while the reverse has a deeper, almost pumpkin-orange shade. Population: 50 in 69 Red Deep Cameo, 0 finer (10/13). NGC ID# 22M2, PCGS# 93430

TWO CENT PIECES

3150 1864 Large Motto MS65 Red PCGS. A lovely peach-gold Gem. The strike is bold and there is virtually no sign of contact. Tiny carbon flecks determine the grade. The dies have medal turn instead of the usual coin turn. Certified in an old green label holder. NGC ID# 22N9, PCGS# 3578

3151 1864 Large Motto MS65 Red NGC. An intricately struck and lustrous Gem with unblemished and dusky peach, olive, and cherry surfaces. Carbon-free aside from a fleck inside the wreath at 9 o'clock. Ex: Long Beach Signature (Heritage, 9/2007), lot 420, which realized \$1,092.50. NGC ID# 22N9, PCGS# 3578

3152 1868 MS64 Red PCGS. Orange-gold dominates though the obverse center exhibits light olive and rose shades. This essentially unabraded near-Gem has good luster and only the most inconsequential contact and carbon. Housed in a first generation holder. Population: 28 in 64 Red, 14 finer (10/13). NGC ID# 22NC, PCGS# 3599

3153 1869 MS66 Red and Brown NGC. A coruscating and crisply struck high grade example. The olive-green, lilac-red, and orange surfaces are essentially void of detractors. Encapsulated in a former generation holder. NGC ID# 22ND, PCGS# 3604

3154 1872 VF30 PCGS. CAC. A midrange example of the last circulation-strike two cent issue, mintage 64,000 pieces. Walnut-brown surfaces are largely mark-free. The word WE on the banner is largely absent, though this is more from strike than wear. NGC ID# 22NG, PCGS# 3612

3155 1872 — Scratches — NGC Details. XF. The business strike series begins and ends with keys: the 1864 Small Motto and the low mintage 1872. This medium brown example is well defined aside from softness on AMERICA. The obverse has a pinscratch from 2 o'clock through the shield, and a few faint pinscratches east of the large 2.

1872 Two Cent, MS64 Brown FS-101, Doubled Die Obverse

3156 1872 MS64 Brown PCGS. FS-101. TRUST is die doubled north. The variety is undesignated on the insert. The final business strike issue has a scant mintage of 64,000 pieces. A well struck chocolate-brown near-Gem with virtually mark-free surfaces. A small spot is on the obverse at 10 o'clock. NGC ID# 22NG, PCGS# 3612

PROOF TWO CENT PIECES

1866 Two Cent Piece, PR66 Red and Brown

- 3157 1866 PR66 Red and Brown NGC.** Light blue-to-violet overtones account for most of the surface area, though the interiors show appreciable original pale copper coloration as well. Strongly reflective with excellent detail and only a small scattering of carbon at the upper obverse. Census: 14 in 66 Red and Brown, 0 finer (10/13). NGC ID# 274V, PCGS# 3631

1866 Two Cent, PR66 Red and Brown Cameo Remarkably Bright and Well-Contrasted

- 3158 1868 Cameo PR66 Red and Brown Cameo NGC.** Clearly contrasted and plainly more Red than Brown, though the predominantly copper-orange surfaces have just a touch too much olive and mahogany to qualify for full Red status. Out of 11 total Red and Brown Cameo specimens for this issue graded by NGC, five are graded PR66, one PR66 ★, and one PR66+ ★, with none in PR67 or better (10/13).
- 3159 1869 PR66 Brown PCGS.** Traces of orange mint color appear over the pleasing medium brown surfaces of this Premium Gem. Additional colors include blue-green, pink, lavender, and sky blue. The fields are fully mirrored around satin devices. The obverse includes several as-made lint marks. Population: 1 in 66 Brown, 0 finer (10/13). NGC ID# 274Y, PCGS# 3639
- 3160 1871 PR65 Red and Brown NGC. CAC.** TRUST and the right arrowhead are die doubled, as usual for proofs of this date. A sharply struck and coruscating Gem with lime-green and fire-red coloration. Nearly free from contact. NGC ID# 22NH, PCGS# 3646
- 3161 1872 PR65+ Red and Brown NGC.** All proof 1872 two cent pieces are struck from perfect dies without the reverse die crack at the tops of UNIT that is seen on business strikes. This Gem proof has considerable red luster with delicate blue overtones. *From The Moore Coin Collection.* NGC ID# 2752, PCGS# 3649

1872 Two Cent Piece, PR66 Red and Brown Brightly Mirrored

- 3162 1872 PR66 Red and Brown NGC.** There is strong date pressure on proof 1872 two cent pieces because of the scarcity of strikes for circulation. Radiant golden-brown and lemon colors endow this well-struck Gem. Essentially pristine aside from an infrequent freckle of carbon. *Ex: New York Signature (Heritage, 11/2003), lot 5439.* NGC ID# 2752, PCGS# 3649

THREE CENT SILVER

- 3163 1851 MS66 NGC.** This attractive Premium Gem displays vibrant mint luster and well-detailed design elements under attractive shades of champagne-gold toning. Eye appeal is outstanding. Census: 73 in 66 (3 in 66+, 1 in 66 ★), 8 finer (10/13). *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 22YX, PCGS# 3664
- 3164 1851 MS66 PCGS. CAC.** Lustrous surfaces and lovely shades of light toning, primarily on the obverse, provide this Premium Gem example with lovely eye appeal. The toning includes faint shades of yellow, gold, pink, sea-green, lavender, and icy silver. The reverse reveals minor clash marks. Only 13 examples have been awarded higher numeric grades by PCGS (10/13). NGC ID# 22YX, PCGS# 3664
- 3165 1852 MS66 PCGS.** A pristine sophomore year type coin adorned with dusky gunmetal-gray and lime-green toning. The shield and small stars are typically impressed. Housed in an old green label holder. Population: 89 in 66, 14 finer (10/13). NGC ID# 22YZ, PCGS# 3666
- 3166 1852 MS66+ NGC.** Ivory surfaces host wispy gold toning on this Premium Gem. Both sides have brilliant silver luster with excellent eye appeal. Heavy flowlines diminish the peripheral sharpness, and a meandering die crack connects the 1 to the star and border. NGC ID# 22YZ, PCGS# 3666
- 3167 1853 MS66 PCGS. CAC.** Boldly lustrous surfaces provide this nicely struck Premium Gem representative with immediate eye appeal. Scattered splashes of toning are present on both sides and include shades of brown, gray, and olive-green. Population: 55 in 66 (1 in 66+), 6 finer (10/13). NGC ID# 22Z2, PCGS# 3667
- 3168 1858 MS64 PCGS.** Gorgeous toning on both sides and rich luster provide this near-Gem example with exceptional eye appeal. The colors include hues of copper-gold, light sea-green, icy blue, and lavender. Both sides reveal clash marks, with those on the obverse being particularly pronounced. NGC ID# 22Z7, PCGS# 3674

- 3169 1859 MS65 PCGS. CAC.** A Gem example of the first year of issue for the Type Three three cent silver, with a single outline around the star, this coin possesses lovely eye appeal. This pleasing specimen displays frosty mint luster shining through delicate blue and gold toning. Population: 27 in 65, 15 finer (10/13). NGC ID# 22Z8, PCGS# 3677

**1859 Three Cent Silver, MS66
Occasionally Reflective**

- 3170 1859 MS66 PCGS.** Luminous and frosty with a few small pools of watery reflectivity in the gold-to-gray fields. An uncommonly well-preserved Premium Gem representative of the two-outline final design for the three cent silver, less available than the dates might suggest because all post-1862 circulation issues are melt rarities. NGC ID# 22Z8, PCGS# 3677

- 3171 1861 MS66 NGC.** From a mintage of 497,000 pieces, this attractive Premium Gem exhibits well-detailed design elements and bright satiny mint luster. Census: 79 in 66 (3 in 66 ★), 34 finer (10/13). *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 22ZA, PCGS# 3679

- 3172 1862 MS66 NGC.** Both sides of this Premium Gem have sharp details and brilliant luster beneath pinkish-rose, turquoise, and iridescent toning. NGC has only certified 22 finer examples (10/13). NGC ID# 22ZB, PCGS# 3680

- 3173 1862 MS66 PCGS. CAC.** An immaculate and lustrous Civil War type coin with light chestnut-tan toning and minor inexactness of strike at the centers. The fields display bold clash marks. Housed in an old green label holder. NGC ID# 22ZB, PCGS# 3680

- 3174 1865 MS64 NGC.** Ex: Richmond Collection. One of a mere 8,000 business strikes, the 1865 three cent silver piece is rare at any level of preservation. Aqua, apple-green, and orange patina rolls over each side of this exquisitely struck near-Gem specimen generating considerable eye appeal. An as-made lint mark appears near 9 o'clock on the obverse. Census: 21 in 64, 28 finer (10/13). *Ex: Long Beach Signature (Heritage, 2/2005), lot 5665. From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 22ZF, PCGS# 3685

- 3175 1866 MS64 PCGS.** A tiny mintage of 22,000 pieces makes the business issue rare in better Uncirculated grades. This prooflike near-Gem is sharply struck and possesses sea-green, navy-blue, orange-gold, and cherry-red patina. Housed in an old green label holder. Population: 14 in 64, 28 finer (10/13). *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 22ZG, PCGS# 3686

**1870 Three Cent Silver, MS64
Beautifully Toned Late-Series Issue**

- 3176 1870 MS64 PCGS. CAC.** This is a beautiful near-Gem three cent silver from late in the series; only 3,000 circulation strikes were made of the 1870. The obverse features lavender and gold intermingled, the reverse pale aqua with jade, yellow, and russet. A spectacular coin with claims to a finer grade. Population: 14 in 64, 16 finer (10/13). NGC ID# 22ZL, PCGS# 3691

- 3177 1871 MS65 NGC.** A wonderful Gem, and elusive as a business strike, since most surviving 1871 three cent silver pieces are proofs. This piece has reflective fields and lustrous devices beneath rich gold and iridescent toning. Clash marks identify this example as a business strike. Census: 20 in 65 (1 in 65 ★), 55 finer (10/13). NGC ID# 22ZM, PCGS# 3692

- 3178 1871 MS65 PCGS.** Only 3,400 business-strike trimes were struck in 1871, making the issue quite rare in high grade today. Shades of aqua, copper, and peach color appear on this Gem example displaying a sharp strike. Population: 13 in 65, 31 finer (10/13). *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 22ZM, PCGS# 3692

PROOF THREE CENT SILVER

- 3179 1864 PR65 NGC.** The design elements of this attractive Gem are sharply detailed and the well-preserved reflective surfaces are blanketed in shades of powder-blue and champagne-gold toning. Census: 39 in 65, 24 finer (10/13). *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 27CA, PCGS# 3714

- 3180 1866 PR62 NGC.** Rich shades of lavender-gray and sea-green toning visit the well-preserved reflective surfaces of this attractive PR62 example, from a proof mintage of 725 pieces. NGC ID# 27CC, PCGS# 3716

- 3181 1868 PR65 NGC.** Ex: Richmond Collection. This pinpoint-sharp Gem is beautifully toned ocean-blue, wheat-gold, and plum-red. The flashy mirrors do not display noticeable imperfections. Just 600 pieces struck. *Ex: Richmond Collection, Part II (David Lawrence, 11/2004), lot 1148; St. Louis Signature (Heritage, 5/2005), lot 5744, which realized \$1,265. From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 27CE, PCGS# 3718

- 3182 1868 PR64 Cameo PCGS. CAC.** Toning at portions of the obverse periphery serves to accentuate the contrast on this lovely near-Gem example. The colors include shades of sea-green, orange, copper, plum, and cerulean-blue. The coin exhibits a sharp strike. Population: 18 in 64 (1 in 64+) Cameo, 15 finer (10/13). PCGS# 83718

- 3183 1870 PR65 PCGS. CAC.** Apricot-gold, powder-blue, and lime-green encompass this flashy and razor-sharp Gem. Inspection beneath a lens fails to locate any detractions. Housed in a green label holder. NGC ID# 27CE, PCGS# 3721
- 3184 1873 PR63 NGC. CAC.** The 1873 proof three cent pieces were struck with a Closed 3 in the date. This attractive Select example displays well-detailed design elements and reflective fields under dappled shades of pale jade toning. NGC ID# 27CJ, PCGS# 3724

THREE CENT NICKELS

- 3185 1865 — Clashed Dies — MS66 ANACS.** At least three sets of closely spaced clash marks dominate the fields of this well struck and thoroughly lustrous first year type coin. The pristine surfaces display medium peach-gold, apple-green, and silver-gray patina. NGC ID# 22NJ, PCGS# 3731
- 3186 1879 MS66 NGC. CAC.** Light blue-green patina appears on the luminous surfaces of this Premium Gem from an issue of just 38,000 business strikes. A flyspeck is present near the bottom of the middle letter in III. Census: 19 in 66, 4 finer (3/12). NGC ID# 275B, PCGS# 3747

PROOF THREE CENT NICKELS

- 3187 1867 PR66 Cameo NGC. CAC.** Light cameo contrast appears on each side of this lovely specimen. Contrasting proofs from the first few years of three cent nickel production are rarely encountered. This piece has delicate champagne toning over its light gray surfaces. Census: 61 in 66 Cameo (1 in 66+ Cameo, 5 in 66 ★ Cameo), 3 finer (10/13). PCGS# 83763

1867 Three Cent Nickel, PR67 Cameo Bold Contrast, Delicate Toning

- 3188 1867 PR67 Cameo NGC.** Excellent reflectivity and contrast. Both sides remain largely nickel-white with just a hint of blue-to-gold gracing the fields. While this third-year proof issue generally has supplies to meet demand, at the Superb Gem Cameo level it is a decided condition rarity. Census: 3 in 67 Cameo (1 in 67 ★ Cameo), 0 finer (10/13). PCGS# 83763
- 3189 1870 PR65 PCGS.** Faint golden overtones settle in the fields on this otherwise minimally toned example. Both sides show appreciable contrast, if not to Cameo levels. Population: 62 in 65, 8 finer (10/13). NGC ID# 275R, PCGS# 3766
- 3190 1870 PR65 NGC.** The three cent nickel proofs from the first decade generally have little contrast when compared to the later issues. This lovely proof has light gold toning over its mirrored fields and satiny devices. NGC ID# 275R, PCGS# 3766
- 3191 1870 PR66 Cameo NGC.** Nice luster and a pleasing degree of contrast provide this Premium Gem with lovely eye appeal. A few as-made strike-throughs appear on the obverse, including one on Liberty's cheek. The reverse displays a few small splashes of light color. Census: 26 in 66 Cameo (1 in 66+ Cameo, 2 in 66 ★ Cameo), 3 finer (10/13). PCGS# 83766

1870 Three Cent Nickel, PR66 Cameo Clear Contrast

- 3192 1870 PR66 Cameo PCGS.** Minimally toned save for a hint of gold-green at the extreme rims. Nickel-white interiors have a classic frost-and-mirror appearance. A depression on the lower part of the middle III in the denomination is as-struck and does not affect the coin's technical grade. Population: 8 in 66 Cameo, 1 finer (10/13). PCGS# 83766
- 3193 1871 PR66 Cameo NGC.** The 1871 three cent piece boasts a proof mintage of 960 pieces, but there is added pressure on the proofs from date collectors due to the relatively small business-strike mintage. This lovely well-struck Premium Gem representative boasts lustrous surfaces with subtle hints of golden toning. Census: 10 in 66 Cameo, 3 finer (10/13). PCGS# 83767
- 3194 1872 PR66 Cameo NGC.** The deeply reflective fields and sharply detailed frosty design elements create bold cameo contrast on this spectacular Premium Gem. Eye appeal is terrific. Census: 25 in 66 Cameo, 2 finer (10/13).
From The Moore Coin Collection. PCGS# 83768
- 3195 1873 Closed 3 PR66 PCGS.** Attractive reflectivity and pleasing almond-gold toning lend this Closed 3 example solid eye appeal. A few splashes of orange-gold appear on the reverse. Population: 15 in 66 (1 in 66+), 0 finer (10/13). NGC ID# 275U, PCGS# 3769
- 3196 1873 Closed 3 PR66 PCGS. CAC.** The 1,100 proof three cent nickels minted in 1873 all show the Closed 3 in the date. This nicely detailed Premium Gem exhibits moderately reflective fields under shades of champagne-gold toning. Population: 15 in 66 (1 in 66+), 0 finer (10/13). NGC ID# 275U, PCGS# 3769

1873 Three Cent Nickel, PR66+ Cameo Closed 3 Style, Delicately Toned

- 3197 1873 Closed 3 PR66+ Cameo PCGS. CAC.** Delicate pastel rose and gold patina liberally coats both sides of this high-end Premium Gem Cameo 1873 three cent nickel, a super example of the 1873 coinage for a type or date set — or an 1873 mint set, if you are up to the challenge. The surfaces are sharply struck throughout and free of distractions. All known proofs of this issue are of the Closed 3 style. Population: 13 in 66 (1 in 66+) Cameo, 1 finer (10/13). PCGS# 83769

- 3198 1874 PR66 PCGS. CAC.** Splendid light pastel toning adds to the eye appeal of this Premium Gem example. The obverse features pale shades of dusky blue, orange-gold, green, and yellow. The reverse primarily displays faint shades of yellow and gold. Population: 21 in 66, 2 finer (10/13). NGC ID# 275V, PCGS# 3770
- 3199 1874 PR66 Cameo PCGS. CAC.** Delicate gold toning appears over the light nickel-gray surfaces of this delightful Premium Gem three cent nickel piece. Both sides are fully mirrored with excellent field-to-device contrast. Population: 16 in 66 (1 in 66+) Cameo, 0 finer (10/13). PCGS# 83770
- 3200 1875 PR66 PCGS. FS-301.** An errant 1 from a mispunched date protrudes from Liberty's neck on this example. Gleaming lustrous surfaces provide this Premium Gem with a lovely appearance. The coin is brilliant and untuned. Population: 15 in 66, 0 finer (10/13). NGC ID# 22NV, PCGS# 3771
- 3201 1876 PR66 Cameo PCGS.** A moderately contrasted Premium Gem specimen with pleasing reflectivity and hints of blue and gold color. Quality eye appeal. Population: 13 in 66 Cameo, 0 finer (10/13). PCGS# 83772
- 3202 1878 PR67 Cameo NGC.** The strongly impressed frosty design elements of this delightful Superb Gem contrast boldly with the mirrored fields. Some incomplete detail is noted at the bridge of Liberty's nose, due to lapping. Eye appeal is terrific. Census: 29 in 67 Cameo (3 in 67 ★ Cameo), 1 finer (10/13). PCGS# 83774
- 3203 1879 PR67+ NGC. CAC.** Rich luster adds to the appeal of this high-end Superb Gem exhibiting just the faintest hints of toning. The bow is partially effaced, as struck, due to a lapped die. Census: 1 in 67+, (5 in 67 ★), 6 finer (10/13). NGC ID# 275Z, PCGS# 3775
- 3204 1881 PR67 Cameo PCGS. CAC.** A delightful Superb Gem Cameo proof, this boldly detailed piece has light gray surfaces with no toning on either side. Outstanding field-to-device contrast is evident. Population: 24 in 67 Cameo, 3 finer (10/13). PCGS# 83777
- 3205 1882 PR67 Cameo NGC. CAC.** A few minuscule carbon flecks appear on the obverse of this beautiful Superb Gem Cameo proof. Both sides are untuned with excellent field-to-device contrast. Census: 30 in 67 Cameo (1 in 67 ★ Cameo), 2 finer (10/13). PCGS# 83778
- 3206 1882 PR67 Cameo PCGS. CAC.** Clean, mirrored fields contrast well with the moderately frosted devices. A tiny planchet flaw (as struck) rests on the upper reverse field. While not absolutely pristine, this coin comes close. Population: 64 in 67 (5 in 67+) Cameo, 5 finer (10/13). PCGS# 83778
- 3207 1883 PR67 PCGS.** Streaks of golden-brown and lilac patina embrace this needle-sharp Superb Gem. A pristine, satiny, and decidedly original Superb Gem. Encapsulated in a green label holder. Ex: *Baltimore Signature (Heritage, 7/2003), lot 5963, which realized \$920.* NGC ID# 2765, PCGS# 3779
- 3208 1884 PR67 PCGS.** Variegated almond-gold and cream-gray toning embraces this coruscating and sharply struck Superb Gem. A few pinpoint flecks are near AMERICA. Encapsulated in an old green label holder. NGC ID# 2766, PCGS# 3780
- 3209 1884 PR67 Cameo NGC.** A boldly defined brilliant Superb Gem Cameo proof, this piece has lovely light gray surfaces with exceptional contrast. Census: 22 in 67 Cameo (1 in 67+ Cameo, 1 in 67 ★ Cameo, 1 in 67+★ Cameo), 4 finer (10/13). PCGS# 83780
- 3210 1887/6 Strong Overdate PR66 PCGS. CAC. FS-302.** The left portion of the lower loop of the underdigit 6 is readily evident beneath a loupe. The second 8 is also repunched. The only *Guide Book* die variety of the series. Sharply struck, satiny, and pristine. The obverse is silver-gray while the reverse is lightly toned chestnut-gold. NGC ID# 276A, PCGS# 3784

SHIELD NICKELS

- 3211 1866 Rays MS65 NGC.** Both dies have multiple die cracks on this lovely Gem first-year Shield nickel. The nickel-gray surfaces are satiny and brilliant with no toning on either side. NGC has only certified 25 finer examples (10/13). NGC ID# 22NX, PCGS# 3790

1867 Rays Nickel, Gem Prooflike One of Only Four Prooflike Examples

- 3212 1867 Rays MS65 Prooflike NGC.** One of only four Prooflike examples of the two-year Rays type certified by NGC (10/13), all of the second issue of 1867. This Gem has appreciably reflective fields, light nickel-gray under a thin layer of olive-gold patina. The reverse stars are well-defined in their centers, though the S of CENTS is appreciably weak.

1871 Nickel, MS66 Delicate Toning

- 3213 1871 MS66 PCGS.** Gold-to-green toning covers most of the obverse and the outer reverse, while the space within the stars is more blue-green to gray. Well-defined with a die crack descending from the left-side olive leaves to the rim below, a testament to the difficulties presented by copper-nickel alloy in its early days of Mint use. Population: 10 in 66, 0 finer (10/13). NGC ID# 22P5, PCGS# 3798
- 3214 1872 MS65 NGC.** Despite a recorded mintage of slightly more than 6 million pieces, the 1872 Shield nickel is more difficult to locate at the upper grade levels than the large mintage might indicate. This Gem displays nice luster and reveals subtle hints of toning. The upper obverse exhibits an incompleteness of strike. Several die cracks and as-made strike-throughs are present, including an area to the right of the date. Census: 36 in 65, 15 finer (10/13). NGC ID# 22P6, PCGS# 3799
- 3215 1883/2 XF40 PCGS. FS-302.** Several obverse die cracks aid the attribution of this popular *Cherrypickers'* variety. The shield outline and leaves display wear but the cream-white surfaces are unblemished. NGC ID# 22PD, PCGS# 3814
- 3216 1883/2 XF45 PCGS. FS-302.** The jagged crack through the ball and the 3 in the date confirms this scarce overdate variety. A moderately circulated stone-gray Choice XF example with attractive surfaces and glimmers of luster throughout the legends. NGC ID# 22PD, PCGS# 3814

- 3217 1883/2 — Cleaned — ANACS. AU53 Details. FS-302.** An early die state with much of the underdigit 2 visible near the 3 in the date. A nicely struck stone-gray example. Raised elements are accompanied by luster. Both sides are faintly hairlined and a few subtle spots are on the wreath near 3 o'clock.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 22PD, PCGS# 3814
- 3218 1883 MS66 PCGS. CAC.** Peach-gold and olive-green endow this highly lustrous and fully struck Premium Gem. An outstanding final year type coin. Certified in a first generation holder.
Ex: Columbus Central States Signature (Heritage, 4/2006), lot 871, which realized \$1,207.50. NGC ID# 22PE, PCGS# 3813

PROOF SHIELD NICKELS

1867 No Rays Nickel
Reflective PR66 Cameo

- 3219 1867 No Rays PR66 Cameo NGC.** The 1867 Rays Shield nickels are extreme rarities despite the existence of some apparent restrikes, while the 1867 No Rays are more available but still elusive in the higher proof grades. The present Premium Gem shows excellent contrast with deeply reflective fields. Lovely accents of ineffable jade and sunset-orange add to the broad eye appeal. Census: 12 in 66 Cameo (4 in 66 ★ Cameo), 2 finer (10/13). PCGS# 83821
- 3220 1870 PR66 Cameo NGC.** With an estimated mintage of 1,000 pieces, the proof 1870 Shield nickel is surprisingly hard to locate in high grade, and examples with cameo contrast are even more elusive. Almost all proof 1870 Shield nickels exhibit planchet problems, with this piece displaying slight granularity. Areas of die polish lines appear on the obverse. As is often the case for this issue, excessive die polishing led to areas of incomplete detail in some letters in the reverse legend. Census: 13 in 66 Cameo, 2 finer (10/13). PCGS# 83824

1871 Nickel, PR66 Cameo
Delicately Toned

- 3221 1871 PR66 Cameo NGC. CAC.** Delicately toned in a range from gold to mint and sky-blue. The delicate patina allows the coin's natural field-and-device contrast to shine unhindered. A few small planchet irregularities are hidden between the tops of the obverse olive leaves and IN GOD WE TRUST. Census: 10 in 66 Cameo, 5 finer (10/13). PCGS# 83825

- 3222 1873 Closed 3 PR66 PCGS. CAC.** Light gold toning adds to the attractiveness of this lovely Premium Gem representative. A few tiny splashes of lavender and light blue also appear. The reverse exhibits several as-made strike-throughs, including lint marks. NGC ID# 276P, PCGS# 3827
- 3223 1873 Closed 3 PR66 Cameo PCGS.** Delicate gold and lavender-blue overtones grace gleaming fields and lightly frosted devices alike. The cameo effect is stronger on the obverse. Population: 19 in 66 Cameo, 1 finer (10/13). PCGS# 83827
- 3224 1875 PR65 PCGS. CAC.** From an estimated mintage of 700 pieces, the 1875 proof Shield nickel is quite scarce at the Gem level. Dusky light almond-gold toning appears on this Gem example exhibiting a sharp strike. Population: 62 in 65, 12 finer (10/13). NGC ID# 276S, PCGS# 3829

1877 Nickel, PR64
Scarce Proof-Only Date

- 3225 1877 PR64 NGC. CAC.** A fully struck and satiny near-Gem with streaks of golden-brown toning over stone-white surfaces. Smooth aside from a pair of small contact marks on the vertical stripes of the shield. Much scarcer than the 1878, the other proof-only date of the type. Housed in a prior generation holder. NGC ID# 276U, PCGS# 3831
- 3226 1878 — Cleaned — ANACS. PR60 Details.** This proof-only nickel is crisply struck and exhibits pastel honey-gold and powder-blue toning. Rotation beneath a light reveals vertical hairlines across both sides.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 276V, PCGS# 3832
- 3227 1878 PR65 NGC.** Cartwheel luster provides this Gem with strong visual appeal. The surfaces are virtually free of toning on this piece exhibiting a sharp strike. An area of retained laminations appears at the lower right obverse. NGC ID# 276V, PCGS# 3832
- 3228 1878 PR66 NGC.** A sharply detailed Premium Gem from a proof mintage of 2,350 pieces, this coin displays moderately reflective well-preserved surfaces with a few hints of sea-green and lavender-gray toning. NGC has graded 21 numerically finer examples (10/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 276V, PCGS# 3832
- 3229 1879/8 PR67 PCGS. CAC.** This precisely struck Superb Gem exhibits light gold toning and vibrant cartwheel sheen. The occasional minute fleck precludes perfection. Small die breaks fill the interior of the 9 in the date. The associated business issue is low mintage. NGC ID# 22PG, PCGS# 3834
- 3230 1880 PR66 NGC. CAC. Fletcher-1.** The second 8 in the date is boldly repunched within the loops. A razor-sharp Premium Gem with smooth satin surfaces and medium chestnut-gold and aquamarine toning. NGC ID# 276W, PCGS# 3835
- 3231 1880 PR67 Cameo NGC.** A lovely Superb Gem representative exhibiting strong detail, this piece displays a pleasing degree of contrast between the fields and devices. An as-made strike-through appears on the reverse between the T and E in UNITED. Census: 23 in 67 Cameo (1 in 67+ Cameo, 1 in 67 ★ Cameo), 1 finer (10/13). PCGS# 83835

**1880 Shield Nickel, PR67 Cameo
None Certified Finer at PCGS**

- 3232 1880 PR67 Cameo PCGS. CAC.** Light blue overtones with a few touches of green and peach at the margins. Reflectivity is watery and the contrast low, not uncommon for this relatively heavily produced proof issue, but the preservation is excellent. Population: 15 in 67 Cameo, 0 finer (10/13). PCGS# 83835
- 3233 1881 PR67 PCGS. CAC.** Light golden overtones grace otherwise nickel-gray surfaces. An exquisitely detailed and carefully preserved Superb Gem that offers delightful eye appeal. Population: 23 in 67, 0 finer (10/13).
Ex: Long Beach Signature (Heritage, 5/2009), lot 276. NGC ID# 276X, PCGS# 3836
- 3234 1881 PR67 Cameo PCGS. CAC.** Faint almond-gold color appears on this pleasing Superb Gem representative displaying lovely cameo contrast. PCGS and NGC combined have graded only 43 examples at this PR67 Cameo level, with a sole NGC-graded example having achieved a higher grade (10/13). PCGS# 83836
- 3235 1882 PR67 NGC.** Tiny splashes of light gold color appear on both sides of this Superb Gem example, providing a somewhat dusky appearance. The coin exhibits strong detail. Census: 36 in 67 (1 in 67 ★), 4 finer (10/13). NGC ID# 276Y, PCGS# 3837
- 3236 1882 PR67 Cameo PCGS. CAC.** Appreciable cameo contrast provides this sharply struck Superb Gem example with strong visual appeal. The fields are flashy on this lovely piece displaying a few subtle hints of toning. Population: 15 in 67 Cameo, 1 finer (10/13). PCGS# 83837

LIBERTY NICKELS

- 3237 1883 With Cents MS66 PCGS.** Strong mint luster is among the attributes this Premium Gem example possesses. Areas of faint rose-gold and tan toning are present. The coin displays a sharp strike overall aside from minor incompleteness at the left ear of corn and a few of the stars. Scattered wispy die cracks appear on both sides. Population: 55 in 66 (2 in 66+), 1 finer (10/13). NGC ID# 22PH, PCGS# 3844
- 3238 1885 MS61 NGC.** Obverse and reverse die cracks, combined with a typical strike showing some indistinct hair and wreath details identify this piece as an important business strike, rather than a plentiful proof. Both sides have attractive gold and iridescent toning. NGC ID# 2773, PCGS# 3846
- 3239 1894 MS65 NGC.** Almond-gold toning appears on both sides of this lustrous piece. Several of the stars and the left ear of corn reveal an incompleteness of strike. Census: 56 in 65 (1 in 65 ★), 22 finer (10/13). NGC ID# 2779, PCGS# 3855
- 3240 1895 MS65 NGC.** This Gem has frosty nickel-gray luster with faint gold and iridescent toning on each side. The surfaces are exceptional, despite a few planchet flakes. A few of the stars along with the left ear of corn reveal minor softness of strike. There are no post-mint abrasions of any consequence. Census: 39 in 65, 10 finer (10/13). NGC ID# 277A, PCGS# 3856

- 3241 1898 MS66 PCGS Secure. CAC.** Flashy luster and a strong strike are among the attributes this example possesses. The coin reveals attractive toning in shades of faint salmon, orange-peach, and rose-pink. A few scattered spots of dark color appear on both sides. Population: 27 in 66, 1 finer (10/13). NGC ID# 22PP, PCGS# 3859
- 3242 1900 MS66 NGC. CAC.** Although the left ear of corn in the wreath is flat, all other design elements are boldly detailed on this Premium Gem. Both sides have frosty underlying luster with light gold and iridescent toning over the brilliant gray surfaces. Census: 44 in 66 (2 in 66+, 2 in 66 ★, 1 in 66+★), 5 finer (10/13). NGC ID# 22PS, PCGS# 3861
- 3243 1901 MS66 PCGS. CAC.** Light almond-gold color appears on both sides of this Premium Gem, with the reverse also exhibiting a few small splashes of light golden-brown. A few of the stars display a minor incompleteness of strike. Population: 43 in 66 (2 in 66+), 3 finer (10/13). NGC ID# 277C, PCGS# 3862
- 3244 1901 MS66 PCGS. CAC.** Rolling luster is nickel-white at base with progressive golden overtones. Softly struck on the stars and the left ear of corn, though this has no bearing on the excellent surface preservation. Population: 43 in 66 (2 in 66+), 3 finer (10/13). NGC ID# 277C, PCGS# 3862
- 3245 1902 MS66 PCGS. CAC.** Potent luster provides this beautifully preserved Premium Gem representative with strong eye appeal. The brilliant surfaces display only a few subtle hints of toning. Portions of the design reveal an incompleteness of strike. Population: 49 in 66, 4 finer (10/13). NGC ID# 277D, PCGS# 3863
- 3246 1903 MS66 PCGS.** Although a few scattered spots and trivial marks appear on each side of this frosty Premium Gem, the strike is extraordinary with both corn ears in the wreath fully detailed. Population: 81 in 66 (2 in 66+), 2 finer (10/13). NGC ID# 277E, PCGS# 3864
- 3247 1911 MS66+ PCGS. CAC.** The almond-gold toning on both sides of this lustrous high-end Premium Gem piece also displays hints of orange, peach, and light blue. A few of the stars and the left ear of corn exhibit a minor incompleteness of strike. Population: 1 in 66+, 2 finer (10/13). NGC ID# 277M, PCGS# 3872
- 3248 1912-D MS65 PCGS.** A lovely Gem, this Denver Mint Liberty nickel is the first and only issue of the design from that Mint. The surfaces show traces of rose highlights over champagne toning with sharp details and brilliant luster. NGC ID# 277P, PCGS# 3874

**1912-S Liberty Nickel, MS64
Final-Year Type Coin**

- 3249 1912-S MS64 PCGS. CAC.** Barber's Liberty design was officially retired after 1912, when the San Francisco Mint coined a small mintage of 238,000 pieces. This well-detailed Choice example shows just a touch of softness on the lower stars, with slightly subdued mint luster and attractive pale gold and lavender-gray toning. NGC ID# 277R, PCGS# 3875

**1912-S Liberty Nickel, MS64+
Low-Mintage Final Date**

- 3250 1912-S MS64+ PCGS. CAC.** The 1912-S Liberty nickel is a low-mintage key, prized by type collectors as the final date of the series. This high-end Choice example is well-detailed and lustrous, under attractive shades of lavender-gray and greenish-gold toning. A few minor contact marks in the reverse field prevent a Gem designation. NGC ID# 277R, PCGS# 3875

PROOF LIBERTY NICKELS

**1883 No Cents Nickel, PR67
Lovely Toned One-Year Type**

- 3251 1883 No Cents PR67 NGC.** The 1883 No Cents is also known fondly as the "racketeer's nickel," due to the scandal created shortly after its issuance by miscreants gold-plating the coins and passing them off as five dollar gold pieces. The No Cents reverse makes this a one-year type as well. Both sides of this problem-free Superb Gem show lovely toning in shades of orange, saffron, and lilac, with the proof strike bringing up most details fully save for the lower-left corn ear on the reverse, and even there, a modicum of detail appears. A top-notch example. Census: 20 in 67 (2 in 67 ★), 0 finer (10/13). NGC ID# 22PU, PCGS# 3878

- 3252 1883 No Cents PR66 Cameo PCGS.** A pleasing degree of cameo contrast provides this Premium Gem representative with a strong degree of visual appeal. Light champagne toning is present on this piece exhibiting a sharp strike. A tiny as-made strike through appears to the right of the date. Population: 76 in 66 (5 in 66+) Cameo, 12 finer (10/13). PCGS# 83878

- 3253 1883 With Cents PR67 NGC.** Light pastel iridescence appears over each side of this deeply reflective Superb Gem proof, providing this piece with strong visual allure. The coin displays a sharp strike. A small as-made lint mark and a tiny strike-through are present on the obverse. The center of the reverse reveals a tiny alloy spot. Census: 15 in 67 (2 in 67 ★), 1 finer (10/13). NGC ID# 277S, PCGS# 3881

- 3254 1883 With Cents PR67 NGC.** Although not designated as a cameo, this Superb Gem does exhibit a degree of contrast. Brilliant untoned surfaces and flashy fields add to the eye appeal of this piece. The strike is sharp overall, save for a few of the stars and the left ear of corn. Census: 15 in 67 (2 in 67 ★), 1 finer (10/13). NGC ID# 277S, PCGS# 3881

- 3255 1883 With Cents PR66 Cameo PCGS. CAC.** A flashy Premium Gem representative, this coin displays a lovely degree of contrast between the fields and devices. Brilliant surfaces add to the visual appeal. The coin displays a sharp strike overall, aside from minor incompleteness of the left ear of corn. Population: 35 in 66 (2 in 66+) Cameo, 2 finer (10/13). PCGS# 83881

- 3256 1884 PR66 Cameo PCGS. CAC.** The sharply detailed design elements of this impressive Premium Gem exhibit a frosty texture that contrasts boldly with the reflective fields. A few hints of pale gold toning visit the well-preserved surfaces. Population: 40 in 66 (3 in 66+) Cameo, 3 finer (10/13). PCGS# 83882

- 3257 1885 PR66+ PCGS. CAC.** Cartwheel luster, a sharp strike, and tiny flecks of golden-tan toning scattered throughout provide this high-end Premium Gem with an outstanding degree of visual appeal. Population: 1 in 66+, 13 finer (10/13). NGC ID# 277T, PCGS# 3883

- 3258 1885 PR64 Cameo NGC.** Faint gold shadings appear on the surfaces of this near-Gem Cameo representative. Though not fully struck, the design elements display a strong level of detail overall. A few tiny flyspecks are present on both sides. *From The Moore Coin Collection.* PCGS# 83883

- 3259 1886 PR65 PCGS.** Lime-green and sky-blue toning endows this highly lustrous and unblemished Gem. The strike is bold except on the left ear of corn. Scarce as a business date, though collectible in proof format. Housed in a green label holder. NGC ID# 277U, PCGS# 3884

- 3260 1886 PR65 PCGS.** A highly lustrous Gem that boasts a needle-sharp strike and light wheat-gold toning. A few minuscule flecks are distributed, and the reverse rim has a minor spot at 6 o'clock. The final two date digits are lightly repunched. Housed in an old green label holder. NGC ID# 277U, PCGS# 3884

- 3261 1886 PR65+ PCGS. CAC.** Delightful sea-green, cherry-red, and apricot-gold toning endows this fully struck semikey Gem. A small lamination is noted above the second T in STATES. The second 8 in the date is repunched. NGC ID# 277U, PCGS# 3884

- 3262 1889 PR66 PCGS. CAC.** Matte luster provides this coin with an attractive appearance. Well struck overall, this piece reveals minor incompleteness of strike at the left ear of corn. Only 9 examples have been awarded higher numeric grades by PCGS (10/13). NGC ID# 277X, PCGS# 3887

**1892 Liberty Nickel, PR65+
Finest Ultra Cameo at NGC**

- 3263 1892 PR65+ Ultra Cameo NGC.** A generous proof mintage of 2,745 Liberty nickels was accomplished in 1892, but few survivors can match the present coin in terms of technical quality and eye appeal. The well-detailed design elements display a frosty texture that contrasts boldly with the reflective fields and the well-preserved surfaces display attractive shades of pink and pale gold toning. Census: 1 in 65+ Ultra Cameo, 0 finer (10/13). PCGS# 93890

**1893 Nickel, PR66 Deep Cameo
Rare Deep Cameo Designation**

- 3264 1893 PR66 Deep Cameo PCGS. CAC.** A rarely encountered Deep Cameo example, PCGS has only assigned the Deep Cameo designation to 5 examples in all grades combined, with only two of those examples surpassing the grade of this piece, both PR67 (10/13). Sharply struck, this coin displays strong design definition, including all of the stars and the left ear of corn. The contrast between the reflective fields and frosty devices is appreciable, adding to the eye appeal. A few subtle areas of toning are present. PCGS# 93891
- 3265 1894 PR66 Cameo PCGS.** A pleasing degree of cameo contrast appears on this lovely Premium Gem example displaying light gold toning. The coin exhibits a strong degree of design definition, adding to the appeal. A number of scattered as-made strike-throughs are present. Population: 16 in 66 (1 in 66+) Cameo, 4 finer (10/13). PCGS# 83892
- 3266 1896 PR67 NGC.** A yellow, gold, orange, red, and green dusky iridescent toned Superb Gem proof, this sharply detailed example has subdued mirrors around lustrous devices. NGC and PCGS combined have graded only 12 examples at this level, with none finer (10/13). NGC ID# 2786, PCGS# 3894
- 3267 1897 PR66+ Cameo NGC.** A lovely Premium Gem Cameo proof, this 1897 Liberty nickel is brilliant with a hint of peripheral toning. Both sides are deeply mirrored with sharp design features. Census: 18 in 66 Cameo (1 in 66 ★ Cameo), 12 finer (10/13). PCGS# 83895
- 3268 1897 PR66+ Cameo NGC.** Light caramel-gold patina graces the peripheries of this precisely struck specimen. The motifs are icy and the pristine fields are both flashy and satiny.
Ex: Donald F. Herdman Collection (Bowers and Ruddy, 12/1977), lot 5383.
From The Ole Miner's Collection. PCGS# 83895
- 3269 1897 PR66+ ★ Cameo NGC.** Frosty motifs rise in full detail above the glassy fields. A brilliant and high grade specimen. NGC has bestowed a Star designation on just five proof 1897 nickels. Census: 1 in 66+ ★ Cameo, 1 in 67 ★ Cameo, 1 in 67 ★ Ultra Cameo (10/13). PCGS# 83895
- 3270 1905 PR67 NGC.** Flashy, gleaming surfaces provide strong visual allure for this Superb Gem representative. The piece exhibits a sharp strike and virtually untuned surfaces, save for areas of gold toning at portions of the rim. Tiny flyspecks of carbon appear on both sides. Census: 25 in 67 (2 in 67 ★), 2 finer (10/13). NGC ID# 278F, PCGS# 3903
- 3271 1905 PR66 Cameo NGC.** A flashy, well-struck example exhibiting appreciable cameo contrast, this piece has virtually untuned surfaces. The reverse reveals several as-made lint marks above the top right portion of the wreath. Tiny flyspecks of carbon are present. Census: 3 in 66 Cameo, 3 finer (10/13). PCGS# 83903

**1907 Liberty Nickel, PR67 Cameo
Tied for Finest at NGC**

- 3272 1907 PR67 Cameo NGC.** Only 1,475 proof Liberty nickels were struck in 1907, the lowest production total of the series. This spectacular Superb Gem exhibits razor-sharp definition on all design elements and the frosty devices contrast boldly with the deeply mirrored fields. A few hints of pale gold toning add to the outstanding eye appeal. Census: 5 in 67 Cameo, 0 finer (10/13). PCGS# 83905
- 3273 1908 PR66 PCGS. CAC.** The 1908 proof Liberty nickel mintage consisted of 1,620 pieces. This Premium Gem example displays a pleasing degree of reflectivity. The surfaces reveal scattered toning in shades of yellow, gold, and red. A small spot appears on the obverse above star four. Several of the stars and the left ear of corn exhibit an incompleteness of strike. Population: 39 in 66 (2 in 66+), 9 finer (10/13). NGC ID# 278J, PCGS# 3906
- 3274 1909 PR67+ Cameo NGC.** A pleasing degree of contrast exists between the fields and devices on this high-end Superb Gem example. Subtle hints of toning are present. Aside from the left ear of corn, the coin exhibits a sharp strike overall. Census: 1 in 67+ Cameo, 4 in 67 ★ Cameo, 8 finer (10/13).
From The Moore Coin Collection. PCGS# 83907
- 3275 1912 PR66 Cameo NGC.** The design elements of this delightful Premium Gem are richly frosted and sharply detailed, creating bold cameo contrast with the deeply mirrored fields. Attractive shades of champagne-gold toning add to the outstanding eye appeal. Census: 19 in 66 Cameo, 5 finer (10/13).
From The Moore Coin Collection. PCGS# 83910
- 3276 1912 PR66 Cameo PCGS. CAC.** Appreciable cameo contrast between the reflective fields and frosted devices provides this Premium Gem example with strong eye appeal. In addition, light toning in attractive shades of gold, champagne, light blue, and lavender adds to the attractiveness. The design elements exhibit bold definition, including the stars and left ear of corn. Population: 23 in 66 (2 in 66+) Cameo, 4 finer (10/13). PCGS# 83910
- 3277 1913 Type One MS67 PCGS. CAC.** Light almond-gold toning, with subtle hints of rose-gray, engulfs the surfaces on both sides of this lustrous Superb Gem example. The piece displays the rough, pebbly field texture that James Earle Fraser designed for the subtype. PCGS has awarded higher numeric grades to only 12 examples (10/13). NGC ID# 22PW, PCGS# 3915
- 3278 1913-S Type One MS66 PCGS. CAC.** This issue is known for weakness at the periphery, as illustrated by this Premium Gem representative. Attractive luster and hints of golden-brown toning at the lower reverse add to the eye appeal of this example. NGC ID# 22PY, PCGS# 3917
- 3279 1913 Type Two MS66 PCGS.** This sharply detailed Premium Gem has hints of champagne toning over its satiny surfaces with brilliant mint luster. The reverse is rotated a few degrees counterclockwise. PCGS has only certified 18 finer examples (10/13). NGC ID# 22PZ, PCGS# 3921

BUFFALO NICKELS

3280 1913 Type Two MS66 PCGS. Light champagne toning appears over the highly lustrous gray surfaces of this Premium Gem. The strike is bold and nearly complete. PCGS has only certified 18 finer pieces (10/13). NGC ID# 22PZ, PCGS# 3921

3281 1913 Type Two MS66 NGC. CAC. Pale lavender-blue and gold toning washes over the broadly frosted surfaces of this Type Two Premium Gem. The upper right obverse has a dotted appearance. NGC ID# 22PZ, PCGS# 3921

3282 1913-S Type Two MS64 PCGS. The 1913-S Type Two Buffalo nickel is considered the first key in the set, chronologically speaking, and examples are in demand in all grades. A pleasingly toned near-Gem example, this piece exhibits iridescent shades of yellow, orange, pink, lavender, and mint-green. A clash mark appears below the Indian's chin and the center of the bison reveals a lamination. NGC ID# 22R3, PCGS# 3923

**1914/3 Nickel, MS62
Scarce Second-Year Overdate**

3283 1914/3 MS62 PCGS. FS-101. The scarce overdate is indicated by the field bulge near the peak of the 4 in the date, associated with the crossbar of an underdigit 3. The satiny surfaces are unmarked and display only inconsequential carbon. As is customary for the series, the centers show blending of detail. NGC ID# 22R4, PCGS# 93924

**1914/3 Buffalo Nickel, MS63
Recently Discovered Overdate**

3284 1914/3 MS63 ANACS. FS-101. The crossbar of a 3 is faintly apparent near the peak of the 4. Toned in pastel olive and rose shades. From late state basined dies with an orange-peel texture on the Indian's neck and the field near the profile.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 22R4, PCGS# 93924

**1915-S Nickel, MS66
Engagingly Toned and Boldly Struck**

3285 1915-S MS66 PCGS. Certified in a green-label holder, this Premium Gem 1915-S Buffalo nickel is tied with 27 other submissions at PCGS, but only three are finer (10/13). Engaging pastel lilac and pinkish toning prevails over both sides, complementing a bold strike and generous eye appeal. A single tiny dark spot appears on the shoulder of the bison. NGC ID# 22R9, PCGS# 3929

3286 1917 MS66 PCGS. A wonderful Premium Gem, this piece possesses outstanding eye appeal. The strike is generally crisp and the surfaces are lustrous. PCGS has awarded higher numeric grades to only 15 examples (10/13). NGC ID# 22RD, PCGS# 3934

3287 1917-D MS64 PCGS. CAC. Gorgeous toning covers both sides of this near-Gem representative. The vibrant colors include iridescent shades of yellow, pink, green, red, lavender, and denim-blue. The mintmark displays a strong level of detail on this sharply struck and lustrous piece. NGC ID# 22RE, PCGS# 3935

3288 1918 MS65 ANACS. This well-detailed early series Gem displays vivid shades of bluish-gray and greenish-gold toning, with satiny mint luster underneath. Only the most insignificant signs of contact are present.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 22RG, PCGS# 3937

**1918 Nickel, MS66
High-Mintage Condition Rarity**

3289 1918 MS66 PCGS. Honey-gold and pearl-gray blend throughout this highly lustrous and mark-free Premium Gem. The strike is generally crisp with unimportant incompleteness confined to the hair above the braid, the lower left corner of the date, and the tops of TED STATE. Conditionally rare in the present remarkable quality. Population: 49 in 66, 7 finer (10/13). NGC ID# 22RG, PCGS# 3937

3290 1918/7-D — Obverse Lamination — Fine 15 NGC. FS-101. The broad shape of downstroke and crossbar of the 7 is apparent despite 45 points of wear. This unmarked pearl-white example has a vertical lamination from the cheek to 6 o'clock, and a lesser lamination near the RTY in LIBERTY. A late die state with an orange peel texture to the obverse field. NGC ID# 22RJ, PCGS# 3939

3291 1918/7-D — Obverse Scratched — NGC Details. VF. FS-101. A stone-white and charcoal-gray representative of this famous and rare overdate. The broad shape of the underdigit 7 is apparent. The obverse has faint scuffs on the high points, evident only upon magnification. NGC ID# 22RJ, PCGS# 3939

3292 1918-S MS62 PCGS. Hints of champagne toning appear on the brilliant light gray surfaces of this attractive Mint State Buffalo nickel. The details are slightly indistinct and the surfaces host minor spots, consistent with the grade. NGC ID# 22RK, PCGS# 3940

3293 1919 MS66 PCGS. CAC. The well-preserved silver-gray surfaces of this attractive Premium Gem display bright original mint luster and the design elements are sharply detailed throughout. PCGS has graded 11 numerically finer examples (10/13). NGC ID# 22RL, PCGS# 3941

3294 1919 MS66 PCGS. CAC. Attractively toned, this lovely Premium Gem example displays a number of pastel shades, including gold, pink, peach, blue, green, and lavender. The reverse is particularly appealing. The obverse exhibits a number of small wispy die cracks. Only 11 examples have been awarded higher numeric grades by PCGS (10/13). NGC ID# 22RL, PCGS# 3941

1919-D Nickel, MS64 Toned and Luminous

3295 1919-D MS64 PCGS. CAC. Dusky antique-gold and pink-purple toning enriches both sides of this luminous near-Gem. Minor softness is noted on the far right edge of the portrait's hair, though the bison is better-defined than usually seen. PCGS has graded 75 examples in numerically finer grades (10/13). NGC ID# 22RM, PCGS# 3942

3296 1920 MS66 PCGS. Variegated tan, steel-green, and gold coloration covers the satiny surfaces of this Premium Gem. Clash marks are noted on each side, most visibly below the Indian's chin. Lustrous, well struck, and unabraded. Only 9 examples have achieved higher numeric grades from PCGS (10/13).

Ex: ANA Denver Signature (Heritage, 8/2006), lot 667; Central States Milwaukee Signature (Heritage, 4/2010), lot 1135. NGC ID# 22RP, PCGS# 3944

3297 1923 MS66 PCGS. Light gold surfaces and strong luster provide this Premium Gem representative with lovely eye appeal. The 1923 issue is known for well-produced coins, as is the case with this example exhibiting a sharp strike. PCGS has assigned higher numeric grades to only 10 examples (10/13). NGC ID# 22RV, PCGS# 3949

3298 1925 MS66 PCGS. CAC. Gorgeous satin luster provides this Premium Gem representative with immediate eye appeal. Areas of light toning include shades of gold and peach along with icy blue and pink. The coin displays a pleasing level of design definition, though the coin was struck from worn dies on the obverse, imparting areas of orange peel texture. PCGS has awarded higher numeric grades to only ten examples (10/13). NGC ID# 22S2, PCGS# 3954

3299 1925-D MS64 PCGS. A richly toned near-Gem example, the primary color is golden-peach, with a few areas of other color present at portions of the outer edges, including pink, faint ice-blue, rich yellow, deep red, and sky-blue. The reverse exhibits a counter-clockwise rotation. Evidence of die erosion is present on both sides. NGC ID# 22S3, PCGS# 3955

1926 Buffalo Nickel, MS67 None Certified Finer at PCGS

3300 1926 MS67 PCGS. Though this Philadelphia issue was struck in great numbers, ensuring its availability in lesser grades, it remains a condition rarity at the MS67 level. This Superb Gem example exhibits a sharp strike and lustrous surfaces revealing hints of gold toning. Population: 32 in 67, 0 finer (10/13). NGC ID# 22S5, PCGS# 3957

1926-S Buffalo Nickel, AU55 Low-Mintage Key

3301 1926-S AU55 PCGS. CAC. The 1926-S Buffalo nickel claims a series-low mintage of 970,000 pieces, making it a sought-after key issue. This Choice AU example exhibits just a trace of wear on the well-detailed design elements and the lightly abraded surfaces retain traces of satiny mint luster. Mellow nickel-gray toning with traces of amber visits both sides. NGC ID# 22S7, PCGS# 3959

3302 1935 Doubled Die Reverse AU50 PCGS. FS-801. FIVE CENTS is strongly die doubled on this desirable Guide Book variety. Per Cherrypickers', FS-801 "is extremely rare in any grade above Very Fine." Toned almond-gold and powder-blue. We note a tiny spot above the braid and a thin mark near the bison's beard. PCGS# 93974

3303 1936-D 3 1/2 Legs Fine 12 PCGS. FS-901. Though less famous than the 1937-D Three Legged nickel, the present variety is much rarer, especially in better grades. The cream-gray surfaces display even wear and show only a single mark, a horizontal line on the upper back leg. PCGS# 93978

3304 1937 MS67+ PCGS. Lightly toned emerald, blue, and violet across bright surfaces. An impressively preserved coin for the type enthusiast. PCGS has graded just five examples of the date as MS68 or finer (10/13). NGC ID# 22SV, PCGS# 3980

3305 1937-D Three-Legged AU50 NGC. FS-901. A lightly worn Three-Legged nickel with a clearly outlined reverse horn. A faint golden overtone drapes surfaces ranging from medium-gray to charcoal. NGC ID# 22SX, PCGS# 3982

3306 1937-D Three-Legged AU50 ANACS. FS-901. The foreleg is absent on this lightly circulated key date nickel. Die lumps beneath the flank and granularity on the back leg confirm the *Guide Book* variety. Splashes of orange-red toning overlie gunmetal-gray and olive-green surfaces. Smooth save for a hair-thin line on the Indian's upper lip.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 22SX, PCGS# 3982

3307 1937-D Three-Legged MS62 NGC. FS-901. A lovely example of the eternally popular Three-Legged nickel. The coruscating surfaces are nicely struck and free from relevant marks. Medium wheat-gold and stone-gray toning confirms the originality. NGC ID# 22SX, PCGS# 3982

1938-D/S Buffalo Nickel, MS67+ ★ Popular *Guide Book* Variety

3308 1938-D/S MS67+ ★ NGC. CAC. The Mint deliberately produced five dies with the primary D mintmark impressed over the earlier undertype S to avoid preparing new dies when it was decided to strike no Buffalo nickels at the San Francisco Mint in 1938, the last year of the design. This well-detailed lustrous example is patinated in shades of olive-gold and silver-gray, with outstanding eye appeal. Census: 4 in 67+★, 6 finer (10/13). NGC ID# 22T3, PCGS# 3985

PROOF BUFFALO NICKELS

1913 Matte Proof Buffalo Nickel, PR66 Single-Year Type One Design

3309 1913 Type One PR66 PCGS Secure. CAC. Only 1,520 matte proof Buffalo nickels were struck in 1913. Type collectors are extremely fond of this issue, as it represents the first year of the Buffalo design and the only year with the mound on the reverse. A lovely Premium Gem example, this coin displays attractive toning in shades of yellow and gold. The strike is sharp, adding to the appeal. NGC ID# 278R, PCGS# 3988

1913 Type Two Buffalo Nickel, PR66 Fully Struck and Appealing

3310 1913 Type Two PR66 PCGS. Pearl-gray and golden tones alternate on this Premium Gem 1913 Type Two proof Buffalo, the (slightly modified) debut of the popular James Earle Fraser design and a world away from the staid, stale designs of Charles Barber, designer of the predecessor Liberty nickel. This is a fully struck and thoroughly appealing example. Population: 94 in 66 (2 in 66+), 55 finer (10/13). NGC ID# 278S, PCGS# 3990

1913 Type Two Buffalo Nickel, PR66 Sharply Struck and Beautifully Toned

3311 1913 Type Two PR66 PCGS Secure. CAC. The 1913 Buffalo Nickel is an important first-year type issue. The proof mintage for the Type Two design was only 1,514 pieces. This Premium Gem example displays a sharp strike and lovely toning in attractive shades of gold and pink. In addition, the surfaces are virtually pristine. NGC ID# 278S, PCGS# 3990

3312 1936 Type One — Satin Finish PR67 PCGS. CAC. Attractive toning covers large portions of both sides of this boldly struck Superb Gem representative. The obverse reveals primarily gold color, with hints of peach, lavender, and red present. The reverse includes scattered splashes of yellow-gold, golden-red, and icy lavender. NGC ID# 278X, PCGS# 3994

1936 Type One Buffalo Nickel, PR67 Beautiful Pastel Toning

3313 1936 Type One — Satin Finish PR67 PCGS Secure. CAC. Gorgeous toning on both sides adds to the visual allure of this Superb Gem representative. Among the colors present are rich pastel shades of gold, yellow, pink, blue, silver, lavender, and green. Lustrous surfaces and a sharp strike are additional attributes this example possesses. NGC ID# 278X, PCGS# 3994

- 3314 1936 Type Two — Brilliant Finish PR65 PCGS.** Light olive-green toning graces this sharply struck and undisturbed Gem proof. Though deemed a Brilliant Finish specimen by PCGS, both sides display satin luster. Encased in a green label holder. NGC ID# 278Y, PCGS# 3995

**1936 Buffalo Nickel, PR67
Type Two, Brilliant Finish**

- 3315 1936 Type Two — Brilliant Finish PR67 PCGS Secure. CAC.** A lovely Type Two first-year proof Buffalo nickel, this Superb Gem displays lustrous chrome-like surfaces. The design elements exhibit a strong degree of detail. This is the scarcer of the two proof varieties at this grade level. PCGS has awarded higher numeric grades to only 6 examples (10/13). NGC ID# 278Y, PCGS# 3995
- 3316 1937 PR66 PCGS.** A splendid Premium Gem proof, this 1937 Buffalo represents the second of only two proof issues from the modern era that began in 1936. This sharply detailed example has rich gold toning over fully mirrored fields and satiny devices. NGC ID# 278Z, PCGS# 3996
- 3317 1937 PR66 PCGS. CAC.** Green-gold outer toning and nickel-blue interiors make for intriguing eye appeal on this Premium Gem proof. Great underlying reflectivity. NGC ID# 278Z, PCGS# 3996
- 3318 1937 PR67 PCGS Secure. CAC.** Fully struck, with deeply mirrored surfaces, this Superb Gem Buffalo nickel possesses tremendous eye appeal. Close inspection with a loupe reveals no mentionable surface flaws. PCGS has graded 13 numerically finer examples (10/13). NGC ID# 278Z, PCGS# 3996

JEFFERSON NICKELS

**1943/2-P Nickel, MS66 Full Steps
Lustrous and Appealing**

- 3319 1943/2-P MS66 Full Steps PCGS. FS-101.** Delma K. Romines discovered the 1943/2 nickel in 1948. The lower curve of the underdigit 2 is readily apparent under a glass. An extremely sharp Premium Gem, this coin received an attentive strike, culminating in Full Steps. The highly lustrous surfaces reveal the slightest hint of champagne color and are impeccably preserved. The population data has changed little since we offered this coin more than five years ago, with only two additional coins certified at this level and none at higher grade levels. Population: 21 in 66 (1 in 66+) Full Steps, 2 finer (10/13).
Ex: ANA Baltimore (Heritage, 7/2008), lot 1397, which realized \$2,760. NGC ID# 22TR, PCGS# 84019

- 3320 1946 MS67 PCGS.** Rich lustrous surfaces provide this Superb Gem example with strong visual appeal. The coin exhibits a lovely almond-gold color. This is the sole finest graded example at PCGS and is tied with eight NGC-graded examples, with none finer from that service either (10/13). NGC ID# 22U2, PCGS# 4028

**1958-D Nickel, MS67 Full Steps
Clear, Straight Lines in the Steps**

- 3321 1958-D MS67 Full Steps PCGS.** Luminous and carefully preserved with delicate pink-gray and gold accents across the surfaces. While the details behind the pillars of Monticello are ghostly at best, the steps are clear and straight, highly unusual for this Denver issue. Population: 7 in 67 Full Steps, 0 finer (10/13). NGC ID# 22V5, PCGS# 84064
- 3322 1970-S MS66 Full Steps NGC.** Faint hints of light gold toning enhance the well-preserved brilliant surfaces of this impressive Premium Gem. The design elements are sharply detailed, with five full steps showing in Monticello. Census: 1 in 66 Full Steps, 0 finer (10/13). NGC ID# 22VT, PCGS# 84085

PROOF JEFFERSON NICKELS

- 3323 1940 Reverse of 1938, FS-024 PR66 NGC.** The so-called "wavy steps" reverse from the original design left over from 1938 was used in 1940 to strike an unknown, but small number of proofs. This Premium Gem example displays areas of golden toning. Scattered flyspecks appear on both sides. Census: 22 in 66 (1 in 66 ★), 13 finer (10/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 279Y, PCGS# 94177
- 3324 1955 PR68 Deep Cameo PCGS.** The 1955 Jefferson nickel proofs seldom are seen with such strong contrast. Both sides are practically black-and-white with only tiny imperfections. Population: 25 in 68 Deep Cameo, 0 finer (10/13). NGC ID# 22YE, PCGS# 94187
- 3325 1971 No S PR66 Cameo NGC.** A delightful Premium Gem example of the famous No S proof, struck from dies that inadvertently omitted the mintmark. Razor-sharp definition and rich mint frost on the devices creates intense cameo contrast with the deeply mirrored fields. Census: 7 in 66 Cameo, 44 finer (10/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 22YN, PCGS# 84204
- 3326 1971 No S PR68 Cameo PCGS.** The largest (by diameter) U.S. proof coin with a missing-mintmark variant, the 1971 No S nickel is popular with collectors. This specimen has moderate contrast and just a hint of golden rim patina. Population: 60 in 68 Cameo, 10 finer (10/13). NGC ID# 22YN, PCGS# 84204

MERCURY DIMES

- 3327 1917-S MS65 Full Bands PCGS. CAC.** Areas of light tan and gold-brown toning appear on both sides of this Gem example with the important Full Bands designation. The coin exhibits a sharp strike overall, with only minor weakness present at portions of the extreme outer edges. NGC ID# 23H4, PCGS# 4915

1918-D Dime, MS64 Full Bands

- 3328 1918-D MS64 Full Bands PCGS.** The obverse ranges from silver-gray to gold-orange, while the reverse has a wider range of colors and dips into bronze and sage. Better-defined than usual, most notably on the reverse bands, and a solid representative of its date. Population: 78 in 64 Full Bands, 24 finer (10/13). NGC ID# 23H6, PCGS# 4919

- 3329 1918-S MS66+ PCGS. CAC.** Diffuse gold and blue overtones, richer on the reverse, enhance the eye appeal of this MS66+ example. The reverse bands are flat, but otherwise this coin permits no significant quibbles. Population: 18 in 66 (4 in 66+), 1 finer (10/13). NGC ID# 23H7, PCGS# 4920

- 3330 1919 MS66 Full Bands PCGS. CAC.** Strong luster and brilliant untuned surfaces add to the eye appeal of this Premium Gem example displaying Full Bands. Population: 64 in 66 (2 in 66+) Full Bands, 11 finer (10/13). NGC ID# 23H8, PCGS# 4923

1919-D Dime, MS64 Full Bands Conditionally Rare

- 3331 1919-D MS64 Full Bands PCGS.** The 1919-D Mercury dime is a strike and condition rarity, common only in the the lowest circulated grades and seldom seen with Full Bands. A beautifully struck near-Gem with Full Bands, this coin reveals rich luster beneath the patina. The toning includes shades of red-brown, khaki-green, and deep red. The obverse reveals a number of interesting die cracks. NGC ID# 23H9, PCGS# 4925

1921 Mercury Dime, MS65 Full Bands Popular Key Issue

- 3332 1921 MS65 Full Bands PCGS. Ex:** The Larry Martin Collection. Brightly lustrous, silvery surfaces display wisps of speckled gray patina. The design features are well impressed throughout. A few minor marks on the fasces are of little visual consequence. The 1921 and 1921-D dimes are the low-mintage keys to the series, since the mints were busy striking silver dollars to fulfill the Pittman Act. Population: 66 in 65 Full Bands, 38 finer (10/13). *Ex:* 2005 Central States Auction (Heritage, 4/2005), lot 6752. NGC ID# 23HE, PCGS# 4935

- 3333 1921-D AU58 NGC.** A pleasing borderline Uncirculated example of this popular low-mintage date, with minimal signs of wear and much original mint luster. A few hints of pale gold and ice-blue toning add to the considerable eye appeal. NGC ID# 23HF, PCGS# 4936

- 3334 1921-D MS61 ANACS.** The 1921-D Mercury dime is a low-mintage semikey in the series. This MS61 example displays scattered toning in hues of gold, red, gray-blue, and golden-orange. The outer edges of the obverse at left reveal a minor incompleteness of strike. Housed in a small format holder. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 23HF, PCGS# 4936

1921-D Mercury Dime, MS64 Full Bands Low-Mintage Denver Issue

- 3335 1921-D MS64 Full Bands PCGS.** Pastel plum, powder-blue, and gold colors visit the obverse. Gentle apricot tints adorn the reverse. The luster is comprehensive and undiminished, and the strike is bold on the central bands. The peripheral legends to the right show softness near the rims, as made. A lone, thin abrasion that extends from the eye to the temple denies this lovely semi-key a Gem grade. *Ex:* Long Beach Signature (Heritage, 5/2007), lot 776. NGC ID# 23HF, PCGS# 4937

**1921-D Dime, MS64 Full Bands
Lightly Toned, Rounded Bands**

- 3336 1921-D MS64 Full Bands PCGS. CAC.** Slightly satiny with rolling luster. Luster is largely pale silver with a hint of blue, though gold-green touches are visible at the right margins, more visibly on the reverse. With its full and rounded bands, this 1921-D dime is a coin of particular importance to set collectors. NGC ID# 23HF, PCGS# 4937

- 3337 1925-D MS64 NGC.** This near-Gem is brilliant and lustrous with splashes of gold toning on both sides. The strike is excellent with virtually full band detail on the reverse. Census: 19 in 64, 6 finer (10/13). NGC ID# 23HN, PCGS# 4950

- 3338 1926 MS66 Full Bands PCGS. CAC.** Gorgeous toning leads to outstanding eye appeal for this Premium Gem example with the Full Bands designation. Among the colors present are yellow, orange, red, green, and tan-brown. Only 17 examples have achieved higher numeric grades from PCGS (10/13). NGC ID# 23HR, PCGS# 4955

- 3339 1926-S AU58 NGC.** An attractive near-Mint example of this lower mintage date, with just a touch of wear on the design elements and bright mint luster under light shades of gold and ice-blue toning. Census: 29 in 58, 87 finer (10/13). NGC ID# 23HT, PCGS# 4958

- 3340 1926-S MS62 Full Bands PCGS.** This Full Bands piece is solidly struck and largely untuned with pleasing luster. Light abrasions and other marks are scattered on the surfaces.
Ex: Dallas Signature (Heritage, 11/2006), lot 581. NGC ID# 23HT, PCGS# 4959

- 3341 1929-S MS66+ Full Bands PCGS.** Bold luster emanates from this high-end Premium Gem example sporting the important Full Bands designation. The coin is brilliant, with only a few subtle hints of toning. Several wispy die cracks appear on both sides of this piece. Population: 6 in 66+ Full Bands, 34 finer (10/13). NGC ID# 23J4, PCGS# 4977

- 3342 1937 MS68 Full Bands NGC.** A sharply struck MS68 example with the Full Bands designation, this piece displays attractive gold and golden-brown toning on the obverse. The reverse exhibits toning that is particularly appealing in shades of sea-green, frosty denim-blue, orange-gold, and red. Census: 15 in 68 Full Bands, 0 finer (10/13). NGC ID# 23JJ, PCGS# 5005

- 3343 1937-S MS67+ Full Bands NGC. CAC.** This amazing Superb Gem is tied for the finest that NGC has certified, and it is the only example that also carries the Plus designation. It is the finest example examined by the Florida grading service. Both sides are brilliant and untuned with satin luster and pristine surfaces. Census: 38 in 67 (1 in 67+) Full Bands, 0 finer (10/13). NGC ID# 23JL, PCGS# 5009

- 3344 1942-D MS68 Full Bands PCGS.** Splashes of toning appear on both sides of this lustrous MS68 Full Bands example, with the toning being particularly attractive on the obverse. The colors include yellow-green, plum, kelly-green, golden-brown, pink, lime-green, and mint-green. Population: 23 in 68 Full Bands, 0 finer (10/13). NGC ID# 23K5, PCGS# 5039

- 3345 1944-D MS68 Full Bands PCGS.** A glorious MS68 example with Full Bands, this piece displays brilliant silver luster and frosty surfaces. The coin exhibits a full strike, with bold design details on both sides. Population: 80 in 68 (1 in 68+) Full Bands, 0 finer (10/13).
Ex: Long Beach Signature (Heritage, 9/2006), lot 1448. NGC ID# 23KC, PCGS# 5053

- 3346 1945-S Micro S MS66 Full Bands PCGS. CAC.** A Premium Gem example of the popular *Guide Book* variety, this piece displays sharp detail on all design elements and sports the all-important Full Bands designation. Vibrant mint luster adds to the considerable eye appeal of this piece. NGC ID# 23KH, PCGS# 5063

PROOF MERCURY DIMES

- 3347 1936 PR66 PCGS.** A spectacular Premium Gem, this first-year proof Mercury dime is fully brilliant and sharply detailed with deeply mirrored fields, and satiny, reflective devices. Both sides are completely untuned. NGC ID# 27DG, PCGS# 5071

- 3348 1937 PR67+ NGC. CAC.** An extraordinary Superb Gem proof, this 1937 Mercury dime has brilliant silver surfaces with satiny devices that contrast nicely against the deeply mirrored fields. NGC ID# 27DH, PCGS# 5072

1938 Dime, PR66 High-End Rim-Toned Example

- 3349 1938 PR68 NGC.** Abundant mint luster radiates from both sides of this lovely Superb Gem proof 1938 Mercury dime, showing silver-gray surfaces complemented by tinges of cherry and gold near the rims. The strike is impeccably full throughout. NGC has seen only a single PR69 finer (10/13). NGC ID# 27DJ, PCGS# 5073

- 3350 1941 PR68 NGC. CAC.** The surfaces display a chrome like gleam on this beautifully struck Mercury dime displaying areas of toning at portions of the peripheries. The hues include yellow, orange, red, and green. A well-preserved specimen, this piece is among the finest numerically known examples, with neither NGC nor PCGS having assigned a PR69 or higher grade (10/13). NGC ID# 27DM, PCGS# 5076

- 3351 1942 PR68 NGC.** An attractively toned PR68 example, this coin sports shades of yellow, gold, and red, with a few tiny splashes of green present as well. Pleasing luster adds to the eye appeal. The obverse displays a few tiny flyspecks. NGC ID# 27DN, PCGS# 5077

3352 1942 PR68 NGC. CAC. Areas of toning appear at the outer edges of this beautifully preserved representative. The colors include shades of yellow, orange, red, and pink. The dusky reverse is faintly toned saved for color at portions of the extreme rim, including shades of green. NGC has awarded a higher numeric example to a single example (10/13). NGC ID# 27DN, PCGS# 5077

3353 1942 PR68 NGC. CAC. Exquisitely detailed with delightful mirrors. The shining, carefully preserved surfaces host a subtle melange of silver-blue, rose-gray, and celery-green patina. Ex: *Long Beach Signature* (Heritage, 5/2008), lot 250. NGC ID# 27DN, PCGS# 5077

ROOSEVELT DIMES

3354 1949-D MS68 PCGS. Rich toning on both sides provides this MS68 example with spectacular eye appeal. The obverse features deep shades of orange, red, green, and golden-brown along with lighter hues of lavender and yellow. The reverse includes lime-green, deep pink, green, yellow, fuchsia, and cobalt-blue. Population: 6 in 68, 0 finer (10/13). NGC ID# 23KV, PCGS# 5092

3355 1951 MS67+ Full Torch NGC. Gorgeous toning, particularly on the obverse, provides this lustrous high-end Superb Gem example with a Full Torch designation with outstanding visual appeal. The colors include shades of yellow, orange, red, blue, and green. This piece is tied with one other Full Torch designated example at the MS67+ level at NGC, with only one finer (10/13). NGC ID# 23L2, PCGS# 85097

3356 1952-S MS67+ Full Bands PCGS. Splashes of color appear on both sides of this high-end Superb Gem representative. Orange, red, and golden-brown are the predominant colors. Rich luster and a sharp strike add to the eye appeal. Population: 9 in 67+ Full Bands, 1 finer (10/13). NGC ID# 23L7, PCGS# 85102

1956 Roosevelt Dime, MS68 Full Bands The Finest PCGS Certified

3357 1956 MS68 Full Bands PCGS. This is the only MS68 Full Bands 1956 Roosevelt dime certified at PCGS or NGC. The obverse has an extraordinary display of blue, green, violet, and gold toning. The reverse is essentially all brilliant with only faint powder-blue toning at the border. NGC ID# 23LH, PCGS# 85112

3358 1961 MS67 Full Bands NGC. Subtle hints of toning appear on both sides of this Superb Gem Full Bands example displaying frosty luster. The left obverse field in particular exhibits a number of die polish lines. Census: 12 in 67 (1 in 67 ★) Full Bands, 0 finer (10/13). NGC ID# 23LU, PCGS# 85122

PROOF ROOSEVELT DIMES

3359 1951 PR69 Cameo NGC. The lightly frosted devices and reflective fields provide this piece with an appreciable degree of cameo contrast. The surfaces are immaculate on this brilliant untuned example. Census: 7 in 69 Cameo (1 in 69 ★ Cameo), 0 finer (10/13). NGC ID# 27EK, PCGS# 85226

3360 1970 No S PR69 Cameo NGC. A near-perfect No S dime with moderate contrast. Color is light, largely a suggestion of gold along the right obverse margin. Census: 12 in 69 Cameo (1 in 69 ★ Cameo), 0 finer (10/13). Ex: *FUN Signature* (Heritage, 1/2008), lot 2024; *ANA Signature* (Heritage, 3/2010), lot 734. NGC ID# 27F5, PCGS# 85248

3361 1983 No S PR69 Deep Cameo PCGS. A near-perfect specimen of a variety popular for its famous imperfection, the missing "S" mintmark. Subtle hints of gold toning are present on this strongly contrasted piece. NGC ID# 27FJ, PCGS# 95265

STANDING LIBERTY QUARTERS

3362 1917 Type One MS65 Full Head NGC. Lustrous surfaces provide this Gem exhibiting Full Head details with immediate eye appeal. The shield exhibits strong definition as well, including the shield rivets. The coin remains brilliant overall, with only a few subtle hints of toning. NGC ID# 242Z, PCGS# 5707

3363 1917 Type One MS65 Full Head PCGS. An intricately struck Gem with potent luster and delicate sun-gold toning. Virtually pristine and high end for the grade. Encapsulated in an old green label holder. Ex: *Minneapolis Central States Signature* (Heritage, 5/2000), lot 7348, which realized \$1,150. NGC ID# 242Z, PCGS# 5707

3364 1917 Type One MS66+ Full Head PCGS. Areas of attractive toning are present on both sides of this high-end Premium Gem representative. The colors include shades of yellow, yellow-gold, and red-brown. In addition to the Full Head details, all of the shield rivets appear and display strong definition overall. Rich luster is an additional attribute of this lovely piece. NGC ID# 242Z, PCGS# 5707

3365 1917-D Type One MS65 Full Head NGC. CAC. Silver remains on Liberty's figure and at the upper reverse, while the rest of this lustrous Full Head Gem is given over to gold, peach, rose, and violet patina. Top-shelf eye appeal for this lowest-mintage 1917 Type One issue. NGC ID# 2432, PCGS# 5709

1917-D Type One Quarter MS66+ Full Head

3366 1917-D Type One MS66+ Full Head PCGS. Caramel-gold and olive-gray toning enriches this lustrous and precisely struck high grade quarter. A magnificently preserved representative, and the sole Denver issue of the design subtype. PCGS has only certified 21 finer examples of this Denver Mint issue (10/13). NGC ID# 2432, PCGS# 5709

- 3367 1917-S Type One MS65 Full Head NGC.** Dappled brown toning appears on the ivory surfaces of this fully lustrous and boldly detailed Gem. All aspects are sharply defined, including the head and the shield. NGC ID# 2433, PCGS# 5711
- 3368 1919 MS65 Full Head NGC.** Brilliant and lustrous with exemplary preservation and excellent eye appeal. The strike is uncommonly sharp on the waist and shield rivets.
*Ex: Bebee Collection (Bowers and Merena, 8/1987), lot 1177.
From The Ole Miner's Collection. NGC ID# 243B, PCGS# 5729*

1919 Quarter, Lustrous MS66+ Full Head

- 3369 1919 MS66+ Full Head PCGS Secure.** Faint streaks of honey-gold visit this highly lustrous high grade quarter. Well struck on the waist and shield rivets, while the date and the center of the head show slight softness. Occasional minor grazes deny technical perfection. Population: 67 in 66 (6 in 66+) Full Head, 15 finer (10/13). NGC ID# 243B, PCGS# 5729
- 3370 1921 AU58 PCGS. CAC.** The 1921 Standing Liberty quarter is a better date in the series, from a mintage of less than 2 million pieces. This near-Mint quarter displays light wear on the high points. Areas of light toning are present, in shades of almond-gold and faint golden-brown. NGC ID# 243H, PCGS# 5740

1924-S Standing Liberty Quarter, MS66 Only Two Finer Coins at PCGS

- 3371 1924-S MS66 PCGS.** The 1924-S Standing Liberty quarter is known for its weak strike. Even this delightful Premium Gem shows some softness on the shield rivets and falls short of Full Head definition, despite a bold date and better-than-average detail in other areas. Vibrant mint luster shines through shades of gold, gray, and amber toning. Population: 31 in 66, 2 finer (10/13). NGC ID# 243N, PCGS# 5750
- 3372 1926 MS65 Full Head PCGS.** Attractive gold toning appears on both sides of this lustrous Gem, with areas of russet and plum present on the obverse. The coin exhibits a strong strike, with only a few of the shield rivets lacking definition. Reed marks appear on Liberty's right arm. PCGS has awarded higher numeric grades to only 36 examples with Full Head definition (10/13). NGC ID# 243R, PCGS# 5755

- 3373 1927 MS66 Full Head NGC.** Frosty luster emanates from both sides of this Premium Gem example with Full Head details. The shield displays all of the rivets though they lack full definition. The coin displays areas of light toning, particularly at the upper reverse. Census: 28 in 66 Full Head, 2 finer (10/13). NGC ID# 243U, PCGS# 5761

- 3374 1929 MS66 Full Head PCGS. CAC.** Delicate skeins of gold and medium-gray toning settle across a frosted silver base. Liberty's head is a ready qualifier for Full, though the lower part of her shield shows minor softness. Population: 99 in 66 (5 in 66+) Full Head, 7 finer (10/13). NGC ID# 2442, PCGS# 5773
- 3375 1929-D MS66 PCGS. CAC.** The lustrous surfaces of this appealing Premium Gem example are brilliant, with only a few tiny areas of toning present. The coin reveals an incompleteness of strike, primarily at portions of the outer edges. Population: 44 in 66, 1 finer (10/13). NGC ID# 2443, PCGS# 5774
- 3376 1929-S MS67 PCGS. CAC.** Areas of toning appear on both sides of this Superb Gem example displaying attractive luster, with most of the toning confined to the outer edges. The colors include shades of tan, olive-green, and red-brown. Population: 9 in 67, 0 finer (10/13). NGC ID# 2444, PCGS# 5776

- 3377 1930 MS66 Full Head PCGS.** Hints of delicate gold toning with an olive tint appear on the brilliant silver surfaces of this Premium Full Head Gem. Both sides have bold details with only slight weakness at the interior of the shield. NGC ID# 2445, PCGS# 5779

- 3378 1930 MS66 Full Head PCGS.** A lovely Premium Gem example with Full Head details, this coin exhibits attractive satin luster. The piece is brilliant overall, with only a few subtle hints of toning aside from a small spot of lime-green color at the lower reverse. NGC ID# 2445, PCGS# 5779

WASHINGTON QUARTERS

- 3379 1932-D MS60 ANACS.** A pleasing Mint State example of this first-year key, with original mint luster and sharply detailed design elements. Silver-gray patina blankets both sides and only minor contact marks are evident.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2448, PCGS# 5791
- 3380 1932-D MS64 PCGS.** An appealing near-Gem example, this lovely piece displays frosty luster. Areas of toning are present, primarily on the obverse. The colors include deep green-brown and red-brown. NGC ID# 2448, PCGS# 5791
- 3381 1932-D MS64 NGC.** Rich sea-green, russet-brown, and tan-gold toning consumes the obverse. The reverse is chiefly cream-gray but displays khaki-gold patina at the periphery. Lustrous and sharply impressed with no detrimental marks. NGC ID# 2448, PCGS# 5791
- 3382 1932-D MS64 PCGS. CAC.** A lovely near-Gem example of the 1932-D Washington quarter, the acknowledged key to the series, this piece displays small scattered splashes of patina, particularly on the obverse. The colors include olive-green, golden-tan, and plum-brown. NGC ID# 2448, PCGS# 5791
- 3383 1932-S MS64 PCGS.** Rich luster and virtually untuned surfaces provide this near-Gem representative with strong visual appeal. A few marks near Washington's jawbone provide minimal distraction, if any. NGC ID# 2449, PCGS# 5792
- 3384 1932-S MS64 PCGS. CAC.** Close examination of this lustrous near-Gem example reveals attractive toning on the obverse in hues of gold, orange, forest-green, and faint plum. The reverse displays fewer signs of color. NGC ID# 2449, PCGS# 5792

- 3385 1932-S MS64 PCGS. CAC.** The reverse of this near-Gem in particular displays rich luster. The vertical die break near the outer edge of the eagle's right wing is slightly more pronounced on this example. Scattered areas of toning include hues of deep forest-green and golden-brown. NGC ID# 2449, PCGS# 5792
- 3386 1932-S MS64+ PCGS. CAC.** Areas of light toning appear on both sides of this high-end near-Gem example. Among the colors present are golden-orange, peach, lime-green, plum-gray, and tiny hints of red. Rich luster further enhances the appearance of this piece. NGC ID# 2449, PCGS# 5792
- 3387 1934 Light Motto MS66+ PCGS. CAC. FS-401.** By far the scarcest of the three Motto subtypes seen on the 1934 quarter. This lustrous high grade example displays olive-gold centers and powder-blue peripheries. In our recent September Long Beach Signature, the MS66 PCGS Teich Family Collection example, which had similar but less impressive toning, brought \$1,645. NGC ID# 244A, PCGS# 5794

**1934-D Heavy Motto Quarter, MS66
A Highly Popular Issue**

- 3388 1934-D Heavy Motto MS66 PCGS. CAC.** The 1934-D Washington quarter comes both with a Medium and a Heavy Motto. The Heavy Motto displays thicker letters IN GOD WE TRUST than the Medium Motto. If a side-by-side comparison is unavailable, the Heavy Motto can be distinguished by the middle point of W in WE which is higher than the outer strokes of the letter; the middle point of W in WE is much lower than the outer strokes in the Medium Motto.

The lustrous surfaces of this Heavy Motto Premium Gem display orange-gold, lavender, and yellow-gold patination on the obverse, while the reverse yields a more silver-gray appearance with tan accents. The design elements are well-impressed, and both sides have been nicely preserved. These attributes combine to provide very pleasing overall eye appeal, aptly recognized by CAC. This issue has become increasingly popular over the past few years, and this MS66 specimen can be expected to generate spirited bidding. Population for the Heavy Motto: 18 in 66 (2 in 66+), 3 finer (10/13). PCGS# 85796

- 3389 1935-D MS66 PCGS. CAC.** Soft pearl-gray patina with hints of peach drapes the softly lustrous surfaces of this well-defined Premium Gem. Both sides exhibit wonderful preservation, particularly the impressive obverse. PCGS and NGC combined have assigned higher numeric grades to only 27 examples (10/13). Ex: *Dallas Signature (Heritage, 11/2007), lot 684*. NGC ID# 244E, PCGS# 5798
- 3390 1935-S MS67 NGC.** Rich satin luster is among the many attributes this attractive Superb Gem representative possesses. Scattered freckles of toning are present, primarily at the outer edges of the reverse. Census: 35 in 67 (2 in 67 ★), 0 finer (10/13). NGC ID# 244F, PCGS# 5799

- 3391 1937-D MS67 PCGS.** A condition rarity in the Washington quarter series, the 1937-D tops out in the MS67 grade at both PCGS and NGC (10/13). Rich satin luster provides this Superb Gem representative with immediate eye appeal. The surfaces reveal subtle hints of light toning. NGC ID# 244L, PCGS# 5804
- 3392 1938-S MS67 PCGS. CAC.** A brilliant satin luster provides lovely visual appeal to this Superb Gem. This splendidly preserved example is well-struck. Population: 38 in 67 (2 in 67+), 0 finer (10/13). NGC ID# 244P, PCGS# 5807
- 3393 1939-S MS67 PCGS.** Strong luster and virtually untuned surfaces provide this well-preserved Superb Gem example with a strong degree of visual appeal. Neither PCGS nor NGC has awarded a higher numeric grade to a single example (10/13). NGC ID# 244T, PCGS# 5810
- 3394 1941-S MS67 PCGS.** Small S. Scattered areas of patina appear on both sides of this Superb Gem example. The colors include shades of dark purple, forest-green, and dark brown. Rich satin luster provides this piece with a pleasing appearance. PCGS has yet to award a higher numeric grade to a single example (10/13). NGC ID# 244Z, PCGS# 5816

- 3395 1943-S MS67 PCGS.** Silver-and-cream on both sides with additional prominent dots of orange on the obverse. A softly struck but attractive Superb Gem. Population: 42 in 67 (2 in 67+), 1 finer (10/13). NGC ID# 2457, PCGS# 5822
- 3396 1943-S MS67 PCGS. CAC.** Large S. A wisp of golden toning visits this lustrous and virtually pristine Superb Gem. One pinpoint spot near the crest of the left (facing) wing. Population: 42 in 67 (2 in 67+), 1 finer (10/13). NGC ID# 2457, PCGS# 5822

- 3397 1944-D MS67+ PCGS. CAC.** The central obverse and reverse are brilliant with stunning peripheral gold and iridescent toning on this Superb Gem. Population: 86 in 67 (5 in 67+), 1 finer (10/13). NGC ID# 2459, PCGS# 5825

- 3398 1946 MS67 PCGS. CAC.** Areas of toning are present on both sides of this Superb Gem example, primarily at portions of the outer edges. The colors include green, red, orange, gold, and golden-brown. The piece is lustrous and virtually pristine. Population: 23 in 67 (2 in 67+), 0 finer (10/13). NGC ID# 245E, PCGS# 5830

**1947-D Washington Quarter, MS67+
Only One Finer Certified**

- 3399 1947-D MS67+ PCGS.** The 1947-D Washington quarter claims a mintage of more than 15 million pieces and the issue can be easily located in Gem condition, but high-end Superb Gems are rare and finer coins are virtually unobtainable. This magnificent example displays sharply detailed design elements and vibrant mint luster, with well-preserved surfaces that show attractive hints of olive-gold and violet toning. Population: 4 in 67+, 1 finer (10/13). NGC ID# 245J, PCGS# 5834

**1947-D Washington Quarter, MS67+
Excellent Registry Set Candidate**

3400 1947-D MS67+ PCGS. CAC. Shades of pink and olive-gold patina enhance the terrific eye appeal of this high-end Superb Gem, with razor-sharp definition on all design elements and vibrant mint luster throughout. This coin should find a home in the finest collection or Registry Set. PCGS has certified only one numerically finer example (10/13). NGC ID# 245J, PCGS# 5834

3401 1952-S MS67+ PCGS. CAC. Colorful toning is present on this high-end Superb Gem example, particularly on the obverse. Among the hues present are orange, red, violet, green, yellow, and aqua. Population: 8 in 67+, 4 finer (10/13). NGC ID# 2463, PCGS# 5851

3402 1953 MS67 PCGS. CAC. Mottled toning, in a number of attractive shades, is present on the majority of both sides of this Superb Gem example. Among the colors present are red-brown, deep violet, copper-orange, teal, and golden-yellow. The reverse includes swaths of deep yellow, cherry-red, and jade-green. The outer edge of the eagle's right wing reveals several die cracks. Population: 54 in 67 (1 in 67+), 0 finer (10/13). NGC ID# 2464, PCGS# 5852

**1953-S Washington Quarter, MS67+
Tied for Finest at PCGS**

3403 1953-S MS67+ PCGS. CAC. Despite a mintage of more than 14 million Washington quarters at the San Francisco Mint in 1953, few survivors can match the quality of the present coin, with this piece tied with one other PCGS-graded example at the MS67+ level, with none finer (10/13). This high-end Superb Gem is sharply detailed and lustrous, with scattered toning in shades of gold, red, and golden-brown. NGC ID# 2466, PCGS# 5854

3404 1958-D MS67+ PCGS. CAC. A gorgeously toned high-end Superb Gem, this piece displays tremendous visual appeal. The toning is particularly vibrant on the obverse, with shades of gold, orange, cherry, and lime-green. Population: 7 in 67+, 0 finer (10/13). NGC ID# 246G, PCGS# 5865

**1959-D Quarter, MS67
Tied for Finest Certified**

3405 1959-D MS67 PCGS. This boldly defined Superb Gem is an extremely important entry in the Washington quarter series. Both sides are fully brilliant and entirely untuned with bright silver surfaces and frosty mint luster. Minuscule surface marks are entirely inconsequential. Population: 8 in 67, 0 finer (10/13). NGC ID# 246J, PCGS# 5867

3406 1962 MS67 PCGS. CAC. Type A Reverse. Strong luster provides this Superb Gem example with a wonderful appearance. Areas of toning are present on both sides. Among the colors appearing are golden-brown, red, orange, champagne-gold, and subtle light blue. Population: 13 in 67, none finer (10/13). NGC ID# 246P, PCGS# 5872

PROOF WASHINGTON QUARTERS

3407 1937 PR67+ PCGS. CAC. An exceptional Superb Gem proof, this brilliant specimen has deeply mirrored fields with satiny, reflective devices, possessing outstanding eye appeal. Population: 88 in 67 (2 in 67+), 2 finer (10/13). NGC ID# 27HP, PCGS# 5976

3408 1938 PR67 PCGS. CAC. Pastel toning appears on the obverse of this Superb Gem representative in shades of gold, blue, and rose, with areas of darker color present on the reverse. Attractive luster adds to the eye appeal of this piece. NGC ID# 27HR, PCGS# 5977

**1954 Quarter, PR68+ Deep Cameo
Finest PCGS-Graded Example**

3409 1954 PR68+ Deep Cameo PCGS. An absolutely stunning Deep Cameo proof with bold contrast between the watery fields and richly frosted devices, this is the sole PCGS-graded example at the PR68+ Deep Cameo level, with none finer (10/13). The piece is lustrous and brilliant, with a few tiny flecks of color at the date serving as the only toning present. NGC ID# 27HY, PCGS# 95986

3410 1969-S PR69 Deep Cameo PCGS. This virtually perfect Washington quarter exhibits fully struck frosty design elements that contrast profoundly with the deeply mirrored fields to produce a startling cameo effect. Population: 45 in 69 Deep Cameo, 0 finer (10/13). NGC ID# 2496, PCGS# 96001

3411 1971-S PR69 Ultra Cameo NGC. Among the finest certified, this immaculate proof quarter displays even and deep mint frost on the devices. A majority of '71-S quarters lack the Ultra Cameo designation, unlike this exemplary piece. Census: 17 in 69 Ultra Cameo, 0 finer (10/13). NGC ID# 27JB, PCGS# 96003

WALKING LIBERTY HALF DOLLARS

3412 1916 MS64 PCGS. CAC. Due to its low mintage of only 608,000 coins and its status as a first-year type coin, the 1916 Walking Liberty half dollar is always in demand. The toning on this near-Gem includes shades of gold, orange, cherry, golden-brown, and dark gray-green. NGC ID# 24PL, PCGS# 6566

3413 1916-D MS64 PCGS. CAC. An important issue for mintmark type collectors, the 1916-D represents the first year of the Walking Liberty design. A lovely near-Gem specimen, this piece exhibits satiny mint luster. Scattered toning is present and includes shades of golden-brown, teal, and red-brown. NGC ID# 24PM, PCGS# 6567

3414 1916-S AU58 PCGS. CAC. This brilliant and frosty Mint State Walker has a trace of wear on the high points with virtually full luster and only a trace of peripheral toning. The popular AU58 grade allows a collector to form an attractive set for little cash when compared to a set of Choice or Gem coins. We expect spirited bidding. NGC ID# 24PN, PCGS# 6568

3415 1916-S MS63 PCGS. CAC. The lustrous surfaces of this Select example reveal small, intermingled splashes of toning. Among the hues present are golden-orange, peach, and gray-blue. The centers reveal an incompleteness of strike. NGC ID# 24PN, PCGS# 6568

1916-S Walking Liberty Half, MS64 First-Year Obverse Mintmark

3416 1916-S MS64 NGC. The 1916-S has one of the lowest mintages of the type, and is the most difficult of the introductory year issues to acquire in Mint State. This intricately struck and fully lustrous near-Gem possesses dappled light chestnut toning, and both sides are devoid of relevant contact.
Ex: FUN Signature (Heritage, 1/2007), lot 4653. NGC ID# 24PN, PCGS# 6568

3417 1917 MS65 PCGS. CAC. Hints of almond-gold toning are present on this lustrous Gem representative. A few tiny flecks of dark gray-green color also appear. The coin displays a pleasing level of detail. A few tiny marks on the face pose limited distraction, if any. NGC ID# 24PP, PCGS# 6569

3418 1917 MS66 PCGS. This high-mintage issue is a popular one for those seeking an early Walker for type purposes. This half exhibits thick mint frost beneath the gray-golden patina that evenly covers each side. Sharply struck except on the skirt lines, as usual. Few examples have surpassed the MS66 grade, with PCGS and NGC combined having awarded higher grades to only 7 examples (10/13). NGC ID# 24PP, PCGS# 6569

3419 1918 MS63 PCGS. This nicely struck early Walker displays potent luster and light caramel-gold toning. Well preserved aside from a solitary light hair-thin mark on the eagle's breast. Encased in an old green label holder.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24PV, PCGS# 6574

3420 1918-D AU58 PCGS. A trace of high point wear appears on each side of this splendid Walking Liberty half dollar, as the grade suggests. Nearly full luster shines through delicate champagne toning. NGC ID# 24PW, PCGS# 6575

3421 1918-S MS62 PCGS. Typical design weakness appears at the centers of this pleasing Mint State piece, with brilliant ivory luster and good overall eye appeal. NGC ID# 24PX, PCGS# 6576

3422 1919-D AU50 ANACS. A lightly circulated example of this early series issue, the design elements show some light wear on the high points and the lustrous fields are free of large or distracting abrasions.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24PZ, PCGS# 6578

Scarce 1919-D Half Dollar Uncirculated Sharpness

3423 1919-D — Cleaning — PCGS Genuine. Unc Details. The 1919 branch mint issues rank among the most important conditional rarities of the Walker series. The present almond-gold and stone-gray representative has unbroken satin luster and is void of visible marks. Liberty's waist shows incompleteness of strike, and thorough rotation beneath a light reveals only trivial hairlines.

3424 1920 MS64 PCGS. CAC. Shades of peach, gold, and tan, with hints of faint gray-blue blanket the surfaces of this near-Gem example. Luster emerges beneath the patina, particularly on the reverse. NGC ID# 24R3, PCGS# 6580

3425 1921 VF30 PCGS. CAC. The 1921 has the second lowest circulation strike mintage of the Walking Liberty half dollar series, with a mintage of only 246,000 pieces. This pleasing VF specimen displays silver-gray surfaces on the obverse, with the reverse exhibiting attractive gold toning. There are no marks worthy of mention. NGC ID# 24R6, PCGS# 6583

3426 1921 VF35 PCGS. CAC. The 1921 Walking Liberty half dollar is a scarce and valuable coin, even in circulated grades. This Choice VF example displays light gray surfaces with hints of green. The wear is even and there are no marks of any consequence.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24R6, PCGS# 6583

**1921-S Half Dollar
AU55 Sharpness**

- 3427 1921-S — Repaired, Whizzed — ANACS. AU55 Details.** The right obverse field is smoothed, as is the field between the eagle's leg, and the eagle's rock near the LAR in DOLLAR. The center of the front wing is repaired. This pearl-gray half dollar displays partial luster. The low mintage 1921-S is the series key in XF and higher grades. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24R8, PCGS# 6585*

- 3428 1928-S MS63 PCGS.** Boldly lustrous surfaces provide this Select example with immediate eye appeal. Scattered tiny spots of toning are present on both sides in shades of golden-brown. Several die cracks appear on the reverse. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24RB, PCGS# 6588*

- 3429 1929-S MS63 NGC.** Broad watery luster with peripheral gold and violet accents that extend in dots into the centers. Softly struck as usual but a coin of significance, coming as it does from an issue of just over 1.9 million pieces. NGC ID# 24RD, PCGS# 6590

- 3430 1929-S MS63 PCGS.** Shimmering luster adds to the attractiveness of this Select representative. The piece is virtually untoned, with only a few scattered hints of light gold toning present. Scattered marks, including a few on the sun, contributed to the grade. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24RD, PCGS# 6590*

- 3431 1934-D MS65 NGC.** Large D. Clearly scarcer than its Small D counterpart. Lightly freckled golden-brown and cobalt-blue toning accompanies the margins. Lustrous and attractive with one faint graze above the motto. Sharply struck except on Liberty's cheek. In a former generation holder. NGC ID# 24RG, PCGS# 6593

- 3432 1934-D MS65 PCGS.** Small D. This lustrous better date half dollar has delicate golden patina and an exceptionally smooth reverse. The obverse exhibits minor field contact and a bold strike aside from incompleteness on Liberty's cheek. NGC ID# 24RG, PCGS# 6593

- 3433 1934-D MS65 PCGS.** Lustrous and generally well struck, although slightly weak on Liberty's head and hand, as is often the case. A small amount of speckled, multicolored patina occurs near the obverse and reverse peripheries. Several minor abrasions are located in the right obverse field, but they are not a hindrance to the Gem grade assessment. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24RG, PCGS# 6593*

- 3434 1934-S MS64 PCGS. CAC.** Silver-gray with hints of gold on interiors that give way to yellow and orange at the margins. Liberty's branch hand shows the outline of a thumb. NGC ID# 24RH, PCGS# 6594

**1934-S Walking Liberty Half, MS65
Key to the Middle Series**

- 3435 1934-S MS65 PCGS.** The 1934-S Walking Liberty half dollar claims a mintage of 3.6 million pieces, and it is the most elusive issue in the popular Middle series. This impressive Gem offers well-detailed design elements and bright satiny mint luster under shades of ice-blue and champagne-gold toning. Housed in a green label holder. NGC ID# 24RH, PCGS# 6594

1934-S Half Dollar, Lightly Toned MS65

- 3436 1934-S MS65 PCGS.** Swirling honey-gold color graces the lustrous surfaces of this pleasing Gem. A hint of rose adds depth and eye appeal. Some typical softness on the branch hand detracts little from this satisfying Depression-era issue. Attractive with remarkably clean fields and coruscating luster. NGC ID# 24RH, PCGS# 6594

**1935 Walking Liberty Half, MS67
Extremely Rare in Finer Grades**

- 3437 1935 MS67 PCGS.** The 1935 Walking Liberty half dollar was produced in large numbers, and the date is easily located in lower Mint State grades. At the MS66 level the issue becomes scarce, and coins in MS67 condition are decidedly rare. This spectacular Superb Gem exhibits sharply detailed design elements and well-preserved brilliant surfaces that radiate vibrant mint luster. Population: 35 in 67 (1 in 67+), 1 finer (10/13). NGC ID# 24RJ, PCGS# 6595

- 3438 1935-D MS65 PCGS.** An important issue from a mintage of just 3 million coins, this Gem Denver Mint half dollar displays boldly lustrous and largely brilliant surfaces, with a few splashes of gold toning present, primarily at the upper obverse. NGC ID# 24RK, PCGS# 6596

**1935-S Walking Liberty Half, MS65
Thick Mint Luster**

- 3439 1935-S MS65 PCGS. CAC.** A well-struck Gem, housed in a green label holder, that offers considerable luster and eye appeal. Subtle golden tints visit parts of the fields, while the rest of the coin remains silver-white. Charming eye appeal for this challenging S-mint issue.
Ex: *FUN Signature* (Heritage, 1/2009), lot 6036. NGC ID# 24RL, PCGS# 6597

1935-S Half Dollar, Lightly Toned MS66

- 3440 1935-S MS66 PCGS.** The frosted finish glows as the coin is rotated beneath a light source, and the surfaces display a touch of ever-so-light reddish-gold toning. The devices are well-defined but not quite fully struck up, with slight softness noted on the central devices of each side.
Ex: *Palm Beach Signature* (Heritage, 3/2005), lot 5874. NGC ID# 24RL, PCGS# 6597

- 3441 1936-S MS66 PCGS.** Light gunmetal-blue and wheat-gold toning graces lustrous and exquisitely smooth surfaces. A well struck and imposing Premium Gem. A costly acquisition any finer. Encased in an old green label holder. NGC ID# 24RP, PCGS# 6600

- 3442 1936-S MS66 PCGS. CAC.** The design elements of this impressive Premium Gem are sharply detailed throughout and the well-preserved lustrous surfaces show hints of champagne-gold toning. PCGS has graded eight numerically finer examples (10/13). NGC ID# 24RP, PCGS# 6600

**1936-S Half Dollar, MS67
Frosty, Silver-White Surfaces**

- 3443 1936-S MS67 NGC.** The frosty silver-white surfaces on this Superb Gem 1936-S half dollar show no trace of toning and are devoid of any mentionable marks, putting this piece in a small minority. The strike is bold overall, save for on Liberty's branch hand. A top-notch example of this conditional rarity. Census: 15 in 67, 0 finer (10/13). NGC ID# 24RP, PCGS# 6600

- 3444 1937 MS67 NGC.** An impressive Superb Gem, this 1937 half dollar exhibits rich olive-gold toning over frosty mint luster with excellent eye appeal. Census: 80 in 67 (1 in 67+, 3 in 67 ★, 1 in 67+★), 2 finer (10/13). NGC ID# 24RR, PCGS# 6601

- 3445 1937 MS67+ NGC. CAC.** A gorgeous high-end Superb Gem representative, this coin possesses boldly lustrous surfaces, a pleasing strike, and subtle hints of champagne toning. A few tiny toning freckles are scattered across the reverse. Census: 1 in 67+, 3 in 67 ★, 1 in 67+★, 2 finer (10/13). NGC ID# 24RR, PCGS# 6601

- 3446 1937-D MS64 NGC.** A scarce issue among the "short set" years of Walking Liberty half dollars, the 1937-D is overshadowed by the low mintage 1938-D. This frosty Mint State piece has brilliant silver luster with wispy gold toning. NGC ID# 24RS, PCGS# 6602

- 3447 1937-D MS66 PCGS.** Pastel blue and canary-gold patina with a touch of tan graces the shining surfaces of this enticing Premium Gem. Solidly struck for this Denver issue with carefully preserved central devices. PCGS has graded 41 numerically finer examples (10/13). NGC ID# 24RS, PCGS# 6602

- 3448 1937-S MS66 PCGS.** This glowing Premium Gem has amazing luster with frosty and untuned silver surfaces. Rarely found finer, as PCGS has only certified 26 nicer examples (11/13). NGC ID# 24RT, PCGS# 6603

- 3449 1937-S MS66 PCGS.** The 1937-S is a scarcer issue among the dates and mintmarks from the 1930s. Gleaming luster emanates from this Premium Gem example. Scattered toning includes lovely shades of gold and lavender. NGC ID# 24RT, PCGS# 6603

- 3450 1937-S MS66+ PCGS. CAC.** Frosty with the faintest hints of peripheral golden color set against pale interiors. A touch softly struck but impressively preserved. PCGS has graded just 26 coins as MS67 or finer (10/13). NGC ID# 24RT, PCGS# 6603

**1937-S Half Dollar, MS67
Condition Rarity**

- 3451 1937-S MS67 PCGS.** This Superb Gem 1937-S half dollar is among the finest few dozen certified of the issue at PCGS and NGC combined. Areas of toning appear on both sides of this lustrous lovely piece, with the colors including shades of red-brown, olive-green, orange, rose-gray, and tan. Population: 26 in 67 (1 in 67+), 0 finer (10/13). NGC ID# 24RT, PCGS# 6603

1937-S Half, Sharply Struck Superb Gem

- 3452 1937-S MS67 PCGS.** The 1937-S is a scarcer issue among the dates and mintmarks from the 1930s. A few dozen Superb Gems are known, but none have been certified finer. As usual, this example has thick, swirling mint frost. The piece displays brilliant, untuned surfaces on both sides. Sharply, but not quite fully struck. Population: 26 in 67 (1 in 67+), 0 finer (10/13). NGC ID# 24RT, PCGS# 6603

- 3453 1938-D MS65 PCGS.** A mere wisp of tan toning visits this lustrous and carefully preserved Gem. The strike is solid except for blending on the branch hand. The low mintage 1938-D is a perennial collector favorite. Housed in an old green label holder. NGC ID# 24RV, PCGS# 6605

- 3454 1938-D MS66 PCGS.** Attractive satin luster provides this Premium Gem example with a pleasing appearance. Scattered areas of toning, primarily on the obverse, include shades of gold, with hints of lavender and pink. NGC ID# 24RV, PCGS# 6605

- 3455 1938-D MS66 NGC.** A brilliant and nearly pristine example of the popular low mintage issue. The obverse field displays myriad die polish lines. The strike is good except on the branch hand. Ex: Palm Beach Signature (Heritage, 3/2006), lot 1558, which realized \$1,725. NGC ID# 24RV, PCGS# 6605

- 3456 1939 MS67+ PCGS. CAC.** Vibrant luster and scattered areas of toning, primarily at portions of the outer edges, provide this well struck high-end Superb Gem with strong eye appeal. The toning includes shades of gold, orange, and red. Population: 19 in 67+, 26 finer (10/13). NGC ID# 24RW, PCGS# 6606

- 3457 1939 MS67+ PCGS. CAC.** Largely gold-toned with smaller areas of silver-pink and magenta. Impressively preserved and broadly lustrous, though a touch of the usual softness affects the high points. NGC ID# 24RW, PCGS# 6606

- 3458 1939-D MS67 PCGS. CAC.** Potent luster provides this Superb Gem representative with strong immediate eye appeal. The surfaces are brilliant and untuned aside from areas of subtle gold toning at the rims. Population: 66 in 67 (2 in 67+), 1 finer (10/13). NGC ID# 24RX, PCGS# 6607

- 3459 1940-S MS66 PCGS. CAC.** Rich mint luster and virtually untuned surfaces provide this Premium Gem representative with strong visual appeal. Only 7 examples have achieved higher numeric grades from PCGS (10/13). NGC ID# 24S2, PCGS# 6610

- 3460 1941-S MS66 PCGS.** Boldly lustrous surfaces provide this Premium Gem example with outstanding visual appeal. A few scattered splashes of red and golden-brown toning are present on this brilliant piece. PCGS has awarded higher numeric grades to only 7 examples (10/13). NGC ID# 24S5, PCGS# 6613

- 3461 1941-S MS66 PCGS.** The '41-S is the key to the short set and a desirable acquisition in Gem or finer grades. A lovely Premium Gem example, this coin reveals scattered toning, primarily at the outer edges. Among the colors present are forest-green, dark brown, and olive-green. PCGS has awarded higher numeric grades to only 7 examples (10/13). NGC ID# 24S5, PCGS# 6613

**1941-S Walking Liberty Half, MS66+
Condition Rarity, Only Seven Finer at PCGS**

- 3462 1941-S MS66+ PCGS.** The 1941-S Walking Liberty half is the foremost condition rarity from the 1940s in the series. A lustrous high-end Premium Gem example, this coin reveals areas of subtle faint gold color. Minor incompleteness of strike is present at the centers. Population: 28 in 66+, 7 finer (10/13). NGC ID# 24S5, PCGS# 6613

**1941-S Half Dollar, MS66+
Lovely Pastel Toning**

- 3463 1941-S MS66+ PCGS.** An impressive Premium Gem with an average strike, this pastel toned piece has virtually perfect surfaces under lovely gold, turquoise, and iridescent toning with ivory brilliance at the central obverse and across much of the reverse. NGC ID# 24S5, PCGS# 6613

- 3464 1942-S MS66 PCGS.** Trumpet tail S. A splendidly preserved representative that boasts booming luster and a hint of straw-gold toning. The portrait high points show blending usual for an S-mint wartime Walker. NGC ID# 24S8, PCGS# 6617
- 3465 1942-S MS66+ PCGS. CAC.** Trumpet Tail S. An essentially brilliant wartime Walker with outstanding preservation. The fields are remarkably close to immaculate, as are the devices. The strike is above average for a San Francisco issue of the era, with only minor softness on the branch hand. PCGS has graded just two coins finer (10/13). NGC ID# 24S8, PCGS# 6617
- 3466 1942-S MS66+ PCGS. CAC.** Trumpet tail S. A magnificently preserved example that has peripheral golden toning and a crisp strike on the skirt lines. The branch hand and cheek display softness associated with the San Francisco facility. NGC ID# 24S8, PCGS# 6617
- 3467 1944-D MS67 PCGS. CAC.** Rich satin luster adds to the eye appeal of this Superb Gem example. Areas of toning are present, primarily at the outer edges. Among the colors appearing are yellow, orange, red, and green on the obverse. The reverse reveals hints of soft blue and lavender. The centers exhibit a minor incompleteness of strike. A sole example, certified by NGC, has achieved a higher numeric grade (10/13). NGC ID# 24SD, PCGS# 6622
- 3468 1946 Doubled Die Reverse MS64 PCGS. CAC. FS-801.** The eagle's plumage is strongly die doubled. A lustrous near-Gem of this desirable *Guide Book* variety. Only a hint of gold toning visits the minimally marked and nicely struck surfaces. PCGS# 6632
- 3469 1946 Doubled Die Reverse MS65 PCGS. CAC. FS-801.** The only Walking Liberty die variety listed in the *Guide Book*, FS-801 is underrated relative to its scarcity and significance. This lustrous and nicely struck Gem has unmarked surfaces and peripheral gold and lime patina. Population: 16 in 65, 6 finer (10/13). PCGS# 6632

PROOF WALKING LIBERTY HALF DOLLARS

- 3470 1936 PR64 PCGS.** The 1936 proof half is always popular as the first year of the resumption of proof coinage and the lowest mintage in the series. This is an attractive example that shows remarkably bright reflectivity in the fields, notable in the context of the series. The coin displays light golden-brown patina, a bit deeper around the margins. NGC ID# 27V4, PCGS# 6636
- 3471 1936 PR64 NGC.** Wispy champagne toning is limited to the borders on each side of this Choice proof 1936 Walking Liberty half dollar. This is the first of only seven proof issues in the series. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 27V4, PCGS# 6636

1936 Walking Liberty Half Untoned Gem Proof

- 3472 1936 PR65 PCGS.** The premier proof issue in the Walking Liberty half dollar series, the 1936 is also the key to the proofs of this type with just 3,901 pieces produced. Razor sharp throughout, both sides are smooth with a glowing, reflective finish. A completely snow-white appearance greets the viewer. NGC ID# 27V4, PCGS# 6636

- 3473 1937 PR66 PCGS.** A splash of steel toning appears on the otherwise brilliant obverse of this Premium Gem proof, with dappled iridescent toning over the entire reverse. An important opportunity for a date or type collector. NGC ID# 27V5, PCGS# 6637
- 3474 1937 PR66 PCGS. CAC.** A second-year Premium Gem proof with light gold-to-gray toning that is deepest at the margins, particularly on the obverse. Well-defined and attractive. NGC ID# 27V5, PCGS# 6637
- 3475 1938 PR67 PCGS. CAC.** Faint iridescent almond-gold and ice-blue tints embrace this pristine and razor-sharp proof Walker. Strong luster further enhances the eye appeal. PCGS has awarded higher numeric grades to a mere 12 examples (10/13). NGC ID# 27V6, PCGS# 6638
- 3476 1939 PR65 PCGS.** A lovely Gem with hints of amber toning over the deeply mirrored fields. This example has boldly executed design motifs and first-rate eye appeal. NGC ID# 27V7, PCGS# 6639
- 3477 1939 PR67 NGC. CAC.** Various shades of light gold toning add to the eye appeal of this Superb Gem example. Strong luster is an additional attribute of this nicely struck piece. NGC ID# 27V7, PCGS# 6639
- 3478 1940 PR67 PCGS. CAC.** Medium-intensity toning covers both sides of this Superb Gem proof Walker. Boldly struck and well-preserved, a charmer from the first Walking Liberty half dollar issue to have a five-figure mintage. NGC ID# 27V8, PCGS# 6640

1940 Walking Liberty Half, PR68 Lightly Toned and Fully Struck

- 3479 1940 PR68 NGC. CAC.** The full proof strike is only one of many positive attributes on this high-end Superb Gem proof 1940 Walking Liberty half dollar. The surfaces are largely silver-gray but show hints of rose and mint patina in the fields, heavier near the rims. Even the wide-open right obverse field appears mark-free. A great type example. Census: 56 in 68 (4 in 68 ★), 0 finer (10/13). NGC ID# 27V8, PCGS# 6640

1941 Walking Liberty Half, PR68 Fully Struck and Appealing

- 3480 1941 PR68 NGC.** This Superb Gem proof 1941 half dollar boasts generous eye appeal throughout both sides, a function equally of the lack of mentionable contact and a full strike. The surfaces show light toning accents in rose and gold, a coin of unimprovable aesthetics and nearly unimprovable grade. Census: 74 in 68 (18 in 68 ★), 1 finer (10/13). NGC ID# 24SP, PCGS# 6641

**1942 Walking Liberty Half, PR68
Razor-Sharp, Colorful, and Eye-Appealing**

- 3481 1942 PR68 NGC.** This immaculate Superb Gem proof 1942 Walking Liberty half dollar boasts a razor-sharp strike, with gorgeous tinges of jade and aqua as the coin is tilted under a light. There is no obvious contact, but the eye appeal is blatant for the many enthusiasts of the series. NGC ID# 27V9, PCGS# 6642

**1942 Walking Liberty Half, PR68
Only Four Finer Coins at NGC**

- 3482 1942 PR68 NGC.** A virtually perfect coin, this piece exhibits fully struck design elements and impeccably preserved surfaces, with deeply mirrored brilliant fields adding to the exceptional eye appeal this example possesses. Areas of toning include rich shades of yellow, red, and green. Only four examples have achieved higher numeric grades from NGC (10/13). NGC ID# 27V9, PCGS# 6642

**1942 Walking Liberty Half Dollar, PR68
Final Proof Walking Liberty Issue**

- 3483 1942 PR68 NGC.** A PR68 example from the final year of the proof Walker, wartime production demands curtailed the Mint's proof offerings after 1942. This piece exhibits a strong degree of design definition. Scattered areas of toning include shades of tan, gold, and red-brown. NGC ID# 27V9, PCGS# 6642

FRANKLIN HALF DOLLARS

**1949-D Half Dollar, MS66 Full Bell Lines
Distinctive Eye Appeal**

- 3484 1949-D MS66 Full Bell Lines PCGS.** Softly frosted luster is luminous through considerable patina, medium-gray on the obverse with a gold-gray reverse and deep violet rim toning that is most obvious in a crescent centered to the right of the eagle beside the Liberty Bell. Tiny marks at and below the bell's full lines contribute to the grade. Population: 31 in 66 Full Bell Lines, 0 finer (10/13). NGC ID# 24SU, PCGS# 86654

**1949-D Half Dollar, MS66 Full Bell Lines
Challenging Second-Year Issue**

- 3485 1949-D MS66 Full Bell Lines PCGS.** The obverse has softly rolling luster with a mix of golds and grays. The reverse is more brightly colored with a broad canary-yellow interior and blue marginal toning. The clear lines on the Liberty Bell make that side the more important. Population: 31 in 66 Full Bell Lines, 0 finer (10/13). NGC ID# 24SU, PCGS# 86654

- 3486 1951 MS66+ Full Bell Lines PCGS. CAC.** A sensational Premium Gem with a bold strike and frosty mint luster. Both sides of this piece have rich gold and iridescent peripheral toning, the central obverse brilliant and the central reverse exhibiting a lavender tint. PCGS has only certified one finer example (10/13). NGC ID# 24SY, PCGS# 86658

- 3487 1952-S MS66 Full Bell Lines PCGS.** This Premium Gem example with Full Bell Lines features attractive peripheral toning. The obverse includes shades of golden-orange, red-brown, red, lime-green, plum, and olive-green. The reverse center remains largely untuned, with areas of toning at the outer edges including yellow-gold, violet, red, orange, and pink. Areas of incompleteness of strike are present on the reverse. Population: 37 in 66 Full Bell Lines, 0 finer (10/13). NGC ID# 24T5, PCGS# 86663

- 3488 1953 MS66 Full Bell Lines PCGS.** Appealing toning provides this Premium Gem example exhibiting Full Bell Lines with an outstanding appearance. The colors include shades of teal, plum, and golden-brown. Additional hues appear on the reverse, including yellow, copper, green, and pale blue. Scattered marks are present, but pose minimal distraction due to the toning. Population: 32 in 66 Full Bell Lines, 0 finer (10/13). NGC ID# 24T6, PCGS# 86664

- 3489 1953 MS66 Full Bell Lines PCGS.** This frosty Premium Gem exhibits brilliant silver luster beneath splendid gold and iridescent Mint Set toning. A bold strike adds to its numismatic importance. Population: 32 in 66 Full Bell Lines, 0 finer (10/13). NGC ID# 24T6, PCGS# 86664

3490 1953 MS66 Full Bell Lines PCGS. The obverse shows mint set toning, pale blue and pink hues predominating, with the reverse exhibiting a similar appearance but a bit mottled in texture, and adding mint and powder-gray hues as well. Generous luster appears on each side, and the few scattered, light marks are consistent with the grade. Population: 32 in 66 Full Bell Lines, 0 finer (10/13). NGC ID# 24T6, PCGS# 86664

3491 1957-D MS67 NGC. Exquisite cherry-red, jade-green, peach-gold, and stone-gray invigorate this lustrous and virtually pristine Superb Gem. The 1957-D is commonplace in typical Uncirculated grades but emerges as a significant conditional rarity in the present quality. Census: 5 in 67, 0 finer (10/13). NGC ID# 24TF, PCGS# 6673

3492 1958-D MS67 Full Bell Lines PCGS. Both sides of this example display rich toning in shades of the rainbow, with the right obverse field and the lower reverse being particularly attractive. This Superb Gem example earned the important Full Bell Lines designation. Population: 33 in 67 Full Bell Lines, 0 finer (10/13). NGC ID# 24TH, PCGS# 86675

PROOF FRANKLIN HALF DOLLARS

**1950 Franklin Half, PR67+
Pristine Brilliant Surfaces**

3493 1950 PR67+ NGC. CAC. This high-end Superb Gem displays razor-sharp definition on all design elements and the fields are brightly reflective, with a touch of frosty mint luster. The surfaces are completely brilliant and close inspection with a loupe reveals no mentionable surface flaws. NGC has graded only three numerically finer examples (10/13). NGC ID# 27VA, PCGS# 6691

3494 1951 PR66+ Cameo PCGS. CAC. An attractive degree of contrast between the fields and the devices along with brilliant surfaces and rich luster provide this high-end Premium Gem with strong visual appeal. A tiny spot of toning appears above the N of IN on the obverse. Population: 1 in 66+ Cameo, 8 finer (10/13). NGC ID# 27VB, PCGS# 86692

3495 1961 Doubled Die Reverse PR64 PCGS. FS-801. A near-Gem specimen of the classic naked-eye Franklin half dollar doubled die, an error rendered all the more embarrassing by its existence on a proof coin. Both sides are minimally toned with a faint suggestion of contrast. PCGS# 6689

PROOF KENNEDY HALF DOLLARS

3496 1964 PR70 PCGS. Type Two Reverse. A satiny, brilliant, fully struck, and immaculate specimen of the introductory year Kennedy half. The sole Philadelphia proof issue. Population: 29 in 70 (10/13). NGC ID# 24WF, PCGS# 6800

3497 1981-S Type Two PR70 Ultra Cameo NGC. The 1981 proof Kennedy half dollar with Type Two mintmark is more elusive than its Type One counterpart. This technically perfect example exhibits profound cameo contrast between the deeply mirrored fields and the richly frosted devices. NGC ID# 24WS, PCGS# 96822

COLONIALS

Oak Tree Sixpence, Fine 15, Noe-20 or Noe-21
Overstruck on a Noe-10 Oak Tree Shilling

- 3498** 1652 Oak Tree Sixpence — Overstruck on an Oak Tree Shilling — Fine 15 PCGS. Noe-20 or Noe-21, R.5 to R.6. 33.95 gn. Designated by PCGS as “Flipover Double Struck,” but the initial strike was as a Noe-10 Oak Tree shilling, the “Ghost Tree” variety. On the sixpence obverse, portions of the TH (in MASATHVSETS) and nearby dentils from the shilling are visible. On the sixpence reverse, much of the 1652 and AND (in ENGLAND) is evident. The piece was first struck as a shilling, then apparently found underweight, struck with sixpence dies, and clipped at the Boston Mint to an appropriate weight for that denomination. Curiously, it is easier to attribute the undertype than the overstrike, since the first S in MASATHVSETS is illegible, and this letter distinguishes Noe-20 from Noe-21. Because the shilling strike created a wave on the piece, the sixpence strike against the obverse die occurred in two stages, delivering the upper and lower portions of the design but not the central area featuring the tree and the diagnostic first S. This is a silver-gray example with a few ancient scratches above the date and below the denomination. Both denominations are listed on page 39 of the 2014 *Guide Book*. PCGS# 19

Small Planchet Pine Tree Shilling
XF40, Noe-16, Early Die State

- 3499** 1652 Pine Tree Shilling, Small Planchet XF40 PCGS. Noe-16, W-835, Salmon 2-B, R.2. An early die state without breaks in the branches. This is a lovely Pine Tree type coin with pearl-white motifs and smooth medium gray fields. The strike is pleasing aside from incompleteness at 6 o'clock on each side. The centering is good with all letters intact. Listed on page 39 of the 2014 *Guide Book*. PCGS# 24

St. Patrick Farthing, W-11500, AU53
Evenly Struck and Unblemished

- 3500** (1670-75) St. Patrick Farthing AU53 NGC. Breen-208, W-11500. Slightly off-center toward 11:30 though all legends are intact. The golden-brown surfaces are unmarked. The brass splasher appears oversized and extends well below the crown. The obverse field is swollen due to a sunken obverse die. A high grade for this centuries-old issue. Listed on page 41 of the 2014 *Guide Book*. PCGS# 42

1721-H Copper Sou, Near-Mint
French Colonies, W-11830

- 3501** 1721-H French Colonies Copper Sou AU58 PCGS. CAC. W-11830. A chocolate-brown sou with traces of faded red in protected areas of the obverse. Devoid of marks, and ample luster fills the legends and motif. The planchet is thin near 3 o'clock, and that retains the planchet texture instead of NOM. Die crumbling is noted near EDICTU and beneath the H (Rochelle) mintmark. Listed on page 53 of the 2014 *Guide Book*. PCGS# 158632

1785 Nova Constellatio Copper, MS63 Brown
Small Date, Crosby 2-A
Only Example Certified as Mint State

3502 1785 Nova Constellatio Copper, Pointed Rays, Small Date MS63 Brown PCGS. CAC. Crosby 2-A, W-1885, High R.4. Crosby 2-A is the sole Small Date 1785 Nova Constellatio die variety, and as such merits its own *Guide Book* entry. The variety is very scarce, particularly relative to Crosby 3-B, and is typically encountered in VF condition. PCGS has certified just four examples in grades above XF40, and only the present piece has been graded as Mint State by that service. The three AU pieces are graded AU53, AU55, and AU58, and each has appeared in Heritage auctions the past ten years. The AU55 sold for \$8,050 as lot 1975 in our May 2008 Long Beach Signature, and the AU58 realized \$10,350 as lot 3008 in our January 2006 FUN Signature. The present lot, the lone certified Mint State example, is certain to bring a much higher price. NGC has certified just four examples, none graded finer than XF40. This favorably compares with the 84 1785 Large Date, Pointed Rays and 15 1785 Large Date, Blunt Rays pieces certified by that firm.

The origins of the Nova Constellatio series remains mysterious. The design closely resembles the extremely rare 1783 bit, quint, and mark patterns ordered by Pennsylvanian financier Robert Morris. Per Whitman's *Colonial Encyclopedia*, "the Nova Constellatio copper issues were struck by a private mint in Birmingham, England," yet there is no definitive proof of that. The absence of high grade examples from the holdings of Condor token collectors is also curious. In any event, Nova Constellatios were plentiful in America by the time of pre-Constitution state coinage, since the pieces were used as hosts by Connecticut, New Jersey, and Vermont coppers.

This is an exceptional medium brown example that has satin luster and mark-free surfaces. The strike is incomplete near the all-seeing eye and opposite at the top of US, but the impression is otherwise crisp. One small spot on the upper left loop of the U in US provides an identifier. Listed on page 54 of the 2014 *Guide Book*. Population: 1 in 63 Brown, none finer (10/13). PCGS# 823

Rhode Island Ship Token, Near-Mint
Copper, No Wreath, W-1730

- 3503** 1778-1779 Rhode Island Ship Token, No Wreath, Copper AU58 PCGS. CAC. Betts-562, W-1730, R.3. An evenly struck example with medium brown toning in open areas and lighter olive-gold shades in design recesses. Moderately granular and only lightly abraded. VLUPTENDE is removed from the obverse exergue, as seen on nearly all examples sans wreath. Listed on page 50 of the 2014 *Guide Book*. PCGS# 579
-

Rare Pewter Rhode Island Ship Token
Wreath Below Ship, XF45, W-1745

- 3504** 1778-1779 Rhode Island Ship Token, Wreath Below, Pewter XF45 PCGS. CAC. Betts-563, W-1745, High R.6. Though copper Rhode Island Ship tokens appear with some frequency at auction, pewter examples are decidedly rare. This moderately circulated piece has pearl-white luster in design crevices and deeper cream-gray toning on high points and open fields. Free from relevant marks. Listed on page 50 of the 2014 *Guide Book*. PCGS# 585
-

Red Gem Kentucky Token
LANCASTER Edge, W-8810

- 3505** (1792-94) Kentucky Token, LANCASTER Edge MS65 Red PCGS Secure. Breen-1156, W-8810, R.5. A splendid orange-red Gem with slight mellowing on the high points and the lower right obverse field. CAUSE is well struck, unusual for a Kentucky token. In fact, the strike is essentially full, though a loupe reveals minor obverse mint-made planchet lines. The sole post-strike imperfection is wispy field mark between the scroll and THE. Edge-lettered Kentucky tokens are significantly scarcer than the Plain Edge W-8800. Listed on page 75 of the 2014 *Guide Book*. Population: 8 in 65 Red, none finer (10/13). PCGS# 625
-

HALF CENTS

1793 C-2, B-2 Half Cent
Usual Rotated Reverse

3506 1793 Fine 12 NGC. C-2, B-2, R.3. The obverse die appeared on the first two varieties of 1793, and the reverse die appeared on C-2 and C-3. The rusted obverse die appears in a later die state than on C-1, and the perfect reverse is an earlier die state than its appearance with C-3. This pleasing piece has attractive olive-brown surfaces with slight roughness that fails to detract from the eye appeal. The reverse is rotated 45 degrees clockwise. Our EAC grade VG8. NGC ID# 2222, PCGS# 1000

1793 C-1, B-1 Half Cent, VF25
The First 1793 Half Cent

3507 1793 VF25 NGC. C-1, B-1, R.3. Both Roger Cohen and Walter Breen assigned variety number one to this die marriage, correctly identifying it as the first of four 1793 half cent varieties coined at the Philadelphia Mint. Many type collectors seek only first year of issue coins, and it is important, wherever possible, for those collectors to also seek the first variety of the first year. In this case, it is also the first variety of the denomination.

This lovely two-tone specimen exhibits light tan devices with deeper steel-brown field toning. The surfaces are pleasing with no marks of consequence. Our EAC grade Fine 15. NGC ID# 2222, PCGS# 1000

LARGE CENTS

1793 S-4, B-5 Cent, XF Details
Chain Design, With Periods

3508 1793 Chain Periods — Environment Damage — PCGS Genuine. XF Details. S-4, B-5, R.3. There are three distinctive types for the nation's first coins, the 1793 Chain cents. The Chain AMERI. variety was first, followed by the Chain AMERICA subtype, and concluding with the Periods variety that is offered here. Both sides of this sharply detailed Chain cent have light roughness with an ancient obverse scratch that is blended into its surroundings and virtually invisible. Distinct olive patina at the centers gradually changes to attractive lighter tan along the borders. This piece has sharp details and good overall eye appeal. Our EAC grade Fine 15. PCGS# 91341

**1793 S-11a, B-16a Wreath Cent, AU53
Final Vine and Bars Variety**

- 3509** 1793 Wreath, Vine and Bars, S-11a, B-16a, High R.4 AU53 PCGS. Ex: Holmes. This is one of those unusual situations where just about everyone agrees on the grade. Tom Reynolds, Bill Noyes, Bob Grellman, Dan Holmes, and Mark Borckardt all grade this specimen VF30, while Walter Husak preferred VF35. Just missing the census, Bill Noyes places this example in a tie for the eighth finest known specimen.

A transitional die marriage, the S-11a was the last Vine and Bars Edge Wreath cent minted. Lettered Edge planchets were soon in production, used for the last Wreath cents, S-11b and S-11c. The three subtypes were actually minted simultaneously from a single obverse and reverse die.

Pleasing light brown surfaces with some diagonal linear planchet flaws at the lower reverse. A few faint hairlines on each side suggest that this piece may have been cleaned at one time in its past. A small rim bruise is noted below the right ribbon end. Our EAC grade VF30.

Ex: Tom Reynolds (12/2002); Walter Husak (Heritage, 2/2008), lot 2010; Daniel W. Holmes (Goldberg Coins, 9/2009), lot 18; Wes Rasmussen (Heritage, 1/2013), lot 5515. NGC ID# 223H, PCGS# 1347

**1796 S-87, B-8 Cent, VF35
Liberty Cap Design**

- 3510** 1796 Liberty Cap VF35 PCGS. S-87, B-8, R.3. An imperfectly centered specimen, this Choice VF example has a wide border at the left and a narrow border at the right. Both sides are nicely detailed with smooth olive surfaces showing splashes of maroon, remaining from old corrosion. This is a lovely example of the elusive 1796 Liberty Cap issue. Our EAC grade Fine 15. NGC ID# 223V, PCGS# 1392

1811 S-287, B-1 Cent, AU58

- 3511** 1811 AU58 PCGS. CAC. S-287, B-1, R.2. Both sides have flowlines that extend the stars and letters to the border. An attractive near-Mint example of the scarce date Classic Head cent, this piece exhibits olive-brown surfaces with a few splashes of darker steel, and lighter tan in the protected areas. Scattered marks include a small cluster at the border outside stars 5 and 6. Our EAC grade AU50. NGC ID# 224U, PCGS# 1555

FLYING EAGLE CENT

1856 S-9 Flying Eagle Cent, AU58

- 3512 1856 AU58 PCGS. CAC. Snow-9.** A trace of friction on the eagle's breast and the crest of the front wing confirms momentary non-numismatic handling. However, the deep walnut-brown surfaces are mark-free save for a tick beneath the N in ONE. The strike is intricate and allows full definition on the veins of the cotton leaves. Though certified as a business strike within its old green label holder, S-9 is considered a proof variety by specialist Rick Snow. Examples were struck prior to the Civil War to meet demand from the increasing number of American numismatists. Until the advent of specialization in recent decades, the 1856 Flying Eagle cent was considered a passport to an advanced collection. PCGS# 2013

PROOF FLYING EAGLE CENTS

1856 Flying Eagle Cent, PR63
Snow-3, Original Striking

- 3513 1856 PR63 PCGS. Snow-3.** Though this coin is designated as a proof by PCGS, the Snow-3 variety is associated with original business strikes from 1856. Examples were given to Washington officials to demonstrate the new small cent. Many ended up in circulation, especially once 1857 and 1858 cents became plentiful. A majority of 1856 cents are Snow-9 proof restrikes, made circa-1859 to take advantage of the growing collector demand for the rare and historically significant issue. The present specimen was never spent and has acquired medium gold, olive, and gunmetal toning. The strike is crisp and the virtually unabraded fields are somewhat subdued. A partial wire rim is present on both sides. A lint mark resembling a sine wave on the eagle's leg provides an identifier. NGC ID# 227A, PCGS# 2037

1858 Flying Eagle Cent, PR64
Small Eagle, Snow-PR1

- 3514 1858 Small Letters PR64 NGC. Snow-PR1.** High Leaves Reverse. The Small Letters obverse is here combined with a High Leaves reverse to give the Snow-PR1 die combination, which also demonstrates a closed last A in AMERICA and light doubling on the top serif of the first S in STATES. The *Guide Book* estimates 200 proofs were struck of the Small Letters proofs, generally thought to have been the work of Assistant Engraver Anthony C. Paquet, of 1861 double eagle fame. If this were not a copper-nickel cent it would likely garner a Red and Brown designation, and it likely merits a Cameo as well for the remarkable contrast over unperturbed fields with light accents of rose and mint against tan prevailing in the fields. Census: 8 in 64, 8 finer (10/13). NGC ID# 227D, PCGS# 2043
-

INDIAN CENTS

1900 Indian Head Cent, MS67 Red
None Numerically Finer at Either Service

- 3515 1900 MS67 Red PCGS.** The 1900 Indian Head cent is one of the most challenging dates of the era to locate in higher Mint State grades despite a mintage of over 68,800,000 coins. The 1900 issue had a record high production for the series up to that point. Only 10 examples have achieved the MS67 Red level from PCGS and NGC combined, with neither service having awarded a higher numeric grade to a single example (10/13). A gorgeous Superb Gem, this coin exhibits lustrous surfaces, lovely copper-orange color, and a sharp strike. A few tiny flyspecks are present, but are not distracting. NGC ID# 228V, PCGS# 2207
-

1907 Indian Cent, MS67 Red
Among the Finest Certified Examples

- 3516 1907 MS67 Red PCGS Secure. CAC.** The 1907 Indian cent was produced in large numbers, with a reported mintage of more than 108 million pieces. For some reason the date is surprisingly difficult to locate in the highest Uncirculated grades and examples in MS67 condition are very rare. No specimens in higher numeric grades have been certified by either of the leading grading services. The present coin is a spectacular Superb Gem with well-detailed design elements and original red surfaces that show just a hint of crimson. Vibrant mint luster adds to the outstanding eye appeal and no mentionable distractions are evident. Population: 5 in 67 Red, 0 finer (10/13). NGC ID# 2294, PCGS# 2228
-

PROOF INDIAN CENTS

1864 Bronze Cent, PR64 Brown
Very Rare L on Ribbon Variety
Snow-PR2, Breen Plate Coin

3517 1864 L On Ribbon PR64 Brown NGC. Snow-PR2. Perhaps the most famous rarity of the Indian cent series, the proof L on Ribbon 1864 cent has a traditional mintage of just 20 pieces. Since about that many examples are known, it seems a somewhat greater quantity were struck. Snow writes, "by 1869 the coin was in demand enough to warrant someone at the Mint to strike additional pieces. This was probably done by Mint Assayer William DuBois, who worked as curator of the Mint Collection. An additional 10 specimens were struck using a refurbished obverse die and the regular proof Shallow N reverse die from the 1868-1871 period." Snow-PR2, identified by a die scratch beneath the Indian's jaw, is that restrike variety.

Snow lists a roster of 10 examples of PR2. The current lot is his #10, the plate coin in Breen's *Proof Encyclopedia*. For the past 20 years or so, it has been housed in a former generation "fattie" NGC holder. It has beautiful plum-red, orange-gold, and sea-green toning. The strike is full. Imperfections are limited to a tiny obverse strike-through near 12 o'clock and scattered minute carbon.

Ex: Lester Merkin; Auction '90 (*Stack's*, 8/1990), lot 46. NGC ID# 229G, PCGS# 2279

1864 Bronze Cent, PR64 Red and Brown
Very Rare L on Ribbon Variety
Snow-PR2

3518 1864 L On Ribbon PR64 Red and Brown NGC. Snow-PR2.

The proof 1864 L on Ribbon is the greatest *Guide Book* rarity of the Indian cent series, more elusive than either the Snow-1 1888/7 or 1873 Doubled LIBERTY. The traditional proof mintage is just 20 pieces, though the *Guide Book* places a plus sign after that figure, as it does with all bronze proof issues prior to 1874. NGC has certified just six examples in all grades. For many years, only one die variety (Snow-PR2) was associated with proofs, identified by a “long raised die line on neck ... just below the jaw” as described by Snow. Breen was the first to describe the diagnostic spine, in his 1977 *Proof Encyclopedia*. In 1984, he confirmed the existence of another die marriage (Snow-PR1) without the spine. In Rick Snow’s 1859-1859 Attribution Guide, he lists seven specimens known for Snow-PR1, another ten for Snow-PR2, and a presently unique example of Snow-PR3, which per Snow, “set a [then-]record price for any small cent when it sold in Heritage’s June 2002 Long Beach sale for \$132,000.”

The present specimen is housed in a former generation “fatty” holder and may be #6 in Snow’s PR2 roster, the “East Coast collection” coin “said to have been acquired in the 1950’s.” It has an obverse fleck of carbon at 3 o’clock that would identify it from a quality photograph. The strike is intricate and the reflective fields display only minimal carbon, including a small spot at the center of the third headdress feather. The obverse is orange-red, the reverse is yellow-gold, and both sides are moderately mellowed. An important opportunity to acquire this formidable rarity. NGC ID# 229G, PCGS# 2280

LINCOLN CENTS

1909-S VDB Cent, MS66 Red and Brown High-Grade Key Lincoln

- 3519 1909-S VDB MS66 Red and Brown NGC.** This example of the popular Lincoln cent key date appears just barely “over the border” into Red and Brown territory, chiefly due to some light brown on the reverse high points. The prevailing color is a moderate orange, and there is no mentionable carbon on the surfaces, which are uniformly well-struck. Census: 44 in 66 (3 in 66 ★) Red and Brown, 0 finer (10/13). NGC ID# 22B2, PCGS# 2427

1917-S Lincoln Cent, MS65 Red Only One Finer Coin at PCGS

- 3520 1917-S MS65 Red PCGS.** The original red surfaces of this attractive Gem have mellowed over the years and show elements of amber and lilac patina with a few microscopic specks of carbon. The design elements are sharply detailed and vibrant mint luster adds to the outstanding eye appeal. Population: 16 in 65 Red, 1 finer (10/13). NGC ID# 22BU, PCGS# 2503

1955/55 Lincoln Cent, MS64 Red and Brown Sought-After Doubled Die Obverse

- 3521 1955 Doubled Die Obverse MS64 Red and Brown NGC.** FS-101. Probably 3,000-4,000 examples of the 1955 Doubled Die Obverse cent survive in all grades, but the issue is definitely elusive in MS64 condition. The original red surfaces of this impressive Choice specimen show hints of light brown and lilac toning, with vibrant mint luster and a few scattered contact marks. Census: 97 in 64 (1 in 64+) Red and Brown, 15 finer (10/13). NGC ID# 22FG, PCGS# 2826

1960 Large Date Cent, MS67 Red Tied With One Other

- 3522 1960 Large Date MS67 Red PCGS.** There was a time not so long ago that most collectors paid little attention to the “modern” Lincoln Memorial cents. Now that many of those coins are half a century old, they have become important condition rarities. Such is the case with the 1960 Large Date cent, with only two examples certified MS67 Red by PCGS, and none finer (11/13). This Superb Gem has rich orange mint luster with a hint of pink, and sharp design motifs with bold details on both sides. NGC ID# 22FW, PCGS# 2860

1961-D Cent, MS67 Red Exceptional Color

- 3523 1961-D MS67 Red PCGS.** A magnificent orange-red Superb Gem. Free from contact aside from a single minuscule tick near the E in ONE. The strike is sharp aside from slight blending on the cheekbone and jaw of Lincoln and the central steps of the memorial. A strong lens is required to locate the nearly imperceptible carbon. Lincoln cent Registry Set demand is formidable for the finest certified pieces. Population: 4 in 67 Red, none finer (10/13). NGC ID# 22G2, PCGS# 2875

PROOF TWO CENT PIECES

1870 Two Cent Piece, PR66 Red None Finer in Full Red Proof

- 3524 1870 PR66 Red PCGS. CAC.** Deeply pooled, highly reflective fields reveal splashes of magenta amid liquid coppery surfaces, framed by a hint of sea-green along the rims. Full red proofs are highly prized and rare in this condition with just nine graded Premium Gem PR66 and one in PR66+ (11/13). This immaculate coin is housed in a green label holder and CAC-approved. A candidate for finest Proof Red known of this date. NGC ID# 274Z, PCGS# 3644

THREE CENT SILVER

1851-O Three Cent Silver, MS66
None Numerically Finer at PCGS

3525 1851-O MS66 PCGS. CAC. The 1851-O three cent silver has a mintage that is but a fraction of its Philadelphia Mint cousins, only 720,000 pieces. This was the first three cent piece produced in New Orleans or in any other branch mint and was the sole branch mint produced Type I trime. A pleasing Premium Gem example, this coin is largely brilliant. The reverse in particular reveals strong luster and displays areas of gold toning. Population: 18 in 66 (1 in 66+), 0 finer (10/13). NGC ID# 22YY, PCGS# 3665

1852 Type One Three Cent Silver, MS66+
Remarkable Eye Appeal

3526 1852 MS66+ PCGS. CAC. A gorgeous high-end Premium Gem representative, this coin displays lustrous, almost fully brilliant surfaces, with a few subtle hints of gold toning. Those attributes provide the piece with strong visual appeal. Faint roller marks appear at the center of the obverse. Population: 2 in 66+, 14 finer (10/13). NGC ID# 22YZ, PCGS# 3666

1862/1 Three Cent Silver, Sparkling MS67
Tied for Finest Certified

3527 1862/1 MS67 PCGS. CAC. FS-301. Attractive bulls-eye toning over semiprooflike surfaces. This jewel-like Superb Gem features golden-rose centers merging into vivid turquoise peripheries. The toning is remarkably alike obverse to reverse, and the overdate is distinct with an erroneous 1 hiding within the curve of the 2. CAC approved for quality; none graded higher by PCGS or NGC (11/13). NGC ID# 22ZC, PCGS# 3681

PROOF THREE CENT SILVER

1858 Trime, PR67
Only One Numerically Finer Certified

3528 1858 PR67 NGC. The Mint began its program of commercial proof set offerings in 1858 and the 2014 *Guide Book* estimates 210 proof three cent silver pieces were struck to satisfy collector demand. PCGS estimates about 100 examples are extant today in all grades, but few survivors can match the quality and appeal of the present coin. This magnificent Superb Gem is sharply detailed in most areas, but shows a touch of the often-seen weakness on the lower-left outline of the star. The mirrored surfaces show the diagonal die striations always seen on this issue, with no mentionable post-strike impairments. Light shades of champagne-gold patina enhance the eye appeal, with a few hints of violet. Census: 4 in 67 (1 in 67 ★), 1 finer (10/13). NGC ID# 27C5, PCGS# 3705

1863 Three Cent Silver, PR66 Cameo
Attractively Toned Reverse

- 3529 1863 PR66 Cameo NGC.** Both sides of this Premium Gem Cameo example exhibit attractive peripheral toning, with the colors being richer and more prevalent on the reverse. The hues include teal, plum, orange, yellow, and gold. The surfaces remain lustrous, with reflectivity present beneath the patina on the reverse. Several tiny as-made strike-throughs appear on the reverse. Census: 3 in 66 Cameo, 1 finer (10/13). PCGS# 83712

1870 Three Cent Silver, PR67
Amplly Toned and Reflective

- 3530 1870 PR67 NGC.** An impressively preserved Superb Gem proof with ample green-gold, blue, and violet toning as well as small silvery centers. Reflectivity is bold away from the devices, which show traces of frost. An important specimen from a late-date issue of just 1,000 pieces. Census: 7 in 67 (2 in 67 ★), 1 finer (10/13). NGC ID# 27CF, PCGS# 3721

1871 Three Cent Silver, PR66 Cameo
None Finer at PCGS

- 3531 1871 PR66 Cameo PCGS.** The recorded proof mintage for this issue was 960 pieces, but today the Premium Gem level is seldom surpassed, even among certified survivors. This well-contrasted coin shows dappled gray, gold, and bluish patina, the last more so on the reverse, with mirrored fields throughout. Population: 6 in 66 Cameo, 0 finer (10/13). PCGS# 83722

PROOF THREE CENT NICKELS

1869 Three Cent Nickel
PR66 Deep Cameo

- 3532 1869 PR66 Deep Cameo PCGS. CAC.** A brilliant fully struck high grade specimen whose snowy devices and glassy fields combine for exceptional white on black contrast. The eye appeal is outstanding. Deep Cameo proofs of the series are increasingly collected. Population: 6 in 66 Deep Cameo, none finer (11/13). PCGS# 93765

1875 Three Cent Nickel, PR66 Cameo
Well-Contrasted Obverse

- 3533 1875 PR66 Cameo PCGS.** The proof 1875 three cent nickel does not go down in the record books as one of the best-produced in Mint history. This PR66 Cameo specimen is decidedly above-average with its appreciably contrasted and blue-tinged surfaces. The obverse presents well, albeit with softness of strike on Liberty's hair, though the reverse has prominent field polishing lines diagonally and up (as struck) and three circular dots of milky toning just to the left of the ribbon loop inside the wreath. PCGS has certified just three coins as PR66 Cameo and none finer in the contrast category (10/13). PCGS# 83771

1884 Three Cent Nickel, PR66 Deep Cameo

- 3534** 1884 PR66 Deep Cameo PCGS. This recently certified Deep Cameo Premium Gem proof is the new finest example of its category graded by PCGS (10/13). Both sides are clearly contrasted with only hints of blue and gold-rose color to the fields. A small planchet depression on Liberty's cheek should not be taken for post-striking damage. PCGS# 93780
-

SHIELD NICKELS

1867 Rays Nickel, Toned MS66
Exceptional Surface Quality

- 3535** 1867 Rays MS66 NGC. The mintage of the 1867 nickel With Rays was plagued with problems. Weak strikes are typical, as are laminations, spotting, strike throughs, die cracks, and dull luster. These factors account for the paucity of coins in the better grades of Mint State. This Premium Gem example is a refreshing exception to the typically seen specimen. The strike is sharp, including the shield lines, leaves, stars, and rays, elements that tend to be weak on this issue. The surfaces on both sides are problem free, yield above-average luster, and display a melange of light powder-blue, reddish-gold, orange, and lavender toning. All of these factors add up to provide outstanding eye appeal. We mention a small mark on the bottom loop of the reverse 5 solely for pedigree purposes. This is an excellent representative for a high-grade type collection. Census: 11 in 66, 1 finer (10/13). NGC ID# 22NY, PCGS# 3791
-

1883/2 Shield Nickel, MS67
Popular Overdate, FS-304

- 3536** 1883/2 MS67 NGC. CAC. FS-304. The Shield nickel series is loaded with overdates, repunched dates, doubled die (and tripled die) obverses, and other anomalies, sometimes in combination, making the series a field day for variety collectors. Many of the more popular varieties are listed in the *Cherrypickers' Guide*, including five of the final-year 1883/2 overdates. On the FS-304, as here, the secondary 2 is visible but weak, appearing to the left of the 3. This Superb Gem offers bright, lightly striated fields that at first look brilliant, but when closely examined show subtle oil-slick iridescence. The noticeably striated fields give the coin a semireflective appearance. Minor high-point softness appears on the obverse. Census: 4 in 67 (1 in 67 ★), 0 finer (10/13). NGC ID# 22PD, PCGS# 3814
-

PROOF SHIELD NICKELS

1866 Shield Nickel, PR66 Cameo Short-Lived Rays Design

- 3537 1866 Rays PR66 Cameo PCGS.** This is among the finest 1866 With Rays Shield nickels available to collectors, with deeply mirrored fields, lustrous devices, and excellent cameo contrast. Few finer examples have ever been certified, and Deep Cameo proofs are extremely rare, with only three such pieces certified by PCGS. Population: 27 in 66 Cameo, 3 finer (10/13).
Ex: Dallas Signature (Heritage, 10/2009), lot 235; Long Beach Signature (Heritage, 6/2010), lot 343, where it realized \$4,313. PCGS# 83817

1867 Rays Nickel, Proof Famously Rare 19th Century Issue

- 3538 1867 Rays — Environmental Damage — NGC Details. Proof.** The most famous rarity of the Shield nickel series, the proof 1867 Rays has a *Guide Book* mintage of 25+ pieces. Recent research concludes that 25 originals were struck, in addition to a small but unknown quantity of restrikes. John Dannreuther has written extensively on this issue, and three different obverse dies have been identified. The present specimen has Obverse 1 with a high date and light repunching on the 7 in the date. Dannreuther believes that examples of this variety are originals struck early in 1867. This lot is fully struck, unabraded, and exhibits reflective fields. The borders display moderately granular gray patina, perhaps from long-term storage in a humid climate.

LIBERTY NICKELS

1912-S Liberty Nickel, MS65+ Attractive Multicolor Toning

- 3539 1912-S MS65+ PCGS Secure.** A modest mintage of 238,000 Liberty nickels was accomplished at the San Francisco Mint in 1912, the last year of the design. This high-end Gem is sharply detailed and lustrous, with mingled shades of powder-blue, greenish-gold, and gray patina. PCGS has graded 10 numerically finer examples (10/13). NGC ID# 277R, PCGS# 3875

1912-S Nickel, MS66 Attractively Toned Key Date

- 3540 1912-S MS66 PCGS.** The San Francisco Mint must not have gotten the message, but the party was all but over for the Liberty nickel by the time that facility finally got around to striking the denomination in 1912. The changeover to the 1913 Buffalo nickels followed swiftly after, making the 1912-S nickels, struck to the meager extent of only 238,000 pieces, an instant key to the series. However, there clearly were some astute collectors in and around San Francisco by this time (witness the equally nice survival rates for high-grade, low-mintage 1913-S Barber quarters), who put away a few choice pieces. This top-notch example boasts terrific eye appeal, its rose-gray and light-gold surfaces accented with occasional hints of ice-blue. The strike is sharper than normal, even showing a modicum of detail on the problematic lower-left ear of corn. Tied for the finest at PCGS and NGC combined. Population: 13 in 66, 0 finer (10/13). NGC ID# 277R, PCGS# 3875

PROOF LIBERTY NICKELS

1883 With Cents Nickel, PR66 Deep Cameo
Sole Finest of the Designation at PCGS

- 3541** 1883 With Cents PR66 Deep Cameo PCGS. CAC. The 1883 proof Liberty nickels with Cents on the reverse were struck in an amount slightly more than the No Cents proofs. This is an untuned, highly reflective nickel-gray piece with a great strike, even on the problematic lower-left ear of corn. The surfaces show only the most minor ticks, consistent with the grade. Population: 1 in 66 Deep Cameo, 0 finer (10/13). PCGS# 93881

1911 Liberty Nickel, PR67 Cameo
Tied for Finest at PCGS

- 3542** 1911 PR67 Cameo PCGS. CAC. Proof 1911 Liberty Head nickels are encountered only infrequently with a Cameo finish, especially at the lofty level of PR67. The deeply mirrored fields highlight the frosty design features, all of which are sharply struck. A veneer of light gold color graces surfaces devoid of mentionable marks or spots. The CAC label affirms the coin's above-average eye appeal. Population: 10 in 67 Cameo, 0 finer (10/13). PCGS# 83909

BUFFALO NICKELS

1913-S Type Two Nickel, MS65
Multicolor Toning, Old Holder

- 3543** 1913-S Type Two MS65 PCGS. CAC. Rich lemon-gold, apple-green, and ruby-red toning endows this lustrous and exceptionally preserved Gem. The low mintage 1913-S Type Two has one of the lowest mintages of the series and is a regular issue key in all grades. Certified in an old green label holder.
Ex: Pre-Long Beach Auction (Ira & Larry Goldberg, 2/2013), lot 1155, which realized \$5,750. NGC ID# 22R3, PCGS# 3923

1914/3 Nickel, MS64
FS-101, All Diagnostics Clear

- 3544** 1914/3 MS64 PCGS. FS-101. The crossbar and upper downstroke of the underdigit 3 is evident upon careful rotation. Lightly toned silver-gray and chestnut-gold. The centers are typically brought up, but the remainder of the design is sharp, and there are no visible abrasions. Clashed from E PLURIBUS UNUM beneath the Indian's jaw, as often seen on the overdate variety. Population: 14 in 64 (1 in 64+), 4 finer (10/13). NGC ID# 22R4, PCGS# 93924

1918/7-D Nickel, AU53
World War I Overdate

- 3545** 1918/7-D AU53 NGC. FS-101. During both World Wars, the U.S. Mint produced clusters of overdate errors in which a die bearing the previous year's date was hubbed with a more current year over it. Unlike previous overdates, which sometimes were deliberate cost-saving measures, these 20th century overdates are thought to be accidents derived from the volunteering or conscription of Mint personnel and the lesser skill of their replacements. This example of the 1918/7-D nickel is lightly worn but the date and its uniquely flattened top and corner at upper right are clear. Luminous surfaces have a medium-gray base and subtle rose and mauve overtones. NGC ID# 22RJ, PCGS# 3939

1918/7-D Nickel, FS-101
Mint State Sharpness

- 3546 1918/7-D — Improperly Cleaned — NGC Details. Unc. FS-101.** Most 1918-7-D nickels are in circulated grades. The present friction-free example shows the underdigit 7 as it initially left the Mint. It has slightly lower relief than the overdigit 8, which makes the upper right corner and the upper half of the downstroke even more distinct. This attribute is lost on circulated pieces, since the date is exposed and wears quickly. This nicely struck green-gold representative exhibits cartwheel sheen and lacks relevant marks. The surfaces are minutely granular. NGC ID# 22RJ, PCGS# 3939

1937-D Three-Legged Nickel, MS64
Distinctive Coppery-Gold Toning

- 3547 1937-D Three-Legged MS64 NGC. FS-901.** The leading foreleg of the bison was inadvertently polished off the die used to strike this famous issue. The variety was recognized early as one of the most significant and valuable issues of the series. The present coin shows satiny mint luster under deep, even coppery toning. The strike is decent, but a little softness is evident on the Indian's hair and the bison's shoulder, as usually seen. NGC ID# 22SX, PCGS# 3982

1937-D Three-Legged Nickel, MS65
Seldom Seen in Gem Condition

- 3548 1937-D Three-Legged MS65 PCGS. FS-901.** The 1937-D Three-Legged Buffalo was created by the same circumstances — and at the same mint — as those that had earlier created the 1922 Plain Lincoln cent: overenthusiastic die polishing (at least in the case of Die Pair 2 coins). But the missing foreleg on the bison was a remarkable and easily noticed error; the fact that no cents were minted in Philadelphia in 1922, and that those missing a D mintmark nonetheless stemmed from Denver, was a novelty that took longer to permeate into the collecting consciousness. David Lange writes in the series reference that most of the 1922 No D cents “were pulled from circulation between the mid 1930s and the early 1950s.”

In contrast, most of the 1937-D Three-Legged Buffalos range from VF to Mint State, with plentiful survivors at the XF and AU grade levels. Gem examples are another matter, though, with only a hundred or so pieces believed known of this relatively recent and enthusiastically collected die state. This example displays the usual satiny mint luster and each side is lightly toned with reddish accents around the margins. The strike is well brought up but not complete, nor would it be expected, and there are no obvious or mentionable abrasions present. Population: 53 in 65 (2 in 65+), 6 finer (10/13). NGC ID# 22SX, PCGS# 3982

PROOF BUFFALO NICKELS

1914 Buffalo Nickel, PR67 Beautifully Toned and Lustrous

- 3549 1914 PR67 PCGS Secure. CAC.** A gorgeously toned Superb Gem example, this lustrous coin displays a number of attractive colors, including shades of golden-yellow, ice-blue, and ice-green on the obverse. The reverse is particularly appealing, with hues of rich yellow-gold, red, vibrant orange, pink, fuchsia, light green, and frosty light yellow and blue. The strike is sharp and the surfaces are virtually pristine. PCGS has awarded higher numeric grades to only 11 examples (10/13). NGC ID# 278T, PCGS# 3991

1915 Buffalo Nickel, PR67 Prized Matte Proof Issue

- 3550 1915 PR67 PCGS Secure. Ex: Simpson.** Only 1,050 proof Buffalo nickels were struck in 1915, all in the European style matte proof format that was unpopular with contemporary collectors but is prized by present-day numismatists. This incredible Superb Gem exhibits fully struck design elements and subtle mint luster, with flawless nickel-gray and champagne-gold surfaces. Population: 55 in 67 (3 in 67+), 2 finer (10/13). NGC ID# 278U, PCGS# 3992

1915 Buffalo Nickel, PR67 Lightly Toned

- 3551 1915 PR67 PCGS. CAC.** Proof Buffalo nickels of 1915 can be located without too much difficulty in grades through Premium Gem. Superb Gems such as the present offering are much more difficult, however, and finer examples are virtually unobtainable. Whispers of light orange-gold and violet color rest on the matte surfaces and all of the design elements are sharply impressed. Both sides are impeccably preserved. This is a highly desirable coin for which we expect spirited bidding. Population: 55 in 67 (3 in 67+), 2 finer (10/13). NGC ID# 278U, PCGS# 3992

1936 Brilliant Finish Nickel, PR67+ Fantastic Eye Appeal

- 3552 1936 Type Two — Brilliant Finish PR67+ PCGS. CAC.** In 1936, the Mint struck proof nickels for the first time since 1916. Those made early in the production run have satiny surfaces, and were received poorly by collectors. The Mint then produced coins with a fully brilliant finish. These were far more popular and their survival rate is significantly greater than for the satin proofs. A thin layer of soft ice-blue, orange-gold, lavender, and violet patination resides on the highly luminous surfaces of this high-end Superb Gem, and razor-sharp definition characterizes the design elements. Close inspection reveals no mentionable contact marks or spots. This piece sports fantastic overall eye appeal and is well deserving of the CAC label. Population: 10 in 67+, 6 finer (10/13). NGC ID# 278Y, PCGS# 3995

JEFFERSON NICKELS

1942 D Over Horizontal D Nickel MS65, FS-501

- 3553 1942-D D Over Horizontal D MS65 PCGS. FS-501.** According to the Cherrypickers' Guide, the 1942 D over Horizontal D "is the rarest of the major Jefferson nickel varieties in Mint State." As with the 1942/1 and 1942/1-D dimes and the 1943/2-P nickel, the error was presumably struck after experienced mint workers entered military service. The present almond-gold and gunmetal-gray example is lustrous and nicely struck. Smooth save for a single slender mark near the dome of Monticello. Population: 6 in 65, 1 finer (10/13). PCGS# 4015

PROOF JEFFERSON NICKELS

1939 Reverse of 1938 Nickel, PR68
Tied for Finest Certified

3554 1939 Reverse of 1938 PR68 NGC. CAC. The steps of Monticello were sharpened on the 1939 Jefferson nickels, so collectors can choose two types, the wavy-step-lines Reverse of 1938 or the straight-lines Reverse of 1940. Most proofs are the Reverse of 1938, while most circulation strikes are the Reverse of 1940. Although this is the more-common reverse for the proof issue, few survivors will ever approach the conditional rarity of this PR68 example, one of only three so certified at NGC with none finer (11/13). The unmarked surfaces feature rainbow iridescence on each side, including pale pastel purple, pink, yellow, and rose hues, simply stunning. NGC ID# 279X, PCGS# 4176

EARLY HALF DIMES

1794 Half Dime, V-4, LM-4, AU55
Colorful First-Year Example

3555 1794 AU55 PCGS. CAC. V-4, LM-4, R.4. The four known varieties of 1794 half dimes, the first-year issue, are all either very scarce (the present V-4, LM-4 die marriage — the most available of the four — along with the V-3, LM-3), rare (V-2, LM-2), or very rare (V-1, LM-1). This Choice AU example is a gorgeous little jewel, the die pairing confirmed by the obverse showing the date low and distant from the curl and bust, and the reverse with no outer berries under the left (facing) wing. Even though a few Mint State examples are known, this Choice AU example offers many of the benefits of those pieces at a fraction of the price. The colorful patina is clearly the product of decades of pristine preservation, the obverse pinkish-gray and showing some bold die clashing from the reverse before and behind the profile of Liberty. The reverse is also largely pinkish-gray, but dabs of saffron and orange appear in the palette as well. A couple of minor carbon spots appear near the extreme rims, one on each side, and in any case not overt. There is only light high-point rub amid the superlative eye appeal, and no major contact marks. NGC ID# 22ZT, PCGS# 4250

1795 Flowing Hair Half Dime, AU55, Late Die State
V-4, LM-10, Prominent Die Break and Cud

3556 1795 V-4, LM-10 AU55 PCGS. One of 10 listed die pairings for the date. This is a more obtainable variety with above average detail, although the obverse die was near terminal state when the coin was struck. The reverse displays stronger detail than many seen. Inviting old-silver, charcoal toning enhances silvery surfaces throughout. Two or three handling marks appear on the obverse, while excellent detail is seen on Liberty's hair and the eagle's wings. A nice early type set selection. PCGS# 38594

EARLY DIME

1798 Large 8 Dime, AU58
JR-4, One of the More Available Varieties

- 3557** 1798 Large 8 AU58 PCGS. JR-4, R.3. The prominent die crack from the obverse rim to Liberty's nose, and the large 8 in the date, identify this coin as a representative of the available JR-4 variety. Shades of gold and ice-blue toning visit the lustrous surfaces of this well detailed near-Mint specimen, and a few light adjustment marks are evident on the bust. Population: 2 in 58, 12 finer (10/13).
Ex: Houston Signature (Heritage, 12/2010), lot 3412. NGC ID# 236E, PCGS# 4466
-

BUST DIMES

1833 JR-10 Dime, MS65
Cracked Obverse Die

- 3558** 1833 MS65 NGC. JR-10, R.3. An obverse die crack from the rim at 7 o'clock to the drapery continues into the drapery over the date, and branches along the upper edge of the bust to Liberty's neck, throat, chin, and nose. This lovely Gem has a sharp strike with excellent eye appeal, offering light violet and gold toning on the obverse, and deep steel toning on the reverse. Census: 25 in 65 (1 in 65+), 7 finer (10/13), for all 1833 varieties. NGC ID# 237D, PCGS# 4522
-

1836 JR-2 Dime, MS67
Repunched Date

- 3559** 1836 MS67 PCGS. CAC. JR-2, R.2. The Repunched Date is diagnostic for the JR-2 die marriage. A Fancy or Script 8 is punched over a Block 8. This example, as do most, shows a rim-to-rim bisecting die crack that passes through the T in LIBERTY and the hair curls to the top left of the 3. We have never before sold an 1836 dime finer than MS66 in any of our auctions. Only one other appearance 13 years ago remained unsold. This Superb Gem exhibits delicate gold toning with an olive tint, showing frosty silver luster and exceptional mint brilliance. Population: 2 in 67 (1 in 67+), 0 finer (10/13). NGC ID# 237G, PCGS# 4528
-

SEATED DIMES

1838-O No Stars Dime, MS62 First O-Mint Seated Dime

- 3560 1838-O No Stars MS62 NGC.** The 1838-O dime was the first issue struck at the fledgling New Orleans Mint. It is also the last No Stars issue as well as the only No Stars issue from a branch facility. This MS62 example displays charcoal-gray color with hints of gold on the obverse and areas of forest green on the reverse. Aside from a few minor disturbances at the rims, the coin displays very few marks, all minor. Census: 8 in 62, 20 finer (10/13). NGC ID# 237T, PCGS# 4564

1860-O Seated Liberty Dime, XF45 Elusive, Low-Mintage Issue

- 3561 1860-O XF45 PCGS. CAC.** From a small mintage of just 40,000 pieces, the 1860-O Seated Liberty dime is a rare issue in all grades. This Choice XF example displays well-detailed design elements, with traces of mint luster under attractive shades of powder-blue toning. Population: 3 in 45, 7 finer (10/13). NGC ID# 239E, PCGS# 4632

1873-CC Dime, VF35 One of the Keys to the CC Series

- 3562 1873-CC Arrows VF35 PCGS.** The 1873-CC Arrows dime is among the key issues from Carson City in the Seated Liberty series. It is a tad more available than the 1874-CC Arrows dime, which has now become established as "the key" to the set. Rusty Goe writes in *The Mint on Carson Street* that:

"The survival rate for this date seems to parallel the percentages for the 1871-CC, 1872-CC, and 1874-CC dimes; numerous researchers (Breen, as an example) have placed their survival estimates at 1% of the original mintage. In relation to current (2003) populations, it seems reasonable to lower that estimate to perhaps one-third to one-half of 1%."

This example displays even wear over each side with deeper gray surfaces that are slightly accented by pale gray patina over the high points of the design. NGC ID# 23BH, PCGS# 4666

PROOF SEATED DIMES

1856 Seated Dime, PR65 Elusive Proof Issue

- 3563 1856 PR65 NGC.** Struck two years before widespread proof distribution at the Philadelphia Mint, this 1856 dime had an unknown but limited mintage and low survival rate. Perhaps only 40 to 50 examples survive today. This lovely Gem exhibits pale lilac, gold, and blue toning over fully mirrored fields with a trace of contrast. Census: 3 in 65, 3 finer (10/13). NGC ID# 23CA, PCGS# 4745

1859 Seated Dime, PR65 Cameo Fortin-101

- 3564 1859 PR65 Cameo PCGS. CAC. Fortin-101.** Gerry Fortin identifies two varieties among the proof 1859 Seated dimes, and he notes the his variety-101 is about five times more available than Fortin-102. However, with only 11 1859 Seated dimes certified PR65 Cameo or finer, the search for either variety will last for quite some time after this piece is sold. Both sides have excellent contrast with delicate champagne toning at the centers, inside a ring of blue and iridescent toning. Population: 4 in 65 Cameo, 7 finer (10/13). PCGS# 84748

1860 Seated Liberty Dime, PR67 Cameo None Numerically Finer at PCGS

- 3565 1860 PR67 Cameo PCGS.** A stunning Superb Gem Cameo proof representing the first year of the Legend obverse design, this specimen has brilliant and lustrous silver-gray devices with subtle blue peripheral toning. Both sides are moderately mirrored with excellent field-to-device contrast. The reverse reveals numerous clash marks. Population: 5 in 67 (1 in 67+) Cameo, 0 finer (10/13). PCGS# 84753

1880 Dime, Patinated PR67 Cameo
One of the Five Finest at PCGS

3566 1880 PR67 Cameo PCGS. CAC. The relatively small 1880 circulation-strike mintage of 36,000 pieces places considerable pressure on proof examples (1,355 coins). Moreover, specimens with Cameo finish are very difficult to come by. Indeed, PCGS has graded only 70 Cameos out of more than the 400 proofs it has seen for this year. The present offering is one of the five finest certified by this service (10/13). Peripheral cobalt-blue and crimson toning is slightly deeper and more extensive on the reverse. Both sides display strong field-device contrast and each exhibits sharply struck design features. The CAC label affirms the coin's above-average eye appeal. PCGS# 84777

BARBER DIMES

1895-O Dime, MS63
Attractively Toned

3567 1895-O MS63 PCGS. In its fourth year of striking the Barber dime, the New Orleans Mint reached the nadir of production, striking a meager 440,000 pieces and creating a series key. This Select Mint State example will fit nicely into a mostly Gem set at a far more affordable price. Lilac and pinkish patina intermingle over remaining silver areas on each side. A couple of small ticks on Liberty's cheek require a loupe to observe, as they are well-concealed beneath the toning, but this piece is nonetheless well-struck and eye-appealing. Population: 10 in 63, 19 finer (10/13). NGC ID# 23DW, PCGS# 4807

1899-S Dime, MS67
Sole Finest NGC Example, With Lovely Toning

3568 1899-S MS67 NGC. The moderate mintage of the 1899-S Barber dime was more than 1.8 million coins, but Superb Gems such as the present piece are the top rung of the certified populations, where NGC has seen only this single coin, and PCGS three submissions (10/13). The surfaces are virtually mark-free, showing a lovely melange of pinkish-gold, sky-blue, and pastel mint-green patina. The strike is uniformly sharp. NGC ID# 23EB, PCGS# 4820

PROOF BARBER DIMES

1892 Barber Dime, PR67+ Cameo Well-Contrasted First-Year Issue

- 3569 1892 PR67+ Cameo PCGS. CAC.** This well-contrasted first-year Barber dime offers a silvery, untuned obverse combined with a reverse lightly tinged with pinkish-gold hues, all against deeply reflective fields and overall pristine surfaces. The proof strike has brought all details fully on both sides, making this a great-looking coin for a type set. Population: 5 in 67+ Cameo, 2 finer (10/13). PCGS# 84875

1898 Barber Dime, PR67+ Cameo Strong Visual Appeal

- 3570 1898 PR67+ Cameo PCGS Secure. CAC.** Often considered the most well produced issue within the Barber dime series, the 1898 is one of the most common issues in the proof Barber dime series, with a mintage of 735 coins. This exceptional piece displays a near-white portrait of Liberty that contrasts nicely against the mirrored fields, as does the slightly darker ONE DIME device on the reverse. Lovely toning includes medium-intensity reddish-gold and deep electric-blue colors clinging to the borders, with deeper hues on the reverse. The design elements are razor-sharp and the surfaces are immaculately preserved. A wonderful example, this piece exudes outstanding eye appeal. Population: 9 in 67 (1 in 67+) Cameo, 3 finer (10/13). PCGS# 84882

1907 Dime, Colorful PR68 Beautifully Preserved

- 3571 1907 PR68 NGC.** Under a light the rather deep toning resolves into canary-yellow, fire-red, rose, mint, and pale blue on this beautifully colored (and beautifully preserved) 1907 Barber dime, certified PR68 by NGC. From the low midseries mintage of only 575 pieces, this piece is the sole example in this numeric grade at either NGC or PCGS (11/13). NGC ID# 23GM, PCGS# 4891

1909 Dime, Colorful PR68 Immaculate and Fully Struck

- 3572 1909 PR68 NGC.** This colorful PR68 NGC 1909 Barber dime is tied for the finest certified of the issue with one other submission each at NGC and PCGS. Both sides show scattered areas of medium blue and silver contrasting against copper and russet tones. The surfaces are essentially pristine and fully struck up, a simply gorgeous and immaculate coin. NGC ID# 23GP, PCGS# 4893

MERCURY DIMES

1916-D Dime, Choice VF A Key-Date Heavyweight

- 3573 1916-D VF35 PCGS. CAC.** In circulation grades, the 1916-D is the key date among Mercury dimes. Many examples come and go at Heritage, but this cataloger is sure that the present VF35 coin, once it finds its eventual home, will stay there a good long while. Between its light blue-and-gold toning, fields that still gleam with diffuse luster, and a sense of good honest wear without any but trivial marks, this piece could fit into any XF or AU series set without seeming out-of-place. NGC ID# 23GY, PCGS# 4906

1916-D Mercury Dime, Unc Details Famous Key Date

- 3574 1916-D — Stained — PCGS Genuine. Unc Details.** This is the well-known key-date Mercury dime from a minuscule mintage of 264,000 pieces. The next lowest mintage among date and mintmark issues in that series was nearly four times as many. Unusual violet-gray color appears on the obverse, with lavender and blue toning on the reverse. Both sides are boldly defined with full bands on the reverse.

Key 1916-D Dime
Uncirculated Sharpness

- 3575 1916-D — Cleaned — ANACS. MS60 Details.** The 1916-D has less than one-fourth the mintage of any other Mercury dime regular issue. Many were eventually cherrypicked from circulation, but not before many years of circulation. At PCGS, the median certified grade is Good 4, and the grade with the highest population is AG3. Uncirculated examples are rare relative to the demand from collectors of the popular series. No hairlines are evident on the present well struck example. The wheat-gold, lilac-red, and gunmetal-blue toning is attractive. Both sides display vibrant luster. The sole detractor is an intermittent and faint vertical mark across portions of the portrait. NGC ID# 23GY, PCGS# 4906

1917 Dime, MS67 Full Bands
Tied for Finest Graded

- 3576 1917 MS67 Full Bands PCGS. CAC.** Pale rose, yellow, and ice-blue intermingle to delightful effect on this Superb Gem Full Bands dime, one whose strike appears full throughout both sides, far exceeding the minimum required for Full Bands designation. As expected for the grade, mentionable contact marks are a nonissue. Population: 18 in 67 (2 in 67+) Full Bands, 0 finer (10/13). NGC ID# 23H2, PCGS# 4911

1919-S Mercury Dime, MS64 Full Bands

- 3577 1919-S MS64 Full Bands PCGS.** The obverse of this boldly detailed near-Gem has dappled golden-brown toning, while the reverse exhibits delicate champagne and iridescent toning. Both sides have brilliant satin luster. A highly attractive example for an advanced Registry set. Population: 35 in 64 Full Bands, 24 finer (10/13). NGC ID# 23HA, PCGS# 4927

Now-lost bust of Elsie Stevens,
Model for the Mercury Dime

1920-D Dime, MS67+ Full Bands
Near-Impeccable Forsythe II Specimen

3578 1920-D MS67+ Full Bands PCGS. CAC. Ex: Forsythe II. Today the Denver Mint is an institution more than a century old, but in 1920 it had been in operation for less than a decade and a half and already had seen more than its share of unusual events: the sheer delay in transforming from Assay Office to Mint (1863 to 1906); the Panic of 1907; the creation, not well-recognized at the time, of the 1916-D dime rarity; the upheavals in economy and personnel from World War I and the economic depression that followed.

It was during this depression that the 1920-D dime saw coinage. Though the economic slowdown eventually led to a lack of demand for new pocket change — an effect seen clearly in the low mintages for many issues of 1921, including the famous 1921-D dime — the 1920-D saw a healthy output of over 19.1 million pieces. The coins themselves, though, generally were not well-produced; multiple numismatic commentators have noted a lack of Full Bands coins, as well as the “weak zero” pieces that have the final date digit mushy or nonexistent in the worst cases.

This magnificent MS67+ Full Bands coin is the exception to the rule. Its clear date is nearly as remarkable as the clean separating line between the bands. Nigh-impeccable surfaces have bright luster with just a hint of satin under distinct patina, silver-blue at much of the interiors with gold-to-orange toning at the margins and a ring on the inner reverse. A condition rarity with great visual charm, in an immensely popular series — what does this coin *not* have going for it? Population: 5 in 67 (2 in 67+) Full Bands, 1 finer (10/13). NGC ID# 23HC, PCGS# 4931

1921 Dime, MS65+ Full Bands
Third Lowest Mintage Mercury Dime

- 3579** 1921 MS65+ Full Bands NGC. The three lowest mintage Mercury dimes are the 1916-D (264,000), 1921 (1,230,000), and 1921-D (1,080,000). All three issues are elusive in higher grades, and Gem or finer examples are infrequently encountered. This frosty piece has brilliant silver luster with full cartwheel radiance. The surfaces are pristine with excellent eye appeal. Census: 62 in 65 (1 in 65+) Full Bands, 27 finer (10/13). NGC ID# 23HE, PCGS# 4935

1939 Dime, MS68 Full Bands
None Finer at Either Service

- 3580** 1939 MS68 Full Bands PCGS. Rich satin luster and virtually untuned surfaces provide this MS68 example with strong visual appeal. A few tiny splashes of faint tan color are present. An area of prooflike luster appears near 3 o'clock on the obverse. Virtually pristine surfaces are an additional attribute of this piece. Population: 6 in 68 Full Bands, 0 finer (10/13). NGC ID# 23JR, PCGS# 5017

1945-S Micro S Dime, MS67 Full Bands
Richly Toned Obverse

- 3581** 1945-S Micro S MS67 Full Bands PCGS. CAC. FS-512. A Superb Gem representative of this popular *Guide Book* variety, this piece exhibits sharp detail of the design elements and sports the all-important Full Bands designation. The central obverse device remains largely brilliant, while rich toning in shades of the rainbow covers the fields, the lower portion of the neck, and is scattered on Mercury. The reverse is lustrous and largely brilliant, with areas of toning present at the outer edges. Population: 19 in 67 (1 in 67+) Full Bands, 2 finer (10/13). NGC ID# 23KH, PCGS# 5063

PROOF MERCURY DIMES

1941 Dime, Outstanding PR68
Major-League Toning

- 3582** 1941 PR68 PCGS. CAC. A rainbow crescent embraces the obverse of this Superb Gem Proof with profound colors so complex they should be viewed under magnification for full effect. The reverse is more straight forward, but no less impressive. The surfaces appear to be immaculate, and even with a loupe it is difficult to locate anything that keeps this razor-sharp piece from being absolutely perfect. Neither NGC nor PCGS has certified any proofs of this date finer (11/13). NGC ID# 27DM, PCGS# 5076

PROOF ROOSEVELT DIME

1968 No S Dime, PR67
First of the 'No S' Errors

3583 1968 No S PR67 PCGS. In 1968, after a three-year moratorium, mintmarks returned to coinage. It also was the first year of the "S" for San Francisco on proofs, and in a classic bit of first-timer trouble, a small number of dimes were struck without the S. This Superb Gem proof specimen of the first "No S" error recognized in U.S. coinage history has little toning on the obverse but a faint layer of green-gold across the reverse. Contrast between fields and devices is minor, but between the solid preservation and the gleaming mirrors, this coin has winning eye appeal. Population: 7 in 67, 5 finer (10/13). NGC ID# 27F3, PCGS# 5245

TWENTY CENT PIECES

1875 Twenty Cent Piece, Distinctively Toned MS65

3584 1875 MS65 NGC. Less common than its 1875 San Francisco Mint counterpart, the business strike mintage at the Philadelphia Mint for the twenty cent piece was limited to 36,910 coins. This electric-toned representative is a Gem in every way. The strike is meticulous and sharp. Radical toning captures the eye with golden centers giving way to turquoise and deep magenta rims. Just nine graded higher at PCGS (11/13). NGC ID# 23R5, PCGS# 5296

1875-CC Twenty Cent, MS65
Sharply Struck

3585 1875-CC MS65 NGC. While the 1875-CC twenty cent had an original mintage of 133,290 pieces, a number were melted along with most of the 1876-CC issue in March 1877 by order of Mint Director Linderman. MS65 and better examples are condition rarities today. The design elements are sharply struck on this lustrous and well-preserved Gem. A few areas of light granularity are noted. Census: 34 in 65 (1 in 65 ★), 5 finer (10/13). NGC ID# 23R6, PCGS# 5297

PROOF TWENTY CENT PIECE

1875 Twenty Cent, PR66
Splendid Color

3586 1875 PR66 NGC. The splendid color palette is orange-rose around the margins of each side, with medium sky-blue in the obverse fields. The portraits of the eagle and Liberty on both sides are grayish and well-frosted, providing an interesting color contrast if not sufficient for a Cameo designation. This would make a great acquisition for a type set. NGC ID# 27GZ, PCGS# 5303

BUST QUARTERS

1818 Capped Bust Quarter, MS66
Popular B-2 Variety, Only One Finer Coin at PCGS

3587 1818 MS66 PCGS Secure. CAC. B-2, R.1. No quarters were struck in 1816 and 1817, but a substantial mintage of 361,174 pieces was produced in 1818. Five obverse and seven reverse dies were combined to produce 10 known die varieties for the date. This coin represents the B-2 variety, with star 13 repunched and the scroll starting under the center of the upright of D in UNITED. The B-2 is the most available variety of the date.

The present coin is a spectacular Premium Gem with iridescent shades of greenish-gold toning that fades to blue and violet. The design elements are sharply detailed and the well-preserved surfaces display vibrant mint luster under the toning. Population: 4 in 66, 1 finer (10/13). NGC ID# 23RH, PCGS# 5322

1831 Quarter, Near-Gem
B-4, Small Letters

3588 1831 Small Letters MS64 PCGS. B-4, R.1. Tompkins Die State 2/6. This fully struck and lustrous Choice Capped Bust type coin has exquisite preservation and light tan toning. A roller mark on Liberty's jaw is as made. Though examples with higher numerical grades exist for B-4, the present lot will satisfy even the most demanding collector. NGC ID# 23RW, PCGS# 5348

1835 B-5 Quarter, MS64
Tongue-Less Eagle Reverse

3589 1835 MS64 NGC. B-5, R.3. This Perfect Dies specimen has no evidence of obverse die cracks on either side of Liberty. Both sides of this lightly marked Choice Mint State piece exhibit flashes of brilliant luster with considerable blue and gold toning. Census: 17 in 64, 5 finer (10/13). NGC ID# 23S2, PCGS# 5354

SEATED QUARTERS

1842-O Small Date Quarter, AU58
Extremely Rare, Virtually Unknown in Mint State

3590 1842-O Small Date AU58 PCGS. Prime Die State. The 1842-O Small Date quarter is rare in all grades and virtually never seen above Very Fine, making the present offering an important one for Seated specialists. Only one die pair is known for the variety, serving to emphasize how elusive the issue is. This near-Mint State example is the second-finest at PCGS, behind a sole MS61 coin. The silver surfaces display only light high-point wear amid silver-gold patina on this no-problem coin. This coin lacks the damage on the reverse that a small percentage of the survivors show. An extremely rare offering. NGC ID# 23SN, PCGS# 5403

1847-O Seated Liberty Quarter, AU55
Rare Issue in High Grade

3591 1847-O AU55 PCGS. CAC. From a mintage of 368,000 pieces, the 1847-O Seated Liberty quarter is a scarce-to-rare issue in all grades and examples in AU55 condition are very rare. This attractive Choice AU specimen shows the flatness on the head and upper stars always seen on this issue, but only a trace of actual wear is evident. Pleasing shades of powder-blue and champagne-gold toning enhance the eye appeal, with traces of original mint luster underneath. Population: 3 in 55, 6 finer (10/13). NGC ID# 23SY, PCGS# 5411

1857 Seated Liberty Quarter, MS67
Only One Finer Coin at PCGS

3592 1857 MS67 PCGS. CAC. The 1857 Seated Liberty quarter claims a large mintage of nearly 10 million pieces and the date is not difficult to locate in high grade, making it a popular choice for type collectors. Of course, the population thins out considerably at the Superb Gem level and this coin is one of the finest surviving examples. Vivid shades of cerulean-blue, lavender-gray, and sea-green toning are the outstanding visual attributes of this spectacular specimen. The design elements are well-detailed, with just a touch of softness on the upper stars and vibrant mint luster shines through the toning, enhancing the tremendous eye appeal. Population: 5 in 67, 1 finer (10/13). NGC ID# 23TE, PCGS# 5442

**1860-O Quarter Dollar, MS64
Last O-Mint Seated Quarter**

- 3593 1860-O MS64 PCGS.** The 1860-O was the last New Orleans Mint quarter of the Seated Liberty series. The denomination was dormant at that Mint until the Barber coins were first minted in 1892. This issue is usually available in lower grades, but it is an important condition rarity that is seldom found above MS63. The present Choice Mint State specimen has frosty silver luster that shines through rich gold and iridescent toning that is brighter on the reverse. Population: 9 in 64, 3 finer (10/13). NGC ID# 23TR, PCGS# 5452

**1862 Quarter, MS66
Pleasing Eye Appeal**

- 3594 1862 MS66 PCGS.** This No Motto issue can be located with patience and searching through near-Gem, but examples in higher grades become challenging to acquire. Steel-blue and russet patination around the margins is slightly deeper and more extensive on the obverse of this Premium Gem. The design elements are well-struck and lightly frosted, providing a degree of cameo-like contrast with the fields, especially on the obverse. This piece yields very pleasing eye appeal. Population: 7 in 66, 3 finer (10/13). NGC ID# 23TV, PCGS# 5456

**1877 Quarter Dollar, MS67 ★
Rare With Star Designation**

- 3595 1877 MS67 ★ NGC.** The 1877 Seated Liberty quarter is more difficult to locate than its mintage of nearly 11 million pieces would suggest because many examples were melted in 1878 to provide silver bullion for Morgan dollars. That said, Gem and finer specimens can be located with diligent searching, but coins with the coveted Star designation are rare. Both sides of this MS67 ★ display frosty luster and well-struck design features, and each is impeccably preserved. Census: 5 in 67 ★, 8 finer (10/13). NGC ID# 23V5, PCGS# 5504

**1877-CC Seated Quarter, MS67
Outstanding Registry Set Candidate**

- 3596 1877-CC MS67 NGC.** With a reported mintage of more than 4 million pieces, the 1877-CC Seated Liberty quarter is an available date in high grade and a popular choice of mintmark type collectors. This delightful Superb Gem exhibits well-detailed design elements, with a touch of softness on Liberty's hair and neckline. The well-preserved surfaces radiate vibrant mint luster on both sides. Attractive shades of violet and champagne-gold toning enhance the outstanding eye appeal and there are no mentionable distractions evident to the naked eye. This coin is a "must have" specimen for Registry Set collectors. Census: 4 in 67, 0 finer (10/13). NGC ID# 23V6, PCGS# 5505

**1884 Seated Liberty Quarter, MS66+
Partially Prooflike Fields**

- 3597 1884 MS66+ PCGS. CAC.** This brilliant and boldly struck high grade quarter has partially prooflike fields and nearly pristine preservation. Only 8,000 business strikes and 875 proofs were struck, since the Mint was busy producing more than 28 million silver dollars that year. Population: 20 in 66 (2 in 66+), 9 finer (10/13). NGC ID# 23VG, PCGS# 5516

PROOF SEATED QUARTERS

1864 Quarter Dollar, PR66 Cameo
Second Lowest Proof Mintage After 1858

3598 1864 PR66 Cameo PCGS. A remarkable Premium Gem Cameo proof, this Civil War era Liberty Seated quarter survives from a mintage of only 470 coins, the second lowest proof mintage of any issue from 1859 to 1891, behind the 460 coin proof mintage of 1863.

This piece offers impressive eye appeal. The obverse is light silver at the center, gradually changing to gold, rose, violet, and bright blue at the border. The obverse toning enhances the cameo contrast. The central reverse is gold and violet within a frame of brilliant blue-green. Population: 1 in 66 Cameo, 0 finer (10/13). PCGS# 85560

1870 Seated Quarter, PR68 Ultra Cameo
Single Finest Certified Example

3599 1870 PR68 Ultra Cameo NGC. From a generous proof mintage of 1,000 pieces, this magnificent coin is the single finest certified 1870 Seated Liberty quarter at either of the leading grading services. The design elements are sharply detailed throughout, with razor sharp definition on the eagle's claws and star radials. The devices are richly frosted, providing profound cameo contrast with the deeply mirrored fields. A few die striations are visible in the fields on both sides, but close inspection with a loupe reveals no mentionable post-strike surface flaws. Eye appeal is terrific. This coin should find a home in the finest collection or Registry Set. Census: 1 in 68 Ultra Cameo, 0 finer (10/13). PCGS# 95569

1874 Arrows Quarter, Toned PR66

- 3600** 1874 Arrows PR66 NGC. The short-lived Arrows design was introduced in 1873 to signify a weight change in most denominations of U.S. silver coinage. Splashes of cobalt-blue, lavender, reddish-gold, orange, and yellow toning cascade over both sides of this Premium Gem Proof. Sharply struck design features and impeccably preserved surfaces complement the attractive toning. This issue is scarce in PR66 and rare any finer. This is an excellent choice for a Proof type collection. Census: 25 in 66, 13 finer (10/13). NGC ID# 23XS, PCGS# 5575

1882 Quarter, PR66 Ultra Cameo Untoned and Flashy

- 3601** 1882 PR66 Ultra Cameo NGC. Collectors who prefer untoned coins should have a field day bidding on this beaming silver-white example. There is absolutely no hint of color, which serves to accentuate the contrast between inky-black, reflective fields and frost-white devices. Census: 1 in 66 Ultra Cameo, 2 finer (11/13). PCGS# 95583

BARBER QUARTERS

1892-S Quarter Dollar, Eye-Appealing MS66 An Important Condition Rarity

- 3602** 1892-S MS66 NGC. CAC. Type One Reverse. Lustrous surfaces display soft orange, gold, and violet toning. Sharply struck design elements and impeccable preservation further enhance the coin's pleasing eye appeal, appropriately recognized by CAC. The present Premium Gem is extremely rare in this level of preservation. Census: 1 in 66, 2 finer (10/13). NGC ID# 23XV, PCGS# 5603

1893 Barber Quarter, MS66 Ideal Type Coin

- 3603** 1893 MS66 PCGS. CAC. Dramatic peach-gold, forest-green, and ruby-red toning dominates the borders while the portrait displays gunmetal-gray. A precisely struck and lustrous high grade Barber type coin that has a pristine reverse and minimal obverse imperfections. Population: 12 in 66 (3 in 66+), 1 finer (10/13). NGC ID# 23XW, PCGS# 5604

1897-S Quarter, MS65 Low-Mintage Semikey Series Issue

- 3604** 1897-S MS65 NGC. CAC. Just like its half dollar counterpart, the 1897-S Barber quarter is a semikey to its series, produced to the extent of 542,229 coins. These are coins that circulated; the *average certified survivor is only VF20 to VF25*. The present Gem puts such coins to shame, a beautifully lustrous piece with light golden, smoke-gray, and copper-russet patina. A couple of stray marks on the cheek account for the grade, although we note a tiny dark fleck near the rim at star 3 on the obverse. The strike is razor-sharp throughout, verging on full. NGC ID# 23YC, PCGS# 5618

**1898-O Quarter, MS66
Conditional Rarity**

3605 1898-O MS66 PCGS. CAC. An exceptional coin for the New Orleans Barber quarter series, this Premium Gem 1898-O is quite close to a full strike, save for minor weakness in the usual area at the right shield corner and wing. Bright swirling luster covers both sides, which exhibit light centers surrounded with golden-rose and cobalt-blue at the margins. PCGS has seen six submissions at this grade level, with a single MS67 finer (10/13). Appearances of the 1898-O quarter in MS66 are an infrequent occurrence at Heritage, seen only four times in the last 13 years. This piece is tied numerically with the Duckor specimen, which we offered in our Los Angeles Signature (Heritage, 7/2009), lot 1096, a coin that realized \$18,975. NGC ID# 23YE, PCGS# 5620

**1904-O Quarter, MS66
Dappled Patina Over Unabraded Surfaces**

3606 1904-O MS66 NGC. Generous luster wafts from each side of this high-end Premium Gem 1904-O Barber quarter. The obverse, and the reverse more so, boast dappled pinkish, copper, olive, gold, and blue hues. There is a notable lack of abrasions, a sole small tick appearing on Liberty's cheek. Minor strike weakness appears on the right-side obverse stars and the right shield corner and claw on the reverse. Overall, this is a lovely example of this conditionally challenging O-mint issue. NGC ID# 23YZ, PCGS# 5638

1911-S Quarter, Magnificent MS67

3607 1911-S MS67 NGC. The 1911-S Barber quarter boasts a low mintage of 988,000 pieces. Fortunately, a number of high-quality specimens were saved at the time of issue, including this magnificent Superb Gem. Intense luster radiates from both sides, each of which is sharply struck and impeccably preserved. Sky-blue, lavender, and orange-gold patination is more extensive and deeper on the obverse. Census: 7 in 67, 1 finer (10/13). NGC ID# 23ZR, PCGS# 5661

**1913-S Quarter, XF Details
Well-Defined**

3608 1913-S — Improperly Cleaned — NGC Details. XF. The 1913-S ranks first in the Barber quarter series in terms of lowest mintage, with only 40,000 pieces being struck. This key date is available in lower circulated grades and to some extent in Mint State. XF and AU examples are rarely encountered. This XF Details example is well-defined except for the usual softness on the upper-right shield corner and the eagle's claws. The NGC disclaimer should not dissuade prospective bidders as the cleaning is not all that bad.

PROOF BARBER QUARTERS

1896 Barber Quarter, PR68 ★ Ultra Cameo
Only Three Finer Coins at NGC

- 3609** 1896 PR68 ★ Ultra Cameo NGC. Only 762 proof Barber quarters were struck in 1896 but the issue seems to have been especially well-produced and contemporary collectors saved some examples of remarkably high quality. This coin is a magnificent PR68 specimen with pinpoint definition on all design elements. The richly frosted devices seem to float on the liquid mirrored fields, creating profound cameo contrast. Vivid shades of cobalt-blue and olive-gold toning highlight the well-preserved surfaces that show no mentionable flaws. The Star designation attests to the outstanding eye appeal. Census: 2 in 68 ★ Ultra Cameo, 3 finer (10/13). PCGS# 95682

1898 Quarter, PR67 Cameo
Above and Beyond the Issue's High Norms

- 3610** 1898 PR67 Cameo NGC. An eye-catching Superb Gem specimen from the "sweet spot" of classic silver proof coinage, well-contrasted on both sides but especially the obverse. Gold and blue border toning is strongest near the stars around the portrait. Census: 25 in 67 Cameo (1 in 67+ Cameo), 12 finer (10/13). PCGS# 85684

1898 Quarter, PR67 Ultra Cameo
Stunning Field-Motif Contrast

- 3611** 1898 PR67 Ultra Cameo NGC. The 1898 quarter comes with a mintage of 735 proofs, most of which lack Ultra or Deep Cameo status. The Superb Gem Ultra Cameo presented here exhibits stunning field-motif contrast and is fully struck throughout. Both sides have been exceptionally well cared for. Census: 14 in 67 Ultra Cameo, 25 finer (10/13). PCGS# 95684

1902 Barber Quarter, Pristine PR67
Deep, Rich Toning

- 3612** 1902 PR67 PCGS. CAC. Mirrored surfaces embrace a frosty portrait of Liberty with the look of an aqua, blue-green sea washing against a crescent of golden bronze with rose overtones. The reverse toning displays bronze and olive surfaces tinged with red and gold. As the grade suggests, this Superb Gem quarter is needle sharp and thoroughly pleasing. Population: 6 in 67, 0 finer (11/13). NGC ID# 242H, PCGS# 5688

1909 Barber Quarter, PR68
Spectacular Multicolor Toning
None Finer at PCGS, Ex: Hugon

- 3613 1909 PR68 PCGS. CAC.** Ex: Hugon. Spectacularly toned in iridescent shades of green and violet, this magnificent 1909 Barber quarter is one of the finest examples known. Razor-sharp definition is present on all design elements, and the virtually pristine surfaces are deeply reflective. From a tiny proof mintage of 650 pieces. Population: 4 in 68, 0 finer (10/13).
Ex: John C. Hugon; Hugon Collection / FUN Signature (Heritage, 1/2005), lot 4191, which garnered \$7,475; FUN Signature (Heritage, 1/2007), lot 4091, which brought \$6,500; Pittsburgh Signature (Heritage, 10/2011), lot 3658, which realized \$8,625. NGC ID# 242R, PCGS# 5695

STANDING LIBERTY QUARTERS

1917-D Type One Quarter, MS67
Lustrous and Appealing

- 3614 1917-D Type One MS67 PCGS.** Though a touch of weakness at the head precludes a Full Head designation, this example reveals pleasing definition elsewhere. Potent luster and faintly toned surfaces provide this Superb Gem with strong visual appeal. The faint toning is confined largely to the reverse, in shades of almond and champagne-gold, along with areas of dappled light gray toning at the upper reverse. Population: 3 in 67, 0 finer (10/13). NGC ID# 2432, PCGS# 5708

1917-D Quarter, MS66 Full Head
Elusive Type Two Design

- 3615 1917-D Type Two MS66 Full Head PCGS.** More than 6 million Type Two quarters were struck at Denver in 1917, but only 32 of those coins are certified MS66 Full Head or finer at PCGS and NGC combined. This lovely Premium Gem exhibits delicate champagne toning on its brilliant and frosty silver surfaces with bold design features. Population: 21 in 66 (1 in 66+) Full Head, 2 finer (10/13). NGC ID# 2435, PCGS# 5717

1918-D Quarter, MS66 Full Head
Underappreciated Issue in This Grade

- 3616 1918-D MS66 Full Head PCGS.** The 1918-D Standing Liberty quarter in MS66 Full Head is about as conditionally rare as the mintmarked 1917 Type Two issues in the same grade, which is to say, far more elusive than the plentiful mintmarked Type One 1917 issues. This underappreciated issue shows a PCGS population of 18 submissions in this grade and only a single piece finer (1/13). Whispers of russet and charcoal near the rims contrast against silvery centers on each side of this well-struck Premium Gem, showing a bold mintmark and full tops on each date digit. NGC ID# 2438, PCGS# 5723

**1918/7-S Quarter, Choice AU
Totally Original Surfaces**

3617 1918/7-S AU55 PCGS. CAC. FS-101. There are no known “wartime overdate” Walking Liberty halves. No *confirmed* 1944/3, no 1945/4, no 1942/1 or 1943/2 half dollars exist from any mint. Walter Breen notes a half dollar variety that he calls “possibly 1943/2” in his 1988 *Complete Encyclopedia*, Breen-5197, although he notes that “confirmation awaits discovery of earlier die states.” Neither NGC nor PCGS recognizes a 1943/2 half dollar; ANACS has certified some Breen-5197 halves but merely identifies them as “1943” rather than “1943/2.” *Cherrypickers’* notes that the variety (and similar ones from all three mints) is a doubled die obverse (in other words, 1943/3) from tooling on the master die.

This makes the 1918/7-S Standing Liberty quarter the largest-denomination *confirmed* “wartime overdate” in 20th century American numismatics. The issue is in demand both from series completists and, we believe, from many numismatists who desire a nice “trophy coin” for their collections. A nice AU50 to AU53 1918/7-S can be had in the current market for roughly half what an example in MS62 would fetch. This pleasing AU55 is worth stretching a bit to obtain. The surfaces are totally original, most of each side is pinkish-tinted light gray with deeper accents of color around the devices. Significant portions of mint luster still remain and there are no singular marks of note. NGC ID# 243A, PCGS# 5726

**1923-S Quarter, Well-Struck MS65
A Key Date of the Series**

3618 1923-S MS65 PCGS. The 1923-S quarter, from a mintage of 1.3 million pieces, and one of the key dates of the series, is a scarce issue in Mint State. Gems can be located with diligent searching, but finer examples are rare. While Liberty’s head is not Full it does display fairly good detail. The chain mail is sharp and all but two rivets are bold. Lustrous surfaces shows freckles of russet toning, somewhat more prominent on the reverse. The surfaces are minimally marked for an MS65. Population: 95 in 65 (2 in 65+), 36 finer (10/13). NGC ID# 243K, PCGS# 5744

**1926-D Quarter, MS64 Full Head
Interesting and Appealing Toning**

3619 1926-D MS64 Full Head PCGS. CAC. The obverse of this near-Gem Full Head 1926-D quarter shows an interesting and appealing toning palette, intermingled hues from the palest yellow imaginable through rose and orange hues with charcoal-gray mixed. There are three clear olive sprigs and an earhole visible, although a couple of shield rivets are absent. The reverse shows just a hint of color, and there are no mentionable distractions on either side. Population: 31 in 64 Full Head, 30 finer (10/13). NGC ID# 243S, PCGS# 5757

WASHINGTON QUARTERS

**1932-D Quarter, MS65
Key First-Year Issue**

3620 1932-D MS65 PCGS. A lovely Gem example of the 1932-D key date quarter, this piece displays satin luster, with silver and amber-gold centers on each side complementing deeper border accents of russet and charcoal. One dark toning fleck covers a tiny upper bit of the 3 in the date. The reverse shows only two tiny reeding marks on the eagle’s lower feathers; marks on the obverse are more numerous, but still minimal. NGC ID# 2448, PCGS# 5791

**1934-D Medium Motto Quarter, MS67
Tied for Finest**

3621 1934-D Medium Motto MS67 PCGS. The Medium Motto 1934-D is distinguished by the middle peak of the W in WE positioned below the side peaks, with the generally same letter font as the 1932 issues otherwise. This Superb Gem 1934-D Washington quarter of the Medium Motto variety is tied with only four other submissions in this top grade at PCGS; none are finer at either PCGS or NGC, which shows six grading events at this level (10/13). The surfaces are largely untoned silver-white save for glints of gold patina. No marks of significance mar the fabric on either side of this coin, accounting for the grade. NGC ID# 244C, PCGS# 5796

**1937-S Quarter, Highly Elusive MS67
Third Lowest Mintage of the Series**

3622 1937-S MS67 PCGS. CAC. The 1937-S claims the third lowest mintage (1.6 million pieces) of the Washington quarter series behind the 1932-D and 1932-S keys. The finest grade most collectors can expect to acquire is Premium Gem, and that will require patience and a good deal of searching. Superb Gems such as the present offering are highly elusive. PCGS and NGC combined have graded just over 50 specimens in MS67 and none finer. Mottled lavender, crimson, yellow-green, orange-gold, and tan coloration runs over the lustrous surfaces of this well-struck specimen. Both sides are impeccably preserved and yield great eye appeal. Population: 25 in 67 (2 in 67+), 0 finer (10/13). NGC ID# 244M, PCGS# 5805

EARLY HALF DOLLARS

**1795 O-102 Half Dollar, High-End XF40
Strongly Detailed and Lustrous**

3623 1795 2 Leaves XF40 PCGS. CAC. O-102, R.4. The O-102 variety is readily available in low grades but gets much tougher above VF. A nine by eight berry arrangement with two berries inside and one outside the right wing identifies the die pairing. A light obverse die crack from the bust end to the milling confirms the variety. XF examples compete for a spot just outside the Condition Census for the variety, but few can outshine this lustrous coin in that regard.

Housed in a green label PCGS holder, this immaculate Flowing Hair half dollar has many attributes of a higher grade. The glossy fields show a generous amount of luster. Smoky, gunmetal-gray toning softens golden-rose iridescence. The only mentionable defect is a minimal planchet flaw on the rim at 2 o'clock on the obverse and a corresponding indent on the reverse rim, perhaps explaining the conservative PCGS grade. This is an altogether satisfying and appealing early half. PCGS# 6052

**1795 Flowing Hair Half
Two Leaves, O-125**

- 3624** 1795 2 Leaves XF45 NGC. O-125, High R.4. Rich gunmetal-gray and autumn-gold toning embraces this nicely defined Flowing Hair type coin. The obverse periphery displays adjustment marks (as coined) and a cluster of thin abrasions resides between star 7 and the portrait. An important opportunity for the die variety specialist or early type collector.

Ex: FUN Signature (*Heritage*, 1/2001), lot 7727; *Chicago Signature* (*Heritage*, 8/2011), lot 3910. PCGS# 6052

**1802 O-101 Half Dollar, XF40
Low-Mintage Date**

- 3625** 1802 XF40 PCGS. O-101, R.3. A single die pair was used to coin this very scarce date. This deep cream-gray and olive-brown representative is well-defined. Abrasions are absent aside from a faint vertical mark above the bust tip. Liberty's shoulder, forehead, and cheek show light wear, as do the eagle's head and banner. Population: 14 in 40, 35 finer (10/13). NGC ID# 24EE, PCGS# 6065

BUST HALF DOLLARS

**1819 O-112 Half Dollar, MS65
Early Die State**

- 3626** 1819 MS65 NGC. O-112, R.3. This Gem represents the early die state before the reverse die cracked. Three auction appearances of a single MS65 example appear in Stephen Herrman's list, and this piece is equal to the other example. The two coins represent the finest available to collectors, and they are possibly the finest known O-112 half dollars. The obverse of this frosty Gem has steel toning blended with considerable light silver-gray, and the reverse exhibits a splendid, colorful display of sea-green and gold. NGC ID# 24FB, PCGS# 6117

**1829 O-106 Small Letters Half, MS63 Prooflike
Fully Mirrored Fields
Late Die State**

- 3627** 1829 Small Letters MS63 Prooflike NGC. O-106, Low R.5. There is no separate listing for the late die state O-106 half dollar of 1829, although the Overton reference describes a die crack through stars 10 and 11 to the hair curl that appears on some examples, including this prooflike specimen. Both Sides have brilliant centers with peripheral gold and iridescent toning. The finest known O-106 half dollar grades MS64, and the next best listed in Stephen Herrman's auction analysis is only MS61. This lovely example is likely the second finest known. NGC ID# 24FS, PCGS# 6154

**1831 O-119 Half Dollar, MS66
Possibly the Finest Known**

- 3628** 1831 MS66 NGC. O-119, R.2. Stephen Herrman reports auction appearances through MS65 but none finer in his *Auction and Mail Bid Prices Realized* review of early half dollars. This premium Gem has dappled golden-brown toning on ivory surfaces with fully brilliant ivory surfaces. Hints of blue and rose appear on the reverse. NGC ID# 24FV, PCGS# 6159

REEDED EDGE HALF DOLLAR

1839-O Reeded Edge Half Dollar, MS65 Condition Census GR-1 Example

3629 1839-O MS65 NGC. GR-1, R.1. The 1839-O Reeded Edge half dollar claims a mintage of 116,000 pieces with five die varieties known for the date. This coin represents the GR-1 variety with a recut mintmark that connects to the primary mintmark on the lower left side and short stubby talons on the eagle's claws. The GR-1 is the most available variety of the date accounting for about 95% of examples seen. The present coin is from a late state of the dies and shows an extensive network of die cracks on both the obverse and reverse. This is the only use of the obverse die, but the reverse was previously used to strike the famous 1838-O half dollars.

The coin offered here is a spectacular Gem with vibrant mint luster and well-preserved surfaces that show no mentionable signs of contact. The design elements are sharply detailed in most areas, with a touch of softness on the eagle's right (facing) claw and a few star centers. Eye appeal is outstanding. This coin should fit comfortably in the Condition Census for the variety. Census (for all varieties): 7 in 65, 3 finer (10/13). NGC ID# 24G7, PCGS# 6181

SEATED HALF DOLLARS

1842 WB-101 Half Dollar, MS64 Small Date, Large Letters

3630 1842 Small Date, Large Letters MS64 PCGS. WB-101. The obverse die is perfect, and the reverse die is cracked from the border to the O in DOL, continuing faintly through the eagle to the second T in STATES. Additional cracks connect the tops of UNITED STATES O. This elusive variety is rarely seen in high grades as the PCGS population data reveals. Both sides have satin luster with ivory surfaces and attractive peripheral gold toning. Population: 6 in 64, 1 finer (10/13). PCGS# 6240

1847-O Half Dollar, MS64+ WB-104, Die Doubled Obverse

3631 1847-O MS64+ PCGS. WB-104, Die Pair 21, R.3. The obverse is lightly die doubled, evident on Liberty's gown and the banner of the shield. Autumn-gold toning is extensive on the obverse and subtle on the reverse. A good strike aside from softness on the left (facing) claw. Well preserved apart from a field graze above the eagle's neck. Population: 3 in 64 (1 in 64+), 1 finer (10/13). NGC ID# 24HB, PCGS# 6259

1851 WB-101 Half Dollar, MS64 Bounce-Doubled Obverse

3632 1851 MS64 PCGS. WB-101. All silver coins from the early 1850s are elusive, and the 1851 half dollar is no exception. The mintage was 200,750 coins, but most of those were exported or hoarded and melted, so today, few high grade survivors exist for collectors. This near-Gem is highly attractive with bold design details and brownish-ivory surfaces, accented by lovely peripheral blue toning. This piece shows date doubling that is best described as "bounce doubling" when the die bounced or shifted, and restruck the coin during a single cycle of the coin press. Population: 11 in 64, 2 finer (10/13). NGC ID# 24HJ, PCGS# 6266

**1851-O Large O Half Dollar, Exceptional MS66
WB-4, Tied for Finest Certified**

- 3633 1851-O MS66 NGC. WB-101, Die Pair-4, R.3.** Late Die State. Wiley-Bugert point out, "By 1851, the value of silver rose to a point where a silver coin's silver content was worth more than the face value ... Consequently, large numbers of U.S. silver coins, mainly quarters and half dollars, were pulled from circulation, hoarded, melted, and/or exported for profit." Why was this O-mint half set aside and preserved in pristine condition? A question we will never know the answer to. This is a magnificent, bright, satiny coin that exhibits untuned, silvery centers that are surrounded by thin rings of russet and blue at the margins. The strike in the centers is complete, and only displays the slightest softness on the peripheral stars on the obverse. Census: 1 in 66, 0 finer (10/13). NGC ID# 24HK, PCGS# 6267

**1854-O Seated Half, MS65
Sharp and Lively Surfaces**

- 3634 1854-O Arrows MS65 NGC.** This is a workhorse date in the Seated half series that, for some reason, often appears somewhat dull and lifeless. Most examples are well-circulated or lower-grade Mint State. Not so here — this Gem coin has bright luster and pizzazz. The obverse is well struck especially on the head, drapery folds, and denticles. Light golden toning dapples the unmarked surface. The reverse is razor sharp and frosty white. There are 33 reverse varieties recorded exist for this date — variety hunters should take note of the reverse die cracks and a cud on the rim at 6 o'clock. Census: 9 in 65 (1 in 65+), 10 finer (10/13). NGC ID# 24JM, PCGS# 6280

**1855 Arrows Half Dollar, MS65
Elusive, Low-Mintage Issue**

- 3635 1855 Arrows MS65 PCGS. CAC.** Of the three-year With Arrows type, including the 1853 Arrows and Rays issues, the 1855 has the second lowest mintage behind the 1855-S. Only 759,500 half dollars were minted that year in Philadelphia. Nearly twice as many 1853-O half dollars were coined, and the other issues have higher mintages from 2.9 to 5.2 million pieces. The 1855 is a scarce issue that is extremely rare in Gem or finer grades.

This frosty and highly lustrous example has brilliant silver surfaces with delicate champagne toning. Each side has trivial marks with a few luster grazes, but the overall appearance is highly appealing. Population: 4 in 65, 2 finer (10/13). NGC ID# 24JN, PCGS# 6281

**1855/54 Seated Half, MS64
Seldom Seen at This Level**

- 3636 1855/54 Arrows MS64 PCGS. CAC. WB-102, FS-301.** A handsome example of the date with frosty, lustrous surfaces throughout. A dusting of powder-gray with golden highlights gives the coin memorable eye appeal. The strike is virtually full with just a little weakness on the eagle's leg and talon. Variety hunters will value the overdate — a nice bonus on this near-Gem half. The overdate feature is more prominent when struck from an early state of the dies. Later die states (such as this coin) retain vestiges of the 4 beneath the second 5. NGC ID# 24JN, PCGS# 6282

**1856-O Seated Half, MS65
Conditionally Rare**

- 3637 1856-O MS65 PCGS. CAC. WB-104.** Light repunching of the 6 to the south is clearly evident on this example. The 1856-O is one of the more frequently encountered No Motto halves after 1855. Although more than 2.65 million pieces were struck, Gems are infrequently seen and are always in demand as an O-mint type coin. A rare Gem example, this piece exhibits well-detailed design elements and strong satiny mint luster, under attractive shades of lavender-gray and golden-brown toning. Population: 7 in 65, 2 finer (10/13). NGC ID# 24HP, PCGS# 6288

**1859-O Seated Half Dollar, MS65+
Richly Toned**

- 3638 1859-O MS65+ NGC.** A high-end Gem example, this piece displays gorgeous toning in a number of attractive shades. Among the colors present are teal, yellow, copper-gold, orange-brown, and red. The coin exhibits a strong degree of design definition. The reverse reveals an as-made area of struck-in grease. Census: 1 in 65+, 1 in 65 ★, 3 finer (10/13). NGC ID# 24HZ, PCGS# 6297

1866 With Motto Seated Half, Golden-Toned MS66

- 3639 1866 Motto MS66 NGC.** Khaki toning with iridescent gold highlights overlay silver surfaces with some areas of deeper olive-bronze accents. An exceptionally strong strike is evident with all of Liberty's head sharp and needlelike eagle definition on the reverse. A couple of small contacts on the portrait do not detract from the handsome appearance of this coin. The natural look of this undisturbed half is refreshing and deserving of Premium Gem status. NGC lists five in this grade with only three higher (11/13). NGC ID# 24JS, PCGS# 6319

**1870-S Half Dollar, MS64
Very Rare in Mint State**

- 3640 1870-S MS64 NGC.** Despite a mintage of 1,004,000, the number of 1870-S survivors in Mint State grades is exceedingly small. NGC and PCGS combined have awarded the MS64 grade to only 3 examples, with only 3 finer (10/13). Light tan toning appears on this near-Gem displaying matte luster, along with scattered flyspecks. The strike is sharp overall, with a few minor areas of incompleteness noted. NGC ID# 24K3, PCGS# 6329

**1877-CC Half Dollar, MS65
WB-12, Repunched Date**

- 3641 1877-CC MS65 PCGS. WB-104, Die Pair-12.** Type Two Reverse. Medium CC. The base of the 77 is repunched. The centers are close to brilliant but the borders display blushes of apricot-gold, apple-green, and lilac toning. Well struck aside from Liberty's forehead curls. Lustrous and beautifully preserved with potent luster. The reverse die is clashed, while the obverse is without clash marks. Population: 17 in 65, 4 finer (10/13). NGC ID# 24KL, PCGS# 6356

PROOF SEATED HALF DOLLARS

1873 Arrows Half Dollar, Toned PR65

- 3642 1873 Arrows PR65 NGC.** The 1873 Arrows half dollar constitutes a major two-year type along with the 1874 issue. Cobalt-blue, lavender, and violet patination graces the obverse of this Gem, while the reverse takes on reddish-gold, tan, and yellow-gold hues. The design features are sharply struck. A moderate mark to the right of Liberty's mouth will help to pedigree this particular specimen. Census: 16 in 65, 8 finer (10/13). NGC ID# 27UU, PCGS# 6434

1875 Half Dollar, PR67
Only One Finer at Both Services Combined

- 3643 1875 PR67 NGC.** Only 700 proof half dollars were struck in Philadelphia in 1875. An astounding Superb Gem survivor, the obverse is particularly appealing on this piece. The central device retains a largely brilliant appearance, providing lovely contrast against the toned fields. The toning includes shades of teal, copper-brown, gold, sky blue, and plum. The strike is sharp overall. Census: 5 in 67, 1 finer (10/13). NGC ID# 27U9, PCGS# 6436

1880 Seated Half Dollar, PR66 Cameo
Only Two Numerically Finer

- 3644 1880 PR66 Cameo NGC.** The 1880 proofs with a mintage of 1,335 have added pressure placed on them by collectors due to low business-strike production of only 8,400 coins. A Premium Gem Cameo example, this piece exhibits strong design detail and displays gorgeous contrast between the richly frosted and brilliant devices and the reflective fields. Areas of toning are present in shades of teal, peach-gold, and red. Census: 14 in 66 Cameo (2 in 66 ★ Cameo), 2 finer (10/13). PCGS# 86441

1881 Half Dollar, Toned PR67
A Condition Rarity

- 3645 1881 PR67 NGC.** The year 1881 saw a mintage of 975 proof half dollars, and judging from NGC/PCGS population data a relatively large number of these have survived to the present day through the Premium Gem level. Superb Gems such as the present offering are conditionally rare, however, evidenced by the two services having seen only six PR67s and one finer. Reddish-gold, cobalt-blue, and violet toning adorns both sides, each of which is sharply struck and impeccably preserved. Census: 5 in 67, 1 finer (10/13). NGC ID# 27UG, PCGS# 6442

1882 Half Dollar, PR67
Conditionally Rare, Only One Finer

- 3646 1882 PR67 NGC. WB-102.** An interesting variety example, this coin exhibits the tops of two errant 8s in the denticles below the date. Of the total mintage of 6,600 pieces for the year, 1,100 were proofs. This richly toned example includes shades of teal, copper, and peach-gold. Aside from minor weakness of the eagle's right claw, the strike is exemplary. Census: 3 in 67, 1 finer (10/13). NGC ID# 27UH, PCGS# 6443

1883 Seated Liberty Half, PR66
Only Two Finer Coins at PCGS

- 3647 1883 PR66 PCGS. CAC.** A delightful Premium Gem, from a mintage of 1,039 pieces, the design elements are sharply detailed throughout and the fields are deeply mirrored. Vivid shades of cerulean-blue and emerald-green toning blanket the reverse, while the obverse remains mostly brilliant. Only 8,000 business-strike examples were struck, putting considerable pressure on the small supply of proofs from date collectors. Housed in a green label holder. Population: 14 in 66 (4 in 66+), 2 finer (10/13). NGC ID# 27UJ, PCGS# 6444

BARBER HALF DOLLARS

1892 Half Dollar, MS65
First Year Barber Half

- 3648 1892 MS65 PCGS. CAC.** This frosty Gem Barber half dollar has exceptional eye appeal, showing brilliant silver surfaces with splashes of gold and iridescent peripheral toning. The obverse and reverse design elements are sharply defined with slight weakness along the top edges of the wing as usual. PCGS has only certified 55 finer examples (11/13). NGC ID# 24LF, PCGS# 6461

**1896-S Half Dollar, Appealing MS64
Above-Average Strike and Minimally Marked**

3649 1896-S MS64 PCGS. CAC. Striking problems and excessive bagmarks plague the typical 1896-S Barber half dollar, accounting for its paucity in the better grades of Mint State. The current near-Gem fares much better in the above attributes. The design elements are sharply struck save for the usual touch of softness on the upper-right shield corner. Moreover, both sides reveal significantly fewer mentionable marks for the issue, or for that matter, for the designated grade. Lustrous surfaces display just the slightest hint of light gold-tan color. All in all, this coin exhibits above-average eye appeal, appropriately recognized by CAC. Population: 26 in 64 (1 in 64+), 14 finer (10/13). NGC ID# 24LX, PCGS# 6476

1901-S Half, Spectacularly Toned MS65

3650 1901-S MS65 PCGS. CAC. A difficult date in any condition, and one that is altogether rare in high Mint State. Just 14 coins graded MS65 and above appear on combined PCGS and NGC population reports. Of these, three are MS66 and only three are ranked higher (11/13), placing this coin among the half dozen finest certified of the date.

Rarity may be one thing, but eye appeal is everything. For those who prefer colorful toning, this coin is amazing. Intense blue, purple, burnt sienna, and russet predominate with complimentary pastel yellow, sky blue, lime green, and magenta, all intermingling like paint on a palette. The strike is full as expected for this San Francisco date — crisply detailed on all the usual trouble spots, such as the hair above the forehead, leaf tips, wing tips, eagle's head, tail, talons, and shield corners. All are sharp. Luster bursts through everywhere. Here is an unforgettable Barber half, destined for an advanced collector's set. NGC ID# 24ME, PCGS# 6491

**1904 Barber Half Dollar, MS66
Only One Finer Coin at PCGS**

3651 1904 MS66 PCGS. From a mintage of nearly 3 million pieces, the 1904 Barber half dollar is surprisingly difficult to locate in high grade and its rarity is definitely underrated at the MS66 level. This delightful Premium Gem displays well-preserved surfaces with pleasing pale gold patina and hints of magenta. Vibrant mint luster shines through the toning and the design elements are sharply detailed throughout. Population: 5 in 66, 1 finer (10/13). NGC ID# 24MM, PCGS# 6498

**1907-O Half Dollar, Patinated MS66
Above-Average Strike**

3652 1907-O MS66 NGC. The 1907-O half dollar, coming from a mintage approaching 4 million pieces, is available in most grades through near-Gem. Gem examples are scarce and higher-grade pieces are rare. Variegated sky-blue, lavender, reddish-gold, and violet patination covers the lustrous surfaces of this Premium Gem. Significantly, the design elements are sharply struck, an unusual attribute as this issue is "Probably the worst struck coin of the Barber Half series" (David Lawrence, 1991). Only the upper-right shield corner is a tad weak on this particular example. Great preservation and eye appeal. Census: 5 in 66, 3 finer (10/13). NGC ID# 24N2, PCGS# 6510

**1907-S Half, MS64
Sharply Struck and Deeply Toned**

3653 1907-S MS64 PCGS. CAC. Deep pinkish-orange toning covers each side of this near-Gem, quite appeal even if it does subdue the luster a tad. The strike is well-executed, including on the upper-right shield corner and wing, but a few stray marks on Liberty's nose and cheek appear to preclude a Gem grade. Population: 9 in 64, 14 finer (10/13). NGC ID# 24N3, PCGS# 6511

PROOF BARBER HALF DOLLARS

1895 Barber Half, PR67 Ultra Cameo Incredible Contrast and Eye Appeal

- 3654 1895 PR67 Ultra Cameo NGC.** A total of 880 proofs were struck in 1895. A stunning Superb Gem Ultra Cameo example, this piece possesses strong contrast, in which the frosty devices appear to float upon deeply mirrored, watery fields. Subtle hints of light gold toning are present. Sharp definition prevails throughout, further enhancing the eye appeal of this piece. Census: 0 in 67 Ultra Cameo, 2 finer (10/13). PCGS# 96542

1896 Barber Half, PR67+ Only Two Finer Coins at PCGS

- 3655 1896 PR67+ PCGS. CAC.** The 1896 proof Barber half dollar, with a reported mintage of 762 pieces, shows enhanced desirability because of the low circulation strike mintage of just 950,000 coins. This high-end Superb Gem example displays reflective luster throughout both sides, with about equal portions of pastel light blue and pinkish-gold. The eye appeal is excellent, and there are no obvious surface marks. A touch of incomplete detail appears at the upper-right shield corner, but the design elements are sharply detailed elsewhere. Population: 9 in 67 (1 in 67+), 2 finer (10/13). NGC ID# 24NY, PCGS# 6543

1900 Barber Half, PR68 Among the 12 Finest Certified by NGC

- 3656 1900 PR68 NGC.** This turn-of-the-century Barber half in Superb Gem proof grade is among the finest survivors from the mintage of 912 pieces, a nominal amount, even if slightly higher than the years preceding or following. NGC has seen a total of 12 submissions at this top grade level, including two each in Cameo and Ultra Cameo (1/13). While the present coin lacks such a modifier, considerable contrast between the fields and devices is apparent, more so on the reverse. Brilliant luster is equally abundant beneath a moderate layer of copper-pink patina with silver areas remaining. The strike is full throughout both sides, even on the problematic right (facing) shield border and eagle's wing nearby. NGC ID# 24P4, PCGS# 6547

1904 Half Dollar, PR67 Sharply Struck, Concentrically Toned

- 3657 1904 PR67 NGC. CAC.** Concentric toning rings of rose, pale blue, light yellow, and sunset-orange enliven the surfaces of this lovely Superb Gem proof 1904 Barber half. The sharp proof strike has produced an impression that stops just short of full, the right shield corner showing just a touch of softness. Nonetheless, this is an extremely attractive example of the issue. Census: 13 in 67, 3 finer (11/13). NGC ID# 24P8, PCGS# 6551

1908 Half Dollar, PR67 Colorfully Toned

- 3658 1908 PR67 NGC.** Under a light the rather deep toning resolves into pastel purple-gray and light blue hues, an attractive color palette. The strike is full save for trivial weakness on the upper-right shield corner — more a defect of the design than of the strike, given its prevalence even on proof coins such as this Superb Gem. Census: 14 in 67 (1 in 67+), 3 finer (10/13). NGC ID# 24PC, PCGS# 6555

1909 Half Dollar, PR68
Great Toning and Preservation

3659 1909 PR68 PCGS. CAC. Because the proof Barber coinage of 1902 and later was of the brilliant finish that minimized cameo contrast, collectors seeking attractive examples must focus on other attributes such as toning. This PR68 specimen is beautifully patinated on top of its high grade. Gold-green, blue, and violet toning graces both sides, in patches on the obverse and in seamless waves across most of the reverse. A silvery area appears on much of Liberty's cheek and neck. Sharply struck, carefully preserved, reflective in the fields, and flat-out gorgeous. Population: 7 in 68, 0 finer (10/13). NGC ID# 24PD, PCGS# 6556

1915 Barber Half Dollar, PR68 ★
Finest Certified Example

3660 1915 PR68 ★ NGC. CAC. Only 450 proof Barber half dollars were struck in 1915, the final year of the design. Among proof Barber half dollars, only the 1914 issue can claim a smaller mintage. The business-strike mintage was a mere 138,000 pieces, putting strong pressure on the limited supply of proofs from date collectors and causing some speculation in this date. The present coin is a magnificent specimen, with razor sharp definition on all design elements and deeply mirrored fields. The pristine surfaces are blanketed in vivid shades of emerald green and cerulean-blue toning displaying a dazzling play of colors. The Star designation attests to the incredible eye appeal. Census: 5 in 68 (1 in 68 ★), 0 finer (10/13). NGC ID# 24PK, PCGS# 6562

WALKING LIBERTY HALF DOLLARS

1917-D Walking Liberty Half, MS65 First Year With Reverse Mintmark

- 3661 1917-D Reverse MS65 NGC.** Among the mintmarked issues of 1917 half dollars, the varieties with obverse "D" or "S" have the lower mintages and greater fame. It is clear from census data, however, that at the Gem level the reverse-mintmark issues are condition rarities themselves. This 1917-D half dollar with reverse mintmark is primarily pale silver with well-rounded luster and occasional hints of gold against pale silver surfaces. A few tiny marks are clustered on Liberty's skirt, yet the fields are surprisingly abrasion-free. Detail is average with the stub of a thumb visible on the branch hand. Census: 24 in 65 (1 in 65+), 4 finer (10/13). NGC ID# 24PS, PCGS# 6571

1919-S Half Dollar, MS62 Second Rarest Series Issue in Mint State

- 3662 1919-S MS62 PCGS.** The 1919-S is the second-rarest Walking Liberty half dollar in Mint State grades and hails from a small mintage of 1.5 million pieces. The coins circulated extensively at the time of issue and few examples were saved by collectors. A gorgeous MS62 representative, this example displays lustrous brilliant surfaces, with subtle gold toning appearing on the reverse. NGC ID# 24R2, PCGS# 6579

1920-D Half Dollar, MS64 Smooth Satin Luster

- 3663 1920-D MS64 PCGS.** This near-Gem example of the 1920-D half dollar offers most of the virtues of a Gem grade, but the issue is far more often found in MS64 than in MS65; for example, PCGS has seen only 49 submissions numerically finer (10/13). Smooth satin luster covers both sides, with areas of silver and pinkish-gray alternating throughout. A few small ticks and luster grazes appear in the right obverse field, and there is only a trace of a thumb showing. This piece nonetheless offers plenty of eye appeal and appears high-end for the grade. NGC ID# 24R4, PCGS# 6581

1921-D Half Dollar, Near-Mint Largely Intact Luster

- 3664 1921-D AU58 PCGS. CAC.** A briefly circulated example of this notable Walking Liberty key, one of several in the series. The luster is broadly intact, silver-gray and subtly swirling with hints of rose. Liberty's head shows significant detail, as does the thumb of the branch hand. This coin would fit well in an otherwise Mint State set of halves. NGC ID# 24R7, PCGS# 6584

1921-D Half Dollar, MS63
Mintage 208,000 Pieces

3665 1921-D MS63 PCGS. CAC. Virtually all of the Denver Mint's coining efforts in 1921 went to silver dollars, 20,345,000 examples of a revised Morgan design struck when its Peace dollar replacement was not ready on time. Beyond that, mintages were pittance or nonexistent: 1.08 million dimes, 208,000 half dollars, and nothing else.

Understandably enough, the 1921-D half dollar is a key date, particularly in Select and better grades where the issue is scarce. This MS63 example has above-average design definition with head details and an outlined thumb. Lustrous, slightly frosted surfaces have a pearl-gray base and faint gold and blue overtones. NGC ID# 24R7, PCGS# 6584

1934-S Half Dollar, MS66
Above-Average Strike

3666 1934-S MS66 PCGS. The 1934-S Walking Liberty half dollar, with a mintage exceeding 3.6 million pieces, is the leading rarity among the middle-date series. The present coin is a scarce Premium Gem, with strong mint luster and a sharp strike, including Liberty's head and the eagle's breast feathers, areas that are often soft. The branch hand is also well-defined. Iridescent shades of gold and ice-blue toning enhance the pleasing surfaces. PCGS has graded only seven pieces finer (10/13). NGC ID# 24RH, PCGS# 6594

1935-D Half Dollar, MS66+
Among the Finest Certified

3667 1935-D MS66+ PCGS. Though lightly toned overall, small russet freckles appear on portions of this highly lustrous Premium Gem. Hints of silver-blue and olive-green are also present. Slightly soft at the centers as usual, and the right obverse field has a few delicate grazes. The reverse is close to pristine. Tied for finest certified at PCGS, and none are graded finer at NGC (10/13). NGC ID# 24RK, PCGS# 6596

**1935-S Half Dollar, MS66+
Scarcer S-Mint From the 1930s**

- 3668 1935-S MS66+ PCGS. CAC.** This mid-1930s, S-mint half dollar is a wonderful candidate to join a high-grade set or fill the need for a top-of-the-line type coin. With only three graded finer by PCGS, there are precious few high-grade specimens any finer than this Premium Gem. Lustrous, light-golden toning is touched with deeper orange, blue and copper accents, giving this attractive half unquestioned originality. The Plus designation by PCGS is a significant marker of quality and exceptional appeal, as is the CAC-approved label. NGC ID# 24RL, PCGS# 6597

**1941-D Half Dollar, Exceptional MS68
Tied for the Three Finest Certified**

- 3669 1941-D MS68 NGC.** The 1941-D half dollar is one of the most common Denver Mint Walkers. Examples are readily available through Premium Gem, and MS67s, while scarce, can be acquired given enough time and financial resources. Specimens in the lofty grade of MS68, however, are all but unknown. Intensely lustrous surfaces are lightly toned and exhibit sharply struck design elements, including the branch hand, which is usually weak. The gown lines are also razor-sharp. Immaculate preservation rounds out the outstanding technical quality and aesthetic appeal of this exceptional coin. An opportunity to acquire a piece such as this may be a once-in-a-lifetime event. NGC has seen just two examples and PCGS only one; none are finer at either service (10/13). NGC ID# 24S4, PCGS# 6612

1945-S Half Dollar, Well-Struck MS67

- 3670 1945-S MS67 PCGS.** This 1945-S Walking Liberty half dollar is one of only 40 submissions in this ultimate grade at PCGS and NGC combined, and there are none finer. Occasional whispers of light tan visit the highly lustrous surfaces that exhibit well-struck design elements, including Liberty's branch hand, a typically weak feature. Both sides are devoid of significant marks. Population: 13 in 67, 0 finer (10/13). NGC ID# 24SH, PCGS# 6626

PROOF WALKING LIBERTY HALF DOLLAR

**1937 Half Dollar, PR68
Second of Seven Years of Striking
Proof Walking Liberty Halves**

- 3671 1937 PR68 NGC.** A magnificent PR68 example of this popular date with a proof mintage of just 5,728 pieces. This coin exhibits razor-sharp definition on all design elements and deeply reflective fields with no visible distractions. A few hints of pale gold and violet toning enhance the terrific eye appeal. Census: 22 in 68 (3 in 68 ★), 0 finer (10/13). NGC ID# 27V5, PCGS# 6637

FRANKLIN HALF DOLLARS

1952 Half, MS67 Full Bell Lines
Rich Reverse Toning

3672 1952 MS67 Full Bell Lines PCGS. CAC. A virtually immaculate Superb Gem that boasts potent luster and a good strike. The reverse displays rich peach-gold toning along with glimpses of mint-green and a peripheral scattering of russet patina. The obverse is comparatively lightly toned but exhibits iridescent lemon-gold, rose-red, and apple-green shades. Population: 8 in 67 Full Bell Lines, 0 finer (10/13). NGC ID# 24T3, PCGS# 86661

1961-D Half, MS66 Full Bell Lines
Brilliant and Beautiful

3673 1961-D MS66 Full Bell Lines PCGS. The 1961-D is readily available in typical Mint State, but Premium Gems are rare, especially a good strike on the bell lines. The present piece is close to brilliant and exhibits dazzling luster. The fields are exceptionally preserved and only wispy marks on the bell preclude an even finer grade. Population: 13 in 66 Full Bell Lines, none finer (10/13). NGC ID# 24TP, PCGS# 86681

EARLY DOLLARS

1795 Flowing Hair Dollar, Choice XF
Three Leaves, B-5, BB-27

3674 1795 Flowing Hair, Three Leaves XF45 PCGS. B-5, BB-27, R.1. Traces of luster within the wreath, wings, stars, and legends confirm this early silver type coin has witnessed only light circulation. Wear is mostly apparent on the eagle's breast and the curls above the ear. Light almond-gold toning graces both sides. A lens reveals a number of tiny gray spots. No abrasions are remotely relevant aside from minor marks on the forehead. Struck only for portions of two years, the Flowing Hair dollar is a scarce and historic type. Though collectible in well circulated or abused condition, problem-free examples with partial luster are highly elusive relative to demand. NGC ID# 24WZ, PCGS# 6852

1795 Draped Bust Dollar, VF35
Off Center Bust, B-14, BB-51

3675 1795 Draped Bust, Off Center VF35 PCGS. CAC. B-14, BB-51, R.2. An original dove-gray example with traces of dirt in design recesses, a look desired by specialists. The reverse shows moderate mint-made adjustment marks at the center and margin, but post-strike abrasions are inconsequential for the grade. Believed to be the very first Draped Bust die variety of any denomination, since the misplaced bust (entered too far to the right, relative to the die) would have been a learning experience prior to making B-15. PCGS# 96858

1797 Draped Bust Dollar, MS62
10x6 Stars, B-3, BB-71
Ex: Cardinal Collection

3676 1797 10x6 Stars, Large Letters MS62 PCGS. B-3, BB-71, R.2.

Ex: Cardinal Collection. Bowers-Borckardt Die State III. A die dot to the right of the second digit in the date appears to make the date read 17.97. The reverse has large letters in the legend, and there are eight berries in the left branch, with the lowest berry near the ribbon bow on the outside of the wreath. A leaf ends under the middle of E in STATES. There are three leaves below the left (facing) wing. Die State III shows relapping on both sides—the highest wave of hair under the upright of B in LIBERTY is incomplete, as are the right edges of several palm leaves. This is the die state usually seen.

The silver-gray luminous surfaces of this MS62 example display occasional splashes of light golden-tan and bluish-violet. A relatively well executed strike imparts strong definition to the design features, including most of the star centrils, Liberty's hair strands and drapery, the branch leaves, and the eagle's plumage, with the exception of weakness in the lower right breast and right (facing) leg. Light diagonal adjustment marks run from upper right to lower left through Liberty's portrait, terminating in the 1 of the date and in stars 1 through 4. Light clash marks are visible in the right obverse field. A few minor handling marks are noted on each side, but these do not detract from the overall appeal of this attractive early dollar. This coin traces its history to several famous collections, including the R.L. Miles Collection and the Cardinal Collection. Population: 2 in 62, 3 finer (10/13).

Ex: R.L. Miles Collection (*Stack's*, 4/1969), lot 1532; Public Auction Sale (*Stack's*, 9/1975), lot 299; ANA Signature (*Heritage*, 8/1998), lot 8028; Cardinal Collection (*American Numismatic Rareities*, 6/2005), lot 20; Central States Signature (*Heritage*, 4/2009), lot 2543. NGC ID# 24X4, PCGS# 6865

1798 Draped Bust Dollar, MS60
Small Eagle Reverse, 15 Stars, B-2, BB-81
Popular Guide Book Variety

3677 1798 Small Eagle, 15 Stars MS60 NGC. B-2, BB-81, R.3. Unrecorded Die State. The 1798 Draped Bust, Small Eagle BB-81 silver dollar is the only die marriage of the date that has 15 stars. It is well known that Tennessee, the 16th state, joined the Union on June 1, 1796, so only dies produced before that date would logically have had 15 stars. Numismatists theorize that the 15 Stars die was produced in 1795 without a final digit, then finished with an 8 in 1798 and pressed into service. (Bowers and Borckardt note an alternative explanation, a simple die-cutting error similar to the 1817 15 Stars cent.)

The 8 in the date is distinctive, with the top loop an oval lying on its side and the bottom loop a circle. This 8 is different from the 8 punches used for early-1800s dollars, and in fact is identical to the 8 punch used for the 1798 eagle gold coins.

The Small Eagle reverse began to disappear from some coinage denominations, for example the gold half eagle and eagle, as early as 1797, but this Small Eagle reverse for the silver dollar was used in four consecutive years (at least according to the obverse dates), from 1795 through 1798, in pairings with six different obverse dies: the 1795 BB-51; the 1796 BB-62, BB-63, and (after relapping) the BB-66; the 1797 BB-72; and the 1798 BB-81. The reverse is easily distinguished by the presence of a berry under the A of STATES, but in this final incarnation for the reverse, the reverse definition is weak because of the noted relapping.

This coin is in an unrecorded die state according to Bowers-Borckardt. While there is no evidence of a crack from under the chin to the border below star 15, there is a prominent die crack from between stars 6 and 7 to Liberty's hair ribbon. The highest hair curl is lapped and shows considerable incompleteness. This example displays numerous small contact marks on the central obverse, most of them only visible under a loupe, and elsewhere the light field chatter resolves only under magnification into wispy contact marks. The coloration on the obverse is predominantly grayish-gold with a touch of pink on the highpoints, but on the reverse there is a pinkish cast covering much of the coin save for the silvery rims.

Ex: *Stack's (privately, 3/1979)*; *David Queller*; *Queller Family Collection of Silver Dollars (Heritage, 4/2008)*, lot 2016. NGC ID# 24X5, PCGS# 6868

1799 B-6, BB-162 Dollar, XF45
Late Die State

- 3678** 1799 7x6 Stars XF45 NGC. B-6, BB-162, R.3. Bowers Die State IV, with several die cracks visible on the reverse. This is the latest die state recorded in the literature. A pleasing Choice XF example, this piece exhibits delicate blue toning over gray and gold surfaces. Scattered marks are noted on each side, consistent with the grade. NGC ID# 24X7, PCGS# 6878

1799 B-6, BB-162 Dollar, AU50
From the Jules Reiver Collection

- 3679** 1799 7x6 Stars AU50 PCGS. B-6, BB-162, R.3. Ex: Jules Reiver Collection. Stars 1, 13 distant, star 7 close, star 8 closest; TA in STATES touch clouds. Reiver die state b. Bowers-Borckardt die state III. This is the Reiver plate coin for the obverse of this variety. Here is a delightful example for the collector, the surfaces retain some of the original luster, and the coin is flashy. Fully struck by the dies and well preserved, with minimal signs of handling. The die state is later than often seen, with a die crack down through STAT to below ED, another light crack down through the second E, crack left of OF, another crack down through OF to wing, and another crack down AMER to the lower leaf pairs in the branch. While not as rare as once thought, this variety is difficult to locate this nice. A great coin for the variety specialist. Described in the Spies catalog as "A choice Extremely Fine to About Uncirculated, pale iridescent toning. Rarity 5." Ex: *Stack's W. Earl Spies Sale (December, 1974) lot 121*; *Jules Reiver Collection (Heritage, 1/2006)*, lot 23566. NGC ID# 24X7, PCGS# 6878

1799 Draped Bust Dollar, AU55
B-5, BB-157 Variety

- 3680** 1799 7x6 Stars AU55 NGC. B-5, BB-157, R.2. Bowers-Borckardt Die State II. The clash marks above the date, the imperfect U in UNITED, and the points of the last two stars on the right touching the clouds identify the popular BB-157 variety. This well-detailed Choice AU example shows traces of mint luster under dark gray and amber patina. NGC ID# 24X7, PCGS# 6878

1799 Draped Bust Dollar, MS63
Elusive B-18, BB-154 Variety
Probably Finest Known BB-154

3681 1799 7x6 Stars MS63 PCGS. B-18, BB-154, R.4. Bowers-Borckardt Die State III. A series-record mintage of 423,515 Draped Bust silver dollars was accomplished in 1799, but some of the coins may have been dated 1798. Twenty two die varieties are known for the date, including three overdate die marriages. This coin represents the BB-154 variety, with the bust positioned right of center, so the top curl is centered under the space between E and R in LIBERTY. On most specimens of BB-154 a heavy die crack is seen between E and D in UNITED, stretching across the wing to the top of the shield. Fewer than four examples have been reported without the diagnostic crack. The obverse die was also used to strike the BB-155 variety, while this was the only use of the reverse die.

The BB-154 is the second rarest variety of the date. John W. Haseltine listed it as H-18 and called it "a very rare variety" in his 1881 Type Table. M. H. Bolender classified it as B-18 and rated it "... extremely rare. Rarity 6." A few more examples have surfaced over the years, but the surviving population numbers no more than 60-100 examples in all grades today. Most examples seen are well-worn and Mint State pieces are extremely rare. This coin is the number one example in Q. David Bowers' list of Notable Specimens and almost certainly the finest known of the variety.

The coin offered here is a delightful Select specimen, with crisp detail on all design elements and well-preserved surfaces that show only minor signs of contact. A shallow scrape under the R in LIBERTY is mentioned for pedigree purposes. Pleasing shades of russet, gold, teal, and bluish-gray toning blanket both sides, with flashes of original luster underneath. No planchet adjustment marks are present, and eye appeal is outstanding. This coin should find a home in the finest variety collection of early dollars.

Ex: Eliasberg-Krause Collections (*Stack's*, 3/2010), lot 1118. NGC ID# 24X7, PCGS# 6878

1799 B-23, BB-159 Bust Dollar, AU50
Star Pattern Reverse — Usually Seen on Gold Coins

- 3682** 1799 8x5 Stars AU50 PCGS. B-23, BB-159, R.4. This single 1799 variety is the only appearance of the 8x5 star layout that normally appears on gold coins of that era. This lovely AU example has brilliant silver surfaces with scattered, inconsequential handling marks. An important opportunity as this variety appears infrequently. PCGS# 6881

1800 Dollar, Choice XF
B-12, BB-184

- 3683** 1800 XF45 PCGS. B-12, BB-184, R.3. Bowers Die State I. The gunmetal-gray fields and devices are bounded by narrow peripheral bands of aquamarine and golden-brown. Luster glimmers from the design crevices, and the few small marks on the right obverse are of little relevance. A problem-free example of this moderately scarce variety.
Ex: Orlando FUN Signature (Heritage, 1/2009), lot 4298, which realized \$4,168.75. NGC ID# 24X9, PCGS# 6887

1802/1 Draped Bust Dollar, AU58
Wide Date, B-3, BB-234 Variety

- 3684** 1802/1 Wide Date AU58 NGC. B-3, BB-234, R.3. Bowers-Borckardt Die State III. Only 41,650 Draped Bust dollars were struck in 1802, with seven die varieties known for the date. A small die lump between stars 8 and 9 and Liberty's forehead identifies this coin as a representative of the BB-234 variety. The present coin is a well-preserved specimen, with only the slightest trace of actual wear evident on the devices. The die was lapped prior to striking this late die state, and some detail was lost in the process, including some of the arrow shafts and much of cloud 6. Both sides exhibit pleasing pinkish-gray patina, with no mentionable distractions. Census: 18 in 58, 8 finer (10/13). PCGS# 6899

1802 B-6, BB-241 Dollar, AU Details
Narrow Date

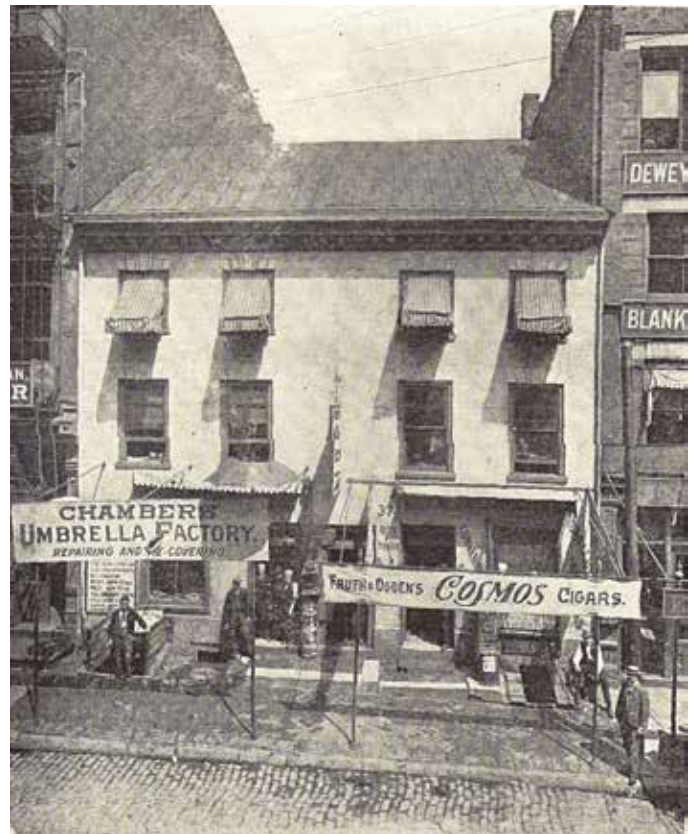

- 3685** 1802 Narrow Date — Stained — NGC Details. AU. B-6, BB-241, R.1. Luster remains visible beneath the modern blue-green and iridescent toning on both sides of this sharply details silver dollar. Scattered handling marks on both sides are typical and entirely inconsequential. NGC ID# 24XB, PCGS# 6895

1802 B-6, BB-241 Dollar, AU53
Ex: Dr. Hesselgesser Collection

3686 1802 Narrow Date AU53 PCGS Secure. B-6, BB-241, R.1. Ex: Hesselgesser. This is the plentiful 1802 Normal Date dollar variety, usually called the Narrow Date although that feature is not visually obvious. This attractive piece has delicate champagne toning with deep golden-brown splashes on the high points. A lovely specimen for a date or type set.
Ex: Dr. Robert Hesselgesser (*Goldberg Coins*, 9/2011), lot 5129. NGC ID# 24XB, PCGS# 6895

Early 20th century photo of the first Mint building

GOBRECHT DOLLAR

1836 Gobrecht Dollar, Brightly Mirrored PR64 Judd-60, Die Alignment IV, An Early Restrike

3687 1836 Name on Base, Judd-60 Restrike, Pollock-65, R.5, PR64 PCGS. CAC. Silver. Plain Edge. No Stars Obverse, Stars Reverse. Die Alignment IV (head of Liberty opposite OF after a medal turn). The straight, diagonal die clash mark above the eagle's wing is especially prominent on this dollar. The rule-of-thumb for Restrike 1836 dollars is there are two distinct versions of the reverse die. The earliest state shows no die cracking (as seen here). The second state was reworked and in its earliest version shows die cracking through the letters. As confirmation of this being the earliest first version, the dentil chip on the final A in AMERICA is clear, as is the tiny dentil chip to the right of the same letter. These markers, and the lack of die cracking, places the striking period for this piece just after the reverse die clashed with the obverse, making the diagonal mark especially prominent. This piece was obviously one of the first struck after the Original striking period, now believed to be in the final week of December of 1836.

It would be logical to assume that prior to producing the Restrike coins the dies would have been polished. And this coin shows abundant evidence of that. The fields are exceptionally bright for a Gobrecht dollar from this early era. The strike definition is also notably strong with no areas of softness on either side, including the foot and sandal of Liberty as well as the high point of the eagle's breast feathers. Each side is covered with light blue toning, light enough that the mirrored flash from the fields shines brightly through the color — not a given on many Gobrecht dollars. Exceptional quality, this is a Gobrecht dollar worthy of inclusion in a high-grade 19th century type set. PCGS# 11227

SEATED DOLLARS

1856 Silver Dollar, AU58 Scarce No Motto Date

3688 1856 AU58 PCGS. Another challenging date within the No Motto series, the 1856 has a mintage of only 63,500 pieces. Survivors are scarce in all grades. The present briefly circulated example has almond-gold toning, an average strike, and an absence of relevant marks. In a green label holder. Population: 11 in 58, 24 finer (10/13). NGC ID# 24YV, PCGS# 6944

1859-O Dollar, MS63 Conditionally Scarce

3689 1859-O MS63 PCGS. The 1859-O Seated dollar is fairly available through the MS62 level of preservation. Select examples are scarce and higher-grade coins are rare. The silver-white surfaces of this MS63 example have frosty luster and well-struck design features, though the hair atop Liberty's head reveals the usual weakness. Population: 57 in 63, 21 finer (10/13). NGC ID# 24YY, PCGS# 6947

1872-CC Seated Dollar, MS61 Rarity Gorgeous Color, Semiprooflike Fields

3690 1872-CC MS61 NGC. Ex: Sweet Collection. With only 3,150 pieces produced, the 1872-CC is a rare and highly sought-after Seated dollar. The small mintage in 1872 was reserved primarily for private depositors. Starting in 1873 most of these dollars entered circulation when the intrinsic silver value dropped below the coin's face value. This may explain why locating an 1872-CC dollar in Mint State is so difficult. Probably no more than 250 to 300 coins of this date survive in all conditions. Unduplicated, true Mint State survivors likely number fewer than 40.

Expect plentiful and energetic bids for this MS61 dollar. Reflective surfaces abound with vibrant blue, purple, red, and magenta iridescence. Silvery devices emerge from the deeper pools of color with pleasing field-device contrast. The strike and wide rims are impressive. Apparently, the coin is kept from an even higher grade by some reverse rim chatter, since otherwise the coin has practically no abrasions or detractors of any kind. The all-important eye appeal is excellent. In short, this is a Carson City rarity not to be missed. Census: 5 in 61, 8 finer (10/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24ZK, PCGS# 6969

PROOF SEATED DOLLARS

1861 Seated Liberty Dollar, PR65 Elusive Date in High Grade

3691 1861 PR65 NGC. The growing popularity of coin collecting resulted in a feeling of optimism at the Philadelphia Mint in 1861 where a generous mintage of 1,000 silver and minor proof sets was struck on April 15. Unfortunately, the Civil War began with the firing of rebel forces on Fort Sumter on April 12 and the resulting financial stresses and uncertainties dampened enthusiasm for proof sets. Probably no more than 350 sets were actually distributed, with the remainder melted early in 1862. The 1861 proof Seated Liberty dollar is the most difficult date of the early 1860s to locate today, despite smaller mintages in other years.

The present coin is a spectacular Gem, with sharply detailed design elements throughout. Vivid shades of gray, cerulean-blue, and lime-green toning mingle on the reflective well-preserved surfaces. No mentionable surface flaws are evident. Census: 9 in 65 (1 in 65+, 1 in 65+★), 10 finer (10/13). NGC ID# 252F, PCGS# 7004

1865 Seated Dollar, Toned PR65

3692 1865 PR65 NGC. Deep and colorful toning wafts on highly-reflective, mirror fields of this Gem proof No Motto dollar. Despite a low mintage of just 500 proofs, nice examples of the date are occasionally available and this one ranks high above others in the Gem category. Bursts of orange-gold toning emanate from the portrait and eagle, demanding attention. Azure blue, bronze-green and ruddy red fields complement orange-gold central details. Beautiful, wide rims and a strong strike complete the powerful impression made by this coin. Census: 27 in 65 (2 in 65+), 14 finer (10/13). NGC ID# 252K, PCGS# 7008

1870 Seated Liberty Dollar, PR64 Lightly Toned, Reflective Fields

3693 1870 PR64 NGC. The 1870 proof Seated Liberty dollar is more difficult to locate than its generous mintage of 1,000 pieces suggests. This attractive Choice specimen displays sharply detailed design elements in most areas, with a touch of softness on the eagle's claws. The deeply reflective fields show a few minor hairlines and contact marks and wisps of pale gold toning add to the considerable eye appeal. Census: 49 in 64 (1 in 64+, 1 in 64★), 28 finer (10/13). NGC ID# 252S, PCGS# 7018

1871 Seated Dollar, PR65+ Deep Cameo
Sensational Eye Appeal

3694 1871 PR65+ Deep Cameo PCGS. For all dates from 1840 to 1873, PCGS has certified more than 3,900 proof Seated dollars. However, only 108 of those coins are awarded the Deep Cameo designation, including two graded PR65+ Deep Cameo, 12 certified PR66 Deep Cameo, and three graded PR67 Deep Cameo.

For the year 1871, PCGS has only certified seven Deep Cameo proof Seated dollars ranging from PR63 to PR66. These coins are extraordinarily rare, and also quite beautiful. This example has amazing contrast with brilliant silver surfaces and only faint champagne toning. Sensational eye appeal is offered to the connoisseur. Population: 2 in 65 (1 in 65+) Deep Cameo, 1 finer (11/13). PCGS# 97019

TRADE DOLLARS

1877 Trade Dollar, Conditionally Rare MS65
Above-Average Strike

3695 1877 MS65 PCGS. CAC. The 1877 Trade dollar claims a mintage exceeding 3 million business strikes, many of which went into domestic circulation or were exported, helping explain why relatively few are known in mint condition. Gem and finer pieces are quite rare. The present MS65 offering displays a silver-white obverse that cedes to whispers of light tan and lavender on the reverse. The design elements are much better struck than usually seen on this typically weak issue, though Liberty's head and the adjacent stars are soft. We mention two minute round marks in the field just right of Liberty's right (facing) elbow and a few linear marks on the lower part of the left (facing) wing solely for identification purposes. Nevertheless, this is a nicely preserved example well deserving of the CAC label. Population: 7 in 65, 1 finer (10/13). NGC ID# 253C, PCGS# 7044

1877-CC Trade Dollar, MS62
Frosty, Vibrant Surfaces

- 3696 1877-CC MS62 PCGS. CAC.** The mintage of only about a half-million pieces for the 1877-CC Trade dollar makes the issue popular today, a semikey even in the lower circulated grades. This MS62 PCGS example with CAC sticker boasts vibrant surfaces displaying frosty mint luster and high eye appeal. Tinges of light gold accent both sides, which are otherwise untoned. A few marks are scattered about, the only mentionable one a hit on Liberty's jawline. Population: 37 in 62 (1 in 62+), 41 finer (10/13). NGC ID# 253D, PCGS# 7045

1878-CC Trade Dollar, AU58
Last Carson City Series Issue

- 3697 1878-CC AU58 NGC.** The introduction of the Morgan dollar in 1878 tolled the death knell for the Trade dollars, even though the series gasped a few more breaths in the form of proof-only issues in the early 1880s before expiring altogether. Treasury Secretary John T. Sherman (younger brother to Civil War legend General William Tecumseh Sherman) on Feb. 22, 1878, dispatched a letter ordering that the production of Trade dollars for circulation cease. (Sherman actually authorized the discontinuance in late 1877, but technical loopholes allowed the production of 1878-CC and 1878-S Trade dollars. In any case, they had been demonetized to avoid becoming fiat money some two years previously, on July 22, 1876; falling silver prices during the 1870s meant that the Trade dollar by 1876 contained only 91 cents' worth of silver if melted, compared to \$1.02 when the series began in 1873.) The Bland-Allison Act, passed on Feb. 28, 1878, authorized the "Bland" silver dollars, or Morgan dollars as we know them now.

In Carson City, Nevada, that facility struck only 97,000 examples of the 1878-CC issue, with 44,148 of those melted in July. Rusty Goe writes in *The Mint on Carson Street* that "it is plausible that the remaining 52,852 pieces circulated domestically, most likely not all in the Carson City area, but nevertheless in the western states. This would explain the incongruity of a low mintage and at the same time a higher survival ratio."

Pinkish-gray patina appears on each side of this scarcely circulated coin, which shows a few scattered handling marks and light rub on the high points, in keeping with the grade. Census: 9 in 58, 27 finer (10/13). NGC ID# 253F, PCGS# 7047

PROOF TRADE DOLLARS

1875 Trade Dollar, PR64 Deep Cameo
Tremendous Eye Appeal

- 3698 1875 PR64 Deep Cameo PCGS.** Type One Obverse. Type Two Reverse. Fantastic white-on-black contrast shows on both the obverse and reverse of this near-Gem. Light golden toning resides on each side with a deeper accent of color just over the denticles. The design elements are sharply struck throughout. Gem classification is precluded by a few wispy hairlines in the fields. Nevertheless, this coin exudes tremendous overall eye appeal. Population: 6 in 64 (1 in 64+) Deep Cameo, 2 finer (10/13). Ex: Long Beach Signature (Heritage, 9/2002), lot 7276. PCGS# 97055

1877 Trade Dollar, Rainbow-Toned PR65

- 3699 1877 PR65 PCGS. CAC.** A mere 510 proofs were made of this date, but surprisingly many still exist, although relatively few have been certified in this grade or higher. Among those, the ones with nice eye appeal bring a premium over many lacking attractive surfaces, and this colorful example must rank near the top of the list of winners. Rich, fulfilling color appears everywhere on its deeply reflective surfaces. A two-sided toned Gem — sure to attract Trade dollar specialists and collectors of exceptionally toned coins alike. Population: 16 in 65, 5 finer (10/13). NGC ID# 27YN, PCGS# 7057

**1878 Trade Dollar, Toned PR65
Proof-Only Issue, Rare in High Grade**

- 3700 1878 PR65 PCGS.** The Philadelphia Mint produced 900 proof Trade dollars in 1878, but no business-strikes were minted. The issue is usually seen in grades below PR64 and examples in Gem condition are rare. Both sides of this lovely Gem display attractive toning. The obverse includes teal, fuchsia, russet, and orange colors, with Liberty largely draped in a pale gold hue that accentuates the well-executed strike. Although little reflectivity remains visible on that side, the center of the reverse remains flashy. The eagle is largely draped in rich golden-orange toning with shades of pink, blue-green, and russet appearing at the outer edges. Population: 15 in 65, 10 finer (10/13). NGC ID# 27YP, PCGS# 7058

**1878 Trade Dollar, PR66
Vivid Multicolor Toning**

- 3701 1878 PR66 PCGS. CAC.** Business-strike coinage of Trade dollars was suspended at the Philadelphia Mint in 1878, but 900 proof examples were struck to satisfy collector demand. The issue enjoys a fairly high survival rate, but most examples seen are in the PR60-PR63 range. The 1878 is quite elusive in PR66 condition, and finer grades are prohibitively rare.
- The coin offered here is a spectacular Premium Gem with sharply detailed design elements and deeply mirrored fields under vivid shades of gray, emerald-green, and cobalt-blue toning. No mentionable distractions are evident and eye appeal is outstanding. Population: 9 in 66, 1 finer (10/13). NGC ID# 27YP, PCGS# 7058

**1879 Trade Dollar, PR66+ Deep Cameo
The Finest at PCGS**

- 3702 1879 PR66+ Deep Cameo PCGS. CAC.** Stunning silver-on-black contrast is the hallmark of this Deep Cameo Trade dollar, certified PR66+ by PCGS and with CAC approval. Just a few whispers of reddish-tan patina cling to the margins. The surface preservation is impeccable and the strike bold, making this piece an excellent potential acquisition to represent the type. It is the finest of only four 1879 Deep Cameos certified at PCGS (10/13). The 1879 proof Trade dollar mintage was a nominal 1,541 coins, but the issue stands out as the first of several proof-only emissions that would mark the eventual end of the series. PCGS# 97059

**1881 Trade Dollar, PR65
Proof-Only, Late-Series Issue**

- 3703 1881 PR65 NGC.** The 1881 Trade dollar is a proof-only issue with a reported mintage of 960 pieces. A richly toned Gem example, this piece reveals several shades of color including teal, copper, orange, plum, and gray. Luster emerges beneath the patina on large portions of the coin. The design elements exhibit a precision strike, adding to the eye appeal. Census: 36 in 65, 28 finer (10/13). NGC ID# 27YT, PCGS# 7061

1881 Trade Dollar, PR65 Cameo
Popular Proof-Only Type Issue

- 3704** 1881 PR65 Cameo PCGS. Splashes of rich blue and gold toning are located near the edge of this brilliant Gem Cameo proof Trade dollar. The centers are essentially brilliant with a slight ivory tint, showing excellent contrast between the mirrored fields and lustrous devices. Population: 26 in 65 Cameo, 11 finer (10/13). PCGS# 87061

1881 Trade Dollar, PR65 Cameo
Sharply Struck

- 3705** 1881 PR65 Cameo PCGS. Formerly sold as lot 7288 in our September 2002 Long Beach Sale, where it was described as, "Anyone who prefers their Gem quality proof type coins to be fresh and fully white really should inspect this glittering specimen. Both sides exhibit glassy mirrors that are dramatically offset, particularly on the reverse, by chalky, well frosted features." The coin realized \$8,912.50 in that sale. Many 1881 proof Trade dollars are weakly struck on Liberty's head and the upper stars, but this impressive Gem example is sharply detailed throughout. This piece exudes pleasing overall eye appeal. Population: 27 in 65 Cameo, 11 finer (10/13). PCGS# 87061

1881 Trade Dollar, PR66 Deep Cameo
Fourth Annual Proof-Only Issue

- 3706** 1881 PR66 Deep Cameo PCGS. CAC. Amazing white-on-black contrast appears on this impressive Premium Gem proof Trade dollar, the fourth annual proof-only issue of that design. Business strike production of Trade dollars was halted at Philadelphia at the beginning of 1878 as that Mint concentrated on Morgan dollar production. The Carson City and San Francisco Mints continued producing Trade dollars that year, but discontinued the series entirely after 1878. Proofs continued in production through 1883, with a small number of 1884 and 1885 Trade dollars also minted. The obverse of this gorgeous piece has a splash of toning at the upper border, and the reverse has delicate rose and iridescent peripheral toning. Population: 2 in 66 Deep Cameo, 1 finer (10/13). PCGS# 97061

1882 Trade Dollar, Toned PR66
Above-Average Strike

- 3707** 1882 PR66 NGC. The 1882 Trade dollar was a proof-only issue with a substantial mintage of 1,097 pieces. Sky-blue, lavender, and gold toning is somewhat more extensive and deeper on the obverse of this Premium Gem. An above-average strike is seen on the design elements, including Liberty's head and the stars that are often weak. Census: 30 in 66, 6 finer (10/13). NGC ID# 27YU, PCGS# 7062

**1882 Trade Dollar, PR64+ Deep Cameo
Fully Struck**

- 3708 1882 PR64+ Deep Cameo PCGS. CAC.** Trade dollars were produced exclusively in proof format in 1882, with a generous mintage of 1,097 pieces. A gorgeous high-end near-Gem example, this piece exhibits a sharp strike, rich contrast, and virtually untuned surfaces. A few tiny flecks appear near Liberty's knee. Minor hairlines do not pose a distraction. Population: 1 in 64+ Deep Cameo, 21 finer (10/13). PCGS# 97062

**1883 Trade Dollar, PR65
Final Regular Proof Issue**

- 3709 1883 PR65 PCGS.** The final Trade dollar except for the clandestine 1884 and 1885 issues, the 1883 was a proof-only issue with a mintage of only 979 coins. Only two other proof-only Trade dollars had lower mintages: 900 minted in 1878, and 960 minted in 1881. This lovely Gem has a sharp strike with fully mirrored fields beneath blue, violet, and iridescent toning on both sides. Population: 48 in 65, 19 finer (10/13). NGC ID# 27YV, PCGS# 7063

MORGAN DOLLARS

**1878 Morgan, 8TF, MS62 Prooflike
Rare VAM 14.7 'Flake on Ear' Variety**

- 3710 1878 8TF Flakey Ear MS62 Prooflike PCGS. VAM 14.7.** A Hit List 40 Variety. The 8 Tail Feathers reverse was used only in 1878, the first year of the Morgan design, making this issue extremely important to type collectors. The coin offered here shows a small die flake next to Liberty's ear, a diagnostic of the very rare VAM-14.7 variety. VAMWorld.com states only seven examples of the VAM-14.7 have been confirmed to date.

This coin shows slight doubling on the date and obverse stars, characteristic of the VAM-14.7, and a radial die crack to the right of 1 in the date. A rather large planchet lamination shows between L and U in PLURIBUS. The fields are brightly mirrored and mostly brilliant, with just a hint of gold toning in isolated areas. The reverse shows the usual flatness of detail on the eagle's breast, caused by the die design, but this coin is sharply struck. This lot represents a rare opportunity for the Morgan dollar specialist. *From The Parfeld Collection.* PCGS# 40159

**1878 Morgan, MS63
Semiprooflike VAM 14.16 'Wild Lips' Variety**

- 3711 1878 8TF Wild Lips MS63 PCGS. VAM-14.16.** Highly reflective fields on both sides of this frosty white, Select Uncirculated dollar almost qualify for full Prooflike status. The VAM variety is a Hot 50 designation with the doubling of the lips and profile clearly in evidence. A high-grade representative of this popular 8 Tailfeathers variety. *From The Parfeld Collection.* PCGS# 133811

**1878 Tripled Blossoms 7/8TF Dollar
VAM-44, Top 100, AU53**

- 3712 1878 7/8TF Tripled Blossoms AU53 PCGS. VAM-44.** A Top 100 Variety. The Top 100 Guide refers to VAM-44 as “the Number One Morgan dollar variety.” The eagle’s legs are die doubled, but the key feature is the obverse tripled leaves and blossoms. The present lightly toned example displays ample bright luster and is free from any consequential marks.
From The Parfeld Collection. PCGS# 133829

**1878 Tripled Blossoms Dollar, AU55
VAM-44, Top 100**

- 3713 1878 7/8TF Tripled Blossoms AU55 PCGS. VAM-44.** A Top 100 Variety. VAMWorld.com dubs this variety the “King of VAMs,” with far fewer known than the number sought by collectors. This minimally abraded, Choice AU Morgan shows golden toning accents here and there around the devices and on partially reflective fields. The extremely rare VAM-44 represents one of the 7/8 Tailfeathers Weak reverses, the reverse shared with the common VAM-33. Population: 8 in 55, 13 finer (10/13).
From The Parfeld Collection. PCGS# 133829

**1878 7 Tailfeathers Reverse Dollar
Well-Preserved MS66**

- 3714 1878 7TF Reverse of 1878 MS66 PCGS.** This Premium Gem 7 Tailfeathers example, from the first year of Morgan silver dollar coinage, occurs with the Reverse of 1878, that is, the eagle’s flat breast and parallel arrow feathers. Light multicolored toning adorns the lustrous surfaces that exhibit well-struck design elements. Both sides have been well cared for. This issue is virtually unobtainable any finer. Population: 27 in 66 (1 in 66+), 0 finer (10/13). NGC ID# 253K, PCGS# 7074

1878-CC Dollar, Well-Struck MS66+

- 3715 1878-CC MS66+ PCGS. CAC.** The 1878-CC dollar enjoys great popularity among collectors due to it being the first-year-of-issue and the CC mintmark. The lustrous surfaces of this high-end Premium Gem exhibit well-struck design elements, including the hair above Liberty’s ear. Even the eagle’s breast, an area that is usually flat on most examples, shows remarkable feather detail. Both sides possess exceptional eye appeal, aptly recognized by CAC. Population: 6 in 66+, 5 finer (10/13). NGC ID# 253M, PCGS# 7080

1878-S Dollar, Well-Struck MS67

- 3716 1878-S MS67 PCGS.** A sliver of soft yellow-gold patination adheres to the rims of this Superb Gem Morgan. Both sides yield pleasing luster and exhibit sharply struck design elements. The hair over Liberty’s ear and the eagle’s breast feathers are nicely detailed. The lustrous surfaces are minimally marked, as expected for the designated grade. Light planchet striations are visible on Liberty’s face, a characteristic shown by many specimens of this issue. Population: 20 in 67, 1 finer (10/13). NGC ID# 253R, PCGS# 7082

**1878-S Dollar, Strongly Lustrous MS67
Peripherally Toned**

- 3717 1878-S MS67 NGC.** The 1878-S Morgan, sporting a mintage approaching 10 million pieces, is plentiful in Mint State through MS65. The population drops considerably in Premium Gem, but nice examples can still be located with relatively little trouble. NGC and PCGS have graded slightly more than 50 pieces in MS67 and one finer. The highly lustrous surfaces display deep cobalt-blue, lavender, and reddish-gold toning that clings to the margins. The design elements are well-defined, including the centers, and a few minute marks on Liberty’s cheek do not detract. This coin yields great technical quality and aesthetic appeal. Census: 32 in 67 (4 in 67 ★), 0 finer (10/13). NGC ID# 253R, PCGS# 7082

**1878-S Dollar, MS65 Deep Mirror Prooflike
Untoned and Profoundly Contrasted**

- 3718 1878-S MS65 Deep Mirror Prooflike PCGS.** This silver-white first-year S-mint Morgan dollar is untoned throughout but exhibits immense contrast between the frosty devices and the reflective fields, a trait that the lack of perceptible color enhances. A couple of minor scuffs in the right obverse field account for the grade, but this coin will find a parade of willing bidders. Population: 16 in 65 Deep Mirror Prooflike, 3 finer (10/13). NGC ID# 253R, PCGS# 97083

**1878-S Morgan, MS62 Deep Mirror Prooflike
Nicely Mirrored, Extremely Rare VAM-60 Variety**

- 3719 1878-S Long Arrow MS62 Deep Mirror Prooflike PCGS. CAC. VAM-60.** A Top 100 Variety. An eye-catching Morgan with surprisingly unmarked fields and devices for the grade. A halo of orange peripheral toning frames deeply reflective fields on both sides of this vibrant dollar. The VAM-60 designation is a bonus with a long center nock on the arrow and the small S mintmark hanging high and to the left. Extremely rare and in demand. From *The Parfeld Collection*. PCGS# 40654

**1879 Morgan Dollar, MS65
Rare Deep Mirror Prooflike Specimen**

- 3720 1879 MS65 Deep Mirror Prooflike PCGS.** The 2014 *Guide Book* reports a generous mintage of 1,100 proof Morgan dollars for 1879, but most survivors show little Cameo contrast. The present coin is a remarkable exception, displaying sharply detailed design elements with richly frosted texture that contrasts profoundly with the deeply mirrored fields. The devices seem to float on the well-preserved brilliant surfaces. A few minor hairlines and contact marks do little to detract from the terrific eye appeal. This coin should find a home in a fine collection or Registry Set. Population: 7 in 65 Deep Mirror Prooflike, 1 finer (10/13). NGC ID# 253S, PCGS# 97085

**1879-CC Morgan Dollar, MS63
Low-Mintage Issue**

- 3721 1879-CC MS63 PCGS. CAC.** The 1879-CC is the second-rarest Morgan dollar from the Carson City Mint (after the 1889-CC), with a low reported mintage of 756,000 pieces. Whispers of gold-tan color adhere to the rims of this lustrous Select example, especially on the obverse. Fairly good detail is apparent in the hair above Liberty's ear and on the eagle's breast feathers. A number of scuffs and contact marks are noted on Liberty's face and neck. NGC ID# 253T, PCGS# 7086

1879-CC Morgan Dollar, MS64
Vivid Reverse Toning

- 3722 1879-CC MS64 NGC.** Among Morgan dollars from the Carson City Mint, only the famous 1889 issue is more elusive than the 1879-CC, which claims a low-mintage of 756,000 pieces. This well-detailed Choice example displays vivid shades of greenish-gold and violet toning on the reverse, while the obverse shows only wisps of champagne-gold and lavender. Frosty mint luster shines through the toning on both sides. NGC has graded 35 numerically finer examples (10/13). NGC ID# 253T, PCGS# 7086

1879-CC Silver Dollar, MS63
Attractive Rim Toning

- 3723 1879-CC Capped Die MS63 ANACS. VAM-3.** A Top 100 Variety. The quaint (and puzzling) "Capped Die" term in reality is a repunched mintmark, a large CC over small CC. The 1879-CC is one of the most popular Carson City Morgan dollars, in any case. This Select example certified by ANACS shows attractive copper-russet and violet rim toning contrasting against silver centers. Some roller marks appear in the hair over the ear and the lower eagle's breast, areas not fully struck out during production. NGC ID# 253T, PCGS# 7088

1879-S Morgan Dollar, MS68
Virtually Perfect Type Coin

- 3724 1879-S MS68 PCGS.** A virtually perfect specimen of the popular 1879-S Morgan dollar. The leading grading services have graded no numerically finer examples (10/13). The surfaces are brilliant throughout and exhibit thick mint frost. Fully struck as well, there are obviously no distracting marks on either side of this very impressive type coin.
Ex: Long Beach Signature (Heritage, 5/2003), lot 7394. NGC ID# 253X, PCGS# 7092

1880 8/7 Dollar, Appealing MS65
VAM-9, Top 100
One of the Five Finest Certified

- 3725 1880 8 Over 7 Stem MS66 PCGS. CAC. VAM-9.** A Top 100 Variety. Traces of a largely effaced 7 are seen within both loops of the second 8 in the date. As of late October 2013, PCGS has graded more than 600 examples of the 8/7 overdate, mostly in MS63 and MS64. Gems totaled 27 pieces, Premium Gems five examples, and none finer. NGC has seen 46 VAM 9s, primarily in grades MS62 to MS64. Two pieces were graded Gems and none finer. The present MS66 VAM-9 is thus one of the five finest certified to date.
Each side is untuned, silver-white with intense mint luster. The design features are sharply struck, including excellent detail in the hair above Liberty's ear. A few light scuffs are within the parameters of the designated grade. The CAC label affirms the above-average eye appeal of this coin. Population: 5 in 66, 0 finer (10/13).
From The Parfeld Collection. PCGS# 133874

1880-CC Morgan Dollar, MS66
VAM-7, 8/7 Reverse of 1878

- 3726 1880-CC 8/7 Reverse of 1878 MS66 PCGS. VAM-7.** A Hit List 40 Variety. The bottom of the stem of the undertype 7 shows as a dash below the second 8 in the date and the parallel arrow fletching indicates the elusive Reverse of 1878. This sharply detailed Premium Gem displays well-preserved mostly brilliant surfaces with a few hints of golden-tan toning and vibrant mint luster on both sides. Population: 40 in 66 (2 in 66+), 2 finer (10/13). PCGS# 7110

**1888-O Morgan Dollar, MS65
Small O, VAM-53B**

3727 1880-O MS65 PCGS. CAC. VAM-53B. Ex: The Shrike Set. Clear obverse and reverse clash marks in combination with several prominent reverse die gouges identify this Small O variety. Characteristics of VAM-53B are clearly illustrated at VAMWorld.com, where it is listed as R.6.

Both sides of this Gem are highly lustrous with brilliant and frosty silver surfaces and an above average strike, including some hair definition over Liberty's ear. There is no evidence of toning on either side. The date is elusive in high grades. In fact, NGC and PCGS have yet to certify any examples above MS65. Population for 1880-O: 32 in 65, 0 finer (10/13).

Ex: *The Shrike Set - The Karschner Collection of Morgan Dollars / Tampa FUN Signature (Heritage, 1/2011), lot 5651, which brought \$23,000. NGC ID# 2543, PCGS# 7114*

**1880-S Dollar, MS68
Popular Type Issue**

3728 1880-S MS68 PCGS. CAC. The 1880-S is one of the most available issues in the Morgan dollar series. Indeed, among Morgans of the early years (1878 to 1904), the 1880-S is second only to the 1881-S. The majority of Mint State pieces extant today were released during the dispersal of the Treasury hoard from 1962 through 1964. Both sides of this MS68 example display partially prooflike tendencies, and each exhibits relatively strong definition on the design elements. A short linear mark to the right of Liberty's upper lip is the only mentionable abrasion. NGC ID# 2544, PCGS# 7118

**1880-S Morgan Dollar, MS68
Nearly Flawless Brilliant Surfaces**

3729 1880-S MS68 PCGS. CAC. The 1880-S Morgan dollar is known as a well-produced issue, but few specimens can match the quality and eye appeal of the present coin. Razor-sharp definition is evident on all design elements and the pristine brilliant surfaces radiate vibrant frosty mint luster. PCGS has graded only five numerically finer examples (10/13). NGC ID# 2544, PCGS# 7118

**1881 Silver Dollar, MS66+
Only Two MS67s Finer at PCGS**

3730 1881 MS66+ PCGS. CAC. Frosty silver surfaces are largely untuned but beam with luster on this Premium Gem 1881 Morgan, given the MS66+ grade by PCGS and the CAC approval. A few tiny henpecks on Liberty's cheek are scarcely worth mentioning but seem to constitute the grade, along with a few minuscule spots of dark toning just above the ear. Population: 99 in 66 (3 in 66+), 2 finer (10/13). NGC ID# 2546, PCGS# 7124

**1881-CC Dollar, White MS67
Exceptional Quality for a CC Dollar**

- 3731 1881-CC MS67 NGC.** The 1881-CC dollar, despite being a low-mintage issue of fewer than 300,000 pieces, is plentiful in Mint State owing to the dispersal of former Treasury holdings in the 1950s to 1970s. Consequently, even Premium Gems can be obtained with little searching. MS67 examples are very scarce, however, and higher-grade specimens are virtually unobtainable. Silver-white lustrous surfaces show on both sides of this Superb Gem, complemented by boldly struck design elements. Impeccable preservation further enhances the coin's pleasing eye appeal. NGC has graded only three examples finer (10/13). NGC ID# 2547, PCGS# 7126

**1881-CC Dollar, MS67
Pleasing Cartwheel Luster**

- 3732 1881-CC MS67 PCGS.** Despite a low mintage of just 296,000 pieces, the 1881-CC dollar remains available for a price in most grades because they were kept in government holdings rather than spent. Superb Gems such as this well-defined and modestly toned example, however, remain scarce. PCGS has graded only three examples in MS68 or finer (10/13). NGC ID# 2547, PCGS# 7126

1884-CC Dollar, Conditionally Scarce MS67

- 3733 1884-CC MS67 PCGS. CAC.** The 1884-CC Morgan dollar, sporting a mintage exceeding 1 million pieces, is plentiful in Mint State grades, with thousands of coins certified through Premium Gem by PCGS and NGC. It is only in MS67 where the issue becomes challenging to acquire. The essentially untuned surfaces are awash with frosty luster and remain in a well-preserved state. The design elements are well-struck, including the centers that are sometimes weak on this issue. Population: 74 in 67, 5 finer (10/13). NGC ID# 254M, PCGS# 7152

**1886-O Morgan Dollar, MS64
Conditional Rarity**

- 3734 1886-O MS64 PCGS.** The 1886-O Morgan dollar issue is conditionally rare, available occasionally up to the near-Gem level of the present coin but seldom — make that, *almost never* — seen finer. PCGS has seen precisely three submissions in numerically higher grades — two in MS65, one in MS65+ (11/13). This attractive coin is silver-white with just a light touch of gold, and the surfaces show a few small marks and ticks, nothing blatant, that are consistent with the grade but still quite eye-appealing. Small dabs of russet and charcoal patina appear in the left reverse field. NGC ID# 254W, PCGS# 7168

**1887 'Donkey Tail' Dollar, MS61
VAM-25A**

- 3735 1887 Donkey Tail MS61 PCGS. VAM-25A.** A Top 100 Variety. The "Donkey Tail" is named after the die break beneath the right base of the D in DOLLAR. Initially designated as VAM-1A, but reclassified after it was proven to be a later die state of VAM-25. VAMworld.com enthuses, "Mint State Donkey Tails are truly ultra rare!" For the variety, the most frequently certified grade at PCGS is XF45. This lustrous and brilliant example is lightly abraded for the grade though the centers are softly brought up and the upper cheek has a shallow mint-made strike-through. Population: 5 in 61, 5 finer (10/13). PCGS# 133907

**1887-O Dollar, Elusive MS65+
Above-Average Luster and Strike**

3736 1887-O MS65+ PCGS. CAC. More than 11 million Morgan dollars were struck by the New Orleans Mint in 1887, resulting in an ample supply of Mint State examples for today's collectors. Even near-Gems can be located with minimal difficulty. The population of MS65s shows a pronounced drop, but even these can be found with diligent searching. High-end Gems such as the present coin, however, are elusive. In fact, PCGS has graded just eight specimens as MS65+ and nine finer (10/13). Finding a nice 1887-O is made more difficult because both the luster and strike are typically subpar on most surviving examples.

Our current offering is a refreshing exception. Pleasing luster exudes from the silvery surfaces of both sides. And while not fully struck, the design elements are better-defined than ordinarily seen, especially on the hair above Liberty's ear and the eagle's breast feathers. A few light scattered marks do not detract. The Plus designation and the CAC label attest to the coin's above-average technical quality and aesthetic appeal. NGC ID# 2552, PCGS# 7176

**1888-O Morgan Dollar, MS64
Popular 'Scarface', VAM-1B3 Variety**

3737 1888-O Scarface MS64 PCGS. CAC. VAM-1B3. A Top 100 Variety. This 1888-O Morgan dollar displays a the dramatic diagonal die break across Liberty's face that characterizes the popular VAM-1B3 variety. The VAM-1B3 is a late die state of the VAM-1B variety and commands a considerable premium over the earlier die states where the crack extends only to the dot between E and P, or slightly further into the field. This coin shows the typical softness on the central devices and both sides show light smoky-gray patina with deeper color around the margins.

Ex: *FUN Signature* (Heritage, 1/2007), lot 7119; *West Palm Beach Signature* (Heritage, 6/2008), lot 1370.
From The Parceld Collection. PCGS# 87184

**1889-CC Silver Dollar
Uncirculated Details**

3738 1889-CC — Altered Surfaces — PCGS Genuine. Unc. Details. This sharply struck key date Carson City dollar displays unbroken cartwheel luster and has only trivial marks aside from a slender line on Liberty's chin. The obverse shows slight ice-blue toning while the reverse has a hint of tan-gold patina. The devices are moderately granular, as struck from lightly rusted dies. Though the reverse is lustrous, the obverse luster is subdued, likely the reason for the PCGS designation. NGC ID# 2559, PCGS# 7190

**1891 Dollar, Well-Struck and Lustrous MS65+
Only Two Finer at NGC**

3739 1891 MS65+ NGC. The 1891 Morgan dollar is usually of low quality in terms incompleteness of strike and unattractive luster. This high-end Gem, however, is surprisingly well-struck, including the hair over Liberty's ear, and both sides display pleasing luster. Lavender, cobalt-blue, and gold patination is more extensive and deeper on the obverse. Census: 1 in 65+ and 2 finer (10/13). NGC ID# 255G, PCGS# 7204

**1891-CC Dollar, MS65 Prooflike
Only Two Finer at PCGS**

3740 1891-CC MS65 Prooflike PCGS. The 1891-CC is very difficult to locate with prooflike fields, and is even more challenging in Gem condition and with reflective fields. In fact, PCGS and NGC have seen just 18 such coins and two finer. Both sides display some field-motif contrast at various angles, and each exhibits well-struck devices. Population: 14 in 65 Prooflike, 2 finer (10/13). NGC ID# 255H, PCGS# 7207

**1892-S Morgan Dollar, AU55
Seldom Seen in High Grade**

- 3741 1892-S AU55 PCGS.** The 1892-S Morgan dollar was not heavily represented in the Treasury releases of the 1960s and high grade examples are seldom encountered in today's market. This Choice AU specimen shows just a touch of wear on the well-detailed design elements and the surfaces are lightly abraded on both sides, showing a mix of prooflike reflectivity and cartwheel mint luster at different angles. NGC ID# 255P, PCGS# 7218

**1892-S Dollar, Near-Mint State
Minimally Marked**

- 3742 1892-S AU58 NGC.** Whispers of low-intensity yellow-gold, lavender, electric-blue, and orange-gold patination cascade over both sides of this near-Mint State example. The recessed areas display mint luster and the design elements are well-struck, save for the usual weakness in the centers. This coin shows remarkably few marks for a large, heavy silver dollar that has seen brief circulation. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 255P, PCGS# 7218

**1893-CC Morgan Dollar, MS62
Final Carson City Issue**

- 3743 1893-CC MS62 PCGS.** The 1893-CC Morgan dollar boasts a low mintage of 677,000 pieces, struck during the final year of coinage operations at the Carson City Mint. This impressive MS62 example features well-detailed design elements and partially prooflike surfaces, with a scattering of minor contact marks on both sides that explains the grade. NGC ID# 255S, PCGS# 7222

**1893-CC Morgan Dollar, MS62+
Reflective Fields**

- 3744 1893-CC MS62+ NGC.** Like many others, this attractive final-year Carson City Morgan dollar has satin luster with reflective fields and frosty devices, showing myriad bagmarks, yet retaining excellent eye appeal. Both sides are brilliant with a hint of golden-violet peripheral toning. *Ex: Roy Harte Collection, Part II (Bowers and Ruddy, 3/1981), lot 435.* *From The Ole Miner's Collection.* NGC ID# 255S, PCGS# 7222

1893-S Dollar, Well-Detailed VF20

- 3745 1893-S VF20 PCGS.** This key-date issue is no stranger to auctions, but high demand by Morgan date collectors and by those who just want an example in their collection ensures that they are readily bought up. Golden-tan and lavender toning flows over both sides of this VF specimen. Decent detail is still apparent on the design elements despite moderate wear. A few light pinscratches on the obverse portrait are within the parameters of the grade designation and do not unduly detract. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 255U, PCGS# 7226

**1893-S Morgan, XF45
Excellent Eye Appeal**

- 3746 1893-S XF45 PCGS.** This is an extremely attractive Choice XF example of the perennially popular 1893-S Morgan, nicely toned silver-gray with light glints of gold. Contact marks are minimal throughout both sides, but this piece has top-notch eye appeal and an overall appearance that most series specialists should well appreciate. NGC ID# 255U, PCGS# 7226

**1894 Morgan Dollar, MS64
Low-Mintage, Key Date**

3747 1894 MS64 PCGS. CAC. With the lowest business strike mintage (only 110,000 pieces produced) of any Morgan dollar except the 1893-S, the 1894 date is recognized for its scarcity and desirability in higher Mint State grades. Opportunistic collectors are quick to search out high-end, near-Gem coins. This is one of those. White and frosty with rolling cartwheel luster, a few abrasions appear on the neck but no serious marks are seen anywhere else on the coin. The fields and rims are especially nice. PCGS has graded just 26 of this date numerically finer (11/13). NGC ID# 255V, PCGS# 7228

**1894 Dollar, Condition Rarity MS65
Colorfully Toned Reverse**

3748 1894 MS65 PCGS. The 1894 dollar saw just 110,000 pieces struck, the smallest circulation-strike figure in the Morgan dollar series except for the 1893-S. Examples are elusive in all grades, and Mint State pieces are mostly in the lower ranges through MS63. Near-Gems are scarce and Gems are condition rarities. PCGS and NGC have graded fewer than 25 MS65s and only four specimens finer.

The obverse of this amazing Gem example displays creamy-white centers and a touch of orange-gold peripheral color. The reverse is more deeply and extensively patinated with similar golden shades edged with cobalt-blue and lavender on the left side. The design elements are well-struck, including a fair amount of detail in the hair over Liberty's ear. A few trivial blemishes can be seen on and to the left of Liberty's neck and on her chin, both minimally distracting locations. All in all, this is one of the nicest 1894 Morgans that we have ever offered, and is sure to wind up as a centerpiece of a carefully assembled collection of this popular series. Population: 20 in 65, 4 finer (10/13).

Ex: FUN Signature (Heritage, 1/2003), lot 8145; Long Beach Signature (Heritage, 2/2003), lot 7516; Baltimore Signature (Heritage, 7/2003), lot 8817. NGC ID# 255V, PCGS# 7228

**1895-S Morgan Dollar, MS62 Prooflike
Popular Low-Mintage Issue**

- 3749 1895-S MS62 Prooflike PCGS.** From a small mintage of 400,000 pieces the 1895-S Morgan dollar is seldom seen in MS62 condition with the Prooflike designation. This sharply detailed specimen exhibits brilliant surfaces with prooflike reflectivity in the fields and only minor contact marks. Population: 21 in 62 Prooflike, 33 finer (10/13). NGC ID# 255Z, PCGS# 7239

**1901 Dollar, MS62
Above-Average Strike**

- 3750 1901 MS62 NGC.** Both sides of this MS62 Morgan display reddish-gold, violet, and golden-brown patination. The design features are better-struck than ordinarily seen on this issue, including relatively strong definition in the hair over Liberty's ear. Each side shows fewer marks than what might be expected for the grade designation. The 1901 becomes scarce in the higher levels of Mint State. From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 256J, PCGS# 7272

**1901 Morgan, Shifted Eagle, PCGS AU58
Rare Doubled Die Reverse, Guide Book Variety
VAM-3, Top 100**

- 3751 1901 Doubled Die Reverse AU58 PCGS. VAM-3.** A Top 100 Variety. The VAM-3 is unlisted above MS60 in the *Guide Book*. Only a few Mint State pieces exist, the highest an MS62+ PCGS example that sold for over \$40,000 in our August 2013 Signature Sale. This near-Mint example presents clearly doubled tailfeathers diagnostic of this rare variety. The surfaces are white and brightly lustrous on the obverse, with a more subdued, frosty reverse. All 1901 Morgan dollars are desirable above AU. Here is an opportunity to acquire the ultra-rare "Shifted Eagle" in a more affordable grade. Population: 12 in 58, 2 finer (10/13). From The Parfeld Collection. PCGS# 7302

**1903-S Dollar, MS65
A Scarce Issue in the Morgan Series**

- 3752 1903-S MS65 PCGS.** The 1903-S is a scarce issue in the Morgan dollar series, and Mint State coins are desirable at all levels. The present Gem offering displays strong luster and is well-struck, save for weakness on the eagle's breast. Both sides are minimally marked. PCGS has graded fewer than 40 finer (10/13). NGC ID# 256T, PCGS# 7288

**1904 Dollar, MS66
None Finer at PCGS**

- 3753 1904 MS66 PCGS Secure.** For more than a decade, the 1904 was the "last of the silver dollars" made at Philadelphia, before the Peace dollar (and the 1921 Morgan dollars introduced out of necessity when the aforementioned design was not ready on time) intervened. Fewer than 2.8 million examples were struck and they were not saved with much purpose, so better-than-Gem pieces are condition rarities. This MS66 example is richly toned with narrow green-gold outer bands that fade through blue and violet, ending in broad rose-gray centers. Population: 17 in 66, 0 finer (10/13). NGC ID# 256U, PCGS# 7290

1904-S Dollar, MS66 Prooflike
Single Finest Certified at PCGS

- 3754 1904-S MS66 Prooflike PCGS.** Ex: Jack Lee. It is natural for most collectors, via *Guide Book* listings and various album formats (physical and virtual), to think of a series such as Morgan dollars from front to back, or 1878 to 1921 in the case at hand. Viewed from such a perspective, the S-mint dollars in the series grow more and more elusive and conditionally rare from the 1901-S through the 1904-S. This Premium Gem 1904-S is also the only Prooflike example certified at PCGS above the Gem level, and there are no Deep Mirror Prooflike examples of the issue in any grade. Light golden tinges intermingle with silvery areas throughout both sides, with reflective fields contrasting against frosty devices and a lack of mentionable contact. A stunning coin destined for an advanced collection. Population: 1 in 66 Prooflike, 0 finer (10/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 256W, PCGS# 7295

PROOF MORGAN DOLLARS

1878 8 Tailfeathers Dollar, PR66 Cameo
Sole Finest at PCGS

- 3755 1878 8TF PR66 Cameo PCGS. CAC.** The proof 1878 8 Tailfeathers proofs are important as the first proofs ever struck of the Morgan dollar, before the reverse was redesigned to the 7 Tailfeathers motif. There is no official mintage figure, but the issue is an extremely significant one, perhaps more so for type collectors who desire the true "first-of-type" proofs, rather than from the many variety specialists who scour the series. This Premium Gem 8 Tailfeathers proof is unusual in two ways, first for the high grade, second for the degree of contrast. The surfaces are untoned but show good field reflectivity that contrasts well against the frosted devices. The proof strike is full throughout. The lack of mentionable contact makes this the *sole finest certified Cameo 8 Tailfeathers Morgan* at PCGS (10/13). PCGS# 87311

1878 Morgan Dollar, PR64 Cameo
Elusive 7 Tail Feathers, Reverse of 1878 Variant

3756 1878 7TF Reverse of 1878 PR64 Cameo PCGS. CAC. The parallel arrow fletching indicates the Reverse of 1878. The 1878 proof Morgan dollar with 7 tail feathers and the Reverse of 1878 is much more elusive than its 8 tail feathers counterpart. Experts estimate 200-250 examples of this variety were struck and the issue is quite elusive in Choice condition, with the Cameo designation. This attractive PR64 specimen displays sharply detailed frosty design elements that contrast boldly with the deeply mirrored fields. The pleasing surfaces are blanketed in shades of champagne-gold and cerulean-blue toning and only a few minor hairlines and contact marks are evident. Population: 6 in 64 Cameo, 4 finer (10/13). PCGS# 87312

1881 Morgan Dollar, PR66+
Deeply Toned and Sharply Struck

3757 1881 PR66+ PCGS. CAC. The 1881 was a well-produced and therefore popular date with type collectors. A deeply toned example, this high-end Premium Gem exhibits a strong degree of visual appeal. Among the colors present are teal, copper, red-pink, green, red, and violet. The strike is razor-sharp, adding to the desirability. A few as-made lint marks appear on the bridge of Liberty's nose. Population: 1 in 66+, 7 finer (10/13). NGC ID# 27Z5, PCGS# 7316

1883 Morgan Dollar, PR66+ Cameo
Captivating White Centers and Deep Mirrors

3758 1883 PR66+ Cameo PCGS. A strong cameo of the portrait, eagle, and letters are set against magnificent deep mirrors, making this a memorable proof dollar. Virtual perfection is evident in all the important aspects: quality of strike, contrasting frosted devices, and deeply reflective fields. A touch of clear rose-gold at the rims and on the eagle's breast accentuates the pristine silver-white appeal, but the overall impression of this coin is brilliant. Significantly, to date it is the only PR66 Cameo to earn the Plus designation from PCGS.

A total of 1,039 proofs were made for the year. Of these, only a few remain in this state of high preservation since, at one time, it was customary to clean proofs to maintain their brilliance. This coin escaped untouched. Population: 1 in PR66+ Cameo, 1 finer (11/13). PCGS# 87318

1883 Morgan Dollar, PR66+
Finest Deep Cameo Specimen at PCGS

3759 1883 PR66+ Deep Cameo PCGS. CAC. A generous mintage of 1,039 proof Morgan dollars was accomplished in 1883, all delivered with the proof sets. The 1883 proofs were well-produced as a rule, but few survivors can match the technical quality and eye appeal of the coin offered here. This piece exhibits fully struck design elements, with intricate detail in the usual trouble areas, like the hair strands above the ear and the eagle's breast. The fields are deeply mirrored and contrast profoundly with the richly frosted devices, creating a startling black-on-white Cameo flash when the coin is tilted in the light. Eye appeal is terrific. Population: 1 in 66+ Deep Cameo, 0 finer (10/13). PCGS# 97318

1885 Morgan Dollar, PR66
Bold Design Definition

3760 1885 PR66 NGC. The proof mintage of 1885 Morgan dollars was 930 pieces, of which there are an estimated 300 survivors. Areas of field reflectivity emerge beneath the dusky pinkish-gray and lime-green patina of this Premium Gem representative. The design elements exhibit strong definition and the surfaces reveal only a few minor hairlines. Census: 22 in 66 (1 in 66+), 9 finer (10/13). NGC ID# 27ZE, PCGS# 7320

**1885 Morgan Dollar, PR66 Cameo
None Numerically Finer at PCGS**

- 3761 1885 PR66 Cameo PCGS. CAC.** This spectacular Premium Gem Morgan dollar presents fully struck design elements, with intricate detail showing in the strands of hair above Liberty's ear and the feathers on the eagle's breast. The devices display a rich coat of mint frost that creates a startling black-on-white Cameo flash when the coin is tilted in the light. Close inspection with a loupe reveals no mentionable distractions in the deeply reflective fields and eye appeal is terrific. Only 930 proof Morgan dollars were struck in 1885. Population: 19 in 66 (2 in 66+) Cameo, 0 finer (10/13). PCGS# 87320

1888 Morgan Dollar, Golden-Toned PR64+ Cameo

- 3762 1888 PR64+ Cameo PCGS. CAC.** Just a whisper from full Gem status, there is very little not to like about this highly-attractive proof dollar. The strike is without weakness, the toning pleasing and not too dark, and the eye appeal excellent. Perhaps a few light handling marks account for the hesitation in granting this appealing coin an even higher grade. An opportunity to acquire a proof dollar at the top end of its grade range without the big jump to a PR65. Population: 23 in 64 (3 in 64+) Cameo, 17 finer (10/13). PCGS# 87323

**1888 Dollar, PR66 Cameo
Above-Average Strike and Contrast**

- 3763 1888 PR66 Cameo NGC.** Quality control in the production of proof coinage apparently was not a high priority in 1888. In fact, noted dealer Harlan P. Smith filed a formal complaint against the Mint! Most Morgan dollar proofs of 1888 are weakly struck in the centers and have low contrast. Our Premium Gem offering displays fairly strong detail in the hair over Liberty's ear, which would be even better were it not for some short roller marks. The eagle's breast, while not fully delineated, still shows a modicum of feather detail. More significantly, both sides exhibit rather nice field-motif contrast, and each has been well cared for. All in all, this piece has much better eye appeal than normally encountered on the issue. Census: 13 in 66 Cameo (3 in 66 ★ Cameo), 4 finer (10/13). PCGS# 87323

1893 Morgan Dollar, Untoned PR64 Cameo

- 3764 1893 PR64 Cameo PCGS.** The 1893 Morgan dollar proofs are known to have been somewhat softly struck, the result of too-far die spacing, but have good cameo contrast. This piece shows some lack of detail in the hair above the ear, normal for the issue, while displaying ample field-device contrast over untuned frosty silver-gray surfaces. A nicely appealing example of this mid-1890s issue. Population: 15 in 64 Cameo, 17 finer (10/13). PCGS# 87328

1895 Morgan Dollar, PR65 Cameo
'King of the Morgans'

3765 1895 PR65 Cameo PCGS. Advanced Morgan dollar collectors all, sooner or later, confront the issue of Whether or Not To Buy an 1895 Morgan Dollar. On the one hand, no business strikes are known, despite the reported mintage of 12,000 pieces complementing the 880 proof coins. So collectors could feel more than justified in not owning an example, since it could be considered, effectively, a proof-only issue.

On the other hand: Collectors, by their very nature, strive for completeness, sometimes obsessively. Given the ownership of every other P-mint Morgan dollar, that empty hole or slot for the 1895 Philadelphia will rankle forever. Every numismatist makes his own decision, but given the perennial popularity of the proof 1895 Morgan, it is safe to say that most come down on the side of acquiring a nice example. This is an attractive specimen of the issue, long known as "The King of the Morgans." The fields are bright and contrast well with deep mint frost on the devices. A faint blush of gold toning appears on the obverse, more so on the reverse. This piece is identifiable by a minor blue speck on the branch end of the wreath above the first L of DOLLAR. In Gem grades the 1895 Morgan dollar is extremely popular, and most collectors desire to stretch a little for the key dates in their coin series of focus. The combined NGC and PCGS population reports note 34 Gem Cameo submissions with 46 higher. Population: 14 in 65 (1 in 65+) Cameo, 10 finer (10/13).

Ex: Dr. Hoffnagle Collection / Fort Lauderdale FUN Signature (Heritage, 1/2005), lot 30372, which brought \$57,500. PCGS# 87330

1899 Dollar, PR65 Cameo
Strong Reverse Contrast

- 3766 1899 PR65 Cameo NGC.** A nominal proof mintage of 846 Morgan dollars in 1899 accompanies a low business-strike emission of 330,000 examples. The few Cameo Proofs in this year are not known for striking field-device contrast. While this may be the case for the obverse of the present Gem, the reverse design elements stand out strongly against the mirrored fields. Both sides are sharply struck. Census: 4 in 65 Cameo, 30 finer (10/13). PCGS# 87334

PEACE DOLLARS

1921 Peace Dollar, MS66
Ideal First-Year Type Coin

- 3767 1921 MS66 PCGS Secure.** The high relief of the design resulted in some softness on Liberty's hair in almost all examples seen of the 1921 Peace dollar, but this coin shows much more detail than the average specimen. The well-preserved surfaces radiate vibrant mint luster and wisps of champagne-gold toning add to the outstanding eye appeal. PCGS has graded only seven numerically finer examples (10/13). NGC ID# 2U4E, PCGS# 7356

1923-D Peace Dollar, MS66
Only One Finer at PCGS

- 3768 1923-D MS66 PCGS. CAC.** Close inspection with a glass reveals the microscopic die polishing lines that result in a reflective appearance to this Premium Gem 1923-D Peace dollar. Both sides are brilliant and entirely untoned, with bold design motifs. A highly attractive example. Population: 78 in 66 (1 in 66+), 1 finer (10/13). NGC ID# 257G, PCGS# 7361

1924-S Peace Dollar, MS65
Above-Average Quality for the Issue

- 3769 1924-S MS65 NGC.** It is difficult to find a highly attractive 1924-S Peace dollar. This issue, plagued by poor strikes, lackluster surfaces, and excessive bagmarks, is one of the most challenging in the series. Near-Gem is about the finest grade most collectors can hope to encounter. This Gem, however, transcends the above profile. It displays a much better strike than ordinarily seen for the issue, especially on Liberty's hair over the ear and on the eagle's breast feathers. Even the right (facing) leg exhibits decent definition. Lustrous surfaces display wisps of light gold color, somewhat more evident on the obverse. Finally, while a few grade-consistent marks are visible, both sides have cleaner surfaces than typically seen. Census: 69 in 65, 1 finer (10/13). NGC ID# 257K, PCGS# 7364

1924-S Peace Dollar, MS65
Lovely Color, Pleasing Luster, Sharp Strike

- 3770 1924-S MS65 PCGS.** The 1924-S Peace dollar shows a mintage exceeding 1.7 million pieces. Roger Burdette writes in his Peace dollar reference that this is one of the poorer issues in the series due to weak strikes, dull luster, and heavy bagmarks. Nonetheless, this Gem displays pleasing luster, and the soft gold surfaces are imbued with wisps of pale aqua-green around the margins. The strike, while not quite full, is sharp, and the few minuscule marks present are minor. Population: 77 in 65 (1 in 65+), 5 finer (10/13). NGC ID# 257K, PCGS# 7364

**1925-S Dollar, MS65
Deep, Attractive Toning**

- 3771 1925-S MS65 NGC. CAC.** This Gem 1925-S Peace dollar is one of the keys to the series in this grade. This piece shows bold, attractive, deep, original toning, unusual for a Peace dollar, mostly gold and amber with ocean-blue, olive, russet, and crimson tinges intermingled near the extreme rims. The strike through the centers, while short of full, is better than normally seen. A few marks on Liberty's chin and jaw determine the grade. This piece is certified in an old-style "no-line fatty" NGC holder, which will appeal to many collectors (in addition to the coin's numerous merits). Census: 61 in 65, 0 finer (10/13). NGC ID# 257M, PCGS# 7366

**1934-S Dollar, MS64
Old Green Label Holder**

- 3772 1934-S MS64 PCGS. CAC.** Vibrant cartwheel luster sweeps this well struck key date near-Gem. The obverse is consistently toned light olive-gold, while the reverse has a brilliant center framed by deep autumn-brown, cherry-red, and gunmetal patina. Marks are few and of little consequence. Housed in an old green label holder. NGC ID# 257Z, PCGS# 7377

**1934-S Dollar, A Pleasing MS65
The Key to the Series**

- 3773 1934-S MS65 PCGS.** The 1934-S is the key to the Peace dollars series. In addition to having one of the smaller mintages (1.011 million pieces), many were released into circulation, making Uncirculated pieces relatively rare. Indeed, population reports from the major grading services show that the 1934-S has the smallest number of coins in MS60 and higher. Contributing to the issue's rarity is the fact that it was thought by collectors in the 1930s and 1940s to be very common because several other issues were produced in smaller numbers. Consequently, no significant hoards of 1934-S dollars were established.

Our Gem offering displays occasional whispers of light gold color on its lustrous surfaces. The design elements are much better-struck than most coins from the San Francisco Mint. The above-average detail in the hair over Liberty's ear and the eagle's wing feathers is especially significant in this regard as these areas are often flat. Additionally, the right (facing) leg exhibits a modicum of feather detail and is sharply separated from the wing. Another plus is that the few marks and scuffs are not severe or detracting. In summary, this is a rather pleasing representative of this key-date issue. NGC ID# 257Z, PCGS# 7377

**1934-S Peace Dollar, MS65
Lustrous Key Date Example**

- 3774 1934-S MS65 PCGS.** The San Francisco Mint was ordered to strike silver dollars late in the year in 1934, resulting in a modest mintage of just over 1 million pieces, all delivered after the first of November. Few examples were saved by contemporary collectors, leading to the 1934-S becoming an elusive key issue. Potent luster and brilliant surfaces provide this Gem with a tremendous degree of visual appeal. Scattered areas of light olive-green toning appear, primarily in the right obverse field. PCGS has awarded higher numeric grades to only 24 examples (10/13). NGC ID# 257Z, PCGS# 7377

GOLD DOLLARS

1849-O Gold Dollar, MS64
Scarce Lapped Reverse

- 3775 1849-O Open Wreath MS64 NGC. Variety 3.** The reverse is lapped and the wreath is attenuated. The obverse border exhibits numerous cracks. Much scarcer than the other two varieties (three die pairs were sent to New Orleans on June 2, 1849). The butter-gold surfaces are smooth with glimpses of obverse prooflike luster near 3 and 8 o'clock. The strike is crisp except on the hair near the ear. Census: 23 in 64, 9 finer (10/13). NGC ID# 25BE, PCGS# 7508

1852-D Gold Dollar, Near-Mint
Fully Struck, Orange-Red Toning

- 3776 1852-D AU58 PCGS. Variety 4-F.** An orange-red Borderline Uncirculated example of this low mintage Dahlonega issue. A meager 6,360 pieces were struck, and from that emission, perhaps fewer than 200 have survived. The present gold dollar has a full strike, unusual for the facility. Prominently clashed near the profile. A lens reveals a few unobtrusive hair-thin marks at the borders. Population: 12 in 58, 11 finer (10/13). NGC ID# 25BS, PCGS# 7519

1853 Gold Dollar, MS66
Last Offered 45 Years Ago

- 3777 1853 MS66 NGC.** A splendid Premium Gem with frosty luster, this example offers brilliant yellow surfaces with splashes of coppery-orange toning, and pristine surfaces. Boldly struck with exceptional eye appeal. Census: 39 in 66 (1 in 66+), 9 finer (10/13). Ex: 1968 CSNA Sale (A. Kosoff, 10/1968), lot 1392. From The Ole Miner's Collection. NGC ID# 25BU, PCGS# 7521

1855 Gold Dollar, MS63
Sandy-Gold Type Two Coin

- 3778 1855 MS63 PCGS.** The 1854 and 1855 Philadelphia gold dollars are the only P-mint Type Two issues, although the 1854 was also struck in the Type One format. This 1855, like most Type Twos, shows prominent evidence of die clashing on both sides. The weakness through the 85 and LL on the reverse is also a given. What is *atypical* about this coin is the relative absence of marks or impairments for the given grade, and the generous luster that shines forth from sandy-gold surfaces. NGC ID# 25C4, PCGS# 7532

1855 Gold Dollar, MS64
Excellent Type Two Representative

3779 1855 MS64 PCGS. From a business-strike mintage of 758,269 pieces, the 1855 gold dollar is always in demand as representative of the short-lived Type Two design. The Type One gold dollars were struck on small planchets and were easily lost in pockets, purses, etc. Seeking to alleviate these problems, the Type Two coins were struck on larger diameter planchets than the Type One dollars, with decreased thickness to keep the amount of gold the same. Unfortunately, the thin planchets caused many striking problems because there was not enough metal to flow into the high points of the design when the coins were struck. Wear and tear on the dies was also excessive. The Type Two design was modified after 1855, although a small mintage of this type was struck at the San Francisco Mint in 1856, creating one of the most popular short-lived design types in the U.S. gold series.

The present coin is an attractive Choice example, with lustrous greenish-gold surfaces that show a few highlights of rose and lilac. The design elements are sharply detailed for a Type Two and the surfaces show only a few minor contact marks. Visual appeal is quite strong. NGC ID# 25C4, PCGS# 7532

1855-C Gold Dollar, XF40
Sole Type Two Charlotte Issue

3780 1855-C XF40 NGC. Variety 2. Another rare Charlotte issue, limited in availability to just 9,803 pieces. However, the 1855-C is subject to greater demand since it is the sole C-mint date with a Type Two (small head) obverse. Other than the non-collectible 1849-C Open Wreath gold dollar, the 1855-C is the key to a Charlotte Mint type set. The present wheat-gold piece has moderate wear on the curls and wreath. The luminous surfaces exhibit clash marks but are only lightly abraded. Traces of luster persist. NGC ID# 25C5, PCGS# 7533

1855-C Gold Dollar, AU50
Above-Average Surface Quality

3781 1855-C AU50 NGC. Variety 2. The 1855-C gold dollar suffered from very poor quality control. The issue was poorly struck on flawed planchets, and was plagued by clash marks. This AU specimen displays the usual weakness in Liberty's hair and feather plumes and on the reverse bow knot, but the remaining design elements are fairly well-impressed. The planchet quality is much better than ordinarily seen and clash marks are minimal. NGC ID# 25C5, PCGS# 7533

1855-C Gold Dollar, AU55
Lightly Circulated Example

3782 1855-C AU55 PCGS. CAC. Variety 2. The date shows the last 5 right under the A of DOLLAR, the more available of the two reverses known for the year (Variety 1 shows the 5 centered under the last A). The date is sharper here (due to both the dies and little wear) than on Variety 1, although there is slight softness at the top of the 8. This issue is softly struck as a rule, and this Choice AU coin shows considerably more strike softness on the obverse. The peripheral lettering, the forward neck of Liberty, and the LIBERTY on the coronet are all weak. On the other hand, this piece is high-end in terms of overall appearance, showing, as mentioned, only light wear and a near-absence of post-Mint contact. Clash marks appear behind Liberty's head. The surface color is an appealing reddish-orange. The 1855-C is popular as the only Charlotte Type Two gold dollar issue. Population: 11 in 55, 9 finer (10/13). NGC ID# 25C5, PCGS# 7533

1855-O Gold Dollar, MS62
Only O-Mint Type Two Issue

3783 1855-O MS62 PCGS. Variety 1. The 1855-O gold dollar is always in demand as the only Type Two issue from the New Orleans Mint, with a reported mintage of 55,000 pieces. It is also the final gold dollar produced at the famous Southern mint, an important consideration for mintmark type collectors. The surviving population probably numbers 400-500 examples in all grades, but the 1855-O is quite rare in MS62 condition. The present coin is an attractive MS62 specimen with well-detailed design elements and pleasing yellow-gold surfaces that show highlights of rose. The fields are lightly marked and show partially prooflike reflectivity in sheltered areas. Population: 11 in 62, 12 finer (10/13). NGC ID# 25C7, PCGS# 7535

1858-D Gold Dollar, MS61
Only 3,477 Pieces Struck

- 3784 1858-D MS61 PCGS. Variety 10-M.** A single die pair is known for the scant mintage of 3,477 pieces. The present example has peach-gold toning around design elements while the high points and open fields are gunmetal-blue. No marks are visible, though a J-shaped strike-through, as made and often seen on the issue, is near the ED in UNITED. The strike is above average for a Dahlonega emission, with blending evident on the 5 in the date and the leaf above the right ribbon end. The reverse displays a triple set of clash marks from Liberty's profile. NGC ID# 25CJ, PCGS# 7549

1859-S Gold Dollar, MS61
Condition Rarity in Mint State

- 3785 1859-S MS61 NGC.** The 1859-S is one of the premier condition rarities in the gold dollar series though it is under-appreciated as such. With a mintage of only 15,000 pieces, survivors are relatively scarce in all grades, but they are exceedingly difficult in AU and Mint State grades. This MS61 example displays honey-gold color overall, with hints of peach and green also appearing. The degree of design detail is pleasing and there are no marks worthy of mention. Census: 9 in 61, 1 finer (10/13). NGC ID# 25CP, PCGS# 7554

1875 Gold Dollar, AU55
Only 400 Pieces Struck

- 3786 1875 AU55 PCGS.** Several 1875 Philadelphia Mint gold issues had remarkably low business mintages. The eagle is most famous among these (100 pieces), but the half eagle (200 pieces) and gold dollar and quarter eagle (400 pieces each) are also rare. The three dollar is proof-only. Only the double eagle is "common." This Choice AU piece shows a degree of reflectivity, not at all unusual for the low-mintage, later-date gold dollars. Sharply struck with a few abrasions in the yellow-gold fields along with a few spots on the reverse. Population: 9 in 55, 48 finer (10/13). NGC ID# 25DD, PCGS# 7576

1877 Gold Dollar, MS65
Lightly Abraded and Appealing

- 3787 1877 MS65 PCGS. CAC.** The meager mintage of 1877 gold dollars was a scant 3,900 pieces, a tiny fraction of the 1874 production of nearly 200,000 coins. This Gem 1877 with the CAC sticker of one of seven submissions in this grade at PCGS, yet 24 are finer (11/13). This is a beautiful example of the issue, primarily yellow-gold to orange-gold with some dabs of lilac above the headdress, with a nicely contrasting antique-gold profile of Liberty. A single small mark along the jawline is the only mentionable mark, although the die crumbling at the C of AMERICA is as made. NGC ID# 25DF, PCGS# 7578

1880 Gold Dollar, MS67
Exceptionally Lustrous and Pleasing

- 3788 1880 MS67 PCGS.** Although gold dollar production consisted of only 1,636 pieces in 1880, a high percentage of them were saved by contemporary numismatists providing numerous Mint State examples to today's collectors. This Superb Gem displays a bold strike, attractive canary-yellow color along with splashes of orange, and vibrant luster. NGC ID# 25DJ, PCGS# 7581

1889 Gold Dollar, Lustrous MS68
Final Year of Issue

- 3789 1889 MS68 NGC.** The 1889 gold dollar has a high survival rate, probably due to its status as the last year of the type and the end of the gold dollar as a circulating denomination. Small hoards of the date have turned up with regularity over recent decades. Superb Gems are somewhat scarce, and finer examples are rare. Blazing luster emanates from both sides of this near-immaculate MS68 example. The design elements are well-defined. Census: 19 in 68, 0 finer (10/13). NGC ID# 25DU, PCGS# 7590

PROOF GOLD DOLLARS

1880 Gold Dollar, PR62 Cameo
One of Only 36 Proofs Struck

- 3790 1880 PR62 Cameo PCGS. CAC.** The 1880 issue consisted of a mere 36 proofs and 1,600 business strikes. It is estimated that there are only 22 to 27 proof survivors. Appreciable cameo contrast exists on this lovely PR62 example. The Indian Princess displays rich mint frost and the fields exhibit bold reflectivity. The design elements reveal bold definition, adding to the eye appeal of this wonderful example. Population: 1 in 62 Cameo, 2 finer (10/13). NGC ID# 25EP, PCGS# 87630

1885 Gold Dollar, PR64 Cameo
Outstanding Eye Appeal

- 3791 1885 PR64 Cameo NGC.** Stunning cameo contrast provides this near-Gem with tremendous visual allure, even at a quick glance. The fields are deeply reflective against the richly frosted devices of this example. Brilliant yellow-gold color adds to the appeal. A few tiny as-made strike-throughs appear, including one in the left obverse field. Census: 20 in 64 Cameo (2 in 64+ Cameo, 1 in 64 ★ Cameo), 36 finer (10/13). NGC ID# 25EV, PCGS# 87635

EARLY QUARTER EAGLE

1796 No Stars Quarter Eagle, VF30 BD-2, Totally Original Surfaces

3792 1796 No Stars VF30 PCGS. BD-2, R.4. The fledgling Mint was spread quite thin in 1796, but even so, it was the first year since the operation began that every authorized circulating denomination, from half cent through eagle, was struck in some amount. (The next time this would happen would be in 1849.)

In the case of the 1796 No Stars quarter eagles it would be a minuscule amount indeed, a reported 963 pieces split between the two die varieties known today. The Bass-Dannreuther reference succinctly says of the 1796 No Stars quarter eagle:

"This one-year type coin has been in demand among collectors of U.S. coins since the dawn of collecting in the early to mid part of the 19th century. By the time there was an organized marketplace a number of years later, these first quarter eagles were hammered down and sold after lengthy floor battles among the bidders, mostly dealers representing collectors, as they always had this coin on their want list."

No exact mintage figure can be given for the two varieties of 1796 No Stars, despite the existence of two deliveries of 66 coins and 897 coins that some have equated to the two varieties. But some of the 432 coins delivered in January 1797 could have been of the 1796 No Stars rather than the 1796 With Stars; or, as Bass-Dannreuther point out, some of the 897 coins could have been the With Stars variety, so that fewer than 963 of the No Stars varieties were struck.

This example had obviously stayed in circulation for many years, or as the BD reference above states until the demand from an organized marketplace caught up with the meager supply of these pieces. The surfaces show even wear over each side. There are no traces of cleaning, as one might expect, and both obverse and reverse display unquestionably original "old gold" color with deeper accents within and surrounding the devices. Only the slightest handling marks can be seen, and there are no large or distracting abrasions present. This is an excellent, lower-grade example of this one-year type. NGC ID# 25F2, PCGS# 7645

CLASSIC QUARTER EAGLES

1839-C Quarter Eagle, Near-Mint Noticeable Mint Luster

- 3793 1839-C AU58 NGC. Breen-6149, Variety-24, R.4.** The obverse die is shared with Variety-23 but the reverse is unique to the present marriage. A lightly abraded wheat-gold slider that shows ample luster across the motifs and margins. Well struck except on the stars. The shallow strike-through on the cheek is as made and often seen on this scarce Charlotte die variety. NGC ID# 25G4, PCGS# 7699

1839-O Two and a Half, AU58 Only New Orleans Issue

- 3794 1839-O AU58 NGC. Breen-6152, Variety-27, R.3.** The Wide Fraction variety of the 1839-O, the sole New Orleans issue of either Classic denomination. As such, it is essential for O-mint type collectors. The present apricot-gold piece has a good strike and moderately prooflike fields. Marks are minor aside from a pinscratched outline of the left (facing) wing. NGC ID# 25G7, PCGS# 7701

LIBERTY QUARTER EAGLES

1843-C Large Date, Plain 4 Quarter Eagle Pleasing AU58

- 3795 1843-C Large Date, Plain 4 AU58 PCGS. Variety 1.** The only Large Date variety known. The strike is generally sharp throughout the obverse, and the reverse dentils are bold. The reverse center is somewhat soft, as usual for the Large Date variety. Lovely yellow-gold and deep orange-gold compete for territory on the obverse. Pleasing despite an unimportant obverse rim ding at 7 o'clock. The date and mintmark are nicely repunched. Population: 9 in 58, 10 finer (10/13). NGC ID# 25GN, PCGS# 7728

1848-C Two and a Half, AU58 Rare Variety-2, Buckled Obverse

- 3796 1848-C AU58 NGC. Variety 2.** Decidedly the rarer of the two known die marriages, Variety-2 is notable for its prominently buckled obverse field. Apparently, the obverse die was improperly annealed or from inferior quality steel. The second 8 in the date is repunched within the upper loop, and located closer to Liberty's shoulder relative to the "common" Variety-1. The present bright butter-gold Borderline Uncirculated example has a surprisingly sharp obverse strike, though the eagle's neck, leg, and fletchings are softly brought up. The fields display wispy marks though none are of singular interest. Census: 29 in 58 (1 in 58+), 14 finer (10/13). NGC ID# 25HB, PCGS# 7750

1849-C Quarter Eagle, AU58 Variety 1, The Only Known Dies

- 3797 1849-C AU58 NGC. Variety 1.** The only known 1849-C quarter eagle variety. This pleasing near-Mint specimen has a few marks including one on Liberty's cheek, and others near the eagle's head. The fields of this bright yellow specimen are reflective, amplifying the appearance of the trivial marks. Census: 20 in 58, 8 finer (10/13). Ex: Kagin's (NASC Sale, 1/1979), lot 1147. From The Ole Miner's Collection. NGC ID# 25HE, PCGS# 7753

1851-D Two and a Half, AU58 Semiprooflike Yellow-Gold Surfaces

- 3798 1851-D AU58 PCGS. Variety 15-N (formerly 14-M).** A moderately prooflike lemon-gold representative of this rare Dahlonaga issue. Just 11,264 pieces were struck, and the median grade at PCGS is XF45. The strike is fairly sharp, with blending most apparent on the eagle's legs and the E in LIBERTY. No marks are noticeable, though the reverse field has an occasional hint of granularity. Population: 3 in 58, 4 finer (10/13). NGC ID# 25HN, PCGS# 7761

**1851-O Quarter Eagle, MS61
Repunched Date, Variety 1**

- 3799 1851-O MS61 NGC. Variety 1.** The date is repunched, most apparent beneath the second 1. Nicely struck at the centers, though the eagle's leg shows blending. This yellow-gold New Orleans representative is lightly abraded except for a field tick near the coronet tip and a couple of faded lines on the portrait. Census: 22 in 61, 16 finer (10/13). NGC ID# 25HP, PCGS# 7762

**1855-D Quarter Eagle, AU53
Rare, High-Grade Dahlonega Gold Piece**

- 3800 1855-D AU53 PCGS. CAC. Variety 19-N.** The only variety known. The 1855-D quarter eagle comes from a diminutive mintage of 1,123 pieces. It is the second rarest quarter eagle from the Dahlonega Mint behind the 1856-D. It is also one of the more poorly produced coins from this mint as it comes weakly struck and frequently shows mint-made planchet defects such as laminations.

This AU53 example displays a medley of yellow-gold, soft crimson, and orange-gold patination and retains traces of luster in the recessed areas. The obverse design features are well-struck, including Liberty's hair and the letters in LIBERTY. All of the star radials are sharp, as is most of the dentilation except for that in the lower-right quadrant. The reverse shield is stronger than ordinarily seen, but the typical softness is apparent on the leg feathers and dentilation along the right side. The surfaces on both sides are remarkably devoid of mentionable marks or spots. All in all, this is a marvelous, lightly circulated example of this important rarity, deserving of CAC approval. Population: 4 in 53, 12 finer (10/13). NGC ID# 25J6, PCGS# 7776

**1858-C Gold Dollar, MS60
Low-Mintage Charlotte Issue**

- 3801 1858-C MS60 NGC. Variety-1.** A luminous straw-gold representative from the legendary Charlotte Mint. A scant 9,056 pieces were struck, and Mint State survivors are highly elusive. This example is free from remotely noticeable marks and is well struck for an antebellum Southern gold issue.

Ex: *Pittsburgh Signature* (Heritage, 8/2004), lot 7155. NGC ID# 25JH, PCGS# 7787

**1860 Old Reverse Quarter Eagle, MS61
Conditionally Rare**

- 3802 1860 Old Reverse, Type One MS61 PCGS. CAC.** Although a new reverse hub with much smaller letters and arrowheads was introduced for the Philadelphia quarter eagles in 1859, the old-style hub, first used in 1840, was still used on occasion through 1861. PCGS has graded fewer than 30 quarter eagles of 1860 with the Old Reverse versus 100 specimens with the New Reverse. Considerable luster remains on the golden-orange surfaces of this MS61 Old Reverse specimen. This well-struck coin has great eye appeal for the designated grade. Population: 1 in 61, 9 finer (10/13). PCGS# 97791

**1877-S Quarter Eagle, MS65
One of the Five Finest Certified**

- 3803 1877-S MS65 NGC.** The 1877-S quarter eagle is scarce in Mint State thorough the Select level of preservation. Near-Gem examples are rare and Gems are highly elusive. NGC and PCGS together have graded a mere five specimens in MS65 and none finer. Apricot-gold surfaces are accented in whispers of lavender and yellow-gold and yield intense luster. A bold strike characterizes the design elements and both sides have been nicely preserved. The aficionado of gold coinage will cherish this coin that displays outstanding eye appeal. Census: 2 in 65, 0 finer (10/13). NGC ID# 25KX, PCGS# 7827

1897 Quarter Eagle, Lustrous MS67
An Important Condition Rarity

- 3804 1897 MS67 PCGS.** Though the 1897 Liberty Head quarter eagle has a low business strike mintage of just under 30,000 pieces it is not as scarce as most other issues from the 1890s. However, Superb Gem examples such as the present offering are quite rare and virtually unobtainable any finer. Lustrous orange-gold surfaces are imbued exhibit sharply struck design elements. A few minute marks might prevent an even higher grade. Population: 9 in 67, 1 finer (10/13). NGC ID# 25LM, PCGS# 7849

PROOF LIBERTY QUARTER EAGLES

1902 Quarter Eagle, Sharply Struck PR64

- 3805 1902 PR64 NGC.** Probably less than one-half of the 193 proof Liberty Head quarter eagles struck in 1902 are extant today, most of which fall into the Select to Gem levels of preservation. The yellow-gold surfaces of this PR64 specimen display sharply struck design features and are free of mentionable contact marks. A few wispy hairlines preclude Gem status. Census: 22 in 64, 20 finer (10/13). NGC ID# 288S, PCGS# 7928

1903 Liberty Quarter Eagle, PR65
Typical All-Brilliant Finish

- 3806 1903 PR65 NGC. CAC.** A nominal mintage of 197 proof Liberty quarter eagles was struck in 1903 and the issue has a high overall survival rate. However, the date is surprisingly difficult to locate in high grade. The Mint switched to an all-brilliant finish for proof coins the year before, eliminating the popular cameo effect that collectors prized on examples from earlier years. This delightful Gem exhibits sharply detailed design elements, but the devices lack the rich mint frost that would create the cameo contrast with the deeply mirrored fields. The bright canary-yellow surfaces are free of mentionable distractions and eye appeal is tremendous. Census: 14 in 65 (1 in 65 ★), 16 finer (10/13). NGC ID# 288T, PCGS# 7929

**1905 Quarter Eagle, PR64+
144 Pieces Issued**

- 3807 1905 PR64+ PCGS. CAC.** Though the 1905 has a Guide Book mintage of 144 pieces, many specimens were likely spent by heirs or during hard times, given the purchasing power that a quarter eagle had prior to World War II. However, the present fully struck butter-gold coin is well preserved. The glassy fields show only inconsequential field hairlines. Liberty's hair and the eagle exhibit cameo contrast though Liberty's cheek and neck lack the frost requisite to attain that designation. NGC ID# 288V, PCGS# 7931

INDIAN QUARTER EAGLES

**1908 Quarter Eagle, MS66
Only 5 Finer at NGC and PCGS**

- 3808 1908 MS66 NGC.** The 1908 quarter eagle represents the first date of Pratt's sunken relief Indian design. Attractive yellow and orange-gold colors along with pleasing luster and minimally abraded surfaces provide this Premium Gem example with strong eye appeal. Subtle hints of blue also appear. NGC and PCGS combined have awarded higher grades to only 5 examples (10/13). NGC ID# 288Y, PCGS# 7939

**1911 Quarter Eagle, MS65
Elusive in High Grades**

- 3809 1911 MS65 NGC.** The 1911 Indian quarter eagle is the sixth-rarest issue of the series in high grade. This delightful Gem is sharply detailed throughout and the pleasing greenish-gold surfaces are lustrous and free of mentionable distractions. Eye appeal is quite strong. NGC has graded only seven coins in higher numeric grades (2/13). NGC ID# 2893, PCGS# 7942

**1911-D Indian Quarter Eagle, AU58
In-Demand Indian Head Series Key**

- 3810 1911-D AU58 NGC.** A lovely near-Mint example of the famous series key, this nice collector-grade piece exhibits light high-point wear. The mintmark is clear, but not bold. A few minor marks appear, including one to the right of the eagle's neck, though the marks are not overly distracting. NGC ID# 2894, PCGS# 7943

**1911-D Quarter Eagle, Unc. Details
Strong D Mintmark**

- 3811 1911-D Strong D — Altered Surfaces — PCGS Genuine. Unc. Details.** The popular key-date 1911-D quarter eagle, from a small mintage of only 55,600 coins, is one of our favorite issues, and we always like to offer a selection of pieces in our auctions. The present sale, for example, has seven different 1911-D quarter eagles. This attractive lemon-yellow piece has trivial surface marks but still retains excellent eye appeal. The strike is bold including a complete, well-formed mintmark. NGC ID# 2894, PCGS# 7943

**1911-D Quarter Eagle, MS61
Impressively Original Surfaces**

- 3812 1911-D MS61 NGC.** This 1911-D quarter eagle, with a bold strike and complete, well-formed mintmark, is fully lustrous with charcoal high-point patina on its yellow, violet, and blue surfaces. There is no question that this example has impressively original surfaces and has never been cleaned or otherwise mistreated. NGC ID# 2894, PCGS# 7943

**1911-D Indian Quarter Eagle, MS61
Low-Mintage Key**

- 3813 1911-D MS61 NGC.** The 1911-D Indian quarter eagle is the low-mintage key to the series and collectors prize examples in all grades and conditions. This attractive Mint State example offers well-detailed design elements and lustrous surfaces that show a few minor contact marks. Eye appeal is quite strong for the grade. NGC ID# 2894, PCGS# 7943

**1911-D Quarter Eagle, MS64+
Lustrous Two-Toned Series Key**

- 3814 1911-D MS64+ PCGS. CAC.** The Bela Lyon Pratt design for the quarter eagle and half eagle, introduced in 1908, was a radical departure from all previous U.S. coin designs. The device high points are raised up from an incused or recessed central area so that the fields, normally the lowest part of a coin, were the highest. Although the innovation was greeted with considerable hostility at its introduction, numismatists today acknowledge its artistic beauty.
Q. David Bowers, in the series introduction on PCGS' CoinFacts website, makes an interesting observation regarding the lack of an incuse mintmark on the issues:

"Curiously and inconsistently, Indian quarter eagles and half eagles struck at Denver and San Francisco (half eagles, but not quarter eagles, were struck at New Orleans as well), with mintmarks, bore the mintmark raised on the coin — extending above the field. Apparently it was too much trouble to have the mintmark incuse. This is probably just as well, for one can imagine a proliferation of phony mintmarks made for collectors, by punching D and S letters into the fields of Philadelphia Mint coins!"

Both the 1911-D quarter eagle and the 1909-O half eagle are low-mintage keys in their respective series, and both are generally well-struck issues that are known to occasionally display weak mintmarks. In the case of the 1911-D quarter eagle, NGC and PCGS certify such coins with the Weak D designation, and they trade at lower values compared to the Normal D coins. It is notable that this high-end MS64 is designated as "Strong D." It is indeed prominently displayed on the reverse. Even more notable, though, are the brightly lustrous, frosted surfaces that have taken on a mixture of reddish-gold and lilac color. Population: 18 in 64+, 23 finer (10/13). NGC ID# 2894, PCGS# 7943

**1914 Two and a Half, MS63+
Low-Mintage Semikey**

- 3815 1914 MS63+ PCGS.** The 1914 has the second-lowest mintage of the series and is also conditionally scarce, exceeding all other issues of the type in rarity at the MS65 level. Even in the present grade, examples are desirable. The wheat-gold surfaces are satiny and show only minor contact. The strike is crisp despite trivial inexactness within the headdress. NGC ID# 2898, PCGS# 7946

**1914 Quarter Eagle, MS64
Second-Rarest Indian Two and a Half**

- 3816 1914 MS64 PCGS. CAC.** The 1914 Indian quarter eagle is a challenging date in high grade. This impressive near-Gem example displays yellow, orange, and green-gold surfaces. The design elements reveal a pleasing level of definition on this piece. Scattered marks are consistent with the grade. NGC ID# 2898, PCGS# 7946

1914 Quarter Eagle, MS65
Rich Color and Great Eye Appeal

3817 1914 MS65 PCGS Secure. Vibrant luster and rich pumpkin-gold color with hints of blue, lavender, and red create a lovely appearance for this Gem example of Bela Lyon Pratt's sunken relief design. The coins circulated extensively in the West, but were not popular with contemporary collectors. Some people erroneously believed the nature of the design led to the coins being harbingers of germs. The design elements on this piece display a strong degree of definition and there are no marks worthy of mention. PCGS and NGC have each only awarded higher numeric grades to 3 examples (10/13). NGC ID# 2898, PCGS# 7946

1914 Indian Quarter Eagle, MS65
Low-Mintage Philadelphia Issue

3818 1914 MS65 PCGS. CAC. The 1914 Indian quarter eagle boasts a low mintage of 240,000 pieces, making it the rarest Philadelphia Mint issue of the series. Only the famous 1911-D can claim to be more elusive in absolute terms, and the two dates are actually equally rare in high grade. The coin offered here is a delightful Gem, with sharp definition on all design elements and well-preserved surfaces that show only minor signs of contact. The vivid greenish-gold surfaces radiate vibrant mint luster and show a few highlights of rose. Eye appeal is exceptional. Population: 51 in 65 (1 in 65+), 3 finer (10/13). NGC ID# 2898, PCGS# 7946

1914-D Indian Quarter Eagle, MS65
Prime Condition Rarity in Higher Grades

- 3819 1914-D MS65 NGC.** Though the 1911-D is rightfully regarded as the key date of the Indian quarter eagle series, it is not the rarest issue at the MS65 level. That honor belongs to the 1914-D, which is twice as rare as the '11-D in Gem quality. The 1914-D is also rarer in the present grade than the low-mintage 1914 Philadelphia. It may be that collectors failed to seek high-grade examples of the '14-D prior to the 1970s, while a greater effort was made to save the better-known '11-D and '14 issues. The present peach-gold and olive-green example is exceptionally devoid of contact, and the strike is sharp aside from unimportant blending on the lowest headdress plumes. The mintmark is fully impressed. Census: 43 in 65, 1 finer (10/13). NGC ID# 2899, PCGS# 7947

THREE DOLLAR GOLD PIECES

1854 Three Dollar Gold, MS64
First-Year Type Favorite

- 3820 1854 MS64 PCGS.** A delightful near-Gem specimen, this coin represents the first year of the three dollar gold denomination. The design elements exhibit strong detail and the pleasing yellow and rose-gold surfaces display hints of green-gold along with vibrant satiny mint luster and only a few minor contact marks. PCGS has graded 31 numerically finer specimens (10/13). NGC ID# 25M3, PCGS# 7969

1859 Three Dollar, MS64
Eye-Appealing Example

- 3821 1859 MS64 PCGS.** The 1859 three dollar gold, struck to the extent of 15,558 pieces, would be considered a low-mintage emission in most U.S. coin series, but in the context of these coins, it is a rather moderate mintage — especially given the minuscule productions that would occur toward the end of the series. This 1859 three is better-defined than usually seen. The characteristic “swirl” of luster is present but softer than usual, offset by semireflectivity in the fields. Yellow-gold surfaces show touches of orange at certain angles and glimpses of blue at others. An eye-appealing near-Gem. Population: 15 in 64, 7 finer (10/13). NGC ID# 25MD, PCGS# 7979

1862 Three Dollar, AU55
Good Eye Appeal

3822 1862 AU55 NGC. CAC. Light high-point wear but no major marks characterize this attractive yellow-gold 1862 three dollar gold piece, an issue struck to the extent of only 5,750 coins. This example is about the average grade for certified survivors, boasting nice eye appeal and a good collectibility quotient. NGC ID# 25MH, PCGS# 7983

1869 Three Dollar, Well-Struck MS61
Rare in Mint State

3823 1869 MS61 PCGS. Owing to its relatively low mintage of 2,500 circulation strikes the 1869 three dollar gold piece presents a significant challenge to the date collector. PCGS and NGC have graded only about 50 coins in Mint State, mostly in MS62 and below. This MS61 example displays yellow-gold surfaces and considerable semiprooflikeness is evident in the fields on each side. The design elements are quite well-struck. Scattered marks determine the grade. Population: 6 in 61, 19 finer (10/13). NGC ID# 25MR, PCGS# 7990

1874 Three Dollar, MS64
Visually Appealing

3824 1874 MS64 PCGS. Although it is considered one of the common dates in the series, there are relatively few examples at the Gem level or beyond, with PCGS having awarded higher grades than this near-Gem to only 16 examples (10/13). The luster is rich and appealing on this lovely representative displaying attractive apricot-gold color. Scattered marks are consistent with the grade and none are worthy of mention. NGC ID# 25MX, PCGS# 7998

1882 Three Dollar, MS64
Mintage 1,500 Pieces

3825 1882 MS64 PCGS. After the relatively high-mintage issue of 1878, the three dollar gold denomination fell into a decade of trivial mintages, a sign of unimportance at the time that later turned into an asset in collectors' eyes. This 1882 three dollar piece comes from a business strike mintage of just 1,500 pieces and is among the better-preserved survivors. Semireflective fields range from canary-yellow to amber and the devices are frosty with few marks, if a trifle softly struck on features such as Liberty's hair. Population: 34 in 64 (1 in 64+), 11 finer (10/13). NGC ID# 25N5, PCGS# 8004

1888 Three Dollar, MS63
Only 5,000 Pieces Struck

- 3826 1888 MS63 PCGS. Gleaming surfaces provide this Select representative with a strong degree of eye appeal. The piece displays rich yellow-gold color overall, with hints of peach and green-gold also present. In addition, a few tiny splashes of lavender appear under LIBERTY. A few scattered hair thin marks are present, but serve as little distraction, if any. NGC ID# 25NB, PCGS# 8010

1889 Three Dollar Gold, MS64
In-Demand Final Date

- 3827 1889 MS64 PCGS. As the final date of the denomination the 1889 three dollar gold piece is an important issue to type collectors and series specialists alike. Rich apricot-gold color and vibrant luster provide this piece with immediate eye appeal. The coin exhibits a sharp strike. The abrasions present are minuscule, with none worthy of mention. Population: 58 in 64 (1 in 64+), 42 finer (10/13). NGC ID# 25NC, PCGS# 8011

1889 Three Dollar Gold Piece, MS65
Only Eight Finer at NGC

- 3828 1889 MS65 NGC. The final three dollar piece is an elusive, low-mintage issue, with a total production of only 2,300 business strikes and 129 proofs. Although the overall survival rate is high, exceptional examples are elusive, and NGC and PCGS have combined to grade just 46 Gems, with only 21 finer examples. An amazing Gem, this example has satin luster with bold design motifs and reflective fields. Both sides have brilliant yellow-gold surfaces with rose overtones, showing violet and blue accents. A highly appealing example for a date or type set. Census: 17 in 65, 8 finer (10/13). NGC ID# 25NC, PCGS# 8011
-

PROOF THREE DOLLAR GOLD PIECES

1883 Three Dollar Gold, PR64 + Rare Deep Cameo Example

3829 1883 PR64+ Deep Cameo PCGS. CAC. The mintage of the 1883 three dollar gold was a meager 900 business-strikes, complementing the proof mintage of 89 pieces. The low totals for either format mean that many collectors are eager to obtain proofs as well as business strikes; both are quite elusive. The proofs can be distinguished by numerous features, including the “dished” appearance of the obverse die, although the deep cameo contrast present on this piece tends to dampen the effect. There is a wire rim around both sides, and a tiny rust spot appears on the headdress feather above the T in LIBERTY. As mentioned, this piece shows intense contrast between the fields and devices, the fields boldly reflective and the devices nicely frosted. A couple of small contact marks appear under a loupe in the obverse left field, and a tiny spot (possibly copper alloy) in the right obverse field. But, overall, this is a coin of marvelous quality and eye appeal. Population: 2 in 64+ Deep Cameo, 13 finer (10/13). NGC ID# 28AS, PCGS# 98047

1889 Three Dollar Gold, PR63 Cameo Popular Final-Date Type Coin

3830 1889 PR63 Cameo PCGS. CAC. The three dollar gold denomination limped along for more than a third of a century before an 1890 act put it out of its misery. The last coins with a face value of three dollars, 2,300 business strikes and 129 proofs, had been struck the year before. This Select Cameo proof from that final date has clear and considerable contrast between yellow-orange fields and moderately frosted devices. The obverse has a field scuff to the left of Liberty's nose and light hairlines, but the reverse with its date and denomination displays well. Population: 3 in 63 Cameo, 15 finer (10/13). NGC ID# 28AY, PCGS# 88053

PROOF FOUR DOLLAR GOLD PIECE

1879 Flowing Hair Stella, PR65 Deep Cameo
America's Most Popular and Collectible Gold Pattern

3831 1879 Flowing Hair Stella, Judd-1635, Pollock-1833, R.3, PR65 Deep Cameo PCGS. It is a shame that the stellas failed to gain a commercial foothold as international trade coins, for, however impractical their aims were, the designs are glorious. In our opinion, among successful modern-era international trade coinage, only the British sovereign has a more attractive design than the stellas. The stellas failed, in our opinion, by overstretching, trying to be too many things at once — a metric coin of an odd composition as well as an out-of-the-gate replacement (or, at a minimum, competitor) for several longstanding and commercially successful European coinage denominations.

The stellas are collected right alongside the regular-issue U.S. gold series, and well-heeled gold specialists vie avidly for examples offered in any grade — especially at the Gem level of the present coin or higher. This Gem proof 1879 Flowing Hair stella is unusual in that it also has the Deep Cameo contrast designation from PCGS, unlike the vast majority of survivors.

Even though the stellas are strictly patterns, the 1879 Flowing Hair type, at least, was issued in considerable quantities, likely to the extent of several hundred pieces. The coins thus share characteristics with the 1856 Flying Eagle cents, a pattern issue that was also struck in larger numbers than usually produced for test strikes.

And just as cent collectors abhor having Flying Eagle cents from 1857 and 1858 without also having an 1856-dated Flying Eagle, it is that same drive to completeness that makes gold specialists reluctant to have examples of the American three dollar and five dollar issues — and yet have to deal with that awful gaping hole for the four dollar gold piece. (In a moment of absentmindedness while checking the PCGS Population Report section for “Patterns” rather than “\$4 Gold Stella,” we were reminded yet again that these pieces are listed between the three and five dollar regular issues, rather than in the pattern listings.) The report shows that in PCGS grade ranges from PR60 through PR67, there have been 238 submissions (including duplicates) of the 1879 Flowing Hair; 66 submissions of the same in Cameo; and only 29 in Deep Cameo (10/13). In the PR65 Cameo grade of the present piece, there are a total of 11 such at PCGS, with three PR66 and one PR67 Deep Cameo finer. NGC shows another couple of hundred submissions, and there are also quite a few lower-grade (below PR60), impaired proof 1879 Flowing Hair stellas, since some of the claimed “restrikes” delivered to Congressmen were apparently carried as pocket pieces.

From the first glance at this Gem Deep Cameo proof, one notices instantly the posh, luxe appearance of this coin amid the deeply contrasted surfaces. The blatant contrast between the mirrored fields and the thickly frosted devices is further enhanced by the range of colors appearing on both sides. The portrait of Liberty shows intricate detail on the hair, but TY in LIBERTY is softly struck. The profile is fully frosted with predominant orange-gold color. The fields on the obverse are deeply reflective, largely yellow-green and providing ample contrast in terms of both color and mirroring. Under a loupe, diagonal planchet striations appear running from north-northwest to south-southeast, the result of the striking of these coins on shaved-down half eagle planchets — a trait that we believe all surviving examples share, eliminating the possibility of any “15 originals” truly struck on the nominal odd, metric alloy proclaimed around the periphery.

The reverse overall displays deeper color, ranging from amber-gold near the rims to deep sunset-orange in the center. The planchet striations on this side follow the obverse orientation, with some deeper toning streaks lying within the striations. A tiny planchet indent appears near the star point under the M of AMERICA, which is quite minor but provides a pedigree marker, possibly of Mint origin. A couple of other scattered contact marks also require a loupe to observe, and in any case they are unworthy of singly describing.

Despite their status as patterns, the 1879 Flowing Hair stellas (and the other, rarer types) have become mainstays of American numismatics. The recent Bonhams sale of the Tacasyl Collection of proof gold coins, including an example of each of the four stella types in PR67 grade, reinforced once again the popularity of the series among the collecting community.

But while the 1879 and 1880 Coiled Hair and the 1880 Flowing Hair stellas are daydreams for most collectors, the 1879 Flowing Hair, due to the several hundred examples that survive today, is an achievable goal for many (if still a pricey one). This Gem Deep Cameo PCGS-certified example, with an unusual amount of field-device contrast and copious eye appeal, is destined to form the centerpiece of a fine collection — and would, in fact, form a fine collection all on its own. NGC ID# 28AZ, PCGS# 98057

EARLY HALF EAGLES

1800 BD-5 Five Dollar
AU Sharpness

- 3832** 1800 — Improperly Cleaned — NGC Details. AU. BD-5, High R.3. Bass-Dannreuther d/b. This sun-gold early half eagle is somewhat bright and displays vertical hairlines. Nonetheless, wear is limited to the high points and the only remotely mentionable mark is a tick on Liberty's jaw. The strike is crisp save for minor blending at the center of the shield. NGC ID# 25NW, PCGS# 8082

1800 BD-4 Half Eagle, AU Details
Repunched M, Terminal Die State

- 3833** 1800 — Improperly Cleaned — NCS. AU Details. BD-4, R.4. Bass-Dannreuther Die State d/c, the terminal die state with reverse rim breaks joining the tops of NIT and the first T in STATES. The rim break over NIT formed first, and the rim break on the first T in STATES represents the terminal die state for this die marriage. This AU specimen has trivial surface marks with bright surfaces from an old cleaning. However, it is an attractive greenish yellow-gold example for a specialized collection.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25NW, PCGS# 8082

1802/1 Half Eagle, BD-1
AU Sharpness

- 3834** 1802/1 — Improperly Cleaned — NGC Details. AU. BD-1, High R.4. Bass-Dannreuther Die State a/b. Lengthy reverse die cracks provide interest for the specialist. Rotation beneath a light reveals vertical hairlines on both sides, but this green-gold example shows only minor circulation wear. No marks are apparent to the unaided eye. All 1802 half eagles are overdates, and all eight die varieties range from very scarce to very rare. NGC ID# 25NX, PCGS# 8083

1803/2 Capped Bust Right Five, MS62
Perfect T, BD-4 Variety

- 3835** 1803/2 MS62 NGC. BD-4, R.4. Bass-Dannreuther Die State b/c. The 1803 half eagle claims a mintage of 33,506 pieces, a small total in absolute terms but about average for that period. Four die varieties are known for the date, employing two obverse dies that were overdated from 1802 and three reverse dies, one of which was leftover from 1802. This coin represents the BD-4 variety, with a perfect T in LIBERTY and the 3 in the date just touching the bust. The BD-4 is a scarce variety with a surviving population of 125-175 examples in all grades. This was the only use of the obverse die, but the reverse was used on a total of six varieties in 1803 and 1804.
The present coin is an attractive MS62 example with sharply detailed design elements and vibrant mint luster. The light yellow and rose-gold surfaces show a scattering of minor contact marks and a prominent die crack through the bottom of the date. No planchet adjustment marks are evident. Census: 45 in 62 (1 in 62+), 49 finer (10/13). NGC ID# 25NY, PCGS# 8084

1806 Half Eagle, Choice XF
Scarce 8x5 Stars, BD-1

- 3836** 1806 Pointed Top 6, 8x5 Stars XF45 NGC. BD-1, R.4. Bass-Dannreuther Die State c/e. A sizeable majority of 1806 half eagles are the 7x6 Stars BD-6 variety. The 8x5 Stars is very scarce. The present example displays pockets of luster on the stars, legends, and eagle. The caramel-gold surfaces exhibit minimal abrasions, though minor mint-made adjustment marks are evident on the portrait. NGC ID# 25P7, PCGS# 8090

1807 BD-1 Half Eagle, Unc. Details
Bust Facing Right

- 3837** 1807 Bust Right — Harshly Cleaned — NGC Details. Unc. BD-1, R.4. This example has been harshly cleaned and shows abrasive hairlines, especially at the top and bottom of the obverse. Both sides of this piece show light clash marks and the reverse has a prominent rim break on the T in UNITED that is partially covered by the tab on the NGC holder. In 1979, Kagin's graded this piece Choice Extremely Fine-45, and noted: "Evidence of past cleaning" which is certainly true.
Ex: Kagin's (1/1979), lot 1207.
From The Ole Miner's Collection.

1812 Five Dollar, Near-Mint
Better BD-2 Narrow 5D

- 3838** 1812 AU58 PCGS. BD-2, High R.4. Bass-Dannreuther Die State c/b, clashed near the base of the shield. Most 1812 half eagles are the "common" Wide 5D BD-1. The BD-2 is very scarce to rare and is readily identified by the close spacing between the 5D of the denomination. The present piece has nearly full detail but shows slight wear on Liberty's curls, drapery, and eyebrow, as well as the eagle's claws. Sun-gold luster fills the borders and motifs. Refreshingly free from abrasions, which makes the eye appeal better than some examples certified as MS60 or MS61. NGC ID# 25PL, PCGS# 8112

CLASSIC HALF EAGLES

1834 Classic Head Half Eagle, MS64
Plain 4, McCloskey 4-C Variety

3839 1834 Plain 4 MS64 NGC. McCloskey 4-C, R.2. The Classic Head design was introduced on half eagles in 1834 with a large mintage of 657,460 pieces, some with the old Crosslet 4 in the date but mostly with the newer Plain 4 style. The new design marked a change in the specifications for all U.S. gold coins, instituted because the intrinsic value of the old tenor gold pieces exceeded their face value and they no longer circulated.

The present coin is an impressive Choice specimen, with well-detailed design elements and partially prooflike fields. The vivid greenish-gold surfaces show just a few minor contact marks and hairlines and overall eye appeal is outstanding. Census: 44 in 64 (2 in 64 ★), 8 finer (10/13). NGC ID# 25RR, PCGS# 8171

1838-D Half Eagle
Uncirculated Details, Fully Struck

3840 1838-D — Cleaned — ANACS. MS60 Details. McCloskey 1-A, R.3. The only known dies for the introductory Dahlonega half eagle. This beautiful example is fully struck and displays pale peach-gold toning. Devoid of noticeable abrasions, though the luster is subdued across the open fields. A fairly late die state with clash marks beneath the horizontal shield lines and a slender crack through MERIC. Though the present piece is designated as “Cleaned,” it should be remembered that only a few examples of this historic issue remain with original, unimpaired surfaces. The lot provides an opportunity to secure a high grade example at an affordable price. NGC ID# 25S6, PCGS# 8178

LIBERTY HALF EAGLES

1840-D Half Eagle, MS61
Very Scarce Small D, Variety 4-C

3841 1840-D Small D MS61 NGC. Variety 4-C, “very scarce” according to Doug Winter’s new third edition (2013) of the Dahlonaga reference. The mintmark is squat, shorter than on the Tall D variety, and the upright of the D is directly above the gap in the top of the V in FIVE. This piece shows the die break that most exhibit running from the fletchings through the inside curve of the D and the right side of the V to the dentils. The first three digits of the date were first punched too far right, then correct, and this coin boldly shows the remaining underdigits.

The 1840-D half eagle issue is important, as the design was modified slightly, and it is the first Dahlonaga issue with mintmark moved to the reverse (it is on the obverse of the 1838-D and 1839-D). The present MS61 example would be at the lower end of the Condition Census that Winter presents, tied with an MS61 PCGS piece from the Auraria Collection. This coin offers far greater eye appeal than the grade might imply, the antique-gold surfaces showing great original “crust” despite a few small marks and luster grazes. Wispy die cracks run from the front of the forehead toward the rim, and from the rear of the hair bun through star 10 to the rim. NGC’s Census for both varieties shows six in MS61 with four in MS62 and one in MS63, but duplications are almost certain, and most of those pieces are likely the more-common Large D, Variety 3-C (11/13).

From The Ole Miner’s Collection. PCGS# 8199

1842-C Small Date Half Eagle, VF25
Rarest Charlotte Five Dollar Issue

3842 1842-C Small Date VF25 PCGS. Variety 1. The 1842-C Small Date is the rarest Charlotte Mint half eagle, and given the rapidly rising price as one advances in grade, the VF25 level provides a rare opportunity for acquisition at an affordable price. The present peach-gold representative has sharp wing plumage and a soft strike on the curls. Only lightly abraded for the grade with evenly granular surfaces. NGC ID# 25SV, PCGS# 8208

1843-C Five Dollar, AU55
Popular Early C-Mint Five for Type Purposes

3843 1843-C AU55 NGC. Variety 1. The 1843-C has one of the larger mintages in the C-mint series of half eagles with 44,277 pieces struck. However, most are in the VF to XF grade range. Perhaps three dozen AU coins are known. The surfaces on this minimally worn piece show variegated yellow-gold and reddish patina. A few scuffs are noted in the fields and the strike is just a bit soft over the high points. NGC ID# 25T3, PCGS# 8214

1843-C Half Eagle, Minimally Marked AU55

3844 1843-C AU55 PCGS. Variety 2. Variety 2 is attributed by the mintmark centered over the V in FIVE; Variety 1 has the mintmark centered over the right half of the V. The 1843-C is rare in Choice AU and above. Yellow-gold surfaces display traces of luster in the recessed areas and reveal just a few light circulation marks. This latter factor is significant because most surviving examples are heavily abraded or have planchet defects. The obverse of this piece is well-struck while the reverse shows the typical weakness on the eagle’s neck feathers and the left (facing) leg and claw. Population: 10 in 55, 17 finer (10/13). NGC ID# 25T3, PCGS# 8214

**1845-O Half Eagle, Near-Mint
Repunched Date**

- 3845 1845-O AU58 NGC. CAC. Variety 1.** The 18 is lightly repunched, as usual for this low mintage No Motto New Orleans issue. The present yellow-gold Borderline Uncirculated representative is void of noticeable marks and displays a crisp strike. Bright luster individually outlines stars and fills the devices. Census: 28 in 58, 17 finer (10/13). NGC ID# 25TD, PCGS# 8225

**1849-C Half Eagle, AU58
Usual Late Die State**

- 3846 1849-C AU58 NGC. Variety 1.** A die crack grazes the left top of the U in UNITED, and that is the usual die state for variety 1. Faint hairlines appear on both sides of this near-Mint specimen, retaining nearly full luster and excellent eye appeal. Ex: NASC Sale (Paramount, 2/1977), lot 625. From The Ole Miner's Collection. NGC ID# 25TW, PCGS# 8241

**1855-C Half Eagle, MS61
Dramatic Reverse Cud at 3 O'Clock**

- 3847 1855-C — Reverse Die Break at 3 o'clock — MS61 NGC. Variety 1.** A dramatic die break spans 2:30 to 3:30 on the reverse border and reaches the tops of the ME in AMERICA. The 1855-C is a relatively available issue and has only one known die pair, but the present terminal die state is very rare. Our online auction archives, which go back to 1993, have only two different examples that show this cud: a PCGS XF45 piece that appeared in January 2001, August 2006, and August 2007 Signature auctions and has two noticeable marks on the lower left obverse; and the present coin, pedigreed to the Pacific Coast Mint Error Collection and from our May 2007 St. Louis Central States Signature as lot 2795. The honey-gold surfaces are minimally abraded and better struck than is usual for the Charlotte facility. NGC ID# 25UR, PCGS# 8262

**1873 Closed 3 Half Eagle, MS64
Only Three Finer at NGC**

- 3848 1873 Closed 3 MS64 NGC.** Gold production at Philadelphia was increased in 1873, partly due to a Treasury belief that Federal paper would soon trade at par with gold coin. The 1873 half eagle is scarce nonetheless, and the Closed 3 is thought to be the more difficult variety. A lovely near-Gem example, this coin displays yellow-gold color overall, with hints of peach also present. Scattered marks are consistent the grade, though none are worthy of mention. Census: 5 in 64, 3 finer (10/13). NGC ID# 25WJ, PCGS# 8329

**1873-CC Half Eagle, Net XF40
Rare Variety 2-A Die Pair**

- 3849 1873-CC — Repaired, Tooled, Cleaned — ANACS. AU Details, Net XF40. Variety 2-A,** a rare die pairing characterized by the first C in the mintmark quite close to the bottom of the fletchings. Some of the field areas on each side appear to have been smoothed, likely to remove larger marks, with the surfaces then being cleaned. This is nonetheless not only a rare issue — struck to the extent of only 7,416 coins — but the rarer die pairing known for the year. Deep brown peripheral areas merge with the lighter golden-yellow “improved” areas, and considerable pleasing detail remains on each side. From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25WL, PCGS# 8331

**1880 Half Eagle, MS65
Excellent for Type Purposes**

- 3850 1880 MS65 PCGS.** The large mintage of the 1880 half eagle was more than 3.1 million pieces, but the Gem grade of the present example is seldom exceeded, by only a couple of coins at NGC and PCGS combined. This attractive reddish-gold example shows a notable lack of mentionable marks accompanied by a decent strike, although short of full. Population: 15 in 65, 1 finer (10/13). NGC ID# 25XA, PCGS# 8351

1892-CC Liberty Half Eagle, MS64
Finest Certified at PCGS

3851 1892-CC MS64 PCGS. Variety 1-A. There is only one known die variety for the 1892-CC half eagles, used to coin 82,968 pieces, a substantial mintage for one pair of dies. The reverse die was only used for the 1892-CC half eagles, making no appearances in adjacent years. This Choice Mint State piece is a splendid specimen and it is the finest that PCGS has certified. In fact, it is the only MS64 seen at that service (10/13). NGC has seen two similarly graded pieces and only one finer coin. A lovely specimen, this half eagle has brilliant light yellow luster with traces of orange overtones on the obverse and additional pale blue on the reverse. Here is the ultimate PCGS certified 1892-CC half eagle for the connoisseur. NGC ID# 25Y7, PCGS# 8380

1892-O Half Eagle, MS62
Elusive in Mint State

3852 1892-O MS62 NGC. The 1892-O half eagle issue, struck to the extent of a skimpy 10,000 pieces, was the first O-mint five struck since the 1857-O, a gap of 35 years. Mint State survivors are elusive, as most of the issue apparently circulated during an era when collecting coins by mintmarks was still years in the future. (Despite the publication of Augustus Heaton's seminal work on the subject in 1894, we believe that the 1909-S VDB Lincoln cent was the greatest single spur to this facet of collecting.) This MS62 example shows yellow-gold surfaces with some pale orange patina following parallel planchet striations on the obverse. The strike is quite sharp overall, despite minor softness on some of the high-point hair. Census: 5 in 62, 0 finer (10/13).
From The Ole Miner's Collection. NGC ID# 25Y8, PCGS# 8381

1893 Half Eagle, MS67
Impeccable Preservation and Production

3853 1893 MS67 NGC. The 1893 half eagle issue was struck in a prodigious quantity exceeding 1.5 million coins, and fortunately, there are a few high-grade, well-made survivors today, although not as many as the large mintage would lead one to believe. This Superb Gem displays full mint bloom throughout the orange-gold surfaces on each side, accompanied by an impeccable strike and a complete lack of mentionable distractions. This piece would make an impressive type set candidate. Only one example is graded higher each at NGC and PCGS, an MS68 (possibly duplicated via resubmission), and this is the only MS67 currently showing in NGC's online Census Report. NGC ID# 25YA, PCGS# 8383

1893-O Half Eagle, MS63
Nearly Unobtainable Any Finer

3854 1893-O MS63 PCGS. Variety 1. There are two varieties of the 1893-O five dollar coins. This Select piece is an example of the more prevalent variety of the two, with 1 in the date closer to the dentils. A few tiny splashes of orange are present on the lustrous yellow-gold surfaces of this coin. A number of die cracks appear on both sides. PCGS and NGC combined have awarded MS63 grades to only 33 examples, with only 3 finer (10/13). NGC ID# 25YC, PCGS# 8385

1896-S Liberty Half Eagle, MS65
Finest Certified at NGC

3855 1896-S MS65 NGC. The 1896-S Liberty half eagle claims a mintage of 155,400 pieces and few high quality examples were saved by contemporary collectors. The issue is often found with excessive bagmarks and most specimens seen grade no better than XF or AU. Mint State coins are rare and the 1896-S is virtually unobtainable in Gem or finer grades.

The present coin is a delightful Gem, with sharply detailed design elements and vibrant frosty mint luster. The light yellow and rose-gold surfaces are free of mentionable distractions and eye appeal is terrific. This coin should find a home in the finest collection or Registry Set. Census: 1 in 65, 0 finer (10/13). NGC ID# 25YL, PCGS# 8393

1901-S Liberty Five, MS66
Very Rare Any Finer

3856 1901-S MS66 NGC. The 1901-S Liberty half eagle claims a huge mintage of 3.6 million pieces and the issue is readily available in grades up to the Gem level. There are considerably fewer Premium Gems and finer examples are conditionally very rare. A gorgeous Premium Gem example, this piece displays lovely apricot-gold color at the centers, with areas of apple-gold closer to the borders. Rich luster emanates from the surfaces. The coin reveals a sharp strike overall. A small alloy spot appears at the first A in AMERICA. Census: 60 in 66 (3 in 66+), 11 finer (10/13). NGC ID# 25YX, PCGS# 8404

PROOF LIBERTY HALF EAGLE

1886 Half Eagle, PR64 Cameo
Sharply Contrasted Coin

3857 1886 PR64 Cameo NGC. Unlike many of the gold and silver coinage issues of 1886, the 1886 half eagles were made in generous proportions, 388,360 business strikes complementing the nominally low proof mintage of 72 coins. For the proof half eagles, despite the inflated population figures, fewer than two dozen different examples survive today. Even fewer survive with the Cameo designation; this PR64 Cameo NGC-certified coin is one three Cameo submissions in this grade, and five are finer (10/13). This piece boasts a razor-sharp proof strike with abundant eye appeal. The top portion of the obverse is yellow-gold, ceding to deeper reddish-orange tinges on the bottom portion. A few minor ticks account for the grade, scarcely worth mentioning. Excellent contrast between the fields and devices appears throughout both sides. NGC ID# 28CP, PCGS# 88481

INDIAN HALF EAGLES

1908 Indian Half Eagle, MS65
Popular First-Year Type Coin

3858 1908 MS65 PCGS. Bela Lyon Pratt's innovative incuse Indian design was introduced on the half eagle and quarter eagle in 1908, making the date an important one for series enthusiasts and type collectors alike. A substantial mintage of 577,845 pieces was accomplished and many examples were saved by contemporary collectors and the general public for their novelty value. As a result, the 1908 is a reasonably available issue in Mint State grades, slightly scarce at the MS65 level, and rare in finer grades.

The present coin is an attractive Gem, with well-detailed design elements and vibrant mint luster. The well-preserved orange and reddish-gold surfaces show only minor signs of contact and eye appeal is outstanding. PCGS has graded only 20 numerically finer examples (10/13). NGC ID# 28DE, PCGS# 8510

**1908 Indian Half Eagle, MS66
Top-Notch First-Year Type Issue**

3859 1908 MS66 PCGS. The first-year-of-issue 1908 Indian five dollar was saved in greater numbers than following years, giving it a second reason for type collectors to chase nice examples. This Premium Gem is among the few nicest survivors, displaying bright mint luster over antique-gold surfaces that are free of marks in any of the prime focal areas. It takes strong magnification to see minuscule ticks on the Indian's cheek, near the temple, and on the jawline, far less severe than normally seen. The strike is uniformly bold throughout both sides, another plus that collectors will appreciate. Population: 18 in 66 (1 in 66+), 2 finer (11/13). NGC ID# 28DE, PCGS# 8510

**1915-S Half Eagle, MS63
Well-Struck and Lightly Marked**

3860 1915-S MS63 PCGS. CAC. The 1915-S half eagle is a nicely made issue, but it is also among the most elusive S-mints in a series known for the same. Mike Fuljenz's series reference ranks it fourth-rarest overall. This Select example with the CAC approval offers abundant eye appeal, and would fit nicely into almost any high-grade set. The surfaces show a range of color from yellow-gold to orange-gold, the prevailing theme, with lilac tinges in some of the device recesses. A couple of tiny ticks near the Indian's jawline are far from overt, but they and scattered other, equally minor marks determine the grade. NGC ID# 25ZR, PCGS# 8531

1915-S Indian Half Eagle, MS64+
Elusive Issue in High Grade
Only One Finer Certified

3861 1915-S MS64+ NGC. The 1915-S Indian half eagle is an elusive date in all grades and one of the most challenging issues of the series at the MS64 level. Even the famous 1909-O and the key 1911-D are not as rare in Gem condition. In his catalog of the Dr. Thaine B. Price Collection David Akers remarked :

"The 1915-S is one of the rarest and most important issues in this very difficult series. Even in the most minimal Uncirculated grades, the 1915-S is a very scarce issue. However, rarity increases significantly as grade increases and, in Choice Uncirculated or better condition, the 1915-S Half Eagle is one of the premier rarities among all Twentieth Century United States gold coins. The mintage was not particularly small since 164,000 were struck, but like most San Francisco Mint issues, it is clear that they were largely put into circulation and few were saved as me

Apparently the half eagle was not an important denomination in the national economy during the World War I era. Half eagles were produced exclusively at the San Francisco Mint in 1916, with a nominal production total of 240,000 pieces, after which the denomination was not struck again until 1929.

The present coin is a high-end Choice specimen with well-preserved yellow and rose-gold surfaces that show only minor signs of contact. The design elements are sharply detailed in most areas, but there are signs of die buckling near the rims and the mintmark is slightly deformed. NGC has graded only 10 coins in the present grade, with one finer, while PCGS has graded no specimens better than MS64 (10/13). NGC ID# 25ZR, PCGS# 8531

EARLY EAGLE

1803 Capped Bust Right Eagle, MS62 Popular Extra Star, BD-5 Variety

3862 1803 Extra Star MS62 NGC. BD-5, High R.4. Bass-Dannreuther Die State g/a. The 1803 Capped Bust Right eagle boasts a nominal mintage of 15,017 pieces, with six die varieties known for the date. The same obverse die was used to strike all six varieties, an unusually durable performance for a die from this era. Four of the reverse dies employed a small star punch and the other two display large stars. This coin exhibits the Large Stars reverse, with an additional very small star located in the last cloud on the right. This Extra Star reverse is classified as the BD-5 variety in *Early U.S. Gold Coin Varieties*, the standard reference for the series by John Dannreuther and Harry Bass, Jr. The BD-5 is a very scarce variety, with a surviving population of 90-110 examples in all grades. It probably accounted for 3,000-5,000 pieces of the reported mintage.

The Large Stars reverse was recognized by 19th century specialists like John Colvin Randall. When Randall sold part of his collection through prominent coin dealer W. Elliot Woodward in June of 1885, lot 859 in the catalog was listed as:

"1803 No. 1; Large stars on reverse; very fine indeed; reverse proof."

The small extra star exhibited on the BD-5 reverse is well-hidden in the contours of the cloud and it is not certain whether early students of die varieties, like Randall, noticed it or not. The coin in Randall's collection was probably a BD-5, as the only other Large Stars variety, BD-6, is very rare, with a known population of 7-10 examples today. Edgar Adams and Waldo Newcomer, who studied die varieties in the early 20th century, both recognized the Extra Star variety. Although several theories have been advanced to explain the extra star, no really convincing explanation for this feature has come to light. The BD-5 is extremely popular with present-day collectors, because of this mysterious phenomenon.

The present coin is a well-detailed example that retains much of its original mint luster. The bright yellow and greenish-gold surfaces show only minor contact marks and eye appeal is quite strong. Some faint planchet adjustment marks are evident at different locations on the reverse. Census: 12 in 62, 7 finer (10/13). PCGS# 88565

LIBERTY EAGLES

1838 Ten Dollar, Two-Year Type, AU Details Pleasing Appearance for the Grade

- 3863 1838 — Obverse Scratched — NGC Details. AU.** Any 1838 ten dollar is scarce due to the low mintage of just 7,200 pieces. Most are XF or lower condition, and to find an attractive AU coin with good color is an achievement. The scratch on this coin is difficult to distinguish from the normal circulation abrasions, but a thin line directly under the chin is the culprit. There are no mentionable problems otherwise. A moderate amount of prooflike flash remains on the reverse, clearly visible within the letters and surrounding the eagle.

1858-S Eagle, Unc Details Low-Mintage Early San Francisco Issue

- 3864 1858-S — Reverse Repaired — NCS. Unc Details.** This early S-mint eagle issue saw a meager mintage of 11,800 coins, most of which survive well-circulated. This piece shows some smoothing in the left and lower fields around the eagle on the reverse, but the excellent, sharp strike and overall good surface preservation are partial recompense. Medium orange-gold surfaces still maintain a good level of vibrancy.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 263Y, PCGS# 8627

1859-O Liberty Eagle, AU50 Elusive Low-Mintage Issue

- 3865 1859-O AU50 PCGS. Variety 1.** From a reported mintage of just 2,300 pieces, the 1859-O Liberty eagle is the rarest ten dollar gold coin from the New Orleans Mint. Probably no more than 45-55 examples survive today in all grades and the issue is quite rare at the AU50 level of preservation. This attractive AU specimen displays lightly abraded orange-gold surfaces that show highlights of green and retain much original mint luster. The design elements were strongly impressed and show just a touch of wear on the high points. Public offerings are few and far between so the series specialist should bid accordingly. Population: 8 in 50, 11 finer (10/13). NGC ID# 2642, PCGS# 8629

1868 Eagle, AU58
Low-Mintage Post-Civil War Strike

- 3866 1868 AU58 NGC.** The post-Civil War mintage of the 1868 eagle was a scant 10,630 pieces, although most of the survivors are well-circulated, down to Choice XF or so. This near-Mint State piece boasts a decent strike over surfaces that show light field chatter and a few minor marks but no significant abrasions. Attractive orange-gold color is another plus. NGC ID# 264N, PCGS# 8653

1873 Ten Dollar, VF Details
Among the Lowest-Mintage Series Issues

- 3867 1873 Closed 3 — Improperly Cleaned — NCS. VF Details.** The 1873 Close 3 eagle (all are of that style) had a remarkably low mintage of only 800 coins, lowest in the series through that time. This example is thus quite rare, as indeed is any survivor of the issue. The surfaces are a bit hazier than the considerable wear would imply, the result of a misguided attempt at cleaning. This piece is nevertheless still attractive in an intrinsic way.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2654, PCGS# 8666

1890-CC Eagle, MS61
Beautiful Peach-Gold Color and Sharp Strike

- 3868 1890-CC MS61 NGC. CAC. Variety 1-A.** In 1890 the Carson City Mint struck eagles for the first time since 1884, but only in the mintage amount of 17,500 pieces. (The sporadic Liberty Head eagle mintages from both Carson City and New Orleans could form the basis for a fascinating foray into the collecting of the 19th century gold coinage.) Today the average certified survivor of the 1890-CC eagle is Choice AU, although Mint State pieces exist. This MS61 NGC example with CAC sticker boasts beautiful peach-gold color with some smoke-gray patina on the high points and buildup in some of the device crevices. The strike is quite sharp, although the surfaces are peppered with scattered abrasions. This example lacks the die line beneath the A in STATES sometimes seen on this issue. Census: 71 in 61, 42 finer (10/13). NGC ID# 266S, PCGS# 8718

1894-S Eagle, MS61
Seldom Seen in Higher Grades

- 3869 1894-S MS61 PCGS.** San Francisco's total eagle output in 1894 comprised 25,000 coins, a year after the great financial Panic of 1893 wrecked hundreds of banks. Today the average-graded certified survivor is about AU50. This Mint State piece shows the expected field chatter and a scattering of small- to medium-sized marks on both sides, yet the orange-gold surfaces with deeper reddish devices show abundant eye appeal and a bold strike. An issue seldom seen finer, and indeed seldom seen so fine. Population: 6 in 61, 2 finer (11/13). NGC ID# 2677, PCGS# 8731

1895-O Ten, MS63
None Finer at PCGS

- 3870 1895-O MS63 PCGS.** The New Orleans Mint produced gold coins intermittently throughout the last two decades of that facility's history. Eagles were coined in 10 of those 20 years, and half eagles in four different years. Those were the only two denominations struck in New Orleans from 1890 to 1909. All 14 issues had a combined total mintage of less than 900,000 coins. This Select Mint State example has a bold strike with only the first star indistinct. The surfaces are brilliant and lustrous. A lovely example and conditionally rare. Population: 21 in 63, 0 finer (10/13). NGC ID# 2679, PCGS# 8733

1896-S Eagle, MS63
A Notable Condition Rarity

- 3871 1896-S MS63 NGC.** The 1896-S ten dollar is infrequently seen in Mint State grades, and when located is apt to be MS60 to MS62. Select and finer pieces are extremely rare. Indeed, NGC has graded only four examples above MS62, including the present MS63. Lustrous reddish-gold surfaces display blushes of lavender and yellow-gold. The design elements are sharply struck and both sides are minimally marked. A small linear mark just left of the bust truncation will help identify the coin. Census: 1 in 63, 3 finer (10/13). NGC ID# 267C, PCGS# 8736

1906-O Ten Dollar, MS64+
Sharply Struck and Satiny

3872 1906-O MS64+ NGC. Variety 1. Sole recognized die pair for the year. Production of ten dollar gold coins at New Orleans drifted below the six-figure mark in 1906, the last year of O-mint eagle issuance. This sharply struck example is satiny and impressive with rich apricot-gold luster and only a few shallow luster disturbances precluding full Gem status. Census: 9 in 64 (1 in 64+), 6 finer (11/13). NGC ID# 2686, PCGS# 8761

1907 Liberty Ten, MS65
Transitional Year

3873 1907 MS65 PCGS. The 1907 Liberty eagle is much more difficult to locate in high grade than the large mintage of 1.2 million pieces would suggest. Rich luster adds to the visual appeal of this Gem. The surfaces reveal intermingled shades of apricot-gold and frosty orange, along with subtle hints of red and green. Adding to the attractiveness, the design elements exhibit a strong level of detail. Population: 24 in 65, 0 finer (10/13). NGC ID# 2688, PCGS# 8763

PROOF LIBERTY EAGLES

1902 Eagle, PR64
Start of the 'No Contrast' Coinage

3874 1902 PR64 PCGS. The reported proof mintage for the 1902 eagle was a bit high in relation to its bookends, 113 coins compared to 85 and 96 for the 1901 and 1903, respectively. Notwithstanding, today the issue is elusive in any grade. Were many of these low-contrast proofs later spent? This was the year that the Mint inexplicably changed its method of proof manufacture to one of little to no contrast (the chance depending on die states at the time each proof was struck). This deep orange-gold piece is highly reflective throughout each side, but there is just a trace of contrast. A small tick under Liberty's hairbun and a few scattered, minuscule smaller marks determine the grade. The proof strike is razor-sharp, as expected. A nice type coin for the grade. Population: 20 in 64 (1 in 64+), 6 finer (10/13). NGC ID# 28G9, PCGS# 8842

1904 Liberty Eagle, PR65+ ★ Cameo
Only 108 Examples Struck
One Finer Coin at NGC

3875 1904 PR65+ ★ Cameo NGC. A virtually pristine representative of this rare proof date. A total of 108 proofs were issued, but a number were spent during hard times, or by heirs, prior to 1940. While such an action seems the height of folly today, it must be remembered that ten dollars went a long way during the Great Depression, and proofs carried little premium over face at the time, as only a handful of collectors had the wealth to pursue examples. In his 1988 *Encyclopedia*, Walter Breen estimated there are 35 to 40 survivors. Some of those are impaired, since PCGS has certified nine pieces in grades between PR50 and PR58.

The present high-end Gem is fully impressed and displays greater design detail on the hair above the ear than can be seen on any business strike of the series. The deeply mirrored fields are undisturbed by hairlines and show only a few minute strike-throughs, one of which, beneath the E in WE, is mentioned solely to provide an identifier for any future auction appearances. The legends, stars, and major devices exhibit consistent mint frost, and the cameo contrast is profound. Eye appeal is terrific.

No proof 1904 tens have been certified as Ultra Cameo or Deep Cameo by either major service. The present specimen is one of two examples that have received a Plus designation from NGC and it is the *only* piece with both a Star and a Plus notation. NGC has certified a single coin finer, as PR66 Cameo (10/13). Since it may be many years before a comparable specimen becomes available, the importance of the present opportunity cannot be overstated. NGC ID# 28GB, PCGS# 88844

INDIAN EAGLES

1907 Indian Eagle, MS64
Ideal No Periods Type Coin

- 3876 1907 No Periods MS64 NGC. CAC.** An attractive Choice example of this popular first-year type issue which contemporary collectors and the general public saved in large numbers for its novelty value. This coin offers well-detailed design elements and vibrant mint luster throughout, with bright yellow and rose-gold surfaces that show remarkably few signs of contact. NGC ID# 28GE, PCGS# 8852

1911-D Ten Dollar, MS62
Conditional Series Rarity

- 3877 1911-D MS62 NGC.** The 1911-D eagle issue is every bit a key to its Indian Head series, just as its 1911-D half eagle and quarter eagle counterparts are in theirs. If it is less well-known, it is because it shares the limelight with other keys in the Indian Head eagle series, such as the 1907 Wire Rim and the 1920-S. But conditionally speaking, the 1911-D is the most difficult coin in the series, with most Mint State examples grading no higher than MS62, such as the present piece. The satiny surfaces are well-preserved and generate copious eye appeal, fine-grained orange-gold throughout. A few stray marks on the high points and in the fields on each side determine the grade, but this coin will find a wealth of ready bidders, both for its rarity and its quality. Census: 72 in 62 (1 in 62+), 25 finer (10/13). NGC ID# 28GU, PCGS# 8869

1914-S Eagle, MS62
Elusive S-Mint Indian Head

- 3878 1914-S MS62 NGC.** The 1914-S eagle issue is among the more elusive S-mints in the Indian Head series, although examples are available up to the Gem level and occasionally beyond. This MS62 specimen offers excellent eye appeal over reddish-orange surfaces that show only scattered marks consistent with the grade, including some on the cheek, jawline, and in the lower-left obverse field. Flowing luster and a sharp strike further the appeal. NGC ID# 28H4, PCGS# 8877

LIBERTY DOUBLE EAGLES

1850 Double Eagle, AU53
Popular First-Year Issue

- 3879 1850 AU53 NGC.** The 1850 double eagle is the first year of the regular issue for the type and denomination, and is extremely popular as such. Most surviving examples grade Very Fine to About Uncirculated, while Mint State specimens are rare. The yellow-gold surfaces of this AU53 coin are imbued with traces of apricot and rose and retain traces of luster in the recessed areas. The design features are well-struck. Some light marks are fewer and less severe than what might be expected for a large gold coin that has seen some circulation.

From The Moore Coin Collection. NGC ID# 268F, PCGS# 8902

1851-O Twenty, Choice AU
Well-Struck Example

- 3880 1851-O AU55 PCGS.** A very pleasing coin for the grade which retains ample luster and boasts a strong strike. The surfaces show few disturbances from handling. Always difficult to find with so much eye appeal, and this coin will certainly attract a strong bid as a high-grade O-mint Type One twenty.
Ex: FUN Signature (Heritage, 1/2006), lot 5569. NGC ID# 268J, PCGS# 8905

1852-O Double Eagle, AU55
Popular Early O-Mint Issue

3881 1852-O AU55 NGC. The 1852-O double eagle is more often found in Very Fine or Extremely Fine grades than About Uncirculated or Choice AU, the grade of the present example. An occasional AU58 coin trades in the marketplace, but Mint State examples are few and far between; NGC reports only 22 submissions from MS60 to MS65, with undoubted duplications (10/13). PCGS shows an even dozen grading events in Mint State, including a half-dozen in MS62, the finest there. Much of the original mint luster remains on this AU55 coin, a beautiful and sharply struck golden-yellow coin that shows a few scattered, trivial marks and light field chatter. NGC ID# 268L, PCGS# 8907

1853-O Double Eagle, AU Details
Low-Mintage Early O-Mint Twenty

3882 1853-O — Improperly Cleaned — NCS. AU Details. Despite the NCS caveat, the surfaces are still pleasingly attractive, showing orange-gold color with a few scattered marks and field hairlines. The 1853-O twenty dollar had a low mintage of 71,000 pieces, and examples are in demand in all grades. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 268N, PCGS# 8910

1856-S Liberty Twenty, AU58
Frequently Seen Type One Issue

3883 1856-S AU58 NGC. The 1856-S Liberty double eagle was very rare in high grade before the salvage of the *S.S. Central America*, which made the issue much more available in Mint State. The present coin is an attractive near-Mint example of this popular Type One issue, with well-detailed design elements that show just a trace of wear on the high points and lightly abraded yellow-gold surfaces. NGC has certified 35 numerically finer examples (10/13). NGC ID# 2692, PCGS# 8919

1856-S Double Eagle, Near-Mint
Popular Circulated Type Issue

3884 1856-S AU58 PCGS. CAC. Thanks to the *S.S. Central America* discoveries this issue is more available than it was once, though it remains challenging in high grades from non-shipwreck sources. This example with its generally even yellow-orange coloration and light rub on the high points has strong all-around eye appeal. Ample luster remains in fields which show light to moderate abrasions, the largest of which “underlines” the RI of AMERICA. Population: 41 in 58, 45 finer (11/13). NGC ID# 2692, PCGS# 8919

1857-S Twenty, MS64+
Important Type One Date

3885 1857-S MS64+ PCGS. Not specifically pedigreed to the *S.S. Central America*, though between the rich outer color-pale interior hue pattern and the sheer lack of high-grade examples from other sources, such an origin is probable. The well-defined portrait is delicately frosted with glossy old grazes on much of the cheek. A great type coin. NGC ID# 2696, PCGS# 8922

**1857-S Double Eagle, MS64
'Spiked Shield' Reverse**

3886 1857-S MS64 PCGS. CAC. Variety 20A. The PCGS insert does not specify any such pedigree, but the present coin is almost certainly from the S.S. *Central America*. It is the "Spiked Shield" variety that constituted many of the high-grade pieces recovered circa-1988 from that infamous maritime disaster. The present well-struck, wheat-gold near-Gem has good luster and minimal signs of contact. NGC ID# 2696, PCGS# 8922

**1857-S Double Eagle, MS65
Ex: S.S. *Central America***

3887 1857-S MS65 PCGS. CAC. Variety 20B. Ex: S.S. *Central America*. SSCA 5070. For many series, type coins are chosen precisely because they are uninteresting otherwise. In the context of high-grade Type One double eagles, however, the 1857-S twenty became a type issue through a pair of compelling events, the loss of the S.S. *Central America* in 1857 and the recovery of its golden cargo well over a century later. This Gem example with Bold S reverse has the signature "look" of the shipwreck coins, deep yellow at the margins with pale interiors, plus rolling cartwheel luster and impressively preserved surfaces. Housed in a gold label holder. NGC ID# 2696, PCGS# 8922

**1859 Double Eagle, AU50
Semireflective Fields**

3888 1859 AU50 NGC. From a low mintage of 43,597 pieces, the 1859 Liberty double eagle is one of the scarcest Type One twenties as it circulated heavily and was not saved in quantity. This AU50 representative has wheat-gold surfaces that remain broadly luminous, even semireflective. The obverse shows moderate abrasions, but the reverse offers a cleaner appearance. From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 269A, PCGS# 8926

**1861 Double Eagle, MS62
Well-Defined Type Coin**

3889 1861 MS62 PCGS. The 1861 double eagle is a scarce issue in Mint State through MS63, after which it becomes rare. The lustrous yellow-gold surfaces of this MS62 specimen display hints of rose. The design elements are well-struck throughout. A few minute marks preclude a finer grade. Population: 71 in 62 (3 in 62+), 47 finer (10/13). NGC ID# 269G, PCGS# 8932

1861-O Twenty, VF35
Rare and Interesting New Orleans Issue

3890 1861-O VF35 PCGS. The 1861-O is a prime objective of collectors partly because of its rarity and also for its historical significance. It is rare — just 17,741 were struck, the final double eagles produced at the New Orleans Mint prior to 1879. Three governing authorities struck double eagles in New Orleans in 1861. In January, Union authorities struck 5,000 examples. These were followed by an additional 9,750 pieces struck by the State of Louisiana from late January through May, and a further 2,991 coins that the Confederate States of America produced after June 1. The combined mintage of the 1861-O double eagle, therefore, is 17,741 pieces. PCGS projects the number of surviving 1861-O double eagles as approximately 256 specimens.

It doesn't seem possible to know with certainty which authority struck which double eagles (although collectors and researchers would love to know). For years experts believed the dies would have worn to the point where the date started to disappear, meaning those coins with the weakest dates were most likely the Confederate strikings. Doug Winter, with Dr. Joseph Gaines, proposed a theory where a new obverse die may have been used for the Confederate coins based on the number of strong dates with a die crack that exist today as a percentage of known examples. Other specialists such as David Akers believe there may be no way to know, with certainty, which mint authority made which coins.

The present coin offered has a weak date. It shows moderate wear in line with the assigned VF35 grade. The surfaces are above-average with apricot-gold toning and touches of medium green-gold. There are no distracting problems or major marks for the amount of circulation this coin received. It is attractive for the grade — a rare and desirable 1861-O double eagle sure to excite many collectors.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 269J, PCGS# 8934

1862 Twenty Dollar, AU55
Low-Mintage Issue

3891 1862 AU55 NGC. The 1862 double eagle's mintage of 92,133 pieces is dwarfed by that of the 1861, nearly 3 million coins. Seldom does a certified example grade the Choice AU level of the present coin, even though the presence of a few higher-graded pieces does indicate that some were squirreled away during the tumult of that great national conflict. Generous mint luster remains on the orange-gold surfaces on each side, the surfaces showing some scattered marks and field chatter consistent with a fairly short spate in circulation. Census: 8 in 55 (1 in 55 ★), 30 finer (10/13). NGC ID# 269M, PCGS# 8937

1862-S Twenty, AU58
Rare Any Finer

3892 1862-S AU58 NGC. Though the Civil War affected gold coinage in Philadelphia (and, of course, the branch mints in states that went to the Confederacy), San Francisco continued turning out double eagles apace. Despite a mintage in the high six figures, though, Mint State examples of the 1862-S twenty are condition rarities. This near-Mint example is luminous apricot-gold with reddish-orange touches at the right reverse margin. Only a touch of rub is noted on the high points. NGC ID# 269N, PCGS# 8938

**1869-S Double Eagle, MS62
Significant Type Two Issue**

- 3893 1869-S MS62 NGC.** While a number of dates in the Type Two Liberty double eagle series (1866-1876) have relatively generous mintages, type coins are challenging to identify because there are no prominently available dates such as the 1857-S or 1904. This 1869-S twenty, which comes from a mintage of over two-thirds of a million pieces, is a condition rarity in MS62 but still counts as one of the more accessible dates in such condition. Lightly abraded yellow-gold surfaces with scattered coppery areas take an orange turn on the reverse. Census: 14 in 62, 20 finer (10/13). NGC ID# 26A6, PCGS# 8956

**1873-CC Double Eagle, XF45
Low-Mintage Carson City Issue**

- 3894 1873-CC XF45 NGC. Variety 1-A.** The 1873-CC Liberty double eagle is an elusive issue in high grade, from a reported mintage of 22,410 pieces. This pleasing Choice XF example displays lustrous yellow-gold surfaces that show a few highlights of green. A scattering of minor abrasions on both sides is consistent with the grade. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 26AJ, PCGS# 8968

**1873-S Open 3 Liberty Twenty, MS61
Elusive Type Two Issue in High Grade**

- 3895 1873-S Open 3 MS61 PCGS.** The 1873-S Liberty double eagle with an Open 3 in the date is more elusive than its Close 3 counterpart. The design was changed partway through the year because Chief Coiner A Loudon Snowden thought the Close 3 looked too much like an 8. Apparently, most of the years coinage of double eagles had been completed at the San Francisco facility before the new dies could be prepared and shipped from Philadelphia. The situation is reversed with the P-mint issues, where the Open 3 type is much more common than the Close 3. Like most Type Two twenties, the 1873-S Open 3 is rare in Mint State condition.

The present coin is an attractive MS61 specimen with well-detailed design elements. The pleasing orange and rose-gold surfaces retain much original mint luster and show the expected number of minor contact marks for the grade. Population: 23 in 61, 4 finer (10/13). NGC ID# 26AM, PCGS# 8979

1874-CC Double Eagle, AU55
High-Mintage, Heavily Circulated Issue

- 3896 1874-CC AU55 NGC. Variety 1-A.** Double eagle mintage increased dramatically at the Carson City Mint in 1874, with a production total of 115,085 pieces. The coins circulated heavily at the time of issue, however, and most examples seen have numerous abrasions. This Choice AU example displays well-detailed design elements with lustrous yellow and greenish-gold surfaces that show the usual number of abrasions for the issue.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26AP, PCGS# 8971

1874-CC Double Eagle, AU58
Variety 3-A

- 3897 1874-CC AU58 NGC. Variety 3-A.** This near-Mint specimen has exceptional luster with a bold strike and pleasing surfaces that show only a few trivial marks. Only a trace of rub on Liberty's cheek prevents a full Mint State grade. NGC and PCGS have only certified 26 finer examples of this issue.
Ex: Paramount (unidentified sale), lot 712.
From The Ole Miner's Collection. NGC ID# 26AP, PCGS# 8971

1874-S Double Eagle, MS62
Small Squat S

- 3898 1874-S MS62 PCGS. Small Squat S.** At least three different mintmark styles were used on 1874-S twenties. The Block S and Broad S are approximately equal in scarcity, but the present mintmark size is rare for the issue, and likely from a single holdover reverse die. This apricot-gold double eagle has good luster and the expected number of obverse abrasions. None are noticeable aside from a narrow scratch between the first two stars. Population: 51 in 62, 4 finer (10/13). NGC ID# 26AR, PCGS# 8972

1876-CC Double Eagle, AU58
Nice Remaining Mint Luster

- 3899 1876-CC AU58 NGC. Variety 2-C.** The 1876-CC Liberty double eagle claims a series-high mintage of 138,441 pieces but the issue is more difficult to locate in high grade than that figure would suggest. This lustrous near-Mint specimen exhibits well-detailed design elements with just a trace of wear on the high points and lightly abraded yellow-gold surfaces that show highlights of green. This coin represents the 2-C variety, with the mintmark positioned further left than either of the varieties listed by Doug Winter. The 2-C was recently discovered by Heritage cataloger Brian Koller.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26AW, PCGS# 8977

1877-CC Double Eagle, AU55
First Type Three Issue

- 3900 1877-CC AU55 NGC. Variety 1-A.** The design of the double eagle was changed to the Type Three motif in 1877, with the denomination spelled out as TWENTY DOLLARS on the reverse. This well-detailed Choice AU specimen retains much of its original mint luster and the pleasing yellow and greenish-gold surfaces exhibit the expected number of minor abrasions for the grade.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26AZ, PCGS# 8983

1882-CC Twenty, Flashy AU53
Well-Struck and Semiprooflike

- 3901 1882-CC AU53 NGC. Variety 1-B.** The more common of two varieties for the year, confirmed by the well-aligned CC mintmark. Remnants of prooflike flash appear around the date, stars, and especially throughout the reverse. Light abrasions exist from circulation but there are no heavy marks. Rich, eye-catching gold color abounds.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26BF, PCGS# 8997

1883-CC Liberty Double Eagle, AU55
Popular CC-Mint Type Coin

- 3902 1883-CC AU55 NGC. Variety 1-B.** With a mintage of 59,962 pieces, the 1883-CC Liberty double eagle is one of the more available issues of the series and a favorite choice of mintmark type collectors. This sharply detailed Choice AU specimen is lustrous and lightly abraded, with excellent eye appeal for the grade. This coin features a different reverse die than either of the varieties listed by Doug Winter. The mintmark is placed further left than the one on Winter's reverse A. This rare variety was recently discovered by Heritage cataloger Brian Koller.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26BH, PCGS# 8999

1892 Double Eagle, AU53
Mintage 4,430 Business Strikes

- 3903 1892 AU53 NGC.** Broadly luminous despite light wear with semireflective radiance on apricot-gold surfaces tinged orange at parts of the margins. Moderate abrasions are consistent with the AU53 grade. The 1892 is among the more challenging issues of the later Liberty double eagle series, as its business-strike mintage was a pittance of 4,430 pieces.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26C5, PCGS# 9019

1893-CC Liberty Twenty, AU55
Final Carson City Issue

- 3904 1893-CC AU55 NGC.** Prized by mintmark type collectors as the last issue from the Carson City Mint, the 1893-CC Liberty double eagle claims a small mintage of 18,402 pieces. This Choice AU example shows just a touch of wear on the well-detailed design elements and the lightly abraded yellow gold surfaces retain much of their original mint luster.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26C9, PCGS# 9023

1894-S Double Eagle, MS64
Prooflike Obverse

- 3905 1894-S MS64 PCGS.** Although the PCGS population of 147 pieces in MS64 is rather significant, that service has only graded one finer example (11/13). This Choice Mint State piece has brilliant yellow surfaces and bold design elements, with excellent eye appeal. The obverse is prooflike and the reverse is reflective.
NGC ID# 26CC, PCGS# 9026

1904 Liberty Double Eagle, MS66
Only Three Numerically Finer at Both Services

- 3906 1904 MS66 PCGS.** Areas of green-gold appear on this lustrous Premium Gem exhibiting pleasing apricot-gold color overall. The obverse strike is sharp, while the reverse includes areas of incompleteness. Both sides reveal a number of tiny die cracks. PCGS and NGC combined have awarded higher numeric grades to only 3 examples (10/13). NGC ID# 26CY, PCGS# 9045

1904 Liberty Twenty, MS66
Only One Finer Coin at NGC

- 3907 1904 MS66 NGC.** The 1904 Liberty twenty claims a mintage in excess of 6.2 million pieces and many high quality examples have survived in date and type collections over the years. This delightful Premium Gem is one of the finest available to present-day collectors, as NGC has graded only one coin in higher numeric grade (11/13). The design elements are sharply detailed and the well-preserved peach-gold surfaces radiate vibrant mint luster on both sides. NGC ID# 26CY, PCGS# 9045

HIGH RELIEF DOUBLE EAGLES

1907 High Relief Twenty, Fine 12
Obviously Carried Many Years as a Pocket Piece

3908 1907 High Relief Fine 12 NGC. Obviously carried as a pocket piece by someone for many years. This piece shows even wear over the high points, and there is a bit of light wear into the rims as well. The surfaces are bright, as one would expect from many years of handling — not to be confused with cleaning. Magnification shows a number of small, but insignificant marks over both obverse and reverse.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26F2, PCGS# 9135

1907 High Relief Twenty, Choice AU
Wire Rim, Slight High-Point Friction

3909 1907 High Relief, Wire Rim — Cleaned — ANACS. Unc Details, Net AU55. Because of the high relief these coins were struck in, even slight handling shows light friction over the high points and some loss of luster in the fields, as seen on this piece. Nevertheless, the devices retain strong detailing, and the brightness incurred from handling may actually be an asset for some collectors and enhance its desirability. A mark between the eagle's tailfeathers and the rim is the only one of note on either side. Many of the swirling die polishing marks seen on Uncirculated High Reliefs are still evident on each side.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26F2, PCGS# 9135

1907 High Relief, Bright MS63
Wire Rim Variant

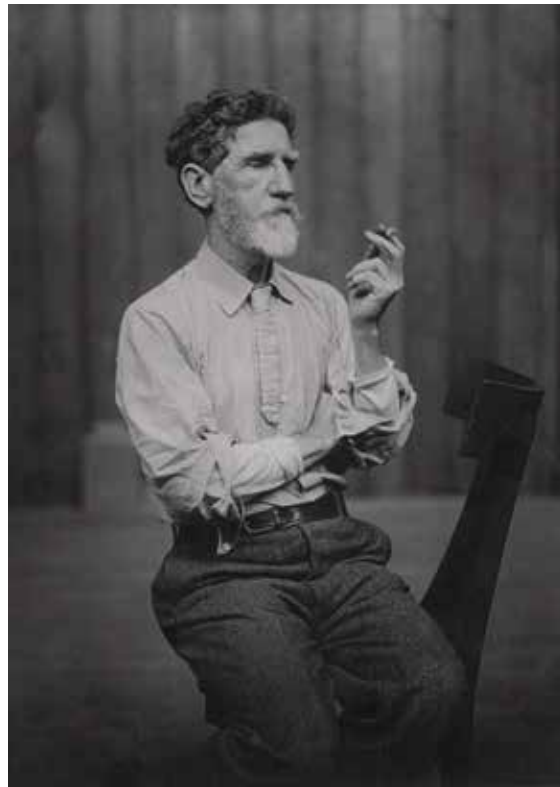

3910 1907 High Relief, Wire Rim MS63 PCGS. The Mint annealed the planchets between strikings of the High Relief, a procedure that explains both why it took so long to strike a single coin and also why the coins display a bright sheen over each side. The sheen was a product of the annealing furnace, impurities were eliminated by the annealing process, leaving a thin layer of pure gold. Over time, of course, patina accrues to the surfaces, and this piece shows both the brightness of the finish as made in 1907 as well as the slight reddish patina commonly seen on High Reliefs. The devices are intricately detailed, and there are only a few minor contact marks present, none of which are worthy of individual mention. NGC ID# 26F2, PCGS# 9135

**MCMVII High Relief Double Eagle, MS64
Strong Wire Rim Around Most of Each Side**

- 3911** 1907 High Relief, Wire Rim MS64 NGC. Each side of this near-Gem High Relief displays bright, even yellow-gold color with very little of the usually seen reddish patina present. The surfaces are remarkably clean, so clean one could almost count the contact marks. The only post-striking defects worthy of mention is a string-like pinscratch below the eagle on the lower reverse, and a tiny rim bump at 5 o'clock on the reverse rim. The mint luster is bright and satiny, as always seen on High Reliefs, and the extruded wire rim is more than 60% complete around both obverse and reverse. NGC ID# 26F2, PCGS# 9135

Courtesy of the Saint-Gaudens National Historic Site

1907 Saint-Gaudens Double Eagle, MS65
Prized High Relief Design
Popular Wire Rim Type

3912 1907 High Relief, Wire Rim MS65 NGC. From a limited mintage of 12,367 pieces, the 1907 High Relief Saint-Gaudens double eagle is considered to be the most beautiful regular-issue U.S. coin design by most numismatists. Unfortunately, the high relief of the design made striking the issue extremely difficult and time consuming. It required three blows from the 150-ton medal press to bring up the design features, with annealing between each blow. The average time to complete this process was 12 minutes per coin, clearly impractical for high volume modern coinage operations. After the small mintage of High Relief twenties was achieved, President Theodore Roosevelt felt vindicated in his desire to produce a modern U.S. coin that could rival the Greek coins of antiquity for aesthetic appeal and consented to having the design modified and the relief lowered to produce a more practical coin.

One unintended consequence of the complicated production process was that most coins had a high wire rim, or fin, around the edges of the coin, caused by metal extruding between the collar and the die during the repeated strikes from the press. This feature is seen on about 75% of the surviving population and it was considered detrimental at the time of issue because it made stacking the coins difficult. The dimensions and milling of the planchets were adjusted to eliminate the rim on later deliveries, but most early strikes, including the present coin, show the prominent rim. Over time, collectors have come to prize the Wire Rim type for its unique aesthetic appeal.

The present coin is a delightful Gem, with sharply detailed design elements and vibrant satiny mint luster. Swirling die polish lines are evident in the fields and the well-preserved reddish-gold surfaces show only minor signs of contact. Extraordinary eye appeal complements the high technical grade. NGC has graded 32 numerically finer examples (10/13). NGC ID# 26F2, PCGS# 9135

1907 High Relief Twenty, MS62
Scarcer Flat Rim Variant

3913 1907 High Relief, Flat Rim MS62 NGC. The beautiful High Relief Saint-Gaudens double eagle is known in two varieties, one with a wire rim, or fin, around the rims of the coin and the other with a flat rim. The wire rim was formed by metal extruding through the space between the collar and the die when the coin was struck and it was considered undesirable (by Mint officials) because it made the coins difficult to stack. After considerable experimentation, it was found that adjusting the dimensions and milling of the planchets eliminated the problem. The resulting Flat Rim examples are much more elusive than their Wire Rim counterparts today.

The present coin is an attractive MS62 example of the Flat Rim variant with sharply detailed design elements and lustrous yellow and rose-gold surfaces. A few minor signs of contact explain the grade, the worst being a long thin scratch through the right (facing) obverse rays. PCGS# 9136

SAINT-GAUDENS DOUBLE EAGLES

1908 No Motto Twenty, MS68
A Wells Fargo Example

3914 1908 No Motto, Wells Fargo Nevada MS68 NGC. The 1908 was the definitive Regular Relief, No Motto Saint-Gaudens double eagle issue even before the discovery of a hoard of thousands of examples that had lain undisturbed for decades. This hoard, which stayed briefly at a Wells Fargo bank in Nevada and left with a moniker, made MS67 and even MS68 examples of the issue available to more than a handful of collectors, albeit at a price. This MS68 coin has lightly patinated yellow-to-orange surfaces that are more luminous than fiery but near-perfect in their preservation. A shallow depression at Liberty's knee is as-struck. PCGS# 99142

1908-D No Motto Twenty, Crisp MS65

- 3915 1908-D No Motto MS65 PCGS.** Long Rays Obverse. Rich orange-gold patina on this D-mint Gem displays tints of mint-green. Both sides are awash in pleasing luster and each exhibit sharply struck design features, including the Capitol building and the upper portions of Liberty, areas that are often weak on this issue. Nicely preserved throughout. PCGS has graded only 10 pieces finer and NGC five higher (8/13).
Ex: Long Beach Signature (Heritage, 9/2009), lot 1902. NGC ID# 26F7, PCGS# 9143

**1908 Saint-Gaudens Twenty, With Motto, MS64+
Excellent Cartwheel Luster**

- 3916 1908 Motto MS64+ PCGS. CAC.** The 1908 Motto Saint-Gaudens double eagle is more elusive than its No Motto counterpart and is relatively scarce in high grades. This high-end, near-Gem example is well-detailed and brightly lustrous, with apricot-gold surfaces and a few minor abrasions. PCGS has graded 76 numerically finer examples (11/13). NGC ID# 26F8, PCGS# 9147

**1908-S Double Eagle, MS61
Generous Luster**

- 3917 1908-S MS61 NGC.** Among non-commemorative, non-variety circulation issues, the 1908-S double eagle has the lowest 20th century mintage at a mere 22,000 pieces. As an unworn representative of the date with full cartwheel luster, this is a coin of considerable luster and value. The obverse shows scattered light to moderate abrasions around a deep cut at the upper gown, while on the reverse, coppery areas appear in lines on the eagle's body and at the lower left rim. The latter side, however, is surprisingly mark-free. Generally well-struck, though the torch hand is weak. NGC ID# 26FA, PCGS# 9149
-

1909-S Double Eagle, MS65
Scarce Any Finer

- 3918 1909-S MS65 PCGS.** The 1909-S Saint-Gaudens double eagle has surfaced in several hoards over the years and lower Mint State examples are plentiful. The issue becomes rare at the Gem level, however, and finer examples are very scarce, with PCGS and NGC combined having awarded higher numeric grades to only 17 examples (10/13). This sharply detailed Gem displays vibrant mint luster over pleasing greenish-gold surfaces, with highlights of rose and orange. NGC ID# 26FE, PCGS# 9153

1920 Twenty Dollar, MS64+
Prime Condition Rarity in Finer Grades

- 3919 1920 MS64+ PCGS.** The 1920 Saint-Gaudens double eagle is a plentiful issue in grades up to the MS64 level, but examples in Gem condition are prohibitively rare. This high-end Choice specimen exhibits well-detailed design elements and vibrant mint luster throughout. The light orange-gold surfaces show only faint signs of contact. PCGS has graded just one finer example (10/13). NGC ID# 26FY, PCGS# 9170

1924-S Double Eagle, MS64
Popular Melt Rarity

- 3920 1924-S MS64 PCGS.** The story of the 1924-S is similar to that of many mintmarked twenties from the decade of the 1920s: a high-production issue that was virtually unknown until European sources were tapped 50-60 years ago. The 1924-S is still scarce and worth a significant amount in MS64 condition; probably fewer than 200 pieces exist in that grade, and this issue takes a huge jump at the Gem level, since only three PCGS Gems have been certified (10/13). As on almost examples seen, this piece shows a ring of die bulging around the inner rims. The softly frosted mint luster has taken on a slight reddish tinge, and there are the usually expected small abrasions scattered over each side. NGC ID# 26G9, PCGS# 9179

**1925-D Twenty, MS63
Former Premier Rarity**

3921 1925-D MS63 NGC. Today, the 1925-D double eagle is considered a scarce date, but it is hardly a major rarity in the series. However, at one time it ranked as a premier rarity. This Select Mint State specimen has brilliant and frosty yellow-gold luster with scattered grade-consistent marks.

Ex: The C.W. Krugjohann Collection (Bowers and Ruddy, 5/1976), lot 942.

From The Ole Miner's Collection. NGC ID# 26GB, PCGS# 9181

**1925-S Saint-Gaudens Twenty, MS61
Lustrous Lightly Marked Surfaces**

3922 1925-S MS61 NGC. The 1925-S Saint-Gaudens double eagle claims a huge mintage of more than 3.7 million pieces, but most of the production total was destroyed after the Gold Recall of 1933. This well-detailed MS61 example displays lustrous yellow-gold surfaces that show remarkably few contact marks for the grade. NGC ID# 26GC, PCGS# 9182

**1926-D Double Eagle, MS63
Seldom Seen Finer**

3923 1926-D MS63 PCGS. As late as into the 1950s, the 1926-D double eagle of the Saint-Gaudens style was ranked as the rarest single regular issue of the series, with the 1927-D and 1931-D close behind. Today, due to discoveries of likely a few hundred examples of the 1926-D over the decades in overseas hoards — largely in lower Mint State grades — the issue is merely scarce. The average certified survivor, the higher end of the surviving population, grades somewhere between MS61 and MS62. The MS63 grade of the present coin is the highest at which the 1926-D is readily available for a price. PCGS has seen 52 submissions in this grade, but only 27 finer (10/13). This Select piece offers bold luster over beautiful orange-gold surfaces that show scattered, mostly minor marks throughout each side, including a couple of hits of Liberty's face and lower gown and the right obverse field near the head. NGC ID# 26GE, PCGS# 9184

**Rare 1927-S Twenty Dollar
AU Sharpness**

- 3924 1927-S — Cleaning — PCGS Genuine. AU Details.** Despite a prodigious mintage of more than 3 million pieces, the 1927-S is rare today. It appears that most were held by the Treasury as reserves backing gold certificates, then melted following Franklin D. Roosevelt's 1933 gold recall. Many survivors were likely paid out at the Treasury counter to importers whose foreign customers demanded bullion payment. This example has olive-green centers and broad peach-gold margins. Luster is prevalent but the eagle's breast has light wear. Wispy field hairlines emerge when held at extreme angles. NGC ID# 26GJ, PCGS# 9188

COMMEMORATIVE SILVER

**1893 Isabella Quarter, MS66+
Beautifully Toned and Boldly Struck**

- 3925 1893 Isabella Quarter MS66+ PCGS. CAC.** The Isabella quarter was the only commemorative design of the classic era placed on a quarter-denomination coin, and to many collectors' eyes, it is among the most graceful and artistic of the many that followed — despite its design by Charles Barber. Prevailing pinkish-gray and sky-blue accents are accompanied by glints of pale yellow and rose near the rims. The strike is powerfully brought up, and no mentionable contact marks appear. NGC ID# 28HR, PCGS# 9220

**1900 Lafayette Dollar, MS65
Exceptional Quality for the Issue**

- 3926 1900 Lafayette Dollar MS65 PCGS. DuVall 2-C.** Steel-gray, lavender, and yellow-gold patination cascades over the lustrous surfaces of this Gem commemorative dollar. The design elements are well-struck, and the few light contact marks on Washington's cheek are typical of most surviving Mint State examples. Nevertheless, this coin displays exceptional eye appeal for the issue, and is highly desirable as such. PCGS has seen fewer than 90 specimens finer (10/13). NGC ID# 28N8, PCGS# 9222

**1922 Grant With Star Half, MS65
Lightly Toned and Lustrous**

- 3927 1922 Grant With Star MS65 NGC.** The obverse of this With Star Grant half is distinctly toned antique-gold over parts of otherwise silver-white surfaces. The small reddish dots on that side carry over to the otherwise minimally toned reverse. Softly struck with a "bald spot" on Grant's head but pleasingly preserved. The original request from the Grant commemoratives' beneficiary was for No Star and With Star gold dollars, and the With Star half dollars were an unexpected bonus. NGC has graded 57 numerically finer examples (10/13). NGC ID# 28KC, PCGS# 9307

**1922 Grant Half Dollar, MS65
Popular With Star Variant**

- 3928 1922 Grant With Star MS65 NGC.** A brilliant Gem, this Grant With Star half dollar has brilliant silver-white surfaces with satiny luster that is the result of extensive die polishing, especially on the obverse. This pleasing piece has a typical strike that is flat on Grant's head behind the forehead. NGC has certified 57 numerically finer examples (10/13). NGC ID# 28KC, PCGS# 9307

**1922 Grant With Star Half, MS65
Beautifully Toned**

- 3929 1922 Grant With Star MS65 PCGS.** Pale yellow, silver-gray, and light rose hues combine to beautiful effect on this Gem Grant With Star half, a popular issue in an in-demand grade. The profile of General Grant is free of mentionable marks (which most survivors are not), and softly frosted luster complements the bold strike. PCGS has seen only 48 numerically finer (11/13). NGC ID# 28KC, PCGS# 9307

1920 Maine Half Dollar, MS67
An Important Condition Rarity

- 3930 1920 Maine MS67 PCGS.** The Maine Centennial half dollar commemorated the 100th anniversary of the state's admission to the Union in 1820. The majority of the 50,000 pieces distributed went to the general public who carelessly mishandled them. No more than 5,000 coins are thought to have been purchased by dedicated collectors; consequently, examples in higher Mint State levels are much more elusive than the fairly generous mintage would indicate. The present Superb Gem is genuinely rare. Whispers of reddish-brown gravitate to the margins, and strong luster exudes from both sides, each of which has been well cared for. The design elements are well-struck, further enhancing the coin's eye appeal. This is an excellent choice for a high-grade commemorative type set. Population: 25 in 67 (1 in 67+), 0 finer (10/13). NGC ID# 28KN, PCGS# 9326

1923-S Monroe Half Dollar, MS66+
Lustrous and Exceptional for the Issue

- 3931 1923-S Monroe MS66+ PCGS. CAC.** In his essential commemorative encyclopedia, author Q. David Bowers said of the Monroe half dollar, "... you will never find a beautiful one." He was speaking to the aesthetics of the design. But here, indeed, is a beautiful and rare Monroe. Vivid orange, red, russet, and blue peripheral tone floats on essentially flawless, creamy silver surfaces. Almost impossible to find this nice, and just five pieces have been graded finer (11/13). NGC ID# 28KT, PCGS# 9333

COMMEMORATIVE GOLD

1915-S Panama-Pacific Gold Dollar, MS67
Excellent Eye Appeal

- 3932 1915-S Panama-Pacific Gold Dollar MS67 NGC.** While 25,000 gold dollar commemoratives were struck, only 15,000 were sold and the remainder melted. Surviving examples are obtainable through Premium Gem, but MS67 pieces such as the present coin become more difficult to locate. Apricot-gold, yellow, and lavender surfaces display pleasing luster and well-struck design elements. Both sides are nicely preserved. Excellent overall eye appeal. Census: 65 in 67 (1 in 67+, 1 in 67 ★), 0 finer (10/13). NGC ID# 26HE, PCGS# 7449

1915-S Panama-Pacific Quarter Eagle, MS64
A Popular Commemorative Issue

- 3933 1915-S Panama-Pacific Quarter Eagle MS64 PCGS.** The Pan-Pac quarter eagle is one of the more challenging issues in the commemorative gold series and is extremely popular among collectors. The apricot-gold surfaces of this near-Gem specimen display hints of rose and possess nice luster. Sharply struck design elements further enhance the coin's eye appeal. NGC ID# 26HK, PCGS# 7450

1915-S Panama-Pacific Quarter Eagle, MS64

- 3934 1915-S Panama-Pacific Quarter Eagle MS64 NGC.** A brilliant Choice Mint State example, this Panama-Pacific quarter eagle has satiny light yellow luster. This has the eye appeal of a finer grade with that grade limited only by the typical strike.
Ex: The Montgomery Collection (Bowers and Ruddy, 2/1976), lot 1663.
From The Ole Miner's Collection. NGC ID# 26HK, PCGS# 7450

**1915-S Pan-Pac Two and a Half, MS65
Excellent Eye Appeal**

- 3935 1915-S Panama-Pacific Quarter Eagle MS65 PCGS. CAC.** Gem example of the 1915-S Panama-Pacific quarter eagle commemorative gold piece are quite popular, as the larger fifty dollar types are quite out of reach of most collectors. The present MS65 PCGS example is certified in a green-label holder with accompanying CAC "green bean," a combination that will appeal to many potential buyers — as will the coin, a deep, mellow orange-gold with minimally marked surfaces and excellent eye appeal. NGC ID# 26HK, PCGS# 7450

**1915-S Panama-Pacific Quarter Eagle, MS66+
Offered With Paper Ephemera**

- 3936 1915-S Panama-Pacific Quarter Eagle MS66+ NGC.** Luminous yellow-gold with hints of orange and a touch of duskiness. Carefully preserved and all-around appealing, if softly struck as usual on Columbia's features. Includes significantly worn and in-places-torn but nonetheless immensely interesting pieces of ephemera: the standard paper slip describing the Panama-Pacific quarter eagle, plus an envelope from apparent middlemen Fletcher-Eichman & Company, "Specialists in Food Materials and Supplies," out of Chicago. NGC ID# 26HK, PCGS# 7450

**1915-S Panama-Pacific Quarter Eagle, MS67
Tied for Finest Certified**

- 3937 1915-S Panama-Pacific Quarter Eagle MS67 NGC.** Frosty luster, brilliant yellow surfaces, rose overtones, and bold design motifs characterize this Superb Gem 1915-S Panama-Pacific quarter eagle. This issue was part of the extensive commemorative set that Farran Zerbe prepared for the San Francisco exposition. This piece is tied for the finest certified at NGC and PCGS (11/13). NGC ID# 26HK, PCGS# 7450

TERRITORIAL GOLD

**1852 Assay Office Fifty, Choice VF
Kagin-13, 887 Thous.**

- 3938 1852 Assay Office Fifty Dollar, 887 Thous. VF35 NGC. K-13, Low R.5.** A straw-gold example from the early days of the United States Assay of Gold, which was the Moffat firm reformed after its founder, metallurgist John Little Moffat, departed for mining adventures. The surfaces of the present piece are light apricot-gold and mildly glossy. Marks are moderate for the grade and type, though the left obverse has a trio of small edge knocks and a few minor pinscratches are beneath the eagle's rock. The centers display wear but traces of luster emerge from the wings and legends. A fifty-dollar Assay Office "slug" is the quintessential numismatic icon of the California Gold Rush. Listed on page 383 of the 2014 Guide Book. PCGS# 10016

**1854 Kellogg Twenty, K-1b, AU58
Lightly Circulated Example**

- 3939 1854 Kellogg & Co. Twenty Dollar AU58 NGC. K-1b, R.5.** Short arrowheads, LIBERTY high on coronet, broken crossbars on A1 and A3 on reverse. Lots of mint luster remains on the yellow-gold surfaces of this lightly circulated Kellogg twenty. Some stray marks and buildup in the device crevices testify to a short spate in circulation. A nice, relatively affordable example of this Territorial gold rarity. Listed on page 391 of the 2014 *Guide Book*. PCGS# 10222

**1849 Moffat & Co. Five, AU55
Elusive K-4 Variety**

- 3940 1849 Moffat & Co. Five Dollar AU55 PCGS. K-4, R.5.** The 1849 Moffat & Co. five dollar gold piece closely resembles the design for the contemporary federal half eagle, but with MOFFAT & CO. on the coronet instead of LIBERTY and a different legend on the reverse. This lustrous Choice AU specimen is sharply detailed for a Territorial issue and the pleasing green and orange-gold surfaces are lightly abraded. Listed on page 380 of the 2014 *Guide Book*. Population: 10 in 55, 18 finer (10/13). PCGS# 10240

PATTERNS

**1868 Aluminum Ten Dollar, PR64
Judd-663, Probable Longacre Design**

- 3941 1868 Ten Dollar, Judd-663, Pollock-736, Low R.6, PR64 PCGS.** Believed to be a Longacre design, the obverse has a large bust of Liberty facing left with thirteen stars around and the date below. The reverse has a small eagle with upraised wings as the central motif, the motto on a scroll in the field above, and UNITED STATES OF AMERICA/TEN D. at the margin. Struck in aluminum with a reeded edge. This pattern was also struck in gold and copper. It is estimated that approximately a dozen aluminum pieces are known. This is a lovely aluminum pattern. The surfaces are unoxidized and the fields are deeply reflective, as usually seen. The devices are moderately frosted and present a mild contrast against the mirrored fields, but not quite stark enough for Cameo designation. A distinctive planchet lamination is located on the cheek of Liberty. PCGS# 60881

**1870 Standard Silver Half Dime Pattern
Judd-809, PR67, Ex: Newman**

- 3942 1870 Standard Silver Half Dime, Judd-809, Pollock-897, Low R.7, PR67 NGC. CAC.** William Barber's Seated Liberty design is paired with a familiar Standard Silver reverse motif, a wreath of corn and cotton and 5 CENTS in the center. Struck in silver with a reeded edge. The small physical size of the five cent pattern resulted in slight differences in the design. The cap on the pole resembles a large number 2, for example. The ribbon ends in a single tail distant from the U in UNITED, rather than the double tail below UN on the larger denomination patterns. The Newman specimen is the only certified PR67 example from a combined NGC and PCGS population of 10 submissions.

Blue, magenta, and gold toning appears on both sides of this Superb Gem proof. The fields are fully mirrored with lustrous devices, resulting in light cameo contrast that is visible through the toning. All design elements are boldly impressed.

Ex: Newman Collection / Central States Signature (Heritage, 4/2013), lot 3979. PCGS# 61053

**1870 William Barber-Designed Dime, PR67
Judd-831, Finest Certified**

- 3943** 1870 Ten Cents, Judd-831, Pollock-921, High R.6, PR67 NGC. CAC. A William Barber seated Liberty obverse. She faces left and supports a shield in her right hand. Her left hand holds an olive branch. A free-standing liberty pole is present behind the shield. Usual Seated dime reverse. Struck in silver with a reeded edge. Richly patinated lilac-red, navy-blue, and peach-gold with the deepest shades on the obverse. This is the single finest certified specimen of Judd-831 at either major service (10/13). PCGS# 61075

**1870 Quarter Pattern, PR66
Judd-883, Silver**

- 3944** 1870 Quarter Dollar, Judd-883, Pollock-981, Low R.7, PR66 NGC. William Barber's obverse depicts a seated figure of Liberty facing left, with 13 stars around and the date below. The reverse is the regular Seated Liberty quarter. Struck in silver with a plain edge. Lovely cherry-red and lime-green toning endows the flashy and fields. Intricately impressed and undisturbed. Census: 2 in 66, 1 finer as 66 Cameo (11/13). PCGS# 61127

**1870 Standard Silver Half in Copper
Judd-930, PR64 Red and Brown**

- 3945** 1870 Standard Silver Half Dollar, Judd-930, Pollock-1035, R.7, PR65 Red and Brown PCGS. CAC. This William Barber design features Liberty seated and facing left, surrounded by 13 stars. She steadies a shield with her right hand, while her left hand holds an olive branch. A Liberty pole is partly concealed behind the shield. A scroll crossing the shield features a raised inscription of LIBERTY. The date is centered below. The reverse has a wreath of corn and cotton, with 50 CENTS inside and STANDARD above. This muling of pattern Seated and Standard Silver dies led to the absence of UNITED STATES OF AMERICA. Struck in copper with a plain edge. Precisely struck and prominently mirrored with predominantly peach-red surfaces, though glimmers of blue-green are noted at the margins. Aqua freckles on the upper reverse rim identify the present piece. PCGS# 71176

**1875 Shield Nickel Pattern, PR66 Red and Brown
Finest Certified Judd-1387
Ex: Eric P. Newman**

- 3946** 1875 Five Cents, Judd-1387, Pollock-1531, R.8, PR66 Red and Brown NGC. CAC. The regular Shield nickel design, struck in copper with a plain edge. Only three or four examples of this pattern are known, and this is only the second distinct specimen we have handled in the last 16 years, although we did offer this same coin in our April 2013 Central States Signature as part of the fabulous Eric P. Newman collection of patterns. NGC has certified this piece and one they described as PR64 Red. PCGS has certified two examples graded PR64 Red and PR65 Red respectively. The present coin is numerically the finest Judd-1387 certified by either service (10/13).

The extraordinarily bold strike and high wire rim around both sides gives the appearance of a thick planchet. Subdued mirrors display rich orange mint color blended with delicate bluish-brown patina. Both sides exhibit trivial carbon flecks evidencing the originality of its surfaces.

Ex: "Colonel" E.H.R. Green; Green Estate; Partnership of Eric P. Newman / B.G. Johnson d.b.a. St. Louis Stamp & Coin Co.; Eric P. Newman @ \$35; Eric P. Newman Numismatic Education Society; Newman Collection / Central States Signature (Heritage, 4/2013), lot 4004. PCGS# 71694

1875 Twenty Cent, Gem Proof
Judd-1407, Silver

- 3947** 1875 Twenty Cents, Judd-1407, Pollock-1550, Low R.6, PR65 PCGS. CAC. The obverse is similar to the adopted die, although LIBERTY is incused rather than raised as on the regular issue coins. The unadopted pattern reverse expresses the denomination twice, TWENTY CENTS and 1/5 OF A DOLLAR. Perhaps the Mint was wary of customers confusing examples with a Seated quarter. The verbose legend forces a simple wreath motif, similar to that of the issued three cent nickel. Struck in silver with a plain edge. The fully struck surfaces display deeply blended ocean-blue and walnut-brown toning. Outstanding preservation further ensures the eye appeal. Population: 1 in 65, 1 finer (10/13). PCGS# 61714

1883 Liberty Nickel Pattern
Judd-1704, PR66 Deep Cameo
Struck in Pure Nickel

- 3948** 1883 Liberty Head Five Cents, Judd-1704, Pollock-1908, Low R.6, PR66 Deep Cameo PCGS. The obverse is similar in design to the Liberty nickel adopted this year, except the stars are replaced with the legend UNITED STATES OF AMERICA. The reverse has a central inscription that reads PURE NICKEL, surrounded by a wreath of cotton and corn. FIVE CENTS is separated above and below with seven stars left and six right. Struck in pure nickel with a plain edge, which makes examples magnetic and difficult to strike properly. This is the single finest PCGS-certified specimen, identified by two retained laminations (as made) near the bust tip and the M in AMERICA. The central reverse displays parallel roller marks, also as coined. Well struck, pristine, and untuned with frosty motifs and glassy fields. PCGS# 62120

MORGAN DOLLARS

3949 1878 8TF MS65 PCGS. CAC. VAM-3. The “Spiked Eye,” not a Top 100 or Hot 50 variety but one that has grown in popularity. A semi-prooflike Gem with dazzling luster and delicate tan toning. Nicely struck and only lightly abraded.
Ex: Summer FUN West Palm Beach (Heritage, 7/2009), lot 809; Central States Rosemont (Heritage, 4/2011), lot 5584.
From The Parfeld Collection. PCGS# 133786

3950 1878 8TF MS65 PCGS. VAM-6. A Gem example of the “Pierced Eyelid” variety, this coin displays faint gold toning along with a few subtle hints of light blue. Among the diagnostics for this variety are areas of doubling, including RIBU in PLURIBUS. There are no marks worthy of individual mention on this piece.
From The Parfeld Collection. PCGS# 133789

3951 1878 8TF First Die Pair, AU50 PCGS. VAM-9. A Top 100 Variety. The following comments taken directly from the VAMworld web site describe the significance of the VAM-9 Morgan:

“The 1878 VAM-9 Morgan Silver Dollar is the very first set of dies used to strike Morgan dollars! The 1878 VAM-9 is an 8 tailfeather coin. Detective work has revealed they began striking the new Morgan coins at 3:17 PM on March 11, 1878. The combination of the die and the time is known because a reporter was present at the event and the first coins struck were presentation pieces for President Hayes. His specific coin has been preserved and studied for die features and subsequently identified as a VAM-9. According to a reporter present, only 303 pieces were struck when the die failed and new ones had to be used. The reverse die is identifiable because of the “comma” feather on the lower right side as looking at the eagle. Some VAM-mers describe this feather as kidney-bean shaped and it is a key identifier of a VAM-9.”

This lightly circulated example retains a degree of semi-prooflike in the fields. The scattered marks are consistent with a large, heavy silver coin having seen brief circulation. A pleasing example of this important Morgan dollar.

From The Parfeld Collection. PCGS# 133792

3952 1878 8TF Concave Reverse MS63 PCGS. VAM-14.4. A Hot 50 Variety. Per VAMworld.com, VAM-14.4 “is the favorite variety of many VAM experts. Its beautiful concave reverse is unique in the series. Tilting and rotating a VAM 14.4 reverse in the light gives the impression you are gazing into a silver bowl. The effect rivals the best cartwheels you have ever seen on an obverse of any Morgan. If the VAMworld.com crew were to vote on the most distinctive VAM, the 14.4 would be in the top two or three.” Brilliant and lustrous with smooth fields and excellent eye appeal.
From The Parfeld Collection. PCGS# 133799

3953 1878 8TF AU50 PCGS. VAM-14.5. A Hot 50 Variety. A lightly circulated example of the “Open Nostril” variety, this coin displays several shades of toning, including golden-tan, teal, gunmetal-gray, and hues of green. VAMworld describes this variety as “very rare.”
From The Parfeld Collection. PCGS# 133800

3954 1878 8TF AU55 PCGS. VAM-14.5. A Hot 50 Variety. The A in STATES is spiked on the reverse of this “Open Nostril” variety, so named because a portion of the lower nose was polished away. A Choice AU representative, this piece displays attractive toning in shades of gold, golden-brown, and violet. The reverse includes hints of red along with a few small splashes in several green hues. Scattered marks, including a few on Liberty’s face, are not distracting.
From The Parfeld Collection. PCGS# 133800

3955 1878 8TF MS63 PCGS. VAM-14.6. A Select representative of the “Dot on Ear” variety, multiple areas of doubling appear on the text, including strong doubling of UNITED at both top and bottom. The reverse in particular displays attractive luster on this piece. Though scattered marks are present, none are worthy of mention.
From The Parfeld Collection. PCGS# 133801

3956 1878 8TF MS62 PCGS. CAC. VAM-14.8. An MS62 example of the “Spiked Eye” variety, so named due to doubling of the eyelid in front of the eye. Other areas of doubling are present, including the date and stars. Examples are found as both proofs and business strikes. Attractive luster remains on this untuned piece, particularly in the protected areas.
From The Parfeld Collection. PCGS# 133803

3957 1878 8TF MS63+ Prooflike PCGS. CAC. VAM-14.8. Per VAMworld.com, “the 1878-P VAM-14.8 is one of the ultra rare 8TF coins. VAM-14.8 was struck as a proof and the dies were reused as a business strike. Because of rarity, the business strike typically sells for higher premiums than the proof.” A flashy and lightly toned example of the “Spiked Eye” variety, this piece is brilliant save for obverse peripheral apricot patina.
Ex: Houston Signature (Heritage, 12/2010), lot 3840.
From The Parfeld Collection. PCGS# 40161

3958 1878 8TF AU50 PCGS. VAM-14.9. A lightly circulated example of the “Tripled Eyelid” variety, this Morgan displays areas of attractive toning when viewed closely, including shades of light gold. The highpoints of the design exhibit light wear. Aside from a hair thin mark in the left reverse field, there are no marks worthy of mention.
From The Parfeld Collection. PCGS# 133804

3959 1878 8TF AU50 PCGS. VAM-14.13. Subtle hints of toning are present on this lightly circulated example of the “Doubled Eyelid” variety. A characteristic of the reverse is a small die scratch appearing in the lower part of N in UNITED. This lovely piece retains a pleasing appearance.
From The Parfeld Collection. PCGS# 133808

3960 1878 8TF AU50 PCGS. VAM-14.13. A “Doubled Eyelid” variety example, one of the rarer varieties with 8 tailfeathers, this lightly circulated piece has a tiny toning spot by the obverse rim near 9 o’clock along with a few tiny splashes of color on the reverse. As expected at this grade level, scattered marks are present, including a horizontal hair thin mark on the upper reverse.
From The Parfeld Collection. PCGS# 133808

- 3961 1878 8TF Eye Chip VF30 PCGS. CAC. VAM-14.14.** A rare die marriage best identified by the die crack between the second 8 in the date and the center of the right dentil below. Many Morgan collectors are attempting to assemble a complete holding of 8TF varieties, though several are nearly unobtainable. This cream-gray midgrade example lacks any noticeable marks. PCGS# 133809
- 3962 1878 8TF — Scratched — PCGS Genuine. VF Details. VAM 14.18.** A pleasing example of the “Doubled Eyelid” variety. This is an “ultra rarity” according to VAMworld, with only 7 to 10 known examples. Although this coin received a details grade due to a number of scratches on the obverse, the piece retains a nice overall appearance.
From The Parfeld Collection. PCGS# 133813
- 3963 1878 8TF MS65 NGC. VAM-17.** Rich honey-gold dominates most of this boldly struck and pleasing Gem. The left reverse margin exhibits dusky lilac-red and sea-green toning. A high grade example of this briefly coined introductory design subtype. PCGS# 133818
- 3964 1878 8TF MS65 PCGS. VAM-17.** A diagonal line appears in the lower portion of the first 8 in the date as part of this variety. Additional diagnostics include extra wing feathers, among them a large pointed feather. A few tiny hints of color are present on this lustrous, well-struck Gem.
From The Parfeld Collection. PCGS# 133818
- 3965 1878 8TF MS65 PCGS. VAM-21.** The bases of the R and B in PLURIBUS are broken on this variety. This Gem 8TF dollar has light golden toning and a prooflike reverse. The obverse displays cartwheel luster. Well struck and impressively preserved.
Ex: Central States Rosemont (Heritage, 4/2011), lot 5585.
From The Parfeld Collection. PCGS# 133822
- 3966 1878 8TF MS63 Deep Mirror Prooflike PCGS. VAM-23.** A Top 100 Variety. A Select example of the “Crazy Lips” variety, the nickname is due to the appearance of the lips caused by doubling on the obverse. The Deep Mirror Prooflike surfaces of this piece add to the eye appeal.
From The Parfeld Collection. PCGS# 40204
- 3967 1878 7/8TF MS65 PCGS. VAM-37.** A example of the strong variety with a broken point on star 4 at right and slight doubling on the right side of the 7 in the date. The VAM-36 and VAM-37 varieties are identified quickly due to the presence of two spikes below the bottom of the arrow feathers. This Gem displays lovely toning in shades of deep golden-orange, sea-green, frosty teal, and violet. Scattered minor marks, primarily on the obverse, pose little distraction, if any.
From The Parfeld Collection. PCGS# 134034
- 3968 1878 7/8TF Strong MS65 PCGS. VAM-37.** Per VAMworld.com, “VAM-37 is a strong 7/8 tailfeather variety that shows 4 of the 8 tailfeathers form the original A reverse.” A lustrous and brilliant Gem that exhibits a sharp strike and a smooth cheek. A strike-through at the base of Liberty’s neck is of mint origin. PCGS# 134034
- 3969 1878 7/8F Strong MS63 Deep Mirror Prooflike PCGS. CAC. VAM-41.** A Top 100 Variety. VAM-41 exhibits the most prominent 8TF remnants of any 7/8TF VAM. Seven tail feather ends are present and most are bold. This is a deeply mirrored silver dollar with lovely lemon-gold and sky-blue toning near the rims. Well struck and only moderately abraded. PCGS# 40226
- 3970 1878 7/8TF Weak MS65 PCGS. VAM-41A.** The die scratch to the left of the bow is often used as an identifier. The tips of the underlying tail feathers are present on this Gem example of the weak variety. Cartwheel luster adds to the eye appeal of this brilliant piece displaying only a few tiny hints of toning.
From The Parfeld Collection. PCGS# 134038

1878 Weak 7/8TF Tripled Blossoms Dollar VAM-44, AU50 A ‘Must Have’ Variety for Advanced Morgan Collections

- 3971 1878 7/8TF Tripled Blossoms AU50 PCGS. VAM-44.** A Top 100 Variety. Per VAMworld.com: “VAM-44 is an amazing variety that, based on recent sales figures, is becoming a ‘must-have’ for all serious Morgan dollar collections. The problem? Only about 70 are known and the demand is for far more than that!” The website also indicates that this variety is considered the “King of VAMs” by many collectors.
The leaves and cotton bolls within Liberty’s hair are strongly die tripled. The eagle’s doubled legs provide a secondary diagnostic. Traces of luster reside in the recessed areas of this AU example, and both sides reveal just a few minute marks associated with brief circulation. Population: 7 in 50, 25 finer (10/13).
From The Parfeld Collection. PCGS# 133829
- 3972 1878 Tripled Blossoms — Cleaning — PCGS Genuine. AU Details. VAM-44.** A Top 100 Variety. The famous variety with bold die tripling on the obverse leaves and cotton bolls. VAM-44 is a rarity, though the present auction presents an unusual number of examples. This untuned example is bright from cleaning and the fields display numerous light pinscratches. The cheek is abraded.
From The Parfeld Collection.
- 3973 1878 7TF Reverse of 1878 MS65 PCGS. VAM-134** A frosty, cartwheel Reverse of 1878 Gem from the first year of the Morgan dollar. Minimally toned and appealing, this piece is housed in a green label holder. PCGS has graded just 27 finer examples for the type and reflectivity designations (11/13).
From The Parfeld Collection. NGC ID# 253K, PCGS# 7074
- 3974 1878 7TF Reverse of 1878 MS65 PCGS.** A lovely lustrous example, this coin is primarily untuned save for a slender area of gold toning at the left side of the obverse. The design definition is sharp, adding to the appeal of this Gem. Aside from a small mark on the eagle’s breast, there are no marks worthy of mention. PCGS has assigned higher numeric grades to only 27 examples (10/13). NGC ID# 253K, PCGS# 7074
- 3975 1878 7TF Reverse of 1878 MS65 PCGS.** A colorful Gem with green-to-gold outer toning and blue-to-violet interior hues embracing surfaces with low-key but beautiful luster. Pleasingly detailed for its first-year issue.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 253K, PCGS# 7074
- 3976 1878 7TF Reverse of 1878 MS65 PCGS. CAC. VAM-43.** A Hot 50 Variety. The eagle’s legs and talons are doubled on this variety. Though not designated as such, the flashy fields and lightly frosted devices provide this Gem with a prooflike appearance. Aside from a few tiny spots of golden-brown color, the coin is brilliant.
From The Parfeld Collection. PCGS# 133972

3977 1878 7TF Tripled Blossoms, Reverse of 1878 MS62 NGC. VAM-198. A Top 100 Variety. Formerly VAM-199.1. Liberty's cotton blossoms are die tripled. The early die state without any peripheral reverse cracks. A lightly toned example with good luster, a clean cheek, and minor grazes on the left obverse field. Unavailable any finer. Census: 2 in 62, none finer (1/13). PCGS# 133833

3978 1878 7TF Reverse of 1879 MS65 PCGS. VAM-221-1. A VAMSeal is present on the back of the holder and describes the attribution. VAM-221-1 is identified by a die chip on the forehead. 1878 Morgans are often collected by die variety. Lustrous, well preserved, and nicely struck with potent luster and a hint of golden patina.
From The Parfeld Collection. NGC ID# 253L, PCGS# 7076

3979 1878 7TF Reverse of 1879 MS63 Deep Mirror Prooflike PCGS. Areas of peach and golden-orange toning visit the borders of this attractive Select example. The fields are highly reflective, providing a pleasing degree of contrast against the sharply struck devices. Scattered marks are present, primarily in the left obverse field and upper reverse field. Population: 44 in 63 Deep Mirror Prooflike, 29 finer (10/13). NGC ID# 253L, PCGS# 97077

3980 1878-CC MS65 PCGS. The toned surfaces reveal attractive luster on this Gem representative. The colors include hues of gold, orange, lime-green, teal, and dark red. The coin displays a sharp strike, adding to the appeal. NGC ID# 253M, PCGS# 7080

3981 1878-CC MS65 PCGS. Potent cartwheel luster and brilliant surfaces with hints of blue provide this Gem with a strong degree of visual appeal. A few scattered marks and grazes are present on this piece exhibiting a razor-sharp strike. NGC ID# 253M, PCGS# 7080

3982 1878-CC MS64 Prooflike PCGS. The brightly reflective fields of this impressive Choice Morgan dollar contrast boldly with the sharply detailed frosty design elements and the brilliant surfaces show only minor hairlines and contact marks. NGC ID# 253M, PCGS# 7081

3983 1878-S MS65+ PCGS. CAC. A high-end Gem representative, this piece displays strong visual appeal. The attributes of this brilliant untuned coin include potent cartwheel luster, a sharp strike, and minimally abraded surfaces. A tiny hair thin mark appears in the field below the neck. NGC ID# 253R, PCGS# 7082

3984 1878-S MS64 Deep Mirror Prooflike PCGS. CAC. VAM-6. A Hot 50 Variety. Known as the "Doubled Rib" variety, this coin displays engraving lines between the right wing and body of the eagle. Among the other characteristics this variety possesses is a doubled LIBERTY. Gorgeous surfaces and strong cartwheel luster are two of the many attributes this coin reveals. Scattered minor marks are present, including a few on the upper reverse.
From The Parfeld Collection. PCGS# 40498

3985 1878-S MS62 PCGS. CAC. VAM-22. A Hot 50 Variety. Attractive luster remains, particularly on the reverse of this example of the "Doubled Rib" variety. In addition to the engraving lines on the eagle, the obverse exhibits doubling of E PLURIBUS UNUM and LIBERTY. Areas of light toning are present on this piece, including scattered freckles.
From The Parfeld Collection. PCGS# 133980

1878-S VAM-26 Long Nock Morgan, AU58 Only One Certified Finer at PCGS

3986 1878-S Long Arrow Shaft AU58 PCGS. VAM-26. A Top 100 Variety. Liberty's top eyelid is doubled at the bottom from, a tiny diagonal spike protrudes from the eyeball, the arrow nock is long, the mintmark is tilted left, and there is a small die dot in the lower tail feathers near the right claw. This piece is just trivial wear away from Mint State, with pretty silver-white surfaces accented by pink and amber. Certified with the VAM variety number, ready to be popped in to your Registry Set. Population: 1 in 58, 1 finer in MS63 (10/13).
From The Parfeld Collection. PCGS# 133845

3987 1878-S MS63 PCGS. CAC. VAM-50. A Hit List 40 Variety. Known as the "Lava Wing" variety due to the reverse, this piece includes a tripled eyelid, an engraved wing feather, and the S tilted left. This variety is believed to be quite rare according to VAMworld. Potent luster and brilliant untuned surfaces provide this Select example with strong visual appeal. Minor surface marks are consistent with the assigned grade.
From The Parfeld Collection. PCGS# 134048

3988 1878-S XF40 PCGS. CAC. VAM-62. A Top 100 Variety. This is a circulated example of the variety with a long center arrow feather and the S set far left. Medium gray surfaces along with areas of golden-tan are present on this piece. There are no marks worthy of individual mention.
From The Parfeld Collection. PCGS# 133852

3989 1879 MS66 PCGS. This second-year Morgan dollar has striking cartwheel luster. Occasional hints of blue and gold color grant added eye appeal. A smooth Premium Gem. NGC ID# 253S, PCGS# 7084

3990 1879 MS66 PCGS. Strong cartwheel luster and brilliant surfaces provide this Premium Gem representative with superlative eye appeal. The extreme rims reveal areas of gold and orange color. A sharp strike and minimally abraded surfaces are additional attributes of this coin. PCGS has awarded a higher numeric grade to a single example (10/13). NGC ID# 253S, PCGS# 7084

3991 1879-CC Capped Die AU53 PCGS. VAM-3. A Top 100 Variety. A fairly early die state with fewer chips in the mintmark vicinity than usually seen for VAM-3. Any 1879-CC dollar is desirable since comparatively few of the issue emerged from the GSA holdings. A lightly circulated cream-gray example with a cluster of faint marks on the lower left obverse field. NGC ID# 253T, PCGS# 7088

3992 1879-O MS64+ PCGS. CAC. This high-end Choice example offers sharply detailed design elements and vibrant frosty mint luster throughout. The mostly brilliant fields show a few hints of golden-tan toning and a few minor contact marks on both sides. NGC ID# 253V, PCGS# 7090

- 3993 1879-O MS64+ Prooflike PCGS. CAC.** The fields are richly mirrored on this high-end near-Gem example displaying outstanding visual allure. Additional attributes include a sharp strike and brilliant surfaces exhibiting hints of blue and green. A lamination is present near the R in PLURIBUS and a small spot appears above the 18 of the date. Population: 3 in 64+ Prooflike, 2 finer (10/13). NGC ID# 253V, PCGS# 7091
- 3994 1879-O AU53 PCGS. VAM-28.** A Top 100 Variety. The mintmark displays an O over horizontal O on this variety as well as doubling of the 87 in the date. The VAM-28 variety is far rarer than the earlier die state VAM-4 variety. A lightly circulated example, this piece retains attractive luster and virtually untuned surfaces. *From The Parfeld Collection.* PCGS# 133855
- 3995 1879-S Reverse of 1878 MS64 PCGS.** Both sides are significantly reflective, though not to a Prooflike extent. Gold-orange outer toning yields to silver centers dotted in rose. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 253W, PCGS# 7094
- 3996 1879-S Reverse of 1878 MS64 PCGS. VAM-9.** A Top 100 Variety. The characteristics of this variety include a doubled 9 and an engraved wing feather. Gorgeous toning appears primarily on the obverse of this near-Gem. The colors include shades of golden-brown, peach-gold, and champagne. Cartwheel luster is an additional attribute of this well-struck near-Gem. *From The Parfeld Collection.* PCGS# 133858
- 3997 1879-S Reverse of 1878 MS63 PCGS. CAC. VAM-34.** A Top 100 Variety. The die marker for this variety is triple diagonal polishing lines appearing in the lower part of the T in LIBERTY. Luster remains beneath the patina of gray and rich gold on this Select example. Scattered tiny areas of light blue, green, and plum color are also present. A small spot appears in the field near Liberty's forehead. *From The Parfeld Collection.* PCGS# 133861
- 3998 1879-S Reverse of 1878 MS64 PCGS. CAC. VAM-39.** A Top 100 Variety. The die markers for this variety consist of a diagonal polishing line in the hair behind the ear as well as three horizontal polishing lines between the wheat grains. This near-Gem example exhibits a sharp strike and possesses potent luster and prooflike surfaces, particularly on the obverse. *From The Parfeld Collection.* PCGS# 133862
- 3999 1879-S Reverse of 1878 MS64 PCGS. VAM-42.** A Top 100 Variety. An engraved wing feather and doubled 79 appear on this variety. Lustrous surfaces, particularly the reverse, provide this near-Gem representative with strong eye appeal. Areas of light toning appear at portions of the periphery on this piece displaying a strong strike. *From The Parfeld Collection.* PCGS# 133863
- 4000 1879-S Reverse of 1878 MS64 PCGS. CAC. VAM-43.** A Top 100 Variety. The entire date displays doubling on this variety. Virtually untuned and possessing strong luster, particularly on the reverse, this near-Gem example exhibits a bold degree of visual appeal. Aside from the extreme centers, the strike is sharp. Scattered marks, consistent with the grade, are present. *Ex: Long Beach Signature (Heritage, 2/2007), lot 5403.* *From The Parfeld Collection.* PCGS# 133864
- 4001 1879-S Reverse of 1878 MS64 PCGS. VAM-46.** A Top 100 Variety. A hair-thin die scratch above the lip confirms this scarce Second Reverse die variety. A brilliant near-Gem with dynamic luster and a good strike. The cheek and fields exhibit minor chatter. PCGS# 133865
- 4002 1880 MS65+ PCGS.** The obverse of this high-end Gem is blanketed in shades of champagne-gold toning but the reverse shows only a crescent of greenish-gold and blue. The design elements are sharply detailed and the lustrous surfaces display few signs of contact. NGC ID# 253Y, PCGS# 7096

- 4003 1880 MS66 PCGS.** Attractive toning adds to the visual appeal of this Premium Gem example. Among the colors present are gold, copper, vibrant orange, red, and frosty light green. The toning on the reverse is confined to the left portion of the coin, with the remainder of that side exhibiting flashy, brilliant surfaces. Aside from minor incompleteness at the extreme centers, the strike is sharp. Neither PCGS nor NGC has awarded a higher numeric grade to a single example (10/13). NGC ID# 253Y, PCGS# 7096
- 4004 1880 8/7 Ears AU50 PCGS. VAM-8.** A Top 100 Variety. "Ear" remnants from the crossbar of an underdigit 7 are noted at the top of the second 8. The remainder of the underdigit was lapped from the die prior to use. The reverse displays the two diagnostic die scratches on the right (facing) wing. Much rarer than the better known VAM-4 through VAM-6 overdated 1880-CC dollars. Population: 6 in 50, 9 finer (11/13). *From The Parfeld Collection.* PCGS# 133873
- 4005 1880 AU58 PCGS. CAC. VAM-23.** A Top 100 Variety. A near-Mint example of the 80 over 79 overdate, this Morgan has an extremely pleasing appearance, due in part to untuned surfaces and frosty luster. The centers reveal a minor incompleteness of strike. *From The Parfeld Collection.* PCGS# 133875
- 4006 1880 MS63 PCGS. CAC. VAM-53.** A Hot 50 Variety. This rare variety displays a doubled 80 in the date as well as an 8/7 check mark similar to VAM-16. Satin luster and virtually untuned surfaces are among the attributes this Select example possesses. Minor marks are present, consistent with the grade. *From The Parfeld Collection.* PCGS# 416085
- 4007 1880-CC MS66 PCGS.** Potent luster, particularly on the reverse, and brilliant virtually untuned surfaces provide this Premium Gem with exceptional eye appeal. Only 28 examples have achieved higher numeric grades from PCGS (10/13). NGC ID# 2542, PCGS# 7100
- 4008 1880-CC MS66 PCGS.** This impressive Carson City issue displays well-detailed design elements and vibrant mint luster on both sides. The creamy well-preserved surfaces show no mentionable distractions. PCGS has graded 28 numerically finer examples (10/13). NGC ID# 2542, PCGS# 7100

1880-CC Silver Dollar, MS66+ Bar-Date Variety

- 4009 1880-CC MS66+ PCGS.** A bar under the second 8 and tiny die dots inside each C make frequent appearances on the 1880-CC dollars. This Premium Gem is an exceptional specimen that exhibits fully brilliant and untuned silver surfaces with excellent eye appeal. PCGS has only certified 28 finer examples (10/13). NGC ID# 2542, PCGS# 7100
- 4010 1880/79-CC Reverse of 1878 MS64 PCGS. VAM-4.** A Top 100 Variety. A sharply struck and lustrous near-Gem of this popular overdated Carson City issue. The obsolete Second Reverse is also of interest. The margins are lemon-gold but most of the coin has stone-gray toning. Smooth save for an abrasion on the field above the eagle's head. NGC ID# 253Z, PCGS# 7108

- 4011 1880/79-CC Reverse of 1878 MS64+ PCGS. VAM-4.** A Top 100 Variety. A brilliant and lustrous near-Gem that boasts a well preserved reverse. The obverse field is also smooth, and the cheek displays only moderate grazes. NGC ID# 253Z, PCGS# 7108
- 4012 1880/79-CC Reverse of 1878 MS63 Deep Mirror Prooflike PCGS. VAM-4.** A Top 100 Variety. The 80 is repunched over the 79 in the date for this variety. A gorgeous Deep Mirror Prooflike example, this piece has fantastic eye appeal, particularly on the reverse. A few scattered marks, including a vertical line on Liberty's face and marks in the right obverse field, held this Select representative from a higher grade.
From The Parfeld Collection. NGC ID# 253Z, PCGS# 97109

**1880-CC 8/High 7 Dollar, VAM-5, MS66
Above-Average Strike**

- 4013 1880-CC 8 Over High 7 MS66 PCGS. CAC. VAM-5.** A Top 100 Variety. VAMworld.com lists the VAM-5 variety as R.4. Most of the 7 underdigit is evident, including the crossbar, downstroke, base, and "ears" above the second 8. Occasional wisps of reddish-gold color visit the lustrous surfaces of this Premium Gem, more so on the reverse. The design elements are well-struck, including the centers that are often weak on this issue. The CAC label affirms the pleasing eye appeal.
From The Parfeld Collection. PCGS# 7102

- 4014 1880-CC 8 Over Low 7 MS65 PCGS. VAM-6.** A Top 100 Variety. The actual VAM number is not listed on the third party holder. The telltale for this variety is the remnants of an underdigit 7 beneath the second 8, while a loupe reveals other parts of the 7 inside the loops. This is an ice-white, attractive, well-struck Gem example.
From The Parfeld Collection. PCGS# 7104

- 4015 1880-CC 8/7 Reverse of 1878 MS65 PCGS. VAM-7A.** A Hit List 40 Variety. The Second Reverse is the most important feature, though the letter clash (the N from IN near Liberty's neck) is also of interest. Precisely struck with booming luster, light tan-gold toning, and smooth surfaces.
From The Parfeld Collection. PCGS# 7110

- 4016 1880-O MS64 NGC.** Small or Micro O. Scuffy '80-O Morgans are plentiful but Gems are rare and even near-Gems are scarce. This boldly struck silver dollar has vibrant luster and a well preserved reverse. NGC ID# 2543, PCGS# 7114

- 4017 1880-O MS64 PCGS. VAM-3.** Medium or Oval O. A small die line or "spike" from the eagle's neck increases collector interest. Light to medium green-gold toning visits portions of this lustrous and well preserved near-Gem. The strike is decidedly above average. NGC ID# 2543, PCGS# 7114

- 4018 1880-O MS64 NGC.** Small or Micro O. The 1880-O is common in typical Mint State but surprisingly scarce as a near-Gem. The present brilliant New Orleans dollar has booming luster and is only lightly abraded.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2543, PCGS# 7114

- 4019 1880-O MS64 PCGS.** Medium or Oval O. Sharply struck, lustrous, and essentially brilliant. Well preserved and attractive. Though a number of bags emerged from Treasury holdings, most 1880-O dollars are abraded and surprisingly few qualify as Gem. Housed in a green label holder. NGC ID# 2543, PCGS# 7114

- 4020 1880/79-O MS63 Deep Mirror Prooflike NGC. VAM-4.** A Top 100 Variety. Micro or Small O. The crossbar of the underdigit 7 is obvious inside the second 8, and a small portion of the 9 resides within the 0. A snow-white Select silver dollar with flashy fields, a crisp strike, and moderate marks. Census: 5 in 63 Deep Mirror Prooflike, 3 finer (11/13). PCGS# 97117

- 4021 1880-O MS64 PCGS. VAM-6A.** A Top 100 Variety. Potent luster adds to the visual appeal of this near-Gem example of the variety exhibiting the 8 over 7 spike, a clashed obverse st, and a reverse M. The coin is virtually untuned and exhibits a sharp strike. Scattered marks, all minor, appear on both sides.
From The Parfeld Collection. PCGS# 133883

- 4022 1880-O MS64 PCGS. CAC. VAM-6A.** A Top 100 Variety. A sharp strike and lustrous surfaces provide this near-Gem example with a lovely appearance. The piece remains largely brilliant aside from areas of gold toning, primarily at the dentils. In addition, the coin exhibits a sharp strike.
From The Parfeld Collection. PCGS# 133883

- 4023 1880-O MS64 PCGS. CAC. VAM-21.** A Hot 50 Variety. The obverse displays rich toning on this sharply struck near-Gem example of the "Checkmark" variety. The toning includes shades of gold, golden-brown, teal, and plum. The reverse also exhibits toning, primarily at the outer edges. Among the characteristics this variety possesses are the 8 was repunched over the 7 in the date, the 880 is doubled, and Liberty exhibits an alligator eye.
From The Parfeld Collection. PCGS# 133987

- 4024 1880-O MS64 PCGS. VAM-48.** A Top 100 Variety. The so-called "Hangnail" is a die gouge that descends from the leftmost tailfeather on the eagle. A lustrous near-Gem, this piece displays a mix of orange and silver-gray on the obverse, with only pale golden toning at the reverse borders. Diagonal roller marks cross Liberty's ear.
Ex: Long Beach Signature (Heritage, 9/2010), lot 4472.
From The Parfeld Collection. PCGS# 133879

- 4025 1880-S MS67 PCGS.** Large S. Remarkable cherry-red, honey-gold, and jade-green toning invigorates the reverse. The obverse is brilliant save for an arc of green and gold on the upper left margin. NGC ID# 2544, PCGS# 7118

- 4026 1880-S MS67 ★ NGC.** Large S. Delightful bands of powder-blue, orange-gold, and lilac toning illuminate the obverse. The reverse is nearly brilliant and essentially pristine. A boldly struck and lustrous Superb Gem. NGC ID# 2544, PCGS# 7118

**1880-S Silver Dollar, MS68
Brilliant and Beautiful**

- 4027 1880-S MS68 NGC.** Large S. The 1880-S Morgan dollar is known for its general high quality, but this magnificent MS68 specimen exceeds the expectations of even the most demanding collector. The design elements are sharply detailed throughout, with razor-sharp definition on the hair strands above Liberty's ear. The virtually pristine surfaces display vibrant luster and provide tremendous eye appeal. NGC ID# 2544, PCGS# 7118

**1880-S Dollar, Well-Struck MS68
Bright and Semiprooflike**

- 4028 1880-S MS68 NGC.** The 1880-S, with a circulation-strike mintage approaching 9 million pieces, is one of the more available coins in the Morgan dollar series. Tens of thousands of certified coins exist through MS67. The population drops to about 450 examples in MS68, and both services have seen only 10 finer (11/13). Both sides display a degree of field-device contrast and are well-struck. The untoned surfaces are impeccably preserved. NGC ID# 2544, PCGS# 7118

- 4029 1880-S MS66 Deep Mirror Prooflike PCGS.** Medium S. A well struck Gem that has immense eye appeal due to the contrast between the frosty devices and the splendidly preserved mirrored fields. The cheek has a hint of tan patina. In a green label holder. *Ex: Santa Clara Signature (Heritage, 11/2002), lot 6479, which realized \$833.75.* NGC ID# 2544, PCGS# 97119

- 4030 1881 MS66 NGC.** Potent cartwheel luster, areas of mint frost, and brilliant untuned surfaces provide this Premium Gem with exceptional eye appeal. The strike is sharp aside from minor incompleteness at the extreme centers. NGC and PCGS combined have awarded higher numeric grades to only 6 examples (10/13). NGC ID# 2546, PCGS# 7124

- 4031 1881-CC MS66 PCGS.** A piece with lovely eye appeal, this Premium Gem displays lustrous surfaces with only subtle hints of toning. The strike is sharp on this minimally abraded example. NGC ID# 2547, PCGS# 7126

- 4032 1881-CC MS66+ PCGS.** A high-end Premium Gem from the famous Carson City Mint, this coin displays brilliant well-preserved surfaces with vibrant mint luster and razor-sharp definition on all design elements. NGC ID# 2547, PCGS# 7126

**1881-CC Morgan Dollar
MS65 Deep Mirror Prooflike**

- 4033 1881-CC MS65 Deep Mirror Prooflike PCGS.** Only about 5% of all PCGS certified 1881-CC Morgan dollars are designated as Deep Mirror Prooflike. Both sides of this fully brilliant Gem display untuned silver luster with frosty devices and fully mirrored fields. Scattered grade-consistent marks are visible in the fields and on the devices; however, those marks are inconsequential. This is a splendid specimen. PCGS has certified 50 finer Deep Mirror Prooflike examples (11/13). NGC ID# 2547, PCGS# 97127

- 4034 1881-O MS65 NGC.** Aside from a thin swath of attractive light yellow-gold color along a portion of the right reverse periphery and a small area of light color on the obverse near UNUM, this coin is virtually untuned. Strong luster adds to the eye appeal. The coin exhibits a sharp strike, with the only marks worthy of mention appearing on the eagle's breast. Examples above the Gem level are prohibitively rare, with NGC having awarded higher numeric grades to 8 examples (10/13). NGC ID# 2548, PCGS# 7128

- 4035 1881-O MS65 PCGS.** Frosty luster and a sharp strike contribute to the eye appeal of this Gem. The piece is virtually untuned, with a few subtle hints of faint rose toning present. Scattered flyspecks appear on both sides. Only 14 examples have achieved higher numeric grades from PCGS (10/13). NGC ID# 2548, PCGS# 7128

**1881-S Morgan Dollar, MS68
Ideal Registry Set Candidate**

- 4036 1881-S MS68 NGC.** An incredible MS68 example of this popular Morgan dollar, one of the favorite type issues of the series. The design elements exhibit razor-sharp definition throughout and close inspection with a loupe reveals no mentionable distractions on the lustrous brilliant surfaces. NGC has certified no coins in higher numeric grades (11/13). NGC ID# 2549, PCGS# 7130

- 4037 1881-S MS66 Prooflike PCGS. CAC.** A few scattered tiny hints of color are present on this Premium Gem representative. The coin displays a sharp strike and only minor marks. The level of contrast between the mirrored fields and frosted devices is quite pleasing. NGC ID# 2549, PCGS# 7131

- 4038 1881-S MS67 Prooflike NGC.** Amply frosted on the devices with a spot of rose-gray centered at the hair over Liberty's ear. Otherwise silver surfaces are as carefully preserved as the Superb Gem grade demands. NGC ID# 2549, PCGS# 7131

- 4039 1881-S Wounded Eagle MS64 PCGS. CAC. VAM-54A.** A Hit List 40 Variety. Designated as VAM-54 on the PCGS holder, which is the same die pair but an early state without the vertical die break on the eagle's breast. The aforementioned break is present on this lot, a near-Gem that has dazzling luster and brilliant, carefully preserved surfaces. PCGS# 412604

- 4040 1882-CC MS66 PCGS.** A well struck example, this Premium Gem displays strong luster. The coin is brilliant, with only a few scattered subtle hints of toning. Only 62 examples have achieved higher grades from PCGS (10/13). NGC ID# 254B, PCGS# 7134

- 4041 1882-CC MS66 PCGS. CAC.** Areas of light toning appear on this Premium Gem example in shades of golden-brown. The flashy surfaces display attractive luster on this piece exhibiting a sharp strike. NGC ID# 254B, PCGS# 7134

- 4042 1882-CC MS66+ PCGS. CAC.** The virtually pristine surfaces of this spectacular Premium Gem display hints of pale gold toning that enhances the outstanding eye appeal. The design elements are well-detailed and vibrant mint luster is evident on both sides. NGC ID# 254B, PCGS# 7134

- 4043 1882-CC Misplaced Date MS66 PCGS. VAM-2A1.** A Hit List 40 Variety. Designated as VAM-2 on the insert, but the clashed N (from IN) is present. Per VAMworld.com, "early die states show diagonal bar below left 8 with length and slight curve of top of 1 and diagonal ends that match 1 top shape." Crisply struck with booming luster, exemplary fields, and only a trace of golden toning. PCGS# 41897

- 4044 1882-CC MS66 PCGS. CAC. VAM-2C.** A Hit List 40 Variety. Known as the “Counter Clash” variety, examples possess a doubled 882, a break cap back, and a doubled lip counter clash. This is a lustrous, virtually untuned Premium Gem example displaying a sharp strike aside from the extreme centers.
From The Parfeld Collection. PCGS# 413031
- 4045 1882-CC MS66 Prooflike PCGS.** A stunning Premium Gem, this Carson City dollar displays a pleasing degree of contrast between the fields and devices. Areas of attractive gold toning are present, primarily at portions of the outer edges. The coin displays a sharp strike aside from the extreme centers. Minor scattered marks on the eagle’s breast provide little distraction, if any. NGC ID# 254B, PCGS# 7135
- 4046 1882-CC MS65 Deep Mirror Prooflike PCGS.** The devices are richly frosted on this flashy Gem, providing appreciable contrast against the brilliant reflective fields. Aside from a few tiny splashes of color at portions of the extreme outer edges, this well struck piece is free of toning. Only 63 examples have been awarded higher numeric grades by PCGS (11/13). NGC ID# 254B, PCGS# 97135

**1882-CC Morgan, MS66 Deep Mirror Prooflike
Visually Impressive, Only One Graded Higher**

- 4047 1882-CC MS66 Deep Mirror Prooflike PCGS.** Seemingly unabraded, deeply reflective surfaces and a frosty cheek characterize the appeal of this beautiful Premium Gem. Just a touch of clear gold rim toning attests to the originality of an otherwise “white” coin. A meticulous strike confirms the lofty grade. Scarce this nice. Population: 62 in 66 Deep Mirror Prooflike, 1 finer (10/13). NGC ID# 254B, PCGS# 97135
- 4048 1882-O MS65 PCGS.** Brilliant, virtually untuned surfaces and cartwheel luster create strong visual appeal for this lovely Gem. Portions of the upper obverse dentils reveal shades of copper and gold. A sharp strike is an additional attribute of this gorgeous piece. Only 27 examples have achieved higher numeric grades from PCGS (10/13). NGC ID# 254C, PCGS# 7136
- 4049 1882-O MS65 PCGS.** Vibrant frosty mint luster complements the sharply detailed design elements of this impressive Gem and the well-preserved surfaces display only minor signs of contact. PCGS has graded only 27 finer examples (10/13). NGC ID# 254C, PCGS# 7136

- 4050 1882-O MS65 PCGS.** The obverse is mostly silver at the interiors with golden hues along the margins. The reverse is deeply toned sunset-orange, cerulean, and plum, among other hues. Great cartwheel luster.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 254C, PCGS# 7136
- 4051 1882-O MS65 PCGS. CAC. Ex: The Color Collection.** The obverse of this Gem displays rich toning in shades of green, yellow, and blue over glowing satiny luster. The lustrous reverse exhibits frosty silver with a brown-gold spot on the right wing. NGC ID# 254C, PCGS# 7136
- 4052 1882-O/S MS63 PCGS. VAM-3.** A Top 100 Variety. A lustrous Select example of the O over S variety, this coin displays a sharp strike and exhibits only the slightest hints of toning. Scattered marks are present, consistent with the grade.
From The Parfeld Collection. NGC ID# 254D, PCGS# 7138

**1882-O/S Dollar, MS64+
VAM-4, Top 100**

- 4053 1882-O/S Strong MS64+ PCGS. VAM-4.** A Top 100 Variety. The “O/S Recessed” VAM with a prominent diagonal portion of an S within the lower half of the New Orleans mintmark. Brilliant and lustrous with a precise strike and uncommonly smooth surfaces for the assigned grade. The motifs exhibit moderate die rust, as coined. Very rare any finer. NGC ID# 254D, PCGS# 7138
- 4054 1882-O/S MS64 PCGS. CAC. VAM-4.** A Top 100 Variety. The “Recessed” variant of the scarce O over S variety. This sharply detailed and carefully preserved near-Gem is lightly toned aside from glimmers of peach-gold near the rims. Struck from moderately rusted dies. NGC ID# 254D, PCGS# 7138
- 4055 1882-O/S Strong MS64 PCGS. CAC. VAM-3.** A Top 100 Variety. The “O Over S Flush” VAM that has the thick diagonal of the undermintmark S centrally located within the interior of the New Orleans mintmark.
This moderately marked and well struck near-Gem has good luster and rich orange-gold, lime-green, and plum-mauve patina. NGC ID# 254D, PCGS# 7138
- 4056 1882-O/S Weak MS64 PCGS. VAM-5.** A Top 100 Variety. The “O Over S Broken” VAM, one of the three recognized O/S dies. VAM-4 appears to be more common than either VAM-3 or VAM-5. This nicely struck almond-gold and pearl-gray near-Gem has good luster and a particularly smooth obverse.
Ex: Philadelphia Bullet (Heritage, 8/2000), lot 487. PCGS# 87138
- 4057 1882-O/S MS64 NGC. CAC. VAM-5.** A Top 100 Variety. Scarcer than the VAM-4 “O/S Recessed” overmintmark. The present fully struck and lustrous near-Gem displays light caramel-gold toning near the left margins. PCGS# 87138

**1882-S Dollar, MS68
Superb White Frosted Gem**

- 4058 1882-S MS68 NGC.** Icy white, frosted surfaces and bright, semiprooflike fields display an impeccable strike worthy of a coin just two points from a perfect MS70 grade. While the 1882-S exists plentifully in Uncirculated grades, it is difficult to find with the nearly flawless preservation and technical quality of this coin. An exceptional candidate for a high-grade Morgan dollar collection or type set. NGC ID# 254F, PCGS# 7140

**1882-S Morgan Dollar, MS68
None Certified Finer at NGC**

- 4059 1882-S MS68 NGC.** This outstanding Morgan dollar possesses incredible technical quality and visual appeal. The design elements show pinpoint definition in all areas, with fine detail on the hair strands above Liberty's ear. The well-preserved brilliant surfaces radiate vibrant mint luster and are free of visible flaws. NGC has certified no coins in higher numeric grades (11/13). NGC ID# 254F, PCGS# 7140

- 4060 1883 MS66+ PCGS. CAC.** This high-end Premium Gem displays pristine brilliant surfaces with a hint of pink toning and vibrant mint luster throughout. The design elements exhibit needle-sharp definition and eye appeal is extraordinary. NGC ID# 254G, PCGS# 7142

- 4061 1883 MS66+ PCGS. CAC.** A gorgeous frosty, virtually untuned silver-white high-end Premium Gem, this 1883 Morgan dollar displays a small area of attractive toning at the dentils on both sides. The strike is sharp, adding to the appeal. NGC ID# 254G, PCGS# 7142

- 4062 1883 MS67 NGC.** Precisely struck with cartwheel luster rolling in the silver fields. Only a small diagonal mark trailing from the corner of Liberty's mouth precludes an even finer designation. NGC ID# 254G, PCGS# 7142

- 4063 1883-CC MS66 PCGS.** Rich satin luster and brilliant, virtually untuned surfaces provide this Premium Gem with a strong degree of visual appeal. Wispy die cracks appear on both sides, with one on the obverse extending through 18 of the date. NGC ID# 254H, PCGS# 7144

- 4064 1883-CC MS66 PCGS. CAC.** Attractive shades of greenish-gold and turquoise toning enliven the well-preserved surfaces of this sharply detailed Premium Gem, with vibrant mint luster underneath. NGC ID# 254H, PCGS# 7144

- 4065 1883-CC MS66 PCGS. CAC.** The design elements of this impressive Premium Gem exhibit pinpoint definition throughout and the well-preserved brilliant surfaces radiate vibrant mint luster. Eye appeal is terrific. NGC ID# 254H, PCGS# 7144

- 4066 1883-CC MS66 PCGS. CAC.** Flashy cartwheel luster and brilliant surfaces that remain virtually untuned, save for a few scattered hints of toning along with splashes of attractive toning at the dentils, provide this Premium Gem representative with outstanding eye appeal. Additionally, the coin exhibits a strong strike. NGC ID# 254H, PCGS# 7144

1883-CC Dollar, Well-Struck MS67

- 4067 1883-CC MS67 NGC.** Gold-orange, lavender, violet, and ocean-green patination is slightly deeper and more extensive on the obverse of this Superb Gem. The design elements are relatively well-struck with a fair amount of detail in the hair over Liberty's ear and the eagle's breast feathers. Lustrous surfaces are nicely preserved. NGC has seen none finer (10/13). NGC ID# 254H, PCGS# 7144

**1883-CC Dollar, MS67
Patinated Obverse**

- 4068 1883-CC MS67 NGC.** The 1883-CC dollar is very plentiful in Mint State through the Premium Gem level of preservation. The population drops significantly in MS67 where the issue assumes the status of a condition scarcity. Variegated lavender, golden-orange, rose, aqua-green, and yellow-gold patination bathes the obverse of this Superb Gem while the reverse is essentially untuned. The design features are well-struck and both sides are nicely preserved. NGC ID# 254H, PCGS# 7144

1883-CC Morgan Dollar, MS67
Very Rare in Finer Grades

4069 1883-CC MS67 PCGS. The 1883-CC Morgan dollar is scarce at the MS67 level and extremely rare in higher grades. This spectacular Superb Gem offers sharply detailed design elements and vibrant mint luster throughout, with pristine brilliant surfaces and tremendous eye appeal. PCGS has graded only four numerically finer examples (11/13). NGC ID# 254H, PCGS# 7144

4070 1883-CC MS65+ Deep Mirror Prooflike PCGS. A gorgeous example, both sides of this high-end Gem display great visual appeal. The fields are deeply mirrored, the devices exhibit rich mint frost, and cartwheel luster is present on both sides. The coin exhibits bold details, with only minor incompleteness at the extreme centers. NGC ID# 254H, PCGS# 97145

4071 1883-O Partial E Reverse MS62 PCGS. CAC. VAM-22A. A Hot 50 Variety. One of the better Clashed E VAMs, and best appreciated on an Uncirculated example where the partial E is unmistakable. A lustrous and nearly brilliant piece with lightly struck stars and sharp centers. Population: 7 in 62, 5 finer (10/13). PCGS# 148715

4072 1883-S MS62 PCGS. The 1883-S is a scarce and popular date following a run of common S-Mint Morgans. This piece displays potent luster, particularly on the reverse. Small areas of golden-brown toning are present. NGC ID# 254K, PCGS# 7148

4073 1883-S MS62 NGC. Light blue-gray toning crosses the fields, while pale golden color outlines the margins and central devices. Well-defined but with a few sets of reed marks on the portrait that contribute to the grade.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 254K, PCGS# 7148

4074 1884-CC MS66 PCGS. CAC. Frosty luster and brilliant surfaces provide this Premium Gem representative with strong eye appeal. A few faint hints of rose color are present, primarily on the reverse. Aside from the extreme centers, the strike is sharp, adding to the attractiveness. NGC ID# 254M, PCGS# 7152

4075 1884-CC MS65 Deep Mirror Prooflike NGC. Beautiful golden-brown, sky-blue, and rose-red toning endows the borders of this well struck Carson City Gem. Splendidly preserved and certain to be contested on the auction floor. Certified in a prior generation holder.
Ex: Long Beach Signature (Heritage, 9/2008), lot 2717, which realized \$1,150. NGC ID# 254M, PCGS# 97153

4076 1884-CC MS66 Deep Mirror Prooflike PCGS. A gorgeous Premium Gem example, the untuned silver-white surfaces serve to emphasize the blatant contrast present between the snow-white devices and midnight-black fields. A few roller marks appear on the lower cheek, as made, and a couple of thin scrapes occur in the same area. NGC ID# 254M, PCGS# 97153

4077 1884-CC MS66 Deep Mirror Prooflike PCGS. Outstanding reflectivity to near-brilliant fields and immense frost across the well-defined devices. Close inspection of the reverse shows faint die polishing lines and a few others. NGC ID# 254M, PCGS# 97153

4078 1884-O MS67 NGC. Among the attributes this Superb Gem example possesses are brilliant untuned surfaces, frosty luster, a sharp strike, and minimal abrasions. NGC has awarded a higher numeric grade to a single example (10/13). NGC ID# 254N, PCGS# 7154

4079 1884-O MS67 PCGS. The 1884-O is an available date from a mintage of more than 9.7 million pieces and is popular with mintmark type collectors. A virtually untuned and minimally abraded example, this Superb Gem representative exhibits strong visual allure. Although the hair over Liberty's ear is typically weak, all other design features on both sides of this piece are boldly defined. PCGS and NGC have each awarded a higher numeric grade to a single example (10/13). NGC ID# 254N, PCGS# 7154

4080 1884-O MS67 NGC. The obverse is deeply toned silver-pink, magenta, and reddish-orange. Comparatively lighter reverse color lets flashy cartwheel luster shine through. NGC ID# 254N, PCGS# 7154

4081 1884-S AU58 PCGS. A few subtle hints of golden toning are present on this brilliant near-Mint representative. As expected at this grade level, scattered marks appear, but there is none worthy of individual mention. NGC ID# 254P, PCGS# 7156

4082 1884-S AU58 NGC. Despite a touch of friction on the high points, this S-mint dollar offers appreciable reflectivity on each side and hints of yellow-orange patina near the rims. Minimally marked and attractive.
Ex: Long Beach Signature (Heritage, 9/2008), lot 2728.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 254P, PCGS# 7156

4083 1884-S AU58 NGC. Pleasing golden-brown and sea-green toning graces the margins, characteristic of long-term storage in Wayne Raymond-style albums. Considerable luster remains though the centers show a trace of wear. Housed in a prior generation holder. NGC ID# 254P, PCGS# 7156

4084 1884-S AU58 PCGS. CAC. The centers remain silver while the peripheries reveal toning in attractive shades of golden-brown, teal, and plum. The coin exhibits a sharp strike, with only minor incompleteness at the extreme centers. A few hair thin marks are present on the lower reverse of this moderately hairlined near-Mint example. NGC ID# 254P, PCGS# 7156

1884-S Dollar, MS61
Above-Average Strike

4085 1884-S MS61 ANACS. Large quantities of 1884-S dollars were released into circulation. Accordingly, well-worn examples are plentiful, but Mint State pieces are elusive at all levels. Whispers of reddish-gold, tan, and electric-blue make occasional visits to the borders of this MS61 example. The design elements are better struck than ordinarily seen, including the hair above Liberty's ear. Were it not for a few light marks on Liberty's cheek this coin would be graded perhaps two points higher. In any event, in the opinion of this cataloger, it deserves a higher grade than MS61.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 254P, PCGS# 7156

4086 1885 MS67 NGC. The obverse of this Superb Gem is richly toned while the reverse remains brilliant. The toning includes deep hues of orange, red, plum, and teal. Both sides reveal appealing luster. Aside from the extreme centers, the strike is sharp. NGC and PCGS combined have awarded higher numeric grades to only 7 examples (10/13). NGC ID# 254R, PCGS# 7158

4087 1885 MS65 Deep Mirror Prooflike PCGS. CAC. Bold contrast between the mirrored fields and frosted devices provides this Gem with strong visual allure. In addition, the coin exhibits a sharp strike, virtually untoned surfaces, and minimal abrasions. NGC ID# 254R, PCGS# 97159

4088 1885-CC MS65 PCGS. CAC. Splashes of orange and powder-blue patina ensure the appeal of this lustrous and low-mintage Carson City Gem. The reverse is exceptionally well-preserved. Only 228,000 pieces struck. NGC ID# 254S, PCGS# 7160

4089 1885-CC MS66 NGC. An example of the variety with a dash under the second 8 in the date, this Premium Gem example displays scattered toning in shades of gold, with some areas of teal also present. Rich luster adds to the visual allure of this piece. NGC ID# 254S, PCGS# 7160

4090 1885-CC MS66 NGC. This sharply detailed Premium Gem displays vibrant mint luster throughout and the well-preserved surfaces show just a hint of golden-tan toning. Eye appeal is terrific. NGC ID# 254S, PCGS# 7160

4091 1885-CC MS66 PCGS. CAC. A spectacular Premium Gem Morgan dollar from the always popular Carson City Mint, this specimen is sharply detailed, with vibrant mint luster and no mentionable distractions. NGC ID# 254S, PCGS# 7160

4092 1885-CC Doubled Dash MS64 PCGS. VAM-4. A Hot 50 Variety. A thick "dash" beneath the second 8 in the date adds to the desirability of this low mintage Carson City dollar. Crisply struck, lustrous, and well preserved. The peripheries exhibit autumn-gold and apple-green toning.
From The Parcelford Collection. PCGS# 133999

4093 1885-CC MS64 Prooflike PCGS. Cartwheel luster is among the qualities this near-Gem possesses. The surfaces remain largely brilliant, save for a few scattered areas of toning in shades of teal and golden-brown. The coin exhibits a sharp strike. A small grouping of die polish lines appears directly above the eagle's head. NGC ID# 254S, PCGS# 7161

4094 1885-CC MS63 Deep Mirror Prooflike PCGS. The fields are flashy and the devices frosty on this lovely Select representative. The piece is virtually free of toning aside from subtle hints of blue. Minor marks and grazes contributed to the grade. NGC ID# 254S, PCGS# 97161

4095 1885-O MS67 NGC. The obverse is silver with subtly frosted devices. The reverse offers a crazy-quilt of gold, orange, and reddish-violet colors, classic "end-of-wrapper" toning. NGC ID# 254T, PCGS# 7162

4096 1885-O MS67 NGC. Rich frosty luster and largely brilliant surfaces are among the attributes this Superb Gem example possesses. The coin exhibits a sharp strike and minimal abrasions. Scattered minuscule flecks appear on both sides. NGC has assigned higher numeric grades to only 9 examples, while PCGS has assigned none (10/13). NGC ID# 254T, PCGS# 7162

4097 1885-O MS67 PCGS. The 1885-O Morgan dollar is easily located in Gem condition, and Superb Gems, like the present coin, can be found with patience, but PCGS has graded no numerically finer examples (10/13). The design elements are well-detailed and the surfaces radiate vibrant mint luster. NGC ID# 254T, PCGS# 7162

4098 1885-O MS67 NGC. A wonderful Superb Gem example, this largely brilliant specimen exhibits frosty mint luster. A few tiny splashes of toning and flyspecks are present. The coin exhibits a sharp strike. Very few abrasions appear and they are all minor. NGC has awarded higher numeric grades to only 9 examples (10/13). NGC ID# 254T, PCGS# 7162

**1885-O Morgan Dollar, MS67+
None Finer at PCGS**

4099 1885-O MS67+ PCGS Secure. CAC. Ex: Bella. The 1885-O Morgan dollar claims a large mintage of more than 9 million pieces and the issue was heavily represented in the Treasury releases of the 1960s, making it an available date in today's market. However, few examples can match the present coin in terms of technical quality and eye appeal. The design elements are sharply detailed and vibrant mint luster radiates from both sides. The immaculate surfaces show hints of emerald-green and lavender toning on the obverse, with wisps of golden-tan and lavender-gray on the reverse. PCGS has graded no coins in higher numeric grades (11/13). NGC ID# 254T, PCGS# 7162

4100 1886 MS67 PCGS. CAC. A gorgeous Superb Gem representative, this piece possesses a number of appealing attributes, including cartwheel luster, shimmering untoned surfaces, a sharp strike, and minimal abrasions. PCGS has assigned higher numeric grades to only 3 examples (10/13). NGC ID# 254V, PCGS# 7166

**1886 Morgan Dollar, MS67+
Spectacular Obverse Toning**

4101 1886 MS67+ PCGS. CAC. With a mintage that approaches 20 million pieces, the 1896 Morgan dollar is not difficult to locate in high grade, but the issue does become conditionally rare above the MS67 level. Registry Set enthusiasts will recognize the quality of this high-end Superb Gem, with sharply detailed design elements and vibrant mint luster and spectacular arcs of cerulean-blue and sea-green toning on the obverse. PCGS has graded only three numerically finer examples (11/13). NGC ID# 254V, PCGS# 7166

4102 1886 Doubled Arrows MS67 NGC. VAM-17. A Top 100 Variety. The shafts and feathers of the arrows are nicely die doubled. A fully struck, lustrous, and splendidly preserved Superb Gem that has barely a hint of golden toning.
Ex: Dallas Signature (Heritage, 10/2008), lot 1291, which realized \$805. PCGS# 133904

1886 Double Date Dollar, VAM-20, MS63
An Ultra-Rare Variety

- 4103 1886 Double Date MS63 PCGS. CAC. VAM-20, R.7.** A Hot 50 Variety. The entire date has been repunched, with the undertype best seen at the base of the 1 and inside the lower loop of the 6. VAMWorld.com states: "... probably less than ten currently known. Currently ultra-rare and getting enormous premiums on the few reported sales." The lustrous silvery surfaces of this Select specimen are brilliant throughout. The design elements are well-struck. A few obverse scuffs likely preclude a higher grade. Population: 5 in 63, 4 finer (10/13).
From The Parfeld Collection. PCGS# 134000

- 4104 1886 MS66 Deep Mirror Prooflike NGC.** Outstanding reflectivity and contrast. A hint of cloud-white patina crosses glassy mirrors in small skiffs. Thickly frosted devices show only a few small grazes. Census: 14 in 66 (2 in 66 ★) Deep Mirror Prooflike, 6 finer (11/13). NGC ID# 254V, PCGS# 97167
- 4105 1886-O MS61 NGC.** A lovely, lightly toned example, this lustrous MS61 coin exhibits nice eye appeal. The faint pastel colors include shades of gold, peach, and red. The centers reveal an incompleteness of strike. Scattered marks pose limited distraction, if any, on this piece. NGC ID# 254W, PCGS# 7168
- 4106 1886-O MS62 PCGS.** The 1886-O Morgan dollar is seldom encountered in high grade making problem-free MS62 specimens, like the present coin, very attractive. This coin displays the subdued mint luster often seen on the 1886-O. Areas of gold and plum toning at portions of the outer edges add to the eye appeal of this example. NGC ID# 254W, PCGS# 7168

1886-O Morgan Dollar, MS63
Elusive Issue in Finer Grades

- 4107 1886-O MS63 PCGS.** The 1886-O Morgan dollar was a heavily circulated issue in the 19th century and it is likely that many examples were melted under the provisions of the Pittman Act in 1918. High grade specimens are elusive today. This impressive Select example is well-detailed and lustrous, with lightly marked surfaces that show only minor signs of contact. NGC ID# 254W, PCGS# 7168

- 4108 1886-O MS61 PCGS. VAM-1A.** A Top 100 Variety. A Mint State example of the "Clashed E" variety, this coin exhibits areas of golden toning at portions of the peripheries. Scattered marks are present, consistent with the grade, but none are worthy of individual mention.
From The Parfeld Collection. PCGS# 133905
- 4109 1886-S MS64 PCGS. CAC.** This better date dollar is nearly brilliant, crisply struck, and highly lustrous. The exceptionally smooth obverse suggests the assigned grade is perhaps unduly conservative. Encased in a first generation holder. NGC ID# 254X, PCGS# 7170
- 4110 1887/6 MS65 PCGS. CAC. VAM-2.** A Top 100 Variety. The base of a 6 is incontestable near the 7 in the date. This beautifully preserved and lustrous Gem has a bold strike and attractive peripheral wheat-gold and ocean-blue toning. NGC ID# 254Z, PCGS# 7174
- 4111 1887/6 MS65 PCGS. CAC. VAM-2.** A Top 100 Variety. The curved line at the base of the 7 in the date is from the bottom of an underdigit 6. Among the many varieties discovered by overdate specialist Ted Clark. Brilliant and highly lustrous with pleasing preservation. NGC ID# 254Z, PCGS# 7174
- 4112 1887 MS67 NGC.** Gorgeous obverse toning and a brilliant untuned reverse provide this Superb Gem with exceptional eye appeal. The color on the obverse includes hues of golden-yellow, orange, magenta, cerulean-blue, and green-blue. Aside from the extreme centers, the coin exhibits a sharp strike. NGC and PCGS combined have awarded higher numeric grades to only 4 examples (10/13). NGC ID# 254Y, PCGS# 7172
- 4113 1887 AU55 PCGS. VAM-25A.** A Top 100 Variety. Formerly VAM-1A. A few tiny hints of toning are present on this Choice AU representative of the "Donkey Tail" variety. Scattered marks are present, with a few being more severe, including a diagonal mark on Liberty's face.
From The Parfeld Collection. PCGS# 133907
- 4114 1887 AU55 PCGS. VAM-25A.** A Top 100 Variety. Formerly VAM-1A. A Choice AU example of the "Donkey Tail" variety, so named because a die break created a lump of metal at the bottom right of the D in DOLLAR. This coin exhibits a light gray patina, with subtle hints of gold and green.
From The Parfeld Collection. PCGS# 133907
- 4115 1887 Donkey Tail AU55 PCGS. VAM-25A.** A Top 100 Variety. Formerly VAM-1A. Per VAMworld.com, "Later die state of VAM-25 where an exciting die break forms as a small lump of metal on the bottom of the D of DOLLAR. Part of the Top 100 set, and recently featured in VamView Issue #2, the Donkey Tail is a coin even non-vam collectors want to own. It is possible to cherry pick these coins and they are often found in VF-XF condition. AU coins are very tough to find." Untoned and moderately abraded with noticeable luster. PCGS# 133907

**1887 VAM-1B Dollar, AU53
Partial E Clash, Hot 50**

- 4116 1887 Partial E Reverse AU53 PCGS. VAM-1B.** A Hot 50 Variety. A partial E from LIBERTY is clashed left of the wreath bow. This category of clash is of great interest to Morgan dollar specialists. The borders display attractive peach-red toning. Two thin marks are noted in front of the mouth and on Liberty's jaw and neck. This elusive VAM is virtually unknown in Mint State. Population: 3 in 53, 3 finer (10/13).
From The Parceld Collection. PCGS# 134003

- 4117 1887 MS65 Prooflike PCGS. CAC.** Flashy virtually untuned surfaces provide this Gem with a lovely appearance. Adding to the appeal, the coin exhibits a sharp strike. Scattered marks are present, primarily on the reverse. NGC ID# 254Y, PCGS# 7173

- 4118 1887/6-O MS62 NGC. VAM-3.** A Top 100 Variety. Dusky almond-gold and cream-gray toning visits this lustrous and typically struck New Orleans overdated dollar. Refreshingly free from marks for the designated grade. NGC ID# 2553, PCGS# 7178

- 4119 1887/6-O MS62 PCGS. VAM-3.** A Top 100 Variety. Dashes of light golden-brown toning visit both sides of this lustrous overdated New Orleans Morgan. The fields are only faintly abraded though the cheek has its share of wispy marks. NGC ID# 2553, PCGS# 7178

- 4120 1887/6-O MS62 PCGS. CAC. VAM-3.** A Top 100 Variety. Minimally toned and thoroughly lustrous with a well preserved reverse and the expected number of wispy abrasions on the left obverse. The hair above the eagle shows incompleteness typical for the New Orleans facility. NGC ID# 2553, PCGS# 7178

- 4121 1887/6-O MS62 PCGS. CAC. VAM-3.** A Top 100 Variety. Light straw-gold toning enriches this lustrous Select Uncirculated overdated New Orleans dollar. The cheek displays delicate marks and the reverse is minimally abraded for the MS62 level. NGC ID# 2553, PCGS# 7178

- 4122 1887/6-O MS63 PCGS. VAM-3.** A Top 100 Variety. Light to medium olive-gold toning visits the obverse, while the reverse is essentially brilliant. Smooth except for a mark on Liberty's jaw. Better struck than is customary for the variety, though the centers lack a full impression. NGC ID# 2553, PCGS# 7178

- 4123 1887/6-O MS63 PCGS. CAC. VAM-3.** A Top 100 Variety. Pastel ice-blue and rose-gold shades invigorate the obverse while the reverse remains brilliant. Lustrous and typically struck with a smooth reverse and moderate obverse grazes. NGC ID# 2553, PCGS# 7178

- 4124 1887/6-O MS63 PCGS. CAC. VAM-3.** A Top 100 Variety. This lustrous overdated Morgan dollar has light olive-green toning on the upper reverse, but most of the coin is brilliant. The obverse exhibits wispy marks while the reverse is nicely preserved. NGC ID# 2553, PCGS# 7178

- 4125 1887/6-O MS63 PCGS. CAC. VAM-3.** A Top 100 Variety. Brilliant except for a glimpse of butter-gold toning between 3 and 4 o'clock on the reverse. Lustrous and nicely struck with generally smooth fields and wispy facial contact. NGC ID# 2553, PCGS# 7178

**1887/6-O Dollar, Near-Gem
Exceptionally Smooth**

- 4126 1887/6-O MS64 PCGS. VAM-3.** A Top 100 Variety. According to VAMworld.com, the 1887/6-O was discovered in February 1973 by Bob Reithe, about 15 months after Ted Clark first identified the VAM-2 1887/6. Perhaps Reithe thought he had cherrypicked an 1887/6 before turning the coin over and spotting the New Orleans mintmark. This lustrous high end near-Gem has faint golden toning and a tiny spot below the arrowheads.
From The Parceld Collection. NGC ID# 2553, PCGS# 7178

- 4127 1887-O MS65 PCGS.** Brilliant lustrous surfaces are among the attributes this Gem possesses. A few subtle hints of toning are present on this piece exhibiting a sharp strike aside from the extreme centers. The 1887-O Morgan dollars are conditionally scarce above the MS65 level, with PCGS having awarded higher numeric grades to only 9 examples (10/13). NGC ID# 2552, PCGS# 7176

- 4128 1887-S MS65 PCGS.** An attractive patina of sea-green and lavender-gray shades enlivens the surfaces of this delightful Gem. The design elements are sharply rendered and vibrant mint luster shines through the toning. PCGS has graded 23 numerically finer examples (10/13). NGC ID# 2554, PCGS# 7180

- 4129 1888 MS66 PCGS. CAC.** The right obverse displays an attractive swath of toning, with the colors including shades of golden-yellow, orange, purple, teal, sea-green, and yellow. The remainder of this Premium Gem is almost entirely brilliant. The centers reveal a minor incompleteness of strike. PCGS has awarded higher numeric grades to only 18 examples (10/13). NGC ID# 2555, PCGS# 7182

- 4130 1888-O MS64 Deep Mirror Prooflike PCGS.** A well-preserved example, this near-Gem displays strongly mirrored fields and richly frosted devices. The coin exhibits a sharp strike aside from minor incompleteness at the extreme centers. Scattered marks are consistent with the grade. NGC ID# 2556, PCGS# 97185

- 4131 1888-O MS65 Deep Mirror Prooflike NGC.** The obverse of this attractive piece has luminous peach patina, while the reverse is mostly brilliant. A nicely struck Gem with pleasing surfaces and excellent contrast on the reverse. Census: 28 in 65 Deep Mirror Prooflike, 4 finer (10/13). NGC ID# 2556, PCGS# 97185

- 4132 1888-O Doubled Die Obverse, Hot Lips AU53 PCGS. VAM-4.** A Top 100 Variety. Attractive luster remains on this lightly circulated example of the "Hot Lips" variety. A few scattered areas of faint toning are present. This is a pleasing representative.
From The Parceld Collection. PCGS# 7308

- 4133 1888-O Doubled Die Obverse, Hot Lips AU55 PCGS. VAM-4.** A Top 100 Variety. One of the most famous of all VAM varieties, due more to its prominent localized die doubling than its hobby nickname. This example has partial cartwheel luster and light golden-gray toning. Small marks are scattered but unimportant. Population: 37 in 55, 22 finer (10/13). PCGS# 7308

- 4134 1888-O Doubled Die Obverse, Hot Lips AU55 PCGS. VAM-4.** A Top 100 Variety. Liberty displays doubling on this variety, including a second set of lips, leading to the "Hot Lips" nickname. This Choice AU example features only a few tiny hints of toning, leading to a lovely appearance. A small rim tick is present on the obverse near 7 o'clock.
From The Parceld Collection. PCGS# 7308

- 4135 1888-O Doubled Die Obverse, Hot Lips AU55 NGC. VAM-4.** A Top 100 Variety. Strong die doubling on Liberty's profile is characteristic of the "Hot Lips" variety, featured in the Guide Book and among the most famous VAMs of the series. The borders teem with luster and display golden-brown and forest-green toning. Smooth aside from moderate facial marks. PCGS# 7308
- 4136 1888-O XF45 PCGS. CAC. VAM-7A.** A Hit List 40 Variety. A Choice XF example of the "Shooting Star" variety, so named because heavy die gouges near the first star to the left of the date provide the appearance of a shooting star. These coins carry a rarity rating of 7. This example displays attractive light gray color, with subtle hints of rose-gold. Adding to the appeal, there are no marks worthy of mention.
From The Parceld Collection. PCGS# 412610
- 4137 1888-S MS64 Prooflike PCGS. CAC.** Gleaming surfaces and potent cartwheel luster provide this near-Gem with an outstanding appearance. A few small hints of toning are present. The strike is crisp overall, with the extreme centers revealing minor incompleteness. Scattered marks preclude a higher grade. Population: 69 in 64 (1 in 64+) Prooflike, 4 finer (10/13). NGC ID# 2557, PCGS# 7187
- 4138 1889 MS66 PCGS.** This frosty Premium Gem 1889 Morgan dollar has a bold strike and exceptional eye appeal that results from its brilliant, untuned silver surfaces. PCGS has only certified five finer examples (11/13). NGC ID# 2558, PCGS# 7188
- 4139 1889 MS64 Prooflike PCGS.** Although uncirculated 1889 silver dollars will always be plentiful, Prooflike pieces are scarce. This lovely near-Gem example exhibits brilliant surfaces with subtle hints of green and blue. Scattered marks appear in the fields. NGC ID# 2558, PCGS# 7189
- 4140 1889-CC VF30 NGC. CAC.** Even pewter-gray surfaces provide this circulated example of the key date Carson City Morgan with a pleasing degree of eye appeal for the grade. Hints of rose-pink are present, particularly on the reverse. Importantly, there are no marks worthy of mention. NGC ID# 2559, PCGS# 7190
- 4141 1889-CC — Cleaning — PCGS Genuine. AU Details.** A moderately circulated representative of the well known Carson City key. The surfaces are mildly subdued from cleaning but have nicely retoned almond-gold and powder-blue. NGC ID# 2559, PCGS# 7190
- 4142 1889-O MS64+ PCGS. CAC.** Rich shades of cobalt-blue, slate-gray, and amber toning blanket the obverse of this high-end Choice example, but the reverse shows only accents of greenish-gold. Vibrant mint luster is evident under the patina. NGC ID# 255A, PCGS# 7192
- 4143 1889-O MS62 PCGS. CAC. VAM-2.** A Top 100 Variety. A challenging coin to locate in Mint State, this MS62 example of the "Oval O" variety retains plenty of eye appeal. Splashes of attractive yellow and gold toning appear on both sides, especially at the outer edges. A pleasing degree of design detail is present, with only minor incompleteness appearing at the centers.
From The Parceld Collection. PCGS# 133931
- 4144 1889-O MS64 PCGS. VAM-6.** A Top 100 Variety. The base of the 18 is clearly repunched on this "Doubled Date" example. A whisper of straw-gold toning enriches the lustrous and lightly abraded surfaces. The centers are lightly brought up. A conditionally rare VAM.
From The Parceld Collection. PCGS# 133933
- 4145 1889-O MS64 Prooflike NGC. CAC.** Golden-brown and ocean-blue toning endows the peripheries of this flashy and nicely struck near-Gem. The reverse is high grade and the obverse is nearly as smooth. Encapsulated in a former generation holder. Census: 23 in 64 Prooflike, 3 finer (11/13). NGC ID# 255A, PCGS# 7193
- 4146 1889-S MS65 PCGS.** Apricot-gold and sky-blue endows the obverse but the reverse is practically brilliant. Potent luster and smooth surfaces ensure the eye appeal. The strike is good though slightly incomplete at the centers. Housed in a first generation holder. NGC ID# 255B, PCGS# 7194
- 4147 1889-S MS65 PCGS.** Cartwheel luster and brilliant virtually untuned surfaces provide this Gem with exceptional eye appeal. A sharp strike is an additional attribute of this piece. NGC ID# 255B, PCGS# 7194
- 4148 1889-S MS65 NGC.** Excellent interior detail with yellow-orange border toning and interiors ranging from silver to gold-gray. A shallow horizontal abrasion appears on the eagle's breast.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 255B, PCGS# 7194
- 4149 1890 MS65 PCGS.** Shimmering luster and largely brilliant surfaces add to the eye appeal of this Gem. A few scattered areas of light gold toning are present. Only 1 example has achieved a higher numeric grade from PCGS, while NGC has awarded only 5 (10/13). NGC ID# 255C, PCGS# 7196
- 4150 1890 MS65 PCGS.** Areas of toning are present, primarily at the outer edges, on this attractive Gem representative. The colors include golden-brown, red-brown, and teal. As is generally the case with this issue, the hair over Liberty's ear reveals an incompleteness of strike. Examples beyond the Gem level are conditionally scarce. NGC ID# 255C, PCGS# 7196
- 4151 1890 MS65 NGC.** A lovely Gem example, this piece displays attractive luster and a pleasing level of design detail, with only minor incompleteness present at the extreme centers. The coin has an overall brilliant appearance, with scattered areas of light toning appearing, including areas of golden-yellow near the margins. NGC has awarded higher numeric grades to only 5 examples (10/13). NGC ID# 255C, PCGS# 7196
- 4152 1890 MS65 PCGS Secure. Ex: Bella.** Lightly toned and lustrous with impressively unabraded surfaces. Legend Numismatics purchased the Bella Collection of Morgan dollars, ranked #4 at the PCGS Registry, in August 2013. The collection was named after the owner's Italian Greyhound. NGC ID# 255C, PCGS# 7196

**1890-CC Morgan, MS63
Famous Tail Bar VAM-4**

- 4153 1890-CC Tail Bar MS63 PCGS. VAM-4.** A Top 100 Variety. One of the few VAM varieties that can be attributed at arm's length, the Tail Bar is named for the broad die scratch below the fletchings. Light wheat-gold toning visits this lustrous Select dollar. The fields are clean though the centers show faint mint-made roller marks. *From The Parceld Collection. PCGS# 87198*

- 4154 1890-CC MS64 NGC.** The obverse is predominantly silver-gray with freckles of blue-green at the periphery. The reverse has splashes of peach patina. Well struck and coruscating with a smooth reverse and minor obverse contact. *Ex: Dr. Curtis R. Paxman Collection (Bowers and Ruddy, 11/1974), lot 798.*

From The Ole Miner's Collection. NGC ID# 255D, PCGS# 7198

- 4155 1890-CC MS64 PCGS.** Pleasing luster emanates from the surfaces of this near-Gem example. Areas of toning are present, including shades of golden-brown and red-brown with a few small splashes of teal. The coin exhibits a sharp strike, adding to the appeal. NGC ID# 255D, PCGS# 7198

- 4156 1890-CC MS64 NGC. CAC. VAM-5A.** The mintmark is repunched, but the greater interest is the extensive network of fine die cracks on the reverse. This better date Carson City dollar offers delightful peripheral golden-brown, rose-red, and navy-blue toning. Crisply struck and lustrous with an exceptionally smooth obverse. Certified in a prior generation holder. NGC ID# 255D, PCGS# 7198

- 4157 1890-O MS64+ PCGS. CAC.** Flashy fields and rich luster provide this high-end near-Gem representative with a strong degree of eye appeal. Additional attributes include brilliant surfaces, with only subtle hints of toning, and a sharp strike. NGC ID# 255E, PCGS# 7200

- 4158 1890-O MS64 Deep Mirror Prooflike PCGS. CAC. VAM-31.** The 9 in the date is repunched north. This flashy near-Gem is mostly white though the borders display peach patina. Well preserved for the MS64 level. The centers show blending typical for the New Orleans facility. Housed in a green label holder. NGC ID# 255E, PCGS# 97201

- 4159 1890-S MS65 PCGS. Ex: The Color Collection.** The surfaces of this Gem display intermingled shades of orange, copper, red-brown, red-orange, and yellow-green. The strike is sharp, with only minor incompleteness at the extreme centers. NGC ID# 255F, PCGS# 7202

1890-S Dollar, Lustrous MS66

- 4160 1890-S MS66 PCGS.** The 1890-S Morgan dollar, from a mintage exceeding 8 million pieces, is well within the reach of collectors through the Gem level. Premium Gems are scarce and higher-grade pieces are extremely rare. Whispers of reddish-gold, cobalt-blue, and lavender toning are more prevalent around the borders of this highly lustrous MS66 specimen. Well-struck design elements and minimally marked surfaces round out the coin's pleasing eye appeal. PCGS and NGC have graded fewer than 10 examples finer (10/13). NGC ID# 255F, PCGS# 7202

- 4161 1891 MS64+ PCGS.** Lustrous virtually untuned surfaces provide this high-end near-Gem with a strong degree of visual appeal. The coin displays a strong strike overall, with minor incompleteness present at the centers. NGC ID# 255G, PCGS# 7204

- 4162 1891 MS64 PCGS. CAC.** Vivid shades of powder-blue and greenish-gold toning blanket the lightly marked surfaces of this impressive Choice specimen. The design elements are well-detailed and eye appeal is outstanding. NGC ID# 255G, PCGS# 7204

- 4163 1891 MS63 Deep Mirror Prooflike PCGS. VAM-2.** A Top 100 Variety. Any Deep Mirror Prooflike 1891 dollar is a rarity, but here is the second best VAM for the issue, trailing only the VAM-2A "Mustache" variety. The central obverse is die doubled south, evident on the earlobe and the hair above the ear. The present lightly toned example has flashy fields and an unmarked appearance. The strike is good though inexact at the centers. PCGS# 43480

- 4164 1891 Doubled Ear and Mustache AU53 PCGS. VAM-2A.** A Top 100 Variety. Per VAMworld.com, "the VAM-2A is a late die state of the fairly common VAM-2 doubled ear. It shows the same doubling of the lower earlobe on the obverse. A small die break occurred on Liberty's upper lip and can be seen as a moustache shape. This doubled ear, die break combination is **exceptionally rare** and should be snatched up in any grade, even very low-end circulated specimens." This moderately circulated example displays rich golden-brown and plum-red toning at the margins. PCGS# 133936

- 4165 1891-CC MS64 PCGS. VAM-3.** A Top 100 Variety. This "Spitting Eagle" Carson City near-Gem exhibits dazzling luster and a nice strike. Marks are minimal and the obverse margin displays attractive ocean-blue and autumn-gold patina. NGC ID# 255H, PCGS# 7206

- 4166 1891-CC MS64 NGC. VAM-3.** A Top 100 Variety. This "Spitting Eagle" Carson City dollar is mostly untuned but displays light rose-red and ocean-blue patina near the right margins. Lustrous and nicely struck with minor marks noted above IN GOD WE TRUST. *Ex: Julius Turoff Collection (Bowers and Ruddy, 10/1976), lot 464.* *From The Ole Miner's Collection. NGC ID# 255H, PCGS# 7206*

- 4167 1891-CC MS64 PCGS. VAM-3.** Although not designated as such on the holder, this near-Gem is an example of the “Spitting Eagle” variety due to a die gouge near the eagle’s mouth. In addition, repunching of the first C of the mintmark is present. This specimen possesses great luster on essentially untuned surfaces. Generally well struck on the design elements.
Ex: Central States St. Louis Signature (Heritage, 5/2007), lot 4835. NGC ID# 255H, PCGS# 7206
- 4168 1891-CC MS64 PCGS.** Rich silver-white luster is creamy with a hint of frost over the high points. An appealing near-Gem example of this popular Carson City issue, one that becomes elusive any finer. NGC ID# 255H, PCGS# 7206
- 4169 1891-CC MS64 PCGS. CAC. VAM-3.** A Top 100 Variety. A gorgeous near-Gem example of the “Spitting Eagle” variety, this coin boasts vibrant luster and virtually untuned surfaces. Scattered marks and abrasions are consistent with the grade and there are none worthy of individual mention.
From The Parfeld Collection. PCGS# 133937
- 4170 1891-CC MS63 Deep Mirror Prooflike PCGS. CAC. VAM-3.** A Top 100 Variety. The “Spitting Eagle” VAM comprised a significant portion of the GSA holdings of the issue, though most such pieces lacked the exceptional field reflectivity of the present lot. The black on white contrast is substantial. Brilliant and moderately abraded. NGC ID# 255H, PCGS# 97207
- 4171 1891-O MS64+ PCGS. CAC.** This well-detailed O-mint dollar exhibits the typical touch of softness on the hair above the ear, with vibrant mint luster and brilliant surfaces that show few signs of contact. NGC ID# 255J, PCGS# 7208

**1891-O Dollar, MS64 Prooflike
Above-Average Strike**

- 4172 1891-O MS64 Prooflike PCGS. CAC.** The 1891-O Morgan, coming from a mintage approaching 8 million pieces, is readily available through near-Gem. Prooflike examples, however, are scarce. Moreover, this issue typically comes weakly struck. The present offering is, therefore, an infrequent opportunity to acquire a prooflike example that exhibits well-struck centers, areas that are usually ill-defined. Additionally, both sides of this brilliant dollar reveal significant field-motif contrast. Population: 10 in 64 Prooflike, 0 Prooflike finer (10/13). NGC ID# 255J, PCGS# 7209
- 4173 1892 MS64 PCGS.** Bright cartwheel luster beneath a delicate veneer of gray-tinged silver-blue patina. A few small abrasions at the jawline and to the left of Liberty’s ear contribute to the grade. NGC ID# 255L, PCGS# 7212
- 4174 1892 MS64 PCGS.** A lovely near-Gem displaying attractive eye appeal, this example exhibits lustrous and virtually untuned surfaces. The strike is sharp aside from the extreme centers.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 255L, PCGS# 7212

- 4175 1892 MS64 PCGS.** Luminous with subtle cartwheel luster under gold-to-gray patina. Marks are few aside from a cut near Liberty’s eye and a few shallow scrapes. Housed in a green label holder.
Ex: Dallas Signature (Heritage, 11/2005), lot 3445; Long Beach Signature (Heritage, 2/2006), lot 2149. NGC ID# 255L, PCGS# 7212
- 4176 1892 MS64 PCGS.** Faintly toned silver-gray surfaces show occasional skiffs of milky color. A modestly abraded near-Gem, softly struck on the hair over the ear but otherwise pleasing. NGC ID# 255L, PCGS# 7212
- 4177 1892 MS64 PCGS. CAC.** Subtle hints of violet and golden-brown appear on the rims of this near-Gem, while the interiors remain silver. Strong luster provides this piece with strong eye appeal. A few shallow surface breaks are present on the softly struck portrait, accounting in part for the grade. NGC ID# 255L, PCGS# 7212
- 4178 1892 MS64+ PCGS. CAC.** A lustrous and largely pale silver high-end near-Gem, this piece has elements of greenish-gray. If not for a rim nick near 12 o’clock on the reverse, this coin would be a candidate for Gem status.
Ex: ANA Sacramento Signature (Heritage, 3/2011), lot 4049. NGC ID# 255L, PCGS# 7212

**1892 Morgan Dollar, MS65
Elusive Any Finer**

- 4179 1892 MS65 PCGS.** Rich frosty luster and brilliant, untuned surfaces provide this Gem with a strong degree of eye appeal. Save for the extreme centers, the coin exhibits a sharp strike. A small area of residue appears near the S in PLURIBUS. PCGS has awarded higher numeric grades to only 4 examples (10/13). NGC ID# 255L, PCGS# 7212
- 4180 1892-CC MS62 NGC.** A semireflective example from the penultimate Carson City silver dollar issue with broad cartwheel luster. Frosted devices show little color but a scattering of small abrasions. NGC ID# 255M, PCGS# 7214
- 4181 1892-CC MS62+ NGC. VAM-4.** The second C in the mintmark is repunched south. This flashy and nearly brilliant scarcer date Carson City Morgan has smooth fields and moderate facial grazes.
Ex: Davies-Niewoehner Sale (Paramount, 2/1975), lot 361. From The Ole Miner’s Collection. NGC ID# 255M, PCGS# 7214
- 4182 1892-CC MS63 PCGS.** Lightly frosted on the high points with soft cartwheel luster around. Color is largely pearl-gray with hints of gold-rose at the margins and upper obverse. NGC ID# 255M, PCGS# 7214

**1892-CC Silver Dollar, MS64
Semiprooflike**

- 4183 1892-CC MS64 NGC.** A splendid Choice Mint State 1892-CC dollar, this piece has frosty devices and satiny, reflective fields. Many years ago this would have been described as semiprooflike. Both sides are essentially brilliant with a tinge of peripheral iridescence. Ex: NASC Auction (A. Kosoff & Numismatic Enterprises, 2/1970), lot 1349.
From *The Ole Miner's Collection*. NGC ID# 255M, PCGS# 7214

**1892-CC Morgan Dollar, MS64
Partially Prooflike Surfaces**

- 4184 1892-CC MS64 PCGS.** Morgan dollars from the Carson City Mint are always in demand, and this attractive Choice example displays well-detailed design elements and vibrant mint luster throughout with a few hints of prooflike reflectivity in some areas. The surfaces show only minor signs of contact and eye appeal is outstanding. NGC ID# 255M, PCGS# 7214
- 4185 1892-O MS64 PCGS.** The eagle's breast and hair above the ear show the typical softness seen on this issue, but the creamy surfaces radiate vibrant mint luster and eye appeal is outstanding. NGC ID# 255N, PCGS# 7216
- 4186 1892-O MS64 NGC.** Faintly gold-tinged at the rims with broad silver interiors and good luster. Softly struck at the hair over the ear, as usually seen, with a single nick at the jawline largely accounting for the grade. NGC ID# 255N, PCGS# 7216
- 4187 1892-O MS64 PCGS.** Lustrous surfaces contribute to the eye appeal of this near-Gem example. The centers reveal the typical soft strike generally seen on the 1892-O issue. Hints of rose toning are present. NGC ID# 255N, PCGS# 7216
- 4188 1892-O MS64 PCGS.** Subtle hints of gold toning appear at portions of the dentils and rims on this near-Gem representative displaying the usual soft strike at the centers this issue is known for. Strong luster is an attribute of this lovely piece.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 255N, PCGS# 7216

- 4189 1892-O MS64 PCGS. CAC.** As with most 1892-O Morgan dollars, the centers are a tad soft on this near-Gem example, but the remaining design elements exhibit nice detail. Lustrous surfaces provide this piece with an attractive appearance. Scattered tiny toning spots are present, primarily on the obverse. NGC ID# 255N, PCGS# 7216
- 4190 1892-S AU50 PCGS.** Partial antique-gold toning with light gray elsewhere. Considerable remaining luster grants this lightly worn piece significant eye appeal, though three roughly parallel diagonal abrasions at Liberty's hairline warrant specific mention. NGC ID# 255P, PCGS# 7218
- 4191 1892-S Doubled Date AU50 PCGS. VAM-2.** A Top 100 Variety. As designated on this holder, this is an example of the "Doubled Date" VAM. Despite the overall conditional rarity of the 1892-S, VAM-2 is listed with a significant premium in AU in Dr. Fey's handy *Top 100* reference. This example is untoned and exhibits ample luster on the borders, wings, and hair. Marks are minimal save for wispy lines near tiny spots above the arrowheads.
From *The Parcfield Collection*. PCGS# 133941
- 4192 1893 MS62 PCGS.** Close to brilliant, though a trace of olive-gold toning is present. The centers are not fully struck, but the vibrant luster is unencumbered by obtrusive contact. Housed in an old green label holder.
Ex: *Long Beach Signature* (Heritage, 9/2003), lot 8969. NGC ID# 255R, PCGS# 7220
- 4193 1893 MS63 NGC.** This semikey Morgan dollar is brilliant and nicely struck with pleasing luster and smooth fields. Mintages of silver dollars declined between 1892 and 1895, partly because the silver purchase clause of the Act of 1890 was repealed on November 1, 1893.
Ex: N.A.S.C. Auction (A. Kosoff, 2/1970), lot 248.
From *The Ole Miner's Collection*. NGC ID# 255R, PCGS# 7220
- 4194 1893 MS63 NGC.** An attractive Select example, this piece exhibits strong luster and only subtle hints of toning. The strike is sharp overall, with incompleteness at the centers. A few hair thin marks are present, primarily on the reverse.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 255R, PCGS# 7220
- 4195 1893 MS64 PCGS.** Soft gold-to-gray overtones enrich otherwise silver surfaces. Though a few streaks of toning are deceptive, at arm's length this coin's obverse looks good for an MS64. NGC ID# 255R, PCGS# 7220
- 4196 1893-CC XF45 PCGS. CAC.** A Choice XF example, this coin exhibits wear on the high points. Light gray surfaces prevail overall, with areas of toning present at portions of the obverse border, including hues of deep gold, orange, sea-foam green, and dark red. NGC ID# 255S, PCGS# 7222
- 4197 1893-O AU53 PCGS.** Lightly worn yet surprisingly radiant, a pearl-gray piece with a few shallow field abrasions. The portrait has a typically soft strike and roller marks on the cheek. NGC ID# 255T, PCGS# 7224
- 4198 1893-O AU53 PCGS.** The 1893-O is a low-mintage issue from the New Orleans Mint and this lightly circulated example is lightly abraded and retains much of its original luster and design detail. NGC ID# 255T, PCGS# 7224
- 4199 1893-O AU58 PCGS.** Touches of gold-gray patina are richer on the reverse, particularly away from the margins. Typically softly struck on the hair over Liberty's ear but with only a trace of actual wear, as shown by the substantially intact luster.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 255T, PCGS# 7224

**1893-O Morgan Dollar, MS62
Low-Mintage O-Mint Key**

- 4200 1893-O MS62 PCGS.** Always in demand because of its low mintage of 300,000 pieces, the 1893-O Morgan dollar is seldom encountered in high grade. This attractive Select specimen displays well-detailed design elements and vibrant mint luster on both sides. The surfaces show a few hints of golden-tan toning and some long hairline scratches on the obverse explain the grade. NGC ID# 255T, PCGS# 7224

- 4201 1893-S — Cleaning — PCGS Genuine. AG Details.** The legends are clear on this low mintage silver dollar, but the devices display wear commensurate with the grade. Both sides are hairlined and the portrait is a bit bright. The cheek and the field near the forehead are tooled. NGC ID# 255U, PCGS# 7226

- 4202 1893-S — Cleaning — PCGS Genuine. Good Details.** The date and mintmark are bold on this circulated but collectible key date silver dollar. The almond-gold surfaces are mildly bright and glossy but more than acceptable to many collectors. The peripheral letters and stars are distinct and plumage is present on the lower half of the wings. NGC ID# 255U, PCGS# 7226

1893-S Dollar, An Acceptable VF Details Specimen

- 4203 1893-S — Improperly Cleaned — NGC Details. VF.** The 1893-S dollar circulated widely in the American West, and most surviving examples are in the grade of Very Fine. This silver-gray VF Details example is appropriately graded and rather pleasing as such, despite the NGC disclaimer. Both sides reveal just a few minute, unobtrusive marks. This is an acceptable example for a circulated Morgan dollar set, as the cleaning is not all that bad.

1893-S Silver Dollar, VF Details

- 4204 1893-S — Cleaning — PCGS Genuine. VF Details.** Patches of hairlines are evident on this stone-gray and walnut-brown key date dollar. Moderately subdued, but considerable design details is present on the curls and plumage. Thousands of Morgan dollar collections have advanced without ever attaining this low mintage issue. NGC ID# 255U, PCGS# 7226

- 4205 1894 VF35 NGC.** The 1894 Morgan dollar claims one of the lowest mintages of the series at only 110,000 pieces. This Choice VF example retains much of its original design detail and the surfaces reveal minimal abrasions for the grade. NGC ID# 255V, PCGS# 7228

- 4206 1894 XF40 NGC.** Aside from the proof-only 1895, the 1894 is the rarest Philadelphia issue of the series. This piece displays dusky gray surfaces with scattered toning in a variety of shades, including gold, olive-green, pink, and turquoise. A rim disturbance near 6 o'clock on the obverse poses minimal distraction, if any. NGC ID# 255V, PCGS# 7228

- 4207 1894 XF45 PCGS.** A lightly worn but still-glossy Choice XF coin with well-outlined devices thanks to partial gold-orange and pearl-gray toning. A pinscratch roughly parallels Liberty's forehead line in the nearby field.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 255V, PCGS# 7228

- 4208 1894 AU55 NGC.** Only 110,000 silver dollars were struck at the Philadelphia Mint in 1894. Among Morgan silver dollar issues, only the famous 1893-S claims a lower business-strike mintage. Attractive luster remains on this Choice AU representative. Subtle hints of gold and rose toning are present. NGC ID# 255V, PCGS# 7228

- 4209 1894 AU58 PCGS.** Well-defined for the issue, particularly on the eagle's breast feathers. Only a touch of rub affects luminous pearl-gray surfaces with golden-rose touches at the margins. NGC ID# 255V, PCGS# 7228

- 4210 1894 AU58 NGC.** Faint antique-gold and powder-blue overtones grace the still-lustrous surfaces of this lightly rubbed semikey Morgan dollar. A handful of small digs on the portrait are well within the grade range.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 255V, PCGS# 7228

- 4211 1894-S MS62 NGC.** Soft cartwheel luster is brighter on the obverse, where the overall gold-to-green and blue toning is lighter than on the reverse. Small clusters of reed marks on the portrait contribute to the grade.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 255X, PCGS# 7232

- 4212 1894-S MS63 PCGS.** Strong luster provides this Select example with a strong degree of visual appeal. In addition, the surfaces retain a brilliant overall appearance, with the toning present being more subtle on the obverse. Scattered marks held this lovely piece from a higher grade. NGC ID# 255X, PCGS# 7232

- 4213 1894-S MS63 PCGS.** Broadly swirling cartwheel luster is primarily pale gray and beautiful. Light luster breaks on the portrait contribute to the grade but the overall eye appeal is good for a Select coin.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 255X, PCGS# 7232

- 4214 1895-O AU50 NGC.** A low-mintage branch mint issue, the 1895-O Morgan dollar is prized by collectors in all grades and conditions. This lightly circulated example includes areas of gold and peach toning at the outer edges. A few scattered marks on the obverse held this piece from a higher grade.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 255Y, PCGS# 7236

- 4215 1895-O AU53 NGC.** The 1895-O Morgan dollar has a low reported mintage of 450,000 pieces and the majority of the issue was released into circulation at an early date. A lightly circulated example, this piece displays hints of gold toning at portions of the outer edges. Aside from a few marks on Liberty's cheek, most of the scattered marks are not worthy of mention.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 255Y, PCGS# 7236

1895-O Morgan Dollar, AU58
Attractive Near-Mint Scarcity

4216 1895-O AU58 NGC. It is not unusual to find a more attractive coin in AU58 than its Uncirculated counterparts. Such is the case for this pleasing 1895-O. Lustrous, icy-white fields are nearly mark-free and display a narrow, crescent-shaped vignette of deep lavender both on the obverse and reverse. Nearly full cartwheel luster completes the outstanding eye appeal.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 255Y, PCGS# 7236

4217 1895-S XF40 PCGS. This low mintage silver dollar displays light tan toning and moderate wear at the centers. A couple of abrasions are noted on the portrait and upper reverse field. Certified in a green label holder.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 255Z, PCGS# 7238

4218 1896 MS65 PCGS. A spectacular Gem, the obverse displays colorful toning while the reverse remains brilliant and virtually untuned save primarily for areas of light gold at the extreme outer edges. Potent luster is also present. The obverse colors include hues of sunflower yellow, emerald-green, fuchsia, deep purple, and dark electric-blue. Scattered marks appear, including several on Liberty's cheek. NGC ID# 2562, PCGS# 7240

4219 1896 MS65+ PCGS. CAC. A large portion of the obverse reveals spectacular toning while the reverse remains fully brilliant, with only a hint of gold toning present at portions of the rims. The obverse toning includes a large swath of rich yellow color, with areas of pink, plum, and denim-blue near the rim. The strike is sharp on this high-end Gem aside from the extreme centers. NGC ID# 2562, PCGS# 7240

4220 1896 MS65+ PCGS. CAC. A gorgeously toned high-end Gem example, this piece exhibits exceptional eye appeal. Liberty's face and neck and the surrounding fields on the left are free of toning, while most of her hair, cap and the surrounding fields display toning in shades of yellow, golden-orange, red, violet, aquamarine, fuchsia, and teal. The reverse remains untuned, with both sides exhibiting strong cartwheel luster. The extreme centers reveal a minor incompleteness of strike. NGC ID# 2562, PCGS# 7240

4221 1896 MS66+ PCGS. CAC. The reverse of this high-end Premium Gem is spectacularly toned in shades of violet and greenish-gold, but the obverse exhibits only a sliver of color. The design elements are sharply rendered and vibrant mint luster adds to the terrific eye appeal. NGC ID# 2562, PCGS# 7240

4222 1896 MS66+ PCGS. CAC. The design elements of this high-end Premium Gem exhibit pinpoint definition and the creamy well-preserved surfaces show no mentionable signs of contact. Vibrant mint luster adds to the terrific eye appeal. NGC ID# 2562, PCGS# 7240

4223 1896-O MS60 NGC. Faintly gold-tinged with no trace of wear. Pearl-gray surfaces show deep abrasions at the cheek and to the left of the neck with smaller scrapes dotting the prime focal areas. Despite these faults, "MS60" does not give a true picture of the coin's eye appeal. NGC ID# 2563, PCGS# 7242

4224 1896-O MS61 PCGS. A lustrous example of the noted New Orleans conditional rarity. The cheek and the reverse are smooth though the obverse field displays several wispy pinstripes. Housed in an old green label holder.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2563, PCGS# 7242

4225 1896-S AU55 NGC. A Choice AU representative, this coin displays areas of light golden-brown and gold toning at portions of the outer edges. The piece retains a pleasing degree of design detail and lovely luster.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2564, PCGS# 7244

4226 1897 MS66 PCGS. Rich satin luster provides this Premium Gem with an attractive appearance. The coin remains largely brilliant, with a small area of light toning present near the top of Liberty's cap. The colors include hues of faint lavender and gold. In addition, the strike is pleasing on this piece displaying minimal abrasions. PCGS has awarded higher numeric grades to only 18 examples (10/13). NGC ID# 2565, PCGS# 7246

4227 1897 MS65+ Prooflike PCGS. A lovely high-end Gem, this piece displays strong eye appeal. The piece exhibits a sharp strike aside from the extreme centers and has smooth, yellow-gold features. Small splashes of teal and plum are present at portions of the margins. Population: 43 in 65+ Prooflike, 9 finer (10/13).

Ex: Santa Clara Bullet Sale (Heritage, 4/2000), lot 439. NGC ID# 2565, PCGS# 7247

4228 1897-O MS60 PCGS. Light wheat-gold patina adorns this lustrous and conditionally scarce New Orleans dollar. The centers have a typical strike and the reverse displays a couple of faint fingerprints, but marks are minor for the assigned grade. Housed in an old green label holder.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2566, PCGS# 7248

4229 1897-O MS62 PCGS. Strong luster is one of the attributes this MS62 representative possesses along with brilliant surfaces revealing only a few scattered light splashes of gold color. The coin exhibits a sharp strike aside from the extreme centers. NGC ID# 2566, PCGS# 7248

4230 1897-O MS62 PCGS. Faintly gold-gray overall with a few areas of deeper tone at the margins. As with most New Orleans Morgan dollars, the hair over the ear shows softness.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2566, PCGS# 7248

1897-O Morgan Dollar, MS62
Challenging Issue With Sharp Details

4231 1897-O MS62 PCGS. CAC. The rarity of high quality 1897-O Morgan dollars is overlooked by most collectors, but specialists will realize that this well-detailed example possesses a much better-than-average strike. The luster is also brighter than usual on this MS62 example. A scattering of minor contact marks on both sides explains the grade. NGC ID# 2566, PCGS# 7248

**1897-O Morgan Dollar, MS63
Scarce Issue in Higher Grades**

4232 1897-O MS63 PCGS. The 1897-O Morgan dollar is seldom encountered with a sharp strike and vibrant mint luster. This attractive MS63 example shows emerging detail on the hair strands above the ear and the luster is only slightly subdued by shades of pinkish-gray toning. PCGS has graded 45 numerically finer examples (11/13). NGC ID# 2566, PCGS# 7248

4233 1897-S MS66 PCGS. The 1897-S Morgan dollar is a plentiful issue in grades up to the MS66 level, but the population drops off dramatically in higher grades, with PCGS having awarded higher numeric grades to only 22 examples (10/13). This Premium Gem representative displays rich frosty luster and brilliant surfaces revealing only subtle hints of color and a few milky streaks at the upper reverse. The strike is sharp aside from the extreme centers. NGC ID# 2567, PCGS# 7250

**1897-S Morgan Dollar, MS66+
Bright Mint Luster**

4234 1897-S MS66+ PCGS. CAC. Bright shimmering surfaces and cartwheel luster provide tremendous eye appeal. This high-end Premium Gem displays a sharp strike other than the extreme centers. Whispers of toning appear at the outer edges. PCGS has certified a mere 22 finer examples (11/13). NGC ID# 2567, PCGS# 7250

4235 1898 MS66+ PCGS. CAC. This delightful Morgan dollar features sharply detailed design elements and vibrant mint luster, with well-preserved surfaces that show a few areas of prooflike reflectivity on both sides. NGC ID# 2568, PCGS# 7252

4236 1898 MS66+ PCGS. CAC. The well-preserved surfaces of this delightful Premium Gem are mostly brilliant with just a trace of pink toning. The design elements are sharply detailed and vibrant mint luster is evident on both sides. NGC ID# 2568, PCGS# 7252

4237 1898-S MS64+ PCGS. CAC. Mostly silver surfaces show two dots of reddish color on the lower obverse. Well-defined on the reverse, if a trifle soft on Liberty's hair, with strong luster and eye appeal. NGC ID# 256A, PCGS# 7256

4238 1898-S MS65 PCGS. CAC. Golden-brown and sky-blue toning enriches the left obverse margin. Semireflective silver surfaces are the rule elsewhere on this gorgeous Gem.
Ex: Dallas Signature (Heritage, 11/2007), lot 1337. NGC ID# 256A, PCGS# 7256

4239 1899 MS66 PCGS. CAC. *Ex: The Shrike Set.* This impeccably preserved Morgan dollar exhibits sharply detailed design elements and vibrant mint luster radiates from the brilliant surfaces. PCGS has graded 18 numerically finer examples (10/13). NGC ID# 256B, PCGS# 7258

4240 1899-O AU58 PCGS. VAM-4. A Top 100 Variety. A lovely near-Mint example of the "Micro O" variety, this coin retains pleasing luster. Scattered areas of light toning are present, primarily on the reverse.
From The Parfeld Collection. PCGS# 133947

4241 1899-O Micro O AU58 PCGS. VAM-31. A Top 100 Variety. Most 1899-O dollars have a large mintmark, called a Normal O at VAMworld.com. The Micro O is very scarce and seen on only a few reverse dies for the issue. This is a lightly toned Borderline Uncirculated example that has pleasing luster and relatively few marks. The centers show slight incompleteness of strike.
From The Parfeld Collection. PCGS# 133949

4242 1899-S MS65 PCGS. CAC. This well-detailed Gem displays well-preserved surfaces that show a few hints of lavender toning and vibrant mint luster on both sides. The 1899-S is very scarce in higher grades. NGC ID# 256D, PCGS# 7262

4243 1900-O MS66+ PCGS. CAC. Sharply detailed design elements and vibrant mint luster are the calling cards of this high-end Premium Gem. The brilliant surfaces are well-preserved and eye appeal is terrific. NGC ID# 256F, PCGS# 7266

4244 1900-O MS66+ PCGS. CAC. Boldly lustrous surfaces provide this high-end Premium Gem example with a tremendous degree of visual allure. Only a few small hints of toning are present on this sharply struck piece. Population: 51 in 66+, 37 finer (10/13). NGC ID# 256F, PCGS# 7266

4245 1900-S MS64+ PCGS. CAC. A coin with strong eye appeal, this high-end near-Gem displays rich luster and virtually untuned surfaces. The coin exhibits a strong strike overall, with only minor incompleteness at the extreme centers. NGC ID# 256H, PCGS# 7270

4246 1901 AU58 PCGS. An attractive near-Mint example, this piece displays areas of toning, primarily on the obverse, in shades of gold, peach, and golden-brown. A few marks near Liberty's ear pose minimal distraction. NGC ID# 256J, PCGS# 7272

4247 1901 AU58 NGC. The lightest rub separates this mostly brilliant example from a Mint State grade. There are remarkably few abrasions for a circulated dollar. Minimally to end overall, though a small spot of sage is noted below the E in E PLURIBUS UNUM.
Ex: New York Signature (Heritage, 7/2002), lot 7104. NGC ID# 256J, PCGS# 7272

4248 1901 AU58 PCGS. CAC. The well-detailed design elements of this near-Mint specimen show just a trace of wear and the lightly abraded surfaces retain much original mint luster. A few hints of golden-tan toning accent the reverse. NGC ID# 256J, PCGS# 7272

4249 1901-S MS64 Prooflike NGC. Semireflective with a flashier obverse. That side remains largely silver and pearl-gray, while the reverse mixes in more gold hues. Strongly appealing. Census: 9 in 64 Prooflike, 1 finer (11/13). NGC ID# 256L, PCGS# 7277

4250 1902 MS66 PCGS. A few subtle hints of toning appear on this largely brilliant Premium Gem representative displaying frosty luster. The coin reveals an incompleteness of strike at center. Examples are conditionally rare above the MS66 level, with PCGS and NGC combined having awarded higher numeric grades to only 42 examples (10/13). NGC ID# 256M, PCGS# 7278

4251 1902 MS66 PCGS. The 1902 Morgan dollar is rarely encountered above the MS66 level, with PCGS having awarded higher numeric grades to 25 examples (10/13). This Premium Gem representative exhibits a few scattered areas of light toning. The surfaces are lustrous and exhibit a sharp strike. NGC ID# 256M, PCGS# 7278

4252 1902-S MS65 NGC. Rich luster and brilliant surfaces provide this Gem with a strong degree of visual appeal. A few small splashes of gold toning appear on the reverse. Aside from the centers, the strike is sharp. NGC has awarded higher numeric grades to only 9 examples (10/13). NGC ID# 256P, PCGS# 7282

1902-S Morgan Dollar, MS65 Seldom Seen Finer

4253 1902-S MS65 PCGS. CAC. The 1902-S Morgan dollar is not difficult to locate in Mint State, but really high-quality examples are quite rare. This well-detailed Gem features a much better-than-average strike and the surfaces radiate vibrant mint luster. A few minor contact marks and luster grazes do little to detract from the strong eye appeal. PCGS has graded 38 numerically finer examples (11/13). NGC ID# 256P, PCGS# 7282

1903 Morgan Silver Dollar, MS67 Tied for Finest PCGS-Certified

4254 1903 MS67 PCGS. The 1903 Morgan dollar was a well-produced issue. Potent luster, virtually untoned surfaces, minimal abrasions, and a pleasing strike are among the attributes this Superb Gem representative possesses. This piece is tied as among the finest PCGS has graded, with none having earned a Plus designation (10/13). NGC ID# 256R, PCGS# 7284

4255 1903-O MS66 PCGS. Lovely cartwheel luster and brilliant, virtually untuned surfaces provide this Premium Gem representative with strong visual appeal. The strike is pleasing, with only minor incompleteness at the extreme centers. NGC ID# 256S, PCGS# 7286

4256 1903-O MS66 PCGS. CAC. Formerly a great rarity, the 1903-O surfaced in large numbers in the Treasury releases of the 1960s. This impressive Premium Gem is sharply detailed and lustrous, with well-preserved surfaces that show hints of golden-tan toning. NGC ID# 256S, PCGS# 7286

4257 1903-S AU50 NGC. The surfaces of this lightly circulated example display hues of gold and peach. Wear is present on the high points. Although scattered marks are present, as expected at this grade level, none poses a distraction.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 256T, PCGS# 7288

1903-S Silver Dollar, AU58 Peripherally Toned

4258 1903-S AU58 NGC. A hint of peripheral gold toning is evident on each side of this near-Mint silver dollar. Traces of wear visit the high points of the design. Both sides have virtually full luster with brilliant silver surfaces, and trivial, scattered marks. The 1903-S is an elusive date, and this example will fit nicely in a otherwise Mint State Morgan dollar collection. NGC ID# 256T, PCGS# 7288

4259 1903-S — Cleaning — PCGS Genuine. Unc. Details. Predominantly stone-gray though tan-gold visits the peripheries. This better date silver dollar is unworn and lustrous but both sides are hairlined. Bagmarks are minimal and the strike is above average. NGC ID# 256T, PCGS# 7288

4260 1903-S Micro S XF40 PCGS. VAM-2. A Top 100 Variety. A stone-gray XF example of the popular “naked eye” VAM. The wrong mintmark punch, intended for a different denomination, was used for a solitary reverse die of the issue.
From The Parfeld Collection. PCGS# 7306

1903-S Dollar, Choice XF Scarce Micro S, VAM-2

4261 1903-S Micro S XF45 PCGS. VAM-2. A Top 100 Variety. The undersized S mintmark was likely from a punch intended for use on Barber quarters, per Dr. Fey's Top 100 reference. Only a single reverse has the incorrect mintmark size, though any 1903-S is scarce. Toned gunmetal-gray with orange-gold, jade-green, and rose-red in protected areas. Population: 39 in 45, 20 finer (11/13). PCGS# 7306

4262 1921 MS66 PCGS. Attractive shades of greenish-gold and violet toning visit the well-preserved surfaces of this spectacular Premium Gem. Vibrant mint luster shines through the patina. PCGS has graded seven numerically finer examples (10/13). NGC ID# 256X, PCGS# 7296

4263 1921 MS66 PCGS. CAC. A delightful Premium Gem from the final date of the Morgan design, this coin is sharply detailed and lustrous, with outstanding eye appeal. PCGS has graded seven numerically finer examples (10/13). NGC ID# 256X, PCGS# 7296

4264 1921 MS63 Deep Mirror Prooflike NGC. Although 1921 Morgan dollars are known to be common in Mint State, only a tiny fraction of those pieces possesses deeply reflective fields. This Select example remains brilliant and displays gorgeous mirrored fields. The strike is sharp aside from the extreme centers. Moderate hairlines are present. NGC ID# 256X, PCGS# 97297

4265 1921-D MS66 NGC. This spectacular Premium Gem exhibits sharply detailed design elements and vibrant mint luster with ample eye appeal. The brilliant surfaces are well-preserved and a few roller marks in the upper reverse field are the only marks of note. NGC has graded 10 numerically finer examples (11/13). NGC ID# 256Y, PCGS# 7298

4266 1921-D MS66 PCGS. Both sides of this lovely Premium Gem have brilliant silver luster with delicate champagne toning. The strike is typical but the eye appeal is exceptional. PCGS has only certified six finer examples (10/13). NGC ID# 256Y, PCGS# 7298

4267 1921-D MS66 PCGS. Lustrous surfaces are among the attributes this Premium Gem example possesses. Scattered toning is present, with the colors including hues of gold, plum-brown, peach, and navy blue. Both sides reveal a number of die breaks. PCGS and NGC combined have awarded higher numeric grades to only 16 examples (10/13). NGC ID# 256Y, PCGS# 7298

4268 1921-S MS65 NGC. Although the 1921-S Morgan dollar claims a huge mintage of nearly 21.7 million pieces, the issue is scarce in MS65 condition and rare in finer grades, with NGC having only awarded higher numeric grades to 59 examples (10/13). Almond-gold toning appears on both sides of this Gem example, with the reverse also exhibiting a few small splashes of slightly darker color. The centers reveal an incompleteness of strike.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 256Z, PCGS# 7300

1921-S Morgan Dollar, MS64 Prooflike Rare with Mirrored Finish

4269 1921-S MS64 Prooflike NGC. The 1921-S Morgan dollars are rarely found with mirrored fields or any degree of contrast. This example is prooflike with light cameo contrast and brilliant, untuned silver surfaces, except for delicate peripheral iridescence. Housed in a prior generation holder. Census: 5 in 64 Prooflike, 1 finer (11/13). NGC ID# 256Z, PCGS# 7301

PROOF MORGAN DOLLARS

1883 Morgan Dollar, PR64 Deeply Reflective Fields

4270 1883 PR64 ANACS. This attractive Choice specimen displays lightly frosted devices well set on strongly mirrored fields, the entire surface lightly toned to an even amber yellow color. From a generous proof mintage of 1,039 pieces.
Ex: Atlanta Signature (Heritage, 8/2001), lot 6801. NGC ID# 27Z7, PCGS# 7318

1884 Morgan Dollar, PR64 One of Only 875 Proofs Struck

4271 1884 PR64 PCGS. The PR64 grade in general is an interesting one — not quite full Gem quality, but better than Select. Collectors often find this “soft spot” between grades to locate good value for a very nice coin. This proof dollar has many of the attributes of a Gem with a strong strike, including the hair above Liberty’s ear and the eagle’s breast feathers. Light toning hides a few field marks but the portrait is clean and frosty. Population: 48 in 64, 36 finer (10/13). NGC ID# 27ZB, PCGS# 7319

4272 1888 PR62 PCGS. Faint tan-gold color visits the surfaces of this luminous proof. Well-struck save for the usual softness in the obverse center. A few wispy hairlines show up under magnification, but this is still a pleasing coin for the grade.
Ex: West Palm Beach Signature (Heritage, 7/2009), lot 1033. NGC ID# 27ZH, PCGS# 7323

1891 Dollar, Colorfully Toned PR63

4273 1891 PR63 PCGS. CAC. Deeply reflective fields surround the devices of this Select proof with rich hues of blue, purple, magenta, and bronze overtones. With only 650 proofs produced of this date, few can match this coin for its rich toning, color, and eye appeal. A touch of central softness, common to proof dollars of this year, does not detract. The PCGS population is 33 proofs in PR63 (10/13). NGC ID# 27ZL, PCGS# 7326

**1891 Morgan Dollar, PR64 Cameo
Unusually Bold Contrast**

- 4274 1891 PR64 Cameo PCGS.** Only 650 proof Morgan dollars were struck in 1891 and many of these were softly struck, with little field-device contrast. The present coin shows just a touch of softness on the centers, but the devices are richly frosted and seem to float on the deeply reflective fields. Hints of pale gold toning enliven the well-preserved surfaces. Population: 24 in 64 Cameo, 15 finer (11/13). PCGS# 87326

- 4275 1899 PR58 PCGS.** Shades of pink and sea-green patina blanket the slightly reflective surfaces of this still-attractive impaired proof. The sharply detailed design elements show just a trace of wear on the high points and the surfaces exhibit a few grade-consistent hairlines and contact marks. Only 846 proofs were struck. NGC ID# 27ZX, PCGS# 7334

- 4276 1899 PR61 PCGS.** This intricately struck specimen has medium sun-gold toning and noticeable field-to-motif contrast, though its old green label holder predates the Cameo designation. Light hairlines determine the grade.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 27ZX, PCGS# 7334

- 4277 1899 PR62 PCGS.** An intricately struck specimen with medium almond-gold and olive-green toning. Pleasing for the grade despite a few delicate obverse hairlines. A meager 846 proofs were produced. Certified in a green label holder. NGC ID# 27ZX, PCGS# 7334

**1903 Morgan Dollar, PR64
All-Brilliant Finish**

- 4278 1903 PR64 PCGS. CAC.** Only 755 proof Morgan dollars were struck in 1903 and the dies were polished to present an all-brilliant finish rather than the popular cameo effect of earlier years. This impressive Choice specimen exhibits sharply detailed design elements and deeply reflective surfaces that show only minor hairlines and contact marks. A few hints of golden-tan toning are evident on both sides. Population: 68 in 64, 66 finer (11/13). NGC ID# 2823, PCGS# 7338

- 4279 1904 PR62 PCGS. CAC.** Areas of light toning are present on this lovely example. The obverse reveals areas of teal and plum toning at portions of the outer edges. A lovely golden-peach color is present on the reverse. The strike is sharp on this lightly hairlined piece. NGC ID# 2824, PCGS# 7339

**1904 Silver Dollar, PR64
Deeply Toned Proof**

- 4280 1904 PR64 PCGS. CAC.** The obverse of this Choice proof Morgan dollar exhibits variegated iridescence and the reverse is toned in a blend of violet and blue. Fully mirrored fields surround the satiny devices, imparting slight cameo contrast that is hidden beneath the toning. NGC ID# 2824, PCGS# 7339

PEACE DOLLARS

- 4281 1921 MS65 NGC.** A frosty delight with pale canary and silver hues mingling across each side. A few light marks, including dotted reeding below the Y of LIBERTY, contribute to the grade. NGC ID# 2U4E, PCGS# 7356

- 4282 1921 Line Through L MS64 PCGS. VAM-3.** A Top 50 Variety. The ray through the first L in DOLLAR passes over the letter. Apparently, the reverse die was lapped. This action weakened the rays near DOLLAR, and the ray was strengthened by hand by a mint worker. A scarce VAM. Lustrous and smooth with a typical strike and pastel ice-blue and butter-gold toning. *From The Parfeld Collection. PCGS# 133734*

**1922 VAM-2A Dollar, MS63
Dramatic 'Earring' Variety**

- 4283 1922 Earring MS63 PCGS. VAM-2A.** A Top 50 Variety. A lengthy, high relief, and narrow die break near the obverse center makes this VAM among the most distinctive in the series. Lustrous with light gold toning and a sharp strike except along the right obverse margin. Well preserved aside from an inconspicuous V-shaped mark on the eagle's rock. Population: 14 in 63, 5 finer (11/13). PCGS# 133737

- 4284 1922 Scar Cheek MS63 PCGS. VAM-5A3.** A Top 100 Variety. The late die state with a dull die gouge through the G in GOD and a slender diagonal break on the lower hair. On the reverse, the olive leaves are die tripled. Though the 1922 is common, the present VAM is both rare and desirable. Brilliant, lustrous, and only lightly abraded for the grade. *From The Parfeld Collection. PCGS# 133743*

- 4285 1922 MS64 PCGS. CAC. VAM-5B.** A near-Gem example of the die break on wing, tripled olive leaves variety, this coin has lovely eye appeal. Scattered areas of light toning appear on both sides of this lustrous piece, with the colors including shades of golden-orange. *From The Parfeld Collection. PCGS# 133825*

4286 1922-D MS66 NGC. A lustrous Denver Mint type coin, this piece displays subtle hints of toning. Examples are difficult to acquire beyond the Premium Gem level, with NGC and PCGS combined having awarded higher numeric grades to only 18 specimens (10/13). NGC ID# 257D, PCGS# 7358

4287 1922-D MS66 NGC. Although minted in large numbers, with production in excess of 15 million pieces, there are surprisingly few high grade examples known of the '22-D. This Premium Gem example displays rich luster and brilliant surfaces revealing only subtle hints of toning. The obverse exhibits a few die cracks. NGC has awarded higher numeric grades to only 15 examples (10/13). NGC ID# 257D, PCGS# 7358

4288 1922-S MS65 NGC. The 1922-S Peace dollar is a condition rarity in grades above the Gem level, with NGC and PCGS combined having awarded higher numeric grades to only 20 examples (10/13). This lovely Gem possesses rich luster and areas of toning at portions of the outer edges consisting of shades of golden-brown and teal. NGC ID# 257E, PCGS# 7359

4289 1922-S MS65 NGC. The 1922-S Peace dollar is a condition rarity in grades above the Gem level, with NGC and PCGS combined having awarded higher numeric grades to only 20 examples (10/13). This well-preserved piece displays rich luster and brilliant untuned surfaces, providing the coin with strong visual appeal. NGC ID# 257E, PCGS# 7359

4290 1923 MS66+ PCGS. CAC. Pleasing shades of pale gold toning accent the well-preserved surfaces of this high-end Premium Gem. The design elements are sharply detailed and vibrant mint luster adds to the considerable eye appeal. NGC ID# 257F, PCGS# 7360

4291 1923 MS66+ PCGS. CAC. Especially vibrant mint luster radiates from the well-preserved brilliant surfaces of this high-end Premium Gem. The design elements are well-detailed and eye appeal is extraordinary. NGC ID# 257F, PCGS# 7360

4292 1923 MS66+ PCGS. CAC. This is a highly lustrous and essentially brilliant high-end Premium Gem. Although it is well-struck in the centers, areas of incompleteness appear at the rim. Population: 1791 in 66 (80 in 66+), 46 finer (10/13). NGC ID# 257F, PCGS# 7360

1923 'Whisker Jaw' Dollar, VAM-1A2 MS66, Tied for Finest Certified

4293 1923 Whisker Jaw MS66 PCGS. CAC. VAM-1A2. A Top 50 Variety. A late die state of the well known "Whisker Jaw" variety with a radial and displaced field die crack between the LI in LIBERTY. The diagonal die break from the jaw to the upper neck remains the key focal point. Well struck and thoroughly lustrous with medium caramel-gold toning. Population: 3 in 66, none finer (11/13). PCGS# 133752

4294 1923 MS63 PCGS. VAM-1E. A Top 50 Variety. A Select example of the "Broken Wing" variety, so named due to the die break appearing on the eagle's back. Attractive luster adds to the eye appeal of this piece. Scattered areas of rose-gold and golden-orange color are present, primarily on the reverse. *From The Parfeld Collection.* PCGS# 133756

4295 1923-D MS65 PCGS. CAC. Dotted peripheral toning has elements of gold, sage, and blue. The peripheral obverse shows a prominent encircling die crack. A small cut over Liberty's eye is the sole significant barrier to an even finer designation. NGC ID# 257G, PCGS# 7361

1923-S Peace Dollar, Elusive MS65

4296 1923-S MS65 NGC. All of the 1922 and 1923-PDS Peace dollar issues are quite common in circulated condition due to their large mintages, but the 1922-S and 1923-S in Gem grade are quite a different story. It appears that a large part of these emissions did circulate, and most of the Mint State coins show large bagmarks, impaired luster, or other problems that remove them from Gem consideration. This Gem NGC 1923-S is largely untuned save for just a touch of light golden patina, and contact marks are minimal, putting it in the upper echelons of the survivorship. Census: 77 in 65, 1 finer (10/13). NGC ID# 257H, PCGS# 7362

4297 1924-S MS64 NGC. This attractive Choice example displays vibrant mint luster and sharply detailed design elements throughout. A few hints of gold and amber toning accent the lightly marked surfaces. NGC ID# 257K, PCGS# 7364

4298 1924-S MS64 PCGS. CAC. Scattered areas of light toning appear on this lustrous near-Gem representative in hues of light golden-brown. As expected at this grade level, marks and abrasions are present, including a reed mark on Liberty's chin. NGC ID# 257K, PCGS# 7364

4299 1924-S MS64+ PCGS Secure. CAC. Softly frosted luster rolls beautifully under a delicate layer of gold-gray patina. A handful of shallow or small marks appear on each side, most visibly above the first E of PEACE on the eagle's rock. NGC ID# 257K, PCGS# 7364

4300 1925 MS66+ PCGS. CAC. A gorgeous high-end Premium Gem example, this piece displays rich satin luster and brilliant untuned surfaces. Scattered die lines appear on the obverse. NGC ID# 257L, PCGS# 7365

4301 1925 MS66+ PCGS. CAC. Starkly white luster has only the slightest hint of frost. Carefully preserved with only a handful of shallow luster grazes between this coin and an even finer designation (10/13). NGC ID# 257L, PCGS# 7365

4302 1925-S MS64 PCGS. CAC. This well-detailed Choice specimen displays creamy surfaces with vibrant mint luster and few signs of contact. Eye appeal is quite strong. PCGS has graded 39 numerically finer examples (10/13). NGC ID# 257M, PCGS# 7366

4303 1925-S MS64 PCGS. CAC. Softly frosted luster is largely silver-to-gold with a few peripheral touches of violet. Minimally abraded aside from a scrape behind the eagle's head. NGC ID# 257M, PCGS# 7366

4304 1925-S MS64+ PCGS. CAC. The leaves are die doubled beneath the DO in DOLLAR. Dusky golden-brown and slate-gray toning blankets this lustrous near-Gem. The 1925-S is a conditionally rare and lower mintage issue. NGC ID# 257M, PCGS# 7366

- 4305 1925-SMS64 PCGS. VAM-2.** A Top 50 Variety. The olive branches display doubling on this variety. A lustrous near-Gem representative, this piece also boasts largely brilliant surfaces, with a few hints of light gold toning present on portions of the lower reverse.
From The Parfeld Collection. PCGS# 133771
- 4306 1925-S MS64 PCGS. VAM-2.** A Top 50 Variety. Both sides of this near-Gem display a slightly milky patina. Close examination reveals subtle toning, including hues of champagne and faint golden-brown on this example of the doubled olive branches variety.
From The Parfeld Collection. PCGS# 133771
- 4307 1925-S MS64 PCGS. CAC. VAM-2.** A Top 50 Variety. The middle and right lower portions of the reverse exhibit doubling on this variety, including the olive branches. The surfaces display strong luster and are virtually untoned, creating strong eye appeal for this near-Gem representative.
From The Parfeld Collection. PCGS# 133771
- 4308 1926 MS66 NGC.** Almond-gold and light golden-orange toning adds to the visual appeal of this Premium Gem representative. Tiny splashes of plum, gray-blue, and golden-brown appear in the right obverse field. The coin exhibits a sharp strike. A few reed marks are present on the lower reverse. Census: 45 in 66, 1 finer (11/13). NGC ID# 257N, PCGS# 7367
- 4309 1926-S MS65 PCGS. VAM-4.** A Top 50 Variety. A small circular raised dot appears on the field between the lower left olive leaf and the mound on this variety. In addition, two tiny dots are present below the OF in STATES OF. Scattered tiny areas of yellow, orange, and red toning add to the attractiveness of this Gem. Rich luster is an additional attribute.
From The Parfeld Collection. PCGS# 133774

**1927 Peace Dollar, MS65
Very Rare in Finer Grades**

- 4310 1927 MS65 PCGS Secure. CAC.** From a low mintage of 848,000 pieces, the 1927 Peace dollar is a scarce issue in MS65 and finer examples are very rare. This attractive Gem exhibits well-detailed design elements and vibrant mint luster, with well-preserved surfaces that display light shades of golden-tan toning. PCGS has graded eight numerically finer examples (11/13). NGC ID# 257S, PCGS# 7370
- 4311 1927-D MS64 PCGS.** Gold-toned overall with several streaks of richer gray intermixed. An attractive near-Gem despite a bit of chatter on Liberty's features. NGC ID# 257T, PCGS# 7371
- 4312 1927-D MS64 PCGS Secure.** Frosty silver interiors yield to dotted gold-orange, sage, and charcoal peripheral shadings. A handful of small digs to the left of the profile contribute to the grade. NGC ID# 257T, PCGS# 7371
- 4313 1927-S MS64 NGC.** The 1927-S Peace dollar is a better date in the series, with a mintage of 866,000 pieces. Most examples are softly struck with subdued luster, but this attractive Choice example is lustrous and pleasingly detailed. Attractive rose-pink accents are present. NGC ID# 257U, PCGS# 7372

- 4314 1927-S MS64 PCGS.** A few hints of violet and greenish-gold toning enliven the lightly marked surfaces of this impressive Choice specimen, with sharply detailed design elements and vibrant mint luster. NGC ID# 257U, PCGS# 7372
- 4315 1927-S MS64 PCGS Secure.** Primarily bright silver with a single small spot of deeper color on Liberty's neckline. A handful of shallow abrasions on the eagle contribute to the grade. NGC ID# 257U, PCGS# 7372
- 4316 1927-S MS64 PCGS Secure. CAC.** Dotted gold-green toning appears in a line at the right reverse, leaving the rest of this near-Gem largely silver. Frosty and beautiful, though a vertical mark is noted on Liberty's neck. NGC ID# 257U, PCGS# 7372
- 4317 1927-S MS64+ PCGS. CAC.** A number of die polish lines are present in Liberty's bun on this high-end near-Gem example. The coin is lustrous and virtually untoned, providing an attractive appearance. NGC ID# 257U, PCGS# 7372

1928 Dollar, Conditionally Scarce MS65

- 4318 1928 MS65 PCGS.** This key-date Peace dollar claims a series-low mintage of 360,649 pieces. Mint State examples are readily available through near-Gem. Gems are scarce and finer specimens are very rare. Light gold color visits the lustrous surfaces of this Gem and the design elements are well-struck. Small marks are visible on Liberty's neck and cheek. PCGS has seen only 12 examples finer (10/13). NGC ID# 257V, PCGS# 7373
- 4319 1928-S MS64 PCGS.** The lower right obverse is lightly die doubled, as seen on many examples of this conditionally rare issue. Lustrous and crisply struck with medium caramel-gold, lilac, and stone-white toning. NGC ID# 257W, PCGS# 7374
- 4320 1928-S MS64 PCGS Secure.** TRVST is die doubled, as usually seen on high grade examples of this conditionally rare issue. Lustrous with delicate autumn-brown toning. Exceptionally smooth for the MS64 grade, and we wonder if it would have been certified finer if it were not a 1928-S. NGC ID# 257W, PCGS# 7374
- 4321 1928-S MS64+ PCGS Secure.** Tiny splashes of toning, primarily on the obverse, add to the eye appeal of this lustrous high-end near-Gem representative. The colors include shades of violet, plum, and golden-brown. A number of die polish lines appear along the back of Liberty's neck. NGC ID# 257W, PCGS# 7374
- 4322 1928-S MS64+ PCGS Secure. CAC.** An exceptional near-Gem with exemplary preservation and vibrant cartwheel luster. Lightly toned chestnut-gold and silver-blue. The strike shows incompleteness at the centers. The monogram and portions of WE TRVST are die doubled, typical for the '28-S. A costly acquisition any finer. NGC ID# 257W, PCGS# 7374
- 4323 1934 MS65 PCGS.** Strong luster and brilliant surfaces combine to provide this Gem with a strong degree of visual appeal. Two tiny reed marks on Liberty's nose provide minimal distraction, if any on this lovely piece. NGC ID# 257X, PCGS# 7375

4324 1934-D MS64 PCGS. Medium D. Scattered splashes of toning appear on both sides of this near-Gem. The obverse displays shades of gray-green, plum, and tan, while the reverse reveals areas of yellow-gold, teal, and plum. A couple of hair thin marks are present. NGC ID# 257Y, PCGS# 7376

4325 1934-D MS64+ PCGS Secure. CAC. Gold and blue overtones are faint on the obverse of this late-date Peace dollar but more visible at the left reverse field. A frosty beauty with just a few too many luster grazes for a full Gem grade. NGC ID# 257Y, PCGS# 7376

4326 1934 MS65 PCGS. VAM-3. A Top 50 Variety. Medium D. Liberty's profile is die doubled on this *Guide Book* variety. Scattered freckles and spots of toning are present on this Gem, primarily near the extreme outer edges. The luster is attractive. *From The Parfeld Collection.* PCGS# 133780

4327 1934-S AU58 PCGS. The brilliant surfaces of this lightly circulated key date show remarkably few signs of contact and the well-detailed design elements display just the slightest trace of wear. Eye appeal is strong for the grade. NGC ID# 257Z, PCGS# 7377

1934-S Peace Dollar, MS63 Intense Obverse Toning

4328 1934-S MS63 PCGS. The 1934-S is a key date in the Peace dollar series, from a mintage of just over 1 million pieces. The obverse of this well-detailed Select specimen is richly toned in shades of silver-gray and golden-brown, while the reverse shows just a hint of pale gold. The lustrous surfaces show only minor signs of contact. NGC ID# 257Z, PCGS# 7377

4329 1934-S Doubled Tiara AU58 PCGS. VAM-3. A Top 50 Variety. Several of the rays in the tiara are die doubled. The eagle's shoulder has a trace of friction but the surfaces are lustrous and only lightly abraded. *From The Parfeld Collection.* PCGS# 133782

4330 1935 MS65 PCGS. Pleasing luster is among the attributes this Gem possesses. Subtle hints of gold and green toning are present. This well struck piece displays lovely eye appeal. NGC ID# 2582, PCGS# 7378

1935 Peace Dollar, MS66 Paramount Holder

4331 1935 MS65+ Paramount (MS66 NGC). This final-year Peace dollar in a dark green Paramount holder (later labeled by NGC) was underrated at the time of its holding. Frosty and minimally marked, it has golden-tan and rose peripheral toning around silvery centers. A great coin and a piece of commercial numismatic history. NGC ID# 2582, PCGS# 7378

1935 Peace Dollar, MS66 Tied for Finest at PCGS

4332 1935 MS66 PCGS Secure. Although quite a number of these pieces have been certified as MS66, none have been graded finer at PCGS (11/13). This example has frosty mint luster with fully brilliant and untoned silver surfaces and extraordinary eye appeal. Slight central weakness is typical of this issue. NGC ID# 2582, PCGS# 7378

4333 1935-S MS65 PCGS. Three rays below ONE. Almond-gold toning is consistent throughout this lustrous and nicely struck better date Gem. Beautifully preserved and exceptional for the grade. NGC ID# 2583, PCGS# 7379

4334 1935-S MS65 PCGS Secure. Three rays beneath ONE. A sharply struck and coruscating Gem that has light golden-tan patina and a clean cheek. The final San Francisco 90% silver dollar issue prior to 1983. NGC ID# 2583, PCGS# 7379

SUSAN B. ANTHONY DOLLAR

1979-P Anthony Dollar, Wide Rim, MS67 Unknown Any Finer

4335 1979-P Wide Rim MS67 PCGS. A rich-looking Superb Gem and a welcome departure from subdued examples sometimes seen of the type. Brilliant luster and vibrant gold enhance the sharply struck surfaces. This is an excellent representative of the Wide Rim variety, which is much scarcer than the Narrow Rim. Tied for finest known of the variety. Population: 11 in 67, 0 finer (10/13). NGC ID# 2593, PCGS# 99571

COMMEMORATIVE SILVER

4336 1900 Lafayette Dollar MS62 PCGS. DuVall 1-B. Gunmetal-gray toning fills the legends though the fields and devices are stone-white. Satiny and well struck with a number of individually wispy abrasions on the reverse. NGC ID# 28N8, PCGS# 9222

4337 1900 Lafayette Dollar MS62 NGC. DuVall 1-B. The peripheral autumn-gold toning is more apparent on the obverse than the reverse. Sweeping luster and a precise strike ensure the eye appeal. A few ticks on the back of the horse, but nonetheless smooth for the grade. NGC ID# 28N8, PCGS# 9222

4338 1900 Lafayette Dollar MS62 NGC. DuVall 1-B. This well struck straw-gold representative is attractive for the designated grade, since the luster is potent and the surfaces exhibit only minor abrasions. *Ex: Donald F. Herdman Collection (Bowers and Ruddy, 12/1977), lot 6236.* *From The Ole Miner's Collection.* NGC ID# 28N8, PCGS# 9222

4339 1900 Lafayette Dollar MS62 NGC. DuVall 1-B. An attractive MS62 specimen of the first commemorative silver dollar, with vibrant mint luster, sharply detailed design elements, and brilliant surfaces that show only minor signs of contact. NGC ID# 28N8, PCGS# 9222

4340 1900 Lafayette Dollar MS62 NGC. In the mid-1940s after hearing a rumor, collector/dealer Aubrey Beebe of Chicago and then Omaha, inquired whether Lafayette dollars were stored in the Treasury Building. Unfortunately, his inquiry came a few months too late as the bags had existed, but they had been shipped off and melted. This lovely MS62 example displays areas of attractive gold toning near the central obverse. Although scattered marks are present, none poses a distraction.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 28N8, PCGS# 9222

4341 1900 Lafayette Dollar MS63 PCGS. DuVall 1-B. The 1900 Lafayette dollar is the only silver dollar in the classic commemorative series. Areas of light toning in shades of gold are present at portions of the periphery on this Select example. The obverse reveals few abrasions, all minuscule, while a few scattered marks are present on the reverse, including a few reed marks in the right field. NGC ID# 28N8, PCGS# 9222

1900 Lafayette Dollar, MS65 Splendidly Preserved

4342 1900 Lafayette Dollar MS65 PCGS. DuVall 1-B. Booming luster and light chestnut-gold toning combine with well preserved surfaces to provide outstanding eye appeal. The strike is sharp aside from Washington's cheek, which retains traces of the planchet texture, as usual for the issue. The sole silver dollar type in the classic commemorative series. NGC ID# 28N8, PCGS# 9222

4343 1921 Alabama MS65 PCGS. CAC. Bright surfaces and swirling mint luster are characteristics of the Alabama half dollar, and abundantly evident on this Gem. One tiny mark on Kilby's face is all we see that prevent an even higher grade. NGC ID# 28HT, PCGS# 9224

4344 1921 Alabama MS66 PCGS. Silver-blue elements are prominent on each side with golden accents for counterbalance. Only a few tiny marks appear on the conjoined portraits. NGC ID# 28HT, PCGS# 9224

4345 1921 Alabama MS66 PCGS Secure. CAC. A lustrous Premium Gem, this example is primarily stone-gray but offers glimpses of olive-green and violet-red above the conjoined portraits of the first and then-present Alabama governors. The piece exhibits a strong strike overall with the usual slight inexactness on the eagle's legs. The fields are pristine though Kilby's head has a tiny mint-made strike-through and a few wispy grazes. NGC ID# 28HT, PCGS# 9224

4346 1921 Alabama 2x2 MS65 NGC. This "sell-more-coins" variety (there is no other purpose for the "22" separated by a St. Andrew's cross) remains effective nearly a century after its creation, as collectors still demand it. The Gem example offered here has just a hint of golden toning over shining silver surfaces. NGC ID# 28HS, PCGS# 9225

4347 1921 Alabama 2x2 MS65 PCGS. CAC. A sharply detailed gem, with vibrant mint luster and shades of violet, amber, and golden-brown toning. The surfaces show only the most insignificant signs of contact. NGC ID# 28HS, PCGS# 9225

4348 1936 Albany MS67 PCGS. CAC. Splashes of golden-brown and tan are scattered throughout the obverse of this Superb Gem representative, while a few hints of the colors appear on portions of the reverse periphery. Pleasing luster and the absence of all but a few minuscule marks add to the appeal of this lovely piece. PCGS has awarded a higher numeric grade to a single example (10/13). NGC ID# 28HU, PCGS# 9227

4349 1936 Albany MS67+ NGC. CAC. A well-detailed high-end Superb Gem example, this coin exhibits satiny mint luster. Attractive toning appears largely at the outer edges. Among the colors present are intermingled shades of red-brown, orange, red, yellow, and lime-green. Census: 1 in 67+, 9 in 67 ★, 7 finer (10/13). NGC ID# 28HU, PCGS# 9227

4350 1937 Antietam MS67 PCGS. CAC. A virtually pristine Superb Gem with dynamic luster and a crisp strike. The borders possess peach patina while the interiors are slate-gray. Housed in an old green label holder. NGC ID# 28HV, PCGS# 9229

4351 1937 Antietam MS67 PCGS. CAC. Strong luster provides this sharply struck Superb Gem representative with a lovely degree of eye appeal. Faint toning is present in shades including olive-green, red, golden-brown, red-brown, red-pink, and mint-green. NGC ID# 28HV, PCGS# 9229

4352 1936-D Arkansas MS67 NGC. Muted silver-blue and gold-orange toning lends this smooth Superb Gem low-key but undeniable eye appeal. Contrast between the hues is a touch starker on the reverse. Census: 13 in 67 (2 in 67 ★), 2 finer (11/13). NGC ID# 28J2, PCGS# 9238

4353 1938 Arkansas MS66 PCGS. Bright silver luster with just a touch of frostiness and golden color. Two small reed marks on the youth's neck largely account for the grade. PCGS has graded just nine examples as MS67 or finer (11/13).
Ex: FUN Signature (Heritage, 1/2006), lot 7237; Houston Signature (Heritage, 11/2007), lot 61308. NGC ID# 28J7, PCGS# 9245

1939 Arkansas Half, MS66 Lowest Distribution of the Series

4354 1939 Arkansas MS66 PCGS. Mottled amber and russet tones intermingle with silver-gray on this unabraded Premium Gem 1939 Arkansas commemorative half dollar. The last of the Arkansas series, the 1939s sold only 2,104 PDS sets. Only a couple of tiny reeding marks appear on the cheek of the American girl. Population: 58 in 66 (5 in 66+), 2 finer (10/13). NGC ID# 28JA, PCGS# 9249

- 4355 1936-S Bay Bridge MS67 PCGS. CAC.** Medium-gray satin luster has powder-blue and gold-orange for overtones. A smooth Bay Bridge Superb Gem. PCGS has graded only nine examples as MS68 or finer (11/13). NGC ID# 28JD, PCGS# 9254
- 4356 1934 Boone MS67 PCGS. CAC.** A lustrous Superb Gem representative, with sharply detailed design elements and shades of pale gold and gray toning. Population: 36 in 67 (2 in 67+), 1 finer (10/13). NGC ID# 28JE, PCGS# 9257
- 4357 1938-D Boone MS67 PCGS.** Pleasing shades of pale gold toning accent the pristine surfaces of this impressive Superb Gem. The design elements are sharply rendered and vibrant mint luster shines through the toning. Population: 59 in 67 (4 in 67+), 3 finer (10/13). NGC ID# 28JV, PCGS# 9275
- 4358 1925-S California MS66 PCGS.** Impressively preserved and magnificently toned in a mix of steel-gray, blue, gold-orange, and caramel. The hues enhance the design's sense of ruggedness. NGC ID# 28JY, PCGS# 9281
- 4359 1936 Cleveland MS67 PCGS. CAC.** Attractive toning appears on both sides of this Superb Gem example, primarily at the outer edges. The colors include gold, orange, red, and green. Lustrous surfaces add to the appeal of this piece. NGC ID# 28K4, PCGS# 9288
- 4360 1892 Columbian MS66 PCGS.** Gorgeous toning provides this Premium Gem example with strong visual allure. The obverse features shades of caramel-brown, rich sea-green, and vibrant pink. The reverse displays rich pink, apple-green, lemon-lime, and soft orange-gold. Strong luster and a sharp strike are additional attributes of this outstanding piece. A few light abrasions are present on the forward sails, but are only apparent when viewed closely with magnification. PCGS has awarded higher numeric grades to only 16 examples (10/13). NGC ID# 26H5, PCGS# 9296
- 4361 1892 Columbian MS66 PCGS. CAC.** Light toning on both sides adds to the eye appeal of this pleasing Premium Gem example. The colors include hues of pale green, copper-tan, and red-orange. The piece displays a sharp strike and very few abrasions are present, adding to the appeal. NGC ID# 26H5, PCGS# 9296
- 4362 1893 Columbian MS66 PCGS. CAC.** Brightly lustrous with a touch of flash to the reverse. Silver interiors with varying levels of gray yield to orange and blue at the margins. Excellent detail on the ship. NGC ID# 26H6, PCGS# 9297
- 4363 1936 Gettysburg MS66 NGC.** A brilliant and sharply struck Civil War commemorative that has potent luster and exemplary surfaces. The 150th anniversary of Gettysburg Blue and Gray Reunion was held in Philippi, West Virginia, between May 30 and June 2, 2013. *Ex: Kensington Collection (Bowers and Ruddy, 12/1975), lot 897. From The Ole Miner's Collection.* NGC ID# 28KB, PCGS# 9305
- 4364 1936 Gettysburg MS66 PCGS.** Caramel-gold and olive-gray toning enriches coruscating and minimally abraded surfaces. Precisely struck and an excellent value in the present market. Certified in an old green label holder. NGC ID# 28KB, PCGS# 9305
- 4365 1922 Grant No Star MS66 NGC.** Softly frosted silver interiors yield to pink, gold, and violet at the margins. This pleasingly preserved Premium Gem is "plain" only insofar as it lacks a star. NGC ID# 28KD, PCGS# 9306
- 4366 1922 Grant No Star MS66+ PCGS.** Boldly toned gold-orange, blue, and violet, among other hues. Both sides are pleasingly lustrous and impressively preserved, though the strike at the back of Grant's head is soft. NGC ID# 28KD, PCGS# 9306
- 4367 1922 Grant No Star MS66 PCGS. CAC.** Broadly lustrous with a hint of frostiness on the portrait. Gold and blue peripheral shadings yield to generally silver centers. Strong eye appeal. NGC ID# 28KD, PCGS# 9306
- 4368 1922 Grant No Star MS66 PCGS. CAC.** Light silver-blue overall with dots of violet toning scattered over both sides, more prominently on the obverse. Well-defined with only a touch of softness at the back of Grant's head. NGC ID# 28KD, PCGS# 9306
- 4369 1922 Grant With Star MS63 PCGS. CAC.** This is a Select representative of the popular variant with the small star in the right obverse field below the final A in AMERICA. Both sides of this example reveal patina in a variety of shades. The colors include hues of olive-green, garnet, gold, peach, gray-blue, and violet. NGC ID# 28KC, PCGS# 9307
- 4370 1928 Hawaiian MS62 NGC.** Soft silver luster adds touches of gold, rose, and violet along the margins. A handful of shallow cuts are visible on close inspection but the all-around eye appeal is good. NGC ID# 28KE, PCGS# 9309
- 4371 1928 Hawaiian MS63 PCGS.** Only 9,958 Hawaiian Sesquicentennial half dollars were distributed in 1928, most examples going to noncollectors in the Hawaiian Islands. The issue is quite scarce in high grades today, and attractive MS63 examples are prized by collectors. Areas of attractive pale toning are present at portions of the obverse periphery, adding to the attractiveness of this Select example. The colors include pale gold and pink. Minimally abraded surfaces are an attribute of this piece. NGC ID# 28KE, PCGS# 9309
- 4372 1935 Hudson MS63 PCGS.** A gorgeously toned Select example, this piece reveals attractive shades of orange, copper, and red. Aside from a slight graze in the left reverse field, there are no marks worthy of mention. NGC ID# 28KE, PCGS# 9312
- 4373 1935 Hudson MS64 PCGS.** Lustrous surfaces add to the attractiveness of this near-Gem example. A few areas of light gold toning appear, primarily on the reverse. As is generally the case with this issue, scattered marks are present. A lovely example of one of the three lowest mintage types in the silver commemorative type set, along with the 1928 Hawaiian and the 1935 Old Spanish Trail. Housed in a green label holder. NGC ID# 28KE, PCGS# 9312
- 4374 1935 Hudson MS64 PCGS.** Gold and salmon overtones grace most of the obverse and the outer reverse, leaving the softly struck ship silver still. A cut on the bottom center sail contributes to the grade. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 28KE, PCGS# 9312
- 4375 1935 Hudson MS65 NGC.** A Gem possessing lovely eye appeal, this coin displays rich satin luster with scattered areas of toning, primarily at the peripheries. The colors include orange, tan, red, and deep red-brown. NGC ID# 28KE, PCGS# 9312
- 4376 1935 Hudson MS65 NGC.** Silver-to-blue and violet-pink across most of the centers with more gold-influenced toning along the margins. A pleasing Gem example of this semikey silver commemorative issue. NGC ID# 28KE, PCGS# 9312
- 4377 1918 Lincoln MS66 PCGS.** Gold-orange and blue toning at the margins with silver-gray interiors. Mostly smooth with pleasing luster, a great example of this underrated design. PCGS# 9320

**1936 Long Island Half Dollar, MS67
None Numerically Finer at PCGS**

4378 1936 Long Island MS67 PCGS. The 1936 Long Island half dollar has a reported distribution total of 81,826 pieces. This impressive Superb Gem features well-detailed design elements and satiny mint luster, with well-preserved surfaces that show accents of pinkish-gray and sea-green toning. Population: 41 in 67 (2 in 67+), 0 finer (11/13). NGC ID# 28KL, PCGS# 9322

4379 1936 Lynchburg MS67 PCGS. The city of Lynchburg, Virginia, celebrated their sesquicentennial in 1936. The obverse of this commemorative features Carter Glass (1858-1946), the 47th U.S. Secretary of the Treasury, and perhaps the best-known Lynchburg native son. A lovely Superb Gem representative, this coin displays areas of light iridescent milky toning, including shades of yellow and gold with small splashes of green. PCGS has yet to award a higher numeric grade to a single example (10/13). NGC ID# 28KM, PCGS# 9324

4380 1921 Missouri MS63 NGC. Scattered areas of gold and rose toning in a variety of shades add to the eye appeal of this Select example. The coin displays rich luster. A few marks on the portrait limited the grade of this lovely piece. Housed in a prior generation holder. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 28KS, PCGS# 9330

4381 1921 Missouri 2x4 MS63 PCGS. A lightly toned example of this challenging Missouri variety. Marks are minimal for the assigned grade. The strike is bold except on the shoulder strap. Certified in a first generation holder. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 28KR, PCGS# 9331

4382 1921 Missouri 2x4 MS65 NGC. A lustrous Gem, this coin reveals attractive toning in light shades of almond-gold, red, and orange, primarily on the reverse. There are no marks worthy of mention. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 28KR, PCGS# 9331

4383 1936 Norfolk MS68 PCGS. A pristine representative of this exceptionally well made issue. Aqua and apricot toning adorns lustrous and precisely struck surfaces. Certified in an old green label holder. NGC ID# 28KV, PCGS# 9337

4384 1936 Norfolk MS68 PCGS. An absolutely amazing Superb Gem, this Norfolk half dollar has pristine surfaces with brilliant and satiny silver luster. PCGS and NGC have each graded one finer example (11/13). NGC ID# 28KV, PCGS# 9337

4385 1925 Norse Thick Planchet MS66 NGC. Gold-orange peripheral toning yields to silver-blue on the interiors. This octagonal Norse design by James Earle Fraser sometimes is considered the "fifty-first" silver commemorative design. PCGS# 9450

4386 1937-D Oregon MS68 NGC. Strikingly bright overall with small hints of golden toning against otherwise nickel-white surfaces. Both sides are near-immaculate. Census: 75 in 68 (6 in 68 ★, 1 in 68+★), 1 finer (11/13). NGC ID# 28L5, PCGS# 9347

4387 1939-D Oregon MS67 PCGS. CAC. A delightful Superb Gem, with vibrant mint luster and sharply detailed design elements. The brilliant surfaces are free of mentionable flaws. PCGS has graded 21 numerically finer examples (10/13). NGC ID# 28LA, PCGS# 9353

4388 1915-S Panama-Pacific MS64 NGC. Gold-to-gray and silver-blue hues prevail on this near-Gem Panama-Pacific half dollar. Though softly struck, this coin's elegant luster lends it understated but undeniable eye appeal. NGC ID# 26H7, PCGS# 9357

**1915-S Panama Pacific Half, MS66
Blended Multicolor Toning**

4389 1915-S Panama-Pacific MS66 NGC. The 1915-S Panama-Pacific half dollars were struck to celebrate the opening of the Panama Canal and the recovery of San Francisco after the 1906 earthquake. A net total of 27,134 pieces was distributed. This impressive Premium Gem is sharply detailed and lustrous, with well-preserved surfaces that show mingled shades of violet, lavender-gray, and golden-brown toning. NGC ID# 26H7, PCGS# 9357

**1915-S Panama-Pacific Half, MS66
Iridescent Reverse Toning**

4390 1915-S Panama-Pacific MS66 PCGS. Deep plum-mauve and forest-green encompass the obverse, while the attractively toned reverse displays peripheral bands of golden-brown, powder-blue, and sea-green. The strike is precise, and the only relevant marks are beneath the toning on Columbia. Encapsulated in an old green label holder. NGC ID# 26H7, PCGS# 9357

4391 1920 Pilgrim MS67 NGC. This Superb Gem Pilgrim half dollar marks the 300th anniversary of the landing at Plymouth, Massachusetts. Today, we are just seven years from the 400th anniversary. This Superb Gem has exquisite surfaces and luster with pewter-gray patina and peripheral iridescent toning. Census: 23 in 67 (7 in 67 ★), 0 finer (11/13). NGC ID# 28LC, PCGS# 9359

4392 1935-S San Diego MS67 PCGS. CAC. Deep reds and oranges saturate the upper obverse and lower reverse on this San Diego half struck at San Francisco. Elsewhere, the still-silver surfaces are lustrous with a bluish tint. NGC ID# 28LK, PCGS# 9371

4393 1935 Spanish Trail MS64 PCGS. Lustrous surfaces are among the attributes this near-Gem possesses. Only faint whispers of toning appear. The piece exhibits a strong strike and only minimal marks are present. NGC ID# 28LN, PCGS# 9376

4394 1935 Spanish Trail MS64 NGC. Faint lavender-blue and gold overtones are set against a pearl-gray base. Satiny and beautiful with a shallow luster scrape below the latter half of TRUST on the reverse. NGC ID# 28LN, PCGS# 9376

- 4395** 1935 Spanish Trail MS65 NGC. Bright overall with surfaces ranging from pale silver to light gold. A long, shallow mark to the right of the cow's head is the single biggest contributor to the grade. NGC ID# 28LN, PCGS# 9376
- 4396** 1935 Spanish Trail MS66 PCGS. CAC. This virtually immaculate commemorative offers sweeping luster and displays light walnut-brown toning. The strike is full, as usual for this well made and low mintage commemorative type. NGC ID# 28LN, PCGS# 9376

**1936-D Texas Half Dollar, MS68
None Numerically Finer at NGC**

- 4397** 1936-D Texas MS68 NGC. Mingled shades of amber, champagne-gold, and lilac toning enhance the immaculate surfaces of this incredible silver commemorative. Well-detailed design elements and vibrant mint luster add to the extraordinary eye appeal. Census: 11 in 68 (1 in 68 ★), 0 finer (11/13). NGC ID# 28LV, PCGS# 9387
- 4398** 1938-D Texas MS67+ NGC. CAC. The obverse of this high-end Superb Gem displays shades of olive-green and golden-brown color along with a few splashes of red-pink. The toning is more pronounced on the back, with deep shades of light golden-brown along with hues of iridescent red, orange, and green. Census: 4 in 67+, 18 in 67 ★, 1 in 67+★, 6 finer (10/13). NGC ID# 28M3, PCGS# 9395
- 4399** 1938-S Texas MS67 NGC. Splashes of lemon-gold patina adorn this lustrous, boldly struck, and magnificently preserved Superb Gem. Hints of ice-blue toning are also evident. A formidable example, encapsulated in a former generation holder. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 28M4, PCGS# 9396
- 4400** 1925 Vancouver MS66 PCGS. CAC. Autumn-gold, ocean-blue, and gunmetal-gray toning blankets this satiny, immaculate, and intricately struck Premium Gem. An outstanding example of a low mintage silver type. Certified in an old green label holder. NGC ID# 28M5, PCGS# 9399
- 4401** 1948-D Booker T. Washington MS67 PCGS. CAC. Gorgeous luster emanates from both sides of this well-struck Superb Gem, providing this piece with exceptional eye appeal. Modestly toned silver-blue with gold-green on the reverse. Population: 18 in 67, 0 finer (10/13). NGC ID# 28ME, PCGS# 9413
- 4402** 1948-S Booker T. Washington MS67 PCGS. Light golden accents grace bright silver surfaces on this Superb Gem. Strong detail, though a touch of the usual planchet roughness affects Washington's jaw. Population: 15 in 67 (2 in 67+), 0 finer (10/13). NGC ID# 28MF, PCGS# 9414
- 4403** 1948-S Booker T. Washington MS67 PCGS. CAC. The 1948-S Booker T. Washington halves had a net distribution of only 8,000-plus coins, and the present MS67 PCGS example is one of only 15 submissions in this top grade (11/13). Splendid luster washes from surfaces that are dove-gray and pale ice-blue, impeccably preserved and with sumptuous eye appeal. NGC ID# 28MF, PCGS# 9414

- 4404** 1948-S Booker T. Washington MS67 PCGS. CAC. A few hints of greenish-gold toning accent the peripheries of this delightful Superb Gem. The design elements are sharply detailed throughout and vibrant mint luster adds to the terrific eye appeal. Population: 15 in 67 (2 in 67+), 0 finer (10/13). NGC ID# 28MF, PCGS# 9414

**1949 Booker T. Washington Half, MS67
Pristine Silver-White Example**

- 4405** 1949 Booker T. Washington MS67 PCGS. CAC. The pristine surfaces on this low-mintage Booker T. Washington issue are silver-white and otherwise untuned, save for perhaps a mere suggestion of gold. An unimprovable example, tied for finest graded at PCGS (and with the CAC approval) with a handful of other submissions. The net distribution of the 1949 was only 6,004 pieces. Population: 15 in 67, 0 finer (10/13). NGC ID# 28MG, PCGS# 9416
- 4406** 1954-D Washington-Carver MS66 PCGS. CAC. Especially vibrant mint luster radiates from the well-preserved surfaces of this delightful Premium Gem. The design elements are sharply detailed and eye appeal is terrific. Population: 42 in 66 (1 in 66+), 0 finer (10/13). NGC ID# 28N4, PCGS# 9443

COMMEMORATIVE GOLD

- 4407** 1903 Louisiana Purchase/Jefferson MS65 PCGS. Yellow-to-orange luster is surprisingly bright for a coin this coppery. Excellent detail through Jefferson's hair and great all-around visual appeal. NGC ID# 26HA, PCGS# 7443
- 4408** 1903 Louisiana Purchase/McKinley MS65 PCGS. Several shades of yellow-gold color along with hints of green combine to provide this Gem with a pleasing appearance. The lustrous surfaces reveal very few abrasions, all minuscule. The reverse was struck from a die that had seen considerable use, with this coin revealing areas of die erosion at the periphery. A small die crack extends from the reverse rim near 7 o'clock. NGC ID# 26HB, PCGS# 7444
- 4409** 1903 Louisiana Purchase/McKinley MS66 NGC. An exquisite Premium Gem with potent luster and flawless wheat-gold surfaces. The strike is precise aside from the denticles near 6 o'clock on each side. *Ex: Kensington Collection (Bowers and Ruddy, 12/1975), lot 919. From The Ole Miner's Collection.* NGC ID# 26HB, PCGS# 7444
- 4410** 1904 Lewis and Clark MS62 PCGS. The portraits of Lewis and Clark on these coins were inspired by the works of famous portrait painter Charles Wilson Peale. Small scattered splashes of red and orange color appear on the reverse of this lovely example. Portions of the denticles lack definition. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 26HC, PCGS# 7447
- 4411** 1904 Lewis and Clark MS64 NGC. This lovely butter-gold near-Gem appears full Gem upon first glance, though careful rotation reveals faint field hairlines. Only the denticles lack an intricate strike. *Ex: Orlando FUN Sale (Mid-American, 1/1989), lot 1084. From The Ole Miner's Collection.* NGC ID# 26HC, PCGS# 7447

1904 Lewis and Clark Gold Dollar, MS65
An Excellent Choice for a Type Set

- 4412 1904 Lewis and Clark MS65 NGC.** The Lewis and Clark gold dollars of 1904 and 1905 were extremely unpopular after the hype and overpromotion associated with Farran Zerbe and the 1903 Louisiana Purchase-Jefferson and McKinley dollars. Nevertheless, Zerbe continued to heavily promote the ensuing Lewis and Clark dollars as investments. The vast majority of sales, however, went to the general public, not to numismatists, resulting in most pieces being mishandled.

The 1905-dated issue is scarcer than the 1904, making the latter date more of a favorite for type purposes. The lustrous, yellow-gold surfaces of the present Gem offering exhibit sharply struck devices and reveal fewer marks than what might be expected for the grade designation. All in all, this is a very handsome piece that may well serve as the hallmark of a commemorative type collection. NGC ID# 26HC, PCGS# 7447

1904 Lewis and Clark Dollar, MS65
Original Gold Surfaces

- 4413 1904 Lewis and Clark MS65 PCGS.** Authorized to produce up to 250,000 gold dollars celebrating the Lewis and Clark Expedition of 1804-1806, the Mint struck only 25,028 of the date due to poor demand. Of these, about 15,000 remained unsold and were melted, resulting in a net mintage of just 10,038 pieces. Many were mishandled or circulated. Today, few high-grade examples remain.

Somehow this sparkling coin survived virtually unblemished with outstanding appeal. Rich orange-gold surfaces complement a remarkably full strike. A few areas show evidence of eroded or improperly annealed dies, but there are no other distractions to mention. A refreshingly original Gem. NGC ID# 26HC, PCGS# 7447

- 4414 1905 Lewis and Clark MS63 PCGS.** Rich yellow-gold, red, and orange shades provide this lustrous Select example with strong visual appeal. A few tiny splashes of denim-blue and violet are also present. Although scattered abrasions appear, they are faint and pose no distraction. An as-made lint mark is seen near the top of the portrait on the reverse. Housed in a green label holder. NGC ID# 26HD, PCGS# 7448

- 4415 1915-S Panama-Pacific Gold Dollar MS65 PCGS.** The rich, lustrous yellow-gold surfaces of this Gem also reveal hints of green-gold, peach, silver, and orange. Two tiny marks on the portrait pose little distraction, if any on this lovely coin. NGC ID# 26HE, PCGS# 7449

- 4416 1915-S Panama-Pacific Gold Dollar MS65 NGC.** The mintmark is clearly repunched southeast. *Cherry-pickers'* lists two repunched mintmark varieties for the P.P.I.E. half dollar but omits the scarcer gold dollar variety. The present sharply struck and lustrous Gem has smooth olive-green and pumpkin-gold toning. NGC ID# 26HE, PCGS# 7449

- 4417 1915-S Panama-Pacific Gold Dollar MS66 PCGS.** Satin luster along with yellow-gold and green-gold color provides this Premium Gem representative with strong eye appeal. The coin reveals only a few tiny marks that pose no distraction whatsoever. NGC ID# 26HE, PCGS# 7449

1915-S Panama Pacific Half Dollar, MS63
Only 6,749 Examples Distributed

- 4418 1915-S Panama-Pacific Quarter Eagle MS63 NGC.** Only 6,749 Panama-Pacific quarter eagles were distributed in 1915, in conjunction with the Panama-Pacific International Exposition. This attractive Select example is well-detailed and lustrous, with lemon-yellow surfaces that show a few minor contact marks on both sides. NGC ID# 26HK, PCGS# 7450

- 4419 1916 McKinley MS65 PCGS.** Though the martyred McKinley had already been honored on a 1903 gold dollar issue, he also appeared on 1916 and 1917 commemorative gold dollars, sold to help fund a memorial at his birthplace of Niles, Ohio. Yellow-gold and peach-gold surfaces are present on this Gem representative. A few tiny alloy spots appear on the reverse. NGC ID# 26HF, PCGS# 7454

- 4420 1916 McKinley MS65 PCGS.** Predominantly peach-gold with glimpses of rose-red and olive-green. Fully struck and flawless with dynamic cartwheel sheen. Encapsulated in an old green label holder.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26HF, PCGS# 7454

- 4421 1916 McKinley MS66 PCGS.** Pastel lime-green and pumpkin-gold shades endow this fully struck and coruscating Premium Gem. Though available in a higher numerical grade, the present lot provides superior value. Certified in an old green label holder. NGC ID# 26HF, PCGS# 7454

- 4422 1917 McKinley MS65 NGC.** A high grade gold commemorative dollar with dynamic luster and peach-gold toning. The borders show slight incompleteness of strike. One minor obverse alloy spot at 9 o'clock.

Ex: Lot 939 from an unknown 1960s Paramount auction.

From The Ole Miner's Collection. NGC ID# 26HG, PCGS# 7455

- 4423 1917 McKinley MS65 NGC.** Smooth gold-orange luster with violet accents visiting the obverse fields. The two brilliant "pillars" above the reverse memorial add a touch of flash.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26HG, PCGS# 7455

- 4424 1917 McKinley MS66 PCGS.** Orange and olive-green toning graces lustrous and essentially immaculate surfaces. The margins and centers show minor inexactness of strike. Encased in an old green label holder. NGC ID# 26HG, PCGS# 7455

- 4425 1917 McKinley MS66+ PCGS.** Subtle splashes of red add to the eye appeal of this high-end Premium Gem displaying yellow-gold, green-gold, and peach hues. The piece has a pleasing degree of design detail and exhibits only a few minuscule marks. NGC ID# 26HG, PCGS# 7455

- 4426 1922 Grant No Star AU58 PCGS.** The vivid lemon-yellow surfaces of this attractive near-Mint example display vibrant mint luster and the strongly impressed design elements show just the slightest trace of wear. NGC ID# 26HJ, PCGS# 7458
- 4427 1922 Grant No Star MS65 PCGS.** Impressively detailed with hints of blue against bold yellow coloration. Though the Grant gold dollars are not known for bright luster, this piece's reverse offers considerable wattage. NGC ID# 26HJ, PCGS# 7458
- 4428 1922 Grant No Star MS66 NGC.** An exemplary example with coruscating luster and unabraded sun-gold surfaces. The strike is full except on the tree trunk near the frame house window.
*Ex: Montgomery Collection (Bowers and Ruddy, 2/1976), lot 1651.
From The Ole Miner's Collection. NGC ID# 26HJ, PCGS# 7458*
- 4429 1922 Grant With Star MS64 NGC.** A lustrous Choice representative with lustrous and mark-free honey-gold surfaces. Though the half dollar With Star variety is better than its No Star counterpart, the two gold issues have similar scarcity.
*Ex: John A. Beck Collection (Abner Kreisberg, 2/1976), lot 604.
From The Ole Miner's Collection. NGC ID# 26HH, PCGS# 7459*
- 4430 1922 Grant With Star MS66 PCGS. CAC.** The obverse is deep yellow-orange with a hint of lavender at right, while the reverse has a lighter butter hue. A well-defined Premium Gem, this coin has full detail at the back of Grant's head. NGC ID# 26HH, PCGS# 7459

**1922 Grant Gold Dollar, MS67
With Star Variant**

- 4431 1922 Grant With Star MS67 PCGS.** Housed in an old green-label PCGS holder, this 1922 Grant With Star gold dollar is a magnificent Superb Gem with bold design motifs. Delicate orange tints appear on the frosty and highly lustrous yellow-gold surfaces. PCGS has only certified one finer example of this commemorative gold issue. NGC ID# 26HH, PCGS# 7459

**1922 Grant With Star Dollar, MS67
Seldom Seen Finer**

- 4432 1922 Grant With Star MS67 NGC. CAC.** Regardless of whether one is considering a Grant With Star gold dollar from NGC or PCGS, the MS67 grade level is virtually as good as it gets, as PCGS has seen one numerically finer coin, NGC nine including likely duplicates (10/13). This beautiful orange-gold example is virtually unmarked, although a small vertical toning spot through the E in UNITED identifies this piece. NGC ID# 26HH, PCGS# 7459

- 4433 1926 Sesquicentennial MS64 PCGS. CAC.** The final gold commemorative of the classic era (1892-1954) was issued for the sesquicentennial of the Declaration of Independence and features Independence Hall on the reverse. A lustrous near-Gem example, this piece reveals scattered alloy spots on the rich butter-gold surfaces. NGC ID# 26HL, PCGS# 7466

- 4434 1926 Sesquicentennial MS65 PCGS.** This lemon-gold Gem has a precise strike and potent luster. Inspection beneath a lens reveals occasional minor marks and infrequent pinpoint flecks. Encapsulated in an old green label holder. NGC ID# 26HL, PCGS# 7466

MODERN ISSUES

- 4435 1995-W Olympic/Stadium Gold Five Dollar MS69 PCGS.** Ex: US Vault Collection. Bright luster is pale yellow at the lower obverse and reverse, though prominent orange and red coppery areas are present elsewhere. NGC ID# 28TK, PCGS# 9734

- 4436 1995-W Olympic/Stadium Gold Five Dollar MS70 PCGS.** Ex: US Vault Collection. Substantial reddish elements are noted on the upper half of the obverse and the top reverse rim. Elsewhere, yellows range from pale canary to richer butter. NGC ID# 28TK, PCGS# 9734

- 4437 1996-W Olympic/Flag Bearer Gold Five Dollar MS69 PCGS.** Ex: US Vault Collection. Pale yellow at the interiors with orange hues at the margins and even a patch of violet surrounding the base of the flag. Colorful and near-flawless. NGC ID# 28U2, PCGS# 9736

- 4438 1996-W Olympic/Cauldron Gold Five Dollar MS69 PCGS.** With just 9,210 pieces struck, the Mint State Cauldron five is the second-rarest of the Atlanta Olympics commemoratives, behind only the Flag Bearer half eagle of the same year. This near-perfect example reveals attractive color at the peripheries, including shades of deep orange and red. NGC ID# 28U4, PCGS# 9738

**1997-W Jackie Robinson Five, MS70
Key Modern Commemorative**

- 4439 1997-W Jackie Robinson Gold Five Dollar MS70 PCGS.** Only 5,147 examples of the 1997-W Jackie Robinson five dollar gold coins were struck in Uncirculated format, making it the key to the modern commemorative series. This technically perfect example displays fully struck devices and vibrant mint luster. The copper-alloy has mellowed, forming areas of light brown patina on both sides. Population: 47 in 70 (11/13). NGC ID# 28UG, PCGS# 9759

- 4440 2000-W Library of Congress Bimetallic Ten Dollars MS70 PCGS.** The Library of Congress bimetallic commemorative was minted at West Point and became America's first bimetallic gold and platinum coin. This piece has extraordinary beauty combining yellow-gold and light gray-platinum with a lustrous finish. Scattered tiny alloy spots are present. NGC ID# 28V5, PCGS# 9784

- 4441 2000-W Library of Congress Bimetallic Ten Dollars MS70 PCGS.** Ex: US Vault Collection. A luminous and satiny coin given a perfect technical rating by PCGS. The golden outer ring tends to the orange and has several reddish-violet copper spots. NGC ID# 28V5, PCGS# 9784

MODERN BULLION COINS

- 4442 1990 Half-Ounce Gold Eagle MS69 NGC.** In 1989, 44,829 of the 1/2 ounce gold American Eagles were sold. Struck from 22-karat gold, this gorgeous example is a single point from technical perfection, exhibiting a few minuscule marks on the obverse. NGC ID# 26NB, PCGS# 9842

1995-W Silver Eagle, PR69 Cameo Key to the Series

- 4443 1995-W Silver Eagle PR69 Deep Cameo PCGS.** The 1995-W is the key to the Silver Eagle series, with only 30,125 pieces struck. This is a deeply mirrored example that is brilliant throughout, with thickly frosted snow-white devices and jet-black fields. Only 11 coins have been graded finer by PCGS (10/13).

Ex: *Pittsburgh Signature* (Heritage, 8/2004), lot 8258; *Palm Beach Signature* (Heritage, 11/2004), lot 10364. NGC ID# 28WZ, PCGS# 9887

- 4444 1999-W Quarter-Ounce Gold Eagle MS68 NGC.** The West Point mintmark was only supposed to appear on proof specimens in 1999, but one die pair with the mintmark was inadvertently prepared for Uncirculated strikes instead of proofs. Lustrous gold surfaces add to the visual appeal of this piece. The reverse reveals a few minuscule marks. NGC ID# 26MG, PCGS# 99942

- 4445 2006-W One-Ounce Silver, 20th Anniversary, First Strike MS70 PCGS.** Satin surfaces are faultless on this 20th Anniversary silver one-ounce American Eagle. Only the faintest hint of golden color settles on each side, and even this might be a trick of the light. PCGS# 89991

- 4446 2009 One-Ounce Gold Ultra High Relief Twenty Dollar MS70 NGC.** The distinctive Saint-Gaudens High Relief design appears in miniature on this series, much as it appeared on the original small diameter, double thickness pieces that now reside at the Smithsonian. This amazing example is technically perfect and aesthetically unsurpassable. NGC ID# 26S4, PCGS# 407404

- 4447 2009 One-Ounce Gold Ultra High Relief Twenty Dollar MS70 NGC.** This Ultra High Relief twenty was granted a perfect grade by NGC. Offered with the box and paperwork of issue, including outer packaging and hardcover information booklet still in shrinkwrap. NGC ID# 26S4, PCGS# 407404

- 4448 2009 One-Ounce Gold Ultra High Relief Twenty Dollar MS70 NGC.** A technically flawless specimen of this popular modern issue. Offered with the box and paperwork of issue, including outer packaging and hardcover information booklet. NGC ID# 26S4, PCGS# 407404

- 4449 2012-W One-Ounce Gold Buffalo, First Strike PR70 Deep Cameo PCGS.** Technically flawless surfaces and contrast. The textured fields give a hint of the artist Fraser's original models before the inevitable eventual smoothing-out of the Buffalo nickel design. PCGS# 511524

COINS OF HAWAII

- 4450 1847 Hawaii Cent MS61 Brown NGC. M. 2CC-5.** Plain 4, 13 berries. Sharply struck and satiny with iridescent jade-green, ocean-blue, and plum-red toning. Marks are minor but one spot is noted on the reverse border at 5 o'clock. Listed on page 409 of the 2014 *Guide Book*. PCGS# 10965

1883 Hawaii Ten Cents, MS65 Struck at San Francisco

- 4451 1883 Hawaii Ten Cents MS65 PCGS.** An impressive Gem of the smallest 1883 Hawaiian silver denomination, this example has rich gold and grayish-brown toning, with traces of peripheral rose. Both sides exhibit bold design features and the surfaces host frosty mint luster. Population: 21 in 65, 13 finer (10/13). PCGS# 10979

- 4452 1883 Hawaii Half Dollar MS63 PCGS.** The 1883 Hawaii half dollar, though the most heavily minted of the Kalakaua silver issues, today is less accessible than the quarter dollar, particularly in high grades. This Select Mint State example is semireflective under champagne, orange, gold, gray, and sage patina.

Ex: *Long Beach Signature* (Heritage, 9/2002), lot 9445; *Palm Beach Signature* (Heritage, 11/2004), lot 10439. PCGS# 10991

ERRORS

1983 Cent, MS62 Red and Brown Struck on a Copper Planchet Transitional Mint Error

- 4453 1983 Cent — Struck on a Copper Planchet — MS62 Red and Brown PCGS.** 3.1 gm. A transitional alloy mint error reminiscent of the famous 1943 copper cent. Though the zinc-plated steel cent was introduced in 1982, a small number of copper cent planchets found their way between 1983 dies. Perhaps the planchet lodged in a crevice of a Mint bin and was freed some time later. An orange-red and apple-green example that has a good strike and minor obverse abrasions.

**1879-S Morgan Dollar
Uncentered Broadstrike
MS64+ Prooflike**

- 4454** 1879-S Morgan Dollar — Uncentered Broadstrike — MS64+ Prooflike PCGS. Moderately uncentered with the greatest expansion seen near 9 o'clock. The centers are fully struck, as often seen on broadstrikes since no collar limited the compression between dies. Brilliant and flashy with refreshingly unabraded surfaces for the designated grade.

U.S. MINT MEDAL

- 4455** Uncertified James K. Polk Indian Peace Medal. Julian IP-24. Bronze, 76 mm. John G. Chapman engraved the head and shoulders, facing left portrait of President Polk. The familiar John Reich reverse was continued. Toned golden-brown and steel-blue with a good strike and no noticeable surface detractions.

COUNTERSTAMPS

- 4456** (3) Counterstamped Coins. BRADLEY & SMITH BRUSHES, N.Y. with ASBURY PARK, N.J. and TIFFANY & CO. Brunk B-1030, A-372, and T-286. 1873 50C Arrows. Ex: *Stack's* (9 & 10/2010), lot 5157.
SAGE'S / CANDY / COIN. Brunk S-86. 1874 50C.
SPRAGUE & BLODGETT'S / ADMIT ONE / GEORGIA MINSTRELS. Brunk S-776. 1873 50C Arrows. (Total: 3 coins)
- 4457** (5) Counterstamped Coins. CONSULT / DR. BAKER. Brunk B-154, plate coin. 1856-S 50C.
D. CARLILE. Brunk C-189. 1858-O 50C.
J.H. DELLMON / PINE BLUFF ARK. Brunk D-265, plate coin. 1854-O 50C, with a pattern of three scratches on each side. Ex: *Coin Galleries* (11/1989), lot 2971.
MAGGIE E. FISH / SHARPSVILLE. / IND. / * / MARCH 4 TH. 1870. Brunk F-193. 1858-O 50C. Ex: *Stack's* (9 & 10, 2010), lot 5149.
Viola A. Gabrielle / Rock Stream, / star symbol / New York. / Summer Home / 1873, with a total of six star stamps on the obverse. The reverse includes Return & be Rewarded (outlining a portion of the eagle) / Sept. / 16th / 1870. Brunk- Unlisted. 1855-O 50C. (Total: 5 coins)
- 4458** Counterstamped Coin. J.L. BARNES / SALOON / BRYAN. TEX. Brunk B-302. 1874 50C. Ex: *Stack's* (9 & 10/2010), lot 5158.

- 4459** (4) Counterstamped Coins. ST. LOUIS / J. BURNS. Brunk- Alphabetical Listing Entry. 1859-O 50C.
DR. / SHATTUCK'S / WATER CURE / WATERFORD / ME. Brunk S-319. 1859-O 50C.
WE RECOMMEND / WALTONS / BITTERS. Brunk W-141. 1861-O 50C.
(Masonic Temple of Boston) An engraved, rather than counterstamped piece, the obverse engraving includes a presentation to Sir Carleton by another member in Boston. The reverse reads, "Taken from the ruins of Masonic Temple / April 6 1864." See extensive information on page 221 of Brunk, with this piece as the plate coin, no number listed. 1864 50C, beautifully toned. Ex: *Hartzog World Exonumia Mail Bid Sale* (6/1999), lot 339. (Total: 4 coins)
- 4460** (4) Counterstamped Coins. CHILD & BRO. / OTTAWA ILL. Brunk C418. 1853 25C Arrows. Ex: *Stack's* (9 & 10/2010).

- 4465** (2) Counterstamped Coins. C. MULLER & BRO. / MEMPHIS, TENN. / IMPRVD' / SPECTACLES / MANUFACTURER. Brunk M-972. 1855-O 50C.
J.J. OUTLEY / ARTIST (St. Louis, MO). Brunk O-157. 1858-O 50C. Ex: *Stack's* (9 & 10/2010), lot 5148. (Total: 2 coins)

4466 (2) Counterstamped Coins. **PARISIAN / VARIETIES / 16. ST & B'WAY. N. Y.** Brunk P-125. 1873-CC 50C.

J. L. POLHEMUS / Mortar and Pestle / DRUGGIST / 190 J. ST. COR 7TH / SACRAMENTO CAL. Brunk P-563. 1855-S 50C. Ex: John J. Pittman Collection (Akers, 5/1998), lot 1551. (Total: 2 coins)

4467 (2) Counterstamped Coins. **C.L. PAGE / ARTIST.** Unlisted. 1858 50C.

The second piece, an elongated 1854 50C coin, includes numerous names and other information, stamped with a variety of logotypes. The following appear on the obverse: **G.F. FOLLEY / E.W. HARRIS / L. SKINNER / C.S. ORMSBY** (upside down) / **P. LENT / A.J. WRIGHT / A.J. SABIN / D.H. COLSON / A.E. LOOMIS / I.W. ROWE** (diagonally at left). The reverse includes **C.B. HOYT / A.N.W. & Co / EATON, N.Y. / L.C. TABER / N. DEAN.** Unlisted.

The first counterstamped coin is ex: Stack's Bowers Galleries (9/2011), lot 770.

The second counterstamped coin is: Stack's (9 & 10/2010), lot 5140. (Total: 2 coins)

**Impressive 1795 Flowing Hair Dollar With Counterstamp
(U.S. Eagle) / Harpers / Ferry /1809
Flintlock Musket Marking, Likely Unique on Any Coin**

4468 1795 Flowing Hair, Three Leaves, B-5, BB-27, R.1 Uncertified. Unlisted in either the Brunk or Rulau references, to our knowledge this exact counterstamp has not been seen on any other coin, much less another 1795 Flowing Hair dollar. It is found, however, on original flintlock muskets made at Harpers Ferry Armory in Virginia. A total of 70,000 Model 1795 Muskets were produced at Harpers Ferry between 1800 and 1816. Stamping dies were employed for marking the gun locks, among them single line punches for **HARPERS / FERRY / 1809** and a separate punch for the federal-style eagle with **US** within the shield.

This historically significant dollar is quite a find for flintlock musket enthusiasts, early dollar collectors, as well as collectors of counterstamps. Flowing Hair dollars with counterstamps of any kind are rare and seldom available. This one is original and pleasing with old-silver, gray toning on smooth surfaces. The counterstamp is boldly applied and weak only at the H of **HARPERS**.

Ex: Philadelphia Americana Sale (Stack's, 9/20/2010) lot 5172; Stephen L. Tanenbaum Estate

MISCELLANEOUS MEDAL

**Pure Gold Libertas Americana Medal
Paris Mint Modern Restrike
PR68 Ultra Cameo**

4469 (2006) Paris Mint Libertas Americana Gold Restrike PR68 Ultra Cameo NGC. 40 mm. Edge lettered 0044/1776. A 43 gm 2006 restrike in .999 fine gold by the Paris Mint, which also produced the original classic 18th century medal more than two centuries before. Luminous high relief devices rise in full definition above the glassy and darkly mirrored fields.

PATTERNS

1850 Three Cent Silver Pattern
Judd-125 Original, PR63

- 4470** 1850 Three Cent Silver, Judd-125 Original, Pollock-147, R.4, PR63 NGC. The obverse features a Liberty cap surrounded by rays. LIBERTY is near the base of the cap with the date below. On the reverse, a circular palm branch encloses the Roman numeral III and is framed by UNITED STATES OF AMERICA. Struck in silver with a plain edge. This design was executed by Franklin Peale and modeled after the similarly designed gold dollar from 1836. This is a shallowly mirrored proof with deep, even blue-gray patina that covers each side. PCGS# 11536

1858 Flying Eagle Cent Pattern
Judd-191, PR63

- 4471** 1858 Flying Eagle Cent, Judd-191, Pollock-233, R.5, PR63 PCGS. Snow-PT14 with five leaf clusters in the wreath. The obverse is from a regular Flying Eagle Small Letters die, while the reverse displays the wreath introduced on the 1859 Indian cent. Struck in copper-nickel with a plain edge. This sharply struck and satiny Select specimen is faded peach-red and olive-green. Excellent quality for the designated grade despite a minor spot near the M in AMERICA. PCGS# 11840

1859 Longacre Half Dollar, PR64
Judd-241, Silver

- 4472** 1859 Half Dollar, Judd-241, Pollock-297, R.4, PR64 NGC. The Longacre "French Head of Liberty" design for the half dollar. The reverse displays 50 CENTS encompassed by a cereal wreath that is very similar to that introduced on the issued 1860 Seated dime, although much larger in scale. Struck in silver with a reeded edge. A fully struck Choice specimen with smooth, untuned surfaces. The fields display parallel die lines, as coined. PCGS# 11978

1859 Copper Half Dollar, Judd-242
PR65 Red and Brown

- 4473** 1859 Half Dollar, Judd-242, Pollock-298, R.5, PR65 Red and Brown PCGS. The "French Head of Liberty" obverse design features a bust right of Liberty. This bust is often credited to Chief Engraver Longacre though the narrow lettering style of the legends is associated with Anthony Paquet. The reverse has 50 CENTS in the center, and is surrounded by a large wreath similar to that later introduced on the 1860 dime. Struck in copper with a reeded edge. The obverse is mostly peach-red though the center is pearl-gray. The reverse displays rich orange, violet-red, and electric-blue. PCGS# 11981

**1865 Three Cent Nickel in Copper
Judd-411, PR64 Brown**

- 4474** 1865 Three Cent Nickel, Judd-411, Pollock-482, High R.6, PR64 Brown PCGS. Similar in design to the issued three cent nickel, but the ribbon ends extend to the denticles, giving the reverse a crowded appearance. Struck in copper with a plain edge. A razor-sharp example of this scarce Judd variety. Vibrant fire-red, sea-green, and orange toning emerges when the piece is rotated beneath a light. A hair-thin mark is noted on the cheek. PCGS# 60592

**1865 Copper Three Cent Nickel
Judd-413, PR63 Brown**

- 4475** 1865 Three Cent Nickel, Judd-413, Pollock-484, R.5, PR63 Brown PCGS. This regular dies trial piece shares the same obverse die as the scarce proof 1865 three cent nickel, since the date exhibits similar broad recutting. A high date variant, unlisted in Pollock, is also known. Struck in copper with a plain edge. A deep chocolate-brown specimen that displays iridescent cherry-red and forest-green undertones across the mirrored fields. Infrequent small spots decide the grade. PCGS# 60594

**1869 Five Cent Pattern, PR62
Judd-684, Longacre Design**

- 4476** 1869 Five Cents, Judd-684, Pollock-763, R.5, PR62 NGC. Reminiscent of the contemporary three cent nickel, but Liberty's coronet has a star, the Roman numeral V replaces the Roman III, and a Maltese cross and a scroll bearing the motto closes the reverse wreath. Struck in nickel with a plain edge. This nicely struck specimen has light chestnut patina on the left two-thirds, while the right third on each side is untoned. A trio of subtle gray spots determine the grade. PCGS# 60909

**1870 Standard Silver Quarter, PR66
Judd-888, Struck in Silver, Reeded Edge**

- 4477** 1870 Standard Silver Quarter Dollar, Judd-888, Pollock-987, R.5, PR66 NGC. A bust of Liberty wearing a cap ornamented with three stars faces right, the legend UNITED STATES OF AMERICA surrounds the figure, and a scroll with IN GOD WE TRUST is below. The reverse reads 25 CENTS 1870 in the center and is surrounded by a wreath of cotton and corn. Struck in silver with a reeded edge. Rose-gold and electric-blue patina emerges when the deeply toned surfaces are rotated under a light. A razor-sharp strike further ensures the eye appeal.
Ex: Santa Clara Bullet (Heritage, 11/2001), lot 1714; Long Beach Signature (Heritage, 9/2002), lot 9475, which realized \$2,185. PCGS# 61132

**1870 Standard Silver Quarter, PR63
Judd-900, Silver, Reeded Edge**

- 4478** 1870 Standard Silver Quarter Dollar, Judd-900, Pollock-1015, R.5, PR63 PCGS. A Standard Silver design with the figure of Liberty wearing a headband inscribed LIBERTY. A scroll occupies the exergual space below the bust where the date would normally be placed. The reverse has 25 CENTS 1870 in the center and is surrounded by a wreath of cotton and corn with the word STANDARD above. Struck in silver with a reeded edge. Deep powder-blue and olive-brown toning is overlaid by a number of tiny russet freckles. Crisply struck and satiny. PCGS# 61144

**1878 Silver Dollar Pattern, PR63
Judd-1554, Pollock-1733 Variant**

- 4479** 1878 Dollar, Judd-1554, Pollock-1733, R.5, PR63 NGC. Designed by Charles Barber, the head of Liberty is large and faces left with IN GOD WE TRUST at the top and the date below, similar to the pattern fifty dollar gold pieces from 1877. The reverse has a spread-winged eagle with E PLURIBUS UNUM in Gothic lettering above. UNITED STATES OF AMERICA is at the top and ONE DOLLAR on the bottom rim. The Pollock subvariety of Judd-1554 with star 13 close to the curl and the upright of the B in PLURIBUS beneath the right foot of the second T in STATES. Struck in silver with a reeded edge. This well struck specimen appears void of hairlines and is deeply patinated forest-green and olive-gray. Golden-brown and plum-red shades emerge on the reverse when it is rotated beneath a light. PCGS# 61915

EARLY HALF DIMES

**1795 Half Dime, VF25
V-5, LM-8**

- 4480** 1795 VF25 ANACS. V-5, LM-8, R.3. A lightly abraded stone-gray representative with glimpses of jade-green in design crevices. All legends and stars are bold and Liberty's hair shows some inner detail. The portrait has a couple of recessed areas, at the base of the neck and on the cheekbone.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 22ZV, PCGS# 4251

**1797 Half Dime, XF45 Sharpness
15 Stars, V-2, LM-1**

- 4481** 1797 15 Stars — Cleaned — ANACS. XF45 Details. V-2, LM-1, R.3. The sole 15 Stars variety of the date. A 16th star, representing Tennessee, was added to LM-2 and LM-3 before the Mint fixed the star count at 13, as seen on LM-4. This lightly circulated Bust half dime has slate-gray centers and blue-green and autumn-gold borders. The obverse is cloudy from hairlines but the sole consequential mark is a minor pinscratch from shoulder to ribbon.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.

- 4482** 1800 Good 6 ANACS. V-1, LM-1, R.3. The late die state with a cud beneath the 00 in the date. The high points are cream-white and the fields are deep steel-gray. The reverse has a few small spots and two tiny roundish pits are noted behind Liberty's neck and on the shield.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2326, PCGS# 4264

BUST HALF DIMES

- 4483** 1832 MS65 NGC. V-1, LM-3, R.1. Prominent clash marks are visible on both sides of this richly toned and fully lustrous Gem 1832 Capped Bust half dime. The surfaces exhibit intermingled gold, sea-green, and champagne toning.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 232E, PCGS# 4279

**1833 Half Dime, MS65
V-5, LM-7, Lightly Toned**

- 4484** 1833 MS65 NGC. V-5, LM-7, R.2. Light butter-gold toning visits coruscating and pleasing surfaces. Pristine aside from a faint mark on the cheekbone and a minor obverse rim tick at 9 o'clock. Generally well struck, though curls near the ear are incomplete. A collectible date and variety, though quality examples are in demand for type purposes. NGC ID# 232F, PCGS# 4280

1834 Half Dime, MS65

V-1, LM-2

- 4485 1834 MS65 PCGS. V-1, LM-2, R.1.** A fully struck and exemplary Gem with medium rose-gold and apple-green toning. A "Scarface" variety with a lengthy, slender die crack from Liberty's nose to the drapery. Die erosion near the profile and a break in the second S in STATES confirm a late die state. Population: 35 in 65 (1 in 65+), 26 finer (11/13). NGC ID# 232G, PCGS# 4281

- 4486 1837 Large 5C MS64 PCGS. V-1, LM-5, R.1.** The final Bust die variety of the denomination. Light chestnut-gray patina adorns lustrous and mark-free surfaces. The strike is good though slightly inexact near the centers.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 232K, PCGS# 4289

SEATED HALF DIMES

- 4487 1837 No Stars, Large Date (Curl Top 1) MS65 NGC.** Blue-green and tan-brown toning blankets this lustrous and fully struck Gem. Careful rotation reveals unobtrusive field marks. The No Stars is a briefly issued introductory design subtype.
Ex: Cincinnati Central States (Heritage, 4/2009), lot 25; Orlando FUN (Heritage, 1/2010), lot 638. NGC ID# 232M, PCGS# 4311

- 4488 1838-O No Stars XF40 PCGS.** A still-luminous No Stars half dime from the first New Orleans issue, toned blue and green-gold overall with gray at the worn high points. A pleasing survivor with an austere design. Population: 9 in 40, 27 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 232N, PCGS# 4314

- 4489 1839 No Drapery MS65 NGC.** Gold, orange, cerulean, and silver-green patina embraces each side of this No Drapery half dime. Well-defined with excellent luster, a tiny Gem. Census: 35 in 65, 31 finer (11/13). NGC ID# 232S, PCGS# 4319

- 4490 1839-O No Drapery MS63 NGC.** Small O. Rich dove-gray and sea-green embrace this conditionally rare early New Orleans half dime. A fascinating example with several heavy die cracks on the left obverse and a spindly vertical crack above the I in DIME. One horizontal thin mark beneath the LF in HALF. Census: 12 in 63, 7 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 232T, PCGS# 4320

- 4491 1841 MS66 NGC.** Richly toned and impressively preserved for this earlier half dime issue. Deep blue-violet central toning gives way to lighter green and aqua at the borders. Census: 9 in 66 (1 in 66+, 1 in 66 ★), 5 finer (11/13).

Ex: FUN Signature (Heritage, 1/2010), lot 640; ANA Signature (Heritage, 3/2010), lot 562.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 232Y, PCGS# 4328

- 4492 1843 MS66 PCGS. CAC.** This delightful Premium Gem exhibits sharply detailed design elements and lustrous well-preserved surfaces. Population: 9 in 66 (1 in 66+), 5 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2334, PCGS# 4332

- 4493 1844 MS66 NGC. CAC. FS-301.** A high grade example of this popular variety, the date is repunched both north and south, most noticeably beneath the 8. Both sides of this lovely piece display attractive toning. The colors include shades of ice-blue, sea-green, cherry, and golden brown. Census: 13 in 66 (1 in 66+ ★), 1 finer (11/13). NGC ID# 2335, PCGS# 4333

- 4494 1845 MS65 NGC.** Light golden-tan peripheral toning yields to pale silver centers with subtly textured luster. The solid preservation counterbalances minor striking softness at the inner obverse. Census: 31 in 65, 8 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2337, PCGS# 4335

- 4495 1848-O MS62 NGC.** A satiny and boldly struck cream-gray New Orleans half dime. Smooth aside from wispy marks above HALF.
Ex: William A. Harmon Collection (Heritage, 9/2005), lot 7960.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 233C, PCGS# 4340

- 4496 1849/8 MS64 PCGS. V-1, FS-301.** This scarce variety is frequently confused with the FS-302 1849/6. The date location differs relative to the point of the shield, with the date for FS-301 punched further west. A dove-gray and olive-green near-Gem that has a sharp strike and pleasing surfaces.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. PCGS# 38738

- 4497 1850 MS65 NGC.** A delightful Gem with sharply defined design elements and vibrant mint luster. The mostly brilliant well-preserved surfaces show a hint of pale tan toning. Census: 30 in 65, 22 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 233F, PCGS# 4345

- 4498 1851 MS65 NGC.** Lime-green, autumn-gold, and gunmetal toning endows this moderately prooflike and crisply struck Gem. The date logotype is too large for the design and partly overlaps Liberty's rock. Certified in a former generation holder.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 233H, PCGS# 4347

- 4499 1853-O No Arrows VF25 PCGS.** A deeply toned midrange example of the last pre-weight-adjustment New Orleans half dime issue. Medium-gray worn high points contrast with peach, violet, and blue recess toning. Population: 4 in 25, 27 finer (11/13). NGC ID# 233N, PCGS# 4352

- 4500 1853-O No Arrows VF35 PCGS.** The 1853-O Seated Liberty half dime with no arrows at the date is much more elusive than its With Arrows counterpart. This Choice VF specimen retains much original design detail and the surfaces show the expected number of minor abrasions. Population: 6 in 35, 18 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 233N, PCGS# 4352

1853 Arrows Half Dime, MS66

An Important Type Coin

- 4501 1853 Arrows MS66 PCGS. CAC.** This short-lived design type is needed by all 19th century type collectors. Orange-gold, lavender, and yellow-gold patination is slightly deeper and more extensive on the obverse of this lustrous Premium Gem. Nicely struck and well-preserved. Population: 35 in 66, 6 finer (11/13). NGC ID# 233Y, PCGS# 4356

- 4502 1856 MS66 NGC.** An elusive Premium Gem with well-detailed design elements and lustrous surfaces under spectacular shades of gold, gray, violet, and amber toning. Census: 44 in 66 (3 in 66+), 7 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 233P, PCGS# 4363
- 4503 1856-O MS63 ANACS.** Lightly blue-toned overall with a patch of violet-gray at the right reverse. Luminous and pleasingly detailed for a New Orleans coin.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 233R, PCGS# 4364
- 4504 1857 MS66 NGC.** Delicate champagne toning graces the frosty and fully lustrous surfaces of this brilliant Premium Gem half dime. The stars and both borders lack detail on this typically struck example. NGC ID# 233S, PCGS# 4365
- 4505 1858-O MS65 NGC.** The 1858-O Seated Liberty half dime is a rare issue in MS65 condition. This impressive Gem displays well-detailed design elements and vibrant mint luster under attractive shades of lavender toning. Census: 27 in 65, 4 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 233V, PCGS# 4369
- 4506 1861 MS66 PCGS.** Despite the considerable production of 1861 half dimes at Philadelphia, 3,360,000 pieces, survivors are scarce at the Premium Gem level and prohibitively rare any finer. Light gold toning and rich luster add to the attractiveness of this lovely Premium Gem representative. Clash marks are present on both sides. Housed in a green label holder. Population: 23 in 66 (1 in 66+), 2 finer (10/13). NGC ID# 2349, PCGS# 4379
- 4507 1861/0 MS63 NGC. FS-301.** Listed with a large price premium as "1 Over 0" in the *Guide Book*. Rich ocean-blue and plum-red toning embraces this well struck and unabraded half dime. Struck from clashed dies. Certified in a prior generation holder.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2349, PCGS# 4380
- 4508 1861/0 MS64 PCGS. FS-301.** Traces of the previous 0 are faint but visible on this Choice Mint State half dime. Both sides have full luster beneath violet and gold toning with iridescent hints. Population: 13 in 64, 6 finer (11/13). NGC ID# 2349, PCGS# 4380
- 4509 1862 MS67 NGC.** Both sides of this Superb Gem half dime display satiny luster with reflective fields that provide moderate contrast with the frosty, sharply defined devices. Prominent clash marks are noted in the fields. Census: 24 in 67 (1 in 67+, 1 in 67 ★), 5 finer (11/13). NGC ID# 234B, PCGS# 4381
- 4510 1864 AU53 NGC.** From a low mintage of 48,000 pieces, this lightly abraded specimen retains much of its original design detail and mint luster, under shades of pinkish-gray toning. Census: 2 in 53, 39 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 234E, PCGS# 4384
- 4511 1865 MS63 NGC.** Cobalt-blue, golden-brown, lavender, and ocean-green patina run over the lustrous, sharply struck surfaces of this Select half dime. This is a well cared for piece. Census: 9 in 63, 27 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 234G, PCGS# 4386

1866 Prooflike Half Dime, Brilliant MS65 Only One Other Prooflike Certified

- 4512 1866 MS65 Prooflike NGC.** One of only two examples certified as Prooflike by NGC, the present Gem exhibits frosty motifs and glassy fields. Fully struck and essentially brilliant with mint-made clash marks evident on both sides. Just 10,000 business strikes (and 725 proofs) were struck.
Ex: Palm Beach Signature (Heritage, 3/2005), lot 5434, which realized \$1,955. PCGS# 74388

- 4513 1872-S Mintmark Below Bow MS66 PCGS. CAC.** A delightful Premium Gem with vibrant mint luster and sharply detailed design elements under pleasing shades of lavender and champagne-gold toning. Population: 53 in 66 (3 in 66+), 8 finer (11/13). NGC ID# 2352, PCGS# 4401

PROOF SEATED HALF DIMES

- 4514 1867 PR66 PCGS.** Astoundingly toned with blue and violet hues saturating each side. Exactingly struck with glimmers of underlying reflectivity that hint at past contrast. Population: 11 in 66, 5 finer (11/13). NGC ID# 2364, PCGS# 4450

1868 Half Dime, PR66 ★ Cameo

- 4515 1868 PR66 ★ Cameo NGC. CAC.** A deeply mirrored and pristine specimen with lightly freckled tan-gold toning. The devices are luminous and show incompleteness only on the portion of the wreath opposite the left corner of Liberty's rock. Just 600 proofs were produced. Census: 1 in 66 ★ Cameo, 1 in 66+ ★ Cameo, 1 in 66 ★ Ultra Cameo, 2 in 67 ★ Cameo (11/13). PCGS# 84451
- 4516 1869 PR66 PCGS.** Both sides are dramatically though differently toned. The obverse has blue border toning with gold-orange and silver interior colors, while the reverse is green-edged with a fade through blue and violet on its way to a rose-dotted core. Population: 10 in 66, 2 finer (11/13). NGC ID# 2366, PCGS# 4452
- 4517 1873 PR65 NGC.** Rich russet-brown embraces both sides, although the margins are cobalt-blue. The devices are moderately frosted although the coin is undesignated as Cameo. The proof-only 1873 half dime is a desirable issue in the present quality. Just 600 pieces were struck. Census: 39 in 65, 35 finer (11/13). NGC ID# 236A, PCGS# 4456

EARLY DIMES

1796 Dime, XF45 Details JR-6, Late Die State

- 4518 1796 — Repaired, Whizzed — ANACS. XF45 Details. JR-6, R.3.** This steel-gray example has sharp definition but the eagle's breast is smoothed and the eagle's plumage is delicately reengraved. The coin was then whizzed to provide a uniform appearance. The left (facing) claw blends into the rock. Nonetheless desirable as a better grade first year dime. A late die state with two lengthy obverse cracks that intersect on Liberty's neck.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.

- 4519 1797 13 Stars — Retoned — ANACS. VG8 Details. JR-2, R.4.** The stars and legends are clear and the types are well outlined. The powder-blue surfaces are polished but the only relevant mark is behind the lowest obverse ribbon end.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.

- 4520 1798/97 16 Stars on Reverse VG8 NGC. JR-1, R.3.** Lilac-tinged motifs contrast with dark gray fields. A lens reveals a couple of pinscratches on Liberty and a brief thin mark near obverse star 12. The peripheral legends are clear aside from the tops of UNITED.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 236F, PCGS# 4468

- 4521 1805 5 Berries VF20 NGC. JR-1, R.3.** Forest-green and plum-mauve fields accompany slate-gray devices. Nicely detailed for the VF20 grade. Unabraded aside from a few thin parallel marks on Liberty's face.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. PCGS# 4478

- 4522 1807 VG8 NGC. JR-1, R.2.** The sole die marriage for the date. This mildly granular stone-gray and lilac example has a sharp date and all peripheral legends are readable, though UNITED and the left-side stars are softly defined. NGC ID# 236T, PCGS# 4480

BUST DIMES

1820 Dime, Borderline Uncirculated Scarce STATESOF Variety, JR-1

- 4523 1820 STATESOF AU58 PCGS. JR-1, R.4.** Amateurish letter spacing by the Mint engraver causes STATES OF AMERICA to resemble a single word. This scarce die variety reuses a reverse first coined in 1814. The die had apparently rested in the Mint workshop for the prior six years. A late die state with pronounced field buckling near stars 2 and 3. Lightly toned and nearly unabraded with pleasing eye appeal. PCGS# 4494

- 4524 1820 Medium O MS62 NGC. JR-6, R.3.** A lustrous cream-white example. Unmarked and nicely struck. All of the stars have a notched outer point, a curiosity perhaps related to John Reich's famous 13th star signature. The reverse die is strongly buckled near 9 o'clock.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 236X, PCGS# 4492

- 4525 1835 MS62 NGC. JR-9, R.2.** Walnut-brown toning graces the margins of this precisely struck dime, though a majority of the coin is brilliant. Precisely struck and without any distracting marks, though a few faint hairlines are near the profile. NGC ID# 237F, PCGS# 4527

- 4526 1836 MS62 PCGS. JR-3, R.3.** The Wide 10C variety. The second T in STATES is repunched. This precisely struck and coruscating dime has chestnut-gold toning in protected areas. Free from any detrimental marks. NGC ID# 237G, PCGS# 4528

SEATED DIMES

- 4527 1838 Large Stars MS64 NGC. Fortin-113.** Rich gunmetal-gray toning encroaches upon the wheat-gold centers. Lustrous and unabraded with excellent eye appeal for the designated grade. The strike is full except on the dentils. A worm-like die break is at the reverse center.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 237U, PCGS# 4568

- 4528 1842-O AU58 PCGS. CAC. Fortin-103.** Gerry Fortin identifies this die pair as a Top 100 variety among Seated dimes, and notes at seateddimevarieties.com that his own collection contains an AU50 example. The present piece would upgrade his collection, and likely any other variety collection as well. This lustrous near-Mint specimen has lovely green and reddish-gold toning. NGC ID# 2387, PCGS# 4582

1853 Arrows Dime, MS66 Ideal Type Representative

- 4529 1853 Arrows MS66 PCGS Secure.** Always in demand as the first year of the short-lived and popular Arrows design, the 1853 Seated Liberty dime was produced in large numbers, but the issue is quite elusive in MS66 condition. This delightful Premium Gem is sharply detailed, with vibrant mint luster and a few hints of light gold toning. Population: 34 in 66 (1 in 66+), 19 finer (11/13). NGC ID# 2398, PCGS# 4603

- 4530 1854 Arrows MS65 NGC.** Intermingled shades of gold, orange, and silver appear on both sides of this lustrous Gem representative. Smaller splashes of toning include shades of denim-blue, sea-green, and orange, primarily at the outer portions of the obverse. Census: 19 in 65, 23 finer (11/13). NGC ID# 239A, PCGS# 4605

- 4531 1855 Arrows MS64 NGC.** The 1855 Seated Liberty dime is always popular because of the short-lived Arrows design. This sharply detailed Choice example features lustrous surfaces that show just a few minor contact marks. Census: 24 in 64, 16 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 239C, PCGS# 4607

- 4532 1860-O — Cleaned — ANACS. XF40 Details.** Legend Obverse New Orleans dimes were struck only in the first and last years of the type. The 1860-O mintage was just 40,000 pieces. This stone-gray dime is somewhat granular and dull but exhibits only subtle wear.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.

- 4533 1861 MS65 NGC.** This well-detailed Gem displays frosty mint luster and pleasing shades of gray-tan toning on the well-preserved surfaces. Census: 20 in 65, 13 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 239F, PCGS# 4633
- 4534 1866 AU50 PCGS.** Considerable luster remains on this AU50 example of the 1866 dime with gold-gray and lavender-blue toning. Striking softness blends with minor wear on the design elements. Population: 1 in 50, 40 finer (11/13). NGC ID# 239S, PCGS# 4643

**1867 Dime, MS66
Prominent Die Clash, Fortin-102**

- 4535 1867 MS66 NGC. CAC. Fortin-102, R.5.** A Premium Gem example of Gerry Fortin's Variety-102, typified by acute die clashing, most noticeable left and right of Liberty's head. This business strike is one of just 6,000 pieces minted. Golden-bronze toning predominates with turquoise, aquamarine and a touch of cobalt-blue especially near the rims and within the central devices. The fields are somewhat prooflike as expected with such a low mintage. Few are graded finer. Census: 9 in 66, 4 finer (11/13). NGC ID# 239U, PCGS# 4645
- 4536 1871-CC — Corroded, Cleaned — ANACS. VG Details, Net Good 4.** This rare introductory issue Carson City dime has charcoal-gray verdigris in protected areas and displays horizontal hairlines from a harsh cleaning. All letters in LIBERTY are evident.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23A5, PCGS# 4654
- 4537 1875 MS65 PCGS. CAC.** Colorful toning appears on both sides of this Gem. The colors include hues of yellow, red, plum, forest-green, and dusky pink. Aside from scattered marks in the left obverse field, there are no marks worthy of mention. NGC ID# 23AC, PCGS# 4672
- 4538 1876 MS66 PCGS. Fortin-101a.** Type Two Reverse. Numerous die cracks, especially on the reverse, allow prompt attribution. Beautifully toned in fire-red, apple-green, and butter-gold at the margins while the centers are pearl-gray. Carefully preserved and coruscating. Population: 20 in 66 (2 in 66+), 3 finer (11/13). NGC ID# 23AH, PCGS# 4679
- 4539 1876-CC MS64 NGC. Fortin-101. Greer Plate Coin.** Type Two Reverse. The only die pair from that hub. The Brian Greer plate coin for the Type Two 1876-CC dime (page 143). Fortin lists his 101 variety as Rarity-6 with a 400% to 600% suggested premium. A mildly prooflike piece that has wisps of honey-gold patina. Well struck. The obverse border has a couple of minor peripheral spots, and an area of smoothed surface is noted above the bow.
Ex: St. Louis Central States Signature (Heritage, 5/2005), lot 6525. NGC ID# 23AJ, PCGS# 4680
- 4540 1876-CC MS65 NGC.** Type One Reverse. A sharply struck snow-white Gem that exhibits dynamic luster and splendidly smooth surfaces. The second E in DIME is strongly doubled, as seen on many examples of the issue, due to the transition of reverse hubs that year. NGC ID# 23AJ, PCGS# 4680
- 4541 1879 MS65 Prooflike NGC. Fortin-102a.** This brilliant Gem has frosty devices and reflective fields. Proofs were struck from these dies (Fortin-102). However, incompleteness of strike on the wreath, die polish on the drapery near the shield, and a thin mark through the final A in AMERICA help confirm business status. NGC ID# 23AS, PCGS# 4687

**1882 Seated Dime, MS67
Only Two Finer**

- 4542 1882 MS67 NGC.** Richly toned on both sides, this Superb Gem example displays a number of hues, including teal, gold, frosty yellow, pink, red, and sea-green. The design elements exhibit bold definition. Wispy die cracks appear on both sides, particularly the obverse. Despite a relatively large mintage of 3,910,000 pieces, few survivors have achieved the MS67 grade, only 48 at NGC and PCGS combined, with a mere 2 finer, both at NGC. (11/13). NGC ID# 23AV, PCGS# 4690
- 4543 1887 MS66 PCGS.** This high grade Seated type coin has potent luster and rich blue-green and autumn-gold toning. The strike is good though slightly incomplete. Housed in a green label holder. Population: 26 in 66 (1 in 66+), 3 finer (10/13). NGC ID# 23B5, PCGS# 4698
- 4544 1889 MS66 PCGS. CAC.** Although the 1889 Seated Liberty dime was produced in large numbers, the coins are conditionally rare at the Premium Gem level and above. Intermingled shades of multicolor toning appear on this Premium Gem. Among the colors present are green, red, and orange. Population: 25 in 66 (1 in 66+), 4 finer (10/13). NGC ID# 23B9, PCGS# 4702
- 4545 1891 MS67 NGC.** Other than a few tiny freckles of color, this Superb Gem is brilliant. Numerous thin, wispy die cracks appear on the reverse along the wreath. The strike is incomplete at the outer portions of the designs and legends. Census: 19 in 67 (3 in 67 ★), 1 finer (11/13). NGC ID# 23BD, PCGS# 4706
- 4546 1891-O MS65 NGC.** Attractive shades of champagne-gold, lavender, and powder-blue toning grace the well-preserved surfaces of this well-detailed Gem, with vibrant mint luster under the patina. Census: 27 in 65, 10 finer (11/13). NGC ID# 23BE, PCGS# 4707

PROOF SEATED DIMES

- 4547 1861 PR65 PCGS. CAC.** Lovely sea-green, turquoise, and gold toning appears on both sides of this impressive Gem, with fully mirrored fields around sharply detailed and lustrous devices. Population: 14 in 65, 5 finer (11/13). NGC ID# 23CK, PCGS# 4754
- 4548 1865 PR65 PCGS.** Deep violet patina occupies much of the obverse on this Gem proof, while the blue-green and green-gold of the margins on that side take on a more prominent role on the reverse. Great eye appeal for this issue of just 500 pieces. Population: 13 in 65 (1 in 65+), 3 finer (11/13). NGC ID# 23CN, PCGS# 4758
- 4549 1866 PR64 ANACS.** Glimmering green-to-blue patina saturates flashy fields on this near-Gem proof dime. Quality detail furthers the coin's visual appeal.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23CP, PCGS# 4759
- 4550 1867 PR65 PCGS.** Citrine, emerald, and aquamarine toning dazzles on this Gem proof Seated dime. Ample watery reflectivity makes for appreciable, if not Cameo-level contrast. Population: 6 in 65, 2 finer (11/13). NGC ID# 23CR, PCGS# 4760

4551 1867 PR63 Cameo PCGS. The sharply detailed frosty design elements contrast boldly with the deeply mirrored fields and the well-preserved surfaces display hints of blue and gold toning. Population: 4 in 63 Cameo, 26 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. PCGS# 84760

4552 1873 No Arrows, Closed 3 PR65 NGC. Lovely rose-gold toning appears on both sides, with peripheral blue and violet highlights. A small lint mark is noted in the right obverse field. The rainbow toning masks the delicate cameo contrast of this Gem. Census: 27 in 65, 21 finer (11/13). NGC ID# 23CX, PCGS# 4766

4553 1874 Arrows PR64 PCGS. Both sides of this Choice proof have light champagne and silver centers, with lovely peripheral gold and blue toning. A hint of contrast is evident between the mirrored fields and lustrous devices. NGC ID# 23DJ, PCGS# 4770

4554 1875 PR66 NGC. Shimmering, attractively toned surfaces provide this Premium Gem with lovely eye appeal. The colors include shades of blue-green, copper, and gold. A few marks on Liberty's face and right arm pose limited distraction, if any. NGC ID# 23CY, PCGS# 4772

1875 Seated Dime, Colorful PR67

4555 1875 PR67 NGC. The year 1875 is famous in American numismatics for the tiny gold mintages, but the 1875 Philadelphia Seated dimes of the year saw a mintage exceeding 10.3 million circulation strikes plus 700 proofs, most of which are in lower grades than the present Superb Gem. The deep toning under a light resolves into lovely rose and gold patina, interspersed with silver-white areas, all of which is enlivened by the deeply mirrored fields. There are no mentionable distractions, although a hint of strike softness occurs on Liberty's face. Census: 3 in 67 (1 in 67 ★), 1 finer (10/13). NGC ID# 23CY, PCGS# 4772

1875 PR66 Cameo Seated Dime Only One Finer at PCGS

4556 1875 PR66 Cameo PCGS. Although the circulation strikes from 1875 were generously minted, with more than 10 million struck, only 700 proofs were produced. Areas of reflectivity emerge on this beautifully toned Premium Gem Cameo example. The colors include hues of teal, copper, orange, red, plum, bright blue, and yellow. Population: 3 in 66 Cameo, 1 finer (11/13). PCGS# 84772

4557 1879 PR65 PCGS. This sharply detailed Gem displays deeply mirrored fields and well-preserved surfaces under vivid shades of powder-blue and emerald-green toning. Population: 30 in 65, 23 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23D4, PCGS# 4776

1879 Seated Dime, PR67 Cameo Among the Finest Certified

4558 1879 PR67 Cameo NGC. A beautiful proof representative of this always-popular date in the Seated Liberty dime series. There is very little toning in evidence and the surfaces do not reveal a single blemish that would call in to question the validity of the PR67 designation. Razor sharp striking definition and bold field-to-device contrast round out this coin's list of positive attributes. The first of three low mintage Seated dime issues produced in the late 1870s and early 1880s, the 1879 has an original mintage of just 15,100 pieces. Census: 14 in 67 Cameo (2 in 67 ★ Cameo), 0 finer (11/13).
Ex: Houston Signature (Heritage, 12/2010), lot 3456. PCGS# 84776

4559 1881 PR66 PCGS. CAC. Flashy mirrored fields are abundantly evident through the bright orange toning that also has an electric light blue halo around the rims on both sides. Fully struck, as one would expect from a proof from this era. This is a wonderful piece for type purposes for the collector who appreciates toned coins. Population: 13 in 66, 6 finer (11/13). NGC ID# 23D6, PCGS# 4778

4560 1882 PR66 Cameo PCGS. CAC. Golden-orange peripheral toning is strongest at the left reverse. Excellent field reflectivity fuels contrast with the well-frosted devices. Population: 14 in 66 (1 in 66+) Cameo, 4 finer (11/13). PCGS# 84779

1883 Seated Dime, PR67 Lustrous and Beautifully Toned

4561 1883 PR67 NGC. The 1883 proof mintage was 1,039 for the Seated Liberty dime issue. A well-preserved survivor, this Superb Gem example exhibits lustrous lightly toned surfaces. The obverse features shades of yellow-gold, with splashes of peach-gold and hints of teal. The colors on the reverse are richer and include hues of teal, peach, and red in the center, with yellow-gold appearing at the borders. A sharp strike adds to the appeal of this piece. NGC and PCGS combined have awarded PR67 grades to only 28 examples, with each having assigned higher numeric grades to 2 examples (11/13). NGC ID# 23D8, PCGS# 4780

4562 1884 PR65 NGC. From a proof mintage of 875 pieces, this sharply detailed Gem displays deeply reflective fields and vivid shades of champagne-gold and violet toning. Census: 44 in 65, 66 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23D9, PCGS# 4781

4563 1885 PR65 PCGS. Fortin-101. This is the proof die for 1885 Seated Liberty dimes, although this piece has certain aspects, such as a weak strike at Liberty's head, that suggest it is a business strike. The fields are moderately mirrored, and the surfaces exhibit gold, green, and iridescent toning. A small planchet lamination is noted at the upper left obverse. NGC ID# 23DA, PCGS# 4782

4564 1885 PR65 PCGS. CAC. Strongly mirrored and partly contrasted, though the obverse is not strong enough to be called Cameo. Suggestions of green-gold peripheral color grant additional eye appeal. Population: 54 in 65, 45 finer (11/13). NGC ID# 23DA, PCGS# 4782

4565 1889 PR65 PCGS. Pale green-gold toning graces much of the margins, while the interiors are close to brilliant. A low-contrast but high-appeal Gem specimen from late in the Seated dime series. Population: 28 in 65, 19 finer (11/13). NGC ID# 23DE, PCGS# 4786

4566 1889 PR66 Cameo NGC. The fields are gleaming, if a little watery, while the frosted devices provide contrast that is more "white-and-white" than "black-and-white." Hints of golden rim toning are most visible at the left obverse. Census: 5 in 66 Cameo, 7 finer (11/13). PCGS# 84786

BARBER DIMES

4567 1892 MS66 NGC. CAC. Rich luster provides this Premium Gem example with immediate eye appeal, with toning at the peripheries further accenting the centers on this well struck piece. The toning includes hues of yellow, orange, red, and green. NGC ID# 23DK, PCGS# 4796

4568 1893-O MS65 NGC. This second-year issue out of New Orleans had few of its 1.76 million pieces saved at the time of release, and Gems such as this richly toned beauty are condition rarities. The obverse is pink-gray with peach and antique-gold enrichment at the margins, while the reverse has deeper versions of the same colors. Ex: FUN Signature (Heritage, 1/2005), lot 6179; CSNS Signature (Heritage, 4/2006), lot 1287; Houston Signature (Heritage, 12/2008), lot 1126. NGC ID# 23DR, PCGS# 4801

4569 1895-O — Scratched, Cleaned — ANACS. AU50 Details. This key date dime is richly detailed but the slate-gray surfaces are hairlined. A couple of horizontal pinscratches are noted near Liberty's jaw. From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.

4570 1897-O MS63 NGC. This well-detailed Select Barber dime offers lustrous lightly marked surfaces with pleasing shades of lavender-gray and amber toning. Census: 4 in 63, 35 finer (11/13). From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. PCGS# 4813

1905-O Dime, Conditionally Rare MS66 Above-Average Strike

4571 1905-O MS66 NGC. The normal size mintmark appears on the reverse of this Premium Gem Barber dime. The 1905-O issue is seldom seen in the better levels of Mint State, and when located is often weakly struck. Most of the design features on this coin exhibit a better-than-average strike, including the letters in LIBERTY and the leaves immediately above, the lower-right portion of the reverse wreath, and the leaves left of the ribbon bow, all elements that tend to be weakly defined. Splashes of olive-green and reddish-gold cascade over the lustrous surfaces. Both sides have been well preserved. Census: 7 in 66, 4 finer (10/13). NGC ID# 23EU, PCGS# 4836

4572 1909-D MS64 NGC. Toned blue-violet at much of the obverse with a mix of silver and pumpkin on the interiors. Smooth luster and few serious marks add up to solid eye appeal. Census: 35 in 64 (1 in 64+), 16 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23FC, PCGS# 4851

4573 1912 MS66 PCGS. CAC. A beautifully preserved example, this Premium Gem boasts attractive satin luster and areas of light toning in shades of golden-brown. A condition rarity despite a mintage approaching 20 million coins, with few finer examples known. Population: 46 in 66, 4 finer (10/13). NGC ID# 23FM, PCGS# 4860

4574 1912 MS66 PCGS. CAC. Lightly toned blue around much of the margins with just a hint of gold-green at the obverse interiors. A smooth Premium Gem whose frostiness is best seen in contrast to the brilliant patch at the upper right reverse. Population: 46 in 66, 4 finer (11/13). NGC ID# 23FM, PCGS# 4860

4575 1914 MS66 PCGS. CAC. Dappled golden-brown covers portions of each side. The design features are well struck throughout, and the lustrous surfaces display just a few minute marks on Liberty's neck. Only five pieces have been graded higher by PCGS (11/13). NGC ID# 23FT, PCGS# 4865

4576 1915-S MS65 NGC. This late-date Barber dime comes from a little-saved San Francisco issue with a sub-million mintage. Green-gold and sage toning graces the obverse margins and the lower reverse. Silver interiors have a strong swirl of luster. Census: 13 in 65, 12 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23FX, PCGS# 4869

PROOF BARBER DIMES

1893 Barber Dime, PR67 Impressive Album Toning

4577 1893 PR67 NGC. This lovely Superb Gem proof has excellent field-to-device contrast with fully mirrored fields and lustrous devices. The central obverse is bright silver, with gold, blue, and turquoise toning toward the border. The reverse is similar with pale gold at the center, inside a ring of brilliant blue and sea-green. A delightful specimen. Census: 21 in 67, 7 finer (11/13). NGC ID# 23G4, PCGS# 4877

4578 1897 PR66 Cameo PCGS. Only 731 proof Barber dimes were struck in 1897, and Premium Gems with cameo contrast are rare. The lightly frosted devices contrast beautifully against the reflective fields. Subtle areas of gold toning are present on the reverse. Population: 23 in 66 (4 in 66+) Cameo, 13 finer (10/13). PCGS# 84881

1898 Dime, PR67
Rich Toning over Cameo Contrast

- 4579 1898 PR67 NGC.** The central obverse is light silver, inside a frame of blue, sea-green, and rose. The reverse is entirely toned in deep steel-blue. Both sides have fully mirrored fields around lustrous devices, although the toning prevents a Cameo designation. Census: 28 in 67 (1 in 67 ★), 6 finer (11/13). NGC ID# 23GB, PCGS# 4882

1898 Dime, Brilliant PR67 Cameo

- 4580 1898 PR67 Cameo NGC.** Untoned with frigid white devices upon deep mirror fields. The portrait is immaculate, as are all the devices, to fully display Charles E. Barber's design. One of just 735 proofs made. Only a few offer the stunning white, brilliant condition demonstrated by this Superb Gem. Census: 26 in 67 Cameo (2 in 67 ★ Cameo), 9 finer (11/13). PCGS# 84882

- 4581 1899 PR66 Cameo NGC.** Areas of reflectivity remain beneath the patina on this Premium Gem example. Among the hues present are sea-green, vibrant orange, pink, golden-yellow, and red. A pleasing strike adds to the appeal. Census: 14 in 66 Cameo, 11 finer (10/13). PCGS# 84883

- 4582 1901 PR66 PCGS.** This glossy specimen displays vivid sea-green and plum toning. The strike is razor-sharp, and no post-strike imperfections are detected. A small planchet flaw on the reverse at 11 o'clock and a struck-in thread on the upper reverse are of mint origin. A mere 813 proofs were struck. The base of the 01 in the date is repunched. Population: 29 in 66, 4 finer (11/13).

Ex: Dallas Signature (Heritage, 7/2006), lot 688. NGC ID# 23GE, PCGS# 4885

- 4583 1903 PR66 PCGS.** An impressive Premium Gem, this 1903 Barber dime shows a hint of cameo contrast, and that alone is enough to garner serious attention; however, this piece also has excellent eye appeal created by its brilliant mirrored surfaces and outstanding peripheral gold and iridescent toning. Population: 23 in 66, 7 finer (11/13). NGC ID# 23GG, PCGS# 4887

- 4584 1910 PR67 NGC.** Only 551 proofs were struck of the dime, quarter, and half in 1910, and high-grade survivors are predictably scarce. This deeply mirrored example has subdued flash because of the cobalt-blue and rose toning that thickly coats each side. The coin is essentially perfect. A casual glance appears to show problems, but examination with a loupe resolves these into thin streaks of original brilliance. Census: 14 in 67, 4 finer (11/13). NGC ID# 23GR, PCGS# 4894

- 4585 1915 PR65 NGC.** Blue-to-violet outer toning with a more peach hue on the interiors. Luminous underlying fields grant this final-year proof Barber dime ample eye appeal. Census: 25 in 65, 26 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23GW, PCGS# 4899

TWENTY CENT PIECES

- 4586 1875 MS64 PCGS. CAC.** This first-year P-mint is infrequently seen in high grades compared to its S-mint counterpart. This is a deeply toned example that is fully struck in all areas, including the top of the eagle's wing. Strong mint luster radiates through the deep, speckled toning. Population: 62 in 64 (1 in 64+), 30 finer (11/13). NGC ID# 23R5, PCGS# 5296

- 4587 1875-CC XF40 NGC.** A typical strike shows weakness at the top of the left facing wing on this lightly worn example. The 1875-CC is the only collectible Carson City twenty cent piece, and examples are in demand in all grades. This piece has light silver surfaces with a hint of golden-brown toning. NGC ID# 23R6, PCGS# 5297

- 4588 1875-S MS63 PCGS. FS-301.** Undesignated as such by PCGS, but the top of a misplaced date is obvious in the dentils beneath the 8 in the date. This Select example displays champagne-gold color overall, with scattered splashes of toning that include golden-brown and teal. Though not fully struck, the coin exhibits a pleasing degree of detail. NGC ID# 23R7, PCGS# 5298

- 4589 1875-S MS63 PCGS. FS-302.** A wonderful Select example of the "Dollar Sign" variety, named after the appearance of the repunched mintmark. In addition, the top of a misplaced date digit lurks within the dentils beneath the 7 in the date. This lovely piece displays lustrous surfaces with areas of light toning, including shades of gold, faint sage-green, denim-blue, and lavender. A long wispy die crack appears along the outer edge of much of the reverse. NGC ID# 23R7, PCGS# 5298

- 4590 1875-S MS63 PCGS. CAC.** A Select Mint State representative of the most accessible "double dime" type issue. The toning is generally light blue-to-gray with deeper elements and green-gold accents at parts of the margins. NGC ID# 23R7, PCGS# 5298

- 4591 1875-S MS64 PCGS. CAC.** This attractive Choice specimen exhibits generally well-detailed design elements with just a touch of softness on the stars and eagle's leg. The well-preserved surfaces display satiny mint luster under blue, gray, and golden-brown patina. NGC ID# 23R7, PCGS# 5298

1875-S Twenty Cent Piece, MS65
Popular Type Issue

- 4592 1875-S MS65 PCGS.** Satiny mint luster combines with gold, lavender-gray, and amber toning on the lightly marked surfaces of this impressive Gem twenty cent piece. The design elements are well-struck, with a touch of the typical softness on both sides. The 1875-S claims the highest mintage of the series and is the favorite choice of type collectors. NGC ID# 23R7, PCGS# 5298

EARLY QUARTERS

1804 B-1 Quarter, Good 4 Original Gray Patina

- 4593** 1804 Good 4 PCGS. B-1, R.3. The die flaw between stars 8 and 9 that identifies this variety is faded but remains visible on this well worn example. Both sides have pewter and dark gray patina with completely outlined devices and mostly complete peripheral elements.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23RB, PCGS# 5312

1805 Quarter, B-3, XF40 Obverse Late Die State, Appealing Example

- 4594** 1805 XF40 PCGS. B-3, R.1. Tompkins Obverse Die State 5. Die cracks run on the obverse diagonally from below the 1 in the date through stars 1 and 2, and vertically from the rim upward through the 5 to the lower bust. Clash marks appear on the reverse from below ES to O(F). This dark gray example shows faint underlying pinkish-gray surfaces with lots of eye appeal. A pair of digs below TE in UNITED are the only singular marks. NGC ID# 23RC, PCGS# 5313

- 4595** 1806 — Improperly Cleaned — NCS Genuine. B-9, R.1. This piece has the details of a Fine specimen, with light silver centers and peripheral green and iridescent toning. This late die state has a bisecting obverse die crack, and lapped dies that diminish the lowest two hair curls.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23RD, PCGS# 5314

- 4596** 1807 — Cleaned — ANACS. XF40 Details. B-1, R.2. Mostly cream-gray with charcoal toning in protected areas. Hairlined from cleaning but nicely defined. No abrasions are readily evident. 1807 was the final date of the Draped Bust type.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23RF, PCGS# 5316

BUST QUARTERS

1818/5 B-1 Quarter, AU58 Substantial Luster

- 4597** 1818/5 AU58 NGC. CAC. B-1, R.2. The flag of the underdigit 5 is clear within the second 8. Chestnut-gold and powder-blue toning adorns this lightly abraded Borderline Uncirculated Bust quarter. A band of luster illuminates the borders, and the curls, eagle, and scroll are also lustrous. The open fields, claws, and portrait high points display a hint of wear. NGC ID# 23RH, PCGS# 5323

1818/5 B-1 Quarter, MS62 Moderately Prooflike

- 4598** 1818/5 MS62 NGC. B-1, R.2. Autumn-gold and jade-green shades emerge when this patinated Bust quarter is rotated beneath a light. The fields are flashy beneath the rich patination. Boldly struck save for minor merging on the high points of the curls and claws. B-1 is the traditional 1818/5 variety, though early die states of B-3 (which shares the same obverse die) also have traces of the crossbar of the 5. NGC ID# 23RH, PCGS# 5323

- 4599** 1818 XF40 PCGS. B-10, R.3. Deep gunmetal-gray toning blankets this nicely defined and minimally marked example. Glimmers of luster appear when the coin is rotated. Struck from clashed dies. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23RH, PCGS# 5322*

- 4600** 1822 XF40 PCGS. B-1, R.2. A lilac-gray Bust quarter with moderate wear and few visible marks. One of only two marriages, and the rare blundered denomination B-2 is separately collected. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23RN, PCGS# 5332*

- 4601** 1825/4 VF35 ANACS. B-2, R.2. Specialists disagree on the underdigits for the 1825-dated quarters, but B-1 is the very scarce 1825/2 *Guide Book* listing, while B-2 and B-3 share the more available 1825/4 entry. An unmarked and moderately circulated quarter. The powder-blue, sun-gold, and rose-red toning is more prominent on the reverse. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23RU, PCGS# 5336*

- 4602** 1828 XF40 PCGS. CAC. B-1, R.1. A striking example with delicate gray-gold at the centers within a frame of ebony and deep iridescent toning. This is a pleasing type candidate. NGC ID# 23RV, PCGS# 5342

4603 1832 AU58 PCGS. B-2, R.2. Ex: Walser. The Small Arrowheads variety, slightly scarcer than its Large Arrowheads counterpart. A crisply struck near-Mint representative with only a wisp of golden patina. No marks are remotely consequential.
Ex: William Walser Collection (*Bowers and Merena*, 7/2002), lot 200. NGC ID# 23RX, PCGS# 5351

4604 1834 AU58 PCGS. CAC. B-4, R.1. Medium dove-gray and golden-brown toning encompasses the unmarked and momentarily circulated surfaces. A pleasing near-Mint representative. The reverse displays several spindly die cracks. NGC ID# 23RZ, PCGS# 5353

4605 1838 AU55 ANACS. B-1, R.1. Golden-brown and plum-mauve toning adorns the borders of this lightly circulated and nicely struck Choice AU quarter. No marks are noticeable and luster fills protected areas. NGC ID# 23S5, PCGS# 5357

SEATED QUARTERS

4606 1840-O No Drapery — Cleaning — PCGS Genuine. Unc. Details. Large O. The date is lightly repunched. Dusky autumn-brown and dove-gray toning embraces this nicely struck early New Orleans quarter. No hairlines are readily evident. NGC ID# 23SG, PCGS# 5393

4607 1841-O MS62 PCGS. CAC. A pleasing Mint State piece, this New Orleans quarter dollar is deeply toned in original gray-brown with delightful orange and blue overtones. The lower left part of the eagle is indistinct, and the surfaces are lightly marked, likely explaining the moderate grade assigned to this piece. Population: 19 in 62, 13 finer (11/13). NGC ID# 23SL, PCGS# 5400

4608 1842-O Small Date — Improperly Cleaned — NCS Genuine. The Small Date O-Mint quarter dollar is an important rarity in the series. This lovely light to medium silver-gray example has VF details and is highly attractive despite its minor hairlines.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23SN, PCGS# 5403

4609 1843-O Large O Fine 15 PCGS. CAC. FS-501. A rare variety with a Large O mintmark likely intended instead for half dollar dies. Most '43-O quarters have a Small O. This piece has original stone-gray surfaces with traces of dark debris in protected regions. PCGS# 395927

1843-O FS-501 Quarter, VF35 Large O Mintmark

4610 1843-O Large O VF35 PCGS. FS-501. The Large O mintmark is nearly the same size as the other letters in the legend and denomination on the reverse of this scarce and popular issue. This moderately circulated example has speckled golden-brown and steel toning. PCGS has certified five examples of the date in VF35, and 37 finer for the date. Population: 1 in 35, 3 finer (11/13) for the variety. PCGS# 395927

4611 1846 MS63 PCGS. Deep walnut-brown, lavender, and steel-blue toning embraces this intricately struck Select No Motto quarter. A small strike-through on the field beneath OF but marks are inconsequential. Housed in an old green label holder. Population: 9 in 63, 6 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23SW, PCGS# 5409

4612 1850 AU58 PCGS. Lavenders and blues are mainly at the margins, while the interiors have a more golden or apricot hue. Just a touch of rub is noted on the high points. Population: 3 in 58, 14 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23T4, PCGS# 5415

4613 1851-O — Repaired, Cleaned — ANACS. AU50 Details. It appears that this light silver quarter, with delicate peripheral gold toning, has been repaired at 10:30 on the obverse and at 7:30 on the reverse, having likely been holed and plugged at that location.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.

1852 Seated Quarter, MS64 Elusive Condition Rarity

4614 1852 MS64 PCGS. CAC. Struck prior to the 1853 weight reduction that promoted circulation of silver coins, this piece is a rare survivor from the 177,000 coin mintage. The lustrous surfaces of this Choice Mint State quarter are hidden beneath dappled gold and iridescent toning. Population: 13 in 64 (1 in 64+), 6 finer (11/13). NGC ID# 23T8, PCGS# 5419

4615 1852-O — Improperly Cleaned — NCS Genuine. A much better New Orleans issue that has a low mintage of 96,000 pieces. The present representative has AU detail but the upper obverse is granular and the fields are cloudy from cleaning. Retoned cream-gray and golden-brown.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23T9, PCGS# 5420

4616 1853 Arrows and Rays MS63 NGC. Lightly toned from pale gray to soft antique-gold. This Select example is a worthwhile Mint State representative of its one-year Arrows and Rays type.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23U4, PCGS# 5426

1854-O Huge O Quarter, VF20 Hand-Engraved Mintmark

4617 1854-O Huge O VF20 PCGS. CAC. Briggs 1-A, FS-501. The large, broad, and high relief mintmark was apparently entered by hand on a single working reverse die at New Orleans, after it was shipped sans mintmark from Philadelphia. Examples are rare in all grades, and none are certified as Mint State. The present problem-free VF representative has deep forest-green, autumn-brown, and dove-gray toning. NGC ID# 23U7, PCGS# 5434

4618 1856-O MS61 NGC. From a mintage of 968,000 pieces, the 1856-O Seated Liberty quarter is rare in Mint State grades. This well-detailed and lustrous MS61 example shows hints of pale green and cerulean-blue toning. Census: 6 in 61, 12 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23TC, PCGS# 5439

4619 1857 MS64 PCGS. Lightly toned overall, though protected areas display aqua and rose tints. Only unimportant field marks limit the grade. The strike is good, though the fletchings and upper stars show incompleteness. Encapsulated in a first generation holder.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23TE, PCGS# 5442

4620 1857-O MS61 NGC. Despite a substantial mintage of more than 1.1 million pieces, the 1857-O Seated Liberty quarter is quite rare in all Mint State grades today. This attractive MS61 specimen is lustrous and well-detailed with hints of pale gold and pink toning. Census: 9 in 61, 11 finer (11/13). NGC ID# 23TF, PCGS# 5443

4621 1857-S XF40 NGC. Both sides present a stark contrast between the deep blue-violet of the recessed areas and the worn gold-gray high points. Dramatically appealing and from a mintage of just 82,000 business strikes. Census: 2 in 40, 32 finer (11/13). NGC ID# 23TG, PCGS# 5444

1858 Seated Liberty Quarter, MS65 Lustrous and Appealing

4622 1858 MS65 PCGS. CAC. A lovely Gem, this piece displays strong definition overall, though revealing softness on the three rightmost stars. Gold and peach tones appear at the margins, while the silvery interiors occasionally take on a blue cast. Quality luster swirls through the fields and flashes at just the right angle to the light. A great example of this often-overlooked pre-Civil War issue. Population: 34 in 65, 12 finer (11/13). NGC ID# 23TH, PCGS# 5445

4623 1862-S — Improperly Cleaned — NCS Genuine. From a mintage of just 67,000 pieces, the 1862-S is scarce in all grades. This example has AU sharpness and substantial luster but relatively minor hairlines led to an NCS certification. Swaths of tan toning are present.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23TW, PCGS# 5457

4624 1864 MS62 PCGS. CAC. A well-detailed MS62 example from the height of the Civil War era, this coin shows lightly marked surfaces and prooflike fields under shade of bluish-gray and champagne-gold toning. Population: 8 in 62, 41 finer (11/13). NGC ID# 23TY, PCGS# 5459

4625 1864-S — Improperly Cleaned — NCS Genuine. The holder does not provide a details grade, but our opinion is XF. The 1864-S quarter is a rare Civil War issue that had a mintage of 20,000 coins and a low survival rate. Although showing signs of cleaning, this example has pleasing surfaces with pale golden-gray and steel toning.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23TZ, PCGS# 5460

4626 1867 — Improperly Cleaned — NCS Genuine. This important Seated quarter has Unc. details with polished surfaces beneath later gold, blue, and iridescent toning. Sharply detailed and still attractive.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23UD, PCGS# 5470

1872 Quarter Dollar, MS64 Rare in Mint State

4627 1872 MS64 PCGS. CAC. The 1872 Seated Liberty quarter boasts a low mintage of 182,000 circulation strikes and is difficult to locate in all grades, due in part to many probably having been melted in the 1873 silver melt. This near-Gem example displays toning on both sides, in intermingled shades of teal, orange, copper, gold, and peach. The strike is sharp and the scattered marks are consistent with the grade. Population: 12 in 64, 2 finer (11/13). NGC ID# 23UR, PCGS# 5481

4628 1875-CC — Cleaned — ANACS. MS60 Details. Type Two Reverse. Cleaned long ago, this scarce Seated quarter has nicely retoned over the years, and now exhibits ivory, pale blue, and lilac surfaces with good overall eye appeal.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23UY, PCGS# 5499

1876 Quarter, MS66 Rich Orange-Red Toning

4629 1876 MS66 PCGS. CAC. Type Two Reverse. Orange-red and stone-gray toning enrich this crisply struck and lustrous representative. The fields display only trivial marks. The 1876 was the highest mintage issue of the series but high grade Seated type coins are always in demand. Population: 25 in 66 (2 in 66+), 7 finer (11/13). NGC ID# 23V2, PCGS# 5501

4630 1876-CC MS64 NGC. CAC. Both dies are lightly cracked and the obverse shows considerable die erosion on this Choice Mint State specimen. The frosty luster shines through dusky gold and iridescent toning. A splendid example. Census: 51 in 64 (1 in 64 ★), 29 finer (11/13). NGC ID# 23V3, PCGS# 5502

**1876-CC Quarter, MS65
Centennial-Year Carson City Issue**

- 4631 1876-CC MS65 NGC.** The 1876-CC quarter was a high-mintage issue, approaching 5 million coins, so fortunately a few nice Gems and finer are available today. This MS65 NGC example is silver-white in the centers with light copper toning at the extreme rims, well-struck and a great-looking coin overall. Census: 16 in 65 (1 in 65 ★), 13 finer (10/13). NGC ID# 23V3, PCGS# 5502

**1877 Quarter, Brilliant MS67
Superb Mint Luster**

- 4632 1877 MS67 NGC.** Type Two Reverse. Production of quarter dollars at all of the mints peaked in 1876 and 1877. Almost 11 million pieces were struck of the 1877-P. This issue is also known for its exceptional luster and high quality, the combination of which makes it a perfect coin for type purposes. As expected, this piece has outstanding mint luster, distinctly frosted in nature, and it is fully brilliant throughout. Just a few minor ticks are noted in the right obverse field. Census: 31 in 67 (5 in 67 ★), 8 finer (10/13).
Ex: Palm Beach Signature (Heritage, 11/2004), lot 6506; FUN Signature (Heritage, 1/2008), lot 1131. NGC ID# 23V5, PCGS# 5504

- 4633 1877-CC MS63 NGC. Briggs 2-C, FS-301.** Large CC. The 77 in the date is repunched south, and the mintmark is widely spaced. Lustrous and well preserved with dusky rose-red, apricot-gold, and stone-gray toning. Encased in a prior generation holder.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23V6, PCGS# 5505

- 4634 1877-CC MS65 PCGS.** Small CC, scarcer than its Large CC counterpart. Sea-green, peach-gold, and pearl-gray endow this lustrous and well struck Carson City Gem. The right obverse field has a few faint hairlines. NGC ID# 23V6, PCGS# 5505

- 4635 1877-S MS65 NGC.** Delicate gold toning appears on both sides of this sharply detailed satiny Gem. The surfaces exhibit brilliant mint luster. Census: 34 in 65, 13 finer (11/13). NGC ID# 23V7, PCGS# 5506

- 4636 1877-S Over Horizontal S MS62 PCGS. FS-501.** The remnants of the undertype horizontal S are plainly visible beneath the primary mintmark, identifying one of the most popular varieties in the series. This well-detailed and lightly marked MS62 example displays shades of champagne-gold and lavender toning. Population: 10 in 62, 26 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23V7, PCGS# 5507

- 4637 1878-CC MS62 PCGS.** A broadly luminous example of this popular Carson City type issue, toned silver-blue and green-gold overall with occasional hints of iridescence. Well-defined with surprisingly few abrasions of any significance. NGC ID# 23V9, PCGS# 5509

- 4638 1891 MS65 PCGS.** Attractive shades of golden-brown, lavender-gray, and amber toning blanket the surfaces of this well-detailed Gem. An interesting die crack joins all the stars on the right. Population: 62 in 65, 29 finer (11/13). NGC ID# 23VR, PCGS# 5524

**1891 Seated Liberty Quarter, MS67
Only One Numerically Finer**

- 4639 1891 MS67 NGC.** Lustrous surfaces and rich toning in a variety of colorful shades provide this Superb Gem with an exceptional degree of visual appeal. Among the colors present are teal, copper, frosty light yellow, and plum. The design elements display sharp detail and the reverse reveals clash marks from the shield above the eagle's right wing. NGC and PCGS have graded a combined total of 15 examples at the MS67 level, with the sole higher numeric grade having been assigned by NGC (11/13). NGC ID# 23VR, PCGS# 5524

PROOF SEATED QUARTERS

- 4640 1869 PR64 PCGS.** Blue-to-green outer toning yields to gold-orange on the interiors with an added silver core on the reverse. Light hairlines account for the grade but have surprisingly little influence on the overall eye appeal. Population: 42 in 64, 12 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23X2, PCGS# 5568

- 4641 1870 PR64 PCGS.** Deep green-gold, blue, and violet toning is livelier on the obverse where luster peaks through. A solidly appealing coin that displays well. Population: 34 in 64, 13 finer (11/13). NGC ID# 23X3, PCGS# 5569

- 4642 1873 No Arrows PR64 NGC.** Delicately green-tinged at the rims with a quick shift to blue-violet on the glimmering interiors. Well-defined and attractive for the grade. Census: 51 in 64, 36 finer (11/13). NGC ID# 23X6, PCGS# 5572

- 4643 1874 Arrows PR63 NGC.** Faint golden tinges are strongest at the rims on this Select proof Arrows quarter. Grandly gleaming fields offer a mild contrast with the devices. NGC ID# 23XS, PCGS# 5575

- 4644 1877 PR64 NGC.** Green-gold and lavender-blue hues are most prominent on this near-Gem proof. Well-defined on the devices, though the field reflectivity is a touch watery. Census: 38 in 64, 29 finer (11/13). NGC ID# 23X9, PCGS# 5578
- 4645 1880 PR64 PCGS.** Type Two Reverse. This near-Gem proof quarter is layered in dense coloration across both sides, with amber, purple-rose, and electric-blue shades on the obverse and deeper plum and cobalt-blue iridescence on the reverse. Well struck with a few wispy marks on the obverse that limit the grade. NGC ID# 23XC, PCGS# 5581
- 4646 1881 PR64 NGC.** Golden overtones are strongest at the margins on this near-Gem specimen. Mirrors are near-silver and have clear contrast with the significantly frosted devices. NGC ID# 23XD, PCGS# 5582

1882 Quarter, PR66
Attractive Deep, Multicolored Toning

- 4647 1882 PR66 PCGS. CAC.** The proof mintage for 1882 proof Seated Liberty quarters was a fairly generous 1,100 pieces, but few examples have survived in Premium Gem condition. This impressive piece exhibits sharply detailed design elements and deeply mirrored fields under attractive shades of cerulean-blue and champagne-gold patina. Population: 19 in 66 (1 in 66+), 9 finer (11/13). NGC ID# 23XE, PCGS# 5583
- 4648 1885 PR65 PCGS.** This is a borderline Cameo Gem with brilliant silver surfaces and deeply mirrored fields, showing boldly defined satin design motifs on each side. Probably a candidate for resubmission to try for a Cameo designation. Population: 26 in 65, 21 finer (11/13). NGC ID# 23XH, PCGS# 5586

1885 Seated Quarter, PR67
Gorgeous Eye Appeal

- 4649 1885 PR67 NGC.** An exceptional piece, this Superb Gem exhibits lustrous surfaces and splendid toning in shades of golden-orange, red-pink, teal, and pale green. Though not designated as such, this piece displays pronounced contrast between the fields and devices, with the reverse fields exhibiting flashy mirrors. The piece is well defined overall, save for some minor softness on a few of the stars. A thin vertical hair thin mark in the right obverse field poses minimal distraction, if any. NGC and PCGS combined have awarded PR67 grades to 15 examples, with only 7 finer (11/13). NGC ID# 23XH, PCGS# 5586

- 4650 1890 PR63 NGC.** Though not labeled as Cameo, this coin has clear field-to-device contrast thanks to ample frost on Liberty and the eagle. Green-gold rim toning on the obverse switches to bands of blue and yellow on the peripheral reverse. NGC ID# 23XN, PCGS# 5591

BARBER QUARTERS

- 4651 1896-O AU58 PCGS. CAC.** Only a hint of wear affects the surfaces of this minimally toned O-mint Barber quarter. Well-defined overall with only isolated softness on the claw holding the arrows. Population: 12 in 58, 37 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23Y8, PCGS# 5614
- 4652 1898-S AU58 PCGS.** Peripheral gold, amber, and violet glints grace each side of this shining S-mint Barber quarter. Both sides show minimal marks for the grade assigned. Population: 9 in 58, 31 finer (11/13). NGC ID# 23YF, PCGS# 5621
- 4653 1900 MS65 NGC.** Type One Obverse. Type Two Reverse. Medium to deep plum-red, jade-green, and slate-gray toning embraces this crisply struck and lustrous Gem. The reverse is practically pristine, as is the obverse field, and the portrait shows only trivial contact. NGC ID# 23YK, PCGS# 5625
- 4654 1900 MS66 PCGS.** Apricot toning graces much of the obverse, while the reverse's swirling luster remains resolutely silver. An uncommonly high-end survivor from an issue of just over 10 million pieces. Population: 13 in 66 (2 in 66+), 3 finer (11/13). NGC ID# 23YK, PCGS# 5625
- 4655 1900 MS66 PCGS. CAC.** Type Two Obverse. Type Three Reverse. Despite a generous mintage of more than 10,000,000 pieces, the 1900 is rare in the MS66 grade. This well struck and splendidly preserved example displays medium olive-green and ice-blue toning. Population: 13 in 66 (2 in 66+), 3 finer (10/13). NGC ID# 23YK, PCGS# 5625
- 4656 1901-S Fair 2 NGC.** An extensively worn but identifiable example of the most challenging key in the Barber quarter series. Lightly toned gold and blue with the rim intact only at the top of the obverse, though the date and mintmark remain legible.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23YR, PCGS# 5630
- 4657 1905-S MS64+ PCGS. CAC.** Light autumn-gold toning adorns the peripheries of this lustrous and fully struck Choice quarter. The fields are pristine and the portrait has only small grazes that are inconsequential to the eye appeal. Population: 30 in 64+, 15 finer (11/13). NGC ID# 23Z4, PCGS# 5641
- 4658 1906 MS65 NGC.** This spectacular Barber quarter exhibits well-detailed design elements and vibrant mint luster under attractive shades of greenish-gold toning. Census: 30 in 65, 7 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23Z5, PCGS# 5642

**1908-S Quarter, MS65
Colorful Obverse**

- 4659 1908-S MS65 NGC.** The obverse is deeply toned with sapphire outer bands and rich sunset-to-silver interior hues. On the reverse, color appears only at the extreme rims, leaving most of the reverse near-brilliant. Only a hint of striking softness affects the eagle's talons. Census: 12 in 65, 9 finer (10/13). NGC ID# 23ZF, PCGS# 5652

**1909-D Barber Quarter, MS66
Attractively Toned**

- 4660 1909-D MS66 PCGS. CAC.** Ex: The Joseph C. Thomas Collection. The 1909-D quarter, with a mintage of more than 5 million pieces, is a relatively common date through the lower levels of Mint State, but seldom seen at the Premium Gem level. Medium intensity bluish-gray, lavender, and gold toning rests on radiantly lustrous surfaces, and a well-executed strike is seen over the devices on each side. A few minuscule marks may have prevented an even higher grade for this extremely attractive type coin. Population: 17 in 66 (1 in 66+), 3 finer (11/13).
Ex: ANA Milwaukee Signature (Heritage, 8/2007), lot 715; Central States Cincinnati Signature (Heritage, 4/2009), lot 484. NGC ID# 23ZH, PCGS# 5654

- 4661 1909-O — Improperly Cleaned — NCS. Unc. Details.** A fully struck final year New Orleans quarter that has caramel-gold toning and booming luster. Careful rotation reveals parallel hairlines.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23ZJ, PCGS# 5655

- 4662 1912 MS65 PCGS.** A lovely piece that displays swirling luster beneath violet-gray patina on the obverse and olive-gold toning at the reverse periphery. Well struck and clean, as required of the grade, and an excellent type set candidate. PCGS has certified only 21 numerically finer examples (11/13).
Ex: Central States Signature (Heritage, 4/2007), lot 515.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23ZS, PCGS# 5662

- 4663 1914 MS65 PCGS.** This frosty Gem has a bold strike and brilliant silver luster with splashes of reddish-gold and deep steel toning at the borders. This issue is rarely found at this or any finer grade level. Population: 66 in 65 (1 in 65+), 22 finer (11/13). NGC ID# 23ZX, PCGS# 5667

- 4664 1915-D MS65 PCGS.** An attractive example struck in the tenth year of operation for the Denver Mint. Reddish-tan patina covers the left obverse and parts of the reverse, while the remainder of the coin is silver-gray. Strongly lustrous with above-average detail overall.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2423, PCGS# 5671

- 4665 1915-D MS65 PCGS.** This delightful Gem exhibits well-detailed design elements and vibrant mint luster under vivid shades of emerald-green and lavender-gray toning. Eye appeal is exceptional.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2423, PCGS# 5671

- 4666 1916-D MS65 PCGS. CAC.** Lightly mottled champagne toning appears on both sides of this Gem, with hints of silver, pale blue, and lavender also present. A small tick appears near 10 o'clock on the obverse rim. The 1916-D is especially popular with mintmark type collectors, as the last issue of the design. NGC ID# 2426, PCGS# 5674

- 4667 1916-D MS65 PCGS. CAC.** Decently detailed with light blue-to-green overtones embracing each side. An all-around attractive Gem example of this final Denver Barber quarter issue.
Ex: Dallas Signature (Heritage, 11/2005), lot 1339; FUN Signature (Heritage, 1/2009), lot 2580. NGC ID# 2426, PCGS# 5674

PROOF BARBER QUARTERS

- 4668 1894 PR65 Cameo PCGS.** Gold, cerulean-blue, copper, plum, and sea-green are among the colors present on the obverse of this attractively toned Gem. Smaller areas of toning appear on the reverse. This well struck example displays a pleasing degree of cameo contrast. PCGS# 85680

- 4669 1895 PR64 NGC.** Deep gold-to-orange toning covers most of each side, while lighter silver-to-green shadings appear along parts of the margins. Crisply detailed and attractive despite light hairlines.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 242A, PCGS# 5681

- 4670 1897 PR65 PCGS.** Deeply toned in streaks of green-to-gold and pale gray. Flashes of reflective luster in the fields point to what once must have been strong contrast. Population: 27 in 65, 37 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 242C, PCGS# 5683

- 4671 1897 PR64 Cameo NGC.** Light chestnut toning visits this nicely mirrored and fully struck Choice proof. Cameo contrast is especially prominent on the obverse. The borders display a few tan-brown freckles.
Ex: Austin Collection (Bowers and Ruddy, 5/1974), lot 596, which realized \$255.
From The Ole Miner's Collection. PCGS# 85683

**1900 Barber Quarter, PR67
Rich Iridescent Toning**

- 4672 1900 PR67 NGC.** A splendid Superb Gem proof with exceptional eye appeal, this turn-of-the-century quarter dollar has fully mirrored fields around its lustrous devices, all beneath a splendid display of blue, sea-green, gold, rose, and violet toning. Census: 19 in 67 (3 in 67 ★), 9 finer (11/13). NGC ID# 242F, PCGS# 5686

- 4673 1901 PR65 NGC.** Both sides show rich reddish-orange, gold-green, and blue patina, while the central obverse adds a fade to pale silver. Reflectivity through the toning hints at past contrast. Census: 42 in 65 (1 in 65+), 64 finer (11/13).
Ex: Long Beach Signature (Heritage, 10/2001), lot 6378; FUN Signature (Heritage, 1/2004), lot 6136.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 242G, PCGS# 5687

- 4674 1902 PR66 NGC.** Deeply toned blue-violet and emerald on the obverse. A touch of gold on the cap points to the lighter tones to be found on the reverse interior. Great eye appeal for this issue with a "lucky" mintage of 777 pieces. Census: 38 in 66 (1 in 66+★), 20 finer (11/13). NGC ID# 242H, PCGS# 5688
- 4675 1905 PR66 NGC.** Considerable silver brilliance remains with delicate gold toning over much of the obverse and reverse. This lovely piece has noticeable contrast, although insufficient for a Cameo designation. Census: 37 in 66 (1 in 66+), 30 finer (11/13). NGC ID# 242L, PCGS# 5691
- 4676 1906 PR66 PCGS.** Dappled yellow, green, blue, and violet toning over the obverse with more defined fields of the same hues on the reverse. The fields remain amply reflective beneath the patina. Population: 35 in 66 (1 in 66+), 21 finer (11/13). NGC ID# 242M, PCGS# 5692
- 4677 1907 PR64 PCGS.** From a tiny mintage of just 575 pieces, this impressive proof Barber quarter displays a mottled pattern of blue, gray, and gold toning over deeply mirrored fields and well-detailed devices. Population: 54 in 64, 44 finer (11/13). NGC ID# 242N, PCGS# 5693
- 4678 1908 PR66 NGC.** A clean and clear Premium Gem proof with minimal toning. The reverse, if taken on its own, probably would merit a Cameo designation from NGC. Census: 28 in 66, 30 finer (11/13). NGC ID# 242P, PCGS# 5694
- 4679 1913 PR65 PCGS.** From a small proof mintage of 613 pieces, this sharply detailed Gem displays reflective surfaces under rich shades of cobalt-blue, champagne-gold, and lavender-gray patina. Population: 30 in 65, 40 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 242V, PCGS# 5699

EARLY HALF DOLLARS

1794 O-105 Half Dollar VG Sharpness

- 4680 1794 — Obverse Scratched — NGC Details. VG. O-105, R.5.** A moderately granular introductory year half dollar with four intersecting and relatively short scratches near Liberty's jaw. The legends and stars are all clear though the eagle is well worn. Liberty's curls show some inner detail. Deeply toned walnut-brown and steel-gray.
- 4681 1795 2 Leaves VG10 PCGS. O-106, R.6.** The prominent biplanar crack near the eagle's neck attributes this rare Flowing Hair marriage. Smooth aside from light obverse adjustment marks (as coined) on the obverse above the ear and near 3 o'clock. The walnut-brown and dove-gray surfaces are moderately glossy. PCGS# 6052
- 4682 1795 2 Leaves — Obverse Graffiti — NGC Details. VF. O-107a, R.5.** Cursive initials, perhaps the letters JB, are pinscratched on the right field near the profile. The initials are apparent only when viewed beneath a lens. Generally slate-gray with tan and powder-blue undertones. The heavy bisecting reverse crack between 2 and 8 o'clock is characteristic of O-107a. PCGS# 6052
- 4683 1795 Small Head — Tooled — PCGS Genuine. VG Details. O-128, High R.5.** A scarce variety, and this piece has pleasing pewter-gray surfaces with wisps of blue and gold overtones. Both sides show evidence of tooling, likely to remove other flaws. PCGS# 6054

- 4684 1802 — Devices Engraved — PCGS Genuine. XF Details. O-101, R.3.** The engraving is most apparent in the hair detail above the ear and at the back of the head, and on the lower wing feathers in the left facing wing. The surfaces have also been treated to resemble luster. All of that is unfortunate, for this would be a pleasing Fine to Very Fine example had it been left alone. However, the engraving was done by an accomplished hand, and this important piece will make a wonderful addition for the collector on a budget. NGC ID# 24EE, PCGS# 6065

1802 Half Dollar, XF Details O-101, Only Dies

- 4685 1802 — Whizzed — ANACS. XF40 Details. O-101, R.3.** Retoned silver-gray with hints of tan-brown. Whizzed throughout but well defined for this much better Draped Bust date. The lower obverse displays adjustment marks, as made. The only dies, since bullion depositors of the era preferred deliveries of the more convenient silver dollar denomination.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24EE, PCGS# 6065
- 4686 1803 Large 3, Small Reverse Stars XF40 ANACS. O-101, R.3.** The obverse is predominantly cream-white. The reverse field is ocean-blue. The reverse high points are lilac-gray. A richly detailed half dollar without any remotely relevant abrasions.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24EF, PCGS# 6066
- 4687 1803 Small 3, Large Reverse Stars VF35 ANACS. O-104, R.3.** The sole Small 3 die variety for the date. A gunmetal-gray half dollar with pearl-white high points. Smooth aside from a couple of hair-thin marks near obverse stars 10 to 13. NGC ID# 24EF, PCGS# 6067
- 4688 1805/4 VF25 PCGS. CAC. O-102, R.3.** Deep steel-gray and walnut-brown toning envelops this Draped Bust half. The curls behind the neck are well defined. Abrasions are inconsequential aside from minor field marks near the chin.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24EH, PCGS# 6070

BUST HALF DOLLARS

- 4689 1807 Large Stars, 50 Over 20 XF40 PCGS. O-112, R.1.** Dusky lavender-gray and tan deepen along the borders. This moderately abraded example shows expected wear on the eagle's neck and left (facing) wing.
Ex: Houston Signature (Heritage, 11/2007), lot 60594, which realized \$1,495. NGC ID# 24EN, PCGS# 6086
- 4690 1811/10 AU53 PCGS. CAC. O-101, R.1.** The location of the F in OF is one method of distinguishing O-101 from O-102, which share the same obverse die. Forest-green, stone-gray, and lilac-red toning encompasses this lightly worn and moderately abraded half dollar. Luster is prevalent throughout the peripheries. NGC ID# 24EV, PCGS# 6099
- 4691 1811 Small 8 AU58 PCGS. O-110, R.1.** An early die state without obverse cracks. A boldly struck and partly lustrous example that has minimal marks for the near-Mint level. Chestnut-gold toning encroaches upon silver-gray surfaces. A subtle spot is noted on the upper flenching. PCGS# 6097

- 4692 1812 Large 8 — Rotated Dies — MS61 ANACS. O-104, R.1.** A boldly struck cream-gray and caramel-gold representative. The only noticeable marks are near the left (facing) wing. The dies are rotated approximately 60 degrees clockwise, likely due to a loose hammer die.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24EW, PCGS# 6100
- 4693 1814 — Damaged — NGC Details. Unc. O-107, R.2.** This lustrous Bust half is splendidly toned sea-green and rose-gold. A few ticks are present but the “damaged” notation appears unfair to the present cataloger. Struck from clashed dies. The obverse die is misaligned toward 7:30 and the reverse die is misaligned toward 5:30, though only the dentils are affected. NGC ID# 24F3, PCGS# 6105
- 4694 1817/3 AU50 PCGS. O-101a, R.2.** The ascending die crack through the denomination indicates the later die state. Golden-brown and ruby-red toning adorns the borders but the fields and devices are slate-gray. Devoid of consequential contact.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24F7, PCGS# 6111

**1818/7 Half Dollar, AU58
Large 8, O-101**

- 4695 1818/7 Large 8 AU58 PCGS. O-101, R.1.** A gap in the dentils beneath the C in 50 C confirms this collectible overdate Overton marriage. The borders exhibit rich orange, ruby-red, lemon-gold, and jade-green patina. The centers display only light silver-gray toning. Void of remotely relevant marks, and luster brightens the borders and motifs. PCGS# 6115
- 4696 1819 AU58 NGC. O-107, R.3.** Chestnut-tan and steel-gray embrace this briefly circulated half dollar. Minimally abraded and attractive with bright luster across the peripheries and eagle.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24FB, PCGS# 6117
- 4697 1821 AU58 NGC. O-103, R.2.** The A and E in STATES are both defective, missing their right and left serifs, respectively, and that is sufficient to identify the variety. This near-Mint example has brilliant silver luster with slight wear on the high points. The reverse has attractive gold and iridescent peripheral toning. NGC ID# 24FF, PCGS# 6128
- 4698 1823 MS62 PCGS. O-103, R.2.** Die lines beneath the eagle's beak identify this collectible but conditionally rare Overton variety. Medium pumpkin-gold and gunmetal-gray toning blankets satiny and minimally abraded surfaces. Well struck except on the stars and claws. NGC ID# 24FJ, PCGS# 6131
- 4699 1824/4 AU55 PCGS. CAC. O-110, R.2.** Substantial luster beckons from this principally stone-gray Choice AU example. Light tan and charcoal toning is noted near the rims. Smooth aside from a hair-thin line at the base of the neck. Liberty's profile is strike doubled. PCGS# 6140
- 4700 1825 AU58 PCGS. O-114, R.1.** This pleasing Borderline Uncirculated half dollar has dusky chestnut-gray centers and deep gunmetal peripheries. Refreshingly unabraded, though we note a small spot above the olive branch. NGC ID# 24FL, PCGS# 6142
- 4701 1826 O-119, Low R.4, MS63 PCGS. CAC.** Shades of lavender-gray and golden-brown toning blanket the lightly marked lustrous surfaces of this attractive Select example, with well-detailed design elements and considerable eye appeal. PCGS# 39693

- 4702 1828 Square Base 2, Small 8, Large Letters AU58 PCGS. CAC. O-120, R.1.** The rose-gold and steel-gray centers are bounded by peripheral blue-green toning. This momentarily circulated half dollar has ample luster, a good strike, and only trivial contact. PCGS# 6151
- 4703 1831 MS63 PCGS. O-103, R.1.** The upright of the 5 in the denomination is recut on this variety, but the strike is weak at that location, diminishing the appearance of the recutting. This Select Mint State piece has golden-brown patina with delicate sea-green peripheral toning. NGC ID# 24FV, PCGS# 6159
- 4704 1832 Small Letters MS62 NGC. O-106, R.1.** Golden-brown, cherry-red, and navy-blue toning enrich the borders of this unmarked and evenly struck half dollar. A small hexagon-shaped granular area is noted on Liberty's neck.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24FW, PCGS# 6160
- 4705 1836 Lettered Edge MS61 NGC. O-122, R.2.** Steel-gray and almond-gold toning encompass this well struck and satiny final-year Overton half dollar. Refreshingly free from abrasions. O-122 is noted for a tine from the upper left serif of the E in STATES.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24G2, PCGS# 6169

REEDED EDGE HALF DOLLARS

- 4706 1836 Reeded Edge — Cleaned — ANACS. XF45 Details. GR-1, R.2.** The traditional mintage of 1,200 pieces is likely low, but the historic issue is nonetheless scarce. This slate-gray example has only moderate wear and lacks mentionable marks, but the surfaces are cloudy from hairlines.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.
- 4707 1839 AU58 NGC. CAC. GR-7, R.1.** Rich plum-mauve, tobacco-brown, and steel-blue toning embraces this partly lustrous Borderline Uncirculated final year Bust half. Sharply struck and minimally abraded. NGC ID# 24G6, PCGS# 6179
- 4708 1839-O VF30 NGC. GR-1, R.1.** A late die state with heavy die cracks on the reverse periphery. Toned aquamarine and lilac-gray. The cheek, curls, and cap display wear but the eagle has considerable feather detail. No marks are noticeable. NGC ID# 24G7, PCGS# 6181

SEATED HALF DOLLARS

- 4709 1842-O Small Date, Small Letters — Tooled, Cleaned — ANACS. XF45 Details. WB-101.** A rare New Orleans Guide Book variety. Cream-gray overall with golden-brown and navy-blue at the margins. The right obverse field is smoothed and tooled with myriad vertical pinscratches.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24GV, PCGS# 6238
- 4710 1842 Small Date, Large Letters AU58 PCGS.** A scarce Small Date, Large Letters example of this popular Seated Liberty half, with pleasing shades of bluish-gray toning and lightly worn strongly impressed design elements. Population: 6 in 58, 21 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. PCGS# 6240
- 4711 1844-O Doubled Date VG8 PCGS. WB-103, FS-301.** The date was originally punched much too high in the die, with a third of the logotype lost due to the device. The blundered date was only partially effaced before another date was correctly entered in the die. This well circulated example has brown-gray toning and problem-free surfaces. Some of the eagle's wing feathers are discernible, as is the TY in LIBERTY.
Ex: Long Beach Signature (Heritage, 2/2002), lot 5794. NGC ID# 24H2, PCGS# 6247

4712 1846 6 Over Horizontal 6 XF45 PCGS. WB-104, FS-301. One of the most dramatic Mint date mistakes and visible to the unaided eye. This faintly lustrous piece is largely gray-to-gold with violet accents near the rims, which show bumps at the bottom of the obverse. Population: 10 in 45, 22 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24H6, PCGS# 6254

4713 1846-O Medium Date MS61 NGC. Glossy surfaces reveal shades of copper-gold, green-blue, and small splashes of violet on the obverse. The reverse displays deep sky-blue, plum-red, and orange. The strike is sharp overall, with only minor areas of incompleteness present. A small rim tick appears on the obverse near 12 o'clock. Census: 9 in 61, 10 finer (10/13). NGC ID# 27SW, PCGS# 6255

4714 1846-O Tall Date VF30 PCGS. CAC. Overall even wear on both sides provides this piece with a pleasing appearance for the grade. The coin displays light gray color overall, but closer examination reveals several additional hues, including green, gold, and orange-peach. A small mark in the right obverse fields poses minimal distraction, if any. Population: 8 in 30, 25 finer (11/13). NGC ID# 24H9, PCGS# 6256

4715 1848-O MS62 NGC. Extensive die cracks appear on the reverse of this pleasing Mint State piece. Both sides have natural ivory surfaces with frosty mint luster and iridescent overtones. Census: 4 in 62, 13 finer (11/13). NGC ID# 24HD, PCGS# 6261

1850-O Seated Half, MS64 Scarce in This Condition

4716 1850-O MS64 PCGS. WB-101. This date kicks off a run of scarce-to-rare dates in the early 1850s for the Seated half series. Although not as rare as its 1851 and 1852 Philadelphia and New Orleans counterparts, the 1850-O is difficult to find in near-Gem condition. Many were melted because their intrinsic silver value was greater than their face value. Luckily, this nice half escaped the melting pot. Golden-taupe toning reveals ample underlying mint luster. Subtle areas of green-blue iridescence add interest and appeal. A first-generation holder verifies this coin was an early submission to PCGS, which today has only graded six finer (11/13). NGC ID# 24HH, PCGS# 6265

4717 1851 AU50 PCGS. This attractive AU specimen shows a touch of wear on the design elements and lightly abraded lustrous surfaces under shades of lavender-gray and champagne-gold toning. Population: 6 in 50, 56 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24HJ, PCGS# 6266

4718 1851-O AU58 NGC. Attractive shades of champagne-gold and cerulean-blue toning visit the lightly marked surfaces of this impressive Near-Mint specimen. Census: 6 in 58, 21 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24HK, PCGS# 6267

4719 1853 Arrows and Rays AU58 NGC. An impressive near-Mint example of this popular type issue, with lightly abraded surfaces that show accents of greenish-gold and lavender-gray toning.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24JJ, PCGS# 6275

4720 1854-O Arrows MS62 NGC. Golden obverse patina with a silvery reverse offset by some darkness surrounding the devices. A few distinct contact marks are notable across the surfaces, but overall are reasonably inconspicuous.

Ex: Long Beach Signature (Heritage, 1/2004), lot 5908.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24JM, PCGS# 6280

4721 1855-O Arrows MS62 PCGS. Attractive shades of turquoise and champagne-gold toning enliven the lustrous surfaces of this impressive MS62 example. The design elements are well-detailed and extensive die cracks are evident on both sides.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24JP, PCGS# 6283

1855-O Arrows Half, MS64 Ideal Mintmark Type Coin

4722 1855-O Arrows MS64 PCGS. In the second and final year of the 1854-55 Arrows half dollar coinage, the New Orleans produced 3,688,000 examples of the 1855-O Arrows half dollar. Despite the substantial mintage, relatively few examples appear in Mint State grades. This near-Gem example displays white, untuned surfaces. The strike is pleasing overall, with several of the stars revealing softness. PCGS has awarded higher numeric grades to only 26 examples (11/13). NGC ID# 24JP, PCGS# 6283

1855-S Arrows Half Dollar AU Details

4723 1855-S Arrows — Harshly Cleaned — NCS. AU Details. The introductory S-mint half dollar issue is much scarcer than its mintage suggests. The present half dollar has luster throughout the motifs but the fields are extensively tooled with pinscratches and the coin is glossy from cleaning.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24JR, PCGS# 6284

4724 1857-S — Cleaned — ANACS. AU50 Details. WB-103. Medium S. Two tines from repunched serifs of a 1 are west of the prominent 1 in the date. A well defined stone-white half dollar with an unmarked but subdued and hairlined appearance.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24HU, PCGS# 6292

4725 1861 MS64 PCGS. A pleasing Select example from the first year of the Civil War, this coin displays well-detailed design elements and bright mint luster under shades of gold and lavender-gray toning. Population: 72 in 64 (1 in 64+), 36 finer (11/13). NGC ID# 24J7, PCGS# 6302

4726 1861-O — Shipwreck Effect — NGC. WB-104, Wiley-15. Ex: *S.S. Republic*. The “Speared Olive Bud” reverse, associated with Confederate strikings of this early Civil War issue. This shipwreck-recovered half dollar has Uncirculated sharpness but is somewhat granular from long-term exposure to seawater. NGC ID# 24J8, PCGS# 6303

4727 1861-O CSA Obverse VF25 NGC. WB-102, W-11, FS-401. The vertical die crack above the nose confirms the obverse die is the same that struck the very rare Confederate half dollars. A cream-gray example without any consequential marks. PCGS# 39968

4728 1862 MS62 PCGS. This attractive MS62 specimen exhibits sharply detailed design elements and vibrant mint luster mixed with prooflike reflectivity in sheltered areas. Population: 13 in 62, 41 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24J9, PCGS# 6307

4729 1866-S No Motto VF30 NGC. Pleasing shades of lavender-gray toning visit the lightly abraded surfaces of this attractive mid-grade specimen from a low mintage of 60,000 pieces. Census: 8 in 30, 26 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24JH, PCGS# 6315

4730 1866-S No Motto VF30 PCGS. CAC. A natural gray-brown example, moderately worn, of the elusive 1866-S No Motto or “Old Reverse” transitional half dollar. This piece has lighter silver-gray on the reverse. Population: 15 in 30, 51 finer (11/13). NGC ID# 24JH, PCGS# 6315

1866 With Motto Half, MS64 Underlying Cameo Contrast

4731 1866 Motto MS64 PCGS. CAC. This sharply detailed Choice Mint State first-year With Motto Seated half dollar is a beautiful coin with prooflike surfaces beneath ivory and cobalt-blue toning. The devices are lustrous with underlying cameo contrast. Population: 14 in 64, 9 finer (11/13). NGC ID# 24JS, PCGS# 6319

4732 1870 MS63 NGC. This dusky delight has glimmers of luster under deep blue-violet and peach patina. The grade comes from wispy flaws rather than abrasions of any significance. Census: 7 in 63, 9 finer (11/13). NGC ID# 24JZ, PCGS# 6327

4733 1870 MS64 PCGS. Vibrant mint luster shines through vivid shades of lavender toning on this attractive Seated Liberty half dollar. The design elements are sharply detailed, aside from a touch of softness on IN in the motto. From a mintage of 633,900 pieces. Population: 6 in 64 (1 in 64+), 4 finer (11/13). NGC ID# 24JZ, PCGS# 6327

4734 1870-CC Good 6 PCGS. An important rarity, the 1870-CC half dollar had a mintage of 54,617 coins, and survivors are infrequently encountered. Although extensively worn, this example has pleasing surfaces that combine light gray and steel. NGC ID# 24K2, PCGS# 6328

4735 1875 MS64 PCGS. Ex: The Richard J. Chouinard Collection of United States Coins. Pleasing cartwheel luster along with attractive toning adds to the eye appeal of this near-Gem representative. The toning includes light silver-aqua, red, pink, green, and gold colors. Though not fully struck, this coin is refreshingly devoid of noticeable contact. Population: 36 in 64, 23 finer (10/13).
Ex: Smythe, 8/02; Long Beach Bullet Sale (Heritage, 2/2005), lot 1219. NGC ID# 24KD, PCGS# 6349

4736 1875 MS64 PCGS. Even steely luster with barely a hint of color. Though beset with a few small luster grazes, overall it is a very attractive specimen for the grade and worthy of a close consideration. Population: 36 in 64, 23 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24KD, PCGS# 6349

4737 1876 MS64 PCGS. Type One Reverse. Deep golden-brown and apple-green toning encompasses this satiny Choice silver type coin. Smooth except for a pinscratch near the arrowheads. The 6 in the date is lightly repunched. Population: 53 in 64, 22 finer (10/13). NGC ID# 24KG, PCGS# 6352

4738 1876 MS64 PCGS. A semireflective centennial-year half dollar with rich green-to-blue and lavender toning embracing each side. Good overall detail and eye appeal in spades. Population: 53 in 64, 22 finer (11/13). NGC ID# 24KG, PCGS# 6352

4739 1876-CC AU58 PCGS. WB-102. Medium CC. A Borderline Uncirculated Carson City type coin that has considerable luster and scattered inconsequential obverse field marks. Lightly toned overall with a bright obverse and faint honey patina on the reverse. NGC ID# 24KH, PCGS# 6353

1884 Half Dollar, MS63+ Brilliant and Prooflike

4740 1884 MS63+ PCGS. CAC. Both sides of this beautiful Seated half dollar are fully brilliant with silvery-white surfaces, and delicate golden toning wisps along the obverse and reverse border. The fields are fully prooflike with trivial, inconsequential handling marks. Population: 20 in 63 (1 in 63+), 76 finer (11/13). NGC ID# 24KX, PCGS# 6366

1884 Half Dollar, MS64 Popular Low-Mintage Date

4741 1884 MS64 PCGS. CAC. Only 4,400 business-strike Seated Liberty half dollars were struck in 1884 and some of the examples show deeply reflective prooflike fields, including the reverse of this near-Gem example. Although both sides exhibit areas of yellow-gold toning near portions of the rim, the toning is more pronounced on the obverse. The strike is pleasing, adding to the appeal. Population: 33 in 64 (1 in 64+), 43 finer (11/13). NGC ID# 24KX, PCGS# 6366

- 4742 1890 MS64 NGC.** A sharply detailed Choice example from a low mintage of just 12,000 pieces, this coin displays partially prooflike brilliant surfaces with only minor signs of contact. Census: 15 in 64, 26 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24L5, PCGS# 6372

PROOF SEATED HALF DOLLARS

1871 Seated Half, PR65 Undesignated Contrast

- 4743 1871 PR65 NGC. CAC.** An amazing Gem proof, this 1871 Seated Liberty half dollar has intense blue, turquoise, gold, and rose toning, with bold design elements and sensational eye appeal. Both sides are fully mirrored around lustrous devices, with excellent, undesignated Cameo contrast. NGC ID# 27U6, PCGS# 6429

1873 Arrows Half Dollar, PR65 Noticeable Field-Device Contrast

- 4744 1873 Arrows PR65 NGC.** Mostly brilliant silver surfaces show a hint of champagne toning with a crescent of blue and dusty lilac on each side. The fields are fully mirrored and serve as a nice frame for the lustrous devices. Although undesignated, this piece exhibits noticeable cameo contrast. Census: 16 in 65, 8 finer (11/13). NGC ID# 27UU, PCGS# 6434
- 4745 1878 PR61 Cameo PCGS.** Clearly contrasted with faintly golden interiors and plainer blue-violet border toning. Well-frosted on the devices but with a number of hairlines and contacts in the fields. PCGS# 86439

1879 Half Dollar, PR66 Popular Among Date Collectors

- 4746 1879 PR66 NGC.** Some field-motif contrast is apparent on this Premium Gem proof half dollar, especially on the reverse. Razor-sharp definition shows on the design elements, and faint traces of golden cling to the margins. The low mintage of circulation strikes (4,800 pieces) places a great deal of date pressure on the proofs. Census: 18 in 66, 10 finer (11/13). NGC ID# 27UE, PCGS# 6440
- 4747 1880 PR63 ANACS.** Deep blue-violet at the margins with a fade to reddish-gold on the interior. Lightly hairlined under the patina but charming nonetheless.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 27UF, PCGS# 6441
- 4748 1880 PR64 Cameo NGC.** Well struck with dark, deeply reflective fields and beautifully frosted devices. A slight degree of scattered cloudy patina in the fields, and a single small contact mark in the right obverse field, near Liberty's knee, prevent the Gem grade assessment. Census: 26 in 64 Cameo, 37 finer (11/13). PCGS# 86441

1882 Half Dollar, PR66 Cameo Impressively Low Total-Mintage Date

- 4749 1882 PR66 Cameo NGC.** The 1882, like most dates from the 1880s, is best known for its low production of both proofs and circulation strikes. In this particular year, only 1,100 proofs were struck in addition to the 5,500 business strikes. The cameo contrast is readily apparent on this sharply struck Premium Gem example. Gorgeous toning adds to the visual allure of this piece, with the shades including orange, copper, red, yellow-gold, plum, and bright cerulean-blue. Minor planchet striations appear in the left obverse field. Census: 18 in 66 Cameo (2 in 66 ★ Cameo), 6 finer (11/13). PCGS# 86443
- 4750 1883 PR64 PCGS.** Areas of reflectivity emerge beneath the medium gray patina on this well struck near-Gem, particularly on the reverse. That side also reveals additional toning, in shades of golden-yellow, lavender, teal, and subtle pink. Few abrasions are present, adding to the appeal. NGC ID# 27UJ, PCGS# 6444

- 4751 1884 PR63 ANACS.** Blue-rimmed with gray interiors that show accents of lavender and gold. Excellent detail and underlying reflectivity, though a long hairline is noted to the right of Liberty's form.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 27UK, PCGS# 6445

1885 Half Dollar, PR66
Remarkably Low Total Mintage

- 4752 1885 PR66 PCGS.** The 1885 half dollar saw only 930 proofs struck with an additional 5,200 business strikes, making this a perennially popular issue with collectors. Richly toned, this Premium Gem displays shades of deep golden-tan, blue-green, plum, purple, and cerulean-blue. The design elements display bold detail overall, with minor softness of some of the stars and the eagle's right claw. Population: 7 in 66 (1 in 66+), 3 finer (11/13). NGC ID# 27UL, PCGS# 6446
- 4753 1886 PR64 PCGS.** A brightly mirrored Choice specimen with sharply detailed design elements and vivid shades of cerulean-blue and champagne-gold toning. Population: 69 in 64, 38 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 27UM, PCGS# 6447
- 4754 1887 PR64 PCGS.** The light gray patina covering both sides of this near-Gem example reveals areas of toning in hues of golden-peach, green-blue, lavender, violet, and cobalt-blue. Aside from the eagle's right claw and a few of the stars, the definition is sharp. Population: 59 in 64, 33 finer (10/13). NGC ID# 27UN, PCGS# 6448
- 4755 1890 PR63 PCGS.** This well struck Select specimen has icy motifs and glassy fields. Undoubtedly it would command a Cameo designation if certified today, but its first generation holder predates the distinction for the Seated series. An attractive piece with light sun-gold and powder-blue peripheral toning. NGC ID# 27US, PCGS# 6451

BARBER HALF DOLLARS

- 4756 1892 MS63 PCGS.** The 1892 Barber half dollar is an important first-year type issue. This sharply detailed Select specimen displays vibrant mint luster and lightly marked surfaces with a few hints of golden-tan toning.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24LF, PCGS# 6461
- 4757 1892 MS64 PCGS.** Lightly frosted on the portrait with a beautiful silvery swirl enriching each side. This first-year Barber half dollar issue has a sub-million mintage. NGC ID# 24LF, PCGS# 6461
- 4758 1892-O AU58+ NGC. CAC.** A gorgeous near-Mint example, this first-year New Orleans Barber half dollar exhibits nearly full satin mint luster beneath lovely gold, blue, and iridescent toning, showing only a few inconsequential abrasions. NGC ID# 24LG, PCGS# 6462
- 4759 1892-O MS61 PCGS.** A well-detailed and brightly lustrous New Orleans Mint half dollar from the first year of the Barber design, this coin displays mostly brilliant lightly marked surfaces with a few traces of golden-tan toning.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24LG, PCGS# 6462

1892-O Half Dollar, MS64
Lowest New Orleans Mintage

- 4760 1892-O MS64 NGC. CAC.** The 1892-O is a key to the series in typical circulated grades, due to its early date and low mintage of only 390,000 coins, with few survivors at the near-Gem level or higher. Luster emanates from the surfaces of this toned near-Gem example. The intermingled toning includes shades of teal, copper, and gold. The design elements reveal a minor incompleteness of strike. Census: 26 in 64, 19 finer (11/13). NGC ID# 24LG, PCGS# 6462
- 4761 1892-S AU55 ANACS.** Blue, antique-gold, and violet overtones dot the margins of this first-year San Francisco Barber half. Broad luster remains in the swirling fields, though minor rub and marks affect the portrait.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24LJ, PCGS# 6464
- 4762 1893 MS64 PCGS.** Attractively toned silver-blue and antique-gold across much of each side with windows of pale silver. Great detail and eye appeal with only a few generally wispy marks. Population: 31 in 64 (2 in 64+), 29 finer (11/13). NGC ID# 24LK, PCGS# 6465
- 4763 1894 MS64+ PCGS. CAC.** Cream-gray toning dominates the obverse of this sharply struck, smooth, and coruscating near-Gem. The margins display dappled blue-green patina, and autumn-gold and gunmetal shades grace much of the reverse. Population: 27 in 64 (1 in 64+), 30 finer (11/13). NGC ID# 24LN, PCGS# 6468

1894 Half Dollar, MS65
Intense Luster and Sharply Struck

- 4764 1894 MS65 PCGS.** Both sides of this Gem half dollar are awash with blazing luster. The essentially untoned surfaces exhibit sharply struck design features, including the upper-right shield corner and the arrow feathers, areas that sometime show softness. The few minute marks present are within the parameters of the grade designation. The eye appeal is outstanding. Population: 16 in 65, 9 finer (11/13). NGC ID# 24LN, PCGS# 6468
- 4765 1894-S MS64 NGC.** Essentially untuned and satiny with a pair of wispy die cracks (as struck) near the reverse peripheries. A well struck and lustrous piece that has a couple of slight abrasions on Liberty's face and neck. Census: 28 in 64, 7 finer (11/13). NGC ID# 24LR, PCGS# 6470
- 4766 1894-S MS61 Prooflike NGC.** One of just two Prooflike examples certified by NGC (11/13), this example is amply reflective under fine blue and gold patina with small deeper variations. Generally well-defined with just a hint of softness on the arrows claw.

4767 1895-O MS62 PCGS. The 1895-O Barber half dollar is seldom encountered in Mint State grades. This attractive MS62 example is well-detailed and lustrous, with hints of sea-green toning and a few minor signs of contact. Population: 15 in 62, 46 finer (11/13). *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 24LT, PCGS# 6472

4768 1897 MS63 NGC. This attractive Barber half dollar displays vibrant mint luster and well-detailed design elements under shades of lavender, gray, and gold toning. Census: 29 in 63, 72 finer (11/13). NGC ID# 24LY, PCGS# 6477

4769 1898 MS64 PCGS. Sharply detailed design elements and vibrant satiny mint luster add to the outstanding eye appeal of this well-preserved Choice example. Population: 48 in 64 (1 in 64+), 25 finer (11/13). *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 24M3, PCGS# 6480

4770 1899 MS63 NGC. The obverse of this delightful Select Mint State Barber half dollar has frosty silver luster with peripheral steel-blue toning. The reverse has faint champagne toning with splashes of steel near the border. Census: 31 in 63 (1 in 63+), 63 finer (11/13). NGC ID# 24M6, PCGS# 6483

4771 1900 MS63 PCGS. Rich luster and virtually untuned surfaces provide this Select example with lovely visual appeal. A few subtle hints of faint gold color are present. The surfaces reveal very few abrasions along with an as-mint lint mark in the shape of a horizontal S below Liberty's chin. NGC ID# 24M9, PCGS# 6486

1902 Half Dollar, Dappled MS65 Surprising Condition Rarity

4772 1902 MS65 NGC. CAC. The 1902 Barber half issue is surprisingly elusive in Gem grade for a mintage approaching 5 million coins. This attractive Gem 1902 Barber half is well but not fully struck, the culprit being the usual suspect, the upper-right shield corner and nearby wing, a flaw of the design more than a mere strike issue. Dappled copper-lilac and russet hues deepen toward the rims, and a couple of small marks on Liberty's cheek account for the grade. Census: 7 in 65, 7 finer (10/13). NGC ID# 24ME, PCGS# 6492

4773 1903 AU58 PCGS. CAC. Gold-to-gray overall with a reddish streak tucked under the back of Liberty's hair. Modestly worn but still luminous, a pleasing near-Gem. Population: 15 in 58, 74 finer (11/13). NGC ID# 24MJ, PCGS# 6495

4774 1906-S MS63 NGC. Ex: Andy Geosits Collection of Barber Halves. The 1906-S Barber half dollar claims a mintage of 1.7 million pieces, accomplished during the year of the great San Francisco earthquake. The majority of the coins entered circulation and remained there, leaving relatively few Mint State survivors. This Select representative is lustrous, with a pleasing strike. Light golden-brown toning appears at portions of the outer edges. The reverse rim near 9 o'clock exhibits a minor reed mark. Census: 11 in 63, 33 finer (10/13). *Ex: November Signature (Heritage, 11/2003), lot 6781.* NGC ID# 24MX, PCGS# 6507

4775 1907-O MS63 PCGS. Jade-green, dove-gray, and chestnut toning visit this lustrous New Orleans quarter. The strike is above average. The reverse is pristine and the obverse has marks on the jaw and grazes on the right field. Certified in a green label holder. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 24N2, PCGS# 6510

4776 1907-O MS63 PCGS. CAC. Gleaming satin luster provides this Select example with strong visual allure. Golden-brown toning appears at the periphery on the obverse. A few small splashes of silver-green and icy blue are also present. The reverse reveals scattered areas of golden-brown, teal, and red. Evidence of die erosion is present at the outer edges of both sides, particularly the obverse, while the central reverse exhibits roller marks. NGC ID# 24N2, PCGS# 6510

4777 1908 MS64 PCGS. Attractive shades of champagne-gold and lavender toning enliven the lustrous surfaces of this well-detailed Choice example. Population: 50 in 64 (1 in 64+), 23 finer (11/13). *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 24N4, PCGS# 6512

1908 Barber Half Dollar, MS66 Sharp Eagle and Shield Definition

4778 1908 MS66 PCGS. Barber half collectors know the 1908 Philadelphia issue is somewhat harder to find in high grades than the branch mints (D, O, or S) for the date — a trend in the series repeated more dramatically by later dates such as the 1910, 1913, 1914, and 1915 Philadelphia mintages.

This Premium Gem has an almost austere, silvery appearance. Frosted white surfaces yield to ice-blue iridescence. Areas of deep umber cling to the stars and denticles, reaching here and there into other nooks among the devices. The strike is excellent, with the corners of the shield and the adjacent eagle's wing sharp, as are the tail feathers and the talons. This is an appealing half for those not shy 'about choosing bold, original coins. Only two have been graded finer by PCGS (11/13). NGC ID# 24N4, PCGS# 6512

4779 1911 MS64 NGC. CAC. Shades of gray and amber toning blanket the lightly marked surfaces of this impressive Choice example, with well-detailed design elements and satiny mint luster underneath. NGC has graded 30 numerically finer examples (11/13). NGC ID# 24ND, PCGS# 6521

1911-D Half Dollar, Lustrous MS65 A Low-Mintage Issue

4780 1911-D MS65 PCGS. The silver-gray surfaces of this Gem Barber half display pleasing luster. The design elements are well-struck except for the usually seen softness on the eagle's right (facing) claw and fletchings. The mintage was a small 695,080 pieces, making it a difficult coin in the better Mint State grades. Population: 22 in 65, 12 finer (11/13). NGC ID# 24NE, PCGS# 6522

4781 1912 MS64 PCGS. This attractive Choice example displays satiny mint luster and well-detailed design elements, with hints of pale gold and lavender-gray toning. Eye appeal is outstanding. NGC ID# 24NG, PCGS# 6524

1912-D Half Dollar, MS65
Attractive and Original

- 4782 1912-D MS65 NGC. CAC.** Few marks appear on either side of this Gem 1912-D Barber half, an issue that is elusive in any finer grade. This piece shows just a tad of strike weakness on a couple of the left-side obverse stars, but the reverse and other areas show an extremely bold strike. Russet, copper, and gold hues deepen toward the rims on this attractive and original piece. NGC ID# 24NH, PCGS# 6525

- 4783 1913 XF45 NGC.** Branch mint Barber halves command the greatest collector attention, but an exception is made for the low mintage Philadelphia trio between 1913 and 1915. This Choice XF example displays tan-gray and olive-green surfaces, with a few subtle hints of gold and red. NGC ID# 24NK, PCGS# 6527

- 4784 1914-S MS64 NGC.** Orange-gold, rose-red, ice-blue, and lime-green patina embraces this satiny and well preserved Choice San Francisco half dollar. Well struck for the issue. Census: 40 in 64, 19 finer (11/13). NGC ID# 24NP, PCGS# 6531

PROOF BARBER HALF DOLLARS

- 4785 1893 PR63 Cameo NGC.** Light gold toning visits the reverse, as well as the obverse margin. The portrait is untoned and displays pleasing contrast. Well struck. Faint obverse field hairlines limit the grade. Ex: *Stanislaw Herstal Collection (Bowers and Ruddy, 2/1974)*, lot 492. From *The Ole Miner's Collection*. PCGS# 86540

- 4786 1898 PR64 Cameo NGC. CAC.** The sharply detailed design elements show a rich frosty texture that contrasts boldly with the deeply mirrored fields of this spectacular Choice example. Census: 17 in 64 Cameo (1 in 64 ★ Cameo), 47 finer (11/13). PCGS# 86545

- 4787 1902 PR64 PCGS.** An attractive patina covers both sides of this near-Gem example, with the surfaces on the reverse revealing bold reflectivity. The colors include hues of light gold, sky-blue, sea-green, and faint copper. NGC ID# 24P6, PCGS# 6549

- 4788 1904 PR63 PCGS.** Richly toned green-gold at margins of variable width with blues and violets on the interiors. Though lightly hairlined, this Select specimen has solid eye appeal for the grade. NGC ID# 24P8, PCGS# 6551

1905 Barber Half, Richly Toned PR65

- 4789 1905 PR65 NGC.** The 1905 proof is considerably more popular than most Barber half proofs because of the relatively low number of business strikes minted in Philadelphia that year. As is often the case, many collectors purchase a proof to fill that hole in their set instead of springing for a high-grade business strike. A spectacularly toned Gem, this coin features brilliant surfaces with rich shades of gold, cerulean-blue, plum, red-brown, and teal. The strike is razor sharp. Census: 36 in 65, 42 finer (11/13). NGC ID# 24P9, PCGS# 6552

1910 Half Dollar, Brilliant Gem Proof

- 4790 1910 PR65 NGC.** A bright, reflective proof with deep mirrors and moderate frost. All design elements are sharp save for the slightest softness on the eagle, only worth a mention since it may have held this coin back from an even higher grade. Gem surfaces display attractive devices equally on the obverse and the reverse for well-balanced appeal. Just 510 proofs were minted of this better date. Ex: *Bebee Collection / ANA Sale (Bowers and Merena, 8/1987)*, lot 1246, flip included. From *The Ole Miner's Collection*. NGC ID# 24PE, PCGS# 6557

**1913 Barber Half, PR65+
Low Mintage of 627 Pieces**

- 4791 1913 PR65+ PCGS. CAC.** Proof examples of the 1913, 1914, and 1915 Barber half dollars are always in demand due to the rarity of business strikes. The 1913 Barber half production consisted of only 188,000 business strikes and 627 proofs. The surfaces of this appealing, sharply struck high-end Gem example display attractive light gold color overall, with closer examination revealing tiny scattered splashes of red, blue, pink, and golden-brown. Population: 1 in 65+, 29 finer (11/13). NGC ID# 24PH, PCGS# 6560

EARLY DOLLARS

1795 B-5, BB-27 Silver Dollar, VF Details Three Leaves Reverse

- 4792** 1795 Flowing Hair, Three Leaves — Scratch — PCGS Genuine. VF Details. B-5, BB-27, R.1. This is the usually seen variety that represents about one-third of all 1795 Flowing Hair silver dollar appearances. There are several short, heavy scratches, mostly on the obverse, and they are hidden in the toning. This is still a pleasing, nicely detailed early silver dollar. NGC ID# 24WZ, PCGS# 6852

- 4793** 1798 Large Eagle, Pointed 9 Fine 15 PCGS. B-14, BB-122, R.3. Bowers-Borckardt Die State IV. This stone-gray representative is evenly defined and has only trivial abrasions save for a moderate field mark near the profile. A small obverse rim nick at 4 o'clock also merits passing mention. NGC ID# 24X6, PCGS# 6873

- 4794** 1798 Large Eagle, Pointed 9, Four Berries Fine 15 NGC. B-8, BB-125, R.2. Bowers-Borckardt Die State IV. The BB-125 variety is recognized by the pointed 9 in the date and the four berries in the branch on the reverse. This attractive Fine 15 specimen shows even wear on both sides, with pleasing gray patina and only minor abrasions. NGC ID# 24X6, PCGS# 6873

- 4795** 1798 Large Eagle, Pointed 9, Close Date VF30 NGC. B-29, BB-119, R.4. Bowers Die State II. Cream-white high points rise above deep gunmetal-gray fields. Slightly off center toward 9 o'clock. The reverse rim has a flaw at 9 o'clock and a nick at 12:30. The hardy obverse die struck several preceding Bolender varieties and exhibits several bold cracks.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24X6, PCGS# 6873

- 4796** 1798 Large Eagle, Pointed 9 — Whizzed — NCS. XF Details. B-14, BB-122, R.3. Bowers Die State V. Microgranular from whizzing, but a nicely defined Bust dollar with cream-gray fields and motifs. The borders are jade-green. There are no relevant marks. NGC ID# 24X6, PCGS# 6873

1798 B-30, BB-116 Dollar, XF40 Pointed 9, Close Date

- 4797** 1798 Large Eagle, Pointed 9, Close Date XF40 NGC. B-30, BB-116, R.5. Bowers Die State II. A much better Bolender variety interesting for three heavy obverse die cracks that intersect at 6 o'clock. Rich walnut-brown toning drapes this unblemished and nicely defined example. E PLURIBUS UNUM is sharp except for the right half of the first U. NGC ID# 24X6, PCGS# 6873

1799 B-8, BB-165 Dollar, VF30 Early Die State

- 4798** 1799 7x6 Stars VF30 PCGS. B-8, BB-165, R.3. This early die state dollar has a light die crack through LIB, and the usual heavy die chips following the final S in STATES. Housed in a green-label holder, this example has light silver surfaces with golden-tan patina on the high points with a few trivial marks of little concern. Traces of luster remain visible in the protected areas. NGC ID# 24X7, PCGS# 6878

1799 Silver Dollar, AU Details B-16, BB-158, 7x6 Stars

- 4799** 1799 7x6 Stars — Scratches — NGC Details. AU. B-16, BB-158, R.2. Bowers Die State I. A pin scratch is noted near the Y in LIBERTY and a trio of lengthy pin scratches are noted between the banner and the R in AMERICA. Adjustment marks near the bust tip are as made. A moderately hairlined powder-blue and almond-gold early dollar with pleasing sharpness and noticeable shimmering luster. NGC ID# 24X7, PCGS# 6878

- 4800** 1800 — Scratch — PCGS Genuine. VF Details. B-16, BB-187, R.2. Bowers Die State IV. Dove-gray fields contrast with pearl-white high points. Three fairly lengthy scratches are on the portrait, and a diagonal scratch crosses the shield. The fields display several small to moderate marks. NGC ID# 24X9, PCGS# 6887

1800 Dollar, Choice VF B-10, BB-190, Wide Date

- 4801** 1800 Wide Date, Low 8 VF35 PCGS. B-10, BB-190, R.3. Bowers Die State VI. A pleasing stone-gray representative with unmarked surfaces and ample design definition. Traces of luster outline design elements. This moderately circulated but problem-free Heraldic Eagle dollar will satisfy many advanced collectors. A rim die flaw at 5:30 is of mint origin. PCGS# 6888

4802 1800 Wide Date, Low 8 — Cleaning — PCGS Genuine. XF Details. B-10, BB-190, R.3. Bowers Die State VI. Numerous cracks on the reverse confirm a late die state. This well defined almond-gold and stone-gray representative displays noticeable luster and is free from distracting marks. Mildly subdued by an inoffensive cleaning. PCGS# 6888

4803 1800 AMERICA! VF20 PCGS. B-19, BB-192, R.2. Bowers Die State IV. Deep olive-green, powder-blue, and lilac-gray toning encompasses this early dollar. Sharply detailed for the VF20 level, and marks are relatively minor, though both sides are moderately glossy. PCGS# 6892

4804 1801 VG10 PCGS. CAC. B-4, BB-214, R.4. Bowers Die State III. A dusky walnut-brown example. The reverse is sharp for the designated grade. Abrasions are inconsequential aside from thin marks near obverse star 11 and beneath the bust tip. NGC ID# 24XA, PCGS# 6893

1801 B-4, BB-214 Silver Dollar, VF35 Elusive Draped Bust Issue

4805 1801 VF35 PCGS. B-4, BB-214, R.4. The 1801 is the scarcest date in the Draped Bust, Heraldic Eagle series of early silver dollars. There are only four known die varieties, with a combined total population of less than 1,500 coins in all grades. This pleasing mid-grade example has light silver on the high points, with rich golden-brown and iridescent toning, with antique blue along the reverse border. NGC ID# 24XA, PCGS# 6893

1803 Small 3 Dollar, VF25 Peripherally Toned, B-5, BB-252

4806 1803 Small 3 VF25 PCGS. CAC. B-5, BB-252, R.3. A band of rainbow toning encircles the outer edges of this coin, with the moderately, evenly worn interiors remaining in various shades of gray. A bit unevenly struck above the eagle's head. The surfaces are pleasing and unmarked for the grade.
Ex: Long Beach Signature (Heritage, 9/2006), lot 2423. NGC ID# 24XD, PCGS# 6900

1803 Dollar, Choice VF Large 3, B-6, BB-255

4807 1803 Large 3 VF35 PCGS. B-6, BB-255, R.2. Bowers Die State III. A luminous cream-gray and wheat-gold example. B-6 is the final variety of the type struck for commerce instead of collectors. The present coin has a lamination on the cleavage (as issued) but is smooth except for a couple of thin marks on the portrait. The dies are moderately rotated. PCGS# 6901

SEATED DOLLARS

4808 1842 AU50 PCGS. The 1842 silver dollar had a modest mintage of 184,618 pieces. This lightly circulated example displays even wear and faintly toned surfaces. Areas of mint luster remain in portions of the protected areas. As expected at this grade level, marks and abrasions are present. However, none are worthy of individual mention. NGC ID# 24YC, PCGS# 6928

4809 1844 AU53 NGC. From a mintage of just 20,000 pieces, the 1844 is always popular because of that low figure as well as low availability in collector grades. This AU example is virtually untuned, providing the piece with a lovely appearance. A few rim nicks are present near 3 o'clock on the obverse. NGC ID# 24YE, PCGS# 6930

4810 1846 AU58 NGC. Still-lustrous surfaces are largely blue-green with medium-gray at the worn high points. Minimally marked overall, though two shallow abrasions appear in the field above the eagle's head. NGC ID# 24YG, PCGS# 6932

4811 1846-O XF40 PCGS. A luminous antebellum New Orleans Seated dollar, primarily pearl-gray with deeper reddish accents at parts of the margins. Faint remaining luster is more prominent on the reverse. Housed in an old green label holder.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24YH, PCGS# 6933

4812 1847 AU58 ANACS. Gold-orange at the rims with interiors that range from silver to pale blue and gold. Modestly rubbed on the high points but with generous remaining luster. Housed in a small-format holder. NGC ID# 24YJ, PCGS# 6934

1847 Dollar, Scarce MS61+

- 4813 1847 MS61+ NGC.** The 1847 Seated Liberty comes from a relatively large mintage of 140,750 circulation strikes and is common in circulated grades. Mint State coins are scarce through MS63 and rare any finer. The design elements are sharply struck, including most of Liberty's head and the stars, elements that sometimes show weakness on this issue. The luster flow is interrupted in localized areas by contact marks. Census: 1 in 61+, 55 finer (10/13). NGC ID# 24YJ, PCGS# 6934

- 4814 1850-O XF40 PCGS. CAC.** Though the 1859-O and 1860-O are plentiful by No Motto standards, the 1850-O is very scarce from a mintage of 40,000 pieces. An even, dark gray patina envelops this XF example. Closer examination reveals subtle hints of gold. The wear is even, adding to the appeal of this piece. NGC ID# 24YN, PCGS# 6938

1855 Silver Dollar Mint State Sharpness

- 4815 1855 — Reverse Repaired — NGC Details. Unc.** The 1855 is even scarcer than implied by its meager mintage of 26,000 pieces. This representative is unworn but the surfaces are glossy from a wipe and the reverse field has a sizeable smoothed area above the eagle's head. A dull mark is noted on the cheek. The borders are retoned golden-brown. NGC ID# 24YU, PCGS# 6943

- 4816 1859-S XF45 ANACS.** From a small mintage of 20,000 pieces, this well-detailed Seated Liberty dollar exhibits lightly abraded surfaces that show pleasing champagne-gold and lavender-gray patina with traces of prooflike reflectivity in sheltered areas. NGC ID# 24YZ, PCGS# 6948

- 4817 1860-O AU55 NGC.** A semireflective example of this last New Orleans Seated dollar issue, lightly rubbed with a thin veneer of gold-to-gray toning and a few streaks of charcoal. The most visible of the last curves through the A in STATES on the reverse. NGC ID# 24Z3, PCGS# 6950

- 4818 1860-O MS61 NGC.** Brightly lustrous with clear frost on the reverse eagle. Lightly abraded with isolated spots of blue-to-gray toning. A die crack passes between the AM of AMERICA and reaches the right (facing) wing. NGC ID# 24Z3, PCGS# 6950

- 4819 1866 Motto XF40 PCGS.** Deeply toned, this example displays shades of olive-green, tan, gold, copper, red, and peach. The wear is even on this piece. The surfaces reveal numerous small marks, but there are none worthy of individual mention. NGC ID# 24Z9, PCGS# 6959

- 4820 1869 AU58 NGC.** Dusky gray toning appears on both sides of this lightly worn near-Mint Seated dollar. This piece has a few trivial marks that are consistent with the AU58 grade. A scarce issue in Mint State. Census: 20 in 58 (1 in 58+), 40 finer (11/13). NGC ID# 24ZC, PCGS# 6962

1870-CC Dollar, XF40 Problem-Free Example of This Popular Date

- 4821 1870-CC XF40 PCGS.** This initial year from the Carson City mint has a constant popularity with collectors. This demand keeps the price relatively high for such dollars even though 11,758 pieces were struck. Of course, few are known in higher grades and this XF40 is one point above the average grade for the issue. Each side shows streaks of medium-density golden-gray patina that is several shades lighter on the reverse. The high points are a bit softly struck, as one would expect.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24ZE, PCGS# 6964

1870-CC Silver Dollar Mint State Details

- 4822 1870-CC — Obverse Graffiti — NGC Details. Unc. Variety 2-E.** A long ago owner, perhaps inspired by a Fourth of July celebration, has pinscratched the date 7-4-75 on the left obverse field. The right obverse has indiscernible pinscratched cursive letters. Deeply toned golden-brown and gunmetal-gray. The first Carson City issue. NGC ID# 24ZE, PCGS# 6964

- 4823 1871 — Improperly Cleaned — NGC Details. Unc.** Though the 1871 and 1872 have the two highest mintages of the Seated type, the 1859-O and 1860-O are more available in Uncirculated condition. This unworn caramel-gold 1871 dollar is free from bagmarks but has patches of hairlines on the fields.

**1872-CC Seated Dollar, Fine 12
Important Carson City Issue**

- 4824 1872-CC Fine 12 PCGS.** Bright gray-gold toning appears on both sides of this green-label holdered 1872-CC dollar. Both sides retain strong details for the grade, with five clear letters of LIBERTY visible on the obverse. The reverse suggests a full VF grade. In an old green label holder.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24ZK, PCGS# 6969

**1872-CC Dollar, AU50
Just 3,150 Pieces Struck**

- 4825 1872-CC AU50 PCGS.** A rare Carson City issue courtesy of a tiny mintage of 3,150 pieces. This pearl-gray silver dollar is well defined and displays ample luster across the devices. Evaluation beneath a lens reveals faded marks on the obverse field west of the date and near Liberty's raised arm. The reverse is minimally abraded. The "C" reverse, first seen on the 1870-CC, identified by a dentil spur near the L in DOLLAR. Encased in a green label holder. Population: 15 in 50 (1 in 50+), 37 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24ZK, PCGS# 6969

TRADE DOLLARS

- 4826 1874-CC Chop Mark MS62 PCGS. Breen-5786.** Micro CC. No Period after FINE. A deeply entered chop mark is on the eagle's right (facing) claw, and another is centered on the right wing. This somewhat wavy Carson City Trade dollar is lustrous and displays dove-gray and golden-brown toning.
Ex: New York Signature (Heritage, 7/2004), lot 6956, which realized \$776.25. PCGS# 87035

- 4827 1875-S/CC Chop Mark — Reverse Spot Removal — NGC Details. Unc. FS-501.** Type One Obverse, Type One Reverse. The undertype CC is plainly visible below the primary mintmark. The design elements are well-detailed and the surfaces show prooflike reflectivity under shades of lavender-gray and gold patina. The chopmark is located on the central obverse.

**Chop Mark 1875-S/CC Trade Dollar
MS62, FS-501**

- 4828 1875-S/CC Chop Mark MS62 PCGS. FS-501.** The middle die state with a faint crack through the tops of AMERICA. This overmintmarked Trade dollar has two chop marks. One is deeply entered near star 3 and the other is entered near the eagle's belly. Moderately wavy from the obverse chop mark. Sharply struck, lustrous, and brilliant. Minor hairlines determine the grade. Population: 6 in 62, 2 finer (11/13). PCGS# 87040

**1875-S/CC Trade Dollar, FS-501, MS61
Eye-Appealing Cherrypickers' Variety**

- 4829 1875-S/CC MS61 NGC. FS-501.** Type One Reverse. The remains of a C are visible to the right of the S mintmark. This is the only overmintmark variety known in the Trade dollar series, a variant that went undiscovered until 1963. The pinkish-silver surfaces show a scattering of mostly light marks and parallel planchet striations that determine the grade, but there is far more eye appeal present here than the grade might imply. NGC ID# 2537, PCGS# 7040

- 4830 1876-CC AU53 PCGS.** Type One Obverse. Type Two Reverse. Tall CC. Blended olive-green and gunmetal-gray toning embraces this well struck and briefly circulated Carson City Trade dollar. Careful inspection locates faded marks on the upper left obverse field and the rim beneath the date. Population: 6 in 53, 70 finer (11/13). NGC ID# 253A, PCGS# 7042

- 4831 1876-CC Doubled Die Reverse — Repaired — PCGS Genuine. AU Details. FS-801.** Type One Obverse and Reverse. Tall CC. The scarce and well known *Guide Book* variety. The reverse is die doubled north with a wide spread between images. The secondary image is most prominent near the eagle's branch, though other areas, such as the beak, are also doubled. A sharp stone-gray example with obverse smoothing evident near 12 o'clock. PCGS# 97042

**1877-CC Trade Dollar, AU58
Above-Average Eye Appeal**

- 4832 1877-CC AU58 PCGS. CAC.** Lustrous surfaces display occasional splashes of reddish-gold. The design elements are generally well-struck except for the usual weakness on portions of Liberty's hair. Close examination reveals no significant marks. The CAC label affirms the above-average eye appeal. Population: 23 in 58, 77 finer (11/13). NGC ID# 253D, PCGS# 7045
- 4833 1877-S MS62 PCGS.** The single highest-mintage Trade dollar issue, the 1877-S, is popular with type collectors. This faintly gold-tinged MS62 example has good detail and mostly wispy marks rather than deep abrasions, accounting for its strong arm's-length eye appeal. NGC ID# 253E, PCGS# 7046
- 4834 1878-S MS64 NGC.** This Choice Mint State S-Mint Trade dollar is the final business strike issue of the series. Once Morgan dollar production began, only proof Trade dollars were minted until the series became a coin of the past. An attractive piece with frosty luster and outstanding toning over sharp details. NGC ID# 253G, PCGS# 7048

PROOF TRADE DOLLARS

**1880 Trade Dollar, PR64 Cameo
Deep Polychrome Toning**

- 4835 1880 PR64 Cameo PCGS.** Excellent contrast between the frosted devices and richly toned, reflective fields is just one of the attributes of this memorable, near-Gem Trade dollar. The vibrant colors range from coppery-gold centers to indigo rims in a visually impressive display of aesthetic appeal. The strike is strong in all areas including all of the eagle's feathers and the folds of Liberty's gown. A proof-only mintage of 1,987 pieces is the highest of any Trade dollar proof, making this date a logical target of type collectors as well as those assembling the complete 11-coin set of Trade dollar proofs. PCGS# 87060

- 4836 1883 PR62 NGC.** Although not fully struck, this piece displays a pleasing level of design detail overall. A degree of contrast exists between the reflective fields and the devices. Very few surface marks are present, all minuscule, adding to the desirability of this example. NGC ID# 27YV, PCGS# 7063

GOLD DOLLARS

- 4837 1849 Open Wreath MS63 NGC. Breen-6001.** The Distant Stars subtype, formerly called the Small Head until John Dannreuther reported that the bust size was the same as on the Near Stars (so-called Large Head) variety. A mildly prooflike butter-gold example that has a crisp strike and pleasing surfaces. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 25B9, PCGS# 7502
- 4838 1849-C Closed Wreath — Obverse Damage — NGC Details. AU. Variety 1.** The lower obverse is moderately granular, but it appears that NGC has unduly assessed this wheat-gold Charlotte example. The strike is crisp save for blending on the hair near the ear. No marks are consequential. *Ex: 314th Sale (Kagin's, 1/1979), lot 1044. From The Ole Miner's Collection.* NGC ID# 25BC, PCGS# 7505
- 4839 1849-O Open Wreath MS61 PCGS. Variety 1.** Doubled R in DOLLAR. Splashes of coppery-orange toning grade the brilliant and frosty yellow-gold surfaces of this attractive first-year New Orleans gold dollar. NGC ID# 25BE, PCGS# 7508
- 4840 1849-O Open Wreath MS61 NGC. Variety 3.** A sharply struck wheat-gold example of the sole New Orleans Open Wreath issue. The lower portion of the wreath is lapped, as made and diagnostic for Variety 3. The portrait exhibits die rust, as coined. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 25BE, PCGS# 7508
- 4841 1849-O Open Wreath MS62 PCGS. Variety 2.** The mintmark is lower in relation to the ribbon bows than on the other two varieties of 1849-O. This pleasing Mint State piece has lustrous yellow surfaces with scattered grade-consistent marks. NGC ID# 25BE, PCGS# 7508

**1849-O Open Wreath Gold Dollar, MS63
An In-Demand Issue**

- 4842 1849-O Open Wreath MS63 PCGS. CAC. Variety 3.** Struck from a lapped die, several reverse devices are missing or attenuated. Although the 1849-O gold dollar is not a great rarity, examples are always in demand as the first issue of the denomination from the New Orleans Mint. Lustrous surfaces display yellow-gold patination in the fields and darker apricot on the obverse portrait, yielding modest field-motif contrast. Additionally, the design elements are well-struck, especially Liberty's portrait. Population: 35 in 63, 29 finer (11/13). NGC ID# 25BE, PCGS# 7508

4843 1850-C XF45 PCGS. Variety 1. An olive-gold example of this challenging Charlotte issue. Some luster remains and the motifs are bold aside from minor wear on Liberty's hair. A tick on the nose tip merits passing mention. From a meager mintage of 6,966 pieces. NGC ID# 25BG, PCGS# 7510

4844 1850-O AU58 NGC. Variety 1. An intricately impressed near-Mint representative that boasts a wide band of border luster on both sides. The portrait and legends are also lustrous. A few field marks are near the forehead. Only 14,000 pieces were struck. *Ex: Davis-Niewoehner Sale (Paramount, 2/1975), lot 412. From The Ole Miner's Collection.* NGC ID# 25BJ, PCGS# 7512

4845 1851-C AU55 PCGS. Variety 1. A lovely Choice AU piece, this coin displays luminous honey-gold surfaces with pleasing sharpness and ample traces of remaining luster. Subtle hints of green also appear. NGC ID# 25BL, PCGS# 7514

1851-D Gold Dollar, Well-Struck AU58

4846 1851-D AU58 NGC. CAC. Variety 3-E. This near-Mint State specimen displays deep reddish-gold surfaces with intermingled lilac throughout. The design features are well-struck and both sides are devoid of mentionable marks. This piece yields pleasing eye appeal, aptly noted by CAC. Census: 41 in 58, 53 finer (11/13). NGC ID# 25BM, PCGS# 7515

4847 1851-O MS62 NGC. Variety 2. An intricately struck New Orleans type coin that has vibrant luster and refreshingly smooth surfaces. The eye appeal is superior for the designated grade. Gold dollars were coined in great quantity between 1851 and 1853 to replace hoarded silver coinage, with more than 90% of the production was at Philadelphia. NGC ID# 25BN, PCGS# 7516

4848 1851-O MS62 NGC. Variety 1. A late die state with peripheral flowlines, this piece has frosty mint luster with scattered grade-consistent marks on its brilliant yellow surfaces. NGC ID# 25BN, PCGS# 7516

4849 1851-O MS63 PCGS. Variety 2. Normal stars. The other variety has lapped stars above Liberty's portrait. Mostly orange-gold with a broad band of pastel sea-green on the obverse margin. Well struck and lustrous with exemplary surfaces for the grade. NGC ID# 25BN, PCGS# 7516

4850 1853-O MS62 PCGS. Variety 1. High Date as usually seen, though a scarce Low Date variety exists. This satiny lemon-gold representative is unblemished and has a good strike. The high points display lilac-red toning. NGC ID# 25BX, PCGS# 7524

4851 1853-O MS62 PCGS. CAC. Variety 1. This pleasing New Orleans type coin has a nice strike and no relevant abrasions. Orange-gold centers are bounded by apple-green borders. For the issue, the MS62 grade provides a good combination of quality and value. NGC ID# 25BX, PCGS# 7524

4852 1853-O MS63 NGC. A pleasing Select example of the Type One design, with well-detailed design elements and bright mint luster. The yellow and rose-gold surfaces show only minor contact marks. NGC ID# 25BX, PCGS# 7524

1854-D Gold Dollar, Choice XF

Just 2,935 Pieces Struck

4853 1854-D XF45 NGC. Variety 6-H. A wheat-gold example with substantial glimmering luster for the grade, particularly on the reverse. Portions of the portrait are lightly brought up but actual wear is moderate. Unabraded save for a single hair-thin mark behind Liberty's shoulder. A rare Dahlonga emission with a mintage of 2,935 pieces. NGC ID# 25BZ, PCGS# 7526

4854 1854 Type Two MS61 PCGS. Yellow-orange luster overall with faint blue and violet overtones. The reverse presents well for an MS61 coin, though on the obverse a long, shallow flaw trails from the back of Liberty's head and several small cuts appear to the left of the neck. NGC ID# 25C3, PCGS# 7531

4855 1854 Type Two MS61 NGC. A broadly luminous yellow-to-orange example of the first year of the short-lived second gold dollar type. Well-struck on the reverse with a number of wispy abrasions through the fields. NGC ID# 25C3, PCGS# 7531

1854 Type Two Gold Dollar, MS62

Small Indian Head Design

4856 1854 Type Two MS62 NGC. CAC. A brilliant lemon-yellow specimen, this transitional gold dollar has frosty luster with excellent eye appeal. The strike is bold and the surfaces show minimal marks on each side. Bold obverse and reverse clash marks are typical of these diminutive gold pieces. NGC ID# 25C3, PCGS# 7531

4857 1855 MS61 NGC. A lustrous and lightly marked green-gold example. Struck from heavily clashed dies, as often seen on this scarce and briefly coined design subtype. Portions of the wreath are lapped. *Ex: Kensington Collection (Bowers and Ruddy, 12/1975), lot 1107, which realized \$1,250. From The Ole Miner's Collection.* NGC ID# 25C4, PCGS# 7532

1855-O Gold Dollar, AU55
Above-Average Strike

4858 1855-O AU55 PCGS. Both sides of this Choice AU gold dollar display bright yellow-gold surfaces that retain mint luster in the protected areas. The design elements are sharply struck for a New Orleans issue, including the letters in LIBERTY and the beads on the headdress. There are no marks worthy of individual mention. Population: 71 in 55, 70 finer (11/13). NGC ID# 25C7, PCGS# 7535

4859 1857 MS64 PCGS. A brilliant lemon-yellow near-Gem, this pleasing 1857 gold dollar has wonderful surfaces showing few marks on either side. The typical strike showing weak central details likely prevented a higher grade. Population: 42 in 64, 27 finer (11/13). NGC ID# 25CD, PCGS# 7544

1857 Gold Dollar, MS65
Conditionally Scarce

4860 1857 MS65 NGC. CAC. The 1857 gold dollar mintage was substantial, totaling 774,789 business strikes. Although common at the lower grade ranges, survivors are scarce at the MS65 level or higher. This Gem displays green-gold color overall, with hints of apricot. As is often the case with this issue, the coin lacks a full strike, with portions of the dentils in particular lacking definition. Census: 10 in 65, 8 finer (11/13). NGC ID# 25CD, PCGS# 7544

1857-D Gold Dollar, AU55
Above-Average Strike

4861 1857-D AU55 NGC. Variety 9-L. A single variety is known. The 1857-D gold dollar is mostly seen in XF and lower AU. Choice AUs such as the present coin are scarce. Mint State examples are very rare. Bright yellow-gold surfaces retain traces of luster in the recesses. The devices are better struck than usually seen, especially Liberty's headdress, the date, and DOLLAR. The reverse dentils are weak at the top, however. Census: 23 in 55, 42 finer (11/13).
Ex: Kensington Collection (American Auction Association, 12/1975), lot 1109, flip included.
From The Ole Miner's Collection. NGC ID# 25CF, PCGS# 7546

4862 1859-C — Bent — PCGS Genuine. AU Details. Variety 1. The final Charlotte gold dollar issue has a scant mintage of 5,235 pieces. The present piece is primarily sun-gold with hints of orange-red near the rims. A few tiny cherry-wine freckles are scattered and a light horizontal bend is evident near Liberty's nose. NGC ID# 25CM, PCGS# 7552

4863 1860 MS64 PCGS. CAC. A well-detailed Choice example from a mintage of 36,668 pieces, this coin displays lightly marked yellow and rose-gold surfaces with vibrant mint luster on both sides. Population: 15 in 64, 9 finer (11/13). NGC ID# 25CR, PCGS# 7555

4864 1862 MS64 PCGS. Faint clash marks are only visible on the reverse of this Choice Mint State 1862 gold dollar. This Choice Mint State example has frosty yellow-gold luster with hints of coppery-orange toning. NGC ID# 25CW, PCGS# 7560

4865 1862 MS64 PCGS. CAC. A satiny Civil War-era gold dollar with attractively intricate detail. Color is largely yellow-gold with suggestions of wheat and khaki. A popular type issue. NGC ID# 25CW, PCGS# 7560

4866 1866 MS61 NGC. A boldly struck and lightly marked straw-gold representative. The dies are clashed and moderately rotated. A mere 7,100 pieces were struck, and unlike latter low mintage dates in the series, not many examples were set aside. Census: 14 in 61, 46 finer (11/13).
Ex: Palm Beach Signature (Heritage, 3/2006), lot 1713.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25D2, PCGS# 7565

4867 1868 MS62 NGC. The lightly marked greenish-gold surfaces of this attractive MS62 example display highlights of rose and satiny mint luster. Census: 25 in 62, 22 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25D4, PCGS# 7567

4868 1878 MS62 Prooflike NGC. Strikingly reflective fields and mildly frosted devices enable a nice cameo-like effect on each side. Wispy hairlines in the fields and a pair of faint slide marks on the portrait limit the grade. Just 3,000 business strikes were produced. Census: 3 in 62 Prooflike, 5 finer (11/13).
Ex: Long Beach Signature (Heritage, 6/2006), lot 2969.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. PCGS# 77579

4869 1881 MS64 PCGS. A modest mintage of 7,600 gold dollars in 1881 ensures that the issue is hard to locate, although survivors tend to be at the higher grade levels. Orange overtones add eye appeal to this lustrous Choice Mint State specimen.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25DK, PCGS# 7582

4870 1881 MS65 PCGS. A spectacular Gem of this low-mintage issue of 7,600 pieces, deep sunset-orange dominating pale jade accents with prooflike reflectivity and near-unmarked surfaces on each side. NGC ID# 25DK, PCGS# 7582

4871 1881 MS66 PCGS. Although certified as a business strike, this fully and deeply mirrored specimen could easily be confused for a proof. In fact, it would not surprise us if this example were offered as a proof in the past. Both sides have gorgeous orange-gold color in addition to a full strike. NGC ID# 25DK, PCGS# 7582

4872 1882 MS65 NGC. A delightful Gem from a mintage of just 5,000 pieces, this coin exhibits sharply detailed design elements and partially prooflike greenish-gold surfaces. Census: 14 in 65, 77 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25DL, PCGS# 7583

- 4873 1883 MS65 PCGS.** A magnificent Gem that boasts an exemplary strike and a mark-free appearance. Orange-gold overall with glimpses of sea-green at the borders. Certified in a green label holder. NGC ID# 25DM, PCGS# 7584
- 4874 1885 MS64 NGC.** Flashy with distinctive coloration, pale yellow set off with violet accents near the rims. Minor softness visits the tops of the headdress feathers. NGC ID# 25DP, PCGS# 7586

CLASSIC QUARTER EAGLES

- 4875 1834 AU55 PCGS. Breen-6140, Variety 2, R.3.** All gold denominations saw a reduction in weight in 1834 to prevent large-scale hoarding and melting. This change was accompanied by a change in design to the new Classic Head motif. A lovely Choice AU example, this coin displays attractive butter-gold color. Though lightly circulated, the level of design detail is pleasing. NGC ID# 25FS, PCGS# 7692
- 4876 1834 AU55 NGC. Breen-6140, Variety 4, R.3.** Scarcer than the comparatively common Small Head Variety 1. A pleasing olive-gold piece that has only minor rub on the portrait and wings. There are surprisingly few abrasions, and luster shines from the legends, stars, and eagle.
Ex: Houston Signature (Heritage, 11/2007), lot 61525, which realized \$1,725. NGC ID# 25FS, PCGS# 7692
- 4877 1835 AU58 NGC. Breen-6141, Variety 7, R.5.** An attractive near-Mint example of this Classic Head issue, with antique gold surfaces that show only minor abrasions and retain much original mint luster. Census: 58 in 58 (1 in 58+), 86 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25FT, PCGS# 7693
- 4878 1836 Script 8 AU53 PCGS. Breen-6143, Variety 11, R.2.** A lustrous greenish-gold example of this Classic Head quarter eagle, with light wear on the devices and a die crack through star 6 to the headband.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25FU, PCGS# 7694

LIBERTY QUARTER EAGLES

1843-D Two and a Half, AU53 Small D Mintmark

- 4879 1843-D Small D AU53 NGC. Variety 4-H (formerly 4-D).** A straw-gold representative with sharp definition despite minor incompleteness of strike on the eyebrow and the hair above the ear. One slender field mark near the nose but abrasions are relatively minor overall. As is the case with all Dahlonega quarter eagles, the 1843-D has a low mintage and is rare. NGC ID# 25GP, PCGS# 7730

- 4880 1843-O Large Date, Plain 4 XF45 NGC.** The 1843-O Liberty quarter eagle with the Large Date and Plain 4 is somewhat scarcer than the other variety of the date. This Choice XF example retains much of its original design detail and some mint luster.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25GS, PCGS# 7732

- 4881 1844-C — Improperly Cleaned — NGC Details. XF. Variety 1.** A green-gold example with hints of tan-brown luster in design crevices. Careful rotation reveals parallel hairlines, but there are no distracting singular marks. A low mintage and elusive Charlotte issue.

1845 Quarter Eagle, MS63 Minimally Abraded

- 4882 1845 MS63 NGC.** The 91,051-piece mintage of 1845 quarter eagles results in the most available issue from the Philadelphia Mint from this decade. Examples are available through the AU grades, though Mint State coins are elusive. Select examples such as the present offering are particularly difficult and higher-grade examples are very rare. Lustrous yellow-gold surfaces display hints of apricot and reveal fewer marks than what might be expected for the designated grade. Census: 17 in 63, 8 finer (11/13). NGC ID# 25GW, PCGS# 7737

- 4883 1846-D — Damaged — ANACS. XF45 Details. Variety 7-L (formerly 7-K).** The same die pair as the well known 1846-D/D, but a late die state with no remnant of repunching. This Dahlonega two and a half has minimal wear. The yellow-gold surfaces are glossy from cleaning. Close inspection reveals faint pinscratches on the reverse field near the eagle's neck and the AME in AMERICA.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25H3, PCGS# 7742

- 4884 1847 AU58 NGC.** Lightly abraded and lustrous, this attractive 1847 quarter eagle claims a low mintage of 29,800 pieces. The sharply detailed design elements show just a trace of wear. Census: 43 in 58, 19 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25H5, PCGS# 7744

- 4885 1847-C VF35 PCGS. Variety 1.** An unmarked wheat-gold example of this scarce Charlotte issue. Typically struck on LIBERTY and the reverse center, but wear is minimal relative to the third party grade. Certified in an old green label holder. NGC ID# 25H6, PCGS# 7745

- 4886 1847-C XF40 NGC. Variety 1.** Traces of luster emerge from the caramel-gold surfaces of this moderately circulated Charlotte quarter eagle. Marks are minor for the grade aside from a brief vertical abrasion behind Liberty's eye. NGC ID# 25H6, PCGS# 7745

- 4887 1847-C — Improperly Cleaned — NGC Details. AU. Variety 1.** The surfaces of this bright green-gold example show delicate hairlines from cleaning, and those lines obscure the die lines that are characteristic of this variety. Although cleaned, this piece retains excellent eye appeal. NGC ID# 25H6, PCGS# 7745

4888 1850 MS62 PCGS. The base of the 1 in the date is repunched. Although the 1850 quarter eagle is not difficult to locate in lower grades, Mint State examples are very scarce. Strong luster and several shades of rich yellow color provide this piece with a strong degree of eye appeal. Population: 20 in 62, 21 finer (10/13). NGC ID# 25HG, PCGS# 7755

4889 1850-C XF45 PCGS. Variety 1. This green-gold Charlotte quarter eagle displays luminous luster throughout the legends. The strike shows selected softness on the motifs. Moderate hairlines emerge when held at obscure angles, and a few marks are near the D in UNITED.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25HH, PCGS# 7756

4890 1850-O AU58 NGC. Variety 4. The flag of the 5 is lightly repunched. This honey-gold Borderline Uncirculated New Orleans example has a good strike and lacks any consequential abrasions. Census: 59 in 58 (1 in 58+), 10 finer (10/13). NGC ID# 25HK, PCGS# 7758

**1850-O Quarter Eagle, MS61
Lustrous Rarity From New Orleans**

4891 1850-O MS61 PCGS. CAC. Variety-3. The 1850-O quarter eagle is a scarce issue with a surviving population of 175-225 pieces. This rare Mint State specimen exhibits the soft strike seen on all known examples of the 1850-O, with a distinct lack of detail on the central devices but sharper definition on the peripheries. The surfaces are lustrous and show only minor signs of contact. Population: 5 in 61, 13 finer (11/13).

From The Baltimore Collection, Part Two. NGC ID# 25HK, PCGS# 7758

4892 1851-O AU58 NGC. Variety 2. The Normal Date variety, scarcer than the Repunched Date Variety 1. This nicely struck butter-gold New Orleans representative displays faint hairlines but is free from noticeable marks. NGC ID# 25HP, PCGS# 7762

4893 1854-C VF35 PCGS. Variety 1. This Choice VF example shows moderate wear on the design elements and lightly abraded orange-gold surfaces. From a mintage of 7,295 pieces. Population: 6 in 35, 69 finer (11/13). NGC ID# 25HY, PCGS# 7770

4894 1855 MS62 PCGS. Sharply detailed in most areas, this impressive MS62 example shows a little softness on the date. The light orange-gold surfaces are lustrous and lightly marked for the grade. Population: 45 in 62, 42 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25J4, PCGS# 7774

4895 1856-C — Cleaned — ANACS. XF40 Details. Variety 1. Mildly glossy from a wipe, but more than acceptable to many collectors. The strike-throughs near the chin, OF, and arrows are usual for this indifferently produced Charlotte issue. The strike is soft, but actual wear is moderate.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25J8, PCGS# 7778

4896 1856-O AU53 NGC. Variety 2. A honey-gold New Orleans quarter eagle that displays considerable remaining luster. The eagle has a typical strike but there are no relevant marks. The reverse is mildly bright.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25JA, PCGS# 7780

4897 1856-O AU58 NGC. Variety 2. A lemon-gold near-Mint example of this rare New Orleans issue. The honey-gold surfaces are mildly luminous and only lightly abraded. The strike is good though the eagle's neck shows blending of detail. A scant 21,100 pieces were produced. NGC ID# 25JA, PCGS# 7780

4898 1857-O AU55 NGC. Variety 1. This mildly luminous yellow-gold representative has a good strike. Smooth save for a tick on the field near the E in AMERICA and a trio of slight reverse rim knocks. A scarce New Orleans issue with a mintage of 34,000 pieces.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25JE, PCGS# 7784

4899 1858-C — Improperly Cleaned — NCS. AU Details. Variety 1. A few low areas on the reverse of this pleasing yellow specimen are typical of the 1858-C quarter eagle. This piece has been cleaned, yet retains excellent eye appeal.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25JH, PCGS# 7787

4900 1859 Old Reverse, Type One AU58 NGC. A well-detailed near-Mint example with the sought-after Old Reverse, this coin retains much of its original mint luster and shows only minor abrasions. Census: 54 in 58, 40 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. PCGS# 97788

4901 1860 New Reverse, Type Two MS61 NGC. The pleasing greenish-gold surfaces of this attractive Mint State example show highlights of rose and retain much original mint luster. The Type Two Reverse displays smaller letters and arrowheads. Census: 26 in 61, 24 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25JP, PCGS# 7791

4902 1860-C — Damage — PCGS Genuine. XF Details. Variety 1. Sole dies for this issue of only 7,469 pieces. The mustard-gold obverse has scattered light to moderate abrasions, while the reverse fields show several broad depressions that appear to be smoothed-out damage. Nonetheless, an uncommon and challenging coin. NGC ID# 25JT, PCGS# 7792

4903 1862-S — Improperly Cleaned — NGC Details. AU. This elusive quarter eagle displays myriad marks with matte-like light yellow surfaces that host dark patina on the reverse. Light roughness is also noted on the reverse. NGC ID# 25K2, PCGS# 7798

4904 1868 MS61 NGC. With just 3,600 business strikes produced, the 1868 is part of a string of neglected postwar Philadelphia quarter eagle dates. This unworn example has sharp detail and semireflective canary-yellow color but also a number of moderate abrasions that account for the grade. Census: 12 in 61, 2 finer (11/13). NGC ID# 25KB, PCGS# 7807

4905 1868-S AU58 PCGS. CAC. Nearly all of the 34,000 coins minted were released into circulation in California, with only a few Mint State pieces surviving as a matter of chance. A lightly circulated example, this near-Mint representative displays attractive yellow-gold and peach colors with a few subtle hints of green. The coin exhibits a sharp strike, adding to the appeal. A few light clash marks appear on the reverse and the abrasions present are minor and insignificant. Population: 10 in 58, 16 finer (10/13). NGC ID# 25KC, PCGS# 7808

- 4906 1869-S AU55 NGC.** This attractive Choice AU example displays lightly abraded yellow-gold surfaces that retain much original mint luster. Census: 38 in 55, 73 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25KE, PCGS# 7810
- 4907 1876 AU55 PCGS.** This centennial-year quarter eagle issue saw production of only 4,176 business strikes. This Choice AU example, though lightly rubbed, is beautiful with boldly swirling luster and a mix of yellow, orange, blue, and copper-violet shades. Population: 4 in 55, 22 finer (11/13). NGC ID# 25KU, PCGS# 7824
- 4908 1877-S MS63 PCGS.** This pleasing Select example displays well-detailed design elements and vibrant mint luster with lightly marked yellow and rose-gold surfaces. Population: 22 in 63, 12 finer (11/13). NGC ID# 25KX, PCGS# 7827
- 4909 1879-S MS61 NGC.** The lower-mintage 1879 San Francisco quarter eagle issue, with a production of 18,000 pieces, is underrated in most grades and is a rarity at the Mint State level, with NGC and PCGS combined having assigned higher grades than this example to only 14 pieces (10/13). This MS61 coin displays yellow-gold surfaces with subtle hints of orange and red. As expected at this grade level, numerous marks and abrasions are present. However, there are none worthy of mention. NGC ID# 25L3, PCGS# 7831
- 4910 1881 — Ex-Jewelry — ANACS. VF30 Details.** A tiny business mintage of 640 pieces makes the 1881 seldom seen. This butter-gold and apricot example shows solder remnants and damage on the central reverse.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25L5, PCGS# 7833
- 4911 1884 MS62 NGC. CAC.** A pleasing MS62 example from a mintage of just 1,950 pieces, this coin is sharply detailed and lustrous, with the expected number of minor contact marks for the grade. Census: 14 in 62, 16 finer (11/13). NGC ID# 25L8, PCGS# 7836
- 4912 1887 MS63 NGC.** The 1887 quarter eagle is scarce in any grade, with a mintage of just 6,160 pieces. Most of the examples certified by NGC and PCGS fall within the AU55 to MS62 range, with the numbers dropping precipitously in higher grades. A lovely Select example, this coin features pleasing yellow-gold color and exhibits a sharp strike. Census: 18 in 63, 10 finer (10/13). NGC ID# 25LB, PCGS# 7839
- 4913 1891 MS63 PCGS.** Flashy fields give this honey-gold and apricot Select coin eye appeal well beyond what its MS63 designation might suggest. Crisply struck and housed in a green label holder. Population: 31 in 63, 35 finer (11/13). NGC ID# 25LF, PCGS# 7843
- 4914 1892 MS61 PCGS.** Especially vibrant mint luster emanates from the pleasing yellow-gold surfaces of this impressive MS61 specimen. The design elements are sharply detailed and the fields show only minor contact marks. Population: 14 in 61, 64 finer (11/13). NGC ID# 25LG, PCGS# 7844
- 4915 1893 MS65 NGC.** Broad yellow-to-orange luster swirls delightfully on this Gem from an issue of 30,000 business strikes. Well-defined and carefully preserved. Census: 52 in 65, 32 finer (11/13). NGC ID# 25LH, PCGS# 7845

1898 Quarter Eagle, Conditionally Scarce MS66

- 4916 1898 MS66 PCGS.** The 1898 quarter eagle can be located in most grades through MS65. Premium Gems are scarce, however, and finer examples are rare. The yellow-gold surfaces of this MS66 specimen display intense luster and sharply struck design elements. Both sides have been well cared for. Population: 32 in 66, 8 finer (11/13). NGC ID# 25LN, PCGS# 7850

1899 Quarter Eagle, MS66 Only Sever Finer at PCGS

- 4917 1899 MS66 PCGS.** A stunning Premium Gem Liberty quarter eagle, this 1899 has frosty lemon-yellow surfaces with brilliant luster and bold design motifs. Both sides are pristine, with only a few trivial planchet marks, including a single void near the upper arrowheads on the reverse. Population: 17 in 66, 7 finer (11/13). NGC ID# 25LP, PCGS# 7851
- 4918 1900 MS64 PCGS.** This popular turn-of-the-century example is brightly lustrous, with sharply detailed design elements and only minor signs of contact.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25LR, PCGS# 7852
- 4919 1900 MS65 NGC.** Especially vibrant mint luster and razor-sharp definition on all design elements make this well-preserved yellow-gold Gem a visual treat for series enthusiasts and type collectors alike.
From The Ole Miner's Collection. NGC ID# 25LR, PCGS# 7852
- 4920 1900 MS65 PCGS. CAC.** A Gem example of the 1900 quarter eagle with frosty luster and bold design motifs. This scarce issue had a mintage of 67,000 and falls at the tail end of a decades-long run of low mintage quarter eagles. A little imagination reveals a hint of green on the brilliant yellow surfaces. NGC ID# 25LR, PCGS# 7852

**1900 Quarter Eagle, MS67
Fully Struck Type Coin**

4921 1900 MS67 NGC. This turn-of-the-odometer Superb Gem quarter eagle will undoubtedly end up in a fine type set. Deep reddish-orange color complements full luster and an equally full strike, a virtually unimprovable coin. NGC apparently agrees, as they have seen only a single MS68 numerically finer (10/13). NGC ID# 25LR, PCGS# 7852

4922 1901 MS65 PCGS. A frosty Gem, this brilliant yellow-gold specimen has hints of pale orange overtones with bold design motifs. NGC ID# 25LS, PCGS# 7853

4923 1901 MS65 PCGS. CAC. A boldly detailed Gem, this quarter eagle exhibits frosty yellow luster with delicate green and rose overtones. A few trivial marks prevent a higher grade. Ideal for a type set or specialized quarter eagle collection. NGC ID# 25LS, PCGS# 7853

4924 1902 MS65 PCGS. CAC. Bold sunset-gold hues grant this Gem 20th century quarter eagle great eye appeal. Well-defined overall and smooth, a worthwhile type coin. NGC ID# 25LT, PCGS# 7854

4925 1902 MS66 PCGS. CAC. A delightful Premium Gem, this lustrous and sharply struck quarter eagle has brilliant lemon-yellow surfaces that show only scattered and inconsequential marks that limit the grade. PCGS has only certified 38 finer examples (11/13). NGC ID# 25LT, PCGS# 7854

4926 1903 MS65 PCGS. CAC. The well-preserved yellow and rose-gold surfaces of this delightful Gem radiate vibrant mint luster and the design elements are sharply rendered. Eye appeal is terrific. NGC ID# 25LU, PCGS# 7855

4927 1904 MS66 PCGS. A delightful Premium Gem with sharply detailed design elements and vibrant mint luster. The well-preserved peach-gold surfaces enhance the extraordinary eye appeal. NGC ID# 25LV, PCGS# 7856

4928 1905 MS65 PCGS. CAC. Vibrant mint luster and sharply detailed design elements are the calling cards of this delightful Gem, with well-preserved yellow and rose-gold surfaces and ample eye appeal. NGC ID# 25LW, PCGS# 7857

4929 1907 MS65 PCGS. A delightful Gem from the final year of the Liberty series, this coin exhibits sharply detailed design elements and vibrant mint luster. The pleasing yellow and rose-gold surfaces show few signs of contact. NGC ID# 25LY, PCGS# 7859

INDIAN QUARTER EAGLES

4930 1908 MS63 NGC. Lustrous yellow-gold overall with a hint of frostiness. Minor striking softness visits the upper part of the eagle's visible wing, but the overall eye appeal is solid. *From The Moore Coin Collection.* NGC ID# 288Y, PCGS# 7939

4931 1908 MS63 PCGS. A pleasing Select example from the first year of the series, this lightly marked greenish-gold specimen exhibits vibrant mint luster and well-detailed design elements. NGC ID# 288Y, PCGS# 7939

4932 1908 MS64 NGC. An attractive first-year Indian quarter eagle with colors ranging from canary-yellow to sun-gold and edging into orange. Solid preservation and interior detail make for a desirable near-Gem. NGC ID# 288Y, PCGS# 7939

4933 1909 MS63 NGC. A frosty and brilliant yellow-gold example, this Select Mint State Indian quarter eagle has sharp design motifs and excellent eye appeal. NGC ID# 288Z, PCGS# 7940

4934 1909 MS63 ANACS. This lovely Indian quarter eagle has brilliant and frosty yellow luster with delicate orange overtones and bold design elements. An excellent opportunity for the collector to acquire an early Indian piece for a date or type set. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 288Z, PCGS# 7940

4935 1910 MS63 NGC. This charming Select specimen exhibits well-detailed design elements and brightly lustrous yellow-gold surfaces with a few minor contact marks on both sides. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 2892, PCGS# 7941

4936 1910 MS64 ANACS. The pleasing orange-gold surfaces of this attractive Choice example show just a few minor contact marks and vibrant mint luster on both sides. The design elements are sharply detailed and eye appeal is outstanding. NGC ID# 2892, PCGS# 7941

4937 1911 MS64 PCGS. This impressive Indian quarter eagle displays well-detailed design elements and lustrous orange-gold surfaces that show a few minor contact marks. Hints of crimson and rose patina add to the considerable eye appeal. NGC ID# 2893, PCGS# 7942

4938 1911 MS64 PCGS. Vibrant, rich yellow-gold color along with hints of green and orange provides this near-Gem with exceptional eye appeal. Strong luster is an additional attribute. As expected at this grade level, minor marks are present, but there is none worthy of individual mention. NGC ID# 2893, PCGS# 7942

**1911 Quarter Eagle, MS65
Almost Never Located Finer**

4939 1911 MS65 NGC. The 1911 quarter eagle is readily available through MS63, but becomes rare in higher grades, particularly at the MS65 level. Examples finer than Gem are virtually unobtainable. The lustrous surfaces yield yellow-gold patina tinged with light green. The design elements exhibit better definition than sometimes seen on this issue, including the headdress feathers and the eagle's shoulder plumage. A few grade-consistent marks do not detract. NGC and PCGS combined have seen a mere eight pieces finer (11/13) NGC ID# 2893, PCGS# 7942

- 4940 1911-D — Cleaned — ANACS. AU55 Details.** A bold strike resulted in a complete and well-formed mintmark on this pleasing example. Both sides show light cleaning lines with bright yellow surfaces and a trace of luster.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2894, PCGS# 7943

1911-D Two and a Half, Unc Details

- 4941 1911-D — Improperly Cleaned — NGC Details. Unc.** The low-mintage 1911-D has always been the key to the Indian quarter eagle series. Since all other issues of the type are readily acquired, collector pressure is focused on the '11-D stopper. The present example is bright from a wipe and has a coin counter mark on the obverse border. We also note a small recessed area below the R in AMERICA.
- 4942 1914 MS62 NGC.** Lustrous yellow-gold surfaces with hints of green provide this example with an attractive appearance. There are no marks worthy of individual mention. NGC ID# 2898, PCGS# 7946
- 4943 1914 MS62 PCGS. CAC.** From a mintage of 240,000 pieces, the 1914 Indian quarter eagle is the second-scarcest date of the series. This well-detailed Select example displays pleasing greenish-gold surfaces, with hints of orange and nice luster. Designer Bela Lyon Pratt studied with Augustus Saint-Gaudens. NGC ID# 2898, PCGS# 7946
- 4944 1914-D MS63 PCGS.** Especially vibrant mint luster complements the sharply detailed design elements of this attractive Indian quarter eagle, with vibrant mint luster and outstanding eye appeal.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2899, PCGS# 7947

**1914-D Quarter Eagle, MS64
Scarce Denver Mint Issue**

- 4945 1914-D MS64 NGC.** The Denver Mint coined just three issues of Indian quarter eagles including the rare 1911-D, the scarce 1914-D, and the common 1925-D. This near-Gem representative of the 1914-D issue displays green-gold surfaces and pleasing design details. Attractive luster and the absence of any marks worthy of mention are additional attributes of this piece. NGC has awarded higher numeric grades to only 44 examples (11/13). NGC ID# 2899, PCGS# 7947
- 4946 1915 MS64 PCGS. CAC.** A pleasing Choice example with sharply detailed design elements and vivid orange-gold surfaces that radiate vibrant mint luster and show few signs of contact. Eye appeal is outstanding. NGC ID# 289A, PCGS# 7948

**1915 Quarter Eagle, MS65
Seldom Found Finer**

- 4947 1915 MS65 NGC.** From a mintage of 606,000 pieces, the 1915 Indian quarter eagle is reasonably available in grades up to the Gem level, but it is a prime condition rarity in finer grades. This delightful Gem is sharply detailed and brightly lustrous, with well-preserved orange-gold surfaces. NGC and PCGS combined have awarded higher numeric grades to only a dozen examples (10/13). NGC ID# 289A, PCGS# 7948
- 4948 1925-D MS64+ NGC.** Subtly frosted luster glows with minor blue-violet accents against the straw-gold of the fields. Generally well-struck, though the pendants of the necklace are weak. NGC ID# 289B, PCGS# 7949
- 4949 1925-D MS64+ NGC.** The light greenish-gold surfaces of this high-end Choice specimen are lustrous and lightly marked, with vibrant mint luster and sharply detailed design elements.
From The Moore Coin Collection. NGC ID# 289B, PCGS# 7949
- 4950 1925-D MS64+ NGC.** This high-end Choice Indian half eagle exhibits well-detailed design elements and lustrous yellow-gold surfaces with highlights of rose and only minor signs of contact.
From The Moore Coin Collection. NGC ID# 289B, PCGS# 7949
- 4951 1925-D MS64 PCGS. CAC.** An attractive Choice specimen of this popular mintmark type issue, with well-detailed design elements and vibrant mint luster. The vivid orange and rose-gold surfaces are lightly marked and appealing. NGC ID# 289B, PCGS# 7949
- 4952 1925-D MS64 PCGS. CAC.** This attractive Choice Indian quarter eagle displays well-preserved orange and rose-gold surfaces with vibrant mint luster and outstanding eye appeal. The design elements are sharply detailed throughout. NGC ID# 289B, PCGS# 7949
- 4953 1925-D MS64+ PCGS. CAC.** A virtual Gem, this brilliant lemon-yellow specimen has frosty luster and bold design motifs. Here is an outstanding example for the type or Set Registry collector. Another collecting option is a set of Denver Mint Indian quarter eagles that only requires three coins. Start your set today. NGC ID# 289B, PCGS# 7949
- 4954 1925-D MS65 NGC.** The quarter eagle returned from a decade's hiatus with the 1925-D issue, the last struck at Denver. Primarily canary-yellow surfaces show touches of orange.
From The Moore Coin Collection. NGC ID# 289B, PCGS# 7949
- 4955 1925-D MS65 PCGS.** This well-detailed Gem displays vibrant mint luster and well-preserved orange-gold surfaces with outstanding eye appeal. PCGS has graded 31 numerically finer examples (11/13). NGC ID# 289B, PCGS# 7949
- 4956 1925-D MS65 PCGS. CAC.** An exquisite Gem with exceptional eye appeal, this sharply defined Indian quarter eagle has frosty yellow luster with lovely rose overtones. PCGS has only certified 31 finer examples. NGC ID# 289B, PCGS# 7949

**1925-D Quarter Eagle, MS65+
Ideal Type Selection**

4957 1925-D MS65+ NGC. CAC. After a decade-long intermission, the Indian quarter eagle series was renewed for five more years, beginning with the Denver Mint issue of 1925. A gorgeous high-end Gem representative, this coin exhibits strong eye appeal. A sharp strike and lustrous yellow-gold surfaces with hints of green are among the attributes this wonderful example possesses. NGC ID# 289B, PCGS# 7949

4958 1926 MS64 PCGS. The vivid orange-gold surfaces of this attractive Choice example display vibrant mint luster and few signs of contact, with well-detailed design elements and ample eye appeal. NGC ID# 289C, PCGS# 7950

4959 1926 MS64+ NGC. This high-end Choice Indian quarter eagle is sharply detailed and lustrous, with well-preserved yellow and greenish-gold surfaces.
From The Moore Coin Collection. NGC ID# 289C, PCGS# 7950

4960 1926 MS64 PCGS. CAC. Yellow-gold overall with blue and green elements that are more prominent on the reverse. An attractive near-Gem of the first Philadelphia quarter eagle issue since 1915. NGC ID# 289C, PCGS# 7950

4961 1926 MS64+ PCGS. CAC. This high-end Choice specimen displays lustrous orange-gold surfaces with only minor contact marks and sharply detailed design elements throughout. Eye appeal is outstanding. NGC ID# 289C, PCGS# 7950

4962 1927 MS64+ PCGS. CAC. This yellow-gold example has a mix of frost and satin effects and strong interior detail. Great eye appeal and a good choice for the type collector. NGC ID# 289D, PCGS# 7951

4963 1928 MS64+ NGC. CAC. A pleasing near-Gem, this Plus designated Choice Mint State Indian quarter eagle is part of the late series that make excellent type coins. This piece has lustrous light yellow surfaces with satin luster and excellent eye appeal. NGC ID# 289E, PCGS# 7952

4964 1929 MS64 NGC. Sun-gold overall with orange overtones. This near-Gem has good inner detail for its final-year issue and soft but pleasing luster. A quality type coin. NGC ID# 289F, PCGS# 7953

4965 1929 MS64 PCGS. CAC. This final-year quarter eagle offers subtle shifts in hue from apricot to yellow-orange. Generally well-defined with frosty accents on the portrait. NGC ID# 289F, PCGS# 7953

4966 1929 MS64+ PCGS. CAC. The pleasing orange-gold surfaces of this high-end Choice specimen display vibrant mint luster and only minor signs of contact. Sharply detailed design elements add to the considerable visual appeal. NGC ID# 289F, PCGS# 7953

4967 1929 MS64+ PCGS. CAC. A high-end Choice example from the last date of the denomination, this coin displays well-detailed design elements and vibrant mint luster on lightly marked orange-gold surfaces. NGC ID# 289F, PCGS# 7953

1929 Quarter Eagle, Conditionally Scarce MS65

4968 1929 MS65 NGC. The final issue of the Indian quarter eagle series, and a plentiful date through MS64. However, in MS65 this issue is scarce, and it is rare any finer. NCG has only certified three examples finer than this Gem (11/13). Copper-gold luster adorns both sides, and each is sharply struck. No marks of consequence are seen. NGC ID# 289F, PCGS# 7953

THREE DOLLAR GOLD PIECES

4969 1854 AU58 NGC. Portions of the protected areas reveal attractive mint luster on this near-Mint representative. In addition to the yellow-gold color, hues of green, peach, and orange are present. There are no marks worthy of individual mention. NGC ID# 25M3, PCGS# 7969

4970 1854 AU58 NGC. A pleasing introductory year yellow-gold example that boasts a full strike and uncommonly smooth surfaces. Luster fills the margins and motifs.
Ex: Davies-Niewoehner Sale (Paramount, 2/1975), lot 503.
From The Ole Miner's Collection. NGC ID# 25M3, PCGS# 7969

**1855 Three Dollar Gold, MS62
Ideal Type Coin**

4971 1855 MS62 NGC. The 1855 was one of only 10 three-dollar gold pieces that had mintages exceeding 10,000 coins, and in this instance the production was the third highest of the entire series at 50,555 examples. Generous luster emanates from the pleasing yellow-gold surfaces on each side of this nicely preserved MS62 1855 three dollar gold piece. The reflective fields are faintly prooflike. Magnification reveals a scattering of minor marks, mostly on the reverse, that preclude an even finer grade for this lovely example. NGC ID# 25M6, PCGS# 7972

**1855-S Three Dollar Gold, XF40
Underappreciated, Low-Mintage Issue**

4972 1855-S XF40 PCGS. CAC. This attractive, antique-gold three dollar has smooth fields and very few abrasions. Of the S-mint dates, the 1855-S has the lowest mintage of just 6,000 pieces produced. It is rare in Mint State and AU, leaving collectors to vie for decent VF and XF coins. Historically, the 1855-S does not command much of a premium over more common dates in the series, but in today's active market for scarce date gold that may change. Population: 18 in 40, 70 finer (11/13). NGC ID# 25M7, PCGS# 7973

4973 1856-S XF45 NGC. Medium S. This tan-gold San Francisco type coin is only lightly abraded aside from a tick near the upper serif of the mintmark. Liberty's curls exhibit wear commensurate with the grade. NGC ID# 25M9, PCGS# 7975

4974 1859 — Improperly Cleaned — NGC Details. AU. Careful rotation reveals patches of hairlines, but this better date butter-gold example displays substantial luster and lacks consequential abrasions. The 18 in the date is repunched, as often seen on this low mintage date. NGC ID# 25MD, PCGS# 7979

4975 1859 AU55 PCGS. Pale golden surfaces show light wear and abrasions but also pools of reflectivity in the fields. The three dollar gold piece, which debuted with a six-figure mintage in 1854, saw its output dwindle to 15,558 business strikes in 1859. NGC ID# 25MD, PCGS# 7979

4976 1859 AU55 NGC. A Choice AU representative, this piece displays shades of yellow-gold, peach, and green. Other than a small mark on Liberty's cheek, there are no abrasions worthy of mention. NGC ID# 25MD, PCGS# 7979

**1860 Three Dollar, AU58
Minimally Abraded**

4977 1860 AU58 PCGS. CAC. Orange-gold, lavender, and yellow-gold patination cascades over both sides of this near-Mint State specimen and the design elements are sharply struck. The central designs stand out against the fields. This minimally marked coin yields great eye appeal, affirmed by the CAC label. Population: 46 in 58, 77 finer (11/13). NGC ID# 25ME, PCGS# 7980

4978 1861 — Improperly Cleaned — NGC Details. AU. Splashes of bluish patina appear on the obverse high points of this light yellow-gold three dollar piece. Faint hairlines and other evidence of cleaning are noted on this scarce date example. NGC ID# 25MG, PCGS# 7982

4979 1863 — Scratch — PCGS Genuine. AU Details. A Civil War date with a small mintage of 5,000 pieces. The present example displays light wear on the wreath and curls but the bright pumpkin-gold surfaces display noticeable luster. A field pinscratch near the chin accounts for the PCGS designation. NGC ID# 25MJ, PCGS# 7984

4980 1863 — Improperly Cleaned — NGC Details. AU. The pale orange-gold surfaces of this lightly circulated three dollar gold piece show some signs of cleaning, with a few minor abrasions on each side and traces of mint luster near the devices. NGC ID# 25MJ, PCGS# 7984

4981 1872 AU55 NGC. This post-Civil War issue saw only a token mintage of 2,000 business strikes. While minor rub affects the high points of this luminous orange-gold piece, glimmers of reflectivity remain in the fields. NGC ID# 25MV, PCGS# 7994

4982 1874 AU53 NGC. A lightly circulated example of this popular type issue, with lustrous green and rose-gold surfaces that are free of large or distracting abrasions.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25MX, PCGS# 7998

4983 1874 AU58 NGC. The vivid orange-gold surfaces of this popular type issue are lightly abraded and retain much original mint luster. The design elements show just a touch of wear on the high points. NGC ID# 25MX, PCGS# 7998

4984 1878 AU53 NGC. An orange-gold and olive type representative with light wear on the high points and generally smooth surfaces. Luster fills design crevices. One slender mark noted near the right ribbon end.
From The Moore Coin Collection. NGC ID# 25MZ, PCGS# 8000

4985 1878 AU55 NGC. A lightly rubbed example of the last but not least three dollar gold type issue, medium-yellow with color variations and considerable remaining luster. The knot of the wreath is softly struck. NGC ID# 25MZ, PCGS# 8000

4986 1878 AU58 NGC. A lovely slider with apricot toning and no detrimental marks. Flashy luster dominates the legends and wreath. Lightly die doubled on the upper right portion of the wreath. The 8s in the date are repunched within the loop.
From The Moore Coin Collection. NGC ID# 25MZ, PCGS# 8000

4987 1878 — Improperly Cleaned — NGC Details. Unc. Light hairlines on both side of this lustrous three dollar gold piece suggest it has been cleaned, but it retains considerable eye appeal through its brilliant yellow-gold surfaces and strong design elements. NGC ID# 25MZ, PCGS# 8000

4988 1878 MS61 NGC. An apricot-gold type coin with good luster and only a single consequential mark, a vertical hairline on the portrait. The reverse is lightly die doubled, evident on the upper right wreath and the RS in DOLLARS.
Ex: Dr. Charles L. Ruby Collection, Part 3 (Superior, 2/1975), lot 1133, which realized \$675.
From The Ole Miner's Collection. NGC ID# 25MZ, PCGS# 8000

**1887 Three Dollar Gold, AU58
Only 6,000 Pieces Struck**

- 4989 1887 AU58 NGC.** The 1887 three dollar gold coin, with a production of only 6,000 pieces, is noticeably scarcer in better grades than the 1888, which had an even smaller production. A lovely near-Mint representative, this coin displays ample mint luster and bright prooflikeness in the fields, with only an inconspicuous vertical mark on the cheek meriting mention. The obverse is nicely die doubled on LIBERTY and AMERICA, as usual for business strikes of this low-mintage issue.
Ex: Denver Signature (Heritage, 8/2006), lot 1786. NGC ID# 25NA, PCGS# 8009

EARLY HALF EAGLES

**1803/2 BD-4 Half Eagle
XF Sharpness**

- 4990 1803/2 — Damaged — NGC Details. XF BD-4, R.4.** This early half eagle is moderately granular and displays occasional deeper olive toning. Most of the coin is sun-gold. Infrequent small pits are noted. Adjustment marks near 3 o'clock on the obverse are as made. Lightly worn near the forehead but sharper than expected for the XF details third party assessment.

**1808 Half Eagle, BD-4, VF20
Attractive Yellow-Gold Surfaces**

- 4991 1808 VF20 PCGS. BD-4, High R.3.** Wide 5D. The date is centered between the bust and rim, and the denomination 5 D is widely spaced, with the A in STATES centered over the U in PLURIBUS. The BD-4 is the most available of the four 1808 varieties (two of them 1808/7 overdates). This example shows just moderate wear and contact marks consistent with the grade on still-attractive yellow-gold surfaces. At the lower end of certified examples, this piece may pose an great collecting opportunity for the right numismatist. NGC ID# 25PA, PCGS# 8102

**1811 Half Eagle, AU Details
Small 5, BD-2**

- 4992 1811 Small 5 — Obverse Rim Filed — ANACS. AU Details, Net AU50. BD-2, R.3.** Bass-Dannreuther Die State d/a. No rim filing is readily evident due to encapsulation. This partly lustrous olive-gold example has minimal wear and lightly abraded, minutely granular surfaces.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25PH, PCGS# 8109

CLASSIC HALF EAGLES

**1834 Crosslet 4 Classic Five, XF40
Excellent Midgrade Example of This Rarity**

- 4993 1834 Crosslet 4 XF40 NGC. Breen-6503, McCloskey 5-D, R.4.** Although typically valued about five times the going price of its Plain 4 counterpart, the 1834 Crosslet 4 variety remains underappreciated. It is 10 times rarer than the Plain 4 varieties combined, making the Crosslets among the three rarest issues in the entire series. Here, smooth green-gold surfaces are the main attraction with few disturbances despite the ample circulation. Census: 11 in 40, 56 finer (10/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. PCGS# 8172

- 4994 1835 AU50 PCGS. CAC. Breen-6504, McCloskey 1-B, R.3.** A sun-gold representative with tan-brown toning in design crevices. Nicely struck and free from any mentionable abrasions. The strike is good despite moderate blending at the centers. NGC ID# 25RV, PCGS# 8173

- 4995 1837 AU50 NGC. Breen-6511, McCloskey 1-A, R.4.** A scarce die variety best distinguished by its double forehead curl, though the Large Date, small 5 combination is also diagnostic. The cheek and curls show light wear, but the margins offer ample luster and neither side exhibits any consequential abrasions.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25RZ, PCGS# 8175

1838 Classic Half Eagle, Near-Mint

- 4996 1838 AU58 PCGS. CAC. Breen-6514, McCloskey 1-A, R.2.** Breen's Large Arrows, Small 5 variety. A well struck Classic type coin that has only slight wear on the feather tips and curls. Clashed near the eagle's beak but void of noticeable contact. Luster illuminates the margins and motifs. Population: 32 in 58, 55 finer (11/13). NGC ID# 25S4, PCGS# 8176

LIBERTY HALF EAGLES

- 4997 1839 AU50 ANACS.** Always popular as the first year of the Liberty design, the 1839 half eagle is very scarce at the AU grade level. This lustrous orange-gold example shows light wear on the devices and a scattering of minor abrasions on both sides.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25S7, PCGS# 8191
- 4998 1839 AU55 NGC.** This first year Liberty five appears unworn but the luster is subdued and the surfaces are minutely granular. Marks are absent aside from a line near the V in FIVE and a small dig above the beak.
*Ex: Num. Assoc. of So. Cal. (Rarcoa, 2/1972), lot 881.
From The Ole Miner's Collection. NGC ID# 25S7, PCGS# 8191*
- 4999 1839-C Good 6 NGC. Variety 1.** Ideal for an "everyman" collection, since this coin has the lowest certified grade by four points. STATES and two left-side stars are faint, but some shield and plumage detail is present. The apricot-gold surfaces show small reverse rim dings at 3 and 7 o'clock.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25S8, PCGS# 8192

1839-D Half Eagle, AU Sharpness Sole Liberty Five With the Obverse Mintmark

- 5000 1839-D — Tooled, Polished — ANACS. AU Details, Net XF40. Variety 2-A.** The only Liberty Dahlonega half eagle issue with an obverse mintmark. Just 18,939 pieces were struck. This orange-gold example has only a trace of wear, but the surfaces are thickly hairlined to conceal field smoothing near the profile, hairbun, branch stem, and eagle's neck.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25S9, PCGS# 8193

- 5001 1840-O AU55 PCGS. Variety 3.** Small O. A lovely Choice AU early New Orleans No Motto five. Luster dominates the borders and devices, and though small marks are scattered, none merit individual mention. Population: 8 in 55, 14 finer (10/13). NGC ID# 25SK, PCGS# 8200
- 5002 1841 AU55 PCGS.** This well struck lemon-gold No Motto five is from a tiny mintage of 15,833 pieces. The fields exhibit substantial luster, though they are moderately abraded, as is Liberty's portrait. Certified in a green label holder.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25SN, PCGS# 8202
- 5003 1842-C Small Date — Damaged, Cleaned, Bent — ANACS. Fine Details, Net Good 4.** The key issue to a collection of Charlotte half eagles. The present piece is nonetheless affordable as it has a repair on the right obverse field, a light horizontal bend at the centers, a scrape near star 3, and scratches on the reverse field. In addition, the coin is hairlined, glossy, and discolored.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25SV, PCGS# 8208
- 5004 1842-D Small Date XF40 NGC. Variety 7-E.** A luminous straw-gold Dahlonega five with well-defined wing plumage and distributed minor abrasions. A small smoothed area is near the M in AMERICA.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25SX, PCGS# 8210
- 5005 1842-O — Cleaned — ANACS. AU50 Details. Variety 1.** A much better New Orleans issue courtesy of a low mintage of 16,400 pieces. A lightly circulated straw-gold example with a typical strike and a bright appearance.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25SZ, PCGS# 8212
- 5006 1843-C — Improperly Cleaned — NCS. AU Details. Variety 2.** The usual variety for the 1843-C half eagles. The Charlotte Mint struck 44,277 examples of this plentiful issue. Both sides have light yellow surfaces with a hint of rose toning, and trivial handling marks.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25T3, PCGS# 8214
- 5007 1843-D Medium D — Improperly Cleaned — NCS. XF Details. Variety 10-G.** Myriad abrasions and a few small divots appear on each side of this light yellow specimen. The mintage was nearly 100,000 coins, making the 1843-D an ideal type coin.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25T4, PCGS# 8215
- 5008 1843-O Large Letters XF40 NGC. Variety 1.** This New Orleans No Motto five is mostly orange-gold but displays rose-red and powder-blue within the reverse legends. Minor marks are inoffensively scattered, though we note a tick near the bust tip and a vertical line west of the mintmark.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25T6, PCGS# 8216
- 5009 1844-C — Tooled — PCGS Genuine. Fine Details. Variety 1.** The lemon-gold obverse is polished and glossy. The olive-green reverse is cleaned but appears sharper than Fine. Tiny marks suggest past jewelry box storage. From a low mintage of 23,631 pieces. NGC ID# 25T8, PCGS# 8220
- 5010 1844-D VF30 PCGS. Variety 11-G.** An original green-gold Dahlonega half eagle with traces of dirt in design crevices. This look is desired by Southern gold specialists. Sharper than expected for the designated grade, though a light L-shaped pinscratch is noted at the obverse center. In a green label holder.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25T9, PCGS# 8221
- 5011 1845-D XF40 ANACS. Variety 13-H (formerly 12-I).** An attractive XF Dahlonega type coin. The caramel-gold surfaces are minimally abraded and minutely granular. The strike is sharp for the facility though the curls are incompletely brought up.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25TC, PCGS# 8224

- 5012 1845-O XF45 NGC. Variety 1.** The only dies, identified by light repunching on the 18 in the date. A straw-gold New Orleans No Motto five. The fields show only faded marks. The strike shows the blending on the portrait extremities usual for Southern gold of the era.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25TD, PCGS# 8225
- 5013 1846-C VF35 PCGS. Variety 1.** Sole dies for the year. A midrange piece that is faintly radiant with surfaces between antique-gold and khaki in color. A small nick is noted on Liberty's chin. Population: 1 in 35, 55 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25TG, PCGS# 8227
- 5014 1846-D/D — Cleaned — ANACS. AU53 Details. Variety 16-J (previously 15-L).** The low date variant of the prominently repunched mintmark. A sharp sun-gold Dahlonega half eagle with noticeable luster. Both sides are hairlined, and the upper reverse field is moderately granular.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.
- 5015 1846-O — Improperly Cleaned — NCS. AU Details. Variety 1.** The usual variety with the mintmark closer to VE than the arrow feather. A trace of luster remains on the light yellow surfaces of this piece, showing minor hairlines and trivial marks.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25TK, PCGS# 8230
- 5016 1847-C XF45 PCGS. Variety 1.** A green-gold Charlotte type coin that has luminous luster within the margins, shield, and coronet. Marks are inconsequential save for a single faded thin pinscratch above the date.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25TN, PCGS# 8233
- 5017 1848-C — Cleaned — ANACS. AU Details, Net XF45. Variety 1.** A lightly cleaned but highly collectible example of this scarce Charlotte issue. The honey-gold surfaces show ample luster and are free from any obtrusive marks.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25TT, PCGS# 8237
- 5018 1848-D — Cleaned — ANACS. XF45 Details. Variety 22-P.** This die variety is quite rare, and the present offering will provide a nice opportunity for the advanced gold collector. This piece has light yellow luster with scattered marks.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.

**1849-C Half Eagle, AU55
Scarce Variety-2 Example**

- 5019 1849-C AU55 PCGS. Variety-2.** Subtle differences in the placement of the date distinguish the two varieties known for the 1849-C five dollar. The easiest way to tell the two apart is Variety-2 has coarse vertical die lines behind Liberty's neck. The mintage was substantial for this Charlotte five and it is frequently used for type purposes. The surfaces on this example are bright orange-gold. The strike is somewhat soft over the high points and there are numerous small abrasions peppered over each side. NGC ID# 25TW, PCGS# 8241

- 5020 1850-C VF30 NGC. Variety 3.** A midgrade representative with rich golden-brown toning in protected areas. No marks are consequential, and the wings show ample plumage detail. A collectible Charlotte type coin.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25TZ, PCGS# 8244
- 5021 1851 AU58 NGC.** A well-detailed near-Mint example, with vivid green and orange-gold surfaces that retain traces of original mint luster. Census: 97 in 58, 64 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25U5, PCGS# 8246
- 5022 1852-C Fine 12 NGC. Variety 1.** The more common of two die pairs recognized for the issue. This example is sun-yellow and faintly radiant, but also well-worn with two deep marks on Liberty's chin and to the left of her nose. Still, a good entry-level example of Southern gold. NGC ID# 25UB, PCGS# 8251
- 5023 1852-D Fine 15 NGC. Variety 32-V (formerly 27-S).** A collectible and problem-free green-gold Dahlonega type coin. Most of LIBERTY is distinct, as are the vertical shield lines. The mildly glossy surfaces lack obtrusive abrasions.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25UC, PCGS# 8252
- 5024 1852-D — Smoothed — PCGS Genuine. XF Details. Variety 32-V.** A collectible Dahlonega five that shows the usual Southern branch mint softness of strike on the hair and fletchings. Hairlined and glossy from cleaning, but the "Smoothed" third party designation appears unfair. NGC ID# 25UC, PCGS# 8252
- 5025 1853-C XF45 ANACS. Variety 1.** A lovely green-gold specimen with liberal surface marks as the grade suggests. This is an important Charlotte Mint half eagle ideal for a specialized collection or gold type set.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25UE, PCGS# 8254

**1853-C Five Dollar, Bright AU58
High-Grade Charlotte Type Coin**

- 5026 1853-C AU58 NGC. Variety 20-H. Die State I.** This appealing near-Mint representative would make a lovely addition to a Charlotte mint type set. Predominantly green-gold in color, the surfaces brighten to yellow-gold shades at direct light angles. With the exception of the high points of Liberty's hair curls on the obverse and the upper reverse eagle, all devices are boldly defined, and none possess any distractions that are out of context with the assigned grade. In fact, those abrasions that are present are mostly small and not individually distracting. Flickers of original luster remain, and both sides offer a lot of eye appeal for a circulated half eagle from this fabled Southern branch mint. Census: 28 in 58, 25 finer (10/13).
Ex: Dallas Signature (Heritage, 12/2005), lot 1325. NGC ID# 25UE, PCGS# 8254

**1854-C Half Eagle, AU58
Scarce Weak C Variety**

- 5027 1854-C Weak C AU58 NGC. Variety 2.** Scarcer than the Bold C Variety 1, which has the mintmark over the left side of the V in FIVE. The Weak C shows the mintmark over the E. All of the mintmark is visible, though it has low relief as it was lightly impressed into the reverse die. This sun-gold representative shows substantial luster. Marks are trivial aside from a small rim crimp at 8:30.
Ex: Orlando FUN Signature (Heritage, 1/2004), lot 3034, which realized \$3,680.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. PCGS# 98257

**1854-D Five Dollar, AU50
Large D Mintmark**

- 5028 1854-D Large D AU50 PCGS. Variety 36-AA.** This nicely defined and mildly glossy Dahlonega half eagle shows some inexactness of strike on the fletchings and the high points of the portrait. A loupe reveals wispy field marks beneath the rich lemon-gold toning, but no abrasions are of individual relevance.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25UK, PCGS# 8258
- 5029 1855-C XF40 PCGS. Variety 1.** This lemon-gold Charlotte representative displays small to moderate marks across mildly luminous surfaces. Glints of luster remain. Certified in a green label holder.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25UR, PCGS# 8262

**1855-O Half Eagle, XF45
Variety 1, The Only Dies**

- 5030 1855-O XF45 PCGS. Variety 1.** Only a single die pair is known for the 1855-O half eagles, utilized for all 11,000 half eagles struck at that Mint throughout the year. This Choice XF example is remarkable for the grade, with lovely lemon-yellow surfaces showing hints of green color and considerable satin mint luster.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25UT, PCGS# 8264
- 5031 1856 MS61 NGC. CAC.** Strong luster provides this piece with immediate eye appeal. Attractive yellow-gold and peach colors add to the attractiveness. There are no marks worthy of individual mention. NGC ID# 25UV, PCGS# 8266
- 5032 1857-C — Improperly Cleaned — NGC Details. AU. Variety 1.** The straw-gold surfaces are faintly hairlined but the motifs show little wear and luster shimmers within the legends and devices. A slender mark is noted on the portrait near the chin. A scarce Charlotte issue.
From The Ole Miner's Collection. NGC ID# 25V3, PCGS# 8272
- 5033 1858-S XF40 NGC.** The 1858-S half eagle is an elusive issue from a mintage of just 18,600 pieces. This lightly worn example displays vivid greenish-gold surfaces that retain traces of original mint luster. Census: 4 in 40, 42 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25VA, PCGS# 8279
- 5034 1859-C XF40 NGC. Variety 1.** The yellow-gold centers are framed by cherry-red borders. The 1859-C is notorious for soft definition on the eagle, caused by an improperly annealed reverse die. However, glimpses of luster within protected areas confirm that the coin has only moderate wear.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25VC, PCGS# 8281
- 5035 1859-C XF45 PCGS. Variety 1.** An attractive Choice XF example of this popular C-mint issue, with vivid orange-gold surfaces that retain much original mint luster. Population: 30 in 45, 59 finer (11/13). NGC ID# 25VC, PCGS# 8281
- 5036 1860-S — Repaired, Cleaned — ANACS. AU Details, Net VF30.** Although the San Francisco Mint struck half eagles each year through 1888, mintages were very low prior to 1878. The 1860-S production was 21,200 pieces. This canary-gold representative is thickly hairlined and bright. The cheek is smoothed and the upper left obverse field is whizzed.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25VJ, PCGS# 8287
- 5037 1861 AU58 NGC.** An attractive near-Mint example from the first year of the Civil War era, this coin is lightly abraded, with just a trace of wear on the design elements. The yellow and rose-gold surfaces retain some original mint luster.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25VK, PCGS# 8288

**1862 Five Dollar, Choice VF
Just 4,430 Pieces Issued**

- 5038 1862 VF35 NGC.** Ex: Richmond Collection. The tiny mintage of 4,430 pieces was likely intended to prevent collector speculation over the 35 proofs. By 1862, gold coins were hoarded on the East Coast and traded for a premium over Federal paper money. The present example appears sharp for the VF35 level though the orange-gold surfaces are mildly bright.

Ex: Richmond Collection, Part I (David Lawrence, 7/2004), lot 1411, which realized \$1,323.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25VP, PCGS# 8292

- 5039 1864 — Improperly Cleaned — NCS. AU Details.** An important Civil War era issue, the 1864 half eagle saw a total production of only 4,170 coins, and few survive today. This example, while showing clear signs of cleaning, and numerous trivial surface marks, retains pleasing orange-gold surfaces and traces of luster at the periphery. From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25VU, PCGS# 8296

- 5040 1866 — Improperly Cleaned — NCS. AU Details.** Only 6,700 With Motto half eagles were coined in 1866 to mark the beginning of the newly modified design. This example has light yellow surfaces with moderate hairlines and trivial handling marks. From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25VZ, PCGS# 8311

**1867 Half Eagle, AU53
Low-Mintage Date**

- 5041 1867 AU53 NGC.** A semireflective glint to the fields keeps this lightly worn postwar Philadelphia half eagle looking lively. Well-defined by the standards of the issue, though light to moderate abrasions scattered across the modestly worn surfaces contribute to the grade. Census: 12 in 53, 14 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25W3, PCGS# 8313

- 5042 1867-S — Improperly Cleaned — NCS. XF Details.** There are several degrees of cleaned coins, from gently washed to polished. This piece falls at the gently washed end of that range, and is quite attractive with light yellow surfaces and a hint of peripheral rose toning. Minor hairlines and scattered marks are evident. From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25W4, PCGS# 8314

- 5043 1869-S XF40 ANACS.** Both sides have scattered surface marks that are consistent with the grade. The 1869-S, like most San Francisco gold issues of that era, remained in circulation for quite a time, so high grade pieces are rarely found. This pleasing example has light wear with pleasing yellow surfaces.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25W8, PCGS# 8318

- 5044 1870 — Cleaned — ANACS. AU Details. Net XF45.** A mere 4,000 pieces were struck. Lightly cleaned with brilliant yellow luster and sharp details, offering excellent eye appeal despite faint cleaning lines on each side. The fields are reflective from a prooflike strike.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25W9, PCGS# 8319

- 5045 1871-CC — Improperly Cleaned — NCS. VF Details. Variety 1-A.** The usual variety for 1871-CC half eagles, surviving from a mintage of 20,770 coins for both varieties. This example has pleasing orange-gold surfaces with myriad abrasions and minor hairlines.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25WD, PCGS# 8323

- 5046 1872-S — Improperly Cleaned — NCS. AU Details.** Although 36,400 pieces were minted, the 1872-S half eagle is elusive in all grades, the result of extensive circulation along the Pacific coast. This piece has dusky copper toning along the obverse margin, with light yellow surfaces and scattered marks.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25WH, PCGS# 8327

- 5047 1873 Closed 3 MS61 NGC.** The 1873 Closed 3 is believed to be rarer than its Open 3 counterpart, but the difficulty in distinguishing the two varieties or resubmissions of one or the other likely skew the population data. This Mint State example displays deep peach-gold coloration with some scattered lilac accents on the obverse and charcoal accents on the reverse. A few small- to medium-sized abrasions pepper the surfaces and account for the grade. NGC ID# 25WJ, PCGS# 8329

- 5048 1873-S AU50 NGC.** The 1873-S Liberty half eagle has a reported mintage of just 31,000 pieces and the issue is very scarce at the AU level. This lightly circulated example shows only slight wear and the greenish-gold surfaces retain much original mint luster. Census: 14 in 50, 29 finer (11/13).

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25WM, PCGS# 8332

- 5049 1874-CC Fine 15 PCGS. Variety 2-C.** A collector coin from a very scarce Carson City issue. This peach-gold half eagle is free from visible marks. The eagle shows substantial plumage though Liberty's hair is well worn. Just 21,198 pieces were struck, and most were melted long ago.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25WP, PCGS# 8334

- 5050 1879 MS63 PCGS. CAC.** Sun-gold surfaces show variations into lighter yellow and deeper orange. A pleasing Select coin with a luminous satin finish and strong detail. Population: 30 in 63 (3 in 63+), 15 finer (11/13). NGC ID# 25X7, PCGS# 8348

- 5051 1880-CC — Improperly Cleaned — NCS. AU Details. Variety 1-A.** The obverse of this variety has a small die lump over Liberty's eye. This light yellow example has a slightly polished appearance with scattered marks and faint hairlines.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25XB, PCGS# 8352

- 5052 1881 MS64 NGC. CAC.** Copper-gold, canary, and orange luster lends this near-Gem generous eye appeal. Softly frosted on the high points and appealing. NGC has graded 74 examples as MS65 or better (11/13). NGC ID# 25XD, PCGS# 8354

- 5053 1882-CC AU53 NGC. Variety 1-A.** Yellow-to-apricot luster with a faint violet overtone in the left obverse field. Modestly worn with few abrasions aside from a cut to the right of the eagle's neck.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25XH, PCGS# 8359

**1882-S Half Eagle, MS62 Prooflike
Rarely Encountered Prooflike Example**

5054 1882-S MS62 Prooflike NGC. This piece is one of only 3 examples to achieve the Prooflike designation from NGC at the MS62 level, with four finer (11/13). The coin displays shimmering field reflectivity and deep yellow-gold color with hints of red. The coin exhibits a strong strike overall, with only minor areas of incompleteness present. A few tiny alloy spots appear on the obverse. PCGS# 78360

5055 1885 MS64 NGC. CAC. Bright and beautiful with extraordinarily pale gold interiors and canary outer shades that seem deep by comparison. A small coppery area is noted over the I in FIVE. NGC ID# 25XS, PCGS# 8367

5056 1885-S MS65+ NGC. As the Plus designation signifies, this Gem displays a strong degree of eye appeal. Rich satin luster and attractive peach-gold and gold-green colors are among the attributes this piece possesses. NGC ID# 25XT, PCGS# 8368

5057 1886-S MS64 PCGS. This sharply struck and handsome orange-gold With Motto half eagle has potent luster and a clean appearance. PCGS has certified a mere 13 pieces finer, all as MS65 (11/13). NGC ID# 25XV, PCGS# 8370

1886-S Half Eagle, Infrequently Seen MS65

5058 1886-S MS65 PCGS. The 1886-S half eagle can be located with little difficulty through the Select level of preservation. Near-Gems are scarce and MS65 pieces are infrequently seen. Lustrous surfaces display hints of rose and exhibit well-defined design elements. Neither side reveals mentionable marks. Population: 13 in 65, 0 finer (11/13). NGC ID# 25XV, PCGS# 8370

5059 1891-CC AU55 PCGS. Variety 1-A. A sharply struck apricot-gold Choice AU Carson City five. Luster dominates all but the open fields and cheek. Gray debris is noted near the MER in AMERICA. Housed in an old green label holder. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 25Y5, PCGS# 8378

5060 1891-CC AU58 NGC. Variety 1-A. A crisply struck and mildly luminous Borderline Uncirculated example of this popular Carson City type issue. Luster fills the borders, and marks are trivial aside from hair-thin lines near star 8. *From The Ole Miner's Collection.* NGC ID# 25Y5, PCGS# 8378

5061 1891-CC MS61 NGC. Variety 1-A. This well struck Uncirculated Carson City five has good luster and relatively few marks. Recesses are toned orange-red while open areas are butter-gold. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 25Y5, PCGS# 8378

**1891-CC Half Eagle, MS63
Minimally Marked for the Issue**

5062 1891-CC MS63 PCGS. CAC. Variety 1-A. A die crack from the bust tip to star 1 continues through several stars on this common variety. Lustrous orange-gold surfaces exhibit well-struck design features. Some minute marks are fewer and less severe than ordinarily seen on this heavily bagmarked issue. Great overall eye appeal. NGC ID# 25Y5, PCGS# 8378

5063 1892-CC AU55 PCGS. Variety 1-A. A lovely peach-gold Carson City type coin. Well struck and lightly abraded with vibrant luster at the margins and throughout the eagle and curls. Housed in a green label holder. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 25Y7, PCGS# 8380

5064 1892-CC AU58 NGC. Variety 1-A. A lightly abraded wheat-gold Carson City representative that has ample luster and good eye appeal for the grade. *Ex: Newport Collection (Bowers and Ruddy, 1/1975), lot 642. From The Ole Miner's Collection.* NGC ID# 25Y7, PCGS# 8380

5065 1892-CC AU58 NGC. CAC. Variety 1-A. This peach-gold Carson City five possesses considerable luster, though open areas have a trace of rub. Nicely struck and attractive despite moderate marks on the right obverse field. NGC ID# 25Y7, PCGS# 8380

5066 1892-S MS63 PCGS. A condition rarity in the Liberty half eagle series, this Select Mint State 1892-S five will be a nice addition to an advanced collection. Both sides are sharply defined with satiny yellow-gold luster. Population: 25 in 63, 7 finer (11/13). NGC ID# 25Y9, PCGS# 8382

5067 1893 MS64+ NGC. Booming luster and a bold strike confirm the quality of this lightly abraded near-Gem. A plentiful issue but scarce any finer. *Ex: California State Numismatic Association (A. Kosoff, 11/1968), lot 805. From The Ole Miner's Collection.* NGC ID# 25YA, PCGS# 8383

5068 1893 MS65+ NGC. Shades of green and peach combine to provide this lustrous high-end Gem with strong visual appeal. The piece exhibits a sharp strike, adding to the desirability of this lovely example. Census: 3 in 65+, 9 finer (10/13). NGC ID# 25YA, PCGS# 8383

1893-CC Five Dollar, Low-Mintage MS62

- 5069 1893-CC MS62 NGC. Variety 1-A.** Just 60,000 half eagles were produced in the final year of coinage at the Carson City Mint. This is a bright, flaxen-gold example with flashy mint luster and appealing surfaces. In addition to the abundant luster, perhaps the most compelling characteristic of this coin is the meticulous strike that delivers excellent details from the central devices to the denticles.

Ex: Willing Collection (Bowers and Merena, 6/1976), lot 132, flip included.

From The Ole Miner's Collection. NGC ID# 25YB, PCGS# 8384

- 5070 1893-O MS61 PCGS. Variety 1.** An apricot-gold example with a suitable strike and the expected smattering of small marks. The 1893-O has a fairly low mintage and is usually encountered in AU or low Mint State grades. PCGS has certified just one coin as MS64 or finer.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 25YC, PCGS# 8385

- 5071 1895 MS65 NGC.** Gold-orange luster swirls with satin on this later 19th century Coronet half eagle. Design detail and preservation are equally pleasing. Census: 66 in 65, 9 finer (11/13). NGC ID# 25YH, PCGS# 8390

- 5072 1897 MS65 PCGS.** The 1897 Liberty half eagle claims a large business-strike mintage of 867,800 pieces, yet examples in MS65 condition are not seen as often as Gems of later years. This sharply detailed piece offers satiny mint luster and well-preserved peach-gold surfaces. Population: 23 in 65 (1 in 65+), 2 finer (11/13). NGC ID# 25YM, PCGS# 8394

1897 Liberty Half Eagle, MS65 Conditionally Rare

- 5073 1897 MS65 PCGS. CAC.** Despite a mintage of more than 800,000 pieces, the 1897 is difficult to acquire at the MS65 level and above. This lovely Gem displays attractive green-gold and peach-gold surfaces. The design elements exhibit a strong level of detail. Scattered wispy die cracks appear on the reverse. Population: 23 in 65 (1 in 65+), 2 finer (11/13). NGC ID# 25YM, PCGS# 8394

- 5074 1899 MS65 NGC.** The 1899 Liberty half eagle is a popular type issue and this sharply detailed orange-gold specimen should find a home in a fine date collection or type set. Subtle mint luster adds to the visual appeal. NGC ID# 25YS, PCGS# 8398

- 5075 1899 MS65+ NGC.** A high-end Gem from this popular turn-of-the-century date, with sharply detailed design elements and vibrant mint luster. The well-preserved peach-gold surfaces add to the exceptional eye appeal. NGC ID# 25YS, PCGS# 8398

- 5076 1899-S MS64 PCGS.** The 1899-S half eagle is one of the great condition rarities among Liberty half eagles. This Choice Mint State specimen has trivial surface marks on its brilliant and frosty yellow surfaces. Population: 40 in 64 (2 in 64+), 7 finer (11/13). NGC ID# 25YT, PCGS# 8399

- 5077 1900 MS64 NGC.** The 1900 Liberty eagle is a popular type issue because of its turn-of-the-century date. This delightful Choice example offers sharply detailed design elements, vibrant mint luster, and well-preserved yellow-gold surfaces.
From The Ole Miner's Collection. NGC ID# 25YU, PCGS# 8400

- 5078 1900 MS64+ PCGS. CAC.** This high-end Choice specimen displays sharply detailed design elements and vibrant mint luster with pleasing peach-gold surfaces that show few signs of contact. NGC ID# 25YU, PCGS# 8400

- 5079 1900 MS65 NGC.** An impressive Gem, this 1900 half eagle has pristine surfaces and bold design elements on brilliant and frosty orange-gold surfaces with exceptional luster. NGC has only certified 33 finer examples (11/13). NGC ID# 25YU, PCGS# 8400

- 5080 1901 MS64+ PCGS. CAC.** Excellent detail and satin-bright luster make this yellow-orange half eagle a worthwhile turn-of-the-century type coin. A small shallow scrape on Liberty's chin is the sole substantial barrier to full Gem status. NGC ID# 25YW, PCGS# 8402

- 5081 1901-S MS65 NGC.** An impressive Gem, this S-Mint half eagle features bold design elements with frosty yellow luster and exceptional eye appeal. NGC has only certified 71 finer examples (11/13). NGC ID# 25YX, PCGS# 8404

- 5082 1903-S MS64 PCGS. CAC.** The design elements of this attractive Choice example are sharply detailed in most areas, but a touch of softness shows on some of the stars. The orange and rose-gold surfaces display vibrant mint luster and show few signs of contact. NGC ID# 25Z3, PCGS# 8408

- 5083 1903-S MS65 NGC.** This pleasing Gem displays well-preserved peach-gold surfaces with vibrant mint luster and few signs of contact. The design elements are sharply detailed and eye appeal is terrific. NGC ID# 25Z3, PCGS# 8408

- 5084 1906 MS64 NGC.** Satiny luster is soft on the obverse but stronger on the reverse. Excellent design definition with few faults other than a small rim flaw below the 06 in the date. NGC ID# 25Z9, PCGS# 8413

- 5085 1906-D MS65 PCGS.** The 1906-D Liberty half eagle is very scarce in MS65 condition. This impressive Gem exhibits well-detailed design elements and vibrant mint luster, with well-preserved orange-gold surfaces. NGC ID# 25ZA, PCGS# 8414

- 5086 1907 MS64 PCGS. CAC.** Rich orange-gold color lightens just a touch at the interior obverse. A touch blunt of strike with understated luster but otherwise a beautiful satiny near-Gem. NGC ID# 25ZC, PCGS# 8416

- 5087 1907 MS64+ NGC. CAC.** Apricot-gold surfaces with orange overtones have strongly swirling luster. Well-defined on most of the stars with only minor blending on Liberty's hair. NGC ID# 25ZC, PCGS# 8416

- 5088 1908 MS64+ PCGS. CAC.** This fully struck final year Liberty five has an essentially immaculate reverse, and the obverse has only faint marks. Light apricot toning cedes to a narrow band of sea-green near the rims. NGC ID# 25ZE, PCGS# 8418

- 5089 1908 MS65 PCGS. CAC.** A transitional year that saw introduction of Bela Lyon Pratt's Indian head design. However, this Gem represent the old design, and it is the only Liberty Head gold piece struck in 1908. A few tiny marks are noted on the frosty and highly lustrous yellow-gold surfaces of this Gem. PCGS has only certified 41 finer examples (11/13). NGC ID# 25ZE, PCGS# 8418

INDIAN HALF EAGLES

- 5090 1908-D MS63 PCGS.** This attractive Indian half eagle exhibits well-detailed design elements and vivid orange-gold surfaces that show highlights of lilac and a few minor contact marks on both sides. NGC ID# 28DF, PCGS# 8511

1909 Indian Half Eagle, MS64 Sharply Detailed and Lustrous

- 5091 1909 MS64 PCGS.** Although the 1909 Indian half eagle is not a great rarity in the series, it is a very scarce issue above the MS64 grade level. This delightful Choice example exhibits sharply detailed design elements and vibrant mint luster with well-preserved orange-gold surfaces and outstanding eye appeal. NGC ID# 28DH, PCGS# 8513

1909 Half Eagle, MS64 Sharply Struck

- 5092 1909 MS64 NGC.** The 1909 Indian half eagle can be located in MS64 condition with a little patience and searching, but the issue is very scarce in higher grades. The design elements are sharply struck, including the feathers of the headdress and the eagle's shoulder feathers. Reddish-gold surfaces are devoid of significant contact marks, and a few darker areas are visible over each side. NGC ID# 28DH, PCGS# 8513

1909 Indian Half Eagle, Choice Example Lovely Type Candidate

- 5093 1909 MS64 PCGS.** The 1909 Indian half eagle enjoyed a large mintage of 627,060 pieces in the second year of the innovative sunken relief design. The large production and the fact the coins were well produced have led them to become a strong choice for type collectors. An attractive near-Gem example, this coin exhibits a strong level of design detail and lustrous yellow-gold surfaces. There are no marks worthy of mention. A few tiny areas of debris appear on the reverse. NGC ID# 28DH, PCGS# 8513

1909 Half Eagle, MS64 Great Color and Luster

- 5094 1909 MS64 PCGS.** The 1909 half eagle is among the more accessible issues in its series and remains available for a price at the MS64 level, though finer coins are conditionally scarce. Rich pumpkin-gold color and ample luster provide this near-Gem with a strong degree of visual appeal. The level of design detail is strong and there are no mentionable marks. NGC ID# 28DH, PCGS# 8513

- 5095 1909-D MS64+ NGC.** This is the usual Indian half eagle issue encountered, from a mintage of nearly 3.5 million coins. The 1909-D has a mintage that represents 24% of the entire Indian half eagle series. This frosty orange-gold representative borders on the Gem level, and makes an ideal example for type collectors. Both sides are minimally abraded and highly attractive, and hints of powder-blue overtones enhance the eye appeal. NGC ID# 28DJ, PCGS# 8514

- 5096 1909-D MS64+ NGC. CAC.** The 1909-D Indian half eagle is one of the most available issues of the series in MS64 condition, but the population drops off considerably at the Gem level, adding to the desirability of this well-detailed MS64+ specimen. Attractive green-gold color and rich luster provide this piece with strong eye appeal. NGC ID# 28DJ, PCGS# 8514

- 5097 1910-D MS62 NGC.** An attractive example, this piece displays lovely yellow-gold surfaces with areas of orange and hints of green. Luster remains and there are no marks worthy of mention. NGC ID# 28DL, PCGS# 8518

- 5098 1910-S Weak S MS62 NGC.** The base of the mintmark is visible on this crisply struck and inoffensively abraded caramel-gold Indian five. The 1910-S has a fairly high mintage but is conditionally scarce relative to its Philadelphia cousin. NGC ID# 28DM, PCGS# 8519

- 5099 1911-DXF45 NGC.** A scarce and underrated issue that is very elusive in mint condition, this piece representing excellent value for the grade. Well defined overall with light friction over the highpoints. Ex: Long Beach Signature (Heritage, 6/2004), lot 8983. From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 28DR, PCGS# 8521

- 5100 1911-D AU53 NGC.** The 1911-D Indian half eagle has been somewhat overshadowed by its more famous quarter eagle counterpart but the five dollar coin is an elusive issue in its own right, from a low mintage of 72,500 pieces. Brassy-gold color dominates both sides of this lightly circulated example. Areas of light residue are present, primarily on the reverse. NGC ID# 28DR, PCGS# 8521

**1914-S Indian Half Eagle, MS61
Conditionally Rare in High Grade**

- 5101 1914-S MS61 PCGS.** From a mintage of 263,000 pieces, the 1914-S Indian half eagle is an important condition rarity in higher Uncirculated grades. This attractive MS61 example features well-detailed design elements, but the mintmark is slightly deformed. The lustrous yellow and greenish-gold surfaces show a scattering of minor contact marks on both sides. NGC ID# 28DW, PCGS# 8529

**1915 Half Eagle, MS64
Seldom Encountered in Finer Grades**

- 5102 1915 MS64 PCGS.** A brilliant lemon-yellow example, this Choice Mint State piece is the best that is usually available in the marketplace, as PCGS has only certified 47 finer examples (11/13). Minor surface marks on each side of this attractive half eagle are consistent with the grade. NGC ID# 28DX, PCGS# 8530

**1915 Indian Half Eagle, MS64
Elusive Date in Higher Grades**

- 5103 1915 MS64 PCGS.** From a substantial mintage of 588,000 pieces, the 1915 Indian half eagle is reasonably available in grades up to the MS64 level, but Gems are scarce and no examples have been certified finer than MS65. This attractive Choice specimen is sharply detailed and lustrous, with greenish-gold surfaces that show only a few minor contact marks. NGC ID# 28DX, PCGS# 8530
- 5104 1915-S AU58 NGC.** This attractive near-Mint Indian half eagle displays lightly abraded orange-gold surfaces with well-detailed design elements and vibrant mint luster on both sides. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 25ZR, PCGS# 8531
- 5105 1915-S AU58 NGC. CAC.** A lightly circulated example, this near-Mint representative displays lovely yellow-gold color with subtle hints of green-gold. Wear is present on the high points. The coin retains a lovely appearance and there are no marks worthy of mention. NGC ID# 25ZR, PCGS# 8531

- 5106 1916-S MS61 PCGS.** Light yellow and richer orange hues blend into one another on this lustrous S-mint half eagle. Though both sides have their share of fine abrasions, the overall eye appeal is pleasing for the grade. NGC ID# 28DY, PCGS# 8532

LIBERTY EAGLES

- 5107 1840 XF45 PCGS.** This Choice XF specimen exhibits pleasing orange-gold surfaces with the expected number of minor abrasions and traces of prooflike reflectivity in sheltered areas. Population: 28 in 45, 36 finer (11/13). *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 262G, PCGS# 8581
- 5108 1842 Large Date AU53 NGC.** A lightly circulated butter-gold No Motto eagle. Design elements are outlined by luster. Neither side displays any mentionable marks. Though the *Guide Book* mintage of the 1842 Large Date is multiples of its Small Date counterpart, they are encountered in approximately equal numbers. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 262K, PCGS# 8584
- 5109 1844-O XF45 NGC. Variety 5.** An original New Orleans example that has honey-gold fields and orange-tinged luster within protected areas. Tiny marks are scattered but none are worthy of individual mention. NGC ID# 262T, PCGS# 8591
- 5110 1844-O AU53 NGC. Variety 5.** The mintmark is sharply recut within and outside, and should be listed as a separate variety, due to the dramatic repunching. Both sides exhibit reflective surfaces with green-gold color and traces of orange patina on the rims. NGC ID# 262T, PCGS# 8591

1845-O Ten, Scarce AU55

- 5111 1845-O AU55 NGC. Variety 5.** This AU example is among the relatively few survivors from an 1845 New Orleans Mint production of 47,500 pieces. Lustrous and semiprooflike, orange-gold color resides amid a layer of shallow field chatter on each side of this lightly circulated eagle. A minor rim disturbance is seen at 1 o'clock on the reverse. For variety collectors, the diagnostic O mintmark is centered over N in TEN, and the date is shifted left under the bust truncation to verify Variety 5. NGC ID# 262V, PCGS# 8593
- 5112 1847-O AU55 NGC. Variety 7.** Traces of luster brighten the legends, stars, curls, and eagle. A canary-gold Choice AU representative of this No Motto New Orleans type issue. Only lightly abraded given its brief stint in antebellum commerce. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 2632, PCGS# 8598
- 5113 1848-O XF40 PCGS. Variety 1.** An original and scarcer date No Motto New Orleans ten. Protected areas display orange-red toning, though a majority of the coin is olive-green. We note thin marks on the right obverse field and an abraded dentil near star 5. A shield ring is atop the second vertical stripe. Housed in an old green label holder. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 2634, PCGS# 8600
- 5114 1850 Small Date XF45 PCGS.** The 1850 Small Date Liberty eagle is scarcer than the Large Date. This Choice XF example has bright green-gold surfaces with grade-consistent handling marks and traces of luster. Population: 24 in 45, 39 finer (11/13). *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 2638, PCGS# 8604

- 5115 1851 AU58 NGC.** An important condition rarity in the Liberty eagle series, surviving from a mintage of 176,328 coins, this 1851 eagle has brilliant light yellow surfaces with myriad trivial abrasions, and nearly full luster. Traces of prooflike surface remains, especially on the obverse. Census: 31 in 58, 18 finer (11/13). *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 263A, PCGS# 8606
- 5116 1851-O AU55 NGC. Variety 2.** A charming Choice AU butter-gold New Orleans type coin. The bright surfaces are free from significant marks, and the strike is sharp except on the stars. As always for the '51-O, a shield ring rests atop the second vertical stripe. Coined from clashed dies. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 263B, PCGS# 8607
- 5117 1853 AU55 NGC.** The obverse has a single noticeable mark below the hair bun, with the rest of the coin pleasing and lustrous, showing only trivial grazes on the lemon-yellow surfaces. The fields are mildly reflective. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 263E, PCGS# 8610
- 5118 1853 AU58 PCGS. CAC.** A luminous, near-Mint representative, this piece displays straw-gold color with hints of peach. Scattered marks are present on both sides. Population: 32 in 58, 24 finer (10/13). NGC ID# 263E, PCGS# 8610
- 5119 1854-S AU53 NGC.** This impressive orange-gold eagle has light wear on the high points, and scattered grade-consistent marks. It is a lovely example of the debut issue from the San Francisco Mint. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 263K, PCGS# 8615
- 5120 1854-S AU53 PCGS. CAC.** This first-year ten dollar coin has broad yellow-orange plains for fields with only light or wispy marks. Quality interior details show only minor wear across the high points. Population: 29 in 53, 32 finer (11/13). NGC ID# 263K, PCGS# 8615
- 5121 1855-O — Rim Filed, Cleaned — ANACS. AU Details. Net XF40. Variety 2.** Myriad abrasions appear on both sides of this light yellow-gold specimen with an obverse rim bruise that has been diminished through rim filing. Still an attractive example and extremely important as a scarce New Orleans gold issue. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 263M, PCGS# 8617
- 5122 1856 AU58 NGC.** An impressive near-Mint specimen, this Liberty eagle has lustrous light yellow surfaces with scattered handling marks consistent with the grade. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 263P, PCGS# 8619
- 5123 1857 AU55 NGC.** With a reported mintage of 16,606 pieces, the 1857 Liberty eagle is scarce-to-rare in all grades. This lustrous orange-gold example shows a touch of wear on the design elements and a number of minor contact marks on both sides. Census: 19 in 55, 24 finer (11/13). *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 263T, PCGS# 8622
- 5124 1857-O — Improperly Cleaned — NCS. AU Details. Variety 1.** The only known dies for the 1857-O eagle, producing a mere 5,500 coins. This example has virtually Mint State details with bright yellow surfaces and splashes of coppery toning on each side. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 263U, PCGS# 8623
- 5125 1857-S XF40 PCGS.** While the 1857-S double eagle survives in large quantities today, the ten dollar of the same date was not so fortunate. This XF40 example of the latter, pale yellow and surprisingly radiant, shows a number of scattered light to moderate abrasions. Population: 14 in 40, 45 finer (11/13). *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 263V, PCGS# 8624

- 5126 1858-O XF45 NGC. Variety 1.** A meager mintage of 20,000 pieces makes the 1858-O a better New Orleans No Motto issue. This yellow-gold ten has good eye appeal despite a few specks of struck-in grease near the profile. Lightly abraded aside from a moderate reverse rim ding at 2 o'clock. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 263X, PCGS# 8626

**1858-O Ten Dollar, AU58
High Grade for an O-Mint Type Coin**

- 5127 1858-O AU58 NGC. Variety-1.** The 1858-O has become one of the more available O-mint tens after the discovery of two or three dozen pieces in 1985. However, many of those coins are scratched from excavation or show evidence of harsh cleaning. At the near-Mint level, the 1858-O remains scarce. This orange-gold example is well-struck and shows evidence of numerous small, but individually insignificant abrasions on each side. NGC ID# 263X, PCGS# 8626
- 5128 1858-S — Improperly Cleaned — NGC Details. AU.** The 1858-S has traditionally been compared to the 1858 Philadelphia issue. Both are low-mintage rarities with the 1858-S only having 11,800 pieces struck, compared to the P-Mint's 2,521-piece mintage. This piece is just a bit bright, thus the Improperly Cleaned designation. However, each side shows significant reddish-gold color, especially surrounding the devices. The strike is just a bit soft and uniformly so. Only light abrasions are peppered over each side.
- 5129 1860 AU50 ANACS.** Bulging Bun subtype. Only 15,055 pieces were struck of this lesser seen No Motto P-mint and most survivors grade XF at best. Although somewhat liberally abraded, this example possesses swirling orange accents and remnants of prooflike luster. *Ex: Orlando FUN Signature (Heritage, 1/2004), lot 7784.* *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 2644, PCGS# 8631
- 5130 1861 AU55 NGC.** Bulging Bun subtype. A caramel-gold and lime-green Civil War type coin that has noticeable luster and an absence of consequential contact. Light wear is present on the wingtips and the hair above the ear. NGC ID# 2647, PCGS# 8633
- 5131 1861 AU55 NGC.** Bulging Bun subtype. The vivid orange-gold surfaces of this well-detailed Choice AU example display a scattering of minor abrasions on both sides. Eye appeal is strong for the grade. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 2647, PCGS# 8633
- 5132 1866 VF25 NGC.** A pleasing degree of design definition remains on this circulated example displaying lovely color, including areas of peach. The date is repunched east, characteristic of this very low mintage (3,750 pieces) issue. Census: 1 in 25, 46 finer (10/13). NGC ID# 264J, PCGS# 8649

1868 Liberty Ten, AU55
Distinctive Green-Gold Color

- 5133 1868 AU55 PCGS.** An outstanding Choice AU specimen, this 1868 eagle retains nearly full luster with brilliant green-gold color and bold details. A highly distinctive example showing only scattered marks on each side. Population: 13 in 55, 9 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 264N, PCGS# 8653

1869 Ten Dollar, AU Sharpness
Rare Reconstruction-Era Issue

- 5134 1869 — Damaged — NCS. AU Details.** Since gold coin was driven from Eastern circulation by unbacked Federal currency, the 1869 eagle has a low mintage of 1,830 pieces. Few were set aside. This is a well defined and lightly marked tan-gold example with matte surfaces, perhaps from pickling or seawater exposure. Luster illuminates the reverse legends.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 264R, PCGS# 8655

1870-S Ten Dollar, XF40
Mintage 8,000 Pieces

- 5135 1870-S XF40 PCGS.** One of just 8,000 pieces struck for a postwar San Francisco issue that was little-saved after its release, this XF40 example saw a degree of honest wear but not enough that it was lost to attrition. Yellow-gold interiors give way to margins that have softly struck stars, as usually seen, and patches of coppery reddish-violet. Population: 8 in 40, 27 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 264V, PCGS# 8659

1871 Ten Dollar, AU Details
Rare Issue for Circulation

- 5136 1871 — Improperly Cleaned — NCS. AU Details.** The 1871 is an unheralded rarity. Only 1,790 pieces were struck, and since collectors of the day purchased proofs, all went into circulation. None have been certified as Mint State by NGC. Similar in rarity to the 1870-CC but trades for less than one-tenth the price. This honey-gold example is well defined but both sides are thickly hairlined.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 264W, PCGS# 8660

- 5137 1871-S VF20 PCGS.** A moderately worn and lightly abraded example of this low-mintage issue, with traces of original mint luster. Housed in a green label holder. Population: 3 in 20, 59 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 264Y, PCGS# 8662

1872 Eagle, AU Details
1,620 Pieces Struck

- 5138 1872 — Obverse Improperly Cleaned — NCS. AU Details.** Unlike the quarter eagle, half eagle, and double eagle, there are no proof-only dates in the Liberty ten series. But there are many Philadelphia issues with very low mintages, including the 1872, which had a business production of just 1,620 pieces. Gold coin was hoarded at the time except on the West Coast. Twice as rare as the 1885 twenty, which trades for more than twice as much. The present richly detailed sun-gold example is mildly glossy from a wipe and displays the expected number of small abrasions.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 264Z, PCGS# 8663

1873-CC Eagle, VF Details
Mintage of 4,543 Pieces

- 5139 1873-CC — Improperly Cleaned — NCS. VF Details. Variety 2-A.** The usual variety with the mintmark placed left of the feather tip, though a rare reverse exists with the mintmark beneath the feather tip. Any 1873-CC is desirable as only 4,543 pieces were struck and all went into Western circulation. None were given numismatic consideration until a generation later. The present yellow-gold piece is glossy and hairlined from polishing.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2655, PCGS# 8667

- 5140 1873-S VF30 NGC.** For most of the decade, the San Francisco Mint coinage of eagles far exceeded that of Philadelphia, and 1873 was no exception with 800 coined in Pennsylvania, and 12,000 in California. This pleasing mid-grade example has light yellow surfaces with deep orange patina outlining the devices. Scattered marks are consistent with the grade.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2656, PCGS# 8668

- 5141 1874 MS60 PCGS.** A pumpkin-gold ten that has a good strike and a smattering of small abrasions. The 1874 has a low mintage of 53,140 pieces and is very scarce in Mint State. Encased in a green label holder.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2657, PCGS# 8669

- 5142 1874-CC — Improperly Cleaned — NCS. XF Details. Variety 1-A.** The only known dies for the 1874-CC eagle produced a modest 16,767 pieces. This example has pleasing orange-gold surfaces with scattered marks and faint hairlines.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2658, PCGS# 8670

- 5143 1880-O — Improperly Cleaned — NCS. AU Details. Variety 1.** A single die pair was employed to coin a mere 9,200 eagles at New Orleans in 1880. This light yellow example has moderate hairlines and scattered handling marks. Still a pleasing example of a scarce issue.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 265U, PCGS# 8689

1880-S Ten Dollar, MS63
Tall S Mintmark

- 5144 1880-S MS63 PCGS. Breen-7000.** Tall S. One of two mintmark sizes and locations for this conditionally scarce issue. A lustrous pumpkin-gold eagle that boasts a sharp strike and a clean reverse. The obverse field is moderately abraded and the portrait has marks on the nose and eyebrow. Population: 46 in 63 (1 in 63+), 6 finer (11/13). NGC ID# 265V, PCGS# 8690

- 5145 1881-CC — Improperly Cleaned — NCS. Unc. Details. Variety 1-A.** The only known die pair for 1881-CC eagles lasted for 24,015 strikes. Survivors are elusive. This pleasing Mint State piece has light yellow-gold surfaces with frosty mint luster and shows only a few faint hairlines on each side. An exceptional example despite the NCS disclaimer.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 265X, PCGS# 8692

- 5146 1883-CC VF20 PCGS. Variety 2-C.** Four die varieties are known despite a mintage of just 12,000 pieces. Variety 2-C is rarer than the usual marriages 1-A and 1-B. Housed in an old green label holder, so it is little surprise that this wheat-gold coin appears sharper than the designated grade, though the strike is soft on the eagle's neck and fletchings and the curls near Liberty's ear.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2667, PCGS# 8700

- 5147 1884-CC — Improperly Cleaned — NCS. AU Details. Variety 1-A.** The only known die marriage for 1884-CC eagles was taken out of service after a mere 9,925 coins were minted. This example has light yellow surfaces and sharp details, showing moderately heavy hairlines, especially on the obverse.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 266B, PCGS# 8704

- 5148 1886 MS63 NGC.** Light yellow-gold surfaces have bold cartwheel luster. The obverse has its share of scattered abrasions but the reverse appears relatively clean. Well-defined on the interiors, though the lowest obverse stars show softness. Census: 26 in 63, 5 finer (11/13). NGC ID# 266F, PCGS# 8708

- 5149 1888 MS62 NGC.** The typical 1888 Liberty eagle grades AU, and Mint State examples are infrequently encountered. When they are located, they are typically no finer than MS61, and rarely better than MS62. This lustrous light yellow example has minimal surface marks and bold details. A few small copper toning spots are evident. Census: 36 in 62, 3 finer (11/13). NGC ID# 266K, PCGS# 8712

1889 Liberty Ten, MS60
Underrated Low-Mintage Issue

- 5150 1889 MS60 NGC.** A lustrous, well struck, and mildly prooflike example. The fields have myriad but individually minor luster grazes that are consistent with the grade. This very low mintage issue has long been underrated. Census: 25 in 60, 29 finer (11/13).
Ex: Central States Signature (Heritage, 4/2002), lot 7206.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 266N, PCGS# 8715

- 5151 1889-S MS63 PCGS.** Medium-yellow color and strong luster with a hint of satin and touches of blue at the reverse margins. A well-defined, if lightly abraded Select example. NGC ID# 266P, PCGS# 8716

- 5152 1890-CC XF45 NGC. Variety 1-A.** An original pumpkin-gold Carson City eagle that has moderate wear but no consequential marks. Considerably scarcer than its 1891-CC successor.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 266S, PCGS# 8718

- 5153 1891-CC AU55 PCGS. Variety 2-B.** An orange-gold Carson City ten with glimpses of powder-blue on the portrait high points. Marks are relatively minor and the peripheries display a band of luster. Encased in an old green label holder.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 266U, PCGS# 8720

- 5154 1891-CC AU58 NGC. Variety 2-B.** This caramel-gold slider has a full strike and minimally abraded surfaces for a momentarily circulated Carson City eagle. A slight break in field luster confirms the grade.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 266U, PCGS# 8720
- 5155 1891-CC MS61 PCGS. Variety 1-A.** Five die varieties are known, with the mintmark located further left on 1-A than the other four reverses. A lustrous and well struck orange-gold Carson City ten. The number of small abrasions are commensurate with the grade. NGC ID# 266U, PCGS# 8720
- 5156 1891-CC MS61 PCGS. CAC. Variety 1-A.** The 1891-CC is the most available eagle from the Carson City Mint, with a reported mintage of 103,732 pieces. This MS61 example retains pleasing luster and displays attractive honey-gold color with hints of green-gold and peach. Adding to the appeal, the coin exhibits a sharp strike. Scattered abrasions, consistent with the grade, are present. NGC ID# 266U, PCGS# 8720
- 5157 1892-O MS62 PCGS.** The pumpkin-gold fields and motifs are bounded by a band of sea-green. Sharply struck and without any singularly obtrusive marks. The later die state with several faint cracks. A costly acquisition any finer.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 266X, PCGS# 8723
- 5158 1893 MS61 Prooflike NGC.** This Mint State Liberty eagle displays reflective prooflike fields with the expected number of contact marks for the grade. The bright yellow-gold surfaces show a few hints of rose and the design elements are well-detailed. Census: 54 in 61 Prooflike, 1 in 61 ★ Prooflike, 24 finer (11/13). PCGS# 78725
- 5159 1893-O MS61 NGC. Variety 1.** Sole die pair identified for the issue. A flashy example that is largely pale yellow-gold but has a bold coppery streak just to the left of the eagle. Scattered light to moderate abrasions at the portrait account for the grade.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2673, PCGS# 8727
- 5160 1894 MS64+ NGC.** The conditionally rare 1894 is plentiful in the lower Mint State grades but is an important find in grades such as the present example, a high-end near-Gem. The green-gold and peach surfaces retain strong luster and exhibit a bold strike. Census: 7 in 64+, 16 finer (10/13). NGC ID# 2675, PCGS# 8729
- 5161 1894-O MS61 NGC. Variety 1.** The date is high and the mintmark close to the arrow fletching. Glimmering field luster has partial reflectivity. Light yellow interiors deepen at the margins.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2676, PCGS# 8730
- 5162 1895-O MS60 NGC. Variety 3.** A precisely struck and Uncirculated New Orleans type coin whose canary-gold surfaces display the customary number of small marks for the MS60 level.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2679, PCGS# 8733
- 5163 1895-O MS61 NGC. CAC.** The vivid green and rose-gold surfaces of this Mint State example are brightly lustrous and show a scattering of minor contact marks on both sides. The design elements are sharply rendered. NGC ID# 2679, PCGS# 8733

1897-O Eagle, Borderline Rare MS62+ Above-Average Eye Appeal

- 5164 1897-O MS62+ PCGS. CAC.** The 1897-O ten dollar piece is a relatively available issue through MS61. It becomes scarce in MS62 and is rare any finer. The present high-end MS62 offering thus borders on the rarer end of the grading scale. The yellow-gold surfaces are imbued with hints of green and rose and exhibit well-struck design features. Most of the stars are strong, a significant attribute as these elements are often weak. Both sides are minimally marked for the designated grade, another important attribute as the 1897-O is frequently seen heavily abraded. We mention a small mark just to the right of Liberty's upper lip solely for identification purposes. The CAC label affirms the above-average eye appeal. Population: 1 in 62+, 27 finer (10/13). NGC ID# 267E, PCGS# 8738
- 5165 1899 MS64 PCGS.** Satiny orange-gold with a faint echo of blue. Gorgeous swirling luster has only a relative handful of luster grazes and scattered marks. NGC ID# 267J, PCGS# 8742
- 5166 1899-O MS61 PCGS. Variety 3. Ex: Bass.** A scarce die variety with the date centered beneath the bust instead of its usual placement further to the left. Attractively toned pumpkin-gold and lime-green with good luster and minimal marks for the designated grade. NGC ID# 267K, PCGS# 8743
- 5167 1899-O MS61 NGC. Variety 4.** Well struck with good luster and surprisingly unabraded surfaces. A small area of purplish patina is located near the beak of the eagle.
Ex: Long Beach Bullet (Heritage, 9/2002), lot 2493.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 267K, PCGS# 8743
- 5168 1899-S MS63 NGC.** Sun-yellow overall with small areas of deeper orange. Mildly granular surfaces display softly rolling luster. Census: 49 in 63 (1 in 63+), 14 finer (11/13). NGC ID# 267L, PCGS# 8744
- 5169 1900 MS64 NGC. CAC.** This well-detailed Liberty eagle offers well-preserved peach-gold surfaces with satiny mint luster and outstanding eye appeal. NGC has graded 64 numerically finer examples (11/13). NGC ID# 267M, PCGS# 8745
- 5170 1900 MS65 NGC.** The 1900 Liberty eagle is an available date in lower grades, but examples in MS65 condition are very scarce. This delightful Gem is sharply detailed and lustrous, with an interesting obverse die crack that joins the stars on the right. Census: 60 in 65 (1 in 65+), 4 finer (11/13).
From The Ole Miner's Collection. NGC ID# 267M, PCGS# 8745
- 5171 1901 MS64 NGC.** A splendid Choice Mint State specimen with excellent design definition, this frosty specimen has brilliant yellow and orange-gold luster. A few random ticks prevent a higher grade. NGC ID# 267P, PCGS# 8747
- 5172 1901 MS64+ NGC. CAC.** The well-preserved orange-gold surfaces of this high-end Choice example display highlights of rose and frosty mint luster with sharply detailed design elements and ample mint luster. NGC ID# 267P, PCGS# 8747
- 5173 1901 MS65 PCGS.** A stunning Gem, this 1901 Liberty eagle survives from a mintage of 1.7 million coins. A specimen with numerous peers; however, few higher grade examples are known. PCGS has only certified 29 finer examples (11/13). This lustrous specimen has brilliant light yellow surfaces with sharp details. NGC ID# 267P, PCGS# 8747

5174 1901 MS65+ PCGS. Powerful yellow-gold luster swirls across each side of this turn-of-the-century ten dollar coin. Intricately detailed devices are carefully preserved. An all-around delight. NGC ID# 267P, PCGS# 8747

5175 1901-S MS64 PCGS. CAC. Faintly blue-tinged at the margins with glorious yellow-gold color dominant. Bright and beautiful luster cartwheels around the well-defined portrait and eagle. NGC ID# 267S, PCGS# 8749

5176 1901-S MS63 Prooflike NGC. Although the 1901-S is well known as the most prevalent Liberty ten issue, it is surprisingly elusive with prooflike fields. The NGC Census reports a total of just 29 pieces (as of 10/13) with a majority in MS60 to MS62 grades. This well struck and flashy example has only a smattering of minor marks. PCGS# 78749

5177 1902 MS63 PCGS. Excellent cartwheel luster, brilliant on the yellow-gold obverse with a touch more satin on the reverse. Great interior design definition. PCGS has graded just 23 coins as MS64 or better (11/13). NGC ID# 267T, PCGS# 8750

5178 1903-O MS61 NGC. Variety 1. Booming cartwheel luster and a bold strike ensure the eye appeal of this orange-gold New Orleans type coin. Abrasions are trivial save for a mark on the left shield corner and wispy contact above the eagle's head.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 267W, PCGS# 8753

5179 1904-O MS62 NGC. Variety 1. Sole die pair for the year. This luminous orange-gold example is softly struck on the outer stars but better-defined on portrait and eagle.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 267Z, PCGS# 8756

1904-O Eagle, Conditionally Scarce MS63 Above-Average Strike

5180 1904-O MS63 NGC. The 1904-O ten dollar can be obtained through MS62 with little difficulty. Select examples such as the present offering are scarce and higher-grade pieces are rare. Lustrous yellow-gold surfaces exhibit a better strike than ordinarily seen on this issue, though the radials of stars 1 and 13 are a tad soft, as usually seen. A few grade-consistent marks do not detract. Census: 41 in 63, 12 finer (11/13). NGC ID# 267Z, PCGS# 8756

5181 1907-S MS63 NGC. Broadly lustrous apricot-gold surfaces show scattered light marks that have surprisingly little impact on the overall eye appeal. Striking softness is noted at the hair framing Liberty's face. Census: 13 in 63, 7 finer (11/13). NGC ID# 268A, PCGS# 8765

INDIAN EAGLES

5182 1907 No Periods AU58 NGC. A well-detailed near-Mint representative of this popular first-year issue, with vibrant mint luster and lightly abraded orange-gold surfaces that show accents of rose.
From The Moore Coin Collection. NGC ID# 28GF, PCGS# 8852

1908-D Motto Indian Ten, MS62 Fresh-Looking, Golden-Orange Surfaces

5183 1908-D Motto MS62 PCGS. CAC. Considered a first-year issue with the Motto added in front of the eagle's breast. Mattelike fields are typical for the date, which is surprisingly scarce even in low Mint State grades and despite a healthy mintage of 836,500 coins. This specimen has a few abrasions due to bumpy transport from the Denver Mint. It retains a large measure of appeal thanks to impressive, unbroken luster and fantastic, orange-gold color. NGC ID# 28GK, PCGS# 8860

5184 1909 MS62 PCGS. A few specks of amber patina mix with the orange-gold and lilac hues on the lightly marked surfaces of this brightly lustrous and well-detailed MS62 example. Eye appeal is strong for the grade. NGC ID# 28GM, PCGS# 8862

5185 1909-D MS61 PCGS. With a mintage of 121,500 coins, the 1909-D eagle is a scarce issue, and is inversely related to its half eagle counterpart that had far the highest mintage of its denomination. This piece is housed in a green-label PCGS holder and exhibits brilliant orange-gold surfaces with satin luster, and scattered grade-consistent marks. NGC ID# 28GN, PCGS# 8863

1910 Indian Eagle, MS64+ Excellent Type Coin

5186 1910 MS64+ NGC. CAC. From a mintage of 318,500 pieces, the 1910 Indian eagle is an available issue in the series and a popular choice of type collectors. This high-end Choice example offers well-detailed design elements and bright mint luster, with lightly marked orange-gold surfaces that show some highlights of rose. NGC ID# 28GR, PCGS# 8865

5187 1911-D XF45 PCGS. Some slight wear shows on the strongly impressed design elements and the pale orange-gold surfaces retain much original mint luster. Only minor abrasions are evident, a few on each side. NGC ID# 28GU, PCGS# 8869

5188 1911-S AU55 NGC. From a low mintage of 51,000 pieces, the 1911-S Indian eagle is an elusive date in high grade. This Choice AU specimen is minimally abraded for the grade and retains much original mint luster. NGC ID# 28GV, PCGS# 8870

5189 1912 MS64 NGC. Lustrous surfaces and rich yellow-gold color provide this near-Gem with immediate eye appeal. Scattered tiny alloy spots are present on both sides. NGC ID# 28GW, PCGS# 8871

1912-S Eagle, MS62

5190 1912-S MS62 NGC. CAC. A completely original Indian eagle, this light yellow example exhibits brilliant luster that is subdued by deep olive toning on the high points, and greenish hints in the fields. Scattered surface marks on each side are consistent with the grade. This is a scarce issue that is typically found at the AU58 grade level. NGC ID# 28GX, PCGS# 8872

5191 1913-S AU55 NGC. CAC. Lightly rubbed lemon-gold surfaces show scattered abrasions but also considerable remaining luster. One of 66,000 pieces minted. NGC ID# 28GZ, PCGS# 8874

1913-S Eagle, AU58 Low-Mintage Issue

5192 1913-S AU58 PCGS. The 1913-S Indian Head ten dollar piece is a popular S-mint issue within the series, owing in part to its low mintage of only 66,000 coins, which is exceptionally low for a 20th century coin. In Mint State, the issue is the second-rarest in the series behind the 1911-D. This near-Mint State example displays a good amount of luster on its yellow-gold surfaces and the design features are well-defined. Some small surface and rim marks attest to the coin's brief circulation. Nevertheless, both sides exhibit relatively nice appeal. NGC ID# 28GZ, PCGS# 8874

5193 1914-S AU58 NGC. CAC. Lightly worn on the highest parts of the design but with few abrasions of individual significance. At 208,000 pieces struck, the 1914-S eagle poses a certain challenge in near-Mint and finer grades. NGC ID# 28H4, PCGS# 8877

5194 1915-S AU50 NGC. The well-detailed design elements of this pleasing AU example show just a touch of high-point wear and the lustrous orange-gold surfaces are lightly abraded.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 28H6, PCGS# 8879

5195 1932 MS64+ NGC. CAC. A high-end Choice example, with well-preserved orange and rose-gold surfaces that show a few minor contact marks on both sides. The design elements are well-detailed and eye appeal is quite strong. NGC ID# 28HB, PCGS# 8884

LIBERTY DOUBLE EAGLES

5196 1850 — Improperly Cleaned — NGC Details. XF. A green-gold example of the introductory double eagle issue. Glimpses of luster outline the stars, letters, and shield, though the surfaces are subdued from a moderate cleaning. NGC ID# 268F, PCGS# 8902

5197 1850 — Harshly Cleaned — NGC Details. Unc. This well struck and unworn first year twenty must have been a stunner before it was thoroughly wiped by a novice collector. A few specks of debris are noted within the shield, and the obverse has a small lamination at 12 o'clock.

Ex: Dr. Curtis R. Paxman Collection (Bowers and Ruddy, 11/1974), lot 1.

From The Ole Miner's Collection. NGC ID# 268F, PCGS# 8902

1850 Liberty Twenty, AU50 First-Year Type Favorite

5198 1850 AU50 NGC. Despite modest wear, the eye appeal is good for this first-of-the-series double eagle (not counting the unobtainable 1849 pattern in the Smithsonian collection). A scattering of circulation abrasions exist primarily on the obverse but nothing serious. Pleasing, flaxen-gold color with good remaining luster makes this an excellent choice for early type.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 268F, PCGS# 8902

5199 1850-O — Scratched — NCS. AU Details. Variety 3. Both sides have trivial scratches that are not immediately obvious. The obverse has subdued green-gold luster with splashes of pale copper toning. The reverse is light yellow, also with copper splashes.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 268G, PCGS# 8903

5200 1851 XF45 NGC. This moderately circulated Type One twenty is mostly straw-gold but has hints of orange and green toning near the date. Luster fills the legends and motifs.

Ex: Lot 1440 from an unknown 1980s auction held by McLaughlin and Robinson of Vienna, Virginia.

From The Ole Miner's Collection. NGC ID# 268H, PCGS# 8904

5201 1851 XF45 NGC. This Choice XF coin is lightly worn but still amply lustrous with a touch of orange to its yellow-gold surfaces. Among its scattered marks is a long abrasion down the right side of the cheek.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 268H, PCGS# 8904

1851-O Double Eagle, Choice VF Scarce Variety 3

5202 1851-O VF35 NGC. Variety 3. A scarcer die pair that features a well centered but lightly entered mintmark. Though the curls show wear, glimmers of luster emerge from the shield and legends. STATES is incompletely brought up but the remainder of the strike is crisp. Abrasions are moderate for the grade. A popular and scarce mintmark.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 268J, PCGS# 8905

**1851-O Twenty Dollar
AU Sharpness**

- 5203 1851-O — Repaired — PCGS Genuine. AU Details. Variety 1.** This sharply defined honey-gold New Orleans type coin exhibits substantial luster and must have been a “looker” before it was impaired. The lightly to moderately abraded surfaces are somewhat bright from a wipe, and a repair is noted beneath the right (facing) wing. NGC ID# 268J, PCGS# 8905

- 5204 1852 AU53 NGC.** The obverse is yellow-orange and the reverse lighter, but both sides share delicate blue peripheral tones from the gold's copper admixture. Modestly worn with a shallow pinscratch on the hair below the coronet.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 268K, PCGS# 8906

**1852-O Double Eagle, XF40
Likely From California Gold**

- 5205 1852-O XF40 NGC.** There is better than a 90% likelihood that this New Orleans Mint double eagle was coined from newly mined California gold, as more than 90% of gold deposits at New Orleans in 1852 had California gold as the source. This piece has a delicate greenish tint with light yellow surfaces that show myriad abrasions as expected for the grade.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 268L, PCGS# 8907

**1854 Small Date Twenty, XF45
Repunched Date, Breen-7167**

- 5206 1854 Small Date XF45 NGC. CAC. Breen-7167.** The date is clearly repunched, visible beneath the flag of the 1 and above the 4. NGC has designated the RPM as VP-001, their own attribution number for the variety. This yellow-gold double eagle displays distributed small marks, none of which are singularly obtrusive. Luster glints from the design elements.
Ex: Los Angeles Signature (Heritage, 8/2009), lot 2674. NGC ID# 268P, PCGS# 8911

- 5207 1855 XF40 NGC.** A lightly abraded example, this double eagle from the mid-1850s survives from a mintage of 364,666 coins. Minor obverse rim marks are noted at 4 o'clock. NGC ID# 268V, PCGS# 8914

**1855 Double Eagle, AU53
Considerable Remaining Luster**

- 5208 1855 AU53 NGC.** A singular noticeable mark appears in the left obverse field of this light yellow-gold double eagle, with myriad trivial marks of little consequence. This pleasing piece retains traces of luster in the protected areas.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 268V, PCGS# 8914

1855-S Double Eagle, Well-Struck AU55

- 5209 1855-S AU55 PCGS.** The 1855-S twenty dollar is mostly seen in Very Fine and Extremely Fine condition. Choice AU pieces such as the current example are scarce, and Mint State coins are elusive. The surfaces are imbued with strong hints of reddish-rose and retain luster in the protected areas. This is a well-struck piece with no mentionable marks. Population: 49 in 55, 61 finer (11/13). NGC ID# 268X, PCGS# 8916

**1855-S Liberty Twenty, Choice AU
Scarce in Finer Grades**

- 5210 1855-S AU55 NGC. CAC.** Like most Type One double eagles, the 1855-S was a rare issue in high grade before recent shipwreck finds made it somewhat more available. This impressive Choice AU example displays well-detailed design elements and lightly abraded orange-gold surfaces that retain much original mint luster. NGC ID# 268X, PCGS# 8916

5211 1856 AU50 ANACS. A lustrous orange-gold specimen of this popular Type One date with lightly abraded surfaces and slight wear on the design elements. The 1856 is scarce in AU50 condition. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 268Y, PCGS# 8917

5212 1856-S — Sea Salvaged — NGC Details. Unc. This fully struck orange-gold double eagle is unworn but the surfaces are granular from long-term exposure to saltwater. The reverse is minimally abraded and the obverse displays scattered moderate marks.

5213 1857 — Improperly Cleaned — NCS. Unc. Details. Unlike their San Francisco cousins, unworn 1857 Philadelphia twenties are seldom encountered. The present well struck caramel-gold double eagle displays horizontal hairlines on the obverse and diagonal hairlines on the reverse. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 2693, PCGS# 8920

1857-S Liberty Twenty, Bright AU58

5214 1857-S AU58 NGC. A heavily salvaged date from the S.S. *Central America* and other 1850s shipwrecks, this piece is not attributed to the *Central America* on the NGC insert, but in all likelihood spent 130 years on the ocean floor. Only a touch of wear or handling keeps it from a grade several points finer. The luster is abundant amid vibrant, yellow-gold color. This is a high-end AU, fully struck and minimally abraded for maximum appeal. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 2696, PCGS# 8922

1858-S Twenty, AU55 Slightly Better San Francisco Date

5215 1858-S AU55 NGC. Well struck, as usual for San Francisco Mint issues. In 1858, plenty of raw California gold flowed into the mint and more than 800,000 twenties of this date emerged. Most saw use in commerce while circulating widely throughout the U.S. This example retains remnants of bright mint luster especially in and around the devices. The surfaces, though lightly abraded, retain a pleasing look of old West gold. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 2699, PCGS# 8925

1860 Double Eagle, AU55 Pleasing Type One Example

5216 1860 AU55 NGC. Bright mint luster emanates from the recesses of this yellow-gold Choice AU specimen. Distributed minute marks are visible over both sides, each of which exhibits nicely defined design motifs. A small alloy spot is seen on the upper right part of the shield. *Ex: Long Beach Signature (Heritage, 5/2009), lot 1844.* NGC ID# 269D, PCGS# 8929

1861 Twenty Dollar, Semiprooflike AU55

5217 1861 AU55 NGC. Nice yellow-gold color and semiprooflike fields. The 1861 double eagle was the initial Civil War issue and a workhorse date with 2.9 million business strikes minted. Most saw considerable circulation but some, such as this coin, show only light wear. Numerous abrasions appear on both sides of this heavy coin consistent with the grade. NGC ID# 269G, PCGS# 8932

1861 Twenty, Choice AU Good Selection for a Type One

5218 1861 AU55 NGC. Fewer than expected circulation abrasions for this grade and ample mint luster make this Choice AU double eagle attractive and desirable. Bright yellow-gold color is consistent throughout. The 1861 twenty was heavily minted as the first Civil War era date — a workhorse issue with nearly three million pieces produced. Many circulated widely and it is seldom found so unabraded with original appeal unless in Mint or near-Mint condition. *Ex: 1987 Mid-Winter ANA Auction (Heritage, 2-3/1987), lot 1093, flip included.* *From The Ole Miner's Collection.* NGC ID# 269G, PCGS# 8932

1861 Double Eagle, AU55
Popular Type Coin

- 5219 1861 AU55 NGC. CAC.** Warm yellow-gold surfaces show undercurrents of honey and red and are well-defined. A briefly circulated, minimally marked example of this heavily minted issue (approaching 3 million pieces) that is popular with type collectors. The CAC label affirms the above-average eye appeal.
Ex: Long Beach Signature (Heritage Auctions, 9/2008), lot 4073.
NGC ID# 269G, PCGS# 8932

1861 Double Eagle, AU58
Former Common Date

- 5220 1861 AU58 NGC. CAC.** Prior to the treasure discoveries of the last two decades, the 1861 double eagle was the common date of the Type One series. While it is still available in Mint State grades, it is no longer considered a common date. That status belongs to the 1857-S. This near-Mint specimen has brilliant lemon-yellow surfaces with full luster and only a trace of wear on the high points. Both sides exhibit trivial marks. NGC ID# 269G, PCGS# 8932

1861-S Double Eagle, AU53
Portions of Mint Luster Remain

- 5221 1861-S AU53 NGC.** A lovely example, this S-Mint double eagle exhibits natural dark green patina on the high points and in the fields over still partially lustrous yellow surfaces. Both sides exhibit trivial grade-consistent marks.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 269K, PCGS# 8935

1863-S Double Eagle, AU50
Small S Mintmark

- 5222 1863-S AU50 NGC. Breen-7217.** Small S, about equal in scarcity with its Medium S alternative. Pockets of luster illuminate this lightly worn wheat-gold Civil War double eagle. Small to moderate marks are prevalent, customary for the grade, size, and alloy. Struck from clashed dies.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 269R, PCGS# 8940

1864 Twenty Dollar, AU50
Pleasing Type Coin for the Grade

- 5223 1864 AU50 PCGS.** This is an interesting and attractive twenty that would make a terrific coin for someone looking for a Type Two with slight evidence of circulation. The surfaces are minimally marked with intermingled reddish-gold and yellow-gold color. The fields are bright, suggesting this may have been a prooflike coin before it briefly entered the channels of commerce. Population: 39 in 50, 96 finer (11/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 269S, PCGS# 8941

1865 Twenty, Remarkably Clean AU50

- 5224 1865 AU50 NGC.** A collector coin through and through — still lustrous, minimally abraded and only moderately worn for the grade. Deep apricot-gold color attests to its use in commerce at the start of the post-Civil War era. Many AU examples of this date were brought up from the wreck of the *S.S. Republic*, but the insert does not indicate this.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 269U, PCGS# 8943

- 5225 1865-S XF45 NGC.** Small S, as usual, though a Medium S variety exists. This pumpkin-gold Liberty twenty displays obverse marks but luster is plentiful for the designated grade.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 269V, PCGS# 8944

- 5226 1866 AU50 NGC.** A luminous sun-gold example of the first With Motto double eagle issue. Aside from a sizable cut on Liberty's neck, marks are few, shallow, and scattered.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 269X, PCGS# 8949

**1866-S Double Eagle, XF45
With Motto Reverse**

- 5227 1866-S Motto XF45 NGC. CAC.** This Choice XF double eagle marks the debut of the With Motto design, or Type Two, Liberty double eagle. Both sides have pleasing light yellow surfaces with scattered grade-consistent marks and a trace of luster that clings to the protected areas. NGC ID# 269Y, PCGS# 8950

**1867 Liberty Twenty, AU58
Popular Type Two Issue**

- 5228 1867 AU58 NGC.** This pleasing near-Mint Type Two double eagle exhibits just a trace of wear on the design elements and the attractive yellow-gold surfaces display vibrant mint luster and a scattering of minor abrasions on both sides. Overall eye appeal is strong for the grade. NGC ID# 269Z, PCGS# 8951

**1867-S Type Two Twenty, Choice AU
Seldom Seen Finer**

- 5229 1867-S AU55 NGC.** This high-mintage Type Two twenty can be located in heavily circulated grades, but its availability usually tops out at AU55. Significant mint luster can still be seen around the devices of this two-toned, yellow-gold and reddish-gold, coin. Numerous small marks are scattered over each side, but none are of individual importance.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26A2, PCGS# 8952

**1867-S Double Eagle, AU55
Popular Type Two Issue**

- 5230 1867-S AU55 PCGS. CAC.** Small squat S. An original peach-gold Choice AU early Motto twenty that has considerable remaining luster in addition to the expected distribution of small to moderate marks. In XF, the 1867-S trades for only a small premium above bullion value. However, the issue is conditionally challenging. The median grade at PCGS is XF45, and Uncirculated examples are very rare. NGC ID# 26A2, PCGS# 8952

**1868 Twenty, Almost Uncirculated
Scarcer Type Two Issue**

- 5231 1868 AU50 ANACS.** Not quite 100,000 pieces were struck of the 1868 twenty, and examples are scarce today in all grades, especially AU and better. This orange-gold example retains a surprising amount of mint luster, but each side is peppered with numerous small abrasions. Slightly soft strike details in the centers.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26A3, PCGS# 8953

**1869-S Double Eagle, AU55
Lightly Abraded and Lustrous**

- 5232 1869-S AU55 PCGS. CAC.** This Choice AU Type Two double eagle displays well-detailed design elements with a touch of wear on the high points and vibrant mint luster on both sides. The pleasing yellow and greenish-gold surfaces are lightly abraded and eye appeal is strong for the grade. NGC ID# 26A6, PCGS# 8956

5233 1872-S AU53 NGC. CAC. The yellow and greenish-gold surfaces of this lightly circulated double eagle display a scattering of minor abrasions on both sides with traces of prooflike reflectivity in sheltered areas. NGC ID# 26AF, PCGS# 8965

5234 1873 Open 3 MS61 NGC. A popular and available Type Two issue, the 1873 Open 3 is an ideal type coin. This example has excellent luster with trivial surface marks on its light yellow and orange surfaces. NGC ID# 26AH, PCGS# 8967

**1873-S Closed 3 Twenty, MS61
More Available S-Mint Type Two**

5235 1873-S Closed 3 MS61 NGC. The difference in the price between the Open and Closed 3 1873-S twenty is significant, making the Closed 3 an excellent choice for a Type Two twenty. The surfaces on this piece are bright with shimmering yellow-gold color that is interrupted by only a few small marks, mostly seen on the obverse. NGC ID# 26AL, PCGS# 8969

5236 1873-S Open 3 — Rim Filing — NGC Details. Unc. Small Squat S. The reverse rim is filed near the U in UNITED and the obverse is moderately hairlined, but this double eagle is sharply detailed, and luster dominates protected areas. A conditionally scarce issue. NGC ID# 26AM, PCGS# 8979

**1874-S Twenty Dollar, Lustrous MS61
Type Two Issue Seldom Found Finer**

5237 1874-S MS61 PCGS. Lower grade 1874-S twenties can be located with relative ease, but Mint State examples generally are not found finer than the present coin. In fact, the numbers certified by both services drops precipitously above MS61. The mint luster on this yellow-gold example is only interrupted by a number of small to medium-sized abrasions scattered over each side (the medium-sized ones mostly limited to the upper left of the obverse). NGC ID# 26AR, PCGS# 8972

5238 1875 AU58 NGC. The design elements of this lightly abraded near-Mint example show just a trace of wear and the pleasing orange and rose-gold surfaces show the expected number of minor abrasions for the grade. NGC ID# 26AS, PCGS# 8973

**1875-CC Twenty, XF45
Fully Original With Choice Fields**

5239 1875-CC XF45 NGC. Variety 3-B. Tawny-gold toning with plenty of underlying luster gives this high-end XF special appeal. There is ample evidence of circulation but few distractions of any note to affect the desirability of this Type Two double eagle. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 26AT, PCGS# 8974

1875-CC Double Eagle, AU50

5240 1875-CC AU50 PCGS. Variety 4-A. This mildly glossy lemon-gold Carson City type coin has luminous luster about design elements. The obverse displays scattered minor abrasions while the reverse is relatively unmarked. The strike is good though blending is noted near the right shield corner. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 26AT, PCGS# 8974

**1875-CC Twenty, AU55
Lustrous Yellow-Gold Surfaces**

5241 1875-CC AU55 NGC. Variety 4-A. The 1875-CC double eagle is among the most obtainable Carson City issues in Uncirculated and Choice AU condition. As such, it is a favorite with type coin collectors. This rich, yellow-gold representative has a whisper of orange toning on the rims framing lightly abraded fields for a nice, original appearance. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 26AT, PCGS# 8974

**1875-CC Double Eagle, Unc Details
Popular Mintmark Type Coin**

- 5242 1875-CC — Obverse Improperly Cleaned — NGC Details. Unc.** From a mintage of 111,151 pieces, the 1875-CC Liberty double eagle is one of the most available Carson City issues and a favorite choice of mintmark type collectors. The brassy-gold surfaces display well-struck design elements and a fair amount of luster. Some light hairlines are noted in the fields, especially on the obverse.
Ex: Krugjohann Collection (Bowers and Ruddy, 5/1976), lot 889, flip included.
From The Ole Miner's Collection.

- 5243 1876-CC XF45 NGC. Variety 1-A.** This butter-gold Carson City representative displays noticeable luster and is free from any detracting abrasions. The eagle's plumage is well defined and the curls show only light wear.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26AW, PCGS# 8977

**1876-CC Twenty, AU53
Scarcer Die Pairing**

- 5244 1876-CC AU53 NGC. Variety 5-B.** This light-yellow, Type Two Carson City issue — the last of its kind — has the largest mintage of any Carson City double eagle. It is a favorite for type collectors and Carson City specialists alike. This piece displays bright, semireflective fields on both obverse and reverse, and both sides of the coin are lightly abraded with normal circulation wear for the grade. Variety 5-B is indicative of a normally spaced mintmark with the first C centered over the upright of N and the second C over the T in TWENTY.
Ex: Peach State '86 Auction (Palm Beach Rare Coin Auctions, 11/1986), lot 968, flip included.
From The Ole Miner's Collection. NGC ID# 26AW, PCGS# 8977

**1876-CC Twenty, AU53
Lustrous, Mid-1870s Carson City Gold**

- 5245 1876-CC AU53 NGC. Variety-4A.** An attractive, lightly circulated double eagle with green-gold toning on the obverse and a sun-gold reverse. A few scattered, minor circulation abrasions exist but even wear has muted many light scuffs so the fields and devices appear remarkably smooth. Several die combinations exist for the 1876-CC despite a relatively low mintage of 138,441 pieces. This is one of the more interesting combinations with the top of an 8 mispunched in the denticles.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26AW, PCGS# 8977

- 5246 1877 MS61 PCGS. CAC.** An example of the first of the Type Three double eagles, stemming from a reverse modification that changed the denomination from TWENTY D. to TWENTY DOLLARS. The 1877 Liberty double eagle claims a moderate mintage of 397,650 pieces, and the issue is scarce in Mint State grades today. Attractive luster remains on this lovely example displaying shades of yellow-gold and green. A few small alloy spots and areas of as-made struck-in grease are present. NGC ID# 26AY, PCGS# 8982

**1877 Twenty Dollar, MS62
Initial Year of the Type Three Design**

- 5247 1877 MS62 NGC.** The 1877 is curiously unavailable in mint condition, few examples have been certified finer than the present coin (only 32 pieces at both services combined). That unavailability in higher grades makes this coin a good value for the collector. The reddish-tinged gold surfaces are minimally marked for an MS62, and the strike is bold throughout. NGC ID# 26AY, PCGS# 8982
- 5248 1877-CC VF35 PCGS. Variety 1-B.** At least five die pairings exist despite a scant mintage of 42,565 pieces. This Choice VF Carson City twenty is primarily wheat-gold but displays rich russet-red toning in protected areas. A few marks are scattered along with moderate hairlines.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26AZ, PCGS# 8983
- 5249 1877-S MS61 PCGS.** An early Type Three twenty, this piece has flashy yellow-gold luster and solid interior detail. The surfaces reveal a few tiny alloy spots. An important San Francisco issue. NGC ID# 26B2, PCGS# 8984

1878-CC Twenty, VF35
Rare and Desirable in Any Grade

- 5250 1878-CC VF35 NGC. Variety 1-A.** A key date in the Carson City series, the mint struck just 13,180 double eagles for the year including two die marriages. Variety 1-A features a wide CC mintmark and is the one most often encountered. With solid VF details, this moderately worn example is essentially bright with a whisper of orange overtones primarily on the reverse. A few circulation marks (but nothing heavy) appear on smooth fields. Census: 25 in 35, 265 finer (10/13).
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26B4, PCGS# 8986

1879-CC Twenty Dollar, VF20
Old Green Label Holder

- 5251 1879-CC VF20 PCGS. Variety 1-A.** Mintages of double eagles at Carson City were always much less than at San Francisco, but the 1879-CC delivery was especially stingy. A mere 10,708 pieces were issued. The present example is sharply detailed for the VF20 grade. Minimally bagmarked and faintly hairlined with glimpses of orange-gold remaining luster and lime-green toning across the open fields. Housed in an old green label holder.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26B7, PCGS# 8989

1883-CC Twenty, XF45
Vibrant Gold Surfaces, Largely Unabraded

- 5252 1883-CC XF45 NGC. Variety 2-A.** The 1883-CC double eagle is often found heavily abraded. This example is an exception, having bright gold surfaces with remarkably few marks for the grade. Some softness of strike is seen on the upper hair, bun, and adjacent denticles but the positive eye appeal and clean surfaces make up for any weakness of strike. The reverse is fully AU with much cartwheel luster.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26BH, PCGS# 8999

1884-CC Twenty, Apricot-Gold XF45

- 5253 1884-CC XF45 NGC. Variety 1-A.** Possibly this coin was fully prooflike when new from the Carson City Mint. Today, the reflective flash remains beneath surface wear that is consistent with the XF45 designation. Blushes of orange and apricot-gold toning give the devices an attractive patina with the look of watchcase gold.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26BK, PCGS# 9001

1884-CC Double Eagle, AU55
Good Remaining Luster

- 5254 1884-CC AU55 NGC. Variety 1-A.** Lustrous yellow-gold color embraces the surfaces in a cartwheel effect. Touches of green-gold hug the devices, but there are no copper spots or discoloration that sometimes appear on this Carson City issue. Variety 1-A is the only recorded die pairing for the date.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26BK, PCGS# 9001

- 5255 1884-S MS62 PCGS.** Broadly swirling yellow-gold luster shows elements of orange. Well-defined overall but with several abrasions and scuffs on and near the portrait. NGC ID# 26BL, PCGS# 9002

- 5256 1889 MS60 PCGS.** Softly rolling yellow-orange luster has coppery high points. Well-struck with two lines of reed marks on the cheek and a cut on the neck largely accounting for the grade. Housed in a green label holder.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 2695, PCGS# 9010

- 5257 1889-CC XF40 NGC. Variety 1-A.** Traces of bright luster emerge from recesses of this butter-gold Carson City double eagle. The curls display the expected amount of wear. Small abrasions are distributed, but none merit individual discussion.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26BV, PCGS# 9011

1889-CC Double Eagle, Well-Defined AU53

5258 1889-CC AU53 NGC. Only 30,945 Liberty double eagles were struck at the Carson City Mint in 1889, but the date is not as elusive as the small production total would suggest. The 1889-CC was represented in at least one hoard that surfaced in the 1990s, and Doug Winter estimates a surviving population of 800-900 examples in all grades. Most specimens seen grade XF-AU. Reddish-gold patina graces both sides of this AU53 coin with luster retained in the recesses. Relatively well-struck and minimally marked.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26BV, PCGS# 9011

5259 1890-CC VF35 PCGS. Variety 1-A. A wheat-gold Carson City twenty with generous luster extent for the Choice VF level. PLURIBUS is lightly die doubled. A few moderate field marks near the profile. The usual late die state with partly lapped tail feathers.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26BY, PCGS# 9014

**1890-CC Double Eagle, Choice AU
Bright Surfaces, Popular Type Coin**

5260 1890-CC AU55 PCGS. While not rare in the strict sense of the word with a mintage of 91,209 pieces, the 1890-CC is a popular coin because of the popularity of the Carson City mint and constant demand for type coins from this short-lived facility. This is a bright, subtly colored example whose only flaws are several parallel abrasions located between Liberty's eye and nose.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26BY, PCGS# 9014

**1891-S Twenty Dollar, MS63
Lustrous and Appealing**

5261 1891-S MS63 PCGS. CAC. CAC gave this coin its endorsement and so do we, the surfaces alive with blazing mint luster over deep apricot-gold surfaces. The collecting of Type Three S-mint Liberty twenties can be a rewarding and profitable numismatic pursuit. This piece is sharply struck and relatively unmarked, a couple of minor luster grazes determining the grade. NGC ID# 26C4, PCGS# 9018

**1892-CC Twenty, XF45
Low-Mintage CC Double Eagle**

5262 1892-CC XF45 NGC. Variety-1A. There were just 27,265 coins produced of this late-date, Carson City twenty. Tinges of green-gold are spread across the obverse while the lighter gold reverse retains hints of rust-red around the letters. This pleasant double eagle has normal wear and circulation marks for the grade.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26C6, PCGS# 9020

5263 1893-CC — Improperly Cleaned — NGC Details. AU. Variety 2-A. The final Carson City double eagle issue has a scant mintage of 18,402 pieces. This sharp sun-gold example is somewhat bright from a past wipe and has a subtle rim ding at 2 o'clock on the reverse. NGC ID# 26C9, PCGS# 9023

5264 1898 MS62 PCGS. A pleasing example with lustrous honey-gold surfaces, this double eagle exhibits delicate pink overtones with splashes of deep olive color. A few small dark spots remain from the planchet rolling process.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26CK, PCGS# 9033

**1898-S Liberty Double Eagle, MS62
Rare Prooflike Specimen**

5265 1898-S MS62 Prooflike NGC. The 1898-S Liberty double eagle was produced in large numbers, but examples with prooflike surfaces are rare. This impressive MS62 example exhibits sharply detailed design elements and brightly mirrored fields. The light yellow and greenish-gold surfaces show a number of evenly distributed minor contact marks on both sides. Census: 32 in 62 (1 in 62 ★) Prooflike, 17 finer (11/13). PCGS# 79034

5266 1900 MS64 NGC. A delightful Choice example of this popular date, with lightly marked peach-gold surfaces that radiate vibrant mint luster and sharply detailed design elements throughout. Eye appeal is terrific.
From The Ole Miner's Collection. NGC ID# 26CP, PCGS# 9037

**1902 Liberty Twenty, MS61
Low-Mintage 20th Century Issue**

5267 1902 MS61 PCGS. The 1902 Liberty double eagle claims a low mintage of just 31,140 pieces and the date is scarce in all grades. This attractive MS61 example exhibits well-detailed design elements and vibrant frosty mint luster. The vivid yellow and greenish-gold surfaces show only grade-consistent contact marks. NGC ID# 26CU, PCGS# 9041

5268 1904 MS65 PCGS. Rich orange-gold color accented with splashes of subtle mint-green adorns the radiantly lustrous surfaces of this lovely Gem. Well struck and highly lustrous with few marks. This is an excellent piece for a high-grade type collection. Encapsulated in a green label holder.
Ex: E.J. Mutton Collection of U.S. Gold (Heritage, 10/2009), lot 1808, which realized \$4,612.65. NGC ID# 26CY, PCGS# 9045

**1904 Liberty Double Eagle, MS66
Only Three Numerically Finer at Both Services**

5269 1904 MS66 PCGS. It is believed that a large percentage of the over 6 million 1904 double eagles minted were sent overseas to European countries as part of financial transactions. Although these coins are plentiful through the Gem level, the population drops off dramatically at the Premium Gem level and they are downright scarce any finer. PCGS and NGC combined have awarded higher numeric grades to a mere 3 examples (10/13). This Premium Gem coin displays rich golden-orange color and strong luster. Adding to the appeal, the piece exhibits minimal abrasions. NGC ID# 26CY, PCGS# 9045

**1905 Twenty, Crisp MS61
Popular Low-Mintage Date**

5270 1905 MS61 NGC. Brilliant with rich gold color, this coin is quite lustrous for the grade. A few areas of green-gold patina add a look of originality to the surfaces. Some minor abrasions exist on this heavy coin but nothing individually noteworthy — just a few normal marks, less than expected for an MS61 specimen. The overall impression is a bright and frosted Uncirculated double eagle, one of just 58,919 produced for this low-mintage date.
*Ex: FUN Signature (Heritage, 1/2003), lot 9184.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26D2, PCGS# 9047*

5271 1906 MS61 NGC. The 1906 double eagle is a scarce, low-mintage issue with a total production of only 69,500 coins. This survivor has brilliant orange-gold luster with scattered, grade-consistent marks.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26D4, PCGS# 9049

SAINT-GAUDENS DOUBLE EAGLES

5272 1907 Arabic Numerals MS64 PCGS. A splendid example of the Charles Barber rendition of Augustus Saint-Gaudens' double eagle design. This Choice Mint State piece has bold design motifs with bright yellow-gold luster and scattered surface marks on each side.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 26F5, PCGS# 9141

**1907 Saint-Gaudens Twenty, MS65
Arabic Numerals**

5273 1907 Arabic Numerals MS65 PCGS. A stunning Gem 1907 double eagle featuring Charles Barber's modification of Saint-Gaudens' design. Both sides have exceptional surfaces with beautiful orange color on the brilliant yellow surfaces, showing additional splashes of pale blue patina. NGC ID# 26F5, PCGS# 9141

5274 1908 No Motto, Wells Fargo Nevada MS66 PCGS. Short Rays obverse. A peach-gold beauty whose vibrant luster, crisp strike, and outstanding preservation combine to command imposing eye appeal. Certified in a green label holder. NGC ID# 26F6, PCGS# 9142

5275 1908 No Motto, Wells Fargo Nevada MS66 PCGS. Short Rays Obverse. This gorgeous and lustrous apricot-gold Premium Gem is nearly pristine except for a few tiny ticks on the rays beneath the eagle. Certified in a green label holder.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. PCGS# 99142

- 5276 1908 Motto MS63 PCGS. CAC.** A pleasing Select example from the first year of the Motto design, this coin displays vivid orange-gold surfaces and vibrant mint luster with well-detailed design elements. Eye appeal is strong for the grade. NGC ID# 26F8, PCGS# 9147

**1908 Motto Double Eagle, MS64+
Lustrous and Well-Struck**

- 5277 1908 Motto MS64+ PCGS.** The motto IN GOD WE TRUST was added to the design of the double eagle half way through the year in 1908. This issue is more elusive than its No Motto counterpart. This yellow-gold high-end near-Gem displays nice luster and is well-struck, including Liberty's facial features and fingers and the panes of the Capitol building. Population: 23 in 64+, 77 finer (11/13). NGC ID# 26F8, PCGS# 9147

- 5278 1908-S — Cleaning — PCGS Genuine. XF Details.** The low mintage 1908-S is among the scarcer pre-World War issues. This apricot-gold example is mildly bright from a wipe and exhibits moderate wear on Liberty's raised knee and the eagle's breast. NGC ID# 26FA, PCGS# 9149

- 5279 1909 MS63 PCGS.** The 1909 is a scarce issue, stemming from a rather low mintage of 161,282 coins. Half of those were overdates, further increasing the importance of the Normal Date example. A pleasing Select Mint State piece, this double eagle has brilliant lemon-yellow surfaces with scattered grade-consistent marks. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 26FB, PCGS# 9150

- 5280 1911-D/D MS63 PCGS. FS-501.** The curve of the mintmark is boldly repunched west. A lustrous butter-gold Select type coin with vibrant luster, a crisp strike, and no consequential marks. PCGS# 145010

- 5281 1911-D/D MS64 NGC. CAC. FS-501.** The curve of an undertype D is visible to the right of the primary mintmark. This sharply detailed Choice example displays vibrant mint luster and lightly marked orange-gold surfaces. The old FS number is listed on the holder. PCGS# 145010

**1911-S Double Eagle, MS65
Difficult Any Finer**

- 5282 1911-S MS65 PCGS.** Frosty luster resides on the yellow-gold surfaces of this Gem. Strong detail on Liberty's facial features and fingers and the panes of the Capitol building attest to the sharp strike. This is a well-preserved piece that is extremely difficult to locate any finer. NGC ID# 26FL, PCGS# 9159

**1911-S Twenty Dollar, MS65
Generous Luster and Bold Strike**

- 5283 1911-S MS65 PCGS.** Generous mint luster and a bold strike complement attractive peach-gold surfaces on this Gem 1911-S double eagle, an available grade for the issue but seldom bettered: PCGS has seen only 29 submissions numerically finer (10/13). The issue is popular as a well-made S-mint Saint from the decade of the 1910s, as this example amply demonstrates. NGC ID# 26FL, PCGS# 9159

**1911-S Saint-Gaudens Twenty, MS65
Seldom Encountered Finer**

- 5284 1911-S MS65 PCGS.** The 1911-S Saint-Gaudens double eagle surfaced in a Central American hoard in 1983, making the issue available in most grades. The date is still very scarce above the MS65 level, however. This delightful Gem is sharply detailed and lustrous, with well-preserved yellow and rose-gold surfaces. PCGS has graded 29 numerically finer examples (11/13). NGC ID# 26FL, PCGS# 9159

- 5285 1914 MS62 PCGS.** The pre-World War I P-Mint double eagles are all scarce issues from low mintages. For example, the 1914 had a production of only 95,250 coins. Survivors are elusive. This pleasing Mint State piece has dusky patina over frosty yellow surfaces with scattered, grade-consistent marks. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 26FS, PCGS# 9164

- 5286 1914-S MS65 PCGS.** Broadly lustrous with yellow-orange color overall and occasional hints of copper-blue at the margins. A handful of abrasions have collected on the reverse sun disk. NGC ID# 26FU, PCGS# 9166

- 5287 1915-S MS65+ PCGS. CAC.** This high-end Gem is sharply detailed and lustrous, with pleasing greenish-gold surfaces that show few signs of contact. The 1915-S is scarce in grades above the Gem level. NGC ID# 26FW, PCGS# 9168

1922 Double Eagle, Sharply Struck MS65

5288 1922 MS65 PCGS. Enough 1922 double eagles have survived in various hoards to make this one of the more plentiful dates in the Saint-Gaudens twenty dollar series. Examples are readily available through the Gem level of preservation but higher-grade pieces are extremely rare. The intensely lustrous surfaces of this MS65 specimen exhibit sharply struck design elements, including Liberty's facial features and fingers on the branch and the panes in the Capitol building. Light marks are in concert with the grade designation. PCGS has seen only eight pieces finer (10/13). NGC ID# 26G3, PCGS# 9173

5289 1923-D MS66 PCGS. CAC. A broadly lustrous Premium Gem example of one of the most popular mintmarked Saint-Gaudens double eagle type issues. Light apricot surfaces show numerous garnet and crimson dots of copper-toning. A bright area at the A in DOLLARS is as-struck. NGC ID# 26G6, PCGS# 9176

5290 1924 MS65 PCGS. A lovely example of the plentiful 1924 twenty, the most common date in the series and an ideal type issue. This Gem has brilliant yellow surfaces with frosty luster and excellent eye appeal. NGC ID# 26G7, PCGS# 9177

5291 1924 MS66+ PCGS. CAC. The vivid orange-gold surfaces are well-preserved and show a few highlights of lilac. The design elements are sharply detailed and eye appeal is tremendous. The 1924 Saint-Gaudens twenty is a favorite choice of type collectors. NGC ID# 26G7, PCGS# 9177

5292 1924-D — Cleaning — PCGS Genuine. AU Details. Both sides show light wear and a past cleaning has rendered this D-mint double eagle's yellow-gold surfaces only vaguely lustrous. Even so, this example offers collectors who might otherwise be frozen out of the melt rarities a chance to own the 1924-D twenties. NGC ID# 26G8, PCGS# 9178

1924-D Twenty, Near-Mint Heavily Melted Issue

5293 1924-D AU58 NGC. This date was subjected to mass melting along with other gold coins in the 1930s, shortly after the Great Depression. President Roosevelt recalled all gold from circulation and storage with the intention of eventual melting and conversion into ingots. A few were paid out to collectors and, over the years, some that were exported overseas made their way back into collector hands. Today, the 1924-D twenty remains scarce.

There is little actual wear on this bright and lustrous Denver Mint double eagle. Several individual abrasions, none overly severe, account for the Choice AU designation. A hint of rose on the eye-catching, gold surfaces enhances the visual appeal of the coin. Cartwheel luster abounds as usual for this date and mint, one that is known for above average brilliance and strong, orange-gold color. *From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.* NGC ID# 26G8, PCGS# 9178

1925 Double Eagle, MS66+ Unmarked Colorful Surfaces

5294 1925 MS66+ PCGS. CAC. The 1925 Saint-Gaudens double eagle claims a mintage of more than 2.8 million pieces and the date is readily available in grades up to the MS66 level. Finer examples are quite rare however. This high-end Premium Gem exhibits sharply detailed design elements and vibrant mint luster, with well-preserved yellow and rose-gold surfaces. PCGS has graded five numerically finer examples (11/13). NGC ID# 26GA, PCGS# 9180

5295 1925 Doubled Die Reverse MS65 PCGS. FS-801. Portions of the eagle's plumage are strongly die doubled. This lustrous and boldly struck Gem has pleasing eye appeal despite minor marks near the right (facing) arm and a few tiny obverse spots. PCGS# 145743

**1926 Saint-Gaudens Twenty, MS66
Vivid Color, Vibrant Luster**

5296 1926 MS66 PCGS. The 1926 Saint-Gaudens double eagle is and available issue in grades up to the MS66 level, but finer examples are very rare. This delightful Premium Gem exhibits razor-sharp definition on all design elements and the pristine orange-gold surfaces radiate vibrant mint luster. PCGS has graded only three numerically finer examples (11/13). NGC ID# 26GD, PCGS# 9183

5297 1926 MS66 PCGS. This amazing Premium Gem approaches the finest available to collectors, as PCGS has only certified three finer examples (11/13). Both sides have rich orange toning over brilliant yellow-gold luster. A few surface ticks and tiny copper spots prevent a higher grade. NGC ID# 26GD, PCGS# 9183

**1926-S Double Eagle, Unc Details
Minimally Marked**

5298 1926-S — Obverse Improperly Cleaned — NGC Details. Unc. Both sides of this S-mint example display brassy-gold color and each is well-struck. A few minute marks are scattered about, but these do not detract. The prospective bidder should not be dissuaded by the NGC disclaimer as the cleaning is not all that bad. The 1926-S is scarce in Mint State.
Ex: Krugjohann Collection (Bowers and Ruddy, 5/1976), lot 944, flip included.
From The Ole Miner's Collection.

5299 1927 MS65+ PCGS. Subtly frosty luster is smooth and delightful on this Gem-Plus type coin. Minor softness on the top of the torch draws attention to a small nearby rim irregularity. NGC ID# 26GG, PCGS# 9186

5300 1927 MS66 NGC. A spectacular Premium Gem example of this favorite type issue, with sharply detailed design elements and vibrant mint luster on both sides. The well-preserved yellow and rose-gold surfaces show no mentionable signs of contact. NGC ID# 26GG, PCGS# 9186

5301 1927 MS66+ PCGS. Subtly frosted on the high points and impressively preserved. Apricot-gold surfaces with orange accents are beautifully smooth in their luster. PCGS has graded only 14 pieces as MS67 or finer (11/13). NGC ID# 26GG, PCGS# 9186

5302 1927 MS66+ PCGS. This high-end Premium Gem exhibits well-detailed design elements and vibrant mint luster under vivid shades of orange and greenish-gold patina. Eye appeal is terrific. PCGS has graded 14 numerically finer examples (11/13). NGC ID# 26GG, PCGS# 9186

CALIFORNIA FRACTIONAL GOLD

5303 1853 Liberty Round 50 Cents, BG-421, R.4, MS65 NGC. A pleasing early series fractional gold piece, produced by jewelers to fill the need for small change in California during the later stages of the gold rush. This Gem has splashes of lemon patina on its green-gold surfaces. Census: 2 in 65, 0 finer (11/13). PCGS# 10457

5304 1859 Liberty Octagonal 25 Cents, BG-702, R.3, MS66 Prooflike NGC. An undisturbed sun-gold octagonal quarter with mirrored fields and a good strike. The central reverse displays remnants of the planchet texture. As of (10/13), NGC has certified 3 pieces as Prooflike, with the present lot as the single finest.
Ex: Fred Neggen Estate (Superior, 2/1976), lot 1008.
From The Ole Miner's Collection. PCGS# 710529

5305 1871 Liberty Octagonal 25 Cents, BG-714, R.3, MS66 PCGS. A hint of blue-green overtone indicates the presence of silver in this Liberty Octagonal quarter dollar. Liberty's portrait has excellent detail. Population: 26 in 66, 1 finer (11/13). PCGS# 10541

5306 1873 Liberty Octagonal 25 Cents, BG-727, High R.4, MS66 PCGS. Primarily yellow-gold with dots of deep color at the top-back of Liberty's head and a hint of blue in the broad and semireflective reverse field. Great all-around eye appeal. Population: 6 in 66, 1 finer (11/13). PCGS# 10554

5307 1875 Indian Octagonal 25 Cents, BG-796, R.5, MS66 PCGS. An immaculate octagonal quarter that boasts mirrored fields and an even strike. Heritage also auctioned the other PCGS MS66, in our 1994 East Coast Expo Bullet. Population: 2 in 66, none finer (11/13). PCGS# 10623

5308 1881 Indian Octagonal 25 Cents, BG-7990, Low R.4, MS66 Prooflike NGC. Mirrored canary-gold fields contrast with radiant motifs. Essentially as made with occasional minor "ghost" recessions in the fields from the opposite die through the flan. Well struck aside from the A in DOLLAR. Census: 3 in 66 Prooflike, 2 in 67 Prooflike, 5 in 66 Deep Prooflike, 1 in 67 Deep Prooflike (11/13). PCGS# 710641

**1870 Round Liberty Quarter
MS67, BG-808**

- 5309 1870 Liberty Round 25 Cents, BG-808, R.3, MS67 NGC.** A pristine sun-gold Superb Gem with flashy fields and excellent eye appeal. Concentric die lines emerge beneath a loupe, as coined. The centers display minor incompleteness of strike due to the basined reverse die. Census: 4 in 67, 2 finer as 67 Prooflike (11/13). PCGS# 10669

- 5310 1872 Washington Round 25 Cents, BG-818, Baker-A504, Low R.4, MS63 PCGS.** Blazing gold and silver surfaces provide this Select example with strong eye appeal. Minor incompleteness of strike in the centers is all that precludes an even higher grade. BG-818 is the only round Washington quarter variety, although three octagonal Washington varieties exist, BG-722 to BG-724. Population: 24 in 63, 60 finer (10/13). PCGS# 10679

- 5311 1872/1 Indian Round 25 Cents, BG-869, Low R.4, MS66 Prooflike NGC.** A prominently mirrored lemon-gold high grade example. The motifs are well struck and there are no detractors. The vertical die crack through the reverse center is usual for the variety. Census: 2 in 66 Prooflike, 1 in 67 Prooflike, 1 in 66 Deep Prooflike (10/13).

Ex: Fred Neggen Estate (Superior, 2/1976), lot 1013.

From The Ole Miner's Collection. PCGS# 710730

- 5312 1866 Liberty Round 50 Cents, BG-1006, R.5, MS66 NGC.** Flashy fields show significant cracking from die strain. Though the engraving on portrait and wreath is typically crude, this coin has good eye appeal for what it is. PCGS# 10835

End Of Session Four

SESSION FIVE

Heritage Live!®, Internet, Fax, and Mail Only Session

Saturday, December 7, 2013 | 3:00 PM CT | Dallas | Lots 7001 - 8227

A 17.5% Buyer's Premium (\$14 minimum) Will Be Added To All Lots

To view full descriptions, enlargeable images and bid online, visit HA.com/1192

SPECIAL INTERNET BIDDING FEATURE

Online proxy bidding ends at HA.com two hours prior to the opening of the live auction. Check the Time Remaining on individual lots for details. After Internet proxy bidding closes, live bidding will take place through Heritage Live!®, our bidding software that lets you bid live during the actual auction. Your secret maximum will compete against those bids, and win all ties. To maximize your chances of winning, enter realistic secret maximum bids before live bidding begins. (Important note: Due to software and Internet latency, bids placed through Live Internet Bidding may not register in time and those bidders could lose lots they would otherwise have won, so be sure to place your proxy bids in advance.)

7654 1875-CC — Improperly Cleaned — NGC Details. AU. NGC Census: (21/419). PCGS Population (51/514). Mintage: 133,290. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$975.

7655 1875-CC — Smoothed — PCGS Genuine. AU Details. NGC Census: (21/418). PCGS Population (51/514). Mintage: 133,290. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$975. NGC ID# 23R6, PCGS# 5297

7656 1875-S — Obverse Repaired — NGC Details. Unc. NGC Census: (19/1424). PCGS Population (36/1453). Mintage: 1,155,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$535.

7657 1876 MS60 ANACS. NGC Census: (4/269). PCGS Population (13/254). Mintage: 14,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$740.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23R8, PCGS# 5299

EARLY QUARTERS

7658 1805 Good 4 PCGS. PCGS Population (40/444). NGC Census: (18/241). Mintage: 121,394. Numismedia Wsl. Price for problem free NGC/PCGS coin in Good 4: \$400.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23RC, PCGS# 5313

7659 1806 — Improperly Cleaned — NGC Details. VG. B-9. NGC Census: (41/292). PCGS Population (70/509). Mintage: 206,124. Numismedia Wsl. Price for problem free NGC/PCGS coin in VG8: \$550.

7660 1806 Fine 12 PCGS. CAC. PCGS Population (70/357). NGC Census: (26/244). Mintage: 206,124. Numismedia Wsl. Price for problem free NGC/PCGS coin in Fine 12: \$850. NGC ID# 23RD, PCGS# 5314

7661 1807 VG8 NGC. CAC. B-1. NGC Census: (15/143). PCGS Population (28/225). Mintage: 220,643. Numismedia Wsl. Price for problem free NGC/PCGS coin in VG8: \$550. NGC ID# 23RE, PCGS# 5316

BUST QUARTERS

7662 1820 Small 0 VG10 PCGS. PCGS Population (5/78). NGC Census: (6/122). Mintage: 127,444. Numismedia Wsl. Price for problem free NGC/PCGS coin in VG10: \$149. NGC ID# 23RL, PCGS# 5328

7663 1821 VF20 PCGS. PCGS Population (24/187). NGC Census: (6/177). Mintage: 216,851. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$575.

From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23RM, PCGS# 5331

7664 1822 VG10 PCGS. PCGS Population (14/129). NGC Census: (3/91). Mintage: 64,080. Numismedia Wsl. Price for problem free NGC/PCGS coin in VG10: \$276. NGC ID# 23RN, PCGS# 5332

7665 1824/2 — Damaged, Cleaned — ANACS. VG8 Details. B-1. NGC Census: (7/54). PCGS Population (15/113). Mintage: 24,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VG8: \$1,075.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.

7666 1831 Small Letters XF45 PCGS. PCGS Population (51/326). NGC Census: (33/405). Mintage: 398,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$441. NGC ID# 23RW, PCGS# 5348

7667 1831 Small Letters — Whizzed — ANACS. AU58 Details. NGC Census: (90/223). PCGS Population (50/163). Mintage: 398,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$775.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.

7668 1832 XF40 ANACS. NGC Census: (5/103). PCGS Population (19/126). Mintage: 320,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$350.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23RX, PCGS# 5351

7669 1832 AU53 PCGS. PCGS Population (10/82). NGC Census: (5/80). Mintage: 320,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$640. NGC ID# 23RX, PCGS# 5351

7670 1833 AU50 ANACS. NGC Census: (7/92). PCGS Population (19/60). Mintage: 156,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$650.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23RY, PCGS# 5352

7671 1834 AU50 NGC. NGC Census: (18/280). PCGS Population (48/240). Mintage: 286,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$575.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23RZ, PCGS# 5353

7672 1834 — Rotated Dies, Improperly Cleaned — NGC Details. Unc. NGC Census: (2/155). PCGS Population (2/115). Mintage: 286,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$650.

7673 1835 XF40 NGC. NGC Census: (43/311). PCGS Population (94/260). Mintage: 1,952,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$350. NGC ID# 23S2, PCGS# 5354

7674 1835 XF40 PCGS. CAC. PCGS Population (94/260). NGC Census: (43/311). Mintage: 1,952,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$350. NGC ID# 23S2, PCGS# 5354

7675 1835 XF45 PCGS. CAC. PCGS Population (59/201). NGC Census: (63/248). Mintage: 1,952,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$438. NGC ID# 23S2, PCGS# 5354

7676 1837 VF35 PCGS. PCGS Population (30/185). NGC Census: (6/203). Mintage: 252,400. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF35: \$274.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23S4, PCGS# 5356

7677 1837 B-4, R.3 AU55 NGC. NGC Census: (16/123). PCGS Population (16/96). Mintage: 252,400. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$725. NGC ID# 23S4, PCGS# 5356

SEATED QUARTERS

7678 1838 No Drapery XF45 NGC. NGC Census: (14/129). PCGS Population (24/114). Mintage: 466,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$420. NGC ID# 23SE, PCGS# 5391

7679 1838 No Drapery AU50 ANACS. NGC Census: (5/124). PCGS Population (15/99). Mintage: 466,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$550.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23SE, PCGS# 5391

7680 1839 No Drapery — Cleaned — ANACS. AU50 Details. NGC Census: (7/80). PCGS Population (8/79). Mintage: 491,146. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$560.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.

7681 1840-O No Drapery XF40 NGC. NGC Census: (15/97). PCGS Population (15/63). Mintage: 382,200. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$375. NGC ID# 23SG, PCGS# 5393

7682 1840-O No Drapery — Cleaned — ANACS. AU53 Details. NGC Census: (6/66). PCGS Population (5/40). Mintage: 382,200. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$725.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.

7683 1841-O — Edge Corroded — ANACS. MS60 Details. NGC Census: (1/32). PCGS Population (3/40). Mintage: 452,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$600.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation.

7684 1842 Large Date AU53 ANACS. NGC Census: (1/28). PCGS Population (2/18). Mintage: 88,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$725.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 23SM, PCGS# 5401

- 8208 1798 Large Eagle — Improperly Cleaned — NGC Details.** VG. NGC Census: (24/1283). PCGS Population (30/1610). Mintage: 327,536. Numismedia Wsl. Price for problem free NGC/PCGS coin in VG8: \$1,000.

SEATED DOLLARS

- 8209 1841 — Obverse Scratched — NGC Details.** XF. NGC Census: (13/178). PCGS Population (37/237). Mintage: 173,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$625.
- 8210 1842 XF45 NGC.** NGC Census: (74/326). PCGS Population (128/296). Mintage: 184,618. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$645. NGC ID# 24YC, PCGS# 6928
- 8211 1844 Fine 12 PCGS.** PCGS Population (1/225). NGC Census: (0/145). Mintage: 20,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in Fine 12: \$275.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24YE, PCGS# 6930
- 8212 1844 VF35 PCGS.** PCGS Population (12/191). NGC Census: (1/138). Mintage: 20,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF35: \$562. NGC ID# 24YE, PCGS# 6930
- 8213 1844 Double Die Obverse — Cleaned, Damaged — ANACS. AU50 Details.** DDO. NGC Census: (11/100). PCGS Population (31/107). Mintage: 20,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,150. NGC ID# 24YE, PCGS# 6930
- 8214 1844 Double Die Obverse — Cleaned — ANACS. AU53 Details.** DDO. NGC Census: (13/87). PCGS Population (20/87). Mintage: 20,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$1,475.
- 8215 1846 — Obverse Damage — NGC Details.** XF. NGC Census: (23/367). PCGS Population (74/416). Mintage: 110,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$550.
- 8216 1846 XF45 NGC.** NGC Census: (65/302). PCGS Population (105/311). Mintage: 110,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$664. NGC ID# 24YG, PCGS# 6932

8217 1872 AU50 NGC. NGC Census: (28/214). PCGS Population (62/223). Mintage: 1,106,450. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$735.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 24ZJ, PCGS# 6968

TRADE DOLLARS

8218 1874-S Chop Mark AU58 PCGS. PCGS Population (12/37). NGC Census: (0/0). PCGS# 87036

8219 1876-CC Doubled Die Reverse, Type 1 Reverse, FS-801 VF35 NGC. NGC Census: (0/27). PCGS Population (1/26). PCGS# 97042

8220 1876-S — Improperly Cleaned — NGC Details. UNC. NGC Census: (17/437). PCGS Population (28/433). Mintage: 5,227,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$850.

8221 1877 AU58 PCGS. PCGS Population (51/247). NGC Census: (63/262). Mintage: 3,039,710. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$575. NGC ID# 253C, PCGS# 7044

8222 1877-CC — Edge Damage — NGC Details. Unc. NGC Census: (5/60). PCGS Population (0/76). Mintage: 534,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$2,400.

8223 1877-S AU53 PCGS. PCGS Population (79/1202). NGC Census: (32/995). Mintage: 9,519,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$310.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 253E, PCGS# 7046

8224 1877-S AU58 PCGS. PCGS Population (244/780). NGC Census: (192/715). Mintage: 9,519,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$535. NGC ID# 253E, PCGS# 7046

8225 1878-CC Good 6 ANACS. NGC Census: (0/80). PCGS Population (1/171). Mintage: 97,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in Good 6: \$444.
From the collection of Donald E. Bently, sold for the benefit of the Bently Foundation. NGC ID# 253F, PCGS# 7047

8226 1878-S Trade AU58 PCGS. PCGS Population (131/444). NGC Census: (131/410). Mintage: 4,162,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$585. NGC ID# 253G, PCGS# 7048

8227 1878-S — Obverse Scratched — NGC Details. Unc. NGC Census: (18/391). PCGS Population (20/424). Mintage: 4,162,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$850.

End Of Session Five

SESSION SIX

Heritage Live!®, Internet, Fax, and Mail Only Session

Sunday, December 8, 2013 | 12:00 PM CT | Dallas | Lots 8228 - 10082

A 17.5% Buyer's Premium (\$14 minimum) Will Be Added To All Lots

To view full descriptions, enlargeable images and bid online, visit HA.com/1192

SPECIAL INTERNET BIDDING FEATURE

Online proxy bidding ends at HA.com two hours prior to the opening of the live auction. Check the Time Remaining on individual lots for details. After Internet proxy bidding closes, live bidding will take place through Heritage Live!®, our bidding software that lets you bid live during the actual auction. Your secret maximum will compete against those bids, and win all ties. To maximize your chances of winning, enter realistic secret maximum bids before live bidding begins. (Important note: Due to software and Internet latency, bids placed through Live Internet Bidding may not register in time and those bidders could lose lots they would otherwise have won, so be sure to place your proxy bids in advance.)

MORGAN DOLLARS

8228 1878 8TF VAM-14.8 — Cleaned — ANACS. XF40 Details; 1878 7TF VAM-113 — Graffiti — ANACS. VF30 Details; 1878 7TF VAM-118 — Cleaned — XF45 Details; 1878 7TF VAM-160 — Cleaned — AU50 Details; 1878 Reverse of 1879, VAM-222B — Cleaned — ANACS. Announcements and corrections from the podium and those made through the Terms and Conditions of Auctions appearing on the Internet at HA.com supersede those in the printed catalog.

Buyer's Premium:

2. All bids are subject to a Buyer's Premium which is in addition to the placed successful bid:
- Seventeen and one-half percent (17.5%) on Currency, US Coin, and World & Ancient Coin Auction lots, except for Gallery Auction lots as noted below;
- Nineteen and one-half percent (19.5%) on Comic, Movie Poster, Sports Collectibles, and Gallery Auction (sealed bid auctions of mostly bulk numismatic material) lots;
- Twenty-two percent (22%) on Wine Auction lots;
- For lots in all other categories not listed above, the Buyer's Premium per lot is twenty-five percent (25%) on the first \$100,000 (minimum \$14), plus twenty percent (20%) of any amount between \$100,000 and \$1,000,000, plus twelve percent (12%) of any amount over \$1,000,000..

Auction Venues:

3. The following Auctions are conducted solely on the Internet: Heritage Weekly Internet Auctions (Coin, Currency, Comics, Rare Books, Jewelry & Watches, Guitars & Musical Instruments, and Vintage Movie Posters); Heritage Monthly Internet Auctions (Sports, World Coins and Rare Wine). Signature® Auctions and Grand Format Auctions accept bids from the Internet, telephone, fax, or mail first, followed by a floor bidding session; HeritageLive! and real-time telephone bidding are available to registered clients during these auctions.

Bidders:

4. Any person participating or registering for the Auction agrees to be bound by and accepts these Terms and Conditions of Auction ("Bidder(s)").
5. All Bidders must meet Auctioneer's qualifications to bid. Any Bidder who is not a client in good standing of the Auctioneer may be disqualified at Auctioneer's sole option and will not be awarded lots. Such determination may be made by Auctioneer in its sole and unlimited discretion, at any time prior to, during, or even after the close of the Auction. Auctioneer reserves the right to exclude any person from the auction.
6. If an entity places a bid, then the person executing the bid on behalf of the entity agrees to personally guarantee payment for any successful bid.

Credit:

7. In order to place bids, Bidders who have not established credit with the Auctioneer must either furnish satisfactory credit information (including two collectibles-related business references) or supply valid credit card information along with a social security number, well in advance of the Auction. Bids placed through our Interactive Internet program will only be accepted from pre-registered Bidders. Bidders who are not members of HA.com or affiliates should preregister at least 48 hours before the start of the first session (exclusive of holidays or weekends) to allow adequate time to contact references. Credit will be granted at the discretion of Auctioneer. Additionally Bidders who have not previously established credit or who wish to bid in excess of their established credit history may be required to provide their social security number or the last four digits thereof so a credit check may be performed prior to Auctioneer's acceptance of a bid. Check writing privileges and immediate delivery of merchandise may also be determined by pre-approval of credit based on a combination of criteria: HA.com history, related industry references, bank verification, a credit bureau report and/or a personal guarantee for a corporate or partnership entity in advance of the auction venue.

Bidding Options:

8. Bids in Signature, Auctions or Grand Format Auctions may be placed as set forth in the printed catalog section entitled "Choose your bidding method." For auctions held solely on the Internet, see the alternatives on HA.com. Review at HA.com/common/howtobid.php.
9. Presentment of Bids: Non-Internet bids (including but not limited to podium, fax, phone and mail bids) are treated similar to floor bids in that they must be on-increment or at a half increment (called a cut bid). Any podium, fax, phone, or mail bids that do not conform to a full or half increment will be rounded up or down to the nearest full or half increment and this revised amount will be considered your high bid.
10. Auctioneer's Execution of Certain Bids. Auctioneer cannot be responsible for your errors in bidding, so carefully check that every bid is entered correctly. When identical mail or FAX bids are submitted, preference is given to the first received. To ensure the greatest accuracy, your written bids should be entered on the standard printed bid sheet and be received at Auctioneer's place of business at least two business days before the Auction start. Auctioneer is not responsible for executing mail bids or FAX bids received on or after the day the first lot is sold, nor Internet bids submitted after the published closing time; nor is Auctioneer responsible for proper execution of bids submitted by telephone, mail, FAX, e-mail, Internet, or in person once the Auction begins. Bids placed electronically via the internet may not be withdrawn until your written request is received and acknowledged by Auctioneer (FAX: 214-443-8425); such requests must state the reason, and may constitute grounds for withdrawal of bidding privileges. Lots won by mail Bidders will not be delivered at the Auction unless prearranged.
11. Caveat as to Bid Increments. Bid increments (over the current bid level) determine the lowest amount you may bid on a particular lot. Bids greater than one increment over the current bid can be any whole dollar amount. It is possible under several circumstances for winning bids to be between increments, sometimes only \$1 above the previous increment. Please see: "How can I lose by less than an increment?" on our website. Bids will be accepted in whole dollar amounts only. No "buy" or "unlimited" bids will be accepted.

The following chart governs current bidding increments for Signature auctions; Internet-only auction bidding increments are approximately half of these amounts (see HA.com/c/ref/web-tips.zx#guidelines-increments).

Current Bid	Bid Increment
< - \$10	\$1
\$10 - \$29	\$2
\$30 - \$49	\$3
\$50 - \$99	\$5
\$100 - \$199	\$10
\$200 - \$299	\$20
\$300 - \$499	\$25
\$500 - \$999	\$50
\$1,000 - \$1,999	\$100
\$2,000 - \$2,999	\$200
\$3,000 - \$4,999	\$250
\$5,000 - \$9,999	\$500

Current Bid	Bid Increment
\$10,000 - \$19,999	\$1,000
\$20,000 - \$29,999	\$2,000
\$30,000 - \$49,999	\$2,500
\$50,000 - \$99,999	\$5,000
\$100,000 - \$199,999	\$10,000
\$200,000 - \$299,999	\$20,000
\$300,000 - \$499,999	\$25,000
\$500,000 - \$999,999	\$50,000
\$1,000,000 - \$4,999,999	\$100,000
\$5,000,000 - \$9,999,999	\$250,000
>\$10,000,000	\$500,000

12. If Auctioneer calls for a full increment, a bidder may request Auctioneer to accept a bid at half of the increment ("Cut Bid") only once per lot. After offering a Cut Bid, bidders may continue to participate only at full increments. Off-increment bids may be accepted by the Auctioneer at Signature® Auctions and Grand Format Auctions. If the Auctioneer solicits bids other than the expected increment, these bids will not be considered Cut Bids.

Conducting the Auction:

13. Notice of the consignor's liberty to place bids on his lots in the Auction is hereby made in accordance with Article 2 of the Texas Business and Commercial Code. A "Minimum Bid" is

an amount below which the lot will not sell. THE CONSIGNOR OF PROPERTY MAY PLACE WRITTEN "Minimum Bids" ON HIS LOTS IN ADVANCE OF THE AUCTION; ON SUCH LOTS, IF THE HAMMER PRICE DOES NOT MEET THE "Minimum Bid", THE CONSIGNOR MAY PAY A REDUCED COMMISSION ON THOSE LOTS. "Minimum Bids" are generally posted online several days prior to the Auction closing. For any successful bid placed by a consignor on his Property on the Auction floor, or by any means during the live session, or after the "Minimum Bid" for an Auction have been posted, we will require the consignor to pay full Buyer's Premium and Seller's Commissions on such lot.

14. The highest qualified Bidder recognized by the Auctioneer shall be the Buyer. In the event of a tie bid, the earliest bid received or recognized wins. In the event of any dispute between any Bidders at an Auction, Auctioneer may at his sole discretion reoffer the lot. Auctioneer's decision and declaration of the winning Bidder shall be final and binding upon all Bidders. Bids properly offered, whether by floor Bidder or other means of bidding, may on occasion be missed or go unrecognized; in such cases, the Auctioneer may declare the recognized bid accepted as the winning bid, regardless of whether a competing bid may have been higher. Auctioneer reserves the right after the hammer fall to accept bids and reopen bidding for bids placed through the Internet or otherwise.
15. Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid, in its sole discretion. A bid is considered not made in "Good Faith" when made by an insolvent or irresponsible person, a person under the age of eighteen, or is not supported by satisfactory credit, collectibles references, or otherwise. Regardless of the disclosure of his identity, any bid by a consignor or his agent on a lot consigned by him is deemed to be made in "Good Faith." Any person apparently appearing on the OFAC list is not eligible to bid.
16. Nominal Bids. The Auctioneer in its sole discretion may reject nominal bids, small opening bids, or very nominal advances. If a lot bearing estimates fails to open for 40-60% of the low estimate, the Auctioneer may pass the item or may place a protective bid on behalf of the consignor.
17. Lots bearing bidding estimates shall open at Auctioneer's discretion (approximately 50%-60% of the low estimate). In the event that no bid meets or exceeds that opening amount, the lot shall pass as unsold.
18. All items are to be purchased per lot as numerically indicated and no lots will be broken. Auctioneer reserves the right to withdraw, prior to the close, any lots from the Auction.
19. Auctioneer reserves the right to rescind the sale in the event of nonpayment, breach of a warranty, disputed ownership, auctioneer's clerical error or omission in exercising bids and reserves, or for any other reason and in Auctioneer's sole discretion. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) and any other damages or expenses pertaining to the lot.
20. Auctioneer occasionally experiences Internet and/or Server service outages, and Auctioneer periodically schedules system downtime for maintenance and other purposes, during which Bidders cannot participate or place bids. If such outages occur, we may at our discretion extend bidding for the Auction. Bidders unable to place their Bids through the Internet are directed to contact Client Services at 877-HERITAGE (437-4824).
21. The Auctioneer, its affiliates, or their employees consign items to be sold in the Auction, and may bid on those lots or any other lots. Auctioneer or affiliates expressly reserve the right to modify any such bids at any time prior to the hammer based upon data made known to the Auctioneer or its affiliates. The Auctioneer may extend advances, guarantees, or loans to certain consignors.
22. The Auctioneer has the right to sell certain unsold items after the close of the Auction. Such lots shall be considered sold during the Auction and all these Terms and Conditions shall apply to such sales including but not limited to the Buyer's Premium, return rights, and disclaimers.

Payment:

23. All sales are strictly for cash in United States dollars (including U.S. currency, bank wire, cashier checks, travelers checks, eChecks, and bank money orders, and are subject to all reporting requirements). All deliveries are subject to good funds; funds being received in Auctioneer's account before delivery of the Purchases; and all payments are subject to a clearing period. Auctioneer reserves the right to determine if a check constitutes "good funds": checks drawn on a U.S. bank are subject to a ten business day hold, and thirty days when drawn on an international bank. Clients with pre-arranged credit status may receive immediate credit for payments via eCheck, personal or corporate checks. All others will be subject to a hold of 5 days, or more, for the funds to clear prior to releasing merchandise. (ref. T&C item 7 Credit for additional information.) Payments can be made 24-48 hours post auction from the My Orders page of the HA.com website.
24. Payment is due upon closing of the Auction session, or upon presentment of an invoice. Auctioneer reserves the right to void an invoice if payment in full is not received within 7 days after the close of the Auction. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) on the lot and any other damages pertaining to the lot.
25. Lots delivered to you, or your representative in the States of Texas, California, New York, or other states where the Auction may be held, are subject to all applicable state and local taxes, unless appropriate permits are on file with Auctioneer. (Note: Coins are only subject to sales tax in California on invoices under \$1500 and there is no sales tax on coins in Texas) Bidder agrees to pay Auctioneer the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by Auctioneer five days prior to Auction or tax must be paid; only if such form or certificate is received by Auctioneer within 4 days after the Auction can a refund of tax paid be made. Lots from different Auctions may not be aggregated for sales tax purposes..
26. In the event that a Bidder's payment is dishonored upon presentment(s), Bidder shall pay the maximum statutory processing fee set by applicable state law. If you attempt to pay via eCheck and your financial institution denies this transfer from your bank account, or the payment cannot be completed using the selected funding source, you agree to complete payment using your credit card on file.
27. If any Auction invoice submitted by Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law from the date of invoice until paid. Any invoice not paid when due will bear a three percent (3%) late fee on the invoice amount or three percent (3%) of any installment that is past due. If the Auctioneer refers any invoice to an attorney for collection, the buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by Auctioneer. If Auctioneer assigns collection to its in-house legal staff, such attorney's time expended on the matter shall be compensated at a rate comparable to the hourly rate of independent attorneys.
28. In the event a successful Bidder fails to pay any amounts due, Auctioneer reserves the right to sell the lot(s) securing the invoice to any underbidders in the Auction that the lot(s) appeared, or at subsequent private or public sale, or relist the lot(s) in a future auction conducted by Auctioneer. A defaulting Bidder agrees to pay for the reasonable costs of resale (including a 10% seller's commission, if assigned to an auction conducted by Auctioneer). The defaulting Bidder is liable to pay any difference between his total original invoice for the lot(s), plus any applicable interest, and the net proceeds for the lot(s) if sold at private sale or the subsequent hammer price of the lot(s) less the 10% seller's commissions, if sold at an Auctioneer's auction.
29. Auctioneer reserves the right to require payment in full in good funds before delivery of the merchandise.
30. Auctioneer shall have a lien against the merchandise purchased by the buyer to secure payment of the Auction invoice. Auctioneer is further granted a lien and the right to retain possession of any other property of the buyer then held by the Auctioneer or its affiliates to secure payment of any Auction invoice or any other amounts due the Auctioneer or affiliates from the buyer. With respect to these lien rights, Auctioneer shall have all the rights of a secured creditor

Terms and Conditions of Auction

- under Article 9 of the Texas Uniform Commercial Code, including but not limited to the right of sale. In addition, with respect to payment of the Auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice. If a Bidder owes Auctioneer or its affiliates on any account, Auctioneer and its affiliates shall have the right to offset such unpaid account by any credit balance due Bidder, and it may secure by possessory lien any unpaid amount by any of the Bidder's property in their possession.
31. Title shall not pass to the successful Bidder until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the items once they have been delivered to a common carrier or third-party shipper.

Delivery; Shipping; and Handling Charges:

32. Buyer is liable for shipping and handling. Please refer to Auctioneer's website www.HA.com/common/shipping.php for the latest charges or call Auctioneer. Auctioneer is unable to combine purchases from other auctions or affiliates into one package for shipping purposes. Lots won will be shipped in a commercially reasonable time after payment in good funds for the merchandise and the shipping fees is received or credit extended, except when third-party shipment occurs. Buyer agrees that Service and Handling charges related to shipping items which are not pre-paid may be charged to the credit card on file with Auctioneer.
33. Successful international Bidders shall provide written shipping instructions, including specified customs declarations, to the Auctioneer for any lots to be delivered outside of the United States. NOTE: Declaration value shall be the item(s) hammer price together with its buyer's premium and Auctioneer shall use the correct harmonized code for the lot. Domestic Buyers on lots designated for third-party shipment must designate the common carrier, accept risk of loss, and prepay shipping costs.
34. All shipping charges will be borne by the successful Bidder. On all domestic shipments, any risk of loss during shipment will be borne by Heritage until the shipping carrier's confirmation of delivery to the address of record in Auctioneer's file (carrier's confirmation is conclusive to prove delivery to Bidder; if the client has a Signature release on file with the carrier, the package is considered delivered without Signature) or delivery by Heritage to Bidder's selected third-party shipper. On all foreign shipments, any risk of loss during shipment will be borne by the Bidder following Auctioneer's delivery to the Bidder's designated common carrier or third-party shipper.
35. Due to the nature of some items sold, it shall be the responsibility for the successful Bidder to arrange pick-up and shipping through third-parties; as to such items Auctioneer shall have no liability. Failure to pick-up or arrange shipping in a timely fashion (within ten days) shall subject Lots to storage and moving charges, including a \$100 administration fee plus \$10 daily storage for larger items and \$5.00 daily for smaller items (storage fee per item) after 35 days. In the event the Lot is not removed within ninety days, the Lot may be offered for sale to recover any past due storage or moving fees, including a 10% Seller's Commission.
- 36A. The laws of various countries regulate the import or export of certain plant and animal properties, including (but not limited to) items made of (or including) ivory, whalebone, turtle shell, coral, crocodile, or other wildlife. Transport of such lots may require special licenses for export, import, or both. Bidder is responsible for: 1) obtaining all information on such restricted items for both export and import; 2) obtaining all such licenses and/or permits. Delay or failure to obtain any such license or permit does not relieve the buyer of timely compliance with standard payment terms. For further information, please contact Ron Brackemyre at 800- 872-6467 ext. 1312.
- 36B. Auctioneer shall not be liable for any loss caused by or resulting from:
- a. Seizure or destruction under quarantine or Customs regulation, or confiscation by order of any Government or public authority, or risks of contraband or illegal transportation of trade, or
 - b. Breakage of statuary, marble, glassware, bric-a-brac, porcelains, jewelry, and similar fragile articles
37. Any request for shipping verification for undelivered packages must be made within 30 days of shipment by Auctioneer.

Cataloging, Warranties and Disclaimers:

38. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY DESCRIPTION CONTAINED IN THIS AUCTION OR ANY SECOND OPINE. Any description of the items or second opine contained in this Auction is for the sole purpose of identifying the items for those Bidders who do not have the opportunity to view the lots prior to bidding, and no description of items has been made part of the basis of the bargain or has created any express warranty that the goods would conform to any description made by Auctioneer. Color variations can be expected in any electronic or printed imaging, and are not grounds for the return of any lot. NOTE: Auctioneer, in specified auction venues, for example, Fine Art, may have express written warranties and you are referred to those specific terms and conditions. .
39. Auctioneer is selling only such right or title to the items being sold as Auctioneer may have by virtue of consignment agreements on the date of auction and disclaims any warranty of title to the Property. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes. All images, descriptions, sales data, and archival records are the exclusive property of Auctioneer, and may be used by Auctioneer for advertising, promotion, archival records, and any other uses deemed appropriate.
40. Translations of foreign language documents may be provided as a convenience to interested parties. Auctioneer makes no representation as to the accuracy of those translations and will not be held responsible for errors in bidding arising from inaccuracies in translation.
41. Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any Property by Auctioneer to Bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the Bidder and may not be assigned. Any statement made by the Auctioneer is an opinion and does not constitute a warranty or representation. No employee of Auctioneer may alter these Terms and Conditions, and, unless signed by a principal of Auctioneer, any such alteration is null and void.
42. Auctioneer shall not be liable for breakage of glass or damage to frames (patent or latent); such defects, in any event, shall not be a basis for any claim for return or reduction in purchase price.

Release:

43. In consideration of participation in the Auction and the placing of a bid, Bidder expressly releases Auctioneer, its officers, directors and employees, its affiliates, and its outside experts that provide second opinions, from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned description, or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Auction or otherwise. In the event of a claim, Bidder agrees that such rights and privileges conferred therein are strictly construed as specifically declared herein; e.g., authenticity, typographical error, etc. and are the exclusive remedy. Bidder, by non-compliance to these express terms of a granted remedy, shall waive any claim against Auctioneer.
44. Notice: Some Property sold by Auctioneer are inherently dangerous e.g. firearms, cannons, and small items that may be swallowed or ingested or may have latent defects all of which may cause harm to a person. Purchaser accepts all risk of loss or damage from its purchase of these items and Auctioneer disclaims any liability whether under contract or tort for damages and losses, direct or consequential, and expressly disclaims any warranty as to safety or usage of any lot sold.

Dispute Resolution and Arbitration Provision:

45. By placing a bid or otherwise participating in the auction, Bidder accepts these Terms and Conditions of Auction, and specifically agrees to the dispute resolution provided herein. Consumer disputes shall be resolved through court litigation which has an exclusive Dallas, Texas venue clause and jury waiver. Non-consumer dispute shall be determined in binding arbitration which arbitration replaces the right to go to court, including the right to a jury trial.

46. Auctioneer in no event shall be responsible for consequential damages, incidental damages, compensatory damages, or any other damages arising or claimed to be arising from the auction of any lot. In the event that Auctioneer cannot deliver the lot or subsequently it is established that the lot lacks title, or other transfer or condition issue is claimed, in such cases the sole remedy shall be limited to rescission of sale and refund of the amount paid by Bidder; in no case shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot. After one year has elapsed, Auctioneer's maximum liability shall be limited to any commissions and fees Auctioneer earned on that lot.
47. In the event of an attribution error, Auctioneer may at its sole discretion, correct the error on the Internet, or, if discovered at a later date, to refund the buyer's purchase price without further obligation.
48. Exclusive Dispute Resolution Process: All claims, disputes, or controversies in connection with, relating to and /or arising out of your Participation in the Auction or purchase of any lot, any interpretation of the Terms and Conditions of Sale or any amendments thereto, any description of any lot or condition report, any damage to any lot, any alleged verbal modification of any term of sale or condition report or description and/or any purported settlement whether asserted in contract, tort, under Federal or State statute or regulation or any claim made by you of a lot or your Participation in the auction involving the auction or a specific lot involving a warranty or representation of a consignor or other person or entity including Auctioneer { which claim you consent to be made a party} (collectively, "Claim") shall be exclusively heard by, and the claimant (or respondent as the case may be) and Heritage each consent to the Claim being presented in a confidential binding arbitration before a single arbitrator administrated by and conducted under the rules of, the American Arbitration Association. The locale for all such arbitrations shall be Dallas, Texas. The arbitrator's award may be enforced in any court of competent jurisdiction. If a Claim involves a consumer, exclusive subject matter jurisdiction for the Claim is in the State District Courts of Dallas County, Texas and the consumer consents to subject matter and in personam jurisdiction; further CONSUMER EXPRESSLY WAIVES ANY RIGHT TO TRIAL BY JURY. A consumer may elect arbitration as specified above. Any claim involving the purchase or sale of numismatic or related items may be submitted through binding PNG arbitration. Any Claim must be brought within two (2) years of the alleged breach, default or misrepresentation or the Claim is waived. Exemplary or punitive damages are not permitted and are waived. A Claim is not subject to class certification. Nothing herein shall be construed to extend the time of return or conditions and restrictions for return. This Agreement and any Claim shall be determined and construed under Texas law. The prevailing party (a party that is awarded substantial and material relief on its damage claim based on damages sought vs. awarded or the successful defense of a Claim based on damages sought vs. awarded) may be awarded its reasonable attorneys' fees and costs.
49. No claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the Bidder and consignor without involvement or responsibility of the Auctioneer.
50. In consideration of their participation in or application for the Auction, a person or entity (whether the successful Bidder, a Bidder, a purchaser and/or other Auction participant or registrant) agrees that all disputes in any way relating to, arising under, connected with, or incidental to these Terms and Conditions and purchases, or default in payment thereof, shall be arbitrated pursuant to the arbitration provision. In the event that any matter including actions to compel arbitration, construe the agreement, actions in aid or arbitration or otherwise needs to be litigated, such litigation shall be exclusively in the Courts of the State of Texas, in Dallas County, Texas, and if necessary the corresponding appellate courts. For such actions, the successful Bidder, purchaser, or Auction participant also expressly submits himself to the personal jurisdiction of the State of Texas.
51. These Terms & Conditions provide specific remedies for occurrences in the auction and delivery process. Where such remedies are afforded, they shall be interpreted strictly. Bidder agrees that any claim shall utilize such remedies; Bidder making a claim in excess of those remedies provided in these Terms and Conditions agrees that in no case whatsoever shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot.

Miscellaneous:

52. Agreements between Bidders and consignors to effectuate a non-sale of an item at Auction, inhibit bidding on a consigned item to enter into a private sale agreement for said item, or to utilize the Auctioneer's Auction to obtain sales for non-selling consigned items subsequent to the Auction, are strictly prohibited. If a subsequent sale of a previously consigned item occurs in violation of this provision, Auctioneer reserves the right to charge Bidder the applicable Buyer's Premium and consignor a Seller's Commission as determined for each auction venue and by the terms of the seller's agreement.
53. Acceptance of these Terms and Conditions qualifies Bidder as a client who has consented to be contacted by Heritage in the future. In conformity with "do-not-call" regulations promulgated by the Federal or State regulatory agencies, participation by the Bidder is affirmative consent to being contacted at the phone number shown in his application and this consent shall remain in effect until it is revoked in writing. Heritage may from time to time contact Bidder concerning sale, purchase, and auction opportunities available through Heritage and its affiliates and subsidiaries.
54. Rules of Construction: Auctioneer presents properties in a number of collectible fields, and as such, specific venues have promulgated supplemental Terms and Conditions. Nothing herein shall be construed to waive the general Terms and Conditions of Auction by these additional rules and shall be construed to give force and effect to the rules in their entirety.

State Notices:

Notice as to an Auction in California. Auctioneer has in compliance with Title 2.95 of the California Civil Code as amended October 11, 1993 Sec. 1812.600, posted with the California Secretary of State its bonds for it and its employees, and the auction is being conducted in compliance with Sec. 2338 of the Commercial Code and Sec. 535 of the Penal Code.

Notice as to an Auction in New York City. These Terms and Conditions of Sale are designed to conform to the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This sale is a Public Auction Sale conducted by Heritage Auctioneers & Galleries, Inc. # 41513036. The New York City licensed auctioneers are: Sam Foose, #095260; Kathleen Guzman, #0762165; Nicholas Daves, #1304724; Ed Beardsley, #1183220; Scott Peterson, #1306933; Andrea Voss, #1320558, who will conduct the Sale on behalf of itself and Heritage Numismatic Auctions, Inc. (for Coins) and Currency Auctions of America, Inc. (for currency). All lots are subject to: the consignor's rights to bid thereon in accord with these Terms and Conditions of Sale, consignor's option to receive advances on their consignments, and Auctioneer, in its sole discretion, may offer limited extended financing to registered bidders, in accord with Auctioneer's internal credit standards. A registered bidder may inquire whether a lot is subject to an advance or a reserve. Auctioneer has made advances to various consignors in this sale. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders.

Notice as to an Auction in Texas. In compliance with TDLR rule 67.100(c)(1), notice is hereby provided that this auction is covered by a Recovery Fund administered by the Texas Department of Licensing and Regulation, P.O. Box 12157, Austin, Texas 78711 (512) 463-6599. Any complaints may be directed to the same address.

Notice as to an Auction in Ohio: Auction firm and Auctioneer are licensed by the Dept. of Agriculture, and either the licensee is bonded in favor of the state or an aggrieved person may initiate a claim against the auction recovery fund created in Section 4707.25 of the Revised Code as a result of the licensee's actions, whichever is applicable.

Terms and Conditions of Auction

Additional Terms & Conditions:

COINS & CURRENCY

COINS and CURRENCY TERM A: Signature. Auctions are not on approval. No certified material may be returned because of possible differences of opinion with respect to the grade offered by any third-party organization, dealer, or service. No guarantee of grade is offered for uncertified Property sold and subsequently submitted to a third-party grading service. There are absolutely no exceptions to this policy. Under extremely limited circumstances, (e.g. gross cataloging error) a purchaser, who did not bid from the floor, may request Auctioneer to evaluate voiding a sale: such request must be made in writing detailing the alleged gross error; submission of the lot to the Auctioneer must be pre-approved by the Auctioneer; and bidder must notify Ron Brackemyre (1-800-8726467 Ext. 1312) in writing of such request within three (3) days of the non-floor bidder's receipt of the lot. Any lot that is to be evaluated must be in our offices within 30 days after Auction. Grading or method of manufacture do not qualify for this evaluation process nor do such complaints constitute a basis to challenge the authenticity of a lot. AFTER THAT 30-DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN AUTHENTICITY. Lots returned must be housed intact in their original holder. No lots purchased by floor Bidders may be returned (including those Bidders acting as agents for others) except for authenticity. Late remittance for purchases may be considered just cause to revoke all return privileges.

COINS and CURRENCY TERM B: Auctions conducted solely on the Internet THREE (3) DAY RETURN POLICY: Certified Coin and Uncertified and Certified Currency lots paid for within seven days of the Auction closing are sold with a three (3) day return privilege unless otherwise noted in the description as "Sold As Is, No Return Lot". You may return lots under the following conditions: Within three days of receipt of the lot, you must first notify Auctioneer by contacting Client Service by phone (877-HERITAGE (437-4824)) or e-mail (Bid@HA.com), and immediately ship the lot(s) fully insured to the attention of Returns, Heritage, 3500 Maple Avenue, 17th Floor, Dallas TX 75219-3941. Lots must be housed intact in their original holder and condition. You are responsible for the insured, safe delivery of any lots. A non-negotiable return fee of 5% of the purchase price (\$10 per lot minimum) will be deducted from the refund for each returned lot or billed directly. Postage and handling fees are not refunded. After the three-day period (from receipt), no items may be returned for any reason. Late remittance for purchases revokes these Return privileges.

COINS and CURRENCY TERM C: Bidders who have inspected the lots prior to any Auction, or attended the Auction, or bid through an Agent, will not be granted any return privileges, except for reasons of authenticity.

COINS and CURRENCY TERM D: Coins sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that they are genuine. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Numismatic Guaranty Corporation (NGC), P.O. Box 4776, Sarasota, FL 34230, <http://www.ngccoin.com/services/writtenguarantee.asp>; Professional Coin Grading Service (PCGS), PO Box 9458, Newport Beach, CA 92658, <http://www.pcgs.com/guarantee.html>; ANACS, 6555 S. Kenton St. Ste. 303, Englewood, CO 80111; and Independent Coin Grading Co. (ICG), 7901 East Bellevue Ave., Suite 50, Englewood, CO 80111.

COINS and CURRENCY TERM E: Notes sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for guarantee by Auctioneer that they are genuine. Grading, condition or other attributes of any lot may have a material effect on its value, and the opinion of others, including third-party grading services such as PCGS Currency, PMG, and CGA may differ with that of Auctioneer. Auctioneer shall not be bound by any prior or subsequent opinion, determination, or certification by any grading service. Bidder specifically waives any claim to right of return of any item because of the opinion, determination, or certification, or lack thereof, by any grading service. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Paper Money Guaranty (PMG), PO Box 4711, Sarasota FL 34230; PCGS Currency, PO Box 9458, Newport Beach, CA 92658; Currency Grading & Authentication (CGA), PO Box 418, Three Bridges, NJ 08887. Third party graded notes are not returnable for any reason whatsoever.

COINS and CURRENCY TERM F: Since we cannot examine encapsulated coins or notes, they are sold

"as is" without our grading opinion, and may not be returned for any reason. Auctioneer shall not be liable for any patent or latent defect or controversy pertaining to or arising from any encapsulated collectible. In any such instance, purchaser's remedy, if any, shall be solely against the service certifying the collectible.

COINS and CURRENCY TERM G: Due to changing grading standards over time, differing interpretations, and to possible mishandling of items by subsequent owners, Auctioneer reserves the right to grade items differently than shown on certificates from any grading service that accompany the items. Auctioneer also reserves the right to grade items differently than the grades shown in the prior catalog should such items be redesignated to any future auction.

COINS and CURRENCY TERM H: Although consensus grading is employed by most grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a lot is broken out of a plastic holder and resubmitted to another grading service or even to the same service, the lot could come back with a different grade assigned.

COINS and CURRENCY TERM I: Certification does not guarantee protection against the normal risks associated with potentially volatile markets. The degree of liquidity for certified coins and collectibles will vary according to general market conditions and the particular lot involved. For some lots there may be no active market at all at certain points in time.

COINS and CURRENCY TERM J: All non-certified coins and currency are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion, an art and not a science, and therefore the opinion rendered by the Auctioneer or any third party grading service may not agree with the opinion of others (including trained experts), and the same expert may not grade the same item with the same grade at two different times. Auctioneer has graded the non-certified numismatic items, in the Auctioneer's opinion, to their current interpretation of the American Numismatic Association's standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of any grading service at any time in the future.

COINS and CURRENCY TERM K: Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

COINS and CURRENCY TERM L: NOTE: Purchasers of rare coins or currency through Heritage have available the option of arbitration by the Professional Numismatists Guild (PNG); if an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. Arbitration.

COINS and CURRENCY TERM M: For more information regarding Canadian lots attributed to the Charlton reference guides, please contact: Charlton International, PO Box 820, Station Willowdale B, North York, Ontario M2K 2R1 Canada.

COINS and CURRENCY TERM N: Some of the lots offered herein have been assigned to 1031 Services, Inc. for the purpose of consignor's tax deferred exchange.

For wiring instructions call the Credit department at 877-HERITAGE (437-4824) or e-mail: CreditDept@HA.com

New York State Auctions Only

Notice as to an Auction in New York City. These Terms and Conditions of Sale are designed to conform to the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This sale is a Public Auction Sale conducted by Heritage Auctioneers & Galleries, Inc. # 41513036. The New York City licensed auctioneers are: Sam Foose, #095260; Kathleen Guzman, #0762165; Nicholas Dawes, #1304724; Ed Beardsley, #1183220; Scott Peterson, #1306933; Andrea Voss, #1320558, Michael J. Sadler, # 1304630, who will conduct the Sale on behalf of itself and Heritage Numismatic Auctions, Inc. (for Coins) and Currency Auctions of America, Inc. (for currency). All lots are subject to: the consignor's rights to bid thereon in accord with these Terms and Conditions of Sale, consignor's option to receive advances on their consignments, and Auctioneer, in its sole discretion, may offer limited extended financing to registered bidders, in accord with Auctioneer's internal credit standards. A registered bidder may inquire whether a lot is subject to an advance or a reserve. Auctioneer has made advances to various consignors in this sale. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders. Rev 11-19-12

AUCTIONS

It Starts with the Right Web Address

Like beach-front properties, premium domain names are the most desirable pieces of Internet real estate. Accordingly, the world's largest marketers and corporations regularly compete to acquire highly sought after web addresses. Addressing this considerable demand, Heritage Auctions is launching its first Domain Name and Intellectual Property auction.

- A domain name is a company's Internet identity, shaping its brand and bestowing instant credibility.
- Premium domain names help businesses rank higher on search engines.
- The right URL has unmatched advertising potential, conveying exactly what kind of business you operate.
- Domain names are unique alternative investments for individuals seeking to diversify their holdings. Premium names — such as Pizza.com, CreditCards.com, Shop.com and Hotels.com — have each sold for well over \$1 million. Visit HA.com/Domains or call us today to learn more about owning or consigning digital real estate.

Rare Original 1861 Confederate Cent, Certified By PCGS And One Of Just 13 Known, IS COMING TO AUCTION

Civil War treasure among the great rarities of the Confederacy; First time on the market since 1974; Fully certified by Professional Coin Grading Service (PCGS), the most respected third-party grading service for coins

One of just 16 known original 1861 Confederate Cents will be coming to auction on January 9, 2014 as part of The Noble Family Collection to be offered at the Florida United Numismatists Auction.

This Civil War rarity relating to a never-accomplished coinage for the Confederacy is the stuff of legend, with fact and fiction equally interwoven into its storied history. What is for certain about this piece is that it is indeed one of the original Confederate cents struck – possibly the very first, out of just 13 known – and that it has been graded Proof 63 by PCGS, the most respected third-party grading service for coins and the service responsible for grading legendary U.S. coins with significant history and value, like the fabled 1804 dollar and the 1913 Liberty nickel, separate examples of which have brought millions of dollars at auction.

From The Noble Family Collection

1861 Original Confederate Cent, PR63 Secure

LUXURY REAL ESTATE AUCTIONS

Feeling pressured to continually lower your list price?

Maybe it's time to move beyond the conventional real estate model to solve your selling dilemma.

Heritage Auctions is now the only top-tier auction house that holds luxury real estate auctions. We offer a powerful platform that reaches a client base of more than 750,000 members worldwide.

Benefits of selling at auction include:

- Your property is guaranteed to be sold within 60-90 days
- High carrying costs such as mortgage payments, insurance, taxes, utilities, HOA dues, membership fees and upkeep will stop
- Selling at auction creates a competitive bidding environment in which fully qualified and motivated buyers participate in a transparent, non-contingent sale

To learn how Heritage Auctions can help you realize the highest attainable selling price for your property listed at \$2.5 million or above, email **LuxuryEstates@HA.com** or call **855-261-0573**.
